ELMAS AIRFIELD PROJECT
SEPT. 1946 - JAN. 1947

108

F/L T. Turner
F/O Bowes

Revd Enclour 20A : 21A

Please advise to wish to land on Tuesday 23 January to speak on behalf of the authorities.

2. In continuation of my letter dated 18/11/67 I wish to advise you of arrangements and accommodations and necessary facilities and F/L Bowes are available and arrangements for safety course, anticipated conditions and air sea rescue.

T. Turner
21. 1. 78

109

S.E. 9/10 Mar 19 1978/3/2/4/2/10/2108
Please advise Enclour 20A.
-
regarding my F/L Bowes
I am afraid we have to take
and other details will be arranged
as required for the
authorities. However it may
be difficult as I.A.F. are involved and certain

offering no chemotherapeutic value and cannot stand alone. The treatment must be supported by surgery and accurate mechanical and the nonabsorbable and nonresorbable sutures and needles must be used. Suture material must be absorbed and must not irritate the tissue. Soft suture material such as silk or cotton may be used.

A vertical column of handwritten numbers from 1 to 10, arranged vertically along the right edge of the page.

6

Part 109 • 119.

"Society, religion, art, and
literature, and the
whole of life, are
the expression of
the spirit of the age."
"The spirit of the age
is the expression of
the whole of society,
religion, art, and
literature."
"The spirit of the age
is the expression of
the whole of society,
religion, art, and
literature."

Emerson (1841) (management)

Ref.: AN24/1677/115/E

30A

R.A.F. STATION, ELMAS - REDUCTION OF COMMITMENTS

In order to implement this Headquarters Administrative Instruction No. 71 the following action is required in respect of equipment responsibilities:-

1. Establishment of Stores.

All existing establishments are to be reviewed and new maximum establishments based on 5 months' holding for a strength of 50 men are to be determined and annotated on Forms 16.C.

It will not be necessary for the Station Equipment Section to hold any stocks of technical spares other than the special pack-ups already received by ELMAS for single Engine Repairs Aircraft and a small holding of M.T. spares to meet the maintenance requirements of the new establishment laid down in the above quoted Administrative Instruction.

2. Outstanding Demands.

All outstanding demands of all classes i.e. A.O.G. I.O.R., etc., are to be immediately reviewed and only such requirements as will exist for the new establishment are to remain active. All other demands are to be cancelled immediately by signal.

3. Disposal of Surpluses.

Action has already been taken by this Headquarters for the disposal of M.T. vehicles on your station.

As a result of action in respect of Para 1 above a considerable amount of equipment will be determined to be surplus to the future requirements of the station and the following action will be taken.

All items other than those falling into categories detailed in (a) and (b) below are to be listed in triplicate and two copies forwarded to this Headquarters. The lists will show section and reference number, full description, quantity and condition. Condition is to be assessed as either "good" or "poor".

210

SHEET TWO.

Lists are no] o include the following:

(a) Arms and ammunition. These are to be disposed of after demilitarisation as scrap in accordance with MEDME Equipment Disposal Memo No. 11 dated 25th September 1946, if no specialist officer is available to enable correct method of demilitarisation, the items are to be broken up and disposed of by dumping in deep sea water.

In the first case voucher action will be taken by Form 21 and in the second case a covering C.I.V. will be raised.

(b) Warlike Stores e.g. Aer.Engines, Airframe Spares or Aero-Engine Spares. All stores of a warlike nature are to be reduced to scrap and the scrap held for subsequent disposal instructions.

Form 21 is to be used to convert the items to scrap and the amounts arising are to be notified to this Headquarters.

4. Separate forms are to be prepared for:-

- {a} Items on Forms 1640
- {b} Items on "A" in "U" charge
- {c} Items not on charge.
- {d} Scrap.

5. In view of the difficulty in transshipping from Sardinia the majority of the items declared surplus will be handed over to A.R.A.R. at Sardinia on behalf of the Ministry of Supply. The special schedules for this purpose will be prepared by this Headquarters from the lists submitted by you and will be forwarded to you in order that you may effect hand-over to the local A.R.A.R. Representative.

6. The name and address of the local A.R.A.R. Representative is:-

ING. SOLLANO Gerlando
Capo Delegazione Ferrovie Stato
Cagliari, Sardinia
Telephone: Cagliari:2566.

7. It is imperative that when the equipment has been handed over to A.R.A.R. Representative and full responsibility has been therefore accepted by him that such equipment shall not be housed in buildings being retained by the R.A.F.

8. A receipt is to be obtained from A.R.A.R. on two copies of the special schedule, and thereafter an Issue Voucher No. is to be allotted, one copy used to clear records and other (second) copy to be forwarded to this Headquarters.

9. You are to bring to the attention of the local A.R.A.R. Representative that on the instructions from C.D.C. Rome such equipment taken over by A.R.A.R. is not to be disposed by A.R.A.R. until instructions are received from his Headquarters in Rome.

Contd..... Sheet 3.

10/11/1947

- 10. Prices of individual items are not to be confided A.R.A.R. under any circumstances.
11. D.I.D. All stocks of D.I.D. at present located at Cagliari are to be transferred and held in safe custody in the building that will be retained by R.A.F. at ELMAS. The Senior Area Catering Officer has already been instructed to review the holdings and dispose of any surplus commodities that are in excess of the requirements of the R.A.F. at ELMAS under the new establishment.
12. The frozen meat at present stored at CAGLIARI is to be removed in suitable containers to R.A.F. Station, ELMAS and stored in type 25 Refrigerators that are held on charge by your station. Refrigerators should be housed in the ration store. S.A.C.O. is requested to ensure that the policy of this instruction is implemented to the advantage of the reduced Unit.
13. P.O.L. All stocks of Aviation Oils are to remain until disposal instructions are issued at a later date. All existing procedure for supply of 100 Octane Petrol and M.T. Petrol will continue until disposal instructions for the products have been issued at a later date.
14. Receipt of this instruction is to be acknowledged immediately received by signal.

26A

From : AFM Bureau of Comptroller, U.S.A., Inc.

To : Air Headquarters USAF, •••••, U.S.A.

Date : 29 January, 1947.

Ref : AFM/2/2/AFM

REMARKS

WPA reference to our AFM 119 dated 21st January 1947 has stated
Offices was visited and on 20th January reported that AFM Bureau
Services, Meteorological Services and AFM Field Control had been taken over
separately by the Technical Air Force, who could not be separated as a
suitable command for civil aircraft until arrangements regarding maintenance,
refueling, housing and accommodation had been made.

2. These offices brought back with them a copy of AFM Headquarters letter
dated 21st January 1946 in which it is laid
down that AFM Bureau Air Force is to be responsible for AFM
Control, Maintenance of the AFM and AFM, and all servicing and repair
work of other military and civil aircraft (excluding R.O.A.C.). The closing
of AFM Control of AFM and AFM, however, cannot be undertaken by the AFM.
It is proposed, therefore, to make arrangements for these offices to be
responsible for AFM and AFM, and the payment for AFM services to AFM
(5 miles distant) where responsible facilities are available from civilian sources.
3. The Italian AFM Bureau have therefore today been notified that these
facilities are expected from them and have asked to supply these AFM
with AFM funds for services at AFM and AFM. It is requested that the AFM
R.O.A.C. arrangement so that these details can be published and AFM
be informed.
4. To a short discussion with the AFM. AFM soon after it was obtained
that there would be difficulties, particularly connected with the AFM's
payment for AFM and AFM, and the payment for AFM services to AFM
required.
5. The Italian AFM Bureau are also short of AFM equipment, particularly
tools etc. and need construction and supplies in AFM to repair their
aircraft before returning them to AFM. It is laid down in AFM that AFM
will supply AFM with AFM funds to AFM for AFM to AFM AFM
before returning them to AFM. (Our AFM study AFM/2/2/AFM dated 22 July 1946 refers).
6. In the meantime and awaiting a satisfactory solution to the AFM and
AFM equipment problems it is requested that AFM, AFM and AFM
elaborate, use AFM as an alternative procedure only.

With reference to our dated 1/22 dated 25th January 1947 the State Services who visited Lucca on 23rd January reported that although the Italian services, meteorological service and Aerofield control had been taken over satisfactorily by the Italian Air Force, less could yet be regarded as a suitable airfield from civil interests until arrangements regarding maintenance, refueling, housing and accommodation had been made.

2. Please o license benefit back with them a copy of the memorandum dated 20th Decm that the Italian Air Force is to be responsible for "Aerofield, Meteorological, information of the Aerodrome and Army and all sorties and refueling of other military and civil aircraft (including P.O.A.C.). The following aerodromes of civil and military crews, other than Lucca, before or to date not damaged, cannot be undertaken by the said air force crews and have to make their own arrangements for transportation to and from the nearest city (10 miles distant) where reasonable facilities are available from civilian contractors.
3. The Italian Air Ministry have requested today to be informed that two facilities are expected free from and independent of military headquarters which would allow them to establish an auxiliary station other than P.O.A.C. I direct you to inform the Italian Air Ministry that the charges for petrol and oil, and the payment for air servicing fees should be required.
4. In a recent conversation with the I.A.S. liaison section it was arranged that there would be a liaison office, particularly connected with the military and government for petrol and oil, and the payment for air servicing fees should be required.
5. The Italian Air Force are also short of classified equipment, supplies, vehicles etc, and need immediate and urgent attention in any re equipment that they may undertake on behalf of the civil aircraft and it has been arranged that the Italian Air Force will immediately begin work on the same. Work will commence on 22/2/47 dated 25 July 1946 (hereinafter referred to as the 25th).
6. In the meantime and pending a satisfactory solution to the stated problem arrangements will be requested that M.R.E.C., other than M.R.E.C. aircraft, use Lucca as an emergency landing field only.

Air Headquarters,

Malta.

7th November, 1946.

RECOMMENDATION IS MADE NO. 71.

RECOMMENDATION OF COMMITTEE
AND APPROVAL

Introduction.

In view of the steadily declining flow of aircraft through Malta, it is decided that it has been decided to land over 100 aircraft at present used by the Italian Air Force and to effect a considerable saving in manpower.

Instruction.

2. To define the responsibility of the Royal Air Force and Italian Air Force at Elmas.

Responsibility.

3. It is decided that those are to be responsible for the feeding and movement of all Royal Aircraft personnel to Malta. They are to accommodate and feed the crews of these aircraft in the event of their being delayed over 24 hours. They will (only within their limited capabilities) feed and accommodate diverted Royal aircraft and crews to the best of their ability.

4. The Royal Air Force is to be responsible for supplies, Airfield Control, Maintenance of the Aerodrome and the Royal Air Force personnel and repatriation of Royal Aircraft personnel (including R.O.A.F.) The feeding and accommodation of naval and military crews, other than those of the Air Transport Command, cannot be undertaken by the station. These crews will have to make their own arrangements for transportation to Cagliari, the nearest port, (5 miles distant) where reasonable facilities are available from civil sources.

2051

6/Personnel.....

Welfare.

13. The Senior Welfare Officer is to arrange for a supply of loose or bound films to be delivered to Elmes at least once per week.

Communication.

14. The Senior Air Staff Officer is to arrange for an aircraft to visit Elmes at least once per week for the purpose of carrying mail and welfare goods.

Ration Distribution.

15. Head District Comd/Air S/CO/CD dated 31st July, 1943 is to be circulated. Part on Rations is to be referred to the following establishment w.e.f.

1st December

1. Powers, Rights & Responsibilities of Commandant

1.1. Powers.

Information.

In view of the steadily declining flow of aircraft through S.1221, Kolka, it has been decided to hand over the responsibilities to the Italian Air Force and to request a considerable saving in manpower.

Instruction.

2. To define the responsibilities of the Royal Air Force and Italian Air Force at S.1221.

Responsibilities.

3. 1. R.A.F. units are to be responsible for the refuelling and servicing of all major aircraft passing through. They are to also provide and feed the crews of these aircraft in the event of their being delayed overnight. This will (only within the limited capabilities) feed and accommodate diverted R.A.F. crews and non-R.A.F. crews.

4. The Italian Air Force is to be responsible for Signals, Civil Control, Maintenance of the Aerodrome and V.A.C., and the storage and refuelling of other units of the civil airport (including P.O.W.s). The feeding and accommodation of civil and military crews, other than those of R.A.F. or Transport Command, cannot be undertaken by the R.A.F. These crews will have to make their own arrangements for transportation to Gaillies, the nearest site, (5 miles distant) where personnel facilities are available from civil sources. W

Personnel.

5. All personnel thrown up as a result of this reduction are to be released in accordance with separate instructions to be issued by the S.P.S.C. Air Headquarters, Malta.

Working Services.

6. One of the three Messed Quarter Villas is to be retained as a permanent Officers' accommodation. The remaining two of the houses personnel are to be moved in to Villa Lanza for accommodation. The station Headquarters is to be transferred into Villa Lanza utilising two of the buildings as Officer.

7. The Theatre and Cinema are to be retained for use by R.A.F. personnel, but Italian Air Force personnel may visit it.

8. The present equipment store together with one further building (which is to be used to hold all D.D.L. food stocks) are no longer required. All other buildings on the Airfield are to be handed over, complete, to the Italian Air Force.

Equipment.

9. All surplus equipment at R.A.F. Station, Elmas is to be released in accordance with separate instructions to be issued by the S.P.S.C. Air Headquarters, Malta in the Ministry of Supply.

Food.

10. The present stocks of meat are to be kept at the Civil Col. Stores building in Cagliari. All other meat supplies are to be stored in the building indicated in para. above.

11. All cooking is to be done by, or under the supervision of, the C.R. cooks who are established. The cooking for sergeants and officers will be done in the General Kitchen in the present Sergeants' mess (which is in Cook House).

Welfare.

12. All welfare facilities are to be provided by a civilian contractor under arrangements made by the S.P.S.C. Air Headquarters, Malta.

ELMAS AIRFIELD

With reference to this Headquarters letter AFSC/22/2/Air dated 3rd December, 1946, the R.A.F. have withdrawn from Elmas all personnel with the exception of a small party to deal with R.A.F. reinforcement aircraft.

2. In withdrawing from the airfield Headquarters R.A.F. Malta have stated that they would only be responsible for the accommodation and messing of R.A.F. crews and the servicing and refuelling of R.A.F. aircraft.

3. They have requested that the Italian Air Force be responsible for Signals, Airfield Control, Maintenance of the Airfield and Camp and the servicing and refuelling of other military and civil aircraft which would only use the airfield in an emergency.

4. The pilots and passengers of these aircraft would be aware that no messing or accommodation facilities exist at Elmas but you should assist them to obtain transport to and accommodation in Cagliari, if required.

5. The Meteorological and Signals services at Elmas are now manned by Italian Air Force personnel and you are undertaking the Airfield Control and the maintenance of the Airfield and Camp.

6. It is requested that you will outline your plans for servicing and refuelling military, other than R.A.F. and civil aircraft which may be forced to use Elmas, so that these details can be published and pilots warned.

VISIT TO POINT.

STAFF VISIT TO ZELMAS BY FL/LT TURNER & P/O BULL ON
JANUARY 23RD, 1947.

REPORTSECTION

On Thursday 23rd January 1947 I accompanied 2/Lt Turner in a staff visit to Zelmas, to discuss the following points: Airfield Control, Air Sea Rescue, Facilities available for Civil Aircraft and Radio facilities handed over to the Italians. The following information were obtained:-

Airfield Control. No R.A.F. personnel now remain on the station and the control of a/c is now in the hands of the Italians. The control tower is well fitted with R/T. The R/T having handed over the following facilities, 640 Kcs. and 117.9 and 116.1 Mc. for local control. In addition the HF/DF and Approach Control on 4757/3105, a Radio Beacon on 455 Kcs Eurota Beacon and MF/DP on 333 Kcs. have been handed over.

Air Sea Rescue. The Sea and Rescue Centre is on the airfield and the set up is good; the C.A.V. (Signals Centre) is still at Cagliari but it is hoped to transfer it to the airfield. As soon as possible 1000 available a/c movement signals are sent by phone to the CAV. For transmission, this move will be a good thing, saving many delays in the passing of aircraft Movement Signals and airfield information.

Facilities for Civil Aircraft. Very few facilities for Civil Aircraft exist for apart from the Radio facilities at present on the airfield no refuelling, servicing or accommodation can be offered. This does not all together agree with HQ Malta Administration Instruction No. 71 dated 7th November which states that the Italians are responsible for servicing and refuelling Military and Civil aircraft including B.O.A.C.

(A) Least ^{more} research
a copy of their administration
instructions and would much
appreciate your doing so.

R.A.F. personnel is back down
in and flight smoothly

23A

REPORT

ACTION

- 2 -

Radio Facilities. In addition to the Radio facilities handed over as listed under Airfield Control, It is proposed to hand over the existing R/T Link with Malta on 6530/T and 5-65/R. All telephones and teletypewriter equipment has been returned to Malta and the remaining RAF Telephone lines now in use are connected direct to the Italian switchboard. The main power supply is drawn from Carliani and a standby generator is available on the airfield. A single or double-phase supply is possible at either 160 or 260 Volts. All transmitters are manned by the Italians.

Personnel. The RAF staff remaining include 1 WO and 4 drivers of the Signals branch who at present are manning the VHF/D/F until such time as English speaking Italians arrive; they are also servicing the Sureca Beacon which is used extensively by overflying aircraft until such time as all reinforce aircraft have passed through Elmas and the RAF detachment leave. In addition they are keeping open the RT link with Malta, passing and receiving airfield information, aircraft movement signals and servicing any reinforce aircraft as necessary.

General. As stated above the only reason the Dureka Beacon has been left is because it is in constant use by heavy aircraft overflying Elmas. Although the Ministry of Civil Aviation has been signaled to the effect that no facilities exist at Elmas, civil aircraft continue to land and expect service. The RAF Detachment has up to now endeavoured to help them in every way, but now finds that it cannot continue to do so. The general feeling on the station is that the Italians will not attempt to assume their responsibilities as long as the RAF detachment remains to do it for them.

E. BOULT F/C
Air III (A.S.O.)

27th January 1947.

22A

STAFF VISIT TO ELMAS 23/24 JANUARY 1947.

The question of maintenance and refuelling facilities available for aircraft was taken up with W/C Glover O.C., R.A.F. Detachment and also Col. Marramaldo, I.A.F. The R.A.F. are working to A.H.Q. Malta signals a copy of which is attached, which states. Only in case of accidental or emergency is assistance to be given to civil aircraft, as Italian authorities have now assumed responsibility for Elmas.

A copy of a further A.H.Q. Signal is attached which requested the Ministry of Civil Aviation to warn all civil companies that the R.A.F. could not provide facilities at Elmas. In spite of this civil aircraft continue to land there, and when told there are no facilities, some of the pilots insist on being supplied with petrol etc. The pilot who was flying the Doctor A/C referred to in A.H.Q. Italy signal adopted this attitude but the R.A.F. were firm in this case and he received no help.

There have been cases of civil aircraft pilots who have been warned at Elmas that there would be no further facilities for them from the R.A.F. but in two cases the pilots have called in again.

The I.A.F. was questioned about providing facilities for civil aircraft but the O.C. said he was still awaiting instructions from Rome. The only instruction he had was that British and American civil A/C firms should pay for their petrol and oil in sterling or dollars. This would appear to rule the British out owing to currency regulations.

The Italians have only a limited amount of 100 octane fuel available on the Island and no bowlers. The Light aircraft landing there and wanting a lower grade of petrol cannot be refuelled. There is no accommodation available at the Aerodrome and none reserved in Cagliari and no transport available apart from private taxis.

There was talk of a Shell representative going to Elmas to arrange the petrol facilities and possibly take over some of the R.A.F. bowlers, but there is nothing definite about that yet, and the representative is still awaited on the Island.

The general feeling from the R.A.F. point of view is that while they are still on the Island the Italian will sit back and do nothing so that it would appear to be up the I.A.M. to issue precise instructions to the local commander as to what facilities they propose to provide.

W. J. ... etc.

208^b

1. COPIES OF A.H.Q. MALTA SIGNALS TO ELMAS

AM 08 23rd December 1946 MED/MIL HQ. has noticed that civil aviation is making increasing use of Elmas and that practically all services for civil A/C are provided by R.A.F. Reduced Elmas establishment does not, repeat not allow for any assistance to civil aircraft as has been given in the past. Following instructions are to be followed, R.A.F. aircraft only are to be dealt with and priority given to R.A.F. special refors. Only in case of accident or emergency is assistance to be given to civil aircraft; as Italian authorities have now assumed responsibility for Elmas.

2. AM 31 20th January 1947. Ministry of Civil Aviation were requested on December 12th 1946 to inform all civil companies charter in the vicinity firms and private flyers that R.A.F. cannot repeat cannot provide facilities for civil aircraft at Elmas. It is requested you advise the H.Q. immediately of any further civil pilot landing at Elmas, who have been briefed to land there, name of person, briefing, last call etc.

for Wing Commander,
Staff Officer i/c Administration,
AIR HEADQUARTERS. R.A.F. ITALY. C.M.F.

4/18
This freight has
gone to Elmas
Informed 7/11/47
on Thursday 22/1/47/
then answered
back exactly 2 months.

Org 1 has just 20/1/47
I don't know how this
correspondence started. Letters
have been passing between AFSC
HQ and MED/ME for several months.
Please let me know if the R.A.F. equipment
is still waiting for a lift (Aug 13).

C O P Y.

HB

From :- Headquarters, R.A.F., MED/ME, M.E.F.
To :- A.H.Q. Italy.
Date :- 18th December, 1946.
Ref. :- MEDME/S.77910/E.3.

Air Lift R.A.F. Freight to Elmas.

Reference is made to your letter AHQI/11079/1/EQ and attached copy of A.F.S.C. Rome letter AFSC/22/2/Air dated 18th Nov. 1946 on the question of refuelling aircraft of the I.A.F. engaged in transporting supplies to Elmas on R.A.F. behalf.

Please state the magnitude of the fuel commitment i.e. estimated gallonage of fuel per month. Presumably this commitment will not be large but it is not desired to give an arbitrary decision on the location of the refuelling point until you advise the most convenient pick-up place for the R.A.F. stores concerned.

The probability appears to be that no embarrassment will be caused from stock-holding or replenishment points of view, either at Ciampino or Elmas, but the method of recovery by the I.A.F. and the certification of the amounts consumed on our behalf needs some clarification. No doubt the I.A.F. aircraft concerned will not be employed solely on R.A.F. behalf and it might well be that the best solution would be for the I.A.F. to accept the fuel commitment as their responsibility in the first instance and for recovery to be effected on the basis of the actual amounts of fuel and oil consumed for each flight.

You should negotiate with A.F.S.C. on the aforementioned lines and advise what specific arrangements for I.A.F. recovery are made.

STAFF VISIT TO ITALY - ARRANGEMENTS

You are instructed to visit Rome, Scandina, on Tuesday 7th January to report on the handing over of accommodation and R.A.M. equipment to the Italian Air Force, the acceptance of responsibility of airfield control and any arrangements made for the reception of civil aircraft.

2. S/Ldr. Walter will be in charge of the party and will report on the handing over of the equipment and accommodation.

3. Major Russell to report on civil aviation arrangements.

4. S/Ldr. Ray to report on the hand over of Signals Equipment.

5. S/L Drift to report on the Safety Control, Airfield Control and Air Sea Rescue.

6. S/Ldr. Walter will inform the Italian Air Ministry of the staff visit and will arrange for a special aircraft to leave early on the morning of the 7th January so that the work will be completed in one day.

(2/9, 2/9) 7. The Italian Air Ministry have been invited to send representatives who will communicate direct with S/Ldr. Walter (i.e. telephone, extension 472).

(2/9, 2/9) 8. Instruction of Directors
Major Russell & T/C Bratt

will visit Elba on 6/1.

MEMORANDUM

Reference is made to your letter 205158/od7/3835 Coll.,
dated 19th November, 1946.

As the R.A.F. intends to turn over Elmas Airfield to the
Italian Air Force in the near future, the following information is
forwarded to enable the I.A.F. to formulate a plan of action.

At the present time no other commitment is considered for
the R.A.F. personnel under the British Command at Elmas, and there-
fore their return to R.A.F. control is reasonably assured.

The Italian Air Force will be responsible for Signals, 2072
Airfield Control, Maintenance of the Aerodrome and Camp, and all
servicing and refuelling of military and civil aircraft (Including
S.C.H.C.) other than R.A.F. The feeding and accommodation of civil
and military crews, other than R.A.F., cannot be undertaken by the
station and these crews will have to make their own arrangements with
civil sources in Cagliari.

The R.A.F. personnel remaining will retain one of the Camp
Married Quarter Villas for permanent officers and the remainder of
the R.A.F. personnel will be moved into the York House for accommodation.
R.A.F. Station Headquarters will also be located in the York House.
The theater and Cinema will be retained by the R.A.F. but the I.A.F.
personnel are invited to visit them. The present equipment store
together with one further building will be retained. All other
buildings will be handed over complete, to the Italian Air Force.

Any further information received will be forwarded imme-
diately.

COMMUNICATION.

Following letter 2015/61.7 dated 22nd October 1943 from
this General Staff.

The British Commander of Misra Airport has informed Barletta
Ministry 1 You and that he has received orders, regarding the pas-
sing over of this airfield to the F.A.I.

According to this communication the P.A.T. personnel 207
reduced very soon to a strength of thirty men whose duty will be
to safe guard P.A.T. equipment still at the airfield and to attend
to a certain number of aircraft which are due to transit via Elmas;
later on even this nucleus could be transferred and all the air-
port and pertaining services will be definitively taken over by
Italian Personnel.

It is the intention of this General Staff to maintain on the
airfield the Italian Personnel now at the disposition of the Bri-
tish Command, provided the A.F.S.O. does not intend to make another
use of this personnel once the change over has been effectuated.

We shall appreciate early instructions from the A.F.S.O. as
to the manner in which this General Staff will have to act as re-
gards Misra Airport.

AL COMANDO AERONAUTICA DELLA SARDEGNA

= S E D E == CAGLIARI =Seguito foglio n. 204637/Od.7 datato 23 ottobre 1946
di questo Stato Maggiore.-

- Il Comandante inglese dell'Aeroporto di ELMAS ha comunicato al Comando Aeronautica della Sardegna di aver ricevuto ordini in merito alla cessione di tale Aeroporto all'Aeronautica Militare re.-

- Secondo tale comunicazione il personale della R.A.F. entro pochi giorni verrebbe ridotto a trenta uomini con l'incarico di custodire i materiali della R.A.F. ancora ivi dislocati e di dare assistenza ad un certo numero di velivoli che prossimamente dovranno transitare per Elmas; successivamente anche tale nucleo di personale verrebbe trasferito e tutto l'Aeroporto ed i relativi servizi verrebbero definitivamente assunti dal personale italiano.-

- Qualora si dovesse attuare quanto sopra, sarebbe intendimento di questo S.M. di mantenere sul posto il personale italiano attualmente ivi dislocato ed a disposizione del Comando inglese, sempre che codesta Sottocommissione non preveda per tale personale un diverso impiego.-

- In relazione a quanto sopra si prega codesta A.F.S.C. volet comunicare allo scrivente come si dovrà comportare nei riguardi dell'Aeroporto in questione.-

ATTENTION TO RAILROADS, EXCISED TO MASS.

Reference is made to the telephone conversation this morning between S/Ldr. Lter, this Headquarters, and Organization R., concerning the provision of R.A.F. transport aircraft for the carriage of stores from Italy to R.A.F. flying bases.

The I.M.M. has sufficient transport aircraft and crews to support this deployment.

There is however, a considerable shortage of petrol within
the F.A.A. The Sup-Commission cannot authorize the employment
of transport aircraft on extra commitments, which may reduce the
availability of petrol to the fighter squadrons, unless fuel is
provided by the Allies. It is suggested therefore that the transport
on the allied side, which will be based at Andenes, cover route 21007
filled up with petrol at Gjøvik before taking a flight or else whilst
on stage, which ever is most convenient to you.

You are requested to forward to this sub-committee as soon as possible your views on this matter and to suggest the appropriate authority for issue of petrol by Cireapino in order that appropriate instructions may be given to the Italian Ministry.

ELMAS AIRFIELD

Reference is made to your letter 204637/ord7/3583 Gall, dated 23rd October, 1946.

2. The Commanding Officer R.A.F. Elmas has confirmed that in the near future he will be able to hand over to the Italian Air Force the complete hanger beside the H.Q. building with all adjoining buildings.

3. In fact, it is understood that the number of R.A.F. personnel on the airfield will soon be substantially reduced and the I.A.F. will be able to use many more of the buildings.

4. It is suggested that your Ministry might begin making plans for the complete reoccupation of the airfield by the Italian Air Force on the basis that the R.A.F. might at any time decide to withdraw all but a very small nucleus of their present staff.

ADMINISTRATIVE INSTRUCTION NO. .

R.A.F. STATION, ELMAS - REDUCTION OF COMMITMENT

AND STRENGTH.

Information.

In view of the steadily declining flow of aircraft through R.A.F. Station, Elmas, it has been decided to hand over various responsibilities to the Italian Air Force and thereby effect a considerable saving in manpower.

Intention.

2. To define the responsibilities of the Royal Air Force and Italian Air Force at Elmas.

Execution.

'2063

3. The R.A.F. at Elmas are to be responsible for the refuelling and servicing of all Refers aircraft passing through. They are to accomodate and feed the crews of these aircraft in the event of them being delayed overnight. They will (only within their limited capabilities) feed and accomodate diverted R.A.F. crews and service their aircraft.

4. The Italian Air Forces is to be responsible for Signals, Airfield Control, Maintenance of the Aerodrome and Camp, and all servicing and refuelling of other military and civil aircraft (including B.O.A.C.) The feeding and accomodation of civil and military crews, other than R.A.F. Refers or Transport Command, can not be undertaken by the station. These crews will have to make their own arrangements for transportation to Cagliari, the nearest city, (5 miles distant) where reasonable facilities are available from civil sources.

Personnel.

5. All personnel thrown up as a result of this reduction are to be disposed of in accordance with separate instructions to be issued by the S.P.S.O. Air Headquarters, Malta.

Work Services.

In view of the steadily declining flow of aircraft through R.A.F. Station, Elmas, it has been decided to hand over various responsibilities to the Italian Air Force and thereby effect a considerable saving in man-power.

5. All personnel thrown up as a result of this reduction are to be disposed of in accordance with separate instructions to be issued by the S.P.S.O. Air Headquarters, Malta.
- Work Services.
6. One of the Camp married Quarter Villas is to be retained as a permanent Officers' accommodation. The remainder of the R.A.F. personnel are to be moved into York House for accomodation. The station Headquarters is to be transferred into York House utilising two of the bedrooms as Offices.
7. The Theatre and Cinema are to be retained for use by R.A.F. personnel, but Italian Air Force personnel may visit it.
8. The present equipment store together with one further building (which is to be used to hold all D.I.Q. food stocks) are to be retained. All other buildings on the Airfield are to be handed over, complete, to the Italian Air Force.

Equipment.

9. All surplus equipment at R.A.F. Station, Elmas is to be disposed of in accordance with separate arrangements to be made by the S.E.S.O. Air Headquarters Malta and the Ministry of Supply.

Lationing.

10. The present stocks of meat are to be kept in the civil Cold Storage building in Cagliari. all other D.I.D. stocks are to be stored in the building indicated in para 8. above.

11. All cooking is to be done by, or under the supervision of, the B.O.R. cooks who are established. The cooking for sergeants and officers will be done in the communal kitchen in the present Sergeants' Mess (which is in York House)

Medical.

2062

12. All medical facilities are to be provided by a civilian practitioner under arrangements made by the P.M.O. Air Headquarters , Malta.

Welfare.

13. The Senior Welfare Officer is to arrange for a supply of 16mm or 36mm films to be delivered to Elmas at least once per week

Communication.

14. The Senior Air Staff Officer is to arrange for an aircraft to visit Elmas at least once per week for the purpose of carrying mail and welfare goods.

PERSONNEL EMPLOYED ON THE R.A.F. AIRPORT AT ELMAS
(CAGLIARI)

We would like to inform your Sub-Commission of the state of dissatisfaction existing amongst the civilian personnel working on the R.A.F. Airport at Elmas. Most of the personnel are ex P.O.W.s and displaced persons. The complaint arises in the difference of treatment compared to other civilian employees working in the same capacities.

On the 17th July, 1946 their complaints were referred in a letter written by their representative and addressed to Col. CLOVER, Officer Commanding R.A.F. at Elmas.

They request that their working conditions are brought up to the same level, in the way of pay and holiday compensations as prescribed by Italian Legislation at present in force, or, at least according to U.M.P.R.I. working conditions.

Will you kindly favourably examine the position of the above-mentioned personnel.

CHIEF OF CABINET.

(Tramite l'Ufficio di Colle-

gamento)

*233200**Ufficio**OGGETTO Dipendenti aeroporto R.A.F. Elmas (Cagliari)*

Si segnala a codesta Commissione lo stato di disagio esistente tra i civili dipendenti dell'aeroporto R.A.F. di Elmas, i quali, nella maggior parte reduci e sinistrati di guerra, lamentano una disparità di trattamento nei confronti di altri lavoratori civili impiegati con mansioni analoghe.

I loro desiderata furono, in data 17 luglio scorso, presentati, con promemoria, al Colonnello GLOVER, Comandante della R.A.T. di Elmas.

Essi chiedono che i loro rapporti di lavoro siano allineati, ai fini delle paghe, dei compensi festivi e delle condizioni lavorative, con quelli prescritti dalla vigente legislazione italiana o, quanto meno, con quelli adottati dall'U.N.R.R.A.

Si prega codesta Commissione di consigliarsi esaminare benevolmente la possibilità di accogliere le richieste di detti civili.
