I.A.F. FIGHTER TRAINING.

With the supply of camera fitted fighter aircraft to the Italian Air Force Fighter training is now being carried out and in order to assist in same it has been recommended that they be issued with assessors for checking their aerial photography.

2. It is understood that at the Gunnery Research Unit in U.K. a type of assessor was in general use known as a G.R.U. Assessor and it would be appreciated therefore if authority could be obtained for the issue of quantity three of these or any other type assessor used in aerial photographic work.

R. CARTNER,
Flight Lieutenant,

APPLICATION FOR AERIAL PHOTOGRAPHY

A request has been made by a Company known as the C.M. Society, Via Pompeo Leoni 18, Milan, for permission to carry out a series of aerial photographs of their premises for advertising purposes.

2. The Company have requested that these photographs be taken by the I.A.F. and be made at an altitude of 600 to 900 feet. The buildings are located on the southern perimeter of Milan, as shown in the attached plan.
3. This Sub Commission has no objections to these photographs to be taken by the I.A.F. and it is suggested that this request be met by means of training exercises.

BARI.

Dear Jarman.

The bearer Ten.Col. Sforza of the Spitfire Stormo has asked me for authority to visit the Allied Spitfire people at Treviso, to check up on camera and wireless installations and get some information of a general nature. As I believe the A.O.C. has to authorise such a trip, I have sent him along, profiting also by sending the mail.

He is a good keen type so I hope you can get his trip organised.

G/Capt. L.E. Jarman, D.F.C.
