MINUTE 1

To S.EQ.O.

Ref 7A & 6A. This does not seem to me to solve the difficulty of disposal of vehicles other than Italian vehicles. There are vehicles of French & German manufacture. There may also be difficulty in disposing to the I.A.F. vehicles which are nothing more than scraps which are useless to any body & ex civilian type vehicles which eventually may be reclaimed by their original owners. 4117

It would appear that at the present method of vehicle after repair cannot apply with any of these vehicles if the F603 action is to be taken, and it is suggested that the A.O.C. is contacted with a view of altering the procedure with regard to these vehicles from R.A.F. Sources.

Date: 18th June, 1946.

CAPTURED ENEMY VEHICLES.

52A 59A

Reference is made to our AFSC/655/4/EC. April 2. and your 771220/1006 Coll. March 13. Also conversation General Pellecci - W/C. Walker on June 12.

2. After considerable discussion it has been decided that the Regia Aeronautica may be permitted to retain the civilian vehicles which our above-mentioned letter informed had to be handed to A.R.A.R.

3. The attached lists (seven copies) are identical with those previously signed. It would be appreciated if you would sign the certificate on each copy and return five copies to this Sub-Commission. The other two copies are for your own records.

4. It is thought and hoped that this will finally conclude the long, unsatisfactory struggle for Captured Enemy Vehicles.

RECOVERY OF VEHICLES OF F.A.F. ORIGIN.

Attached is a list of vehicles of I.A.F. origin which the Salvage Section of the 2nd Z.A.T. has not been able to recover.

2. All these vehicles have been registered at the various Uffici Trasporti which work under the Italian "Ministero dei Trasporti". These offices maintain that according to instructions issued by A.M.G. Venezia Region, the Italian Forces cannot claim vehicles which have been registered by the Uffici Trasporti prior to 12th October, 1945. It should be noted that in regard to the towns where these vehicles are ~~now~~ located no A.M.G. is now in existence, with the exception of Udine.

3. A translation of a letter from the Ufficio Autotrasporti of Verona to A.C., C.L.M. Section, Bolzano is also attached. This states that the recovery of these vehicles has been authorized by A.F.S.C. Rome.

4. It would be appreciated if this office be informed as to whether the I.A.F. may legally recover these vehicles.

HAND-OVER OF CIVILIAN VEHICLES TO A.R.A.R.

58A 2. Earlier action could not be taken with A.R.A.R., it is regretted, as it was not till the 13th instant that C.E.M. Branch, Allied Commission, was able to give the position on these vehicles, and state that release notes had been prepared and the vehicles were ready for hand-over to A.R.A.R. C.E.M. Branch has now finished completely with the vehicles, and are no longer interested in them.

3. A.R.A.R.'s reply to our letter will be communicated to you as soon as it is received.

4. With reference to para 6. of your above-quoted letter, there are 16 civilian vehicles which have already been, or are being repaired, none of which has been included in the list of vehicles being transferred to A.R.A.R.

All of them, however, have been included on earlier lists of vehicles, sent to your Headquarters from the Padova office for acceptance by the Ministry.

These, in fact, were the same as came up for discussion on the visit of W/Cdr Walker to this office, when it was agreed that a number of them should eventually be put into service with the Sub-Commission. Several are already fully serviceable at Caproni's, Trento, but cannot be put into use for lack of tyres.

5. At present no mention of these is being made to A.R.A.R., and your further instructions on the matter are requested.

HAND-OVER OF CIVILIAN CAPTURED ENEMY VEHICLES

The Italian Air Force are at present in possession of a numbe of civilian vehicles which have been recovered in error with vehicles of military origin. There are in all 201 vehicles, located as follows:-

89 with the S.A.B.O. firm at Bolzano & Bologna
87 " " CAPRONI " " Trento
8 " " I.A.F. " Aviano, Pordenone
17 " " " Nucleo Recuperi at Padova

and they comprise passenger cars, lorries and trailers in all conditions.

2. This office holds release notes for these vehicles, issued by C.C.M. Branch, Allied Commission, Milan, and they are ready for hand-over to your organisation.

3. It is known however that the Italian Air Ministry are seriously concerned with the question of payment for the recovery of these vehicles, and will expect this to be met by your organisation on the transfer being effected. You will readily appreciate the attitude of the Ministry when we point out (a) that the civilian vehicles number more than one third of the total number recovered and (b) the two firms S.A.B.O. and CAPRONI are under contract to the Ministry for recovery work done and must receive full payment.

4069

4. It is requested therefore that you communicate to this office confirmation of acceptance, in principle, or otherwise, of the proposals above made of payment by you, which will be forwarded to our Headquarters in Rome for onward transmission to the Italian Air Ministry.

5. Subsequent to this being received negotiations for the payment of the recovery costs can be entered into between yourselves and the Ministry.

6. An early reply will be appreciated.

CAPTURED ENEMY VEHICLES - GERMAN.

It has been reported that your Ministry has instructed Campania Regional Command Nucleus I.A.F. Naples to withdraw German vehicles from A.F.S.C. Naples.

2. It is not clear on what authority this was done unless in reply to this office's AFSC/655/3/Eq. Feb. 6, A.R.A.R. have ruled that all German vehicles are to be withdrawn from the I.A.F. May this be clarified please.

3. A.F.S.C. Naples is requested to inform this office of the make, chassis and engine numbers of the vehicles concerned.

CAPTURED ENEMY CIVILIAN VEHICLES.

Reference your 774220/1006 Coll. March 13.

2. It is regretted that the vehicles listed cannot be claimed as Italian Air Force property. Although this Sub-Commission was aware that a certain quantity of civilian vehicles had been salvaged and were in S.A.F.C.'s and CAPRONI's it was not aware that the quantity involved was so large.

3. The Captured Enemy Material Branch is the final authority for the disposition of captured vehicles. The vehicles in question were reported by A.F.S.C. Padua to C.E.M. Branch, Milan, and it had been hoped that they would be released to your Ministry.

4. This unfortunate decision has already been communicated personally to General Pellacci by W/C. Walker.

5. The vehicles are being handed over to A.R.A.R. and this Sub-Commission is endevouring to arrange that compensation will be made to the firms for the recovery work carried out. It is fully appreciated that it would be unfair and unbusiness like for the Italian Air Ministry to have to pay for the recovery of vehicles which they have not been allowed to retain.

6. All possible action will be taken to try and get A.R.A.R. to reach an agreement with S.A.F.C. and CAPRONI.

7. You will appreciate that these vehicles were salvaged under the verbal agreements made last summer and which were contrary to A.F.H.Q.'s instructions for the disposal of Captured Enemy Material. A.F.H.Q. were requested to ratify the agreement as considerable confusion and hardship to the Italian Air Force would result should they insist that all vehicles other than those of Italian Air Force origin could not be retained. A.F.H.Q. could not, however, see their way to ratifying the agreement. The present unhappy situation is the result.

8. It is sincerely regretted that much unnecessary work has been caused and that results are far from what had been anticipated or hoped for.

CAPTURED ENEMY VEHICLES - CIVILIAN.

Reference is made to C.E.M. Milan letter AC.M/CMM/22/919 February 20. and to telephone conversation W/C. Walker - F/L Underwood.

2. The Italian Air Ministry has been informed that the civilian vehicles listed by Capt. R.A. Davies R.A.C. are being handed over to A.R.A.R. It is realised that the Air Ministry has no claim to these vehicles. But it must be appreciated by C.E.M. and A.R.A.R. that this number of vehicles constitutes over one third of those salvaged by S.A.B.O. and CAPTEMI who will rightly expect payment for the recovery work they undertook.

3. The vehicles as you are aware were salvaged under the arrangements made between G/C. Debree and 5th Army which was not ratified by A.F.H.Q.

4. The Italian Air Ministry has reluctantly accepted the fact that it cannot retain the vehicles. The overall plan for the repair and use of all captured vehicles will have to be drastically modified. It cannot be expected that the Air Ministry foot the bill for the recovery of vehicles which it is not allowed to retain and put into service.

5. It is requested therefore that you ascertain how C.E.M. and A.R.A.R. propose to overcome this difficulty as it is certain that the Air Ministry will refuse to pay for the recovery of the vehicles which have now been handed to A.R.A.R.

6. It is understood that approximately twelve of these vehicles have already been repaired or are in the process of being made serviceable. It is considered that C.E.M. be approached and requested that these few vehicles remain the property of the I.A.F. Chassis and engine numbers of these will be forwarded as soon as possible.

Reference your AFSC/655/4/Eq.

1. The Director of the firm ACICA states that the truck, subject of your letter, has been in his possession since July 1944, when he recovered it from Prima Porta, near Rome. When found, it had German markings and no Italian number plate. He immediately declared it to Region IV, AMG, and produced their letter ref. MT/315/1351/3/H/ of 3 Nov 1944, addressed to the Directorate of Civil Motorisation, as evidence.

2. It appears that unsuccessful efforts to claim this vehicle have already been made by the Ministry of War and the Ministry of Marine. Should the Ministry of Air desire to pursue the matter further, it is suggested that you contact Col. Franklin of Transportation S/C, who can probably give further information. ACICA state that they have recovred no vehicles from GORIZIA.

Release of Captured Enemy Vehicles to I.A.F.

1. Reference your postagrams 214G/3367/2/P&B 14 and 23 November releasing captured enemy vehicles to the Italian Air Force through this Sub-Commission.

2. It is noted that vehicles of German origin are included amongst those released and it is pointed out that the Air Forces Sub-Commission has no interest or authority to reclaim any vehicles but those of Italian origin.

3. In the past your organisation has also released vehicles of French origin and these unfortunately have been accepted. But the French authorities in accordance with A.F.H.Q. directif AG 386.3 Q(AF)O 2nd October on 'Captured Enemy Material' are entitled to all vehicles of French origin found in this country. If such vehicles are handed to this Sub-Commission they have only to be handed again to the French. It is therefore requested that all such vehicles are handed to the French authorities by your H.Q. and not through this office.

4. Vehicles of German origin in no way come under the jurisdiction of this office and A.F.H.Q. is the sole authority for their disposal in accordance with the previously mentioned directif.

5. It is requested that you therefore ensure that only vehicles of Italian origin are released to this Sub-Commission as no vehicles of German or French origin will be accepted.

Wing Commander,

Air Officer Commanding.
