911 COMMUNICATIONS- DAMAGE BY CARELESS DRIVING

District Routine Order No.205 S/N.14 dated 1 July 44 is republished for the information and guidance of all concerned.-

"There have been a great many cases recently of interruption to long distance telephone and telegraph communications due to telegraph poles being knocked down by vehicles.

Long distance communications can only be provided in the first instance by means of copper wire built on pole routes of either heavy or light construction.

The knocking down of one pole usually causes several bays to collapse, and not only is considerable expenditure of time and labour necessary to restore the route, but further delay is caused by the electrical re-alignment of the carrier equipment which provides the long distance telephone facilities.

The act of one careless driver in colliding with a pole or stay (guy) wire can cause interruption for several hours to important channels of communication. It is the duty therefore of all drivers to exercise the utmost care to avoid damage to telegraph poles and other line communication equipment.

Drivers of vehicles causing such damage will report details and exact location thereof to their unit, who will report the matter

General Routine Order No. 525, Serial No. 24, dated 16 Jun 44, is republished hereunder for information:-

1. The initiating and transmitting of chain letters is strictly forbidden.

2. Unit Censors will destroy any such letters found in the examination of unit mails.

875. PARCEL POST - FRUIT

General Routine Order No. 548, Serial No. 24, dated 16 Jun 44, is republished hereunder for the information and guidance of all:-

1. A large proportion of the fruit in parcels despatched by troops in this Command arrives in the U.K. unfit for consumption and has to be destroyed. Apart from the waste of sender's money and the disappointment suffered by the persons to whom the parcels are addressed, the rotted fruit causes serious damage to other postal packets and mail bags.

2. The principle causes of damage and decay are:-

(a) Inadequate and unsuitable packing. Experience shows that the thin wooden boxes frequently used for packing are totally inadequate.
(b) The despatch of soft fruit, particularly oranges and lemons in a ripe condition. Fruit parcels are liable to take several weeks in transit to U.K. and fruit should therefore be despatched green.

865. CENSORSHIP - UNIT PROCEDURE

District Routine Order No. 193, Serial No. 13, dated 20 Jun 44, is re-published hereunder for the information and guidance of those concerned:-

1. It has been found that officers when censoring letters have sometimes added comments of their own.

2. Officers who censor letters are forbidden to add any comments, with or without the consent of the writer. Commanding Officers will draw the attention of all officers to GRO 99/44 Part IV para 24 reproduced below:-

"Any matter contravening censorship regulations must be made completely illegible or the letter returned to the writer for re-writing. The most effective method is excision by scissors or razor blade, but in the case of Airgraphs and Air Letters, or where excision is likely to destroy harmless matter on the other side of the page, the unit censors may obliterate by overwriting with close coils in ink or indelible pencil. Unit censors will bear in mind that ineffective deletion defeats its own end by directing particular attention to the censorable matter. No comments of any description will be written on letters by Unit Officers."

The following extract from General Routine Order No. 488, Serial No. 22, dated 2 Jun 44, is republished for the information of all concerned:-

1. Army Order 38/44 gives a further opportunity to soldiers at present in receipt of pre-1925 rates of pay to elect instead to receive post-1925 rates.

2. If soldiers who wish to change their rate of pay under this Army Order apply to their COs before 1 July, 1944, the change may be made retrospectively from 26 December, 1943; if they make such application on or after 1 July, 1944, the change will be effective only from the date of election.

3. A comparison of pre-1925 and post-1925 rates is given in the new edition of AB 64, Part II (see also ACI 1756/43, and the pamphlet issued with GRO 249/43); but attention is drawn to para. 1 of GRO 489/44, which notifies increases, w.e.f. 29 Apr 44, to certain classes of post-1925 rates of pay.

Two other main differences are:-

2. E.F.I. Beer Issues

Area Routine Order No. 737, dated 5 Jun 44, is repeated hereunder for information:-

(a) Since at present there is no prospect of any immediate improvement in beer supplies, the following explanation of the situation has been given by AAI.

(b) About six weeks ago a letter was received from N.A.A.F.I. H.Q., London, stating that owing to difficulties in obtaining bottles, beer shipments from Canada were falling off by over 100,000 cases per month, and that beer must be expected to be in very short supply for a period of at least three months. A further communication has been received from AFHQ to the effect that there is still no improvement in sight.

(c) For the past five weeks all beer has been sent to the troops forward of Army and Corps boundaries, with the exception of the British share of the local beer from the Bari Brewery, which is unsuitable for travelling. This has been issued to Bari Rest Camp and Operational Air crews in the Foggia Area, and the small remainder locally in the Bari Area. Otherwise L of C Troops have had no beer for five weeks.

CONTINUED ON SHEET 2.

Declassified E.O. 12356 Section 3.3/NND No.

(d) Dues in for June are equivalent to one bottle per head, and these supplies will be issued on a general basis to all British troops.
(e) There is a possibility of a further supply coming from the Tunis Brewery which may make possible a restricted issue later in the month.
(f) Local production of beer is hampered by lack of certain essential commodities, which cannot be obtained locally. The position has been represented to AFHQ and HQ N.A.A.F.I., London, are endeavouring to make good this position. It is, in addition, hoped that the supply of imported beer will improve.

Daily Routine Order No. 613, dated 1 May 44, is reproduced hereunder for information:-

To ensure that hot meals are always available for drivers on late details it is imperative that the NCO i/c Transport Section (British) informs the Cpl Cook on duty of any such details.

The OC will take a serious view if, through the negligence of either the NCO i/c Transport or the Cpl Cook, late duty drivers do not receive a hot meal on their return. Where possible, any driver who has reason to believe that he will be late for meals, will inform the NCO i/c Transport accordingly.

This order will also apply in the case of clerks.

It is understood that through no fault of their own, clerks are not always in a position to warn anyone of late duty. Arrangements have been made with the NCO i/c Cookhouse whereby a cook is on duty until 2100 hrs daily.

Any complaints of refusal for meals by ORs on late duties, i.e. drivers, clerks, etc., may be made direct to the OC at any time.

All ORs are reminded that the messing committee sits once a week, and that anyone may attend for the purpose of making suggestions or complaints in respect of messing, food, meals, etc.

6I3. MEALS.

To ensure that hot meals are always available for drivers on late details it is imperative that the N.C.O. i/c Transport Section (British) informs the Cpl.Cook on duty of any such details.

The O.C. will take a serious view if, through the negligence of either the N.C.O. i/c Transport or the Cpl.Cook, late duty drivers do not receive a hot meal on their return. Where possible, any driver who reason to believe that he will be late for meals, will inform the N.C.O. i/c Transport accordingly.

This order will also apply in the case of clerks.

It is understood that through no fault of their own clerks are not always in a position to warn anyone of late duty. Arrangements have been made with the N.C.O. i/c Cookhouse whereby a cook is on duty until 2100 hrs. daily.

Any complaints of refusal for meals by O.Rs. on late duties, i.e. drivers, clerks etc., may be made direct to the O.C. at any time.

All O.Rs. are reminded that the messing committee sits once a week, and that anyone may attend for the purpose of making suggestions or complaints in the respect of messing, food, meals, etc.

The practise of officers and O.Rs. visiting the British Orderly Room between 1245 and 1345 hrs. for enquiries will be avoided if possible.

(i) Day off

The following system for day leave will come into force immediately,-

Every NCO and man detailed for a day off will draw a pass form from the Coy. Orderly Sergeant, British Orderly Room. This will be filled in, authorized by Chief Clerks of Sub-Commissions, Departments, Divisions, etc., and handed back to the British Orderly Room by 1400 hrs the day previous to the day off.

This is essential owing to the necessity of the Orderly Room having a complete roll of men not on duty, and in future disciplinary action will be taken against any man on pass whose name does not appear on this roll.

M.T. Section will continue their present system.

(ii) Hygiene

The policeman on duty will ensure that during the allotted time for meals, only the most essential of transport is allowed into the courtyard at 61 via Medina.

This will help to cut down the amount of dust and dirt that is in the air, keep the food cleaner and help prevent disease.

The Provost Cpl. will check that policemen carry out their duty.

553. ROAD TRAFFIC

W/46 Rd will be closed for traffic to Positano for improvement to Gr. N39246 from 1200 hrs to 1500 hrs 20 Apr.

Saluting

General Routine Order No. 302, Serial No. 14, dated 7 Apr 44, is republished hereunder for information and strict compliance:-

1. When two or more other ranks are walking out and pass an officer or officers, all the other ranks will salute as laid down in King's Regulations, 1940, para. 955 (a), and the Manual of Elementary Drill (All Arms), 1935, Section 74.

2. A salute made to two or more officers in a street or other public place out of doors will be returned by all the officers saluted. In camps, unit lines, clubs or on parade, the salute will be returned by the senior officer only.

3. When two or more British officers meet an Allied officer or officers, all British officers will either salute or acknowledge the salute of the Allied officers, as the case may be. The rank of the British or Allied officers is immaterial.

The badges of rank of Allied Military Forces should be studied by all ranks.

4. All ranks will salute officers of higher rank in cars which display authorized flags or stars. The latter distinguishing signs, which are uncovered when the officer is travelling, consist of red metal plates with one or more stars according to rank displayed on the front and rear of the car.

5. Saluting dates from the time of armour, the salute representing the motion of a knight raising the visor of his helmet with the open hand to the front showing that, though raised, it contained no missile.

The practice of combining "eyes right" or "eyes left" with the salute originated from the olden days, when it was the privilege of men-at-arms to look their superiors in the face, while others must pass with downcast eyes.

The salute is, therefore, a recognition of comradeship and mutual trust

The badges of rank of Allied Military Forces should be studied by all ranks.

4. All ranks will salute officers of higher rank in cars which display unauthorized flags or stars. The latter distinguishing signs, which are uncovered when the officer is travelling, consist of red metal plates with one or more stars according to rank displayed on the front and rear of the car.

5. Saluting dates from the time of armour, the salute representing the motion of a knight raising the visor of his helmet with the open hand to the front showing that, though raised, it contained no missile.

The practice of combining "eyes right" or "eyes left" with the salute originated from the olden days, when it was the privilege of men-at-arms to look their superiors in the face, while others must pass with downcast eyes.

The salute is, therefore, a recognition of comradeship and mutual trust between men-at-arms; it is, at the same time, an acknowledgment of discipline and has become a visible indication of common allegiance which all ranks owe to the Crown and its service.

The standard of saluting is, therefore, an indication of the esprit-de-corps of units and formations. History, and the experience of the present war, have proved that high esprit-de-corps and good discipline increase the military efficiency of units and formations.

The recognition of comradeship and mutual trust inherent in the salute must be mutual and not one-sided, e.g. both parties must look each other in the eyes, and officers receiving the salute must return it in a smart, soldierly and orthodox manner. The slovenly return of a salute cannot but breed slovenliness. The officer will, therefore, return the salute in a proper manner and will invariably look the giver in the eyes.

6. Officers and soldiers, on detachment, will show by the standard of their saluting their determination to maintain with pride the reputation of their unit, corps and formations.

7. GRO 233/43 is cancelled.

438. MEALS

Daily Routine Order No. 285, dated 21 Feb 44. is republished hereunder for information and strict compliance:-

To ensure that hot meals are always available for drivers on late details it is imperative that the N.C.O. i/c Transport Section (British) informs the Cpl. Cook on duty of any such details.

The O.C. will take a serious view if, through the negligence of either the N.C.O. i/c Transport or the Cpl. Cook, late duty drivers do not receive a hot meal on their return. Where possible, any driver who has reason to believe that he will be late for meals, will inform the N.C.O. i/c Transport accordingly.

This order will also apply in the case of clerks.

It is understood that through no fault of their own clerks are not always in a position to warn anyone of late duty. Arrangements have been made with the N.C.O. i/c Cookhouse for dealing with such cases.

Any complaints of refusal for meals by O.Rs. on late duties, i.e. drivers, clerks, etc., may be made direct to the O.C. at any time.

The practice of officers and O.Rs. visiting the British Orderly Room between 1245 and 1345 hrs for enquiries will be avoided if possible.

The hours mentioned above are allotted for the lunch meal.

It is requested that officers make enquiries during office hours only.

341. ELECTRIC SUPPLY

1. Economy in the use of electricity

(a) The supply of electricity in Italy is very limited. It is essential that the very best use for the war effort is made of this small supply. As increased numbers of damaged factories, plants, etc., are being repaired and brought into production, so necessarily is the quantity of electricity available for domestic use being curtailed. Stringent measures are being taken to curtail the civilian domestic consumption.

(b) Considerable economies must be made by users of electric supply. Care should be taken that electric lights are switched off when not required and that only the minimum number of lights are used at any time. Consumption of Electric Power for domestic purposes such as hot water systems must be most stringently controlled.

(c) All ranks must be made "economy-minded" over electricity so that they automatically switch off the current whenever they leave a room.

2. Misuse of electrical systems

(a) Serious misuse of electrical systems has been reported and in future the alteration of or addition to electrical installations is forbidden unless authority has been obtained and the work carried out by RE works services.

(b) Misuses reported include:-

The use of high power bulbs thus overloading the circuit.
Heating apparatus used on lighting circuits.
The use of fuses above the correct size.
Tampering with and by-passing meters.
Extensions of the wiring system.
Connecting to 150 volt systems.
Installations which are unsuitably equipped.

that the very best use [illegible]
As increased numbers of damaged factories, plants, etc., are being repaired and brought into production, so necessarily is the quantity of electricity available for domestic use being curtailed. Stringent measures are being taken to curtail the civilian domestic consumption.

(b) Considerable economies must be made by users of electric supply. Care should be taken that electric lights are switched off when not required and that only the minimum number of lights are used at any time. Consumption of Electric Power for domestic purposes such as hot water systems must be most stringently controlled.

(c) All ranks must be made "economy-minded" over electricity so that they automatically switch off the current whenever they leave a room.

2. Misuse of electrical systems

(a) Serious misuse of electrical systems has been reported and in future the alteration of or addition to electrical installations is forbidden unless authority has been obtained and the work carried out by RE works services.

(b) Misuses reported include:-
The use of high power bulbs thus overloading the circuit.
Heating apparatus used on lighting circuits.
The use of fuses above the correct size.
Tampering with and by-passing meters.
Extensions of the wiring system.
Connecting to 150 volt systems.
Installations which are unsuitably equipped.
Military DC generating plant used through AC meters with resultant damage to the meters.

(c) Unauthorized work is not only dangerous but economy in the use of electricity is essential if the supply is to be maintained.

(d) To conserve lamps which are in short supply, units will withdraw to store all but the minimum required for the particular purpose a building is used for.

(e) Units will report by 15 Mar 44 to Cs RE concerned any alteration or addition to the electrical system which has been carried out without authority, in order that the work may be inspected.

290. OFFICERS' FIELD ADVANCES

(1) Recovery of Field Advances to Officers has in the past been made from subsequent issues of pay by Officer i/c Army Pay Office (Officers' Accounts), Manchester, or by the Army Agents. In cases where outstanding advances exceeded entitlement to pay, recovery was made through Officers' banking accounts in certain cases.
(2) This arrangement has not in practice proved satisfactory, and long delays have occurred in debting Officers' accounts.
From an early date the following system will operate:-
(a) Application will be made to Officers' banks for repayment of all outstanding advances.
(b) Applications will be made periodically to Officers' banks for repayment of subsequent advances.
No application will be made during the month in which the advance is drawn.
(3) Should banks be unable to meet claims under paragraph 2 above because of insufficient funds or any other reason, recovery will be made from future issues of pay at source. In such cases it may be necessary to issue orders for an Officers' cash drawing to be restricted until the outstanding charges have been cleared.
(4) The effect of this change in procedure is that A.F.W.3241 will be regarded as cheques, and officers are responsible that sufficient funds are at all times available at their banks to meet them.
Particular care must be taken by Officers who operate a joint account with their wife or other person at home, to ensure that their account is sufficiently in credit to meet any field advances drawn by

Any complaints of refusal for meals by O.Rs. on late duties, i.e. drivers, clerks, etc., may be made direct to the O.C. at any time.

The practice of officers and O.Rs. visiting the British Orderly Room between 1200 and 1300 hrs for enquiries will be avoided if possible. The hours mentioned above are allotted for the lunch meal.

It is requested that officers make enquiries during office hours only.

The practice of British O.Rs. addressing officers by their ranks, i.e., answering "Yes Captain", "No Captain, Major" etc., will cease forthwith. The correct method laid down for addressing W.Os. and Commissioned Ranks is by using the word "Sir".

General Routine Order No. 39, dated 28 Jan 44, is republished for information:-

1. The Army Council have drawn attention to the fact that accounts of personnel serving overseas reveal an increasing number of abnormally large debtor balances. In a number of cases individual debts exceed 100 pounds.

2. It would appear that certain officers serving overseas whose duty it is to make payments to soldiers show little or no regard for their personal responsibilities in regard to the accounts pay out to individuals.

3. The attention of every officer will be drawn to his responsibility. In the absence of official knowledge of the state of a soldier's account, an officer has no authority to make a payment in excess of the net rate of pay shown in AB 64, Part II. If he does so he may be called upon to make good from his own pay, any resulting loss to the public.

4. The Council desire to make it clear to all officers that write-off of a debt on a soldier's account does NOT preclude subsequent consideration of whether the officer or officers responsible for the over-payments should make good the loss of public funds.

5. It is pointed out to the recipients of this serve basic lesson that the rates of pay shown in AB 64, Part II are for the guidance of the soldier as well as the paying officer. A soldier who falls heavily into debt through receiving such payments, which on the evidence of his pay book are clearly excessive must not expect relief such as is given to soldiers who fall into debt through causes beyond their control.

179. OFFICERS' FIELD ADVANCES

(1) Recovery of Field advances to officers has in the past been made from subsequent issues of pay by Officer i/c Army Pay Office (Officers' Accounts), Manchester, or by the Army Agents. In cases where outstanding advances exceeded entitlement to pay, recovery was made through officers' banking accounts to curtail same.

(2) This arrangement has not in practice proved satisfactory, and long delays have occurred in debiting officers' accounts.
From an early date the following system will operate:-

(a) Application will be made to officers' banks for repayment of all outstanding advances.

(b) Applications will be made periodically to officers' banks for repayment of subsequent advances.

No application will be made during the month in which the advance is drawn.

(3) Should banks be unable to meet claims under paragraph 2 above, because of insufficient funds or any other reason, recovery will be made from future issues of pay at source. In such cases it may be necessary to issue orders for an Officer's cash dealings to be restricted until the outstanding charges have been cleared.

(4) The effect of this change in procedure is that ..F.W.3421 will be regarded as cheques, and officers are responsible that sufficient funds are at all times available at their banks to meet them.

Particular care must be taken by officers who operate a joint account with their wife or other person at home, to ensure that the account is sufficiently in credit to meet any Field advances drawn by them.

155. INSURANCE. (Uniform, Equipment & Personal Effects - Officers)

(1) Necessity for Insurance.

All Officers are warned of the advisability of insuring their uniform, equipment and personal effects against ordinary risks of civil life (e.g. fire, theft, loss in transit and ordinary marine and air risks)

Even in operational areas, these risks, unless attributable to enemy action, can be covered by such insurance.

The necessity for effecting such insurance arises from the fact that compensation from Army Funds is only payable in cases where the risk cannot be covered by insurance.

The regulations governing compensation are "Allowance Regulations, 1939, Section 15" which may be seen at the Office of the O.C. British Detachment.

(2) Loss of Money.

Compensation for loss of money is not admissible from Army Funds.

(3) War Risks by Sea or Air.

Compensation for loss of uniform, equipment and certain other effects detailed in A.C.I. 1422 of 1941 (which may be seen at the Office of the O.C. British Detachment), by war risks, when they are being conveyed by sea or air at Government expense, is payable from Army Funds under the conditions laid down in that A.C.I. Such compensation is not payable in respect of consumable stores and articles of luxury, which should be covered by insurance. No insurance is, however, necessary in respect of the articles covered by the A.C.I.

Cover beyond those limits must be obtained by insurance under the Act. Full particulars of the provisions of the Act (including the limits of free cover) are contained in A.C.I. 1422 of 1941 (see para 3) to which reference should be made. This practice will, therefore, cease immediately. Any O.R. placed on a report for violating this order will be severely dealt with by the O.C. British Detachment. It is the duty of all N.C.O's to ensure that this order is complied with.
