Enclosure 28A is, I think, your letter.

2. In view of May's views on the
 D.C. letter to Harry Brodie it is not yet
 possible for any Italian to move into
 the Palace at Caserta. On the other
 hand arrangements have been made in
 the past for certain empty rooms,
 of which there are many, to be
 handed over to the IAF as
 store rooms for their archives. It is
 difficult from the translation at such short notice
 to know exactly what the IAF are
 suggesting for purely humanitarian reasons.
 I will let you know in a few days
 of the result in talks with the Palace
 of the various suggestions. I think they should be given the
 best possible consideration.

Premises occupied by Italian Air Force Personnel
 at Padua

1. Receipt is acknowledged of your letter Ref. 355/2/Org. of 17/12/1945.
2. During my last visit to Padua I inspected the premises occupied by the Ufficio "I" in the Via Dante and discussed the whole matter with Col. Grotti, Chief of Staff I.A.F. Detachment, Padova. It seems to me that there is a good deal more in this than meets the eye.
3. The premises on the same floor are occupied by representatives of the Italian Communist Party and the owner of the flat is anxious to get these people out for obvious reasons and has brought pressure to bear upon all the people occupying these premises. He maintains that if the Ufficio I people move out of their rooms the Communist Party will also have to go. However, Col. Grotti informed me that the Communist Party flatly refuses to move and if forcibly ejected will stage a demonstration.
4. From my own inspection of the premises I am convinced that no English family could live in them. There is for instance no kitchen. On the other hand these four rooms are ideally suited for the activities of the Ufficio I as they are discreetly situated for purposes of interviewing and interrogating informants. The I.A.F. proper are already overcrowded and obviously unsuitable for activities of this nature. It is hoped that the above together with my letter to you of the 9th November will lead you to interest higher Authorities in this affair.

AIR FORCE SUB-COMMISSION - CASA

A letter has been received from the Italian Air Ministry requesting the return of several rooms in the Aeronautical Academy at Caserta for use as storerooms for equipment that is being returned to the Italian Air Force by the Allied Authorities.

This request is necessitated by the desire of the American Orphans Institute to build its own dispensary in the buildings now occupied by the Aeronautical Academy at Caserta. These premises are being used as depots for ~~the~~ equipment and stores.

Considering the humanitarian and spiritual scope of this Institute an early reply on the matter would be greatly appreciated.

AERONAUTICAL ACADEMY - CASERTA

1) The Antoniano Orphans Institute in order to build its own dispensary, has requested the aeronautical Garrison at Caserta, to vacate several buildings at present used as depots.

2) Considering the spiritual and humanitarian scope of this organisation, we would be grateful if you could kindly arrange for the above mentioned garrison to dispose of several buildings of the Ex-Headquarters of Aeronautical Academy at Caserta, where it would be also possible to store items of furniture which are gradually being handed back to the Aeronautical Academy by the Allied Authorities.

Via Trento, 92

To The Admiral Stone
Chief of the Allied Commission for Italy
R o m e

Sir,

I take the liberty to expose to you as follows:

I am the proprietor of a building at Cagliari - Viale Trieste 103 - requisitioned by the Italian Force since the beginning of the Allied occupation of Sardinia and assigned to be used by a section of the R.A.F. as a ware-house for general victuals for the personnel on duty at the Elmas Airport. This building is composed of ten large warerooms and a broad court-yard, and it is located in the street where the most traffic of the town takes place. My Firm (one of the oldest and most important in Sardinia for the timber import) which was obliged to give up its work owing to the war, should have taken up again its work in said building.

In September 1944 I asked the Allied Commission for Sardinia at Cagliari to grant me the restitution of the warerooms: my application was not accepted because they were utilized by some Military allied sections but I was kindly promised that as soon as possible the order for the derequisition should have been given;

Over two years have now past and however I have repeated my application to the Italian Air Force no provision has been taken.

Therefore my Firm is always in the disability of taking up again its timber trade - the necessity of which is more and more felt for the reconstruction works, for the mine industry and for giving work to the handworkers - because of not having available other premises and also for it is not easy to find other ones at Cagliari where many buildings have been demolished.

I am therefore invoking the high interference of the Admiral to the Command of the R.A.F. Section in order he is so kind as to examine the possibility to get free if not all, at least a part of said warerooms, which are independent one from the other and have each

./.

-2-

an own inlet. This solution would cause no trouble or confusion to the part of the premises who would eventually remain on the account of the R.A.F.

I also take leave to point out that of the many buildings which were requisitioned by the Allies during the occupation of the city of Cagliari only these of my property have not yet got free, which creates a condition of inferiority for my Firm in comparison with the others which have regularly resumed their business whilst I have had sensible damages and losses!

The high sense of justice and the benevolence of the Admiral give me the hope that my petition will be taken into consideration and from its acception, besides the advantage resulting for the resumption of the timber traffic, will depend the taking up at the service of my Firm of the employees and workers who are awaiting to return to their place of work for being able to sustain their families who are in really pitiful conditions !

Accept, Admiral, please, my thanks and best regards.

/s/ Paolo Leone.

2. At present six rooms on the first floor of Via Dante N° 38 are being occupied by the Ufficio "I" (Intelligence Section) of the Italian Air Force for use as offices and sleeping accommodation.

3. Orders have been received by the I.A.F. that they are to evacuate this accommodation by the 26th instant.

4. In this connection it is brought to your notice that the premises are used as a liaison office by this Sub-Commission, which has to send officers to Padua every week in order to exercise the necessary control and administration over all I.A.F. units located in the North-east of Italy.

5. These services include such commitments as the Air Courier Service (transporting Allied Personnel from Rome-Bologna Treviso and return), an Air-Sea Rescue Detachment at Venice Seaplane Base, and many scattered airfields, M.T. repair shops, Salvage Centres, etc.

6. In addition to serving as a liaison officer for these functions, the premises in Via Dante are also the Headquarters of the I.A.F. Intelligence Service in the area and quite apart

6. In addition to serving as a liaison officer for these functions, the premises in Via Dante are also the Headquarters of the I.A.F. Intelligence Service in the area and quite apart from the serious difficulties which would be caused to the I.A.F. by the necessity to move (files, dossiers etc relating to over 14,000 persons would have to be transferred), the Field Security Service would also be incommoded by the resultant confusion.

7. It is emphasised that the IAF are at present subsisting with a minimum of accommodation in Padua and it is not possible to reduce this further without impairing the efficiency of the organisation.

8. For these reasons it is urgently requested that consideration be given to the possibility of allowing the I.A.F. to remain in occupation of these premises or, if that course should be for any reason impossible, to allocate them alternative accommodation of a similar nature elsewhere in Padua.

2. The difficulties of finding accommodation in Padua are fully appreciated by this office and every effort has been made by the General Commanding IAF to reduce the premises at his disposal to the minimum possible.

3. Whilst eight properties in the town are held by the I.A.F. most of these consist merely of a single room and the inspection would reveal to you that the organisation is working in very confined space. Not only do several senior officers share a small single room but office space is in many cases converted for sleeping accommodation at night.

4. The airfield buildings are at present in badly damaged condition and uninhabitable. When repairs have been completed, however, some four hundred airmen (who have to evacuate the borrowed Army Barracks in which they are at present quartered) will move in and it is far from certain whether there will be sufficient space for them.

5. In view of the above and of the reasons set out in our letter of 20th May 1946, it would be very much appreciated if you could see your way to allowing the Via Dante Apartments to remain at IAF and RAF disposal as the hardship and difficulties involved by evacuation would seem to be quite disproportionate to the benefit gained by the married family

DEREQUISITION OF THE "F. BARACCA" INSTITUTE IN LORETO.

It has come to the notice of this Ministry that the above mentioned institute, which was being used as a Polish Hospital, on it's departure, is now still to be used by the Allies for the housing of Polish military families.

We had been assured, through the enclosed correspondence, that the Institute would be returned to it's functions as an Orphans' home for the children of deceased aviators, as soon as the Polish Hospital required it no longer.

It is requested that you may direct the competent Authorities to derequisition these premises and return them to the I.A.F.'s administration, as they are at present empty.

At your own convenience, we would appreciate your views on the matters.

"P. Baracca" - LORSEO.

This Command received your letter ref. 90, dated 12 September 1945, and your request for the derequisition of the premises, at present occupied by the 71 British Military Hospital. This has been carefully examined.

The past activities of your institution as well as your present care of the aviator's young orphans is highly appreciated by this Command.

It is our intention to return as soon as possible all Hospitals and Orphanages, necessary to the public well being. At present, however, it is necessary for us to retain sufficient buildings to deal with the sanitary requirements of the British and Allied troops in this area. The approach of the winter makes this question even more important, as an increase in the number of patients is to be expected in this season.

The recent derequisitions of buildings has reduced to a minimum the hospitals at the service of the British and Allied troops in the Ancona Zone; we, therefore, regret to say that unless a large number of troops is moved out of this zone, it will be quite impossible for us to release any more of the premises at present being used as hospitals.

We fully appreciate the difficulties that you are fighting and will therefore bear this matter in mind with a view to releasing your premises as soon as possible.

You can rest assured that your premises will be returned to you as soon as the hospital requirements for this zone permit of doing so.

OGGETTO: Derequisizione Sede dell'Istituto "F. Baracca" di Loreto.

Risulta a questo Ministero che l'Istituto in oggetto, già sede di un Ospedale Polacco, in conseguenza della partenza di tale Ente Ospedaliero, continuerebbe ad essere occupato dagli Alleati per alloggio di famiglie di militari Polacchi.

Poichè già da tempo, con le lettere che si allegano in copia, questo Ministero aveva assicurazione che l'Istituto Baracca di Loreto sarebbe stato, senz'altro restituito alla sua benefica funzione di Collegio per gli Orfani degli aviatori caduti non appena l'Ospedale Polacco fosse stato ritirato, si prega voler impartire agli organi competenti le necessarie disposizioni affinché i locali del nominato Istituto, attualmente liberi vengano definitivamente derequisiti e riconsegnati all'Amministrazione Aeronautica Italiana.

Sarà gradito ricevere un cortese cenno di riscontro in merito alla questione prospettata.

Caro Dottor Cevolotto,

con riferimento vostro foglio 20771/4042/Coll. del 17 luglio 1945 sono spiacente di informarvi che l'Orfanatrofio della R.A. a Loreto sta per essere consegnato alle Autorità Polacche come Ospedale Centrale. Sono informato da Caserta che non vi è perciò nessuna speranza che esso possa essere rilasciato libero finchè il Corpo Polacco non sarà ritirato, ciò che accadrà ad una data non ancora fissata.

2 In vista dei molti mutamenti che hanno luogo, e che stanno per aver luogo nell'Organizzazione Alleata in Italia, si ritiene che voi potrete prendere contatto utilmente con qualcuno nelle vicinanze dell'Orfanatrofio, per essere informato se e quando vi sarà possibilità che l'Ospedale cambi nuovamente di occupante, e venga lasciato libero.

3 In ogni caso io sarò ben lieto di occuparmi personalmente della riconsegna dell'Orfanatrofio alla R.A. non appena se ne presenti l'occasione, e frattanto Caserta è stata invitata a prendere in considerazione il rilascio dell'edificio in questione alla R.A. non appena sia possibile, ed eventualmente quando l'Ospedale Centrale Polacco verrà ritirato.

Questo Comando ha ricevuto la Vostra lettera datata 12 settembre 1945 n° 90, e la Vostra domanda per la derequisizione dei locali presentemente occupati dall'Ospedale Militare Inglese n° 71, è stata accuratamente esaminata.

Abbiamo altamente apprezzato l'opera compiuta dalla Vostra Istituzione per il passato, non che la Vostra attuale pietosa premura per i piccoli orfani degli aviatori.

E' intenzione di questo Comando restituire non appena possibile tutti i locali di Ospedali e di Crfenatrofi necessari per il bene pubblico.

Ma al tempo stesso è necessario che noi manteniamo sufficienti locali ospedalieri per fronteggiare le esigenze sanitarie delle truppe Inglesi e Alleate di stanza in questa area, questione che diviene ancora più importante con l'avvicinarsi dell'inverno, dato l'aumento del numero dei malati che è da aspettarsi in tale stagione.

Le recenti derequisizioni di edifici hanno ridotto al minimo i locali ospedalieri a disposizione delle truppe Inglesi e Alleate nella Zona di Ancona e ci rammarichiamo perciò che, a meno che un gran numero di truppe non sgomberi la zona, non sia possibile effettuare ulteriori derequisizioni di locali ospedalieri.

Questo Comando comprende appieno le difficoltà con le quali siete costretti a lottare e perciò la possibilità di rilasciare i Vostri locali sarà tenuta costantemente in esame. Potete star certi che l'Istituto Baracca Vi sarà restituito al più presto, non appena le esigenze ospedaliere militari saranno ridotte.

Reference is made to your letter 27996/3619 Coll., dated 28th October, 1946.

The following information has been received by this Sub-Commission: -

"The property referred to is not an airfield but a hatted area used as barracks, and the stores installed by the R.A.F. were handed over to the Ministry of Supply (ARAR) on 25 Oct. 1946. It was agreed that as ARAR would take over only the stores and would not be responsible for the remainder of the property (British Fixed Assets and I.A.F. property), that the I.A.F. would provide a guard, and a certificate was signed by the officer i/c I.A.F. unit that they would guard and be responsible for all British Fixed Assets until arrangements could be made for their disposal.

ARAR agreed to remove all their stores to what was No. 3 Sub-Depot, 114 M.U., CANCELLO. This should be completed by the end of this month, leaving the I.A.F. in occupation.

O.C. 54 M.T.C. was present at the hand-over and was aware of those arrangements.

I.A.F. BARRACKS IN THE CANCELLO AREA - NAPLES

It is understood that the 54 M.T.C. RAF who now occupy the a/n airfield will hand over this airfield to A.R.A.R. in the coming month. Since most of the existing installations on the airfield are the property of the Italian Air Force with the exception of few huts and small amount of movable equipment, an agreement was made with A.R.A.R. by an Italian Air Force Representative to move this equipment to a nearby ARAR field. The 54 M.T.C. is not aware of this agreement.

The airfield being in an unfavourable location, the Italian Air Force would like to remove all its installations and sell the buildings to the land owner, Baron BARACCO.

The Italian Air Force Barracks are: -

- No. 14 Wooden Barracks "Vaudagna" type with tar covered roof.
- " 2 German Wooden Barracks with tar covered roof.
- " 8 Hygiene and Sanitary Buildings (built with tiles).
- " 1 Separate building of the same construction as the above.
- " 1 Pool complete with water system.
- " 1 Underground aircraft shelter.
- " 1 Power cabin (H.T. Transformer).
- " 8 Electrical, water and sewage installations.

It is requested since 54 M.T.C. was not aware of previous agreement; that present delivery instructions of A.R.A.R. taking over from 54 M.T.C. and remaining on the field, be cancelled and the previous agreement be effected.

A prompt reply would be appreciated.

From verbal information received it appears that the Cancellio Airfield, at present occupied by 54 M.T.C., R.A.F., will be handed over to A.R.A.R. during the course of next month.

2. Almost all of the existing installations on the Airfield are the property of the Italian Air Force with the exception of a few huts which belong to the R.A.F. and a small amount of moveable equipment which could be easily removed to the nearest A.R.A.R. field, previously agreed with a representative of the I.A.F.

Considering that 54 M.T.C. are not aware of past arrangements and has already handed over to the Ministry of Supplies all the airfield for delivery to the A.R.A.R., we shall be pleased if you will kindly arrange with the Town Major at Caserta to cancel the delivery instructions issued.

3. The airfield being ^{in an} unfavourable location, the I.A.F. would like to remove all its installations and sell the buildings to the land owner, EASON BARACCO.

4. The I.A.F. barracks are:-

- No. 14 Wooden barracks "Vaudagna" type with tar covered roof.
- No. 2 German wooden barracks with tar covered roof.
- No. 8 Hygiene and Sanitary buildings (built with tiles).
- No. 1 Separate building of the same construction as the above.
- No. 1 Pool complete with water system.
- No. 1 Underground aircraft shelter.
- No. 1 Lower cabin (H.T. Transformer)
- No. 8 Electrical

No. 28011 1946 19 A

Da informazioni verbali, risulta che il Campo di Cancellò, attualmente occupato dal 54° M.T.C. - R.A.F. - verrebbe lasciato entro il corrente mese per la consegna all'A.R.A.R..

2. Poichè gli impianti esistenti nel predetto campo sono per la quasi totalità di proprietà dell'Amministrazione Aeronautica (tranne poche baracche di proprietà della R.A.F. e poco materiale mobile che potranno essere facilmente trasportati nel vicino campo dell'A.R.A. d'accordo ed in contraddittorio con il rappresentante dell'Aeronautica) ed in considerazione del fatto che il Comando del 54° M.T.C., ignorando tali precedenti, ha già dato disponibile al Ministry of Supplies tutto il campo per la cessione all'A.R.A.R., si prega vivamente codesta Commissione di voler ^{conseguente} disporre perchè il Town Major di Caserta proceda alla revoca del predetto ordine di consegna.

3. Questa Amministrazione, non ritenendo il campo idoneo ad ulteriori utilizzazioni (per la sua ubicazione eccentrica), procederebbe allo smontaggio di tutti gli impianti di sua proprietà per installarli altrove ed alla vendita delle opere in muratura al Barone BARACCO, proprietario del terreno sul quale sorgono.

4. Il baraccamento dell'A.M. si compone di:
n° 14 baracche in legno tipo "Vaudagna" con copertura catramata;
n° 2 baracche in legno tedesche con copertura catramata;

I.A.F. barracks in Rome.

It would be greatly appreciated if the A.F.S.C. kindly examine the possibilities of having the "Romagnoli" barracks derequisitioned. This building is next to the Air Ministry and could accomodate 3rd Z.A.T. personnel, at present billeted in the "Cavour", "Lacao" and "Piccagli" barracks. These building being in urgent need of extensive repairs and lacking sanitary installations.
