I. MILITARY COURTESY AND DISCIPLINE:

The following is extracted from MTOUSA letter AG 420/918 CG-O, Subject: "Military Courtesy and Discipline", dated 29 November 1945:

"There is a marked laxity on the part of U.S. Officers and enlisted personnel throughout MTOUSA in observing the basic principles of military courtesy and discipline. Saluting is far from the standards prescribed, and discrepancies range from careless and improper execution to complete failure to render the salute. Improper wearing of the uniform is common. Unbuttoned jackets, wearing of torn or dirty articles of uniform, improper wearing of or failure to wear the proper headgear, dirty and tarnished insignia, unpolished boots and shoes, and unbuttoned pockets are frequently observed offences.

"Such derelictions are inexcusable and are a reflection upon the Army of the United States. The appearance and behaviour of our officers and enlisted men in foreign lands make an impression upon the inhabitants by which they will judge our nation. Vigorous action will immediately be taken to correct present conditions, and the proper standards of military courtesy and discipline will be maintained. Laxity will not be tolerated."

II. REDUCTION IN LONG DISTANCE TRAFFIC:

It is imperative that use of the military long distance telephone lines be curtailed. Reduction of personnel and in the number of available circuits requires a great reduction in traffic. Long distance telephone calls therefore must be kept to a minimum limited to only those calls which are absolutely necessary. Military circuits are monitored to detect and report unnecessary calls and calls of a purely personnel nature. Compliance with the above is necessary to permit satisfactory service on the military circuits.

I. ROAD BLOCKS - HALTING AT:

No. 2 District RO 113/45 is republished.

(a) In order to check the increasing number of robberies and incidents of violence occurring within the District the Italian Police are instituting a number of road blocks. These road blocks may be imposed anywhere, and in order that all drivers of WD vehicles should easily recognise these road blocks they will take the following design: (Shown diagrammatically in Appx "A" hereto)

On each side of the block and at a distance of approximately 100 yards will be placed boards.

The boards will be painted white or yellow and will clearly show in black letters both in English and Italian the words "STOP POLICE ROADCHECK"

Whenever possible 40 gallon petrol drums painted white will be used to form the block.

They will be manned by Italian Police.

During the hours of darkness the road blocks will be adequately illuminated to ensure that drivers can see that

- (i) they are required to stop.
- (ii) it is the police who require them to stop.

(b) All drivers will be warned that these blocks are liable to be met at any time and it is their duty to assist the Italian Police by halting when signalled or called on to do so and, if required, by establishing their identity. The inconvenience and delay will be accepted with good grace as the British contribution in assisting the Italian Police in this important work.

II. SKID CHAINS:

(a) Skid chains will be used when ice or snow conditions make them essential. They will NOT be used merely to avoid the necessity for careful driving e.g. on dry, damp or muddy roads, as this causes unnecessary wear both to tyres and ~~40~~ road surface.

(b) Arrangements are being made for the erection of moveable notices on ice-bound roads stating "PUT CHAINS ON HERE" - "TAKE CHAINS OFF HERE".

to ensure that drivers comply with these orders

II. PUBLIC LAW 226:

Reference Number WCL 24221, dated 29 November 1945.
"WAR SEC PUBLIC LAW 226, 79th Congress which provides for payment of terminal leave in lump sum to discharged military personnel who reenter employment of the United States Government was signed 21 November 1945. Copy of Bill being sent airmail."
Reference Number WCL 24546, Cite CAD, dated 30 November 1945.
"The President approved 21 November bill to provide for payment of accumulated leave to any officer in the Armed Forces who enters Government employment, Public Law 226".

III. APPOINTMENTS - OFFICERS - POLICY:

1. It has been noticed recently that there is an increasing tendency throughout the District for officers to assume the badges of rank higher than that authorized by GHQ. In some instances sanction is being given to such irregularity by Area/Sub Area Hq and in others the officer himself has assumed the badges of rank without permission from any source.

2. Any verbal instruction to an Officer that he can assume the badges of rank pending authority from GHQ is not only highly irregular but places both the officer concerned and GHQ in an embarrassing position when, as is often the case, authority cannot be granted for one reason or another.

3. The rendition of an AF-3.194D or the recommendation for promotion of a regimental officer with a view to his filling an impending vacancy, is not ipso facto any guarantee that he will be selected and, consequently no excuse for the assumption of the new rank as soon as the vacancy arises. This particular applies now in the case of LIAP promotion since, wef 1 Dec 45, each application is considered on the grounds of military necessity.

III. MESSAGE WRITING:

The following is an extract from a memorandum dated 3 December 1945, received from GHQ CMF, subject "Message Writing":

"The standard of message writing by British originators has deteriorated considerably during the last few months. The main faults are verbosity, unjustifiable high priorities and incorrect security classification. The over-all result of the above practices is to reduce the efficiency of the service for all users, including those who originate messages in the correct manner.

"With a view to effecting an improvement, CSO CMF is being instructed to provide scrutineers who will examine messages originated in GHQ CMF or the British elements of integrated sections of AFHQ and also those originated in other Hqs and passed to GHQ CMF for retransmission. All such messages which are challenged by the scrutineers will be recorded and bad cases will be referred to heads of departments for necessary action. In the case of incoming messages a report on messages which merit comment will be forwarded periodically through Signals channel to the originating HQ. The scrutineers will be given strict instructions on no account to delay the transmission of urgent messages".

II. MILITARY COURTESY AND DISCIPLINE (US MILITARY PERSONNEL):

The following letter, file AG/918 CG-O, Commanding General, Headquarters Mediterranean Theater of Operations, dated 29 November 1945, is published for the information, guidance and compliance of all concerned:

"1. There is a marked laxity on the part of Officers and Enlisted personnel throughout in observing the basic principles of Military Courtesy and Discipline. Saluting is far from the standards prescribed, and discrepancies range from careless and improper execution, to complete failure to render the salute. Improper wearing of the uniform is common. Unbuttoned jackets, wearing of torn and dirty articles of uniform, improper wearing of or failure to wear the proper headgear, dirty and tarnished insignia, unpolished boots and shoes, and unbuttoned pockets are frequently observed offenses.

"2. Such derelictions are inexcusable and are a reflection upon the Army of the United States. The appearance and behavior of our officers and enlisted men in foreign lands make an impression upon the inhabitants by which they will judge our nation. Therefore, every effort must be exerted by every officer and enlisted man to correct the existing deficiencies and to reach and maintain a high state of military courtesy and discipline. It is the duty and responsibility of every commander personally to constantly direct and supervise the proper observance of these basic principles which are of the foundations of the Army. Vigorous action will immediately be taken to correct present conditions, and the proper standards of military courtesy and discipline will be maintained. Laxity will not be tolerated.

"3. Any orders or instructions heretofore issued in this theater relaxing in any way or for any reason the above requirements with respect to conduct uniform or saluting are hereby revoked."

III. PROVINCIAL ADMINISTRATION - VERCELLI PROVINCE.

During the temporary absence of Major F. G. M. GREY (E) the duties of Provincial Commissioner, Vercelli, will devolve upon Major N. V. HIND SMITH (3) w.e.f. 13 Dec 45.
