Polish Diplomatic and Consular Missions to ITALY and VATICAN are pressing strongly for advance in lire from AFA to cover March expenses totalling equivalent of ± 7647/10/4. Already owe AFA 10 million lire from past approved advances which have not been reimbursed to AFA through remittances system. ALLIED COMMISSION will not make this advance without your approval. Remittance system as used by CZECHOSLOVAK Mission is now working satisfactorily and it is not understood why Polish Government cannot contract that channel to remit to all concerned Diplomatic and Consular Missions in ITALY. Reply urgently needed.

Sept. 10

The Supreme Allied Commander has instructed the Allied Control Commission that, the principle of United Nations representation in Liberated Italy by consular officials having already been agreed, there is no objection to M. Loret being appointed Polish Consul-General in Rome and, if the Polish Government consider it desirable, there would be no objection to his having the personal rank of Minister.

It is pointed out that it is desirable that all United Nations not represented on the Advisory Council for Italy should have uniform representation in Liberated Italy by consular officers.

It is also directed that, while consular officers at the Italian capital should be permitted to have informal relations with the Italian Government, their recognition and official functions should conform to the procedure already established for United Nations consular officers in Liberated Italy.

1. Recently the Polish Government informed the U.S. State Department and the British Foreign Office that they had appointed Minister Lovet - now in Rome - as their Representative to the Allied Authorities in Italy.

2. This matter was brought up at SACMED's political meeting on 10 July and a cable was sent to CCS stating that it had there been agreed that the problem of Diplomatic Representatives in Rome of countries which are neither (A) neutral nor (B) members of the advisory council should be treated as a whole and a general line of policy agreed which would be applicable to Poland, Czechoslovakia, Belgium and any other state being a member of the United Nations.

3. It was pointed out in the cable that if allowed to come they should not be formally accredited to ACC although the view was expressed that they should be allowed to discuss matters of interest to themselves with the chief commissioner and the political section. It was stated that they could have informal relations with the Italian Government but that so long as ACC acts under armistice conditions they should be informed that they should raise questions with the Italian Government through the machinery of the Control Commission.

4. A reply has now been received from CCS referring to the fact that the principle of United Nations representation in Liberated Italy by Consular officials having already been agreed there is no objection to Mr. Lovet being appointed Polish Consul General in Rome and that if the Polish Government consider it desirable there would be no objection to his having the personal rank of Minister. 23-8
