b. Unit commanders will insure that all personnel under their command are given sufficient review of military courtesy and discipline during the weekly training periods and sufficient supervision outside of the training period to bring about a marked improvement. This training will also emphasize military bearing, neatness of the individual, proper wearing of the uniform alertness on the part of the soldier, and the smartness with which the salute is rendered. The only standard which is satisfactory is the highest standard which can be attained by each individual soldier under vigorous, energetic, and capable leadership. 4. STOLEN VEHICLES.

a. In the case of a US Officer of the Allied Commission who had a stolen vehicle charged to his pay by a survey, the Theatre Judge Advocate has expressed the following view:

"The fact, if such it be, that property of the United States was stolen by United States military personnel is no necessary indication that it is being devoted to the use of the United States, and, in the absence of conclusive evidence that such property is being devoted to the use of the United States, such fact is no excuse for failure to pay therefor by the person who allowed the property to be stolen by his fault or neglect." 1338

a. During the past several months the standard of military courtesy and discipline in the 2675th Regiment has been far from satisfactory. The attention of all concerned is directed to FM 21-50, "Military Courtesy and Discipline".

b. Unit commanders will insure that all personnel under their command are given sufficient review of military courtesy and discipline during the weekly training periods and sufficient supervision outside of the training period to bring about a marked improvement. This training will also emphasize military bearing, neatness of the individual, proper wearing of the uniform, alertness on the part of the soldier, and the smartness with which the salute is rendered. The only standard which is satisfactory is the highest standard which can be attained by each individual soldier under vigorous, energetic, and capable leadership. 7. SECURITY PRECAUTIONS

a. The following is extracted from DB #4, Hq AC, dated 4 Jan 45, for the information and compliance of all military personnel.

(1) From "The Stars and Stripes", 3 January 1945, "Director J. Edgar Hoover of the Federal Bureau of Investigation" today warned that a new intensified effort by Germany was being made to send saboteurs to America when he revealed the arrest of two agents who landed a month ago by submarines on the coast of Maine.

(2) It is only logical to conclude that if German saboteurs have reached such distant places as the coast of Maine, they must also be active in the Rome Area. Recently, incidents of sabotage and attempted sabotage have occurred in another area and a certain amount of damage and personal injury sustained by the Allied Forces.

(3) Incidents reported locally have included attempted arson of petrol installations, other installations and the booby trapping of vehicles. Any Headquarters, depot, and administrative organization where death and destruction can delay the Allied effort is liable to attack and sabotage.

(4) It is the responsibility of all ranks to be constantly on the alert. Report all suspicious action immediately. The effect of counter-action is greatly minimized when delays in reporting occur. Park vehicles only in protected areas or at least where they can be watched.

(5) All ranks should familiarize themselves with "Fire Orders" posted throughout the building.

(6) Remember, even in these last hours your enemy is to be feared more than ever. Never underestimate the enemy. (Adj)
