2. ROAD DISCIPLINE

The following is extracted from AMC MIDDLE ARMY ORDERS, serial No.5, dated 17 Dec 44, and published for the information, guidance and compliance of all concerned:

"Attention of all officers is drawn to the following points (extracted from Eighth Army Commander's directive on Road Discipline). Officers will ensure that all ranks are made conversant with the points mentioned and that every effort is made to avoid infringement of traffic rules.

Any breach of these rules will result in disciplinary action being taken.

The main causes of traffic accidents are:-

(a) Excessive speeds. Maximum speeds have been laid down for all types of vehicles. These are, however, rarely obeyed and it is a common sight to see vehicles of the same type overtaking one another. It must be realised by all drivers that on many roads and during the bad weather conditions it is not safe to drive vehicles at the maximum speed laid down.

(b) Double Banking. It is not only a dangerous practice but frequently blocks the road and may seriously delay operationally urgent traffic. Jeeps are the worst offenders and though it may be necessary for them, for operational reasons, to overtake other traffic, they often tempt other larger vehicles to follow them. This often causes accidents as where there is room for the Jeep there is often not room for the larger vehicle.

(c) Pulling out to pass. Many accidents are caused by a vehicle with a right hand drive closing up on the vehicle in front and then pulling out without being able to see in the road in clear in front. Vehicles must not close up to the tail-board of the vehicle in front whilst on the move. It is dangerous and will be stopped forthwith.

(d) Hand Signals. Many vehicles having a right-hand drive the driver cannot give hand signals. This fact must be borne in mind by all drivers.

(e) Driving at night without lights. The practice of turning out all lights in the face of oncoming traffic is most dangerous and will cease forthwith.

(f) Casual vehicles halting on main highways. Casual vehicles are often seen stopped on main highways. This causes congestion and accidents occur through vehicles pulling out to pass. Vehicles will not halt on main highways

will be covered.
b. The Night Staff Duty Clerk, P/5 Kopol, will report to the Chief Clerk, Adjutant's Section, at 1600 hours and to the Duty Officer at 1630 hours. Duty Clerk for tomorrow will be P/5 Kollon.

2. ROAD DISCIPLINE:

The following is extracted from MG SIGNIN AMZ Orleans, serial No.5, dated 17 Dec 44, and published for the information, guidance and compliance of all concerned:

"Attention of all officers is drawn to the following points (extracted from Eighth Army Commander's directive on Road Discipline). Officers will ensure that all ranks are well conversant with the points mentioned and that every effort is made to avoid infringement of traffic rules.

Any breach of these rules will result in disciplinary action being taken.

The main causes of traffic accidents are:-

- (a) Excessive speeds. Maximum speeds have been laid down for all types of vehicles. This often causes accidents as where there is room for the Jeep there is often not room for the larger vehicle.

Vehicles must not close up to the tail-board of the vehicle in front whilst on the move. It is dangerous and will be stopped forthwith.
- (d) Hand signals. Many vehicles having a right-hand drive the driver cannot give hand signals. This fact must be borne in mind by all drivers.
- (e) Driving at night without lights. The practice of turning out all lights in the face of oncoming traffic is most dangerous and will cause fog lights in the face of oncoming traffic is most dangerous. Casual vehicles are often seen stopped on main highways. This causes congestion and accidents occur through vehicles pulling out to pass. Vehicles will not halt on main highways unless signalled to do so for traffic control reasons or forced to stop by mechanical breakdown. It is essential that when vehicles halt on a main highway due to mechanical trouble they pull off the carriage way wherever possible and in any case the vehicle must be parked as near the side of the highway as possible." DESIGNATION:

MacMillan, Acting President of Allied Commission in published for the information of all personnel:

The following message is addressed to all members of the Allied Commission both at Headquarters and in the field.

In accordance with the announcement made by the President of the United States and the Prime Minister of Great Britain, General Wilson has delegated to me his functions as President of the Allied Commission. I am fully conscious of the great responsibility placed upon me. I can only hope to discharge it if I have, as I am sure will be the case, your full support. It is indeed fortunate for me that Commodore Stone is now definitely appointed Chief Commissioner. He will be a worthy successor to General Mason-MacFarlane who won the confidence and respect of us all.

It is now nearly two years since I have been associated first under the leadership of General Eisenhower and then under that of General Wilson with an integrated enterprise unique in the history of military alliances. The Allied Commission in Italy, like the Allied armies, can only succeed if it is based upon mutual confidence and co-operation. Being by birth half American and half Scot I can at least claim an inherited instinct towards that end.

In accordance with my instructions, and as part of the task especially entrusted to me in connection with the new measures devised to meet the economic and other problems of Italy, I am leaving in a few days for London and Washington. I regret, therefore, that I shall have to delay the personal contact with the members of the Commission which I have to be able to make at a later date.

Meanwhile I would like to send a message of greeting to all of the members of the Commission and to say how proud I am to be associated with a body whose splendid work both in the forward and in the rear areas will, I am sure, be recognized by history as a notable achievement of which our countrymen both in the United States and Great Britain have reason to be proud.

3. UNATTENDED VEHICLES:

To leave a vehicle alone on a dark street invites theft and shows an utter lack of responsibility on the part of the officer concerned.

The attention of all officers and men is again called to the standing order of the Chief Commissioner that no motor vehicle or cycle of this Commission will be left unattended at any time.

Drastic action will be taken against all violators of this order in addition to the pecuniary responsibility for the vehicle stolen.

6. MESSAGE FROM ACTING PRESIDENT LUNN

The following message from Mr. Harold Macmillan, Acting President of Allied Commission is republished for the information of all personnel:

"The following message is addressed to all members of the Allied Commission both at Headquarters and in the field:
In accordance with the announcement made to the President of the United States and the Prime Minister of Great Britain, General Wilson has delegated to me his functions as President of the Allied Commission. I am fully conscious of the great responsibility placed upon me. I can only hope to discharge it if I have, as I am sure will be the case, your full support. It is indeed fortunate for me that Commodore Stone is now definitely appointed Chief Commissioner. He will be a worthy successor to General Mason-MacFarlane who won the confidence and respect of us all.

It is now nearly two years since I have been associated first under the leadership of General Eisenhower and then under that of General Wilson with an integrated enterprise unique in the history of military alliances. The Allied Commission in Italy, like the Allied armies, can only succeed if it is based upon mutual confidence and co-operation. Being by birth half American and half Scot I can at least claim an inherited instinct towards that end,

in accordance with my instructions, and as part of the task especially entrusted to me in connection with the new measures devised to meet the economic and other problems of Italy, I am leaving in a few days for London and Washington. I regret, therefore, that I shall have to delay the personal contact with the members of the Commission which I hope to be able to make at a later date.

Meanwhile I would like to send a message of greeting to all of the members of the Commission and to say how proud I am to be associated with a body whose splendid work both in the forward and in the rear areas will, I am sure, be recognized by history as a notable achievement of which our countrymen both in the United States and Great Britain have reason to be proud."

7. COMBINED CHIEFS OF STAFF ANNOUNCEMENT

a. It has been announced by Combined Chiefs of Staff that the British Resident Officer at Allied Force Headquarters, Mediterranean, the Right Honorable HAROLD MACMILLAN, MP, becomes the responsible head of the Allied Commission to his present post. General WILSON will delegate his functions as President of the Commission to Mr. MACMILLAN.

b. The present Acting Chief Commissioner, Commodore MILLERY W. STONE, of the United States Navy, is appointed Chief Commissioner. (Adj)

8. LIBERTY TRUCK:

A liberty truck will leave this Headquarters tonight, Thursday, and Saturday at 1730 hours and will return at 2140 hours from the Vehicle Park in the Square opposite Florence Area Command. Personnel wishing to go to Florence on the Liberty Truck will report to SSM Smith, Chief Clerk, Adjutant's Department prior to 1400 hours on the day they wish to go into Florence. (Adj)

The following is republished from General Orders Number 26, AMM for the information of all concerned:

To the Allied Forces in the Mediterranean:

- 1. Two years ago today Allied forces landed in North Africa. That was a giant stride along the road leading to the enemy's defeat. You of the sea, land and air services have done more than win great victories in these two years; you have proved that Allied solidarity is a reality, not a phrase; you have demonstrated that the two services can work together as a single combat team; you have set the pattern for other invasions. You were pioneers; what you have done here in the Mediterranean Theater has facilitated Allied successes elsewhere.
- 2. We rejoice equally in the Allied triumphs on the western front, the eastern front, and in the Pacific. These are all part of the one global war. The importance of our share in the war in Europe is as great as ever and will so remain until the end.
- 3. Victory is certain! Let us all see to it that it is not long delayed.

Signed: L. M. Wilson, General.

3. REPORTS ON ROAD CONDITIONS:

The following letter HQ. ACC, RC & MG Section, and 25 Sept 44, is reproduced for the information and guidance of all concerned:

"1. From time to time reports are required as to condition of roads, bridges etc., and as the winter approaches it will be even more necessary to have the latest information covering roads before setting out.

2. The best way of gathering this information is from officers who have returned from tours. To enable information in the reports to be collected, a pro-forma has been prepared. Officers should complete these on their return and forward direct to Public Works Sub-Commission.

3. The pro-forma should give information as to route taken, state of roads, bridges and any detours necessary. It need not go into details but should contain enough information to guide others who may be taking the same route.

4. A Road Reports Bureau will be set up by Public Works Sub-Commission where officers may get up-to-date information before proceeding on a journey.

5. A copy of this Memorandum is being forwarded to Regional Commissioners in the expectation that they have or will set up similar Regional arrangements for collection of road information and place one of their headquarters officers in charge. Visiting officers would find information of this nature at Regional headquarters most helpful.

6. Attached are ten copies of the pro-forma for your use. Additional copies may be secured from Road Reports Bureau, Public Works Sub-Commission.

The above mentioned forms are presently available in the Adjutant's office this headquarters. All officers this headquarters going on tours will secure forms from the Adjutant, and upon return file copy of report.

3. INDICATION OF MESSAGE SECURITY CLASSIFICATION:

No specific procedure is prescribed by the Combined Communication Board for the indication of the security classification allocated to a message. Nevertheless, it has been found essential to have a uniform method of indicating the security classification at all stages of transmission and on delivery to the addressee.

The following procedure will be effective within the Mediterranean Theater:

- e. Originators will include the security classification as the first word of the text in all messages.
- b. Messages transmitted in the clear will retain the security classification as the first word of the text throughout all transmissions and on delivery to the addressee.
- c. Messages requiring encipherment. The Code Room/Cipher Office will indicate the security classification by the method prescribed in existing U.S. or British cipher instructions. All deciphered messages will have the security classification included as the first word of the text before delivery to the addressee.
- d. 3. INDICATION OF MESSAGE SECURITY CLASSIFICATION:

No specific procedure is prescribed by the Combined Communication Board for the indication of the security classification allocated to a message. Nevertheless, it has been found essential to have a uniform method of indicating the security classification at all stages of transmission and on delivery to the addressee.

The following procedure will be effective within the Mediterranean Theater:

- a. Originators will include the security classification as the first word of the text in all messages.
- b. Messages transmitted in the clear will retain the security classification as the first word of the text throughout all transmissions and on delivery to the addressee.
- c. Messages requiring encipherment. The Code Room/Cipher Office will indicate the security classification by the method prescribed in existing U.S. or British cipher instructions. All deciphered messages will have the security classification included as the first word of the text before delivery to the addressee.
- d. Messages originated with the security classification "IN CLEAR BY ANY MEANS" need not be treated as above but the first signal agency to handle the message will insert the instruction "QIA" (This message may be sent as written by any means including radio) in the heading of the message. The instruction "IN CLEAR BY ANY MEANS" will be shown on the message before delivery to the addressee.

The following is extracted from, NAVOUSA Circular No. 106, dated 24 Aug 44, and is reproduced for the information, guidance, and compliance of all concerned:

A recent atabrine blood level study conducted on malaria cases admitted to hospitals showed that 95% of the individuals involved had failed to take regularly, suppressive atabrine therapy required in their area. This means that most of the cases of malaria now developing are due to failure on the part of the individual to take the prescribed atabrine ordered by his command. This failure in discipline is costing the theater a large loss of man power at a critical time. Organization Commanders will take steps at once to see that where malaria suppressive therapy is indicated, that all troops take the prescribed atabrine daily, by roster. (Adj)

2. CIVILIAN PASSENGERS:

The following letter from Hq, Allied Armies in Italy, dated 14 August 1944, is reproduced for the information, guidance, and compliance of all concerned:

It has been noted that considerable numbers of unauthorized civilian passengers are still being given transportation in Government vehicles.

Civilians (male and female) may be transported in vehicles being used for official business when their presence is necessary for the accomplishment of the official business for which the trip is being made. Only civilians (male and female) who are United States Government employees or who are members of the American Red Cross may be transported in vehicles being used for authorized special purpose trips. The giving of casual lifts to civilians is forbidden.

This practice of helping hitch-hikers constitutes a grave menace to our security in that it seriously impairs the effectiveness of security controls designed to restrict the movement of undesirable elements. It is known that enemy agents rely extensively on this mode of travel when operating behind our lines and that many have already made use of it. Of the agents so far captured no fewer than fifteen have stated that they were given rides in Government vehicles either on the way to their target area, or on their return towards enemy territory.

All concerned are reminded that no civilian passengers may be transported in government vehicles unless in possession of an official pass authorizing such travel. Units and headquarters will impress on all drivers under their command the seriousness of this matter and ensure that they are conversant with the current instructions on this subject.

All personnel of this headquarters and subordinate commands are enjoined to abide by the spirit as well as the letter of the above directive. (Adj)

The Duty Clerk, Steve Walmsley, will report to the Chief Clerk Adjutant's Department, at 1800 hours. Duty Clerk for 13 August is Pfc. Pascuzzi.

2. UNAUTHORIZED TRANSPORTATION OF CIVILIANS IN U.S. GOVERNMENT VEHICLES

- (a) Attention is directed to the provisions of paragraph 1, NATOUS Circular Number 9, 1944.
- (b) It has been noted that considerable numbers of unauthorized civilian passengers are still being given transportation in Government vehicles in that it seriously impairs the effectiveness of security controls designed to restrict the movement of undesirable elements.
- (c) This practice constitutes a grave menace to our security mode of travel when operating behind our lines and that many have already made use of it. The agents so far captured no fewer than fifteen have stated that they were given rides in government vehicles either on the way to their target area, or on their return towards enemy territory.
- (d) It is known that enemy agents rely extensively on this mode of travel in government vehicles unless in possession of an official pass and their command the seriousness of this matter and ensure that they are conversant with the current instructions on this subject.
- (e) All concerned are reminded that no civilian passengers may be transported in government vehicles and headquarters will impress on all drivers under their command the seriousness of this matter and ensure that they are conversant with the current instructions on this subject.

3. RABIES (HYDROPHOBIA)

Section III, NATOUS Circular Number 62, 1944, is rescinded and the following substituted therefor:

- (a) Because of the prevalence of rabies, dogs, cats and other pets will not be allowed to stray about organization areas. The provisions of paragraph 3 of Hq. NATOUS Circular 96 (cont'd) AR 40-210, dated 15 September 1942, covering the quarantine of animals which have bitten military personnel and any animal suspected of being rabid will be followed.
- (b) In the absence of a veterinary officer, medical officers will confine and observe animals for a period of two weeks or until symptoms of rabies develop. If suspicious symptoms develop, the animal should be permitted to live until definite symptoms of rabies occur. It should then be killed, and decapitated and the head sent to the nearest Army Laboratory, Medical General Laboratory, or General Hospital-Laboratory where the brain will be examined. If the head cannot be delivered immediately, it should be iced and delivered in the most expeditious manner possible.
- (c) Except in the case of bites around the face and neck individuals who have been bitten, will be kept under observation in the most expeditious manner possible.

Units and headquarters will impress on all drivers under their command the seriousness of this matter and ensure that they are conversant with the current instructions on this subject.

3. RABIES (HYDROPHOBIA)

Section III, MATOUSA Circular Number 62, 1944, is rescinded and the following substituted therefor:

(a) Because of the prevalence of rabies, dogs, cats and other pets will not be allowed to stray about organization areas. The provisions of paragraph 3(d), Hq, MATOUSA Circular 96 (cont'd)

AR 40-210, dated 15 September 1942, covering the quarantine of animals which have bitten military personnel and any animal suspected of being rabid will be followed.

(b) In the absence of a veterinary officer, medical officers will confine and observe animals for a period of two weeks or until symptoms of rabies develop. If the head cannot be delivered immediately, it should be iced and delivered in the most expeditious manner possible.

(c) Except in the case of bites around the face and neck individuals who have been bitten, will be kept under observation in their organizations. In those cases that have been bitten around the head or neck it is not safe to delay treatment while observing the animal, and such cases will be treated at once. In all other cases, treatment will be determined by the course of the responsible animal. If the suspected animal does not develop symptoms or signs of rabies, immunization need not be carried out.

(cont')

(d) Those patients who are to be treated, will be referred to the nearest United States Army hospital where the necessary treatment will be given on an outpatient status unless complications warrant other hospital treatment.

(e) The material to be used for this treatment is Sample type anti-rabies vaccine, N.S.I, which is available through medical supply channels. The unit is a vial which contains sufficient vaccine for one injection. Fourteen injecti given on successive days are required for prophylactic immunization as preventive treatment for rabies.

4. PURCHASING AGENT

- (a) The attention of all personnel is directed to appointment of 1st Lt. Bruno J. Riccomini as purchasing agent for Region IX.
- (b) The following procedure relative to purchases is directed: When materials or supplies are required by any HQ Division a requisition (Form No. 1) will be completed in duplicate signed by the head of the Province or Division or authorized signature, and forwarded to the Purchasing Agent. It will then be the duty of the Purchasing Agent to ascertain if such materials or supplies can be obtained from an Army source. If so the regular procedure will be followed. If not the Purchasing Agent will obtain the best possible price for the quality and the grade in materials or supplies requested, and a purchase order (form No. 2) will be completed in quadruplicate. The original will be given to the person, firm or corporation furnishing the materials or supplies; the duplicate will be retained by the Purchasing Agent for the Finance Division; the triplicate sent to the HQ division requesting the materials or supplies and the quadruplicate copy retained by the Purchasing Agent. Materials or supplies purchased will be delivered to the Purchasing Agent where they will be checked against invoices in duplicate and Purchasing Agents copy of the purchase order. If found to be correct as to quantity, size or weight, approval will be shown on the invoices by Purchasing Agent. If materials, supplies or labour are furnished by contract, contracts to be numbered in numerical sequence and reference of contract number to be placed on purchase order. Contracts will be prepared in quadruplicate and distributed the same as copies of purchase order. Both copies of the invoices and the Finance Division's copy of the purchase order will then be sent to the Finance Division on Friday of each week, where payment vouchers will be prepared and payment made to the Finance Division on Saturday.
