b. In the case of an employee who does not work a full pay period, the proportion of the bonus which may be paid is to correspond to the proportion of the bonus which may be paid is to correspond to the proportion of basic wages, excluding overtime, earned during that period.

5. Nothing in this Administrative Memorandum shall be construed as regarding the provisions of AFHQ Administrative Memorandum Number 47, 1944.

III. CHRISTMAS MESSAGE:

FROM

GENERAL ARNOLD
Chief of Chaplains

Theater Chaplain forwards following message received from General ARNOLD, Chief of Chaplains. Request that this message be brought to attention of all Chaplains and troops at Christmas.

"Many centuries ago Isaiah described in glowing terms the better world to come in which peace and justice should leave no place for cruelty and evil. He pictured the leopard and the wolf living with the lamb and the calf in such peace that a little child shall lead them. Christmas revives these ideals of peace and good will every year with it's story of a little child, and even the horrors of war help us to see more clearly the inestimable worth of these blessings. We do not stand alone when we rededicate ourselves to the building of a world in which there will be no wrong and strife and in which little children will not be afraid. May peace and joy be yours as you toil and sacrifice and suffer to make good will and righteousness a living power in this war torn world, knowing that you do not toil in vain."

IV. STRENGTH REPORTS:

Units submitting strength reports to this Headquarters, will insure that they reach the AG Section no later than 1000hours. (AG)

V. AG DISTRIBUTION:

Distribution boxes in the AG Section will be cleared by Allied Military Personnel only. The practice of sending civilian employees to pick up distribution will be discontinued at once. (AG)

VI. CIVILIAN EMPLOYEES SUBSISTED ON ARMY RATIONS:

Reference para 7 of AAI Routine Order No. 252.(British troops) and para 3(c)(2) of NATOUSA Circular No 116 (American troops), it has been brought to notice that in some cases civilians who are receiving rations from Army sources (e.g. Hotel employees) have handed over their complete civilian ration cards to their military employers and are thereby deprived of their ration of soap, matches and other non-food items.

All military personnel concerned are reminded that the correct procedure is to cut away the coupons for food items at the beginning of each week, leaving intact the portions entitling the civilian to soap, matches, etc, the card then being returned to the employee. (G-4 Br)

VII. CIVILIAN LABOUR - CONDITIONS OF EMPLOYMENT:

Attention of all units employing civilian labour is directed to the Conditions of Employment for Civilians employed by the Armed Forces in Italy, Sicily and Sardinia as laid down in AFHQ Administrative Memorandum No. 47 dated 16th November 1944 and published as an Appendix to this Bulletin.

The Allied Forces Basic Wage Scales in the form of Revised Schedules of Wages of Civilian Employees, effective 1st October 1944, have already been circulated to Units. (Labour)

IV. ECONOMY IN THE USE OF FUEL, LIGHT AND GAS:

There is at present a world shortage of coal, and every effort must be made by Unit Commanders to ensure the strictest economy in the use of fuel during the coming winter in order to reduce to the barest minimum the importation of coal from the United Kingdom and United States. Sardinian Coal and Italian Lignite will be used wherever possible...

COAL: The use of solid fuel for cooking, water heating and space heating, whenever the use of fuel oil is not practicable, will be limited to Sardinian Coal, Lignite and Wood, the scales for which were set out in ARO No. 276 of 7 November 1944 for British Troops, and MTOUSA Circular No. 133, 1944 for American Troops.

ELECTRICITY AND GAS: Coal is imported to supply the electric and gas plants and other essential industries. Civilian consumers are rationed in light and gas and are denied coal for space heating. It is imperative that military consumption of electric power and gas is kept to the essential operational minimum. (G-4 Br)

V. ARMY EXCHANGE STORE 762-30:

AES 762-30 (PX) will be closed all day the 25th of November for the purpose of taking inventory. 1. General

This memorandum concerns photography in the ROME Area only. Material contained herein is in accordance with existing British and U. S. regulations.

2. Security

Cases are occurring in which military personnel are leaving films to be developed by civilian photographers and are also having portraits made and are giving their unit addresses with the request that the photographs be forwarded. This practice is strictly forbidden. The following paragraphs will explain the correct procedure for U. S. and British troops.

3. Processing of Films for U.S. Troops

The Army Exchange Service is established in ROME, with PX Warehouse No. 12 located on Route 5, just South of ROME. U. S. troops may turn in their exposed films to their unit PX. This applies not only to PX's of troops stationed permanently in ROME and applies as well to the PX's of rest camps and similar installations for transients. The unit PX officer will take these films to PX Warehouse No. 12. Films and prints are then later mailed to troops by the Commanding Officer. Individuals may also submit films directly to Warehouse No. 12.

Color and movie film will be disposed of as provided in Section IV, par. 29(b), NATOUSA Circular No. 32 dated 13 March 1944.

4. Processing of Films for British Troops

Listed below are the only authorized photographers in ROME to whom British troops may submit films for developing and printing. Troops may leave films with these photographers, but may give their number, rank and name only. In the event unit films will not be ready until after the departure of the person concerned the photographer should be instructed to deliver the films to either British Welfare, E.N.S.A. or Town Major, ROME, as the case may be, who will forward them. II. INDICATION OF MESSAGE SECURITY CLASSIFICATION:

No specific procedure is prescribed by the Combined Communication Board for the indication of the security classification allocated to a message. Nevertheless, it has been found essential to have a uniform method of indicating the security classification at all stages of transmission and on delivery to the addressee.

The following procedure will be effective within the Mediterranean Theater:

a. Originators will include the security classification as the first word of the text in all messages.

b. Messages transmitted in the clear will retain the security classification as the first word of the text throughout all transmissions and on delivery to the addressee.

c. Messages requiring encipherment. The Code Room/Cipher Office will indicate the security classification by the method prescribed in existing U.S. or British cipher instructions. All deciphered messages will have the security classification included as the first word of the text before delivery to the addressee.

d. Messages originated with the security classification "IN CLEAR BY ANY MEANS" need not be treated as above but the first signal agency to handle the message will insert the instruction "QYA" (This message may be sent as written by any means including radio) in the heading of the message. The instruction "IN CLEAR BY ANY MEANS" will be shown on the message before delivery to the addressee.

Most large switchboards, including Duplex and Rome LD, are operated so that any one of several operators can answer any one call. Reports have been received by this office regarding irregularities on call handling and, in some cases, are difficult to trace because of lack of specific information as to which operator handled that particular call. In order to expedite the location of the person responsible it is suggested that the following procedure be followed:

a. Ask the operator for his operating number or his name.

b. Request to be connected immediately to the Chief Operator or the Officer in charge and state the difficulty or irregularity.

c. If desired or more convenient a report can be made directly to the Signal Officer, RAAC (Duplex 10), giving the facts of the case stating the operator's number or name, time of occurance, nature of trouble, etc.

It is the desire of this office to give as good service as possible and it would be appreciated if reports of derelictions or of especially good service rendered by any of the operators be reported so that disciplinary action or commendations be awarded promptly.

IV. OFFICER'S PASSES - ROME AREA:

Requests for passes for officer personnel on duty in the Rome Area must be delivered in person by an officer authorized to sign for receipt of the requested passes.

V. TELEPHONE SERVICE:

Due to the change over to an Army type switchboard, only subscribers with "direct" dial lines can do their own dialing. It is therefore requested that as much traffic as possible be diverted to the direct lines in order to lighten the load on the telephone operators and thus insure better service.

VI. VEHICLE TRIP TICKETS:

Officers will exercise care to sign trip tickets for use of vehicles of 6750th Eq Co (Prov). This is the only way an accurate check can be kept at Motor Pool as to time that vehicles should report back to pool after dispatched run.
