1. Further to ACZF Administrative Instruction No. 1 and with special reference to para 5, the following procedure will be adopted, as far as local conditions permit, by:-

AFTER (ITALIAN) BOARD
AFTER (SICILIAN) BOARD
AFTER (SARDINIAN) BOARD

in order to co-ordinate the procurement and allocation of Local Resources within the territory under command HQ AMI.

2. This co-ordination will be performed by the Local Resources Section of this HQ - this Staff Section is responsible to the CAO, through the D/CAO or DQMG, for carrying out the policies laid down by this HQ or by AMI. It may correspond with and receive instructions from Allied Local Resources Section, ACHQ, direct on matters of a technical nature as laid down in AMI Administrative Memorandum No. 77 of 11 Nov 43.

Generally, this Section will supervise the activities of the three Boards in their respective territories and will co-ordinate their relations with one another and with HQ AGC.

3. DEFINITIONS

The following definitions, as applied to commodities/materials required by the Procurement Services and Agencies of the Allied and Co-belligerent Forces, will be adopted in all communications regarding Local Resources:-

- (a) FROZEN. Stocks of a commodity/material in short supply, located in civilian hands, required by the Allied or Co-belligerent Forces, will be FROZEN by AGC/AMC if so requested by the appropriate Committee of the Local Resources Board concerned, i.e., direct procurement by civilians will be prohibited.
- (b) CONTROLLED items are those the allocation of which as between all consumers, military and civilian, must be made by the appropriate Local Resources Board, or by a duly authorized Committee of that Board.
- (c) RESTRICTED items are those which can only be procured by the Allied and Co-belligerent Forces after the essential needs of the civilian population have been met. Available balances, within its territory, will be declared and allocated by the Board, or by a duly authorized Committee of the Board.

These items are those in sufficient supply to meet both military

in order to co-ordinate the procurement and allocation of Local Resources within the territory under command HQ IML.

2. This co-ordination will be performed by the Local Resources Section of this HQ - this Staff Section is responsible to the HQ, through the D/CMO or D/CMG, for carrying out the policies laid down by this HQ or by AFHQ. It may correspond with and receive instructions from Allied Forces Local Resources Section, AFHQ, direct on matters of a technical nature as laid down in AFHQ Administrative Memorandum No. 77 of 11 Nov 42.

Generally, this Section will supervise the activities of the three Boards in their respective territories and will co-ordinate their relations with one another and with HQ IML.

3. DEFINITIONS

The following definitions, as applied to commodities/materials required by the Procurement Services and Agencies of the Allied and Co-belligerent Forces, will be adopted in all communications regarding Local Resources:-

- (a) FROZEN. Stocks of a commodity/material in short supply, located in civilian hands, required by the Allied or Co-belligerent Forces, will be FROZEN by AOC/AMG if so requested by the appropriate Committee of the Local Resources Board concerned, i.e., direct procurement by civilians will be prohibited.

- (b) CONTROLLED items are those the allocation of which as between all consumers, military and civilian, must be made by the appropriate Local Resources Board, or by a duly authorised Committee of that Board.

- (c) RESTRICTED items are those which can only be procured by the Allied and Co-belligerent Forces after the essential needs of the civilian population have been met. Available balances, within its territory, will be declared and allocated by the Board, or by a duly authorised Committee of the Board.

- (d) UNCONTROLLED items are those in sufficient supply to meet both military and civilian needs, and, consequently, not scheduled as either CONTROLLED or RESTRICTED.

4. Schedules of CONTROLLED and RESTRICTED items will be issued through Command Channels on the recommendation of the Board concerned and will be circulated, in triplicate, by each Board to the other two Boards. Separate lists of CONTROLLED and RESTRICTED items will be maintained in respect of each Committee established. Each schedule will bear a serial number, and every item in a schedule will also bear a running serial number. They will be frequently reviewed by the Committee concerned and every effort will be made to keep the lists as small as possible.

An item declared RESTRICTED or CONTROLLED in one territory need not necessarily be either controlled or restricted in another.

5. PROCEDURE

The following procedure in connection with allocations will be adopted:-

- (i) Applications for controlled and restricted items in regular demand will be submitted by interested Services and Agencies monthly on a day to be fixed, but not less than 72 hours before the date of meeting of the local Resources Board or of the Committee concerned, as the case may be. Bulk demands for civil requirements will be submitted by HQ ACC.

At the same time the organisation responsible for the submission of figures of availabilities will lodge particulars.

Applications for items not in regular demand, or emergency requirements, may be submitted at any time.

- (ii) Applications will be submitted in duplicate on a proforma similar to that at Appendix "A". The stock on hand will be listed together with the estimated days of supply. To aid in assessing priorities, applications will indicate whether requirements are:-

- (a) Urgent operational
- (b) Normal maintenance
- (c) Stockpiling requirements

- (iii) After allocation by the Board/Committee, the Board will issue release orders, in duplicate, signed by a Vice-Chairman, endorsed, where necessary, by ACC/ACC or other appropriate agency, to the Demanding Service or Agency, copy to ACC or other controlling agency. Any balance not drawn within the specified period will be forfeited.

- (iv) When Services or Procurement Agencies are unable otherwise to obtain stocks of items required by them which are manufactured by, or held under the control of, a particular Service or Agency, the Board or Committee concerned may direct that such stocks will be held either in whole or part pending allocation. This allocation will be evidenced by the issue of an official Release Note signed by a Vice-Chairman of the Board. This authority does not extend to the case of items imported from outside the command by Services on military tonnage.

6. CONTROLLED or RESTRICTED items, the following table should be used as a guide:-

	CATEGORY	PRIORITY	
		Restricted	Controlled
Requirements of the Armed Forces within, or based upon, the territory for which the Board is responsible.		2	1
Essential civilian requirements within the territory for which the Board is responsible.		1	2

Those of the Armed Forces other than

ADM INSTRUCTION NO. 10

PRESERVATION OF PROPERTY OF HISTORICAL OR EDUCATIONAL
IMPORTANCE IN ITALY.

1. Attention is directed to the personal letter to all Commanders issued by the GOC-in-C dated 17 Feb 44 on the above subject. The following instructions are issued as a guide to Commanders and in amplification of the letter above referred to.
2. Tactical considerations must obviously influence the occupation of historical buildings etc. during actual fighting, but a rigid control over such occupation will be imposed by Commanders as soon as fighting has ceased.
3. It is not proposed to forbid the occupation by troops of any specific buildings except that churches will NOT be used for normal troop accommodation. In cases of extreme necessity churches may be used temporarily to shelter wounded personnel awaiting evacuation. This authority is not to be interpreted that they may be used as Casualty Clearing Stations or Hospitals. The responsibilities for decision as to whether an historical building is to be occupied or not is delegated to Commanders, not below the rank of Divisional Commander or officer of equivalent status, except that during actual fighting, in cases of extreme operational urgency, lower Commanders may have to act.

4. To assist Commanders in their decisions ACC/AMG have prepared lists of the principal historical monuments, deposits of important documents (archives), and artistic treasures of ITALY, with the degree of their importance indicated by stars. These lists will be known as "Lists of Protected Monuments" and will supersede the lists printed in the Zone Handbook of Italy, and AMHQ General Order No. 68 of 29 Dec 43 insofar as it refers to the Zone Handbook. For easy reference these lists are printed in sections on a regional basis, and will be issued by ACC/AMG on demand as follows:-

(a) HQ Armies, independent formations, Districts and Base sections will demand sufficient copies now to hold a complete set at their HQ and to issue to the undermentioned those sections which affect their areas of occupation or administrative control:-

HQ Corps	HQ Sub Areas
HQ Divisions	Team Majors

(b) It will be the responsibility of Army, independent formations, District or Base section commanders when planning the capture or eventual occupation of territory to demand and distribute the relative sections down to all battalion or equivalent units.

Attached as Appendix A to this instruction, as a guide for demanding, is an index showing the subdivision of the lists by areas.

...../5.

(9 Copies to M4FA for distribution)

-2-

5. All buildings listed in the "Lists of Protected Monuments" will be deemed "historical buildings" and will not be occupied when alternative accommodation is available or without the express authority in writing of the appropriate commander as laid down in paragraph 5 above.

6. As far as the greater part of the damage is likely to occur between the time the battle moves forward and the time reserve formations and administrative units assume full control, it will be the responsibility of commanders to place guards on all historical buildings during this phase, in-so-far as their resources allow, so that their eventual occupation will be planned and orderly.

7. Whenever it is found essential for operational reasons to occupy any such buildings, the commander of the occupying troops will be responsible for seeing that ACC/AMG are informed at the earliest opportunity and that every reasonable precaution is taken to prevent careless or wilful damage and especially souvenir hunting. In the case of museums, galleries, libraries, repositories of documents and other cultural institutions, the contents will be stored separately from the parts occupied, communicating doors between the occupied and unoccupied parts of the building will be blocked, as will also all unnecessary entrances from outside whether to the occupied or unoccupied parts. Notice boards will be erected, and all troops billeted in the building will be issued with passes and will be the only troops permitted to enter.

Responsible Italian officials will, if available, be consulted when such measures are being considered.

8. Partial occupation of a large historical building, i.e. the occupation of only a small corner, or occupation by troops of more than one Allied Nation will be avoided wherever possible. In the past buildings so occupied have suffered a high proportion of loss and damage, not necessarily attributable to the occupying unit(s).

9. ACC/AMG has a staff of officers with expert knowledge of such matters who should be consulted in all cases of doubt. Where such officers rule that specific items e.g. of furniture should be included in those stored separately, their ruling will be binding subject to the right of appeal of the occupying unit to this HQ through the normal channels.

10. In addition to the monuments etc. mentioned in the lists, there are known to exist repositories to which the more valuable treasures of museums and galleries have been removed for safety. The sites of such repositories are not at present known: when found they are to be regarded as starred monuments, and their location reported.

11. In the case of written papers and books it is to be noted that even those which do not appear to be ancient may be of great importance, not only historically but as containing information necessary for the practical purposes of the war. Casual destruction or dispersal of such collections, wherever found, will not be permitted.

7. Wherever it is found essential for operational reasons to occupy any such buildings, the commander of the occupying troops will be responsible for seeing that ACC/AMG are informed at the earliest opportunity and that every reasonable precaution is taken to prevent careless or wilful damage and especially souvenir hunting. In the case of museums, galleries, libraries, repositories of documents and other cultural institutions, the contents will be stored separately from the parts occupied, communicating doors between the occupied and unoccupied parts of the building will be blocked, as will also all unnecessary entrances from outside whether to the occupied or unoccupied parts. 10. In addition to the monuments etc. mentioned in the lists, there are known to exist repositories to which the more valuable treasures of museums and galleries have been removed for safety. The sites of such repositories are not at present known: when found they are to be regarded as sparred monuments, and their location reported.

11. In the case of written papers and books it is to be noted that even those which do not appear to be ancient may be of great importance, not only historically but as containing information necessary for the practical purposes of the war. Casual destruction or dispersal of such collections, wherever found, will not be permitted.

12. All Operation and Administrative Orders involving the occupation of territory containing historical buildings will contain clear and specific instructions to troops on the lines indicated in this instruction.

Italian assistance in identify commodities and for furnishing guards enroute to warehouse will be as agreed at each port between MMIA and the port authority. 13. There will also be incorporated within HQ ROME Allied Area Command certain specifically British Staff Branches and Services to carry out the functions of administration of British troops, as laid down in paragraph 4 above. These Branches and Services will work under the Deputy Commander, subject to the overriding authority of the Commanding General on matters of Allied policy and internal discipline.

RELATIONS WITH ALLIED CONTROL COMMISSION

14. When the administration of ROME is finally handed over to the Italian Government and the minimum of control is retained by the Allied Military Authorities, the officials exercising that control will operate directly under the Chief Commissioner, Allied Control Commission. HQ ROME Allied Area Command will then have no responsibility for civil administration, except that of cooperation.

15. In the present stage, however, it is recognised that the administration of the City must depend in large measure on the military administration. This dependence concerns such matters as the preservation of law and order, the control of traffic, the rehabilitation and upkeep of public utilities, the rationing of electric power, water, etc., and many other aspects of administration.

16. For this reason it has been decided that the relationship between CG ROME Allied Area Command and the Civil Administration shall be governed by the following principles:

- (a) The staff of Region IV, ACC, will work under the Regional Commissioner and will not form part of the staff of HQ ROME Allied Area Command.
- (b) Directions on matters of major policy will be issued by CG ROME Allied Area Command by this HQ.
- (c) CG ROME Allied Area Command will consult Regional Commissioner, ROME, on all matters of policy, and will take no action involving policy without such prior consultation. In the same way, Regional Commissioner, ROME, will consult CG ROME Allied Area Command before taking any action involving policy.
- (d) Any matters of major policy or difficulty will be referred to this HQ.
- (e) Regional Commissioner, ROME, will receive detailed direction regarding methods for the execution of policy from Chief Commissioner, Allied Control Commission.
- (f) CG ROME Allied Area Command will leave to Regional Commissioner, ROME, responsibility for the execution of policy once it has been determined, and will only intervene if he considers that the policy itself is in question.

HQ 59 AREA

17. HQ 59 Area will remain in ROME until CG ROME Allied Area Command notifies this HQ that its presence there is no longer necessary because its functions have been taken over by this HQ. It will then be withdrawn.

and sanitation. All troops within the ROME area will be subject to these instructions.

ADMINISTRATIVE INSTRUCTION NO. 48POWERS AND RIGHTS OF ALLIED FORCES AND ALLIED MILITARY GOVERNMENT IN UNOCCUPIED ITALY

This instruction supersedes Administrative Instruction No. 6, reference AAI/3064/A(O) dated 15 Mar. 44.

1. Definition

For the purposes of this instruction the term "Italian Government Territory" refers to territory forming part of ITALY, SICILY and adjacent islands handed over to ITALIAN Government and jurisdiction, subject to the guidance and instruction of the Allied Control Commission under the Chief Commissioner acting for the Commander-in-Chief, A.A.I.

2. General.

The object of this instruction is to clarify the more important rights reserved to the Allied Forces by agreement with the ITALIAN Government, in such territory forming part of Italian Government Territory which may be handed over to the ITALIAN Government from time to time, in respect of which full powers of Government will otherwise be possessed by the ITALIAN Authorities.

Apart from these reserved rights, Allied Military Government in ITALIAN Government Territory comes to an end. All Proclamations and Orders of the Military Governor and those made by his authority cease and are no longer operative; no such Proclamation or Orders can be issued in the future.

Although there will be officers of the Allied Control Commission in ITALIAN Government Territory, they will be there to advise and control the ITALIAN Government, and not as Governors. One of the most important functions of the Regional and Provincial Officers of the ACC will be liaison between Allied Military Formations in the area and the ITALIAN administrative officials. All but the most routine dealings between the ITALIAN administration and the Allied Military authorities must be conducted through the local ACC. When the ITALIAN Government is directly represented on a control board or committee the Military may, of course, deal directly with that organization without the intervention of ACC.

3. Requisitioning

The Allied Forces have retained the power and right to requisition private and public property and services in ITALIAN Government Territory - this right must be exercised sparingly and only for reasons of genuine military necessity. This right will be exercised through the ITALIAN authorities. If, for example, a building is needed by the Military, it should be requisitioned through the

1. Definition

For the purposes of this Instruction the term "Italian Government Territory" refers to territory forming part of ITALY, SICILY and adjacent islands handed over to ITALIAN Government and jurisdiction, subject to the guidance and instruction of the Allied Control Commission under the Chief Commissioner acting for the Commander-in-Chief, A.S.E.

2. General

The object of this Instruction is to clarify the more important rights reserved to the Allied Forces by agreement with the ITALIAN Government, in such territory forming part of Italian Government Territory which may be handed over to the ITALIAN Government from time to time, in respect of which full powers of Government will otherwise be possessed by the ITALIAN Authorities.

When the ITALIAN Government is directly represented on a control board or committee the Military may, of course, deal directly with that organisation without the intervention of ACC.

3. Requisitioning

The Allied Forces have retained the power and right to requisition private and public property and services in ITALIAN Government Territory - this right must be exercised sparingly and only for reasons of genuine military necessity. This right will be exercised through the ITALIAN authorities. If, for example, a building is needed by the Military, it should be requisitioned through the Sindaco of the town where the building is situated, with the assistance of the Provincial Officer of the ACC. The usual formalities of requisitioning used in Military Government territory will be strictly followed in ITALIAN Government territory. The property of fascist societies, whether dissolved or not, must not be seized without giving a receipt, and then only if required for reasons of military necessity.

4. Allied Military Courts

As the Proclamation of the Military Governor ceases to operate in ITALIAN /Government

Government Territory, all crimes will normally be tried under ITALIAN law and in ITALIAN Courts. The Allied Forces, however, have reserved to themselves the right to hold Allied Military Courts in ITALIAN Government Territory for the trial of civilians who commit acts seriously hostile to the Allied Forces and to punish them in accordance with the ITALIAN Penal Codes.

The reservation of this right is not intended to encourage the trial of civilian offenders by Allied Courts, but to enable them to deal with the most serious offences against Allied personnel or property which cannot be dealt with by the ITALIAN Courts. If such an offence has been committed the military authorities will give a full statement of the facts to the local representative of the AOC with the request that an Allied Military Court be convened to hear the charges. It will be the responsibility of AOC to fix the charges and constitute the Court. It is emphasized that only in the most exceptional circumstances will any case in ITALIAN Government Territory be referred to AMC Courts and then only on order of AOC.

Consequent on reservation of the power to try such offenders there is reserved to the Allied Forces the power to arrest persons who are believed to have committed such offences. High ranking ITALIAN officials and officers of the ITALIAN Armed Forces should, however, only be arrested in collaboration with the appropriate ITALIAN official (e.g. the Prefect or the Commanding Officer of the officer concerned). In all cases of arrest the agreement of the local AOC officer will be obtained beforehand, except in an emergency, when he will be informed immediately after the arrest.

5. Military Zones.

The right is reserved by the Commander-in-Chief to declare specific areas in ITALIAN Government Territory to be Military Zones. Upon the issue of such a declaration, the right to exercise the powers of military government in the Zone in question becomes once more vested in the Commander-in-Chief. It is hoped that the need for the establishment of such Zones will never arise, but should the situation in any area become such as to convince the District Commander that such action is necessary, he should, after consulting the Regional Commissioner, report accordingly to HQ AAI giving full reasons to justify his view. The Allied Forces may also re-occupy any part of ITALIAN territory, but the right to constitute a Military Zone will render it unnecessary to exercise this right in respect of any local disorders.

6. Military and Civilian Internees

The Allied Forces may continue to hold or require the ITALIAN Government to hold in custody military or civilian internees in ITALIAN Government Territory. If the Allied Forces require to arrest any person for security or other reasons such arrest should be carried out in collaboration with ITALIAN officials unless, in any particular case, it is thought that a request to the ITALIAN police to arrest a suspect would be ineffective. In all such cases the local AOC officer must, except in emergency, be informed of the intention to make the arrest, whether it is to be effected by the Allied or ITALIAN authorities. If he is not in agreement, the matter will be referred to higher authority. Normally such persons will be detained in 371 PW Camp.

7. Use of Troops in Aid of the Civil Power.

It may happen that the local ITALIAN authorities may ask for the assist-

exceptional circumstances will any case in ITALIAN Government Territory be referred to AMI Courts and then only on order of ACC.

Consequent on reservation of the power to try such offenders there is reserved to the Allied Forces the power to arrest persons who are believed to have committed such offences. High ranking ITALIAN officials and officers of the ITALIAN Armed Forces should, however, only be arrested in collaboration with the appropriate ITALIAN official (e.g. the Prefect or the Commanding Officer of the officer concerned). In all cases of arrest the agreement of the local ACC officer will be obtained beforehand, except in an emergency, when he will be informed immediately after the arrest.

5. Military Zones.

The right is reserved by the Commander-in-Chief to declare specific areas in ITALIAN Government Territory to be Military Zones. Upon the issue of such a declaration, the right to exercise the powers of military government in the Zone in question becomes once more vested in the Commander-in-Chief. It is hoped that the need for the establishment of such Zones will never arise, but should the situation in any area become such as to convince the District Commander that such action is necessary, he should, after consulting the Regional Commissioner, report accordingly to HQ AAI giving full reasons to justify his view. The Allied Forces may also re-occupy any part of ITALIAN territory, but the right to constitute a Military Zone will render it unnecessary to exercise this right in respect of any local disorders.

6. Military and Civilian Interiors

The Allied Forces may continue to hold or require the ITALIAN Government to hold in custody military or civilian internees in ITALIAN Government Territory. If the Allied Forces require to arrest any person for security or other reasons such arrest should be carried out in collaboration with ITALIAN officials unless, in any particular case, it is thought that a request to the ITALIAN police to arrest a suspect would be ineffective. In all such cases the local ACC officer must, except in emergency, be informed of the intention to make the arrest, whether it is to be effected by the Allied or ITALIAN authorities. If he is not in agreement, the matter will be referred to higher authority. Normally such persons will be detained in 371 PW Camp.

7. Use of Troops in Aid of the Civil Power.

It may happen that the local ITALIAN authorities may ask for the assistance of Allied troops in quelling civil disturbances.

If such a request is made the local commander will point out that the quelling of civilian riots or disturbances is a matter for the ITALIAN Administration and he will refuse such assistance, unless he is of the opinion that it is necessary for the protection of Allied Military interests. Furthermore, before rendering such assistance the local commander will warn the local official requesting his assistance that the territory in question will be made forthwith an Allied Military Zone (see para 5 above).

/If true

para 7 contd.

If time permits the local commander will consult the local AOC officer and seek instructions from his Superior Commander before giving assistance; in any event he will inform his Superior Commander of any request made to him and the action taken thereon without delay.

8. Process in ITALIAN Courts

No member of the Allied Forces may be prosecuted or sued in ITALIAN Courts.

9. Emergency Action

It is appreciated that an emergency may arise which requires immediate action by the Allied Forces for their protection and security, but except in such emergency all action required from the ITALIAN Administration should invariably be taken through the medium of the Regional or Provincial Commissioner. Where immediate action is taken without previous reference to AOC for emergency reasons, the appropriate AOC Officer will be informed as soon as possible.

10. Assistance to ITALIAN Authorities.

Apart from the powers and rights described above, it should be remembered that the transfer of territory to the ITALIAN Government is made as part of the policy of the Allied Governments.

It is the duty of all Allied officers to assist the central and local Government authorities in acquiring and maintaining authority, and to avoid thoughtless acts which may undermine the authority of the police, the Sindaco, or the Prefects.
