H.Q. PUBLIC RELATIONS
Central Mediterranean Force

9 July '45.

2/PR/12

TO : Mr. G. Stewart Brown,
Public Relations Officer,
Allied Commission.

Dear *Stewart Brown*.

I was perhaps precipitate when I rang you this morning as I had not then obtained the comments of Eighth Army on the free movement of correspondents in Italy. Fifth Army have already agreed to there being no restrictions in North and North-Western Italy but the problem of VENEZIA GIULIA remains.

I have today signalled my DDEPR Eighth Army requesting him to contact Thirteenth Corps so that they may be able to express their views. In this signal I mentioned that Tanjug has set up a news service in Trieste, the implication being that if this is the case, Italians should be allowed similar facilities. 674

In my own opinion, all Allied correspondents should now be permitted entry into this province but that Italians, if Thirteenth Corps agree, should be limited to representatives of their three Agencies. This, I understand, is borne out by you in a conversation which you had with Major Nicholls this afternoon.

So soon as I hear from Eighth Army in reply to my signal, I will draft a signal to all concerned which I will submit for your approval before sending. A.

Yours *Sincerely*
Philip Barker

SUBJECT : Accreditation of Mr. Francis C. Fuerst.

TO : G-5 AFHQ
Attn Major Weidman.

1. Mr. Francis C. Fuerst has asked accreditation to function as a photographer agent for the Black Star Publishing Co, Inc of New York and London and Paul Guilla-mette of New York.

2. He encloses letters to show that he is authorized by these agencies. However since he has not submitted accreditation from the London Office we have written asking him to do so, informing him that meanwhile we would prepare to give him an AC Political correspondent's card once his identity was established. 672

3. Major H.J. French, o/o Chief INC, AFHQ has been sent a copy of a letter of Lt.Col. G.A.I. Helder, ADHQ PRO, dated 16 May 1945 on this matter.

SUBJECT : Request for accreditation.

TO : Francis C. Fuerst
c/o Legal Office AMG Siena.

1. Your letter of April 3d has come to us through channels.
2. In order to be properly authorized it would be advisable to ask your Agency in London to contact the Foreign Office and have them inform AFHQ of your status.
3. In the meanwhile we are prepared to issue an AC correspondent's card. However before doing that it is necessary to know something about your identity. It is not clear from your letter what your nationality is. If Italian we must ask you to submit biographical data, two photographs and a completed Boheda personale which we enclose. If you are British or American only the photo-871graphs are necessary.

Subject: Italian Civilian correspondents.

16th May, 1945.

TO:- Mr. G. Stewart Brown,
Public Relations Director,
Allied Commission.

I enclose a letter from the Civil Censorship Group of your Commission with a request that:-

- (1) Mr. FRANCIS C. FURST should have facilities to function as a photographic agent for The Black Star Publishing Coy, Inc. of New York and London and Paul Guillumette, Inc. of New York.
- (2) You will notice that there is no indication as to how it is proposed the pictures should be transmitted to London and New York. Until radio picture transmission becomes commercially available to the Italians, the only method of transmission would presumably be by ordinary post.
- (3) The matter of course comes within your province and not that of PRO, AFHQ as stated by Censorship Group, A.C.

I presume that in a case like this you would approach both London and Washington. If my memory is correct, the Black Star Publishing Coy, LONDON, was on the War Office and M of I "black list" when I left England last July.

I am sending a copy of this letter to our officer, Major H.J. French, who is with General McChrystal at Caserta, so that if the matter eventually reaches AFHQ, he knows what it is all about.

Dear Sir:

I had two letters from two Press Agencies in New-York City, with which I used to work before the war. I enclose copy and an extract of each letter together with enclosure (letters to AMG Florence).

I should be very much obliged if you would kindly let me know under what conditions I could obtain permission to send my pictures both, to the American and the British Press, and whether there are any restrictions which I have to comply with.

In awaiting your instructions.

very truly yours,

EXTRACT FROM A LETTER, DATED FEBRUARY 23, 1945

FROM: BLACK STAR Publishing Company Inc., 420 Lexington Avenue,
Graybar Building. NEW-YORK.
TO: FRANCIS C. FUERST.

Dear Mr. Fuerst:

We are very glad to get your card of December 20 and to hear from you. We are pleased to learn that you are well and that you expect to take up your professional work as soon as possible.

We would very much like to get pictures from Italy as soon as these can be sent. Hardly any pictures of the non-combat zone of Italy have come through to the United States, and as you probably know, the chances to get pictures of that kind published here are enormous since every magazine in this country would like to get some material.

We are sending you the enclosed letter addressed to the Allied Military Government in Florence, which you may submit and which may be of help. We have no idea if and under what conditions they would give permission to take pictures. No doubt you have to submit them to the Allied Censorship and there may be other restrictions which you will have to comply with.

- - - - -
- - - - -
I hardly think that we have to tell you what the American reader is interested in the way of pictures from Italy. Everything that deals with the present and difficult economic and political situation in that country is salable. We would like to get pictures of leading personalities in the democratic government; we would like to see how people in Florence build up their new democratic life; even pictures showing Florence now; pictures of reconstruction; of works of art and architecture; others showing the life and activities of American soldiers in Florence on a furlough or for

rest periods, etc. Of course, we know that all of these could only be photographed with the permission and under certain restrictions if the Allied Military Government, and we hope this can be secured.

Since you do not mention it, we presume that you have filmmaterial and also facilities to develop and print your pictures.

We want to call your attention to the fact that our London office at

Cliffords Inn

Gentlemen:

This is to inform you that the bearer of this letter, Mr.FRANCIS C. FUERST, has been known to us as a photographer for many years.

He was working as photographer in Italy before the war started and presented interesting photographic material to us for sale in the United States papers, and magazines, and it was continually published.

We would ^{be} very thankful to you for any facilities you may grant to him for his future work as photographer.

Very truly yours,

Mr. Francis C. Fuerst who has been our associate photographer since 1939 has renewed his contact with us, and is now located at Via del Castello 12. San Gimignano, Siena.

As we service picture syndicates, newspapers, and magazines throughout U.S.A. and Canada, his productions may be considered as constructive propaganda for the Allied cause. Therefore we wish to ask you to facilitate his professional work while he is in Italy.

We thank you very much by anticipation for the courtesy.

SUBJECT: Dispatch to New York Times

TO : Major Lionel Fulmer
Public Relations
ALLIED CONTROL COMMISSION

1. The subject matter of your memorandum of 19 October has been communicated to Mr. Matthews of the "New York Times".

Mr. Matthews strongly denied that he had in any way misrepresented the situation in the article referred to and had the following observations to make.

- (i) Your memo was written on the day that 19 Italians were killed and 104 wounded in Palermo. Also, that the "Unita" called attention to the killed and wounded peasants near Avemano and, incidentally, along with the "Avanti", referred to previous incidents such as Licata, Grosseto, Reggio and another which Mr. Matthews was unable to recall.
- (ii) In his article, in which he described the alleged incident of brigandage, when the driver of the automobile was killed, he introduced the words "was told me this morning" and the fact that the whole story of general unrest was based upon this incident is denied by him in view of the incidents quoted in para (i).
- (iii) Mr. Matthews maintains that anybody has only to go through the newspapers in recent months to find dozens of incidents of unrest and violence.

2. You will appreciate that I am only passing on Mr. Matthews' comments, with which I do not associate myself. Not being acquainted with the political side of recent events in Italy, it is hard for me to argue with, or refute, statements made by him. I cannot help feeling that the wisest course would be for you to see him personally in order to correct with him the reportage in general of the troubles he claims are taking place.

RE: : Despatch to New York Times

TO : Lt. Colonel S.A.L. Heller, ADPR, AFM, PEO

1. On September 23, officers of the New York Times filed a lengthy despatch about what he called "the first open public demand that ACC should leave Italy." Officers note that "the New York Times was in a position to say that the Jewish-Americans were not alone in their criticisms of A.C.C. Italy, without exaggeration, was in an alarming state of misery and poverty, with a consequent degree of lawlessness that could only be understood by the piling on top of each other of Jewish and Jewish of known instances throughout the whole liberated zone. He then went on to quote a case of brigandage on a regular road bus, run from a provincial town to Naples one night about a week ago. The passengers were robbed and then leaving one of the brigands told them "I forgot to tell you, but you will find the chauffeur's body under the front wheel."
2. It appeared that officers' "very violent indignations" - e.g. "Jews and dozens of instances" - were based on one example. We have, since September 23, made very careful enquiries in Southern Region to find out whether in fact such an incident ever did occur, or whether even there was any incident remotely similar which might have led to an exaggerated story. After an exhaustive enquiry throughout the province, it is absolutely clear that no such incident - and no case of "autobus brigandage" - ever occurred.
3. You will appreciate, I am sure, that some action is called for when the responsible correspondent of an influential paper bases such a violent attack on one ill story which turns out to be purely imaginary.

MICHAEL STALLON,
Director,
Public Relations Director.

MATTHEWS (for Times) : writes that Prince Junio Valeriani of the Italian (Fascist) was found to be Italian in Florence. In his new book to Rome and is living with the princely Immacolata family. He is stated to have expressed himself as very interested in the reports that German may be divided into separate states as he has never renounced his claim to the Bavarian throne.

MATTHEWS ("New York Times") as the only correspondent who claims to have witnessed the actual killing of Garibaldi, still remains considerable interest in his story, and continues to keep his journal informed on newspaper news. He says that the present movement is felt in some of the quarters of the reports sent by a Italian correspondent and that the accounts were not fair to Italy. Under the circumstances it is only fair to allow an eloquent Italian spokesman, "Radio Italia" repeat what he said in the newspaper "The Republicans". Some foreign newspapers, says this Italian spokesman, and among them some who had understood everything in Europe. Spanish revolution, the present revolutionary installation of the Fourth French Republic, but who never understood that even Italians have blood and souls, were horrified by the Garibaldi episode, and in their sketches will cause further harm to our poor country.... We were promised an autonomous free Italian Government and we've nothing but a group of men without autonomy, without prestige, without authority. We were promised a struggle against the black market, but restaurants are full of rich foreign soldiers and officers who enjoy a very good time under the general misery. We were promised work, and at least two thirds of the population of Italy will pass this winter in houses without roofs, on barracks without fire, in degrading inertia. We were led to expect a definite position in war and peace while perhaps a royal army is being created, but partisans are being thrown on the sidewalk and no education but a certificate, and even behind the frontier some sinister voices of monopolistic claims to Italian land. We were promised operation but in losses itself in investigations which do not touch these chiefly responsible for our misery and shame. This is the picture which should be in the minds of journalists and foreign observers. And if one day the mob breaks loose threatening for legitimate vengeance and overruns the police and kills out, we have the duty to deplore the episode, but we can place our hands on our hearts and judge those responsible. Vengeance explodes when justice fails.

The correspondent adds, the Italian situation is serious, extremely serious. The Garibaldi episode is symptomatic of an unstable situation. Behind a fictitious facade is a people which is

in Italian quarters at the reports sent by a French correspondent. When the accounts were sent to Italy, and the circumstances of it is only fair to allow an eloquent Italian spokesman, "Milio", particularly repeat what he said in the newspaper "L'Espresso". Some foreign newspapers, says this Italian spokesman, are among them some who had understood everything in Europe, the French Revolution, the French radical revival, and the present revolutionary installation of the Fourth French Republic, but who never understood that such trials are more blood and scales, more horrified by the baroque and sides, and in their dispatches will describe further harm to our poor country.... We were promised an autonomous free Italian community, without ment and we're nothing but a group of men without autonomy, without prestige, without authority. We were promised a struggle against the black market, but restaurants are full of rich foreign soldiers and officers who enjoy every good thing amidst the general misery. We were promised work, and at least two thirds of the population of Italy will pass this winter in houses without roofs, on barracks without fire, in degrading hovels. We were led to expect a definite to position in war and peace while perhaps a royal army is being created, but partisans are being thrown on the sidewalk with no protection, but partisans are being thrown on the sidewalk with no protection, but a certainists, and from behind the frontier come similar voices of monopolistic claims to Italian land. We were promised separation but it loses itself in investigations which do not touch those chiefly responsible for our misery and shame. This is the picture which should be in the minds of journalists and foreign observers. And if we say the mob breaks loose thirsting for legitimate vengeance and overruns the police and hits out, we have the way to deplore the attitude, but we can place our hands on our hearts and judge those responsible. Vengeance explodes when justice fails.

The correspondent adds, the Italian situation is serious, very, very serious. The Garotte episode is symptomatic of an unresolvable situation. Behind a fictitious facade is a people which is beginning to seek its own destiny.

In a further letter adaptation this correspondent mentions "the first open public demand that A.C.C. should leave Italy and let Italians administer our misery by ourselves." This was said by Pietro, a member in the journal "Avanti". It came on the same day that the Executive Committee of the Socialist party, which includes Socialists and Communists, issued a statement denouncing what it called "reactionary bloc against the country" to drive the impression that Italy is incapable of governing herself, and hence to "provoke colonization of the country". The "New York Times" says the correspond-

1000
 / /
 ment, is in a position to say that the Socialists are not alone in their criticisms of A.C.C. Italy, without exaggeration, ~~was~~ in an already state of misery and popular ferment, with a consequent increase of lawlessness that ~~can~~ only be understood by the killing on top of each other of innocents and towns of known instances throughout the whole liberated zone. He then ~~went~~ to quote a case of brigandage on a regular ambush run from a provincial town in Naples and might about a week ago. The prisoners were rounded and when leaving one of the brigands told them "We forgot to tell you, but you will find the chauffeur's body under the front wheels."

11
 Nenni specifically bases his demand on the question of raising salaries. This was promised for August 24, but was turned down because the A.C.C. will not permit it. The A.C.C.'s reasons are, first that the black market cannot be fought by increasing wages which would simply further depreciate the currency, but by finding more hidden products are, and secondly that the proposal would change the allies to raise the wages of Italians working for them.

The second reason, writes Nenni, has no value, since Italy is the one who will have to pay. The time has come, he says, to put forth concrete plans for demobilizing the A.C.C. That the Allies control railways and goods transport, that they should interest themselves in maintaining public order, at least so long as their armies fight in Italy, and that they should have the right to keep an eye on the monetary circulation, is clear. But when control becomes a matter of fact, then elementary good sense requires that policy be revised "to permit us to do things ourselves." This plan is not chauvinistic, but is based on the knowledge that we are at least capable of "administering our misery alone". The Socialist party also claims that the Merchants are not hesitating to provoke a permanent state of crisis in order to create the impression of the country not being able to govern itself and to provoke colonization of the country.

By "colonisation" the correspondent adds, its presumably meant the continued presence of Allied forces.

 Nenni specifically bases his demand on the question of raising salaries. This was promised for August 24, but was turned down because the S.C.C. will not permit it. The S.C.C.'s reasons are, first, that the black market cannot be fought by increasing wages which would simply further depreciate the currency, but by finding where hidden products are, and secondly that the proposal would allow the Allies to raise the wages of Italians working for them.

But when control becomes a case of lend, when elementary good sense requires that it be revised "to remind us to do things ourselves." This plea is not characteristic, but is based on the knowledge that we are at Nenni's capable of "administering our misery alone". The socialist party also claims that the Monarchists are not hesitating to create a permanent state of crisis in order to create the impression of the country now being able to govern itself and to promote colonization of the country.

By "colonisation" the correspondent adds, is presumably meant the continued presence of Allied forces.

SUBJECT : Mr. EDWARD BAWDEN

Dear Stewart,

Referring to your letter of 12th October, we shall be glad to look after Mr. Bawden on his arrival if you will kindly give us reasonable notice of the date he is expected to facilitate accommodation arrangements.

As regards his onward passage into Yugoslavia, although we have had no similar case so far, it is our job to look after that also and we will deal with any difficulties involved once Mr. Bawden has got as far as Rome.

Please, therefore, advise us as soon as you know yourself the approximate date of Mr. Bawden's arrival and contact us by telephone when he reports to you.

Yours

(Sgd) Lionel Fielder

British Embassy,

Rome.

12th October 1944.

Dear Sir,

I spoke to your secretary this afternoon about a letter which I have received from the Ministry of Information informing me that Mr. Edward Bawden is being sent out to Yugoslavia via Rome as an official War Artist for the British Government. The Ministry inform me that Mr. Bawden is expected in Rome about the middle of this month and request me to make arrangements for his accommodation and for him to get into Yugoslavia. This is entirely beyond my competence and I should be extremely grateful if you could help me in any way. Do you think you could therefore look into the problem and tell me what I should do with Mr. Bawden when he arrives.

*Yours sincerely,
Michael Stewart*

SUBJECT : ALLIED CORRESPONDENTS - MARCH OF TIME.
TO : Colonel Temperley, Regional Commissioner,
Southern Region.

Dear Colonel Temperley,

The two men in charge of the 'March of Time' Film Unit, Major Farmer and Mr. Navarro, are coming to Naples on Monday next to do some filming there. We are anxious to take good care of these people as they are devoting a whole film to the ACC which may do us some good. They are stopping on Monday at Cassino to make pictures there and will get to Naples late that evening.

I have told them for the time being to go to the Patria Hotel and I wonder if you could be kind enough to see that some place is reserved for them there, unless there is anything better you can suggest. Reports which I get from Correspondents about the Patria Hotel are alarming.

Yours sincerely,

Dear Major Fielden,

I should be glad if you could allot to Reuters two tickets for the Azzolini trial.

I am sorry to have to ask for two but it is absolutely essential to have a shorthand writer of Italian nationality in order that Reuters can have an accurate report of the proceedings.

Thanking you.

ALLIED CONT. COMMISSION

PRB/RS

23 Sept, 1944

Notice to correspondents

The British - American labor delegation to Italy has just returned from a visit to the battle-front where they interviewed soldiers on their reactions to labor conditions at home. Members of the delegation, particularly Mr. O'Brien and Mr. Lawther, will be available to correspondents wishing to see them at the Grand Hotel between 12 noon and 3 p.m. today, Saturday, Sept. 23.

Subject: Execution of Caruso.

To: AFHQ PRO.

IMPORTANT NOTICE TO CORRESPONDENTS

The execution of Caruso will take place tomorrow.

We are endeavouring to obtain permission for the admission of correspondents.

If, as is hoped, this permission is obtained, only 20 correspondents will be admitted.

These correspondents will receive tickets and instructions from this office tonight.

Will those correspondents who wish to attend write their names below BEFORE 2.30 today. The list will then be taken down, and no further applications will be considered.

New York, NY.

Dear Mr. Fano:

I understand from a mutual friend that you might be willing to serve as an Allied Labor News correspondent in Italy. I would be delighted if you would do this, as events in Italy are not only of profound importance but also of growing interest to our readers. To fill in a few details about A.L.N. which you may not have: it is an international news service, gathering news by cable and wireless from its correspondents in 22 countries. In the United States, this news is released to by newspapers subscribing to ALN - most of them AFL, CIO and independent labor papers. We also service a few commercial papers, such as the Christian Science Monitor and NY. Four U.S. Government agencies subscribe: OWI, OSS, OW and the Latin American Affairs Committee. The service is sent overseas - mostly by airmail but also in a few cases by cable and radio - to 22 countries. It is very widely published throughout Latin America, also in Canada, Australia, Britain, S. Africa, India, China and other countries.

Direct RCA press wireless service is now in operation from Italy, at 5 cents a word. Should you consent to become our correspondent - and I hope you will - we would need, to begin with, about 500 words a week, as an average. These words would, of course, be condensed 'cable-ese'. Stories should mostly be on spot news developments, though all necessary background details should be included. As ALN is basically a trade union service, stories should concentrate mainly - though not by any means exclusively - on Italian trade union or labor angle. Since ALN is a politically independent news service - and quite impartial as regards various divisions in the U.S. labor movement - our emphasis has always to be on facts. We let our readers do their own interpretation!

N.B. Mark Cables: PRESS COLLECT

Starting May 2, ALN is coming out twice a week - on Tuesdays and Fridays. Hitherto we have published only on Thursdays. This news expansion is made necessary, first, by the rapidly growing interest of labor in the people's movements in the allied nations, and secondly by the growing volume of important news we are receiving from our various correspondents. As we're combining this expansion with a big promotion drive. I believe that right from the start, you would be writing for a very large audience in this country - and of course abroad as well. Your stories should be filed, if possible, to reach us Mondays and Thursdays. Our absolute deadlines would be 10 a.m. Tuesdays and Fridays New York time. Our cable address is ALMA MAXIMARK NEWYORK. Please send me a wire rightaway, if you are interested, so that I can wireless you direct (be sure to give me your address) regarding payment of salary (which would be small to start with) stories required etc..... interviews with members of the new cabinet - particularly the labor minister - would be most valuable. Also stories on events in North Italy. Naturally we are vitally interested in all Balkan coverage, particularly Yugoslavia right now but also Greece, Bulgaria etc. Please wire me

Could stories be brought out from Yugoslavia and sent HCA from Italy? Will Lawther, British miners president, who's shortly going to Italy for the TUC, says he'll cooperate 100 percent with ALN. I guess you'll contact him. Am also developing another broader type newsservice, of which more later.

Please wire me and write as soon as you can. Am sending a copy of this V-mail letter to your Oxford address. Best wishes and many thanks.

Yours faithfully,

July 7, 1944.

Dear Mr. Pano,

By this time I am wondering whether you are back in Italy. I very much hope so as we are badly in need of an Italian correspondent. I was delighted to get your V-mail of May 21, saying that you would be willing to write for us. If it is convenient, therefore, please accept this letter as formal notice that you have been accredited as Allied Labor News correspondent in Italy authorized to send cable and radio messages marked PRESS COLLECT to the above address. If any further accreditation is necessary, I would be glad to send it. In the meantime I have instructed both RCA and Mackay, which have offices now in Italy, to accept Press Collect messages from you. As I pointed out to you in my letter of April 29, we need an average of about 500 words per week, depending of course of the nature of the news breaking. We are now publishing the service twice weekly - on Tuesdays and Fridays - so that it would be preferable to file two stories a week - totalling about 500 words together - to meet our deadlines at 10 a.m. (New York time) on Tuesdays and Fridays. However, when possible, it would be better to file on Mondays and Thursdays. You can use our cable address ALNA NEWYORK. There is a tremendous amount of important news breaking in Italy which we ought to cover. For instance the New-York Times carried a half-inch story this morning - based on a Bari Radio report - stating that a united labor conference would be held in Naples July 29-30. It is extremely important that we have full coverage of this conference. Similarly there was an OWI report here three weeks ago that the three main branches of the trade-unions movement had united, at a conference in Rome to form a new Labor Confederation. We should have a full report on this together with all subsequent developments.

As I stated in my earlier letter, however we not only need news which is directly about the trade-unions, but also news which is of general but decisive importance to labor, such as partisan developments in the North economic and social rehabilitation in the liberated areas, political changes taking place in the country as a whole, and trends within the new government. In this latter connection, interviews with cabinet members would be of great interest and importance. You must remember in this connection that authoritative news about Italy is still quite scarce, despite good reporting by such correspondents as Herbert Matthews, Alexander Uhl and Homer Bigart. These men mostly, however, are writing for the particular whims of their papers. Down to earth reporting, reflecting real mood of the Italian people is still needed, and this gap your ALN reports can fill. Please wire me as soon as you get this, giving me an address where I can reach you by cable. We need your reports going right away.

Good luck and thanks sincerely

Tony Jenkinson.

SUBJECT: RUGGIERO ORLANDO

TO : COLONEL J.R. POLLOCK, CHIEF OF PUBLIC SAFETY, REGION IV

Can you help me (rather urgently) in the following matter? Ruggiero Orlando, who has come here as the correspondent of "The Observer", has been given a pass by Rome Area Command which seems to entitle him to go anywhere. The pass is no. 1920 and is signed, I think, by Lt. Kleber. I have nothing against Orlando: the trouble is that with this pass he gets past all our security posts and goes anywhere and the result is that he gets facilities denied to other journalists. Yesterday, for instance, he crept into a conference to which no journalists were admitted and I had to turn him out. If this giving of passes to journalists continues it will be embarrassing and I should like to know why the pass was issued.

NOTICE TO CORRESPONDENTS

The Italian Government invites all correspondents to attend at 56, Via Veneto, 1st Floor, tonight at 7 p.m., when His Excellency Spataro of the Sottosegretariato per la Stampa e le Informazioni will read a statement of the Prime Minister, His Excellency Bonomi, on the transfer of territory to the Italian Government.

As you probably know, the Grand Hotel was originally taken over by the ACC for senior officers. There is a serious lack of accommodation in Rome and at one time it was thought that correspondents could not be allowed to remain in the hotel owing to the demands made on the ACC by visiting personalities. Captain Stone however decided that correspondents already in the Grand Hotel should not be asked to leave.

Difficulties of accommodation have lately grown so much that the ACC is compelled to see that all available space is occupied and that visitors of senior rank are not required to share rooms, or, as has sometimes occurred, find no accommodation available. It seems only fair to point out that your retention of more than one room is unfair to others, and I hope you will agree to move to a single room. I have deferred making this request for a considerable time, but I am now asked to make it at once in view of immediate requirements, and I am assured by the ACC Billeting Officer that you will be given all possible facilities consistent with the demands made upon us for accommodation.

Yours faithfully,

May I ask a favour? In the course of our work here we have to entertain correspondents to some extent. They come constantly to us with letters of introduction from England, U.S., Algiers and other parts of Italy. They want to talk things over at some length and the constant succession of visitors makes that impossible in office hours. The Flora, which is the only place we can go to now (since we are not Colonels!) is so crowded that one is sometimes lucky to get a seat at all and invariably one has to sit with a lot of others: any serious talk is impossible. The present rule is that 4 officers may have rations. I would ask if rations might, as an exception, be allowed to three of us, viz. Major Bergin, Major Leacacos and myself. If this exception could be made in our favour it would help. At present I find myself having to take correspondents to the Grand Hotel at 400 lire a head and even for a millionaire like me it mounts up. Will you be kind?

Subject: Car for Times correspondent.

To: Colonel E.L. Clough, Executive Officer.

We are still absolutely obstructed regarding Lumby's car. Ballance and Gregory (R.A.C.) refuse to give him a permit until he has a permit to get petrol. They say they have only got petrol for Italian civilians; he is not an Italian civilian. Sorry to bother you with this: it is a precedent and therefore difficult. The only real solution seems to be that political correspondents be attached to ACC for garage, petrol, repairs etc. There's just no getting away from the fact that we ARE going to have political correspondents here and if R.A.C. obstruct them we must take care of them. Lumby is now well on the way to creating a Press "incident", and I don't wonder!

I understand that ACC can issue permits for cars and petrol to Italian Central Government Officials, diplomats etc. Here is a case in which I think it should also have the same power.

Lumby of the Times has bought a car in Rome: it is a "Times" car bought with Times money for use of the Times correspondent. He now finds great difficulty in getting authorization from anyone to get a permit and petrol. Can we provide the authorization?

To: Major E.J. Boochino, HQ, Commandant.

I understand from HQ Commandant that you are dealing with the Grand Hotel. As you know there are a certain number of war correspondents staying there. At one time there was a move to get them out but it was eventually decided, on the direct orders of the Acting Chief Commissioner, that they would be allowed to stay. The understanding was, however, that no more correspondents would be allowed in, and that as the present ones moved out in their own good time their places would be taken by officers. I now learn that Miss Gretta Palmer of Liberty Magazine has arrived at the Grand Hotel through the combined efforts, I understand, of Generals Wilson and Johnson and Colonel Poletti. She asks for messing facilities there. I have nothing against that if you can accommodate her: on the other hand I told her plainly that I did not think she had a right to go to the Grand and she might be turned out.

Subject: Correspondents in Grand Hotel.

To: Acting Chief Commissioner.

I have been asked on various occasions by Colonel Monfort and lately by Colonel Clough to turn out from the Grand Hotel the nine war correspondents who are living there.

The matter is one which arouses violent feeling not only among the journalists directly concerned but also among journalists generally. It is felt that if ACC allow civilians to remain at the Grand Hotel there is no reason why they should turn journalists out. Moreover accommodation in Rome is difficult; and I cannot persuade ACC to do anything to help find other accommodation for these people.

Both Colonel Astley, DDBR, AFHQ, and Colonel Poletti feel that such action would be the greatest blunder and would earn for ACC the enmity of these influential correspondents. I certainly feel that it is extremely unwise to give them notice to quit unless we find other - and similar - accommodation. Admittedly, if it was the intention of ACC to clear the hotel these people should never have been allowed in; but now that they are there I think that the ACC would be wise to see that they don't have a legitimate grievance.

I should appreciate direct orders from you on the point.

Lionel Fielden

Major,

Public Relations Director.

The war correspondents are not to be turned out - in any way remain. I have instructed Fisher to charge accordingly.

CIRCULAR)

NUMBER 15)

REGULATIONS FOR WAR CORRESPONDENTS

Section II, AFHQ Circular Number 52, 1943 series, and Section I, AFHQ Circular Number 2, 1944 series, are rescinded and the following substituted therefor:

1. General. These regulations are published under the authority granted the Supreme Allied Commander, Mediterranean Theater, and apply only to accredited and recognized correspondents attached to AFHQ or units under its control. The regulations complement those published by the various Allied nations and in no way should be construed as superseding said regulations.

2. Policy of Control and Administration. As a matter of policy, representatives of all information media accredited to AFHQ will be shown every courtesy and given the fullest cooperation. Within the limits of security, and military necessity, no arbitrary restrictions shall be placed on the movements of any accredited or recognized war correspondents attached to AFHQ. The activities of correspondents will be controlled by the military commanders of the areas in which the correspondents operate. The Public Relations Officer is available to assist military commanders in control of correspondents. Correspondents will be subject to the normal regulations and discipline of the forces to which they are attached. They will wear the uniform and insignia prescribed by their respective governments. They will at all times maintain the same high standards of cleanliness and neatness of appearance required for officers and will comply with the uniform regulations of the area where they operate. When there is any doubt about a correspondent's physical condition he will be given a thorough physical examination before being permitted to visit advanced areas.

3. Acceptance by the Supreme Allied Commander, Mediterranean Theater. War correspondents will continue to receive basic accreditation from the appropriate authorities of their own governments. However, no correspondent will be accepted at AFHQ or subordinate units without the specific authority of the Supreme Allied Commander, Mediterranean Theater, who reserves the right to reject an applicant without explanation. Correspondents who arrive at AFHQ or any of its subordinate units without prior acceptance by the Supreme Allied Commander, Mediterranean Theater will not be permitted to remain in this theater of operations. Accepted correspondents will be accredited to AFHQ. Under special circumstances, individual correspondents accredited to other theaters of operations may be allowed to visit areas controlled by AFHQ. Their status will be similar to that of recognized correspondents, as described in Paragraph 18, FM 30-26, W.D. "Regulations for Correspondents Accompanying United States Army Forces in the Field", and in Paragraph 7,

RESTRICTED

R E S T R I C T E D

AFHQ Cir No 19 (cont'd)

War Office "Regulations for Press Representatives Accompanying a Force in the Field". Employees of government agencies who have been given correspondents' cards for purposes of identification are not entitled to the facilities supplied press and radio correspondents.

4. Message Priority. Because operational messages have priority over press copy, it will be necessary to restrict the number of words transmitted by government radio or wire in areas of limited communications facilities. Because of the communications problem, it is also necessary to limit the number of correspondents accredited to AFHQ.

5. Censorship. From time to time Censorship Branch will issue specific regulations on copy. Correspondents will keep themselves aware of these regulations and changes. Correspondents will refrain at all times from disclosing information which, though true, might be damaging to the interests of the Allies, might embarrass the Allies or neutral nations, or prove detrimental to the war effort.

6. Pooling. When AFHQ finds it necessary to prescribe that stories or pictures be pooled, correspondents will carry out pool agreements and process copy as indicated by the Public Relations Officer.

7. Transportation, Accommodations and Equipment. Under normal circumstances, when military operations permit, air, rail, motor, and water transportation will be made available to U.S. correspondents without charge. They will apply to the Public Relations Officer for travel orders. For British correspondents, unless otherwise stipulated, the ordinary fares will be payable for accommodations in transports, aircraft, and troop trains. Billets will be furnished without charge when such billets are available without extra cost to the government concerned or when emergency conditions make collection impracticable. Under other conditions, the cost of the billets will be paid to the billeting officer. The regularly indicated tariffs for messes will be paid in all cases. They are accountable for all military equipment of any character issued to them and they will be required to return this equipment to the proper authorities before leaving this theater of operations. Private transportation will not be used in the forward areas.

8. Women Correspondents. The presence of women correspondents in combat zones beyond forward limits in which women personnel are on duty will be subject to specific approval of the command concerned. (AG 000.74-1 A-0)

SUBJECT : LES CALLAN - CARTOONIST

TO : LT-COL C.W. GIECHRIST

1. Some weeks ago I suggested to Col. WALONE that it might be a good idea to get Les Callan over here, but nothing came of it. You may remember Les as the cartoonist for some years of The Vancouver Sun and later, since about 1935, of The Toronto Daily Star.

2. I got a wistful letter lately from Les, who is in PR in Ottawa. I quote a paragraph:

"Believe they have no facilities over there for making cuts so guess that about cooks my goose as far as Maple Leaf is concerned. However, have quietly 'sounded out' a few here and it seems if a request came from that side it might get quick action here. Would also flatter DPR here but I gather they would be afraid to stick out their necks by making the suggestion from here, so you see what I'm up against. I could likely do stuff for The Maple Leaf and DPR too if I were over there and wandering over the front (and I mean front) would be exactly my dish as you know. That's what they would like to have me doing and what I am anxious to do, but through some technical difficulty (DPR being a sort of orphan as far as belonging to any Branch) they don't seem able as yet to make the arrangements to send me over. It is all very silly, but as you know there is nothing I can do about it. The request, if any, would have to go through Lt-Col Malone and Brig A W Beaumont thence to my OC here, Lt Col F X Jennings. Sure would like to get over there."

3. I don't need to tell you how happy I should be if you could do anything to get Les brought over. He has fought like a wildcat to get into uniform and overseas. Wangled his way into Artillery, then got lifted out by PR, and is stagnating and eating out his heart in Ottawa. It's a shame to batter a top-notch cartoonist like him around that way.

To: Chief Commissioner.

Homer Bigart (Herald Tribune) has received a cable from his paper asking for an immediate detailed series of voicecasts and articles on ACC. This is an encouraging sign of interest. He is not one of our brightest journalists but I have done my best to give him the background. I think it would help a lot if you could talk to him, and he very much wants to see you. As he has to start sending his messages at once it would be good if you could manage this today or tomorrow.

As you will remember, I told you that I hoped very much that McCaffrey would not stay in Naples. As he is now here, and as the correspondents have smelted him out, my earliest advice to you ~~is~~ is to let them see him. Homer Bigart of the Herald Tribune is determined to have an interview and is pressing me to arrange it. He has already seen McCaffrey. If you drop interviews you will have both the Press and McCaffrey up against you and later on we shall get articles saying that the ACC tried to hush the thing up and that will do us no good at all. The C.C. told me definitely that he did not mind journalists seeing McCaffrey.

If you could spare the time on Friday, 5 May, the following correspondents who are here on a short visit and are important would very much like to see you.

EDGAR MOWRER, one of America's best-known correspondents, who has been with U.P., Herald Tribune, Chicago Daily News and O.W.I. (from which he resigned in protest against the Darian policy). Is now writing for sixteen American papers. Is returning to Washington shortly.

CAREY LONGMIRE (New York Post) has just arrived here. Is a friend of Colonel Poletti. No representative of this liberal-leftish newspaper has covered ACC until now.

Morgan of the Chicago Daily News tells me that you are prepared to give him figures of our total imports into Italy over the last three months. I understand (though I am not sure) that this information was refused last week to Massock of the U.P. You will appreciate the need for avoiding favoritism. If there is some useful information available, can we have a general release on it? Morgan perhaps deserves a small scoop for his nose for news and we could give him facts a little in advance, but I think we should follow that up with a general release

Dear Mr Montanari,

About Mallin of the Winnipeg Free Press. He has now gone to Anzio for a week. He asked me to ask you whether perhaps the Marshal would write answers to the questions which you will remember I forwarded to you. If this is possible perhaps you would send the answers here and I will give them to Mallin on his return. He still hopes, however, that the Marshal might grant him an interview after the 16th.
