C O P Y

FROM: AIR FORCES SUB-COMMISSION,
ALLIED COMMISSION, ROMF.

TO : ITALIAN AIR MINISTRY.

DATE: 14th DECEMBER, 1944.

REF : AFSC/R/7/AIR.

With reference to your letter PROT.15547/5/1172.Coll of the 12th December 1944 addressed to Company "D", 2677th Regiment G.S.S. (Provisional) A.P.O.512, U.S. Army.

2. The above letter was enclosed in an envelope addressed to this Sub-Commission, and was read before it was realized that we were not the addressees.

3. It is however clear from this letter that your Ministry is having dealings over the question of personnel which are not coming through this Sub-Commission. I would remind you that this is absolutely prohibited; the rules are quite clear and any organization that wishes to have Italian personnel, skilled or otherwise, has to put its demands through this Sub-Commission or the Allied Liaison Section at H.A.A.F., who would invariably consult this Sub-Commission.

4. The matter is being taken up with G.S.S. but meantime it is requested that you will take no further steps as regards this matter, and that you will make a report as to any personnel which have been handed over to any Allied Units whatever without the permission of this Sub-Commission, stating numbers and the trades involved.

5. This matter is regarded as an extremely serious one, and I request that you will forward an explanation as to why this procedure has been allowed to take place.

Date : 12th December 1944

Subject : Recruiting of Italian Met. Personnel

In reply to the secret letter dated Dec. 5th 1944 addressed to the C.O. 2677th Regt. O.S.S. (Prov.) APO 512 U.S. Army, a translated copy of which is enclosed for the Aeronautical offices of the R.Aeronautica to whom a copy of our letter is addressed for information.

2. This Ministry, according to request of above letter, will place the Met. Personnel available at disposal. The Direction of Communications has been informed of the matter. As soon as this personnel is ready it will be indicated to Ufficio "I" Stato Maggiore R.Aeronautica as it will be on the establishment of this office, and it will be also indicated to the Direction of Personnel.

3. The choice of the personnel will be made directly by the Direction of Communications, in agreement with the U.S.A. officers that your (2677th Regt. O.S.S.) Command will appoint, because Col. Moscatelli is no longer appointed at the 2677th Regt. O.S.S. but has been recalled by the R.Aeronautica.

MEMORANDUM

TO : ALL CONCERNED

1. Effective on a date to be announced, probably in the near future, the Allied Military Government will turn over to the Italian Government certain portions of the territory now occupied by the Allied Forces. At that time Allied Military Government will cease and the Italian administration will assume full responsibility for civil government in such territory.

This will involve the withdrawal of a part of the Allied Military Government personnel from the territory. The balance will continue as representatives of the Allied Control Commission.

This memorandum is to outline certain general principles which will guide A.C.C. personnel in the territories administered by the Italian Government.

Present Status - Co-Belligerency

2. Effective September 3, 1943 the Italian Government concluded an Armistice with the Governments of the United States and Great Britain acting in the interests of the United Nations. Subsequently the Italian Government signed an instrument of surrender governing the relations between the United Nations and Italy, which instrument contained various provisions designed to protect the interests of the Allies and to promote the war effort, and called for the appointment of a Control Commission to enforce and implement those provisions.

3. Following the declaration of war on Germany, Italy was accorded the status of co-belligerent. According to the tripartite statement of 13 October 1943 announcing this new status,

"The relationship of co-belligerency between the Government of Italy and the United Nations' Governments cannot of itself affect the terms (of the Instrument of Surrender) recently signed, which retain their full force and can only be adjusted by agreement between the Allied Governments in the light of the assistance which the Italian Government may be able to afford to the United Nations' cause."

The situation of a co-belligerent does not mean that Italy is recognized as one of the United Nations or is admitted as an ally. It means that the Italian Government is fighting the same enemy and in this respect has the support of the United Nations.

General Functions Allied Control Commission

4. The general functions of the Allied Control Commission, as laid

General Functions Allied Control Commission

4. The general functions of the Allied Control Commission, as laid down in the directive of the Combined Chiefs of Staff, are as follows:

- (a) To enforce and execute the instrument of surrender under the orders and general directives of the Allied Commander-in-Chief.
- (b) To insure that the conduct of the Italian Government conforms to the requirements of an Allied Base of Operations, especially transportation and communications.
- (c) To be the organ through which the policy of the United Nations towards the Italian Government is conducted and the relations between the United Nations and the Italian Government are handled.

Organization of the Allied Control Commission

4134

5. The Allied Commander-in-Chief will be ex officio President of the Commission. The General Officer Commanding-in-Chief, Allied Central Mediterranean Forces, will be acting President. The acting senior officer of the Commission will be Chief Commissioner who will serve as Deputy President of the Commission.

6. The Commission will be divided into five Sections: Economic, Administrative, Military, Political, and Communications. Sections will be in charge of Vice Presidents or Directors and, in each case, will comprise one or more Subcommissions. The tentative organization of the Commission into its various Sections and Subcommissions is set forth in Appendix A hereto.

7. Each Section or Subcommission will maintain a headquarters staff. Some will also have representatives in the field. The existing regional organizations will be continued initially to correspond to such regional authority as may be setup by the Italian Government, or otherwise as administrative convenience may dictate.

8. A.C.C. personnel in the field will be known as Control Commissioners with designation of their particular specialis category where appropriate. For example, Control Commissioner (Legal), Control Commissioner (Public Health). The Chief Control Officer in the Region will be known as the Regional Control Commissioner (RCC).

Functions and General Duties of A.C.C. Officers in the Field

9. Particulars as to the nature of the duties of A.C.C. field officers will be specified by the Subcommissions to which they are assigned. However, the following guides are applicable to all:

- (a) The primary function of A.C.C. officers in the field will be to give assistance and guidance to and to supervise the local Italian officials and to convey such instructions to them as may be authorized either in specific instances or generally under this and further directives.
- (b) Each A.C.C. officer will also carefully observe the operation of the Italian Government in the area or administrative field of his responsibility in order to determine whether the terms of the surrender are being vigorously and effectively enforced. The results of such observations will be the subject of periodic or special reports to higher headquarters.
- (c) A.C.C. field personnel will have no power to command or direct Italian officials in connection with the performance of their duties. In this respect their powers and duties are to be contrasted with those of officers of AMG.
- (d) Particularly during the transition stage and until the authority of the Italian Government is fully established and the administrative machine is functioning smoothly, the Italian officials will probably require considerable advice, information and assistance from A.C.C. officers. It is entirely proper in this way to support the authority of the Italian officials. Care should be

It is entirely proper in this way to support the authority of the Italian officials. Care should be taken, however, not to interfere directly or to give the appearance of interfering directly in or with the local administration except in real emergency.
- (e) A.C.C. personnel must also take great care to avoid becoming involved in political disputes or conflicts. A.C.C. officers will deal only with the officials selected by the Italian Government. The competency of these officials and the quality of their administration will be the responsibility of the Italian Government. However, when officials behave in a manner likely to prejudice the position of the Allied Forces by violation of the terms of surrender or otherwise, A.C.C. personnel will take any action that may be authorized and promptly submit a report with recommendations to higher headquarters.

Declassified E.O. 12356 Section 3.3/NND No. 785016

RESTRICTED

(f) Close coordination will be necessary between A.C.C. and tactical and administrative forces in the area. Certain committees have already been established (i.e. Local Resources Boards). Information as to these committees and other inter-service agencies will be communicated to field personnel where necessary. It is essential in order that confusion be avoided that the channels of communication with the Italian authorities remain as few and as simple as possible.

10. The disposition of A.C.C. personnel and their operations will be communicated by Regional Commissioners or by A.C.C. HQ. The following general rules will, however, apply:

- (a) Generally there will be no A.C.C. field officers in the communes or in a position comparable to that of the C.A.O. or C.A.F.O. under AMG. General administration will, therefore, be subject to A.C.C. control at the provincial level. Such local inspection as may be required will be worked out from A.C.C. regional or provincial HQ.
- (b) In the transition stage and until the Italian administration is functioning satisfactorily A.C.C. personnel will, subject to subparagraph (a) above, be disposed on a basis approaching that of AMG. An effort will be made to reduce numbers as quickly as conditions permit.

Regional Organization

11. It is understood that the Italian Government intends to appoint Italian Regional Commissioners in certain areas to function until the Italian Government can effectively communicate with and maintain control of the provinces. In other areas to be turned over, the Italian Government may communicate directly with the provincial officials. In either case, A.C.C. will initially appoint a Regional Control Commissioner. In regions in which there is an Italian Regional Commissioner the R.C.C. will, under directives of A.C.C. headquarters, establish control at the regional level and work with his Italian counterpart. In regions where there is no Italian commissioner the R.C.C. will serve as channel for communication with A.C.C. personnel in the field and as a regional representative of A.C.C. HQ.

Attitude toward Italian Officials

12. The members of the Commission, whether acting officially or otherwise, should maintain a correct attitude toward members of the Italian Government, neither too close on the one hand nor familiar on the other.

It must be emphasized that the Allied Control Commission occupies a position in relation to the Italian Government which is quite different from that of Allied Military Government. The Commission advises and supervises; it does not govern. This fundamental difference must be thoroughly understood by all officers who will adjust accordingly their attitude toward Italian officials and agencies, allowing them to develop their functions without undue interference.

HEADQUARTERS,
ALLIED CONTROL COMMISSION,
APO 384.

Regional Control and Military Government Section.

Ref: 16031/1/2-1.

25th April 1944.

SUBJECT: Ceilings - Officers - HQ. AGC.

TO : Vice Presidents,
Administrative Section,
Economic Section,
Political Section,
Director, Communications Sub-Commission.

1. The Chief Commissioner, as he stated at the V.P.'s meeting yesterday, has addressed a letter to AGC recommending that the "Ceiling" of this Commission be raised from 1222 officers to 1270.
2. I attach a list showing in two columns the distribution of the total of 1222 and that of 1270.
3. In order that Regions and Sub-Commissions may complete their re-organisation I suggest that the distribution in Column "A" be taken as our present ceiling and I should be grateful if you would supply me with information showing the existing strength (i.e. officers now employed in the theatre) in each Sub-Commission and HQ of Sections, the number in excess of the distribution shown and the deficiencies.
4. In case of surplus officers I should be glad to have details of names and qualifications in order that they can be posted elsewhere, either within or without the Commission. In the case of deficiencies I would ask for qualifications and ranks required in order that reinforcements of the right quality may be called forward.
5. I think that in the interests of reorganisation it will be best to treat the ceiling of 1222 as fixed, for the present, and to base our plans on this number.
6. Vice Presidents will, I know, realise and impress upon their Sub-Commissions that at this stage of the war it may not be possible to obtain officers to fill vacancies who have all the necessary qualifications. Other formations with equal responsibilities are being constituted. The filling of vacancies, therefore, must be a gradual process which will be initiated as soon as I have the information requested above.

 Political Section,
 Director, Communications Sub-Commission.

1. The Chief Commissioner, as he stated at the V.P.'s meeting yesterday, has addressed a letter to APM recommending that the "Ceiling" of this Commission be raised from 1222 officers to 1270.

2. I attach a list showing in two columns the distribution of the total of 1222 and that of 1270.

3. In order that Regions and Sub-Commissions may complete their re-organization I suggest that the distribution in Column "A" be taken as our present ceiling and I should be grateful if you would supply me with information showing the existing strength (i.e. officers now employed in the theatre) in each Sub-Commission and HQ of Sections, the number in excess of the distribution shown and the deficiencies.

4. In case of surplus officers I should be glad to have details of names and qualifications in order that they can be posted elsewhere, either within or without the Commission. In the case of deficiencies I would ask for qualifications and ranks required in order that reinforcements of the right quality may be called forward.

5. I think that in the interests of reorganization it will be best to treat the ceiling of 1222 as fixed, for the present, and to base our plans on this number.

6. Vice Presidents will, I know, realize and impress upon their Sub-Commissions that at this stage of the war it may not be possible to obtain officers to fill vacancies who have all the necessary qualifications. Other formations with equal responsibilities are being constituted. Filling of vacancies, therefore, must be a gradual process which will be initiated as soon as I have the information requested above.
