MEMORANDUM

The Swiss Legation, Foreign Interests Section, presents  
 its compliments to the Political Section of the Allied Con-  
 trol Commission and has the honor to request that a certain  
 amount of gasoline be granted in order to cover the quantity  
 used in the trips made by the Division for the purpose of  
 paying relief to allied nations in the different provinces of  
 liberated Italy.

The Legation takes the liberty of pointing out that the  
 Foreign Division, owing to the fact that it is continuing to  
 protect the interests of the allied nationals, finds itself in  
 the necessity of making other trips in the provinces around  
 Rome during the month of August.

The above request is being made notwithstanding the fact  
 that negotiations are pending with the Italian Foreign Office  
 to obtain that the members of the Diplomatic Corps be supplied  
 with a certain amount of gasoline for their personal use.

In reply to paragraph 4.

- a) Whole question of petrol supplies to Ministries and C.D. is being studied in Industry & Commerce Sub Commission of A.C.C.
- b) Bids for supplies to Ministries must be made by Inter-Ministerial Committee (the head of which is Dr. Rossetti of Italian Ministry of Industry & Commerce) who have not yet presented their bid for August and were given an allocation for July.
- c) Economic Section say it has not yet been decided how allocations for C.D. to Quirinal shall be decided.

In reply to paragraph 5.

We see no reason why present procedure of allocation through the Vatican should be changed.

Mr. Caccia.

With reference to the attached letter to Capt. Stone, Count Roberti asked this morning whether we could arrange for them to receive an advance of petrol pending agreement being given to their estimated requirement of 1800 litres a month. He says the F.O. cars are completely without petrol at the moment.

As regards the inter-ministerial committee, Roberti says that a Dr. Rossetti of the Ministero dell'Industria e Commercio is in charge of this but he has not yet got to work on the petrol question in Rome.

MEMORANDUM TO: Acting Chief Commissioner, Allied Control Commission.

The Foreign Office has been informed in regard to the attached note that an Inter-Ministerial Committee has been set up in order that the gas requirements of the different Government departments may be studied and allocations made. Requests for supplies should be addressed to this Italian Committee.

As regards the distribution of gas to the Diplomatic Corps accredited to the Holy See, is there any reason why the present procedure of allocation through the Vatican should be changed?

Dear Admiral:

I am sorry to trouble you about a matter in which I am sure you will not deny us your kind assistance.

1. It concerns the supply of petrol and oil for the motor-cars of the Diplomatic Corps and of the Ministry for Foreign Affairs.

2. I had an accurate study made of the minimum quantity necessary for the Diplomatic Corps accredited to the Quirinal, and from the list that was prepared I gather that the total quantity necessary for all the Missions would be of 2150 litres of petrol and 40 kilos of oil per month.

3. As for the few motor-cars and the four motor-cycles of this Ministry I deem that 1800 litres of petrol and 40 kilos of oil per month would be necessary.

4. I would greatly appreciate if you could let me know whether this supply could be effected.

I would also wish to point out that it is necessary to provide also for the petrol and oil required by the Diplomatic Corps accredited to the Holy See.

5. I am informed that the Secretary of State of the Vatican has already written to you a few days ago

- I. The matter of supply of petrol to motor-cars and motor-cycles belonging to the Ministry for Foreign Affairs that had been settled in a temporary manner when the Ministry was in Salerno and here in Rome there was only a liason-office, is being studied and definite proposals shall be submitted in the near future to the A.C.C.. The monthly supply which appears <sup>to</sup> from the letter addressed to Admiral Stone is the minimum quantity necessary at present.
- II. As to the distribution of the petrol to the Diplomatic Corp accredited to the Vatican, our request to continue with the system followed in the past is prompted by an explicit desire recently expressed by the Secretary of State. When this Ministry was in Salerno the Secretary of State had to apply directly to the Allied Authorities to obtain the petrol necessary for the Diplomatic Corp. For practical reasons the Secretary of State would however prefer to follow the old system according to which the Ministry for Foreign Affairs used distribute in a uniform manner petrol coupons to all diplomatic missions accredited both to the Quirinal and to the Holy See. The petrol was available at one petrol point located in Piazza di Spagna.

QUESTIONS ARISING AT THE POLITICAL SECTION  
OF THE ALLIED MILITARY GOVERNMENT

- a) - Measures to safeguard from requisition the motor cars belonging to the Ministry for Foreign Affairs.
- b) - Supply of gasoline for the use of the Ministry for Foreign Affairs.
- c) - Supply of gasoline for the Diplomatic Corps.

(On June 26th, Mr. Ricer told Mr. Pascucci that the question had been favourably resolved and the Comitato Italiano Petroli had been authorised to initiate the distribution. The C.I.P. has not yet, though, received to this effect orders from the competent authorities.)

AIDE-MEMOIRE

Following the notes dated 7th July and 29th of June 1944 we beg to inform that in the lists of the motor-cars belonging to Officials of the Ministry for Foreign Affairs, was not included the car belonging to count Luca Pietromarchi, Minister Plenipotentiary.

We would beg the Allied Authorities to kindly take the necessary measures in order to avoid the requisition of the said vehicle.

The same measures should be taken for the motor-car belonging to marquis Antonino Morozzo della Rocca -R.V.Consul- who arrived from Salerno.

Adv. H.Q., Allied Control Commission

June 28, 1944

MEMORANDUM TO: Lt. Colonel Birchett, Director,  
T.C.U., Rome Region, A.M.G.

There is enclosed a communication from the Italian Foreign Office supplementing its earlier note of June 10, and requesting that circulation permits be approved for two trucks. The Italian Ministry has likewise requested information concerning the possibility of obtaining supplies of gasoline for the official cars and trucks of the Ministry.

I shall be grateful for some indication of the reply which I may give to this request.

MEMORANDUM TO: Lt. Colonel Clarence R. Birchett,  
Rome Area Command.

With reference to my Memorandum of June 30, enclosing a list of cars which belong to members of the Italian Foreign Office, it would be appreciated if you would add the attached list to the previous one. As you will recall, these cars are not for use at present, but merely that they should be reserved from requisitioning at this time.

It appears that two cars on the previous list were wrongly numbered and it is requested that the car numbers which are included at the end of this Memorandum be noted. Requisitions for these cars are attached and it is hoped that they will not be made effective pending decision for the use of the cars.

MEMORANDUM TO: Lt. Colonel Clarence R. Birchett.

Following our conversation yesterday concerning the gas required by the Ministry of Foreign Affairs for its two official cars and four motorcycles, the Ministry requests an allotment of 60 litres of gas a week. If it is possible to accede to this request, I should be grateful as these vehicles are used solely for official purposes of the Ministry.

I enclose a list of automobiles which belong to members of the Foreign Office. It would be appreciated if, pending decision later as to whether they will be permitted to circulate, they could be exempt from requisitioning.

I have the honour of enclosing a list of motor-cars belonging to the officials of the Ministry for Foreign Affairs.

These cars will not be used at present, hence there is no immediate need for circulation permits, which will be in due course applied for by the Undersecretary of State when the Ministry will be transferred to Rome.

I would be grateful if, in the meantime, measures could be taken in order to avoid requisition, in the understanding that this Office will see to it that none of the cars will be used before the Undersecretary obtains the said permits and then only in the limits strictly necessary.

AIDE MEMOIRE

The Members of the Diplomatic Missions of the Allied and Neutral Countries accredited to the Quirinal and to the Holy See have expressed the desire that a certain quantity of gasoline be assigned to them for the circulation of their automobiles.

In bringing the aforesaid matter to the kind attention of the Allied Military Government, the Ministry for Foreign Affairs begs to inform that the monthly amount granted, up to last September, was, for the Head of a Mission, 350 litres, and for each Secretary, 180 litres.
