DEMAND FOR PUBLICATIONS.

It is requested that two copies each of the latest Royal Air Force publications on instrument flying and bad weather flying including "Through the Overcast" be forwarded to this Headquarters as soon as possible.

2. These publications are needed for translation and use with the post war Italian Air Force. It is likely that quite a large number of Royal Air Force flying publications will be required for the I.A.F. in the near future and it is therefore requested that a list of R.A.F. flying publications and forms be forwarded as well.

I showed AIO A 741 to Colonels Remondino and Gussoni when I was at the I.A.M. recently and they are making a translation. As soon as this has been done the air staff and organisation department will consider how much can be of value to the I.A.F.

2. They will notify us of their decisions before taking any further action.

I don't think however, in this case, that any harm has been done & we will leave things as they stand. However, in future watch out for this please. To be filed by 11/10.

I agree that certain excerpts of A 741
would prove valuable to the L.A.M. Suggest
that entire A 741 be extracted and forwarded
to the L.A.M. for their information and guidance
with the suggestion that they may find
it practicable to employ some of the
ideas in their future policies.
