SUBJECT: Laundry Facilities.

TO : See Distribution.

1. Limited laundry facilities make it necessary that Quartermaster laundries concentrate on woolen clothing now being turned in. This will tax QM laundries to their limit for the next few months. As a result, individual work other than that for large concentrations such as recreation camps, schools and personnel centers must be cut to a minimum. Organizational commanders are encouraged to provide service for their respective units by requisitioning outfits, laundry from the Quartermaster. One type consists of:

- 200 feet rope, cotton
- 6 each brush, scrubbing
- 5 each boards, washing
- 3 each tubs, washing, nesting

The other set consists of:

- 300 feet rope, clothes line
- 9 each brushes, scrubbing
- 8 each boards, washing, hand
- 5 each tubs, washing, nesting

BASIS: 2 per company (See Daily Bulletin No. 111, dated 20 April 1944.) To the above sets have been added hand irons, ironing boards and clothes pins. The above equipment may be utilized by soldier labor or by securing the services of Italian women, however no government funds are available for payment of civilians so used.

2. Extra issue of soap is not available for laundry purposes as the increase from 7¢ for 100 men per day to the present allowance of 10¢ per 100 men per day is sufficient to take care of unit laundry work when Quartermaster laundry facilities are not available. Starch may be drawn on the basis of 8¢ per 100 men per month by units having these hand sets.

SUBJECT: Traffic Accident Preventive Program.

TO : Sec Distribution.

1. Effective 15 April 1944, a program to reduce the number of traffic accidents, traffic violations, and instances of misconduct and carelessness of drivers of U.S. Army vehicles while on the road will be initiated in this Base Section.

2. To successfully arrange this program and achieve the desired results, a training program will shortly be issued by this Headquarters, the basis of which will be the application of current War Department and Theater traffic regulations and rules of the road to members of your command, especially to those individuals whose daily duties involve the operation of motor vehicles.

3. To enable this Headquarters to gauge the effectiveness of this traffic accident preventive program, it is desired that an information copy of Standard Form #26, Driver's Report--Accident Motor Transportation, be forwarded to this Headquarters (Attn: Provost Marshal) within 24-hours after occurrence of an accident, and to be submitted for all accidents where a preliminary estimate reveals damages in excess of \$25.00 to the Government vehicle or where military or civilian personnel have sustained personal injury. Military Police have been instructed to report all accidents witnessed by them to the Provost Marshal, P.B.S., and a check will be maintained to determine compliance with provisions of this letter.

4. Registrars of hospitals, dispensaries, and other medical installations will submit a report in the form of appendix "A" on the initial admittance or medical treatment of an individual, civilian or military, where diagnosis reveals that injuries were received as a result of a traffic or motor vehicle accident.

5. Results of this program together with supporting statistics will periodically be published by this Headquarters for the information and record of all concerned.

1. In order that troops who have taken part in certain major operations, which have been given wide publicity at home, may inform their families and friends of their participation in such operations, it has been decided to relax censorship regulations to the extent of allowing in specific instances, the fact to be mentioned in private mail.

2. All troops who took part in the following operations may now mention the fact of their individual and personal participation in their letters home.

- (a) SALERNO landing.
- (b) Crossing of VOLTURNO.
- (c) Crossing of SANGRO.
- (d) ANZIO bridgehead operation. (Up till 2 Mar 44 only).
- (e) CASSINO battle. (Up till 2 Mar 44 only).

3. In connection with any mention of individual and personal participation in such operations, the following censorship rules will be observed by all ranks, and unit censors will be held responsible for an intelligent interpretation thereof.

(a) No geographical location other than the Sector authorized will be identified, e.g. in the case of 2(c) above the SANGRO may be mentioned, but not the names of the villages, etc. on or near the river.

(b) When there is a limiting date as in 2(d) and (e) above, troops whose participation in the operation commenced after the limiting date, may NOT mention participation.

Commanding Officers, All Assigned and Attached Units, Peninsular
Base Section.

1. The following paraphrased personal radiogram dated 11 March 1944, received from General H. M. Wilson, Supreme Allied Commander, Mediterranean Theater, is published for the information of all concerned:

"To all concerned please convey my congratulations on the success achieved in forwarding supplies to the beachhead. For the 4 days ending March 9 the average of 3333 tons and a final figure of 3334 tons on March 10 is a magnificent achievement and reflects the greatest credit on the skill and determination upon which these vital operations are being conducted."

2. Tonnages of supplies forwarded to and unloaded at the beachhead subsequent to March 10 have continued at the same high level attained during the preceding five days.

3. The Commanding General desires to convey his personal appreciation for this excellent accomplishment which reflects great credit upon the Peninsular Base Section.

1. The following is an extract from a letter received by the Commanding General from Lieutenant General George Clark, Chief Administrative Officer, AFHQ:

"My congratulations both to you and your Staff and all the troops under your command on their truly magnificent efforts in the work which they are doing in the port and harbor of Naples. To handle some ~~*****~~ tons a day in a port which has been demolished and for which the peace-time output is less than one third of that amount is a most remarkable achievement and I can assure you that those of us who realize how much work and organization is required to carry out a task of this type have been so much struck by the success of all your efforts."

SUBJECT: Rotation and Return of Military Personnel
as Individuals (Exclusive of Air Crew
Personnel) on duty outside Continental United
States.*File*

TO : See Distribution.

1. In the past, units have failed to notify this Headquarters on the change of status of personnel listed on their rotation rosters. This has caused a considerable amount of unnecessary paper work. In the future, units will submit promptly to this Headquarters, any change of status on personnel recommended for rotation.

2. When individuals are recommended for return to the United States under provisions of paragraph 2b (4) unnumbered War Department Circular dated 28 June 1943, for emergency reasons, recommendation will be accompanied by Form Appendix "B" as required by Circular #221, Hqs. NATOUSA, dated 12 November 1943. Names and addresses of persons residing in the United States who have knowledge of the circumstances of the case and home address of the person recommended will be furnished in each instance. Letters from home and American Red Cross messages should be attached to basic letter recommending emergency rotation.

3. Units who have been authorized by Headquarters, NATOUSA to wear a bronze battle star, have in the past construed this to mean unit is eligible for rotation after six months of overseas service. Headquarters NATOUSA has stated no unit will become eligible under the six-month clause of the rotation policy solely because unit is authorized to wear a battle star.

SUBJECT: The Bronze Star Medal.

TO : See Distribution.

1. Announcement has been made of a new decoration, the Bronze Star, established 4 February 1944 by the War Department for award to any person who, while serving, on or after 7 December 1941, in any capacity with the Army of the United States, distinguishes, or has distinguished himself by heroic or meritorious achievement or service in connection with military operations against an enemy of the United States not involving participation in aerial flight.

2. The Bronze Star will take precedence below the Soldier's Medal and above the Purple Heart.

3. This new award provides a means for recognizing performance of duty beyond the ordinary, but which is not sufficiently outstanding to warrant the award of the Silver Star or the Legion of Merit. The award of the Bronze Star may be merited by acts of gallantry, or meritorious service either in actual combat, or in direct support of combat operations. This medal should be used freely by the Infantry to recognize minor acts of heroism and courageous conduct in combat, with more restraint as the distance from the area of close combat increases.

4. It is desired that all unit commanders review past recommendations submitted by them which were returned disapproved on the basis that the actions described were not sufficiently outstanding to warrant the award of the Silver Star or the Legion of Merit. Such a survey, undoubtedly, will reveal some recommendations which may be resubmitted for the award of the Bronze Star.

5. Authority to make this award to members of the armed forces of the United States has been delegated to commanders not below the grade of Major General. Recommendations for the award of this decoration to persons serving with the military forces of co-belligerent nations will be forwarded through command channels to the Commanding General, Fifth Army, complying with the provisions of paragraph 8c (3), Army Regulations 600-45.

6. A supply of service ribbons is expected in approximately sixty days, and these ribbons will be issued to recipients in lieu of medals until such time as the medals become available.

7. The provisions of Army Regulations 600-45 and other administrative directives pertaining generally to decorations are applicable to the Bronze Star except as indicated above.

SUBJECT: UNAUTHORIZED LEAVE IN ROME

TO : SES DISTRIBUTION

1. Headquarters Allied Armies in Italy have issued the following instructions regarding day leaves and passes to the City of Rome.

"(a) Day leave (passes) to visit Rome will be given to troops stationed within 30 miles of Rome.

(b) The number of passes which may be authorized in paragraph (a) will not exceed 5% of unit strength.

(c) Armed forces personnel not in possession of the authorized pass will be picked up by the Military Police and the fact reported to proper Commander.

(d) CG P.A.G. will report to HQ AAI organizations which permit passes to Rome in violation of instructions."

2. Instructions on the policy of this Headquarters relative to visiting Rome were published in paragraph 74, PAB Daily Bulletin #231, 13 August 1944. They are reproduced as follows:

"Passes to Rome. No personnel of units assigned or attached to P.A.S. outside of a 30 mile radius of Rome will be permitted to visit Rome excepting those on official business."

3. It has come to the attention of this headquarters that there has been a general disregard of these instructions by unit commanders and by officers and enlisted personnel. Any further disregard of these instructions by individuals and/or responsible unit commanders will result in disciplinary action.

4. This directive will be read to all personnel at unit formations, and will be posted on all unit bulletin boards.

5. All unit commanders will acknowledge receipt of this directive by 0800 hours 10 September 1944, and will state in the acknowledgement that, (1) they fully understand the provisions of this directive and (2) that the provisions of par 4 have been carried out.

2. TYPES OF COURSES:

Three types of courses will be given as follows:

a. Course No. 1

A four-day course designed primarily for full or part-time medical inspectors and sanitary officers. It will consist of lectures, laboratory demonstrations, and field observations dealing with epidemiology and control of malaria under military conditions in Mediterranean countries.

Names and serial numbers of all full or part-time medical inspectors and sanitary officers of regiments, battalions and hospitals will be submitted before 4 February 1944. Special orders will be issued directing the attendance of the officers to this course. The course is limited in number, and will be repeated until all required officers have attended. Only one officer from each organization will be in attendance at one time. In organizations where medical services cannot be covered due to attendance at school, arrangements will be made with other units in the area for satisfactory coverage.

b. Course No. 2

A four-day refresher course for laboratory officers and hospital technicians. It will consist of lectures and laboratory exercises in the preparation, processing and examination of blood smears for malaria parasites.

Names and serial numbers of one laboratory officer and one laboratory technician will be submitted by each general and station hospital before 4 February 1944. Special orders will be issued directing the attendance of the officers and enlisted men to this course. This course is limited in number and will be repeated until all required officers and enlisted men have attended. Each hospital will provide one microscope with the officer and enlisted man students.

U. S. RESTRICTED Equals British RESTRICTED

c. Course No. 3

A two-day course of intensive training in the principles and practice of area malaria control. Offered in fulfillment of requirements for training of enlisted men for unit malaria control.

The names and serial numbers of two enlisted men (one of which will be a non-commissioned officer) from each company, battery or like component will be submitted by the unit commander before 1 February 1944. The men selected will not be medical men except those from medical units. The course will be limited to 50 men and will be repeated until all required enlisted men have attended. Special orders will be issued directing attendance of enlisted men to this school.

3. SCHOOL OPENING

a. The exact dates each course is to begin have not been set, but the first series of courses will start on or about the middle of February.

b. Orders will be issued to students who are to attend the above courses.

4. LOCATION OF SCHOOL

The school will be located at the 15th General Medical Laboratory, Mestra Fairgrounds.

Subject: Discipline of Military Personnel During Red Alert

To : See Distribution

1. During recent Red Alerts military personnel, in many cases, have conducted themselves in a manner tending to hinder rather than aid the Passive Defense System. This is due to poor discipline and to lack of proper training, both of which are responsibilities of unit commanders. Attention is directed to the following cardinal points:

a. Vehicular Blackout. All personnel are reminded that during a Red Alert blackout regulations as set out in PBS Circulars #26 (1943) and #28 (1943) will be enforced. The following is emphasized:

(1) Headlights will be extinguished. Vehicles equipped with special blackout lights may use these lights, but if a vehicle is not so equipped all lights will be extinguished. Military and Civil Defense vehicles are authorized to use lowbeam headlights if necessary only in discharge of an urgent operational duty.

(2) While vehicles (other than those on urgent operational duty) may proceed at a speed limit of 15 Km per hour (10 mph), all personnel are cautioned to do so only if conditions are favorable. Because of smoke, number of civilians on streets, lack of moonlight, etc., it is advisable in most instances to halt the vehicle until the All Clear signal is sounded.

(3) Military police will enforce vehicular blackout regulations. All other military personnel will refrain from stopping vehicles or attempting to impose blackout regulations unless specifically called upon by proper authority to assist in a special mission. Firing weapons or throwing missiles at vehicle lights is prohibited.

b. Blackout of Buildings and Tents. The blackout requirements for buildings and tents are fully set out in PBS Circular #26 (1943). Military personnel will report violations involving military installations to the responsible person on duty at the installation. Violations involving other than military installations will be reported to the nearest MP or to Headquarters Metropolitan Area. The exact address must be given in order to be effective. Military personnel other than MP's will not undertake to correct such violations. Firing weapons or throwing missiles prohibited.

2877

RESTRICTED

Discipline of Military Personnel During Red Alert (cont'd)

c. Use of Telephones. During a Red Alert telephone calls will be limited in accordance with the provisions of Training Memorandum No. 7 (1943), Passive Air Defense Procedure, Peninsular Base Section. This includes both calls to the PAD officer and general use of telephones. Telephone calls will not be made to PAD requesting such information as to whether Red Alert is on, All Clear has been sounded, amount of damage done, etc.

d. Firing at Planes. The firing of small arms (pistols, rifles, sub-machine guns or other light weapons) at hostile planes by military personnel is prohibited during night air raids. During daytime air raids, small arms will not be employed unless hostile planes attack ground troops or installations at a range of 500 feet or less.

2. The Unit Commander will be held accountable for violations committed by personnel of his command.

3. This letter will be read to all personnel and posted on company bulletin boards for the period of one week.

1. Section IV, War Department Circular Number 10, 1944, is quoted below:

"1. In several recent instances it has been brought to the attention of the War Department that enlisted men 38 years of age and over in overseas commands who have applied for release from active duty and transfer to the Enlisted Reserve Corps under the provisions of Circular No. 92, War Department, 1943, as amended, have upon arrival in the continental United States withdrawn such requests for relief from active duty or have been found not qualified under the provisions of the aforementioned circular.

"2. Any enlisted man who has been returned from an overseas command for release from active service in accordance with provisions of Circular No. 92, War Department, 1943, upon arrival at the port of debarkation will, if he withdraws his request for release from active service and transfer to the Enlisted Reserve Corps, or if he has not qualified under the provisions of Circular No. 92, be reported by the port of debarkation commander to The Adjutant General, who will order such individual to the nearest appropriate overseas replacement depot of the major force concerned in order that he may be included in the first available shipment of replacement personnel to the overseas command from which he was returned to the continental United States.

"3. It is the responsibility of the commanding general of the major force having assignment jurisdiction over the individual concerned to include him in the first available shipment to the overseas command from which he was returned to the continental United States by substituting him, where necessary, for such replacement personnel set up for shipment to that overseas destination.

"4. The provisions of this circular will be brought to the attention of all individuals outside the continental United States who have applied for release from active duty under the provisions of Circular No. 92, War Department, 1943."

Subject: Attendance at Religious Services.

To : See Distribution.

1. Section I, War Department Circular No. 244, 1941, is quoted for the information of all concerned:

"Attendance at special religious services.-- In addition to services on the Sabbath, commanding officers are authorized to excuse from duty, soldiers who desire to attend religious services on other days which in the liturgical churches carry the ecclesiastical obligations of Sunday, or on occasions recognized as of special religious importance in non-liturgical churches. Those desiring to attend such services, either on the post or in adjacent communities, may be absent for such period as will enable them to be at their place of worship as publicly announced, provided no serious interference with their military training is occasioned thereby."

2. Unit commanders and chiefs of staff sections will endeavor to arrange duty schedules in such a manner that personnel who so desire may attend religious services.

3. In instances where it is impossible to provide religious services in the troop areas, commanding officers will, in so far as practicable, provide transportation for personnel to and from designated places of worship.

Subject: Enlisted Men.

To : See Distribution.

1. Section IV, War Department Circular Number 10, 1944, is quoted below:

"1. In several recent instances it has been brought to the attention of the War Department that enlisted men 38 years of age and over in oversea commands who have applied for release from active duty and transfer to the Enlisted Reserve Corps under the provisions of Circular No. 92, War Department, 1943, as amended, have upon arrival in the continental United States withdrawn such requests for relief from active duty or have been found not qualified under the provisions of the aforementioned circular.

"2. Any enlisted man who has been returned from an oversea command for release from active service in accordance with provisions of Circular No. 92, War Department, 1943, upon arrival at the port of debarkation will, if he withdraws his request for release from active service and transfer to the Enlisted Reserve Corps, or if he has not qualified under the provisions of Circular No. 92, be reported by the port of debarkation commander to The Adjutant General, who will order such individual to the nearest appropriate oversea replacement depot of the major force concerned in order that he may be included in the first available shipment of replacement personnel to the oversea command from which he was returned to the continental United States.

"3. It is the responsibility of the commanding general of the major force having assignment jurisdiction over the individual concerned to include him in the first available shipment to the oversea command from which he was returned to the continental United States by substituting him, where necessary, for such replacement personnel set up for shipment to that oversea destination.

"4. The provisions of this circular will be brought to the attention of all individuals outside the continental United States who have applied for release from active duty under the provisions of Circular No. 92, War Department, 1943."

SUBJECT: Rotation of Personnel

TO : See Distribution.

1. Radiogram received by this Headquarters from Headquarters, NATOUA, dated 3 January 1944, amends so much of Par. 2 (a), Cir 221, Headquarters NATOUA, dated 12 November 1943, as pertains to six months continuous overseas service.

2. Personnel of Base Sections and assigned and attached units, due to limitations of shipping space for replacement personnel, must have one year overseas service to be eligible under the rotation policy. Recommendation of personnel with six months overseas service may be made if personnel has been wounded in action, has been a participant in combat, or has been decorated. Appendix B should indicate personnel who have participated in combat.

3. Present recommendations as submitted to Headquarters, NATOUA, from this Headquarters, will follow this policy.

4. Units effected by the above mentioned change in policy will comply with necessary substitutions. Any unit overseas for a period less than one year, that has not submitted a report, will comply by submitting a negative report, unless personnel are qualified under paragraph 2, above.

SUBJECT: Disposition of Personnel Records.

TO : See Distribution.

1. It has come to the attention of this headquarters that many unit commanders are forwarding to Eastern Base Section, Service Records and allied papers of personnel evacuated from Italy.

2. The following paragraph from MATOUSA Circular 167, 1943 is quoted for your information and compliance:

"3b. Whenever personnel who are patients in hospitals and absent or expected to be absent from their units more than 30 days -

"(1) Unit commanders will -

"(a) Transfer them and forward their personnel records to the Detachment of Patients, when they are at known U. S. Army station, convalescent or general hospitals.

"(b) Drop them from their rolls and forward their records to the Central Service Records Branch of this headquarters, when they are at other types of hospitals or their location is unknown.

"(2) Hospital commanders will -

"(a) Notify unit commanders promptly and will request, and when necessary repeat such requests, that individuals be transferred and personnel records be forwarded. Copies of such requests will be sent to the Central Service Records Branch.

"(b) Whenever personnel arrive at any station for permanent or extended detached duty unaccompanied by their personnel records, the unit commander will promptly initiate and follow up action to secure such records by communicating with the individual's last unit and/or place of hospitalization and/or the Central Service Records Branch."

Attention is further directed to the provisions of Circular 215, Headquarters, MATOUSA, 6 November 1943.

3. All records of personnel absent in unknown hospitals will be forwarded through this headquarters. Letters of transmittal will indicate whether individuals are or are not battle casualties.

5 January 1944.

SUBJECT: Materiel Status Report

TO : See distribution

1. Reference: Letter SOS, MATOUSA, 28 November 1943, (319.1 Misc (SSEX)), "Periodic Reports Required by Headquarters SOS, MATOUSA".

2. All previous directives issued by this Headquarters on subject report are rescinded. The procedure outlined in this letter will govern current and future reports.

3. Each unit assigned or attached to the Peninsular Base Section for administration will submit the subject report in duplicate as of 1200 hours of the 15th of the month. The reports will be dispatched so as to reach this Headquarters (attention G-4) by 1200 hours on the 17th day of the month. Delivery of reports by courier to G-4 office will be necessary in many cases to meet deadline. Deadline date must be met.

4. Only when commanders submit complete and accurate information regarding status of equipment may adequate theater supplies be obtained from the United States by the Supply Services.

5. Each report will comprise six separate appendices (one for each Supply Service).

6. Sets, chests or similar collective items will be carried as on hand if substantially complete, a brief note being made as to degree of completeness.

7. All sheets of this report will be marked "SECRET". Care must be taken that they are complete and legible.

8. A letter of transmittal will accompany the reports accurately listing all units included in the report. Detachments not included will be clearly indicated. The T/O-E, T/EA (with dates thereof) under which units are equipped will be indicated in the said letter.

9. Indicate on each Appendix the name of the reporting organization.

10. Appendices will be reproduced as necessary.

11. Each unit will submit report for all types of supply, i.e., Quartermaster, Ordnance, Signal, etc. If no items of a particular supply service are authorized, a sheet for each supply service will be included with a notation to the effect that no material of that supply service is authorized or on hand. In the event forms are reproduced it will not be necessary to reproduce the nomenclature lists in their entirety, but only those items on hand or authorized for unit submitting the report. The items will be grouped as shown on published forms and number assigned each item on published list will be used. For instance if a unit having a strength of 275 is authorized odd numbered items of Quartermaster "Clothing Personal", the extract will show:

<u>CLOTHING PERSONAL</u>	<u>AUTH BY</u> <u>T/BA</u>	<u>AUTH IN EX-</u> <u>CESS OF T/BA</u>	<u>ON HAND</u>
1. Boots, combat pr	275	0	267
3. Caps, garrison, wool, O.D. ea	275	0	268
5. Coat, wool, serge on	275	0	272
etc.			

12. In the case of an item which is authorized per individual (or vehicle, etc), the quantity "Authorized by T/BA" will be the allowance per individual (or vehicle, etc) multiplied by actual strength or quantity thereof (i.e., if a unit has T/O strength of 200 with an actual strength of 190, and rifles are authorized per individual, the figure "Authorized by T/BA" should be 190). The "On Hand" figure will show the quantity issued to using troops of the unit plus stock on hand. Do not fill in "On Hand" figure as "1 each" or "1 per individual".

13. Unit reports will be consolidated by highest separate administrative unit of the command.

14. Reports must show units in which items are reported, i.e., lbs, each, cans or boxes.

15. Items on which no quantity is involved should show zero, except Ordnance Section of report which is governed by special instructions inclosed with blank form.

16. Authority for issues in excess of T/BA must be shown, giving complete data as to Headquarters authorizing this issue, date, etc.

17. Stocks on hand of expendable items called for by the report will be shown. The term "expendable" will be used in the Authorized by T/BA column. 2842

18. Substitute item must indicate that item for which substitution has been made. Stocks on hand for substitute items will only be listed once, i.e., not as a standard item and then again as substitute item.

19. Units will not report minor items which are not called for in listing on forms, except Ordnance Major Items of Equipment and Tool Sets.

20. The new Ordnance form must be used. It is recommended that special instructions governing the compilation of Ordnance section of report be studied before preparing this part of report.

21. Each consolidated report will include all Ordnance Major items in the hands of troops.

a. Report will be submitted in the form outlined in Appendix "A".

b. For convenience, Appendix "B" lists the standard nomenclature of Ordnance items.

c. Any Ordnance major items in the hands of troops which are not included in Appendix "B" will also be reported.

d. All major item spare or reserve replacement spares in the hands of any and all Ordnance units will also be included.

22. Should questions regarding preparation of report arise, that Service Chief under whose operational control unit functions will be consulted.

INSTRUCTION FOR FILLING OUT
CONSOLIDATED MAJOR ITEM STATUS REPORT - ORDNANCE

GENERAL

1. The Consolidated Status Report covering Major Items of Ordnance issue and condition will be made by your command for all organizations assigned and/or attached to your command for administration as of 1200 hours on the date report is called for. Units assigned to your command but actually attached to another command for performance of their duties, such as troops assigned to Fifth Army, but attached to MBS will be reported for by the unit Commander to whom they are attached. In the illustration above, this would be MBS through the Commanding General, SCS.

2. Reports will be made as a consolidated list for all Major Items of Ordnance issue with units under your command in accordance with the form attached hereto, Appendix "A", using as a guide the list of Major Items shown in Appendix "B", attached hereto. Appendix "B" is to be considered a guide on the type of Ordnance Material to be listed and to provide a uniform nomenclature for submitting reports. All complete Major Items of Ordnance which may either be authorized or on hand but which are not listed in Appendix "B", should be added to the list when reporting.

3. At the end of each Status Report will be shown all units under your tactical command as of the date and hour of your report. It will further show units for which report is included in the consolidation so that in the case of the delinquency of a report of an individual unit under your command it can be forwarded at a later date. All new units which are being reported on for the first time since the previous report was made should be so indicated, also any units which have been dropped since the preceding report should be listed separately and so indicated. Units being included in the report are to be shown by unit number followed by the T-O and T-BA numbers and dates under which they are operating on date of report.

SPECIFIC (Reference APPENDIX "A")

1. The name of the organization and the date and hour for which report is submitted is to be included in the heading of the first sheet. Procedure in compiling the report is as follows: (All reference numbers used are in respect to column numbers in sample sheet "Appendix A" attached).

Column 1.

List of standard items using correct SMI nomenclature and group, A Group, B group, etc. A guide for this list is shown on Appendix "B". The only difference from standard nomenclature list is a grouping of major items to form a single combination. Example: Howitzer, 155mm M1, and carriage,

S E C R E T

Appendix "C"

Howitzer 155mm M1, are put together as Howitzer and Carriage, 155mm M1. Attached Appendix "B" indicates various types of Ordnance material which is to be reported. Items over and above this list which might be either authorized or on hand should be included in the report. The only exception to this is where the item is a component part of issue with another major item such as a panoramic telescope M5A2 to 105mm Howitzer and carriage M2. See Note 3.

Column 2 a.

Quantities authorized by T/BA. Only such items as were authorized under the basic T/O and T/BA for the organization are to be included in this column. Example: An Infantry Division operating under T/O No. 7, dated April 1, 1942, and current T/BA of that time would only show authorized the items allowed under the above T/O and T/BA. It is necessary that each report of a given organization be consistent with those reports preceding it.

Column 2 b.

Quantities of material authorized in excess of T/BA as stated in column 2a are to be entered in this column. These would include all special authorizations and which still remain in effect.

Column 2c.

These quantities will be the totals of columns 2 a and 2 b.

Column 3 a.

Quantities of all serviceable standard items in active use with the troops will be indicated in this column.

Column 3 b.

Quantities of serviceable standard items in reserve stock for replacement purposes are to be entered in this column. "Reserve Stock" is defined to include only the organizational reserved in the hands of ordnance units attached to tactical organizations. It should not be confused with items on hand in a tactical organization which should not be reported separately, but should merely be included in the quantities listed in columns 3a, 3c, and 3d. By comparison of the quantities in column 2a and 3d, these surplus stocks are reflected (but not so designated nor shown by separate quantities) as "overs".

Column 3 c.

Quantities of unserviceable standard items only will be shown in this column. See Note 1.

Column 3 d.

Totals of columns a, b, and c will be shown in this column.

S E C R E T

Appendix "C"

Column 4.

List of any items being used as substitutes for the standard items listed in column 1 will be shown. See Note 2.

Column 5 a.

Quantities of serviceable substitute items in active use with the troops will be indicated in this column.

Column 5 b.

Quantities of serviceable substitute items in reserve stock for replacement purposes are to be entered in this column.

Column 5 c.

Quantities of unserviceable substitute items only will be shown in this column. See Note 1.

Column 5 d.

Totals of columns, 5a, b, and c, will be shown in this column.

2. List of items to be included in report will only include such items as are on hand or authorized. Other items included in Appendix "B" which are not on hand or authorized will not be shown in this report.

NOTE 1.

Only such items as are in a condition where they cannot be used for combat or tactical purposes for a period of five days will be reported unserviceable. Location of such items can be simplified by reason of the fact that any item of ordnance which is unserviceable for combat or tactical use for the period stated should be evacuated to ordnance shop or the Ordnance Officer maintaining the equipment cited should have been notified of its unserviceability. An item will not be considered unserviceable unless it is either damaged or has missing such pertinent accessories as would definitely render it impossible to use for combat. Lack of certain accessories which will not necessarily keep the item from being used for combat or tactical use are to be noted in footnote on the listing of that item. See example footnotes (a), (b) and (c) on sample sheet Appendix "A".

NOTE 2.

Quantities of substitute items shown will not be included in the total of that item when it is being used as a standard item. Example: The Rifle, caliber 30, M1, is a standard item as shown on sample sheet. It is also a substitute item for the carbine, caliber .30, M1. In this case the four rifles shown in column 5d are not included in the quantity of rifles shown in column 3 a, b, c, or d, so the total number of Rifles, caliber 30, M1, as shown on the sample ~~sheet would be 85 from column 3d~~ is 4 as shown in column 5d, which equals 89. See Appendix "A".

S E C R E T

Appendix "C"

NOTE 3.

It is to be noted in Appendix "A" that sample of the list has been provided. All items reported on will be considered to be complete with all of their necessary accessories and armament unless otherwise noted by a footnote on the list of that item. In example: Medium Tank M4 when listed will be considered to be complete with its machine guns, submachine guns, sights, periscopes and other accessories which are called for to make the item a complete combat weapon.

Items of fire control which are issued for use other than directly with the gun itself such as the battery, battalion, will be included in the report. Only such items as are part and parcel of the complete combat weapon will be excluded from that part of the report covering the weapon itself. Fire control major item spares in the hands of ordnance maintenance units and organizational spares not included as part and parcel of the weapon will be reported separately as F-Group items.

Reports on passenger, cargo and special purpose vehicles will include the type, model, year and manufacturer. For example: Truck 2-1-2 ton, 6x6, cargo, LWB, w-winch, 1942, GMC. Except for combining of major items as brought forth in 4 column 1, correct SML nomenclature will be used when reporting other items of ordnance issue. This is imperative due to the number of models and modifications of the various items. A footnote will be added to show:

- a. Quantities of trucks equipped with banjo type axles and quantities equipped with GMC axles.
- b. Quantities of vehicles equipped with 12 volt batteries and quantities equipped with 6volt batteries.

SUBJECT: Adoption of New Morning Reports

TO : * * * * *
Commanding General, Fifth Army, APO 464.
* * * * *

1. Effective 0015 hours, 1 September 1943, new type Morning Report, TD AGO Forms 1 and 2 as revised 23 March 1943, will be used by all organizations in this Theater. AR 345-400 dated 7 May 1943, as modified in paragraph 3 below, is effective at the above quoted hour, and at the same time the preparation of reports of change, TD AGO 303, will be discontinued.

2. The establishment of schools of instruction wherever necessary to familiarize personnel with the detailed use of the new Morning Report and regulation will be made and the training of all personnel completed prior to 1 September 1943.

3. The following modifications in AR 345-400, dated 7 May 1943, are effective within this Theater.

a. Paragraph 5, Preparation. To this paragraph, the following modification is made: "When, due to combat conditions, it is impractical for the Morning Report to be made up by the organization, the Morning Report may be made up in the Personnel Section from information available from the organizations concerned; this is not to be considered to interfere with the accuracy or speed in submitting the original copy of the MRU serving the unit."

b. Paragraph 7 a, Disposition of Copies: This paragraph is amended to read as follows: "In line 7, delete the words 'or Statistical Control Unit'. The original copy of the Morning Report will be sent by all air corps organizations to the Machine Records Unit servicing the Air Force."

c. Paragraph 11, Assigned. The following addition is made to paragraph 11, sub-paragraph f: "Main civilian occupation will be reported for all officers. Duty, main civilian occupation and military occupation specialty will be reported for enlisted men"; Sub-paragraph g: "military occupation specialty will be omitted for air corps personnel".

d. Paragraph 15, modified as follows: Substitute in the second line, for the words "24 hrs", the words "14 days".

e. Paragraph 21, Battle Casualties. This paragraph is amended to include the following as casualties: (a) gassed, (b) interned, (c) died of wounds. 21 b. is deleted and the following is substituted: "Wounded battle casualties will be classified as lightly wounded (L) or seriously wounded (S). When possible, a statement as to the nature of the wound will be included."

Incl. #1.

f. To paragraph 26, add the following: "Daily Patient Admission and Disposition Report will be attached to the Morning Report for all general, station, post and convalescent hospitals. This report will show for each patient -- 1. Name, 2. Rank, 3. Army Serial Number, 4. Organization from which gained or to which lost".

g. Paragraph 27, Record of Events. For this paragraph substitute the following: "Record of Events consists of basic data from which the history of the organization is compiled. These data will be entered on the reverse side of the Morning Report daily. A brief account of the events affecting the organization as a whole will be made, for example: "July 26, Blinda, Algeria. Left Bivouac at 0730B hours, arriving Maison Blanche, Algiers, 2010B by marching. Distance marched, 40 miles. No casualties". Example two: "2 April, Hill 609. Entire company engaged in combat. Losses - 2 officers wounded; 1 enlisted man killed, 5 wounded, 3 missing. Objective taken".

h. Machine Records units will file original copies of organization Morning Reports in date sequence. Organizations within any unit will be filed together for the unit. Upon receipt of all Morning Reports, for the monthly period by the MRU, of the units serviced, these Morning Reports will be forwarded to the 60th MRU, APO 534. Upon the change in servicing of an organization, unit, or sub-unit, or detachment from one MRU to another, the MRU formerly servicing the unit will retain copies of Morning Reports on hand and forward them at the end of the month to the 60th MRU. Original copies of Morning Reports will not be forwarded between MRU's. A permanent control system will be maintained by each MRU for all units, organizations and detachments indicating dates of receipt and date of forwarding. Morning Reports will be forwarded to the 60th MRU by a letter of transmittal, showing the name of the organization or unit of detachment and the date of the Morning Report forwarded.

5. Distribution has been made to all headquarters of WD AGO Forms 1 and 2 revised 23 March 1943, and AR 345-400 dated May 7 1943. Future requisitions for the above quoted forms and AR's will be submitted to the Commanding General, MRS, APO 600, Attention AG Publications Depot.

1. Pending the revision of AR 345-400, Morning Reports, the following definitions will be used for reporting strength on Morning Reports (W.D., A.G.O. Forms No. 1 and 2.).

a. Personnel will be considered present for duty.--(1) When present and performing duty.

(2) When capable of performing duty but authorized by competent authority, without formal leave or furlough, to be temporarily absent, i.e. verbal orders of commanding officer.

(3) Enlisted personnel on pass for not more than three (3) days.

(4) Personnel on special duty.

b. Personnel will be considered as present not for duty when not capable of performing duty, but present with the organization, i.e., enlisted personnel in arrest in quarters or sick in quarters.

c. Personnel will be considered as absent.-- When authorized formal leave or furlough.

(2) Personnel sick in hospital on or off the post or in confinement on or off the post other than in quarters.

(3) Personnel on detached service and temporary duty.

d. Assigned --An individual is assigned when he fills an allotted position vacancy and becomes a permanent member of an organization for the performance of duty within the purposes for which the organization is established.

e. Attached unassigned.--- An individual is attached unassigned when he is not included in the strength of any other organization and is not filling an allotted position vacancy.

2829

f. Attached from other organizations.--- An individual is attached from other organizations when he becomes attached to an organization in a duty status and for administration and he remains an assigned member of the other organization.

g. Detached service.--- An individual is on detached service when

attached to an organization in a duty status and remains an assigned member of the reporting organization.

h. Temporary duty.--- An individual is on temporary duty when absent from the organization or station of assignment performing temporary duty incident to regular duties and within the purposes for which the organization of assignment has been established. Absence of personnel on temporary duty will be reported on the morning report of the organization of assignment but not on the morning report of the organization where temporary duty is performed.

i. Special duty.--- An individual is on special duty when performing duty with other organization and reporting daily to his assigned organization.

2. Paragraph 2, letter AG 330.33 (27 Jul 43) CM-F dated 27 July 43, subject: "Morning Reports" is amended to read as follows:

a. Upon the transfer of a reporting unit from the servicing of one machine records unit to another the personnel section will forward all morning reports prepared prior to the day of departure to the machine records unit servicing the organization at its old location. Morning reports of the day of departure and those originating enroute will be forwarded to the machine records unit servicing the organization at its destination.

1. Effective 0013 hours, 1 September 1943, new type Morning Report, WD AGO Forms 1 and 2 as revised 23 March 1943, will be used by all organizations in this Theater. AR 345-400 dated 7 May 1943, as modified in paragraph 3 below, is effective at the above quoted hour, and at the same time the preparation of reports of change, WD AGO 303, will be discontinued.

2. The establishment of schools of instruction wherever necessary to familiarize personnel with the detailed use of the new Morning Report and regulation will be made and the training of all personnel completed prior to 1 September 1943.

3. The following modifications in AR 345-400, dated 7 May 1943, are effective within this Theater.

a. Paragraph 5, Preparation. To this paragraph, the following modification is made: "When, due to combat conditions, it is impractical for the Morning Report to be made up by the organization, the Morning Report may be made up in the Personnel Section from information available from the organizations concerned; this is not to be considered to interfere with the accuracy or speed in submitting the original copy of the MRU serving the unit."

b. Paragraph 7 a, Disposition of Copies: This paragraph is amended to read as follows: In line 7, delete the words "or Statistical Control Unit". The original copy of the Morning Report will be sent by all air corps organizations to the Machine Records Unit servicing the Air Force.

c. Paragraph 11, Assigned. The following addition is made to paragraph 11, sub-paragraph f: "Main civilian occupation will be reported for all officers. Duty, main civilian occupation and military occupation specialty will be reported for enlisted men"; Sub-paragraph g: "Military occupation specialty will be omitted for air corps personnel".

d. Paragraph 15, modified as follows: Substitute in the second line, for the words "24 hrs", the words "14 days".

e. Paragraph 21, Battle Casualties. This paragraph is amended to include the following as casualties: (a) gassed, (b) interned, (c) died of wounds. 21 b. is deleted and the following is substituted: "Wounded battle casualties will be classified as lightly wounded (L) or seriously wounded (S). When possible, a statement as to the nature of the wound will be included."

"3b. Whenever personnel who are patients in hospitals and absent or expected to be absent from their units more than 30 days -

"(1) Unit commanders will -

"(a) Transfer them and forward their personnel records to the Detachment of Patients, when they are at known U. S. Army station, convalescent or general hospitals.

"(b) Drop them from their rolls and forward their records to the Central Service Records Branch of this headquarters, when they are at other types of hospitals or their location is unknown.

"(2) Hospital commanders will -

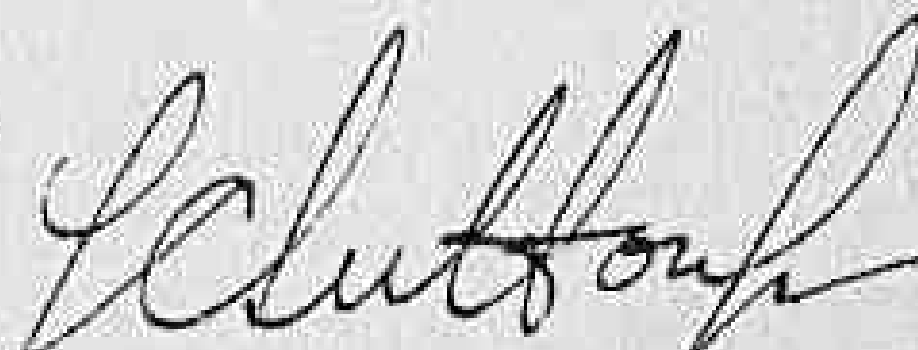

"(a) Notify unit commanders promptly and will request, and when necessary repeat such requests, that individuals be transferred and personnel records be forwarded. Copies of such requests will be sent to the Central Service Records Branch.

"(b) Whenever personnel arrive at any station for permanent or extended detached duty unaccompanied by their personnel records, the unit commander will promptly initiate and follow up action to secure such records by communicating with the individual's last unit and/or place of hospitalization and/or the Central Service Records Branch."

Attention is further directed to the provisions of Circular 215, Headquarters, NATOUA, 6 November 1943.

Subject: Available Service Troops for PBS.

To : See Distribution.

1. Attached hereto (Inclosure No. 1) is a list of U.S. service units currently assigned, attached or nominated for duty with PBS and remaining in Sicily, North Africa and USAFIME.

2. Dates on which units are available for shipment from present stations are indicated. Pending receipt of firm information, time of arrival at Naples may be estimated at 5 and 10 days from date of availability for units moving from Sicily and North Africa respectively. However, movements by water are governed by availability of suitable shipping at ports of embarkation.

3. All serials indicated on AFHQ-PBS Troop List, dated 14 November 1943, as amended to date above, and not included herein, have arrived in Italy.

4. The foregoing is furnished for your information and guidance.

5. Letter, this Headquarters, dated 23 December 1943, same file and subject as above, is rescinded.

By command of Brigadier General PENGE:

1. The following letter from Headquarters, WATOUSA, Reference file AG 018.1/285 A-0, Subject, War Bond Purchases, dated 23 December 1943, is quoted for your information and aggressive action:

"1. Analysis of the disposition of pay by United States Military Personnel within this theater indicates that purchases of War Bonds, either by allotment or otherwise, accounts for only 4.53% of the total pay credited.

"2. All commanders will initiate continuing programs to stimulate the sale of War Bonds within their commands with especial effort put forth during January 1944."

2. An analysis of War Bond purchases by personnel of units assigned and attached to this Headquarters indicated that approximately 5.66% of total pay is being invested in War Bonds either by allotment or by cash purchase at disbursing offices.

3. It is directed that each unit commander review the War Bond situation as it pertains to his own personnel and make every reasonable effort to encourage every officer and enlisted man systematically to buy bonds. The working goal should be 100% participation, and at least 10% of the total pay invested in Bonds.

4. A report will be submitted to this Headquarters 31 January 1944 on results of the January 1944 War Bond effort in each unit.
