XV. PETROL POINT:

The facilities available for drawing POL at the RAC TD on Route 4 closes w.e.f. 31 December 45. Nearest Petrol Point is at FOLIGNO.

XVI. COURSES - SCHOOL OF MECHANICS: (BR Units Only)

It has been reported by the School of Mechanics, CMF, that students who are due or overdue for LIAP are being sent on courses. This is most undesirable as the student arrives at the School dissatisfied and greatly concerned over the possibilities of losing his chance of leave due to the course. This particularly applies to the Dvr Mech and Veh Mech Courses, the latter being of 3 months duration.

A student who is dissatisfied on this account is likely to fail the course and is a disturbing element so far as other students are concerned. It may even be necessary to send him on LIAP from the School before he qualifies, in which case a vacancy is wasted.

Units, therefore, will not send students on courses if they are due for LIAP. (G-3 Br)

XVII. MILITARY TELECOMMUNICATIONS NETWORK:

It has been ruled by the Supreme Allied Commander that it is the policy of the Allied military authorities to return to the Italian Government sufficient telecommunication facilities to enable the latter to exercise normal governmental functions. This inevitably means the reduction of the military telephone network. It is, therefore, urged that in order to reduce the traffic load on the military telephone network further use be made of the military telegraph system. (G-3 Br)

XVIII. COURSES UK - AIR LIAISON OFFICERS: (BR Units Only)

To meet theatre requirements for Air Liaison Officers up to Sep 46 two ALO courses are to be run in UK, commencing probably early Feb and mid-Mar 1946. Candidates will return to this theatre and should be Regulars, potential Regulars, or of late Release Groups. Qualifications required of candidates are as shown in this headquarters 136/G-3 (Br) of 8 Sep 45, less para 2 (b). Nominations will reach this headquarters not later than 27 Dec, and Application Forms, on reverse of the above-quoted letter, not later than 3 Jan 46.

XIX. RATION COLLECTION: (BR Units Only)

To avoid ration collection from D.I.D. on Christmas Day and Boxing Day, the issue programme will be ammended as follows:-

IV. TELEPHONE REPORT: (US & BR)

1. All unit commanders and officers in charge of sections will make a survey to determine to what extent the number of telephones under their control can be reduced. A reduction in the number of telephones in use by Allied Military Forces is necessary since loss of personnel, due to redeployment has resulted in insufficient personnel with which to maintain the present communication system. This loss of personnel and the reduction of size and number of headquarters, which is universal throughout the theater, should be reflected in a diminished requirement for telephone service.

2. Results of the survey will be forwarded to the RAAC Signal Office by 24 November 1945, giving the following information:

2623

a. Number of telephones that can be released.

b. Date available for release.

3. Negative report is required.

IV. TELEPHONE REPORT: (US & BR)

1. All unit commanders and officers in charge of sections will make a survey to determine to what extent the number of telephones under their control can be reduced. A reduction in the number of telephones in use by Allied Military Forces is necessary since loss of personnel, due to redeployment, has resulted in insufficient personnel with which to maintain the present communication system. This loss of personnel and the reduction of size and number of headquarters, which is universal throughout the theater, should be reflected in a diminished requirement for telephone service.

2. Results of the survey will be forwarded to the RAAC Signal Office by 24 November 1945, giving the following information:

a. Number of telephones that can be released.

b. Date available for release.

3. Negative report is required.

Towards the end of this year imports of beer will be reduced to NIL and we shall be entirely dependent upon local breweries which will soon be able to brew enough beer for three (3) bottles per man per week.

There is, however, a great danger of this distribution breaking down unless current losses in bottles are considerably reduced. To effect this, it is essential to eliminate all avoidable losses, e. g. sales of bottles to civilians, throwing away of bottles stamped "NOT TO BE RETURNED" or "NOT TO BE REFILLED

It will, therefore, be brought to the notice of all troops that future supplies of beer cannot be guaranteed unless all bottles are returned to EFI.

IV. COURSES, EDUCATION - UNIT EDUCATION INSTRUCTORS (TECHNICAL): (BR Units Only)

Course No. 8 at Army School of Education for Unit Education Instructors in Technical Education assembles 6 Oct 45 and disperses 24 Oct 45.

The qualifications of students accepted for these courses are given in GRO 1007/45, which also shows the changed function of the school.

Attention is drawn to GRO 1008/45, which emphasizes the importance of training as many UEIs per unit as possible, in view of the wastage due to LIAP, PYTHON and RELEASE.

Nominations for this course will be forwarded to G-3 (British) this headquarters not later than 15 Sept 45. (G-3, Br)
