P38 LIGHTNING
APR. - AUG. 1946

C. Tech. O

Reference following extract from
minutes of monthly General Staff Conference
(para 8) July 1946.

"SSO. C.T.O. OC have looked at staff
study in the P38 modification and report
to the Director as soon as possible."
This refers to a question whether a P38 is
suitable for Tac/R as well as Interception Fighter
work. In my opinion from the Air Staff
angle it is.
Will you and Lt Favaro discuss the problems
connected with modifying P38s for fighters and
Tac/R work and let me know your opinion.

Informant
M2 13.7.46

SSO. Reference M.I. I am proceeding to Naples with
P/lt FARANO on Thursday 18th July 1946 to examine
P38 LIAISON Aircraft. My report will be rendered on my
return to Rome.

study on the P-38 modification and to the question as soon as possible. This refers to a question whether a P-38 is suitable for Tac/R as well as Interception Fighter work. In my opinion from the Air Staff angle it is. With you and Lt Favaro discuss the problems connected with modifying P-38s for fighter and Tac/R work and let me know your opinion.

through the kind efforts of Mr. Couch, OFLC, I was presented to Mr. Bonner (Chief of the European Division for Disposal of Surplus Property) and his staff at a conference held at OFLC HQ on 27th August 1946. It was stressed that due to the current political situation immediate consideration should be given to sell the tools applicable to P-38 aircraft to the Italian Air force at a low price. After due deliberation and discussion relating to the problems of the I.A.F., Mr. Bonner gave instructions to sell the tools valued at \$ 101, 803.58 to the Italian Air force for \$ 7,000.00. Mr. Couch assured me that he will give this project top priority and that it can be expected that the I.A.F. will have the tools in their possession within the next few days.

2. Above information relayed by telephone to Lt. Col. Adrower this date.

TOOLS AND EQUIPMENT FOR P-38 LIGHTNINGS

To date, arrangements for the sale of tools and equipment to maintain the P-38 Lightning aircraft have not terminated because payment difficulties to O.F.I.C.

The sale of the P-38 Lightning plus fifty P-39's was made in a contract by ARAR under the following title at 1% of cost:

Contract of 101 P-38 to ARAR
Offer no. 14 22 January 1946
Price \$160,550.00
Bidder: Royal Italian Government- Via Ludiviso #16
Eng. Giuseppe di Beneditte, managing director

This contract no. 22, W-ANL(MTO-1)-22 was signed by Col. D.P. Caulkins, acting field Comm. of O.F.I.C. However in this contract there was not specified the tools and equipment for proper maintenance of these aircraft.

On 24 June 1946 a list of tools and equipment peculiar to the maintenance of these aircraft was made up by this office from OFLC special offering list #27, included in this file 3-A.

Verbally it was agreed by the aircraft sales office of OFLC that this material would be sold at the original price of 1% because of either misinterpretation or neglect the question of tools was not added to the original sales contract of the P-38.

The situation has consummated such that these tools and maintenance equipment are urgently needed or the P-38 aircraft will be grounded because of maintenance difficulties.

When the first offer of 1% was rejected, a verbal offer of \$7000 for the lot was requested of OFLC by Col. Gasperi. This offer, however was also refused, verbally, by Col. Caulkins.

The question of reducing the list of materials is difficult because OFLC will not allow declaration numbers to be split. For instance Decl. no

J&M
2/18

X-5920 may be reduced at least 20 thousand dollars or the whole project may be reduced \$37,000 from \$98,000 to the total cost of the complete list. But declarations can not be split.

The IAM have asked that Diplomatic channels be approached that these tools may be had at a very reduce rate, somewhat similar to the original contracts of the P-38s.

The project remains com supra to this date.

Roma, li 18 Luglio 1946

Signore,

1. mi rincuora dovervi informare che la vostra offerta relativa a utensili per velivoli, accolta alla presente, non è stata accettata dal Field Commissioner.-

2. E' vero che l'Ufficio Velivoli desiderava assegnare questa partita all'Aeronautica Italiana da usarsi per il montaggio dei velivoli da caccia, però nessun impegno è stato preso né verbalmente né in altra maniera.-

3. La decisione del Field Commissioner si basa sul fatto che non è possibile interpretare l'offerta come utensili per uso generale, essendo questa costituita da parti di ricambio per velivoli da caccia. La nostra autorizzazione per vendere all'un per cento, si riferisce solamente a velivoli da caccia e relative parti di ricambio.-

P R O M E M O R I A N° 36ATTREZZATURE PER MONTAGGIO E MANUTENZIONE P.38

1.

Faccio riferimento alle trattative precedentemente intercorse con l' O.F.L.C. per ottenere gli attrezzi per la manutenzione del P.38 e alla richiesta del materiale sottelenicato presentata all' O.F.L.C. in data odierna per incarico del Sig. Colonnello Tolino.

Attrezzature necessarie per il montaggio e la manutenzione dei P.38.

- a) Gru : Crame C+2
- b) Trattori : Claro Tracter Tag
- c) Equipaggiamento martinetti :
 Cricchetto idraulico da 5 Tonn.
 S-86600 (martinetto idraulico 10 Tonn.) oppure martinetti
 to idraulico 7,5 tonn.
 S-51400 (collare)
 S-81300 (contrappeso di coda 400 Lbs)
 Cavalletto di sollevamento per montaggio ali.
 " " " " piani di coda.
- d) Forcella di trascinamento 234536
- e) Chiavi normali e speciali come da figure e tabelle (da pag. 54 a 60 D.) del fascicolo AN 01-75-2.
- f) Panco prova carburatori
- g) Carrello prova impianti idraulici
 Hydraulic Test Stand - Model HTS 3-L
- h) Carrello con gruppo elettrogeno a batteria tempone per avviamento motori Hemelite Model HRU-28
- i) Pubblicazioni per carburatori e motori

Technical Order	N° 03	- IO BA-1
"	"	" 03 - IO BA-3
"	"	" 03-IO AB-1
"	"	" 01 - 75 F-1

2.

Il sig. Couch dell' O.F.L.C. ha comunicato che la lista di tutti gli attrezzi disponibili fra i quali si trovano anche quelli esistenti a Napoli per il montaggio e la manutenzione del P.38, è stata inviata all' A.R.A.R. in data odierna (vedasi punto 4 del pro-memoria precedente in data 17.4.08.). Tale lista che porta il n° 27, qui allegata in copia per la Direzione delle Costruzioni Aeronautiche, comprende totalmente materiale dislocato a Napoli. Il costo originale del materiale elencato in detta lista, suddiviso in 5 lotti, è di \$ 703.431,67.

Il materiale comprende in piccola parte attrezzature idonee per il P.38.

Sig. Col. Tolino

Attrezzature necessarie per il montaggio e la manutenzione
dei I. J. C.

- a) Gru : Crane C-2
- b) Trattori : Clare Tractor Tug
- c) Equipaggiamento Martinetti :
Cricchetto idraulico da 5 Tonn.
S-86600 (martinetto idraulico 10 Tonn.) oppure Martinetti
to idraulico 7,5 tonn.
S-81400 (collare)
S-81300 (contrappeso di coda 400 Lbs)
Cavalletto di sollevamento per montaggio ali.
" " " piani di coda.
- d) Forcella di trascinamento 234536
- e) Chiavi normali e speciali come da figure e tabella (da
pag. 54 a 60 D.) del fascicolo AN 01-75-2.
- f) Banco prova carburatori
- g) Carrello prova impianti idraulici
Hydraulic Test Stand - Model HTS 3-E
- h) Carrello con gruppo elettrogeno a batteria tampone per
avviamento motori Hemelite Model HRU-28
- i) Pubblicazioni per carburatori e motori
Technical Order N° 03 - IO EA-1
" " " 03 - IO EA-3
" " " 03-IO GB-1
" " " 01-75 F-1

2. Il sig. Couch dell'O.F.L.C. ha comunicato che la lista di tutti gli attrezzi disponibili fra i quali si trovano anche quelli esistenti a Napoli per il montaggio e la manutenzione dei P.38, è stata inviata all'A.R.A.R. in data odierna (vedi appunto 4 del pro-memoria precedente in data 17.4.48.). Tale lista che porta il n° 27, qui allegata in copia per la Direzione delle Costruzioni Aeronautiche, comprende totalmente materiale dislocato a Napoli. Il costo originale del materiale elencato in detta lista, suddiviso in 5 lotti, è di \$ 703.431,67.

Il materiale comprende in piccola parte attrezzature idonee per il P.38.

681

3. Ho fatto presente al Sig. Couch l'urgenza particolare del nostro personale a Napoli di poter prelevare le necessarie attrezzature senza le quali il lavoro procede con estrema lentezza e con gravi difficoltà e gli ho chiesto che il personale della R.A. sull'aeroporto di Capodichino venga autorizzato a provvedere al ritiro diretto delle attrezzature urgenti.

4. Il sig. Couch ha assicurato che si adopererà affinché venga messa a disposizione della squadra italiana a Napoli la gru ed il trattore (comi a) e b) del precedente punto 1) necessaria.
./.

ri fino a che tali attrezzature non saranno disponibili da parte italiana. Cercherà inoltre, di far avere al più presto le pubblicazioni di cui al comma 1) del precedente punto I). Per quanto riguarda le altre attrezzature di cui al punto 1) Egli ha pregato di segnalare quelle che non sono comprese nell'allegata lista n° 27 perchè vedrà di ricercare in altri Magazzini il materiale mancante a Napoli. Ha aggiunto che il ritiro immediato dal magazzino di Napoli del materiale urgentemente necessario per la squadra italiana montaggio P.38 non è possibile per motivi tecnici (il materiale è scattastato, in gran parte chiuso in casse e la sua selezione distrarrebbe il personale di Magazzino da altri urgenti lavori in corso). Ha assicurato che la pratica potrà svolgersi sollecitamente se l'A.R.A.R. concorderà con l'O.P.I.C. il prezzo di acquisto di tutto il materiale dei lotti che interessano nella lista n.27 e firmerà quindi il contratto; dopo di ciò la totalità del materiale dei lotti verrà versata sul posto all'A.R.A.R. ed il personale della R.A., previo accordo con l'A.R.A.R., potrà sul luogo scegliere e ritirare le attrezzature deciderate.

Roma 23/4/46.

T. Col. M. G. Capen

SPECIAL OFFERING LIST NO.27

This list covers AAFSC property consisting of testing equipment and hand tools peculiar to Aircraft. This material is located at NAFGD, and represents a total cost of \$703,431.67 to U.S. Government.

INSPECTION REPORT--NAPLES.

On the 4th of July 1946, I flew to Naples to check on the assembly of the P-39's located at Capodichino Airfield. Conferred with Major Manfredini, who reported steady progress was being made on the assembly line. The Italian supply depot at Ponte de Rosso was ready to receive the latest purchase of special tools, maintenance, and assembly equipment. Major Manfredini expressed a desire to obtain this material as soon as possible to assist in the assembly of the P-39's.

Contacted the former WAFGD Surplus Depot, which is now under the control of P.E.S., and arranged for transportation of the material to Ponte de Rosso. (Conversation Capt. Mitchell-Lt. Weiss) This amounts to about ten (10) truckloads and can be moved as soon as the contract is signed and the Surplus Depot is notified. This is expected to be around 10 July 1946.

INSPECTION REPORT--NAPLES.

On the 4th of July 1946, I flew to Naples to check on the assembly of the P-38's located at Capodichino Airfield. Conferred with Major Manfredini, who reported steady progress was being made on the assembly line. The Italian supply depot at Ponte de Rosso was ready to receive the latest purchase of special tools, maintenance, and assembly equipment. Major Manfredini expressed a desire to obtain this material as soon as possible to assist in the assembly of the P-38's.

Contacted the former NAFGD Surplus Depot, which is now under the control of P.B.S., and arranged for transportation of the material to Ponte de Rosso. (Conversation Capt. Mitchell-Lt. Neiss) This amounts to about ten (10) truckloads and can be moved as soon as the contract is signed and the Surplus Depot is notified. This is expected to be around 10 July 1946.

AINSLEY T. NEISS
1st Lt., A.C.

31

Date: 29th June 1946.

TOOLS AND EQUIPMENT FOR P-38'S.

1. The following list of tools have been requested for sale from OFLC to the IAM for assembly and maintenance of P-38 aircraft.

<u>DECL. NO.</u>	<u>EQUIPMENT INCLUDED.</u>
X-6783	Spark Plug Equipment
X-6783	Disc Timing
X-6790	Wrench Assembly, sleeves, reamer
X-5066	Tire Mounting Equipment
	Prop Test
	Gyro Test
	Hydraulic System Test. Gauges
X-5920	Bench Flow, Carb.
	C-1 Field Test Set
	Hydraulic Stand
X-4397	Work Shop Tool Kits
	Cable Splicer
	PWA Tool Kit
	Parachute Tools
X-5542	Squadron Tool Kits
	PWA Tool Kits
	Wrenches, Parachute Tools
X-5677	Misc. Service Tools, Complete
	Empty Tool Kits
X-5700	Greasing Equipment

Date : 20 June 1946

Ref : AFSC/625/6/ ENG

Loose Minute.

Progress of P-38 Lightnings

To date there have been 8 aircraft constructed and transferred to Lecce. Training of pilots in these A/C was started 18 June. Three more A/C have been assembled and Test Flown and are awaiting transferal to Lecce.

There is still difficulty in obtaining tools, however, OFLC has been contacted and a list of tools will be sold by contract in the near future. Prices will be fixed for this equipment at the original offering of 1% of cost.

TACOM MINTEX.

TO: C.T.O. THROUGH S.S.O. AND AIR I.

825/6/ENK, 1A

I made a brief visit to Capodichino on the 3rd June in order to see how the Italians were getting on with the building of the P.38's. It appeared to me that things were running quite satisfactorily and no snags were brought to my notice other than the shortage of ground equipment and tools, which I believe you already have in hand so far as action is possible.

2. The Italian Commanding Major was in the air in a Lightning at the time of my visit and he landed before I left; he told me that 5 Italians have now satisfactorily flown these aircraft, and that four or six Lightnings are now ready or almost ready for delivery to Lecce. The Italian pilots and maintenance crews are very pleased with these aircraft, but they did point out to me that they were rather expensive in consumption of petrol.

3. I hope you will keep an eye on the number of P.38s which are going to be erected so that not more than essential are erected, the remainder being held dismantled for spares or kept as supplies for spares when required. On this aspect please keep me informed.

4. Col. Dentice had nothing to bring to my notice which required action by us.

G.E. Brooke.
Director.
