3. OVERSEAS MARRIAGE OF MILITARY PERSONNEL: The following is extracted from War Department Letter, AG 291.1 (11 Sept 43) OB-3-SPGAL-M, dated 24 November 1943, for information and guidance to all concerned.

"No military personnel on duty in the Panama Canal Zone or in any foreign country or possession may marry without the approval of the commanding officer of the United States Army force stationed in the Panama Canal Zone or in such foreign country or possession.

Existing laws of the United States prohibit the admission into the States of aliens ineligible to citizenship. This means that persons of Asiatic or East Indian descent, even though married to American citizens, cannot be admitted to the United States.

The laws of a number of States do not recognize as valid any marriage contracted between persons of certain races, regardless of whether the marriage was valid where contracted.

An alien who marries an American citizen does not thereby acquire American citizenship.

The alien wife of an American citizen will be denied admission to the United States if the American consular officer determines that she is likely to become a public charge. The consul's decision that the wife is likely to become a public charge is not subject to revision or appeal.

For the period of the present war and for 6 months thereafter transportation of dependents and household goods of military personnel from overseas theatres to the United States, or from one theatre to another, will not be furnished at Government expense.

Under existing law, dependency allowances authorized for the dependents of military personnel will cease to be paid 6 months immediately following the termination of the present war.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Daily Bulletin No. 35, 30 December 1943 (cont'd)

In general, all military personnel except those who entered the service outside the continental United States, will be returned to the United States prior to discharge. Facilities for the transportation of dependents of any such personnel from overseas theater to the United States are not available and it is doubtful that such will be available for a long period of time after the cessation of hostilities.

So long as the war continues military personnel are subject to transfer and change of station in accordance with the exigencies of the service. It is manifest that family considerations cannot and will not be taken into account when transfers are made, either within a theater, or from one theater to another, or to the United States.

1. OFFICE OF THE BILLETING OFFICER: The Billeting Officer has determined that owners and/or former tenants of quarters that have been requisitioned for use as officers' billets, are entering and removing furniture and other household items, without having first obtained authority from the Billeting Officer, in Commandant's office. It is pointed out that furniture, as well as the premises have been requisitioned and inventory has been taken and completion in respect of all billets. The removal of any items without the Billeting Officer's knowledge through the requisitioning procedure, and will probably be a basis for claim against the government for any items missing.

Billeted officers will therefore refrain from giving permission to owners and/or tenants to remove any furniture or private property, unless written permission has been given by the Billeting Officer. (HQ G-1).

1. AIR TRAVEL: The following letter, Allied Force Headquarters, AFHQ, Subject: Air Travel, File 128 - 181, dated 21 Nov 1943, is quoted for information and guidance to all concerned:

"1. It is felt that the impression has grown up that each officer and EWO traveling to Sicily or Italy other than in a company or large scale group will automatically be sent by air and that requests for such air passages can be made and will be met without difficulty.

2. It must be pointed out that air space is in fact very limited, will become more so during the winter months and that persons in important operational duty must receive first consideration. In fact the conference held down for examining air travel is that the journey is of such importance that delay will seriously impede the Allied war effort.

3. With the above in mind applications for air passages will only in future be made in the case of:

- a. Urgent mission where time is restricted.
- b. Change of station in the case of individual lieutenant colonels and upwards whose non-arrival by a certain date will seriously and adversely affect the course of events.
- c. Those specially approved of this HQ is obtained". (AF)

2. TRANSFERS OF PERSONNEL: Effective immediately all US personnel in of force will not be ordered to perform duties which conflict with their regular assigned office duties, and will not be transferred out of such offices without prior approval of the head of the office concerned. (AF)

1. RECLASSIFICATION OF CLASSIFIED MATERIAL. The classification contained on General Orders No. 2, Headquarters, 2675th Regiment, Allied Control Commission (U. S. Contingent), (previous draft), dated 8 November 1943 is hereby removed and re-classified as UNCLASSIFIED. (A.C.)

- It is directed that unlimited copies of this Hq. handling correspondence and filing pamphlet be furnished themselves with the contents of this pamphlet.
- Any Sub-Commissioners of lack and sections who have not received a copy, can obtain one from Lt. J. W. Smith, Insp. Section, Room 13, this Hq. (A.C.)

4. OFFICERS REGISTER: Many officers of both the British and American Army enter and leave this headquarters without signing in or out in the Official Register. It will be appreciated that it is impossible to maintain personnel records without knowledge of the officer's whereabouts. The Officers Register is the official means of obtaining this information in all Headquarters. In the past, the office of the Adjutant has gone to a great deal of trouble to protect the interests of officers who failed to sign in or out. Now, with an expanded officer personnel and no commensurate increase in clerical personnel, this is no longer possible. When officers do not sign in they are not included in the strength of this headquarters, and no rations can be drawn for them, thus causing a short ration for others.

In the future, officers assigned to this or subordinate headquarters who fail to sign in or out in the Officers Register will be officially carried AWOL, which means loss of pay for American officers and disciplinary action for British officers. The Officers Register for incoming officers is kept in Room 12, 6 Via Bari. The Officers Register for outgoing officers is kept in the Transportation Office, Room 4, 6 Via Bari. (A.G.)

1. OFFICERS REGISTER: Many officers of both the British and American Army enter and leave this headquarters without signing in or out in the Officers Register. It will be appreciated that it is impossible to maintain personnel records without knowledge of the officer's whereabouts. The Officers Register is the official means of obtaining this information in all Headquarters. In the past, the office of the Adjutant has gone to a great deal of trouble to protect the interests of officers who failed to sign in or out. Now, with an expanded officer personnel and no commensurate increase in clerical personnel, this is no longer possible. When officers do not sign in they are not included in the strength of this headquarters, and no rations can be drawn for them, thus causing a short ration for others.

In the future, officers assigned to this or subordinate headquarters who fail to sign in or out in the Officers Register will be officially carried AWOL, which means loss of pay for American Officers and disciplinary action for British officers. The Officers Register for incoming officers is kept in Room 1, 8 Via Bari. The Officers Register for outgoing officers is kept in the Transportation Office, Room 4, 8 Via Bari. (A.G.)

2. HEARINGS: There have been several recent instances of rumors circulating in this Hq which have, upon investigation, been found either entirely false or else a gross misrepresentation of the facts.

Officers are therefore advised of the danger of repeating such gossip and are requested to discourage the circulation of such stories. (Sec. Int.)

3. WAR INFORMATION ROOM: A War Information Room is being established in the large Conference Room, No. 3, Second Floor, AMG Hq. War maps containing latest available information of operations on the Italian and Russian fronts are being installed. Latest war communiqués, FWE Radio Monitoring Reports and other war news also will be made available. The AMG War Information Room will be opened at 1400 hours, Saturday, 20 November 1943. It will remain open each day during office hours, except when conferences are being held therein, when it will be closed temporarily. (Sec. Int.)

4. NEW OFFICE LOCATIONS: The Hq Supply Office has moved from 8 Via Bari, and is now located at 16 Via Bandiera.

The Hq Dispensary will move from the Pension Suisse on 22 Nov 1943 at 0900 hours and will open at 8 Via Bari, same time, same date.

The Office of Industrial Planning Staff has moved from the Banca D' Italia to Flat 17, 6th floor, 8 Via Bari. (Hq Comdt.)

It will be appreciated that it is impossible to maintain personnel records without knowledge of the officer's whereabouts. The Officers Register is the official means of obtaining this information in all Headquarters. In the past, the office of the Adjutant has gone to a great deal of trouble to protect the interests of officers who failed to sign in or out. Now, with an expanded officer personnel and no commensurate increase in clerical personnel, this is no longer possible. When officers do not sign in they are not included in the strength of this headquarters, and rations can be drawn for them, thus causing a short ration for others.
