Enclosed is letter and translation received from General Biffi. It is desired to point out two inaccuracies which appear to have crept in.

2. In para 2 the liquors cannot be correctly described as the property of the officers, since the majority of purchases were made by the Air Ministry with the intention of reselling to the various messes at a subsequent date.

3. Ref. para 6 the officer in question expressed the opinion that the actual ownership of the property must be determined by you, before any distribution could take place. If it was decided that the liquor in question is property of serving officers of the I.A.F. the distribution would be an internal problem for decision by the Italian Authorities.

4. No distribution will therefore be made prior to your ruling on this matter.

LIQUEURS REMAINING FROM STOCK ACQUIRED FOR I.A.F. OFFICERS.

With reference to your AFSC/657/1/204 dated 17th inst. we are forwarding you the required informations.

2. The liqueurs remained in I.A.F. Stores, Milan, are a few thousand bottles (including many bottles of coffee extract). These liqueurs are the supply for I.A.F. Officers Clubs and therefore are property of the Officers themselves.
3. The greatest part of this material has been acquired before the 5th September 1943, and there are also bottles, part of a stock given by General Franco to I.A.F. Officers.
 All the a/m liqueurs were stored in Rome and transferred to Milan probably in the second half of 1943.
4. I think that the distribution of the a/m liqueurs can be made as follows:-
 a) to Air Zones and I.A.F. Command for I.A.F. Officers.
 b) Unita Aerea for I.A.F. Officers
 c) To I.A.F. Ministry
5. Therefore the distribution of the liqueurs will be made to the Units which have bought and paid for them.
6. The Senior Officer of this Sub Commission has, verbally been informed of the above disposition, and he did not find any objection to this proposal.
