Dear

29A
AIRCREW RATIONS.

I regret to have to inform you that higher authority has decided that issues of additional rations to Italian aircrew shall be discontinued as from 23.59 hours on the 31st July.

2. As a matter of fact I have been rather expecting that this decision would be announced in view of the cessation of hostilities, and therefore the few occasions on which additional aircrew rations would, in fact, now be required. 5439

3. In order to prevent any hardships to aircrews who would be unable to get meals at normal meal times through flying, my suggestions that you have to make for altering the timed schedules of the courier services will be considered. In this respect I understand that aircrews on courier services where Allied Staging Posts are established are now able to obtain light meals from the snack bars.

4. I assume that some of the reasons for discontinuing the issue of aircrew rations are:

- (i) The strain of war flying no longer appertains.
- (ii) Crews should normally be able to obtain meals at normal hours.
- (iii) The even greater economy being effected in England, and elsewhere since the liberation of Europe.

5. I trust that your aircrews will accept this decision with good although I am quite certain that it will cause some disappointment.

2. It is noted that aircrew members of this flight are employed on similar duties as the members of the Autonomous Squadron (Bari) who are already included on the authorised list, this, will entitle them to additional rations to the scale laid down in this Headquarters Airgram Q.274 dated 17th February, 1945.
3. Authority is therefore given for this flight to be added to the list of units authorised to draw extra rations, as shown at Appendix to our Airgram as of above reference,

TO : Air Forces Sub Commission,
Allied Commission.

1. Ref. to your letter AFSC/671/2/Eq. dated 30 March 1945 inclosing a copy of a letter from Hq., M.A.A.F. Algiers concerning extra rations to be issued to operational personnel of the Italian Air Force.

2. We invite your attention to para. 4 of the letter from M.A.A.F., which states that the rations will be drawn from the nearest Army D.I.D. and not through normal channels of Italian Air Force ration supply. We interpret this letter to mean that the increase to the ration scale mentioned in this letter will be issued from the nearest British D.I.D., and the cost of this commitment will be at the expense of the national concerned.

3. Considering the above, we have not authorized the Italian Army depots to increase the rations issued to operational personnel to conform with this letter.
