To Civil Affairs Section.

The attached photographs are forwarded to you for your information.

2. In connection with the question of propaganda, a visit was received yesterday from Capt. Astley, PWB, who is in control of the PURNCE radio. They have naturally heard of the efforts that are being made by AC to deal with the Patriot problem and they have asked to be supplied with full information on this subject in order that they may put over certain announcements on the radio to prove that, contrary to general belief, the patriot is receiving very special consideration when he arrives on our side of the lines.

3. Capt. Astley is calling back on 12 Jan. for a reply.

4. May we please have directions on the subject.

Patriot Branch.

I think we should wait until we know, by the time of the Af. War. directive was being prepared, exactly what we have to offer patriots before we make them any promises.

your information.

2. In connection with the question of propaganda, a visit was received yesterday from Capt. Astley, PWB, who is in control of the FLORENCE radio. They have naturally heard of the efforts that are being made by AG to deal with the Patriot problem and they have asked to be supplied with full information on this subject in order that they may put over certain announcements on the radio to prove that, contrary to general belief, the patriot is receiving very special consideration when he arrives on our side of the lines.

3. Capt. Astley is calling back on 12 Jan. for a reply.

SUBJECT: Pictures for AC/AMG Activities

TO: Civil Affairs Section
Economic Section
Communications Sub-Commission
War Materials Disposal & IPOW Sub-Commission

1. The Public Relations Branch is anxious to get pictures of AC/AMG activities to send to various publications in Great Britain and the United States and to accompany stories which will be prepared by this branch for newspapers or magazines, including technical and professional publications.
2. Each Sub-Commission is invited to suggest picture possibilities as regards activities with which it is concerned. This may be an activity which was put out of operation by war damage but which will be rehabilitated in the near future. Or, it may be of work being done on some activity which has just gone into operation.
3. One of the things we are looking for is "before and after" pictures. A picture taken now of work in progress coupled with another picture taken three or five months hence of the same activity in operation makes possible an interesting story which might well warrant attention.
4. To this end it is suggested that each Sub-Commission compile a list of activities which are believed to warrant pictures. The list should indicate the nature of the operation, its current status, its location, and when would be the best time to photograph it.
5. Your cooperation will be appreciated and will greatly facilitate our job of representing AC/AMG activities accurately. We may have some difficulty in arranging to take pictures of all the subjects suggested, but will do our best.
