SUBJECT: Control of Civilian Movement.

TO : Regional Commissioners Regions I, II, III, V, and VI.  
 R.O.A.O.'S HQ/4 & HQ/5A, Indies.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralise as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission Officers are therefore requested to advise the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2. Restrictions.

(a) ALLIED OCCUPIED AREAS.

In the Army (and Corps) areas the existing regulations will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an A.C. pass.

These civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the A.C. authority of the area into which they intend to travel.

(b) Corps Areas under A.C.

In Territory under Allied Military Government in any of the Army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e., civilians in this area will be forbidden to travel from one province to another without an A.C. pass.

(c) Italian Administered Territory.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. In Allied control Command areas such will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from A.C. territory into King's Italy and vice versa.

3. Check Points.

1. Introduction.

It is evident that the enemy intends to continue his efforts to introduce guerrillas and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralize as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the measures referred to herein are properly and persistently imposed.

2. Restrictions.

(a) IN AND AROUND CORPS AREAS.

In the Army (and Corps) areas the existing regulations will continue to apply, subject to the following restrictions, to travel more than 10 km. from their own homes without an A.C. pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the A.C. authority of the area into which they intend to travel.

(b) RESTRICTIONS UNDER A.C.

In Territory under Allied Military Government in rear of the Army (and Corps) areas, restrictions on inter-provincial movement are to be re-imposed forthwith, i.e., divisions in this area will be forbidden to travel from one province to another without an A.C. pass.

(c) ITALIAN ADMINISTERED TERRITORY.

There will be no restriction on movement within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. In Allied control Commission areas will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from IIG territory into Italy and vice versa.

3. Check Posts.

(a) IN RESTRICTED AREAS.

In Army (and Corps) areas and in territory administered <sup>2/34</sup> by the Military Government every effort will be made to enforce the above restrictions by means of a widespread system of 'stop' check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with U.S.S. or C.I.C. Units.

- 2 -

The object of these check posts will be (i) to turn back those seeking to move outside the prescribed limits without a pass, (ii) to take action against those who have committed serious and flagrant breaches of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted Areas.

In territory administered by the Italian Government a similar system of "enay" check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation, and (2) instilling a sense of insecurity in the minds of agents or other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organization and Composition.

This system of check posts will be organized by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of P.S.P./S.I.G., S.I.L. (C.S.), CC, SM and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Biferno and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local ARMY/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commission.

The procedure described in para (b) above may be employed in cases described in (a) above where, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commission or by a member of its staff on this behalf who will

objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation, and investigation, and (2) installing a net so of responsibility in the hands of agents or other suitable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organization and Composition.

This system of check posts will be organized by Army, Corps, District and Base Section Headquarters and NOT by AMG/ACC, both AMG and ACC territories.

These check posts will normally be manned by appropriate combinations, according to circumstances of S.S.P./S.I.C., S.I.V., (O.S.), CO, RA and Guardia di Finanza.

Every effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4. Passes.

(a) Army Areas and Foggia.

In the case of persons wishing to move North-Westwards across the "Control Line" (which follows the general line of the Rivers Fiere and Volturno) or to enter Foggia Province, the existing procedure will normally be followed whereby they must first obtain (through their local AMG/ACC representative) a pass issued by the appropriate AMG authority in the area of their destination.

(b) AMG Provinces.

For other journeys involving movement into, or between, Provinces within the restricted area (e.g. from Bari to Avellino or from Foggia to Naples) a pass will be issued by the local AMG/ACC representative at the point of departure.

(c) Discretion of Provincial Commissioners.

The procedure described in para (b) above may be employed in cases described in (a) above when, for urgent administrative, economic or other reasons, the procedure described in (a) would be impracticable owing to the time factor. In such cases the passes will be issued by the Provincial Commissioner by a member of his staff or his behalf who will immediately forward details of the issue of such passes to the SOAG or FC of the area of destination.

(a) Reasons for Travel.

It is essential that the issue of passes to cross the "Control Line" or to enter Foggia Province be strictly limited to those cases where the journey will benefit the Allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied General Commission officers will insure that transport tickets will not be issued by the railway authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorize specified and approved officers of the Quotable or C.A.M. to issue passes for inter provincial travel. It is emphasized, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AIC/ACC officers.

(i) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(j) It is suggested that when an application for travel into an Army area or into Foggia Province is received in AIC/ACC territory that the officer concerned

(c) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the railway authorities or other travel agencies to persons within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(d) Italian Government Officials.

Passes for Italian Government officials will be issued by this Headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian Liaison Section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the Sub-Commission concerned.

(e) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g. when on leave, are subject to the same restrictions as civilians.

(f) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorize specified and approved officers of the Quotore or CO. AF to issue passes for inter provincial travel. It is emphasized, however, that passes permitting persons to enter the Army areas or Foggia Province must be issued by AMG/ACC officers.

(g) Semi-Permanent Passes.

In the case of persons living near a Provincial boundary and whose place of employment is in, or partly in, and adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application. Such passes may also be issued to all persons who have sufficient reason for frequent travel between Provinces.

(2) It is suggested that when an application for travel into an Army area or into Foggia Province is received in AMG/ACC territory that the officer concerned completes the pass on behalf of the applicant (provided he is satisfied with the sufficiency of reasons for such travel) and forwards it to the SCAG/FC of the destination for approval; signature and return.

5. It will be seen that in future, Provincial Commissioners will be authorized under certain circumstances to issue passes for entry into Army areas or Foggia Province without prior permission from the point of destination (vide 4 (c) and further that the movement of members of Italian Military Forces is unrestricted, (vide 4 (g)).

SUBJECT: Control of Civilian Movement - Entry into City of Rome and Fifth Army Area.

TO : Distribution below.

1. It is anticipated that numerous applications will be made by civilians as well as by Italian officials for permission to enter the City of Rome and Fifth Army area.
2. The granting of such permission will depend upon the military operations in progress and upon the expediency of allowing additional civilians into Rome which is already seriously overpopulated.
3. Such permission will be given subject only to the following conditions which must be strictly observed.
4. For this purpose the control of movement will operate in three phases:

Phase I in which all movement into the City of Rome as well as into the Fifth Army and Corps areas will be prohibited without the prior approval of C.C.S. HQ. A.A.I. This phase is already in operation and applies equally to Allied personnel as well as to civilians. Special instructions as to members of A.C.G. are contained in 750/2/CA of 5 June 1944.

Phase II in which for purposes which are essential and which will assist the prosecution of the war, and for these only, permission may be given by A.M.G. Rome or Fifth Army for entry into the City of Rome or into those Provinces which are still part of Fifth Army or Corps areas. Where members of the Italian Government or essential Italian officials are concerned, or in other exceptional circumstances, application may also be made to this Headquarters. In cases of Italian Government officials applications will be made to the Secretary General's Office in accordance with the existing practices. The Secretary General will pass these applications to I.C.C. & M.G. Section. All other such applications for travel which satisfy the AME/ACC Officer to whom they are presented, must be forwarded to Security Branch of the I.C.C. & M.G. Section where the matter will either be dealt with or referred to the AME of destination.

The date on which Phase II will operate will be notified as soon as possible.

Phase III in which in addition to purposes authorized during Phase II, civilians will be permitted to travel for urgent business or domestic reasons. Such permission depends upon the position of the Army Control Line and will be dealt with in the same way as travel into A.M.G. Provinces is controlled at the present time. The date of Phase III will also be notified and will commence at the conclusion of Phase II.

6. This order should be read as an addendum to Control of Movement Order, reference 316/76/CA of 26 April 1944, and all such passes issued will be in strict conformity with this previous directive.

- 1. It is anticipated that numerous applications will be made by civilians as well as by Italian officials for permission to enter the City of Rome and Fifth Army areas.
- 2. The granting of such permission will depend upon the military operations in progress and upon the expediency of allowing additional civilians into Rome which is already seriously overpopulated.
- 3. Such permission will be given subject only to the following conditions which must be strictly observed.
- 4. For this purpose the control of movement will operate in three phases:

Phase I in which all movement into the City of Rome as well as into the Fifth Army and Corps areas will be prohibited without the prior approval of C.G.S. & HQ. A.A.I. This phase is already in operation and applies equally to Allied personnel as well as to civilians. Special instructions as to members of A.C.O.G. are contained in 750/2/CA of 5 June 1944.

Phase II in which for purposes which are essential and which will assist the prosecution of the war, and for those only, permission may be given by A.M.G. Rome or Fifth Army for entry into the City of Rome or into those Provinces which are still part of Fifth Army or Corps areas. Where members of the Italian Government or essential Italian officials are concerned, or in other exceptional circumstances, applications may also be made to this Headquarters. In cases of Italian Government officials applications will be made to the Secretary General's Office in accordance with the existing practices. The Secretary General will pass these applications to R.C. & M.G. Section. All other such applications for travel which satisfy the A.M.E./A.C.C. Officer to whom they are presented, must be forwarded to Security Branch of the R.C. & M.G. Section where the matter will either be dealt with or referred to the A.M.E. of destination.

The date on which Phase II will operate will be notified as soon as possible.

Phase III in which in addition to purposes authorized during Phase II, civilians will be permitted to travel for urgent business or domestic reasons. Such permission depends upon the position of the Army Control Line and will be dealt with in the same way as travel into A.M.G. Provinces is controlled at the present time. SUBJECT: Facilities for Officials and Employees of the Italian Foreign Office.

TO : S. E. Don Renato Prunas,  
Royal Italian Ministry of Foreign Affairs,  
Salerno.

*My dear Prunas,*

The number of callers from the Italian Foreign Office asking for one facility or another often at very short notice, has made it necessary for me to ask you to make the following arrangements:

Although officials are permitted a discretion regarding journeys to Naples, it is essential that the purpose of the journey of each employee should be certified by a responsible official as "for government purpose" only.

Due notice should be given whenever possible of any intention to travel since a pass is required not only for entering military government territory but also to travel in a military vehicle. It will be appreciated that these facilities are given whenever I can arrange them for you, but accommodation in the Courier is not unlimited and your office should be able to help us in restricting the number of persons allowed to travel by this means.

591

Several callers have recently presented themselves in this building alleging that they come from the Italian Foreign Office and I have had to take these statements on trust. I would appreciate the courtesy of a slip of paper in the future, however, to inform me what the function of each caller is.

I am aware of course that a number of officials and employees have arrived from your missions abroad and I shall be glad to do what I can to help each one of them. It will be only fair, however, to warn them that the claim of the Foreign Office for facilities such as transport and permits to travel is only one of many.

I am sure, my dear Prunas, you will appreciate why it has been necessary for me to make these suggestions in writing.

TO : Mr. H. A. Cassia, Political Section, Main Hq. ACC.

1. In confirmation of my telephone message today, S. E. Frunas would appreciate the courtesy of an accelerated issue of passes on behalf of Stefano Siglienti, Minister of Finance, and Dr. Berliquer, Vice-Commissioner of Emigration, who have to go to Rome to attend the funeral of their mutual sister-in-law.

2. Both these officials are well enough known to obviate the necessity of "screening", and as a mark of appreciation to Frunas, I think we should do everything in our power for his fellow Sards.

1. In memorandum No. 7128 of 17 June 44 to General Mason MacFarlane the Presidency of the Council of Ministers suggested that permission should be given for two representatives of each Italian Ministry to travel to Rome as an advance party and that the Allied Control Commission should provide the necessary transport.

2. In the case of the Foreign Office, it appears that Roberto Ducci and Francesco Macchi de Cellere are able to provide their own transport independently of the commission. It is suggested, therefore, that a separate concession be made to the Foreign Office independently of the question of transport. It will be much appreciated if these two representatives were permitted to go forward to make arrangements in Rome for the reception of the Ministry and staff.

Roberti has asked me to request special consideration of the attached applications for passes from Rome to Salerno for S.E. Raffaele Guariglia and S.E. Vincenzo Cicconardi.

The former, as you know, was actively concerned in the negotiations for the Armistice. The latter is a distinguished Foreign Office official who also owns property in Salerno.

If J/Cdr Hopkins could bring your influence to bear in accelerating these permits, the Italian Ministry for Foreign Affairs would appreciate the courtesy.

Mr. Reber:

Major Pearson called at 1130 hrs. today to say that two Italian Government officials would like permits to go to Rome.

They are:

Stefano SILIENTO, Minister of Finance  
Dr. BERLINGUER, Vice Commissioner for Epuration

Although officials, they wish to go as civilians to attend the funeral of a mutual sister-in-law.

These two men are Sardinians and very good friends of Prunas, and he is very keen on getting them to Rome for this family reason.

SUBJECT: Passes to AMG Territory

TO : His Excellency don Renato Prunse,  
Secretary General, Royal Italian Ministry of Foreign Affairs

I have been asked to inform you that it has become necessary to control civilian movement from Italian administered territory into the area under Allied Military Government by insisting on the possession of a pass by every civilian crossing the boundary.

No general passes are permitted and I have reluctantly to ask you to see that whenever any member of the Royal Italian Foreign Office Staff intends to cross into territory administered by the Allied Military Government, he should apply in person to me the day before his journey for the necessary document.

You will appreciate that in the case of your staff this is only a formality, but it is necessary every civilian be treated alike.
