HASTENER FOR STORES - F 639

In view of the revised method of provisioning equipment in this theatre, it is desired to encourage the use of F 639 or its substitute by all consumer units.

All equipment outstanding for more than one month which is urgently required may be hastened on F 639 direct on this Unit. Care must be taken that this practice is not overdone, however, otherwise it will lose its effectiveness.

It must also be ensured that demands hastened are not in transit back from this Unit to be resubmitted as immediate requirements in accordance with A.H.Q. Italy letter ref. AHQI/11536/E.1 dated 14th August 1946. Every endeavour will be made to return demands for enablement to units for resubmission, if necessary as above, before one month after their original submission to obviate the possibility of their being hastened whilst in transit.

PREPARATION OF DEMANDS.

Considerable delay is sometimes caused in the despatch of equipment from M.U.s by the practice of quoting only unit descriptions in the Consignee block of Forms 600 without any indication of the location of the unit. Misdirection of consignments has occasionally occurred through this practice.

2. With the end of the war the necessity, for security reasons, of not showing the correct locations and full details of units now no longer exists. All Formation Headquarters are therefore to bring to the notice of units the urgent need for the correct insertion on demands of the actual location of the consignee. Where the location is not self evident such units in addition to marking their demands with their locations should also include the actual country or main area in which the station is situated.
