SECTION 27P. AIRCRAFT CREW EMERGENCY RATIONS.
=====

The undermentioned Emergency Rations are available for disposal at No. 114 Maintenance Unit (San Rocco).

2. The rations have been examined by the Medical Officer and found fit for consumption by the Medical Officer.
3. Information is requested as to whether the Rations are required by the Italian Air Force.
4. It is essential that your reply be given as expeditiously as possible as the Unit holding the items is due for disbandment in about three weeks.

AIRCRAFT TYRES.

1. It is understood that there are approximately 100 aircraft tyres of various sizes, including those for S.M. 82 and 84's, stored in a workshop at the CAPRONI works at Gardolo Trento.
2. It is considered that with the exception of those required for CR 42 overhauls, that the tyres would be of more benefit in one of your depots, such as Gallarate.
3. Will you please investigate this and inform this office of the action you take.

SPARES FOR S.M.82 AIRCRAFT

The attached list of available spares has been received by the S.M.82 S.R.A.M. Lecce direct from the Savoia-Marchetti works in Milan. The spares are essential to service 3 S.M.82s at present under overhaul, and will expedite their completion considerably.

2. If authority can be obtained this detachment will arrange collection by S.M.82. It would therefore be appreciated if the necessary authority is given for this flight.

图 6-10 为某工程中的某段程序流程图，图中有 7 个判定框，试问该流程图包含多少个基本事件？

解：由图可知，该流程图包含的基本事件数为：

$$n = 7 + 1 = 8$$

即该流程图包含 8 个基本事件。

P.30 EQUIPMENT.

1. It is apparent that in the near future the supply of P.30 Equipment, which has been easily obtained in the past, is becoming increasingly short in supply.

2. Apart from the type situation, there is no further supply of belly tanks at the Naples or Bari depots. In order to meet the heavy demand of this item by the Italian Air Force a convoy of ten lorries is proceeding to Pisa for collection there of plastic type tanks.

3. The A.E.C. (A.E.C.) have informed this Office that belly tanks of all kinds are presenting difficulties in this theatre. Although a P.30 tank is suitable for aircraft, there are not likely to be any available for the Italian Air Force. The total number of plastic 75 gallon tanks in Italy amount to 150, but experience has shown that at least 30% are unserviceable.

AIRACOBRA AIRCRAFT TYRES.

Arrangements have already been made with 15th. A.A.F.S.C. in Bari, to have Airacobra main wheel and nose wheel tyres repaired.

2. About 50 repairable nose wheel tyres have already been delivered to the Bari Depot, and 25 have been repaired. Work is proceeding with the remainder.

3. Most of the main wheel tyres need re-capping. Two tyres have already been completed for test purposes and have been delivered by Air to Rome. If the test is satisfactory, there are about 90 tyres already delivered to the Depot which will be repaired in this way.

4. Under these circumstances it is quite unnecessary to proceed with any arrangements for the repair of Airacobra tyres with No. 214 Group or No. 2 T.A.U., Algiers.

RECONDITIONING OF TYRES.

1. In confirmation of conversation today we have arranged with our Bari Office to send a load of P39 tyres direct to No 2 Tyre Repair Unit, Torre Annunziata, for reconditioning.
2. The matter is now of highest priority as further supply is doubtful, and it is necessary to maintain 60 outer covers per month in order to keep the two Italian Air Force squadrons operational.
3. Your offer to assist in this matter is greatly appreciated.

LOOSE MINUTE

Group Captain i/c organisation.

1. Reference Min 1.
2. The present position on the supply of P.39 tyres is as follows: -

	Main		Nose	
	Tyres	Tubes	Tyres	Tubes
i) Required to replace on aircraft in Pool at LDCE	44	36	20	15
ii) Stock held	26	26	18	18
iii) Being issued by AAPSC/MFO	34	50	4	12
iv) Estimated present monthly consumption	60	60	40	40
v) Being issued by MAF Rear	3	26	15	-

3. Issues at iii) and v) above are total stocks in Italy and North Africa but MAAF Algiers have been asked to ascertain stocks in Middle East and France and a reply is awaited.

4. Following steps to alleviate position have been taken: -
i) Arrangements have been made with 214 Group that repair of repairable tyres will be given top priority at No 2 T.R.R.U. BARI and NAPLES have been instructed to ensure returns of all such tyres to TRRU quickest possible. WATKINS is watching position closely and is to pay frequent visits to T.R.R.U.
ii) Am investigating possibility of utilising alternative items. WATKINS has learned a MUSTANG tyre might be fitted and has borrowed one from 114 M.U.. This is being despatched to FROSLING tomorrow for test and I have asked W/C PECOCK to ensure W/C GLADSTONE sees result when he arrives. Supply of these tyres is reasonable but may not altogether solve difficulty. W/C GLADSTONE might be able to suggest some other ~~alter~~ alternative.

5. From the above picture it is obvious that unless supply difficulty is solved the formation of a third P.39 squadron would produce an impossible situation.
6. I shall keep you informed of all further developments.
