MEMORANDUM FOR THE ALLIED CONTROL COMMISSION
POLITICAL SECTION

With reference to memorandum dated 18th ult., the Ministry of Foreign Affairs wishes to thank the Allied Control Commission for the kind interest in connection with the transmission of Marshal Messe's radio message to the Italian troops interned in Switzerland.

As, however, the enclosed copy of telegram from the Italian Minister at Bern shows that the said message has not been heard in the internment camps, the Ministry of Foreign Affairs suggests that perhaps the message could be repeated, for instance on any day from the 20th to the 25th inst., in order that it might be possible to inform in useful time the Italian Legation at Bern and to plan for the listening of the message in question.

Furthermore, owing to great disturbance in the transmission over the Rome Radio, the Italian Minister at Bern suggests that the message be repeated also by the R.M.C. and American Stations in their Italian news services. *C. C. B.*

SUBJECT: Agreement between PWB and Italian Ministry of Communications

TO : Military Government Section, AFHQ, AFU 512

1. Supplementing my letter dated 22 April, file no. as above, there is forwarded herewith a copy of an agreement executed May 11th between PWB and the Italian Ministry of Communications, pursuant to which PWB agrees to restore to EIAE the control of its administrative and operational divisions, leaving the program division under control of PWB.

2. With reference to para 3, the following should be noted. Originally in the negotiations, PWB proposed that the expense of programs should be prorated between EIAE and PWB based on the relation between the hours devoted by EIAE stations to broadcasts for Italian listeners and the hours devoted to external broadcasts (Balkans, etc.). The Ministry of Communications, however, contended that EIAE should bear the full expense of all such programs as its contribution as a co-belligerent. Moreover, it proposed that EIAE should reimburse PWB for all program expenses retroactive to the date of the Armistice, on the grounds that EIAE in liberated Italy would have spent such sums in the furtherance of the Allied war effort had EIAE been allowed to retain control of its programs. The offer was accepted, as set forth in para 3.

AGREEMENT BETWEEN P.W.M. AND THE ROYAL ITALIAN MINISTRY
OF COMMUNICATIONS ON THE ADMINISTRATION AND TECHNICAL
CONTROL OF E.I.A.R.

1. The Italian Authorities in consultation with the Allied Authorities will immediately form a General Directorate of E.I.A.R. which will re-organise the administration and take sole charge of all administrative matters, including technical management but excluding program management, which will remain with PWB until such time as AFHQ directs otherwise. With the approval of Allied authorities, a General Commissioner for E.I.A.R. will be appointed and vested with the powers of President and Chairman of the Board. It is agreed that all employees will meet integrity requirements and Allied security standards.

2. All sums collected in Liberated Italy as payment for Radio-Audition taxes will be deposited with the Finance Ministry. This Ministry, after deducting the percentage lawfully due the State, will credit the balance to the Concessionary Corporation, E.I.A.R., which will use said balance to cover expenses outlined in the following paragraph.

3. E.I.A.R., through its General Directorate, will be responsible out of current receipts for all the following expenses:-

(a) All expenses met by PWB in the operation of Italian broadcasting stations from September 3rd, 1943, to date. These expenses will be refunded by E.I.A.R. to PWB.

(b) Salaries of all E.I.A.R. technical and administrative personnel. It is understood that one of the requisites of Italian technical management of the E.I.A.R. stations will be conformance to PWB engineering standards and that failure to maintain these standards, (so far as possible conforming to FCC standards), would result in control of these stations reverting in the last resort to PWB. Technical directives to effectuate the foregoing will be furnished by PWB to E.I.A.R.

(c) All salaries and all expenses incurred by PWB for programming and transportation for radio purposes; PWB making the contracts and disbursements and submitting at the end of each month a list of these payments for reimbursement.

(d) All expenses relative to the construction, improvement and maintenance of radio installations owned by E.I.A.R. or managed by E.I.A.R. for the Italian Government and all expenses on future E.I.A.R. installations or their appliances directed or ordered by PWB, (power, lines, antennas, equipment, real estate, rental, etc): American or British equipment imported by PWB to be excluded.

(e) All expenses relative to the technical and administrative operation of E.I.A.R. stations, and of the administrative offices, (rents, furni-

- 2 -

turo, stationery, light, heating, typewriters and business machines, automobiles, fuel, etc.).

(f) In general, all expenses entailed by PWB broadcasting operations of any kind of all stations in Liberated Italy, except army broadcast transmitters used as mobile units.

4. All personnel engaged in the administration and functioning of RIAR will be taken over administratively by RIAR, and their position settled according to the Italian laws on private employment, (seniority, insurance, social security, settlement upon dismissal, etc.).

5. At a later time, (namely, after having reorganized the administration), the General Commissioner of RIAR will take over technical operation under the direction of PWB of stations operated by PWB for broadcast purposes except army broadcast transmitters used as mobile units.

6. Disposal of the funds remaining to RIAR's account after the above expenses have been met will be determined by the Finance Sub-Commission, A.C.C.

REPORT ON BARI RADIO

20th January, 1944

One talk told the story of an Italian patriot in hiding from the Germans who was helped by a small boy. In another talk a letter from an Italian soldier on the 8th Army front was read. One commentary was given on the tradition of freedom and courage in Czechoslovakia. A short topical commentary on the days' news was given. During the Communist Party, before the last letter/xx/Pierre Semard, a member of the French on Lenin was also given. The most important talk of the day was a political commentary by the representative of the Italian Communist Party in the series of talks given by the leaders of the opposition. During the press review an article from La Libera Voce, the weekly paper of the Party of Action, was given.

21st January, 1944

One talk spoke of the need not only to weed out Fascism from public places, but also to change the whole Italian way of thinking, which had ineluctably been affected by 20 years of Fascist education. A short commentary was given in commemoration of the death of Lenin. The commentary in the series of talks by opposition leaders was given by the representative of the Catholic party. Cifarelli's political talk dealt with the force of public opinion for good or bad; partly responsible for having brought Fascism into power, it was now one of the strongest forces for good in Italy. "L'Italia Combattente" included a talk describing the mind-workings of an attentiste through 20 years of Fascism, who had delayed so long that Mussolini was able to bring about the crime of the 10th June 1940. Another talk recalled the vast amount of words and paper wasted by Fascism and ridiculed the prominent writers. The Wim Youth period included a talk on Lenin. The Press review consisted of articles from Buona Guardia, the Italian naval paper, and Libera Voce, the weekly paper of the Party of Action.

22nd January, 1944

The main talk of the day was the political commentary by the Socialist Party representative entitled "Per la Patria Comuna". A short military comment was given on the Allied landing S. of Rome. Another talk described the Fascist propagandists' changed tactics from having ignored the activities of the Italian patriots, now that the deaths of fascists and Nazis were becoming so numerous they were forced to invent "patriots" in S. Italy. A talk on the abolition of the racial laws recalled the fact that they were initiated on the orders of Berlin. An article by Cifarelli on the Bari Congress was read during the press review. An escape story and a discussion

An escape story and a dialogue in Venetian were given during the "Italia Combattere" period. Instructions for sabotage were directed to those areas which the battle was nearing. During the workers' quarter of an hour a talk written by Luigi Bozzi, the General Secretary of the Railwaymen's Syndicate, was read. News was given of syndical activity in S. Italy, ~~was read~~.

23rd January, 1943

A representative of the Liberal Party spoke on the series of talks given by opposition leaders. A talk, provided by the Italian Government, compared the recent distribution of white bread in liberated Italy with conditions in the north. A talk on the Congress of Bari pointed out its potentially important effect on public opinion abroad. The press review consisted of an article from the weekly Italian Air Force paper.

The youth programme gave a sketch introducing its commentators to their public and a talk on the tradition of art and letters in Apulia. "L'Italia Combattente" included a talk on total war and one on the panic which must be reigning in the hearts of the Gerarchi as the Allied armies neared Rome.

REPORT ON RADIO BARI

24th January, 1944

The political commentary was given by the representative of the Liberal Democratic Party. One talk was given on the present silence of Mussolini who no longer dared to speak from his balcony to the public. A commentary on the political developments of the week was given. The day's topical commentary dealt with the recent arrival of bread in Italy. During the press review an article on anti-Fascism in Apulia was read. Croce's message, broadcast over Radio Palermo, to the inhabitants of invaded territory was read during "L'Italia Combatta". A short comment on the allied landing was also given during this programme.

25th January, 1944

The Secretary of the Socialist Party spoke in the series of talks by opposition leaders. One talk was given on Concetto Marchesi, Rector of Padua University, who recently issued an appeal to the students of Italy. Another talk described the feelings of Italians in and outside Rome as the Allied battle approached nearer to the capital. The weekly military comment was given.

The main talk in "L'Italia Combatta" was given on the theme of Mussolini's dictum "he who stops is lost" explaining the frantic attempts of the new Fascism to keep alive.

To His Excellency Marshal Badoglio, Chief of the Italian
Government and for information of the Allied Control Comm.

The Catholics of the two dioceses of Ruvo and Bitonto (Bari) are still
sadly affected by the radio speech of Dott. Loiacono on the evening of the
21st inst. and in expectation of his vote which he proposes to give at the
Congress of Bari consider it their duty to make it known that the attitude
of Dott. Loiacono with regard to the abdication of H.M. Vittorio Emanuele III
is peculiarly his and moreover does not represent the will of the Catholics
nor of the members of the Christian Democrat Party who were never consulted
in the matter neither at the appointment of the communal delegates nor at
that of the regional delegate. Since the "Gazetta del Mezzogiorno" refused
to publish this statement and so that truth may not remain hidden, they take
the liberty of bringing this to the attention of the Chief of Government
towards whom they reaffirm their loyalty, repeating also their inalterable
devotion to the majesty of King Vittorio Emanuele III.

REPORT ON RADIO BARI
31.1.44

The main talk in the "Italia Combatte" programme was given by a Sicilian who described his impressions on his first visit to Sicily since the war. One talk by a soldier was addressed to the dead General Amico, who had given an example of resistance to the Germans. The daily comment on topical events was given. The youth programme gave an account of an interview with Zaniboni and of his trial by the Fascists; a talk described the anti-Fascist youth movements' work before the fall of Mussolini.

1.2.44

The weekly comment on the military situation was given. A talk was given by a member of the Central Committee of Liberation who had come down from Rome a few days before. A teacher spoke about the re-opening of the schools. The press review broadcast an article from the Italian naval paper "Buona Guardia." The Workers' programme reviewed the work of the General Congress of Labour which had met at Bari on 29th January. The main talk during "L'Italia Combatte" ~~xxxxxi~~ emphasised the need for the Italians to purify their faith in liberal institutions. A short sketch describing a meeting between Interlandi and Farinacci after the war was given.

NCREPORT ON RADIO BARI
2.2.44

The day's political commentary was given by Michele Cifarelli, who speaking as the representative of the Party of Action, summed up the work of the Congress. During one period a translation of an article from the 8th Army News on the new Commonwealth ~~parliamentary~~ party in England was read. One talk explained the real meaning of the word "Republic" and contrasted it with the present Fascist Republic. The Workers' quarter of an hour gave details of a referendum asking people to send in answers to various questions about their work and reactions to the Bari workers' programme. "L'Italia Combatta" included a talk on the work of the patriots behind the lines by a woman who had seen some of this work personally during her journey down from north Italy, and a talk on the traditional friendship between England and Italy. During the press review an article from the Italian air force paper was read, describing the reactions of a group of pilots to the Armistice.
