REQUEST FOR ALLOCATION OF RUBBER SHEETS AS ACCESSORIES FOR
OLEODYNAMIC AIRCRAFT INSTALLATIONS.

This directorate has at present a certain quantity of rubber from Allied sources available at the Magnaghi Firm of Naples; the quantity is about 188 kg. of which 54 kg. appear to be already allocated for the settling of orders being received.

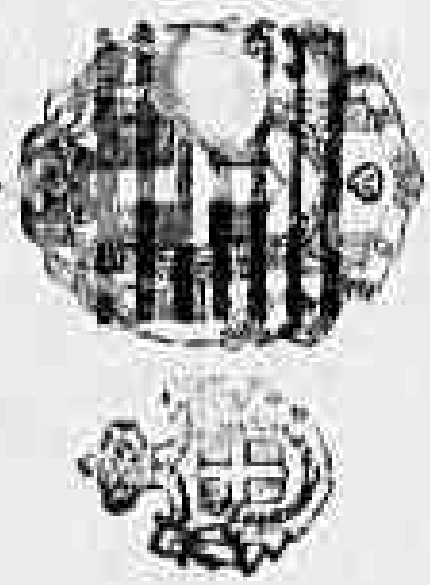

As we foresee new requests for accessories required to maintain the serviceability of the courier aircraft and, in view of the actual difficulties, that the national market presents for the supply of rubber, it would be appreciated if your Sub-Commission would examine the possibility of allocating to this Ministry a quantity of at least 150 kg. of synthetic rubber sheets, preferably in sheets of 5 m/m.

REQUEST FOR RELEASE OF FLOUR SACKS FROM ALLIED SOURCES.

5,000 (five thousand) canvas flour sacks from Allied sources are available at the Ration Store under the control of the I.A.F. Command of Sardinia.

As the above-mentioned sacks would be particularly useful to ensure the preserving and distribution of the flour to the Units under the control of this Command, we would like to know whether it is possible to obtain release of these and, if in the affirmative answer, to know the procedure of the release.

REQUEST OF MATERIAL

Enclosed herewith the request 2/3303 Costr. dated 16th July, 1945 from the Directorate of Constructions for obtaining release of 2 cubic metres of aircraft plywood from the lot of 120 cubic metres available at the I.N.C.I.S.A. - Milan.

We would like to point out that the supply of this material is urgently required, as long since the S.R.A.M. are out of plywood.

Your acknowledgement will be appreciated.

OGGETTO : Richiesta materiale.-

Allegata alla presente si trasmette la richiesta n° 2/3303 Costr. in data 16/7/45 della Direzione Costruzioni, intesa ad ottenere lo sblocco di metri cubi 2 di compensato avio dalla partita di metri cubi 120 giacenti presso la Ditta I.N.C.I.S.A. - Milano -.

Si fa presente che l'approvvigionamento di questo materiale riveste carattere della massima urgenza, in quanto da tempo le S.R.A.M. sono sprovviste di compensato.

Si rimane in attesa di un cortese cenno di riscontro. =

PACKING OF OFFICE MACHINERY.

The greatest care is to be exercised in the packing of Office Machinery, either for repair or when rendered surplus for any reason.

2. The stoutest cases available are to be employed, and attention is to be paid to the provision of adequate packing material, and to the inclusion in the case of all appropriate accessories, particularly when despatching Rotary Duplicators.
3. In the past weak and careless packing has frequently resulted in damage to repairable machines, rendering them beyond repair.
4. Compliance with normal packing precautions will greatly reduce the risk of such damage, and every effort is therefore to be made to ensure that the risk is reduced to the minimum.

SALVAGE OF PLYWOOD AT FLORENCE

With reference to letter A.F.S.C./650/44, dated 27th April, 1945,
it is pointed out that the plywood has been purchased by the Aeronautical
Administration at FLORENCE for urgent requirements of operational units.

The material, in question, has been, therefore, transferred
to the Store of MURCIANO at the disposal of the UNITA' AEREA at BARI.

COLLECTION OF PLYWOOD FROM ITALY.

1. It is understood that a large concentration vehicle recently collected 160 sheets of Plywood from ELCAUSE of which 100 sheets were deposited at MILAN and the balance of 60 sheets ~~was~~ taken to Rome.

2. In view of the many urgent requests from R.A. units, received by this Sub-Commission's AFSC office for plywood from Allied sources my this Sub-Commission please be informed of the necessity for the use of plywood in the AFSC area. You will appreciate that plywood is in extremely short supply in Allied forces and it is essential, therefore, that this material be used for operational purposes only.
