Subject: Workmen for R.A.F. Elmas (Cagliari)

This Office thinks it opportune to report the precarious living conditions of the employees working for the R.A.F; at Elmas. Their rate of pay is much lower than the rates of pay of all the other categories of workmen.

Moreover they do not receive any family allowances to which they are entitled by Italian law and finally they were not paid the bonus of the Republic, nor all the others indemnities.

Feeling certain that your Command will consider favourably the situation of these workmen and take necessary action, we beg you to accept our thanks.

OGGETTO: Lavoratori dipendenti della R.A.F. di Elmas (Cagliari).=

Questa Camera del Lavoro Provinciale ritiene necessario rappresentare a questo Comando per i provvedimenti che riterrà del caso, la particolare precaria situazione dei lavoratori dipendenti del Comando della R.A.F. di Elmas (Cagliari).

I lavoratori di cui trattasi godono di un trattamento economico di molto inferiore a tutte le altre categorie di lavoratori.

Inoltre, agli stessi non vengono corrisposti gli assegni familiari, come stabilito dalle vigenti disposizioni di legge per i lavoratori di tutta Italia.=

Infine, si fa presente che ai prefatti lavoratori non è stato corrisposto il Premio della Repubblica, né tutte le altre indennità dovute.=

Questa Camera del Lavoro, nelle certezze che questo Comando vorrà prendere in benemerito esame la situazione prospettata con gli adempimenti che riterrà necessari, ringrazia.

Con distinti saluti.=

For the British

I beg to state some facts concerning my husband Doct. Antonio Oliva, actually detained at Bolzano, in order to help him, as he might up to now not have been able to mention the same.

He could give all the necessary details about his assistance given some 20 years ago to a British airplane which had lost its direction and had to land in Tripoli (or Birmanier).

One of the British officers wounded and rescued at that occasion was even of high rank. My husband, at that time a young man, took part in one of the expeditions, which were undertaken to find the lost British plane and succeeded in discovering it. He took

the British crew in his plane and brought all safe home to his Italian base. He was therefore rewarded with a British decoration.

Making this statement I hope the British Authorities will be able to recall the mentioned deed and take it into consideration, judging a man who never was a member of any party so far as I know. Moreover I can assure that his attitude was always in favour of the Allied.

Hoping this statement may help my poor husband remain, expressing

my highest estimation

Dear Mr. Salatiello:

A thorough investigation of the complaint made in your letter of 14 Dec., 1945, has been made to determine the reasons why the Italian Specialists Aircraft Maintenance Group was not employed at Ciampino Airfield, Rome. The facts reveal that the C.O., 1419th AAF Base Unit, acted in good faith and had intentions of employing some Italian Aircraft Specialists. However, during the interim that negotiations were in process to hire some personnel from the Italian Aircraft Maintenance Group, the mission of the 1419th AAF Base Unit changed unexpectedly which reduced the aircraft maintenance work load. This sudden change in mission rendered it unnecessary to hire any civilian aircraft mechanics.

In addition, it was learned that the Commanding Officer before receiving notification altering the mission of the 1419th AAF Base Unit was indecisive to hire your group as a whole in view of your numerous special requests which he found impossible to comply with. Some of these special privileged requests were as follows:

- a. That you be furnished with a private car for your own use, both during duty hours and while off duty.
- b. That food, clothing, shoes, etc., be furnished which was far in excess of that authorized by WFOUSA directives.
- c. That no control of the group be exercised except through yourself.
- d. In some cases the rate of pay demanded was higher than that authorized.

It is also desired to bring to your attention that no need for civilian aircraft specialists currently exists at Ciampino Airfield nor is it contemplated to hire any personnel in the near future. The inconveniences which you and your group were occasioned by the sudden change in the mission of the 1419th AAF Base Unit is deeply regretted and it is earnestly hoped that you will find work with some other aviation unit in the immediate future.

Very truly yours,

Maintenance Group, the mission of the 1419th AAF Base unexpectedly which reduced the aircraft maintenance work load. This sudden change in mission rendered it unnecessary to hire any civilian aircraft mechanics.

In addition, it was learned that the Commanding Officer before receiving notification altering the mission of the 1419th AAF Base Unit was indecisive to hire your group as a whole in view of your numerous special requests which he found impossible to comply with. APO 512, US Army, 11 Jan 46.

TO: Commanding General, Air Forces Sub Commission, Rome.

1. The following information is hereby submitted in accordance with request contained in basic communication.

2. In October 1945 it was decided to hire a number of civilian mechanics to replace enlisted men being returned to GI. The Air Forces Sub Commission AC was contacted and their aid requested in finding suitable personnel.

3. Thru the efforts of the Air Forces Sub Commission a group of maintenance personnel of approximately one hundred men was located. This group was represented by a Mr. Salatiello who stated he was authorized to act for the entire group. (which he called the Bari Group)

4. A survey of the probable needs of the Base Maintenance Section, based on proposed reduction of enlisted men strength, was compiled. This survey indicated a possible need for sixty six (66) civilian mechanics. A copy of the survey was furnished the Air Forces Sub Commission indicating the number of personnel, by MOS, which would be required.

5. Working conditions, rate of pay, etc. were then discussed with the representative of the Bari Group. Mr. Salatiello insisted on several conditions that were not possible for this Command to meet. A few of which are as follows:

- a. That he be furnished a private car for his own use, both during duty hours and while off duty.
- b. That food, clothing, shoes etc be furnished which was far in excess of that authorized by MTO directives.
- c. That no control of the group be exercised except through himself.
- d. In some cases the rate of pay demanded was higher than that authorized.

6. Mr. Salatiello was advised that the above mentioned conditions could not be met and that it was not the desire of this Command to hire any group as such, but only certain individuals in certain MOS to fill in. At this time he indicated that this might be done.

934PC

7. During the time the negotiations were in progress the mission of the 1419th AAF Base Unit and that of the EURD-ATC changed which considerably reduced the Aircraft Maintenance work load. This change in mission rendered it unnecessary to hire any civilian mechanics.

8. At no time was any comment made by any member of this Command that any or all of the Bari Group would be given employment.

9. Your attention is invited to a true copy of the letter written by Lt. Col. Lewis M. Gravis, submitted as Incl number 1, and the discrepancies which exist in the letter presented as such by Mr. Salatiello. It is felt that no commitments were made in the aforementioned letter.

10. Arrangements were made by this office for an interview of the group representative with Mr. Richard Wood, T.W.A. representative. It was decided during the interview that T.W.A. had no need for the services of the members of the Italian specialists Aircraft Maintenance Group at that time.

Secretary's Office

MEMORANDUM TO LT.COL. ADROWER WALTER - CHIEF OF THE LIAISON OFFICE - ROME

Mrs. Gorgolini Maurer, wife of Capt. Pil. Sergio MAURER, has asked my help in order to obtain news of her husband who did not return to base after the last air combat over Tunisia, during the afternoon of the 6th of May, 1943.

All inquiries made by the Red Cross and the Vatican have, up to now, yielded no results.

The above-mentioned lady, therefore, is still hoping to receive confirmation of what she has repeatedly been told by I.A.F. personnel in concentration camps or ex P.O.Ws.

A number of I.A.F. personnel have informed her to have heard - they never say exactly who by - that Capt. MAURER had been seen in a North African camp.

Mrs. MAURER recently received further detailed information. Her husband was, it appears, seen by a certain 2 Lt. D'ALESSIO or ALESSI, not more than 2 months ago, in a punishment camp near New York.

The a/m 2 Lt. says that Capt. Maurer told him that he crashed, fractured an arm and a leg, burnt the upper part of his body, and that after having been in Algeria for 4 months, he was taken to America.

Mrs. MAURER is now trying to locate the Officer in question, and in the meanwhile I would appreciate if you could forward the name of Capt. MAURER to the American Command in order to obtain confirmation of the recent news received by the lady.

Signed: Col. Pil. A. REMONDINO

COLLEGAMENTO CON I.A.C.

S E D E

La Signora GORGOLINI MAURER, moglie del Capitano Pilota Sergio MAURER ha chiesto il mio interessamento allo scopo poter avere notizie sulla sorte toccata al proprio marito non rientrato alla base dall'ultimo combattimento aereo svoltosi in Tunisia nel pomeriggio del giorno 6 maggio 1943.

Le ricerche esperite da parte della Croce Rossa e del Vaticano hanno finora avuto esito negativo.

Tuttavia la predetta Signora non dispera di poter aver conferma di quanto più volte le è stato comunicato da parte del personale della R. Aeronautica, tuttora nei campi di concentramento o rientrato dalla prigionia.

Detto personale afferma di aver sentito dire - non ha mai precisato da parte di chi - che il Capitano MAURER è stato visto in un campo del Nord Africa.

Recentemente alla stessa Signora MAURER sono stati forniti dati quasi precisi. Suo marito sarebbe stato visto da un ^{cento} S.Ten. D'Alessio o Alessi, non più tardi di due mesi fa, in un campo di prigionia nei pressi di New York.

A detto Ufficiale il MAURER avrebbe riferito di essere precipitato con l'apparecchio, di aver riportato la frattura di una gamba, di un braccio e ustioni al torace e di essere stato trasportato in America dopo quattro mesi passati in Algeria.

Mentre le ricerche della Signora MAURER sono ora rivolte a rintracciare questo Ufficiale, ti prego di voler segnalare, per le ricerche, il nominativo del Capitano MAURER al Comando Americano onde poter avere conferma dell'ultima notizia pervenuta alla sua Signora.

CLAIM - DAMAGE TO MOTOR-BOAT

3/KA

With reference to AFSC Rome letter AFSC/936/PC dated 6th November 1945, the information as contained in para 2 is not correct, as P/Lt Bobby served with this detachment some time ago.

2. P/O Fry at present serving with this detachment has made a statement on this question copy of which is attached for your information and necessary action.

DAMAGE TO MOTOR-BOAT AT STRESA

P/Lt Bobby was attached to the A.N.S.C. Milan from the Austrian Commission and was living in the A.N.C. mess at Novara with myself. The Villa Belloni - Stresa had been requisitioned for A.N.C. Novara; the motor-boat was at the Villa and was used by all personnel. I am unaware of the previous history of the motor-boat.

2. To the best of my knowledge, the instructions given by the Provincial Commissioner of Novara, that the motor-boat would not be used without his permission, were given verbally before our arrival and it is quite possible that P/Lt Bobby was unaware of these instructions.

3. On the day of the accident I was not at Stresa, but P/Lt Bobby told me when I visited him in hospital, that he started the engine in the normal way, I did not feel responsible for the accident, as any previous defect in the engine could not have been caused by himself, and the explosion would have occurred at that time whoever happened to have taken out the motor-boat.

4. The accident appeared to have been caused by a central compartment in the boat, which contains the engine, becoming filled with petrol vapour and air and exploding, and as a result P/Lt Bobby was about 3 weeks in hospital suffering from rather several burns.

R.A.F. STATION, POMIGLIANO.

At present No. 65 Staging Post at Pomigliano is occupying certain blocks of flats at Pomigliano south of the airfield. The U.S. authorities are willing to relinquish a further block of these flats in the near future.

2. The conditions under which the R.A.F. are living in this area are appalling in that much repair is required to put the flats in order, and Italian civilian families are interspersed in other flats between those occupied by the R.A.F. The unhygienic and unsanitary conditions under which the latter live render the whole area most unsavoury. It is therefore desired to utilize the extra accommodation being relinquished by the U.S.A.A.F. to rearrange the allotment so that the R.A.F. occupies entirely 3 adjacent blocks of the flats. To undertake this it will be necessary to move 3 parties of Italian civilian families from the blocks occupied by the R.A.F. to those which will then be vacant.

3. A sketch plan is attached which outlines the situation clearly. It is requested that arrangements may be made as early as practicable to remove the civilians from the areas shown in blue in blocks D and E to blocks A and F in order that blocks C, D and E may be completely occupied by the R.A.F.

4. The scheme suggested above appears to be the only practicable and economic solution which will provide a reasonable camp for the R.A.F. at Pomigliano before the coming winter. The alternative, namely building a hutted camp on or in the vicinity of the airfield is not practicable owing to shortage of R.E. personnel and building material, and in any event is unlikely to be sanctioned owing to the probable cost. For the health and morale of the personnel concerned it is requested that every effort may be made to complete the scheme at an early date. Letter No. AFSC/M/823/4/Eng dated 6th October, 1945 from your Naples detachment Commander to No. 65 Staging Post, copy to you, also refers.

5. The statement in para. 7 thereof is not understood, in that A.A.F. M.S.C./M.T.O. has handed over the accommodation occupied by the R.A.F., and it is now on a British requisition. Further, that Headquarters has stated that it is not in a position to exercise jurisdiction

AIR OFFICER COMMANDING.

ITALIAN WIVES OF R.A.F. PERSONNEL.

1. It has been brought to the notice of this Headquarters that a number of Italian wives of R.A.F. personnel have been refused ration cards by Italian civilian authorities, consequent upon their marriage.
2. In order to avoid hardship being caused to these wives and to obviate further misunderstanding as to the position by local Food Authorities, it is requested that all local Food Officers in Italy be reminded of the entitlement to a ration card by Italian women after their marriage to British personnel.

CHILDREN IN ROME.

The Italian authorities are concerned in respect of the large numbers of children who are avoiding school and generally running loose. The problem is a serious one, and unless firm action is taken, there is a danger that there may be a young bandit population in the great cities.

2. The problem is essentially one for the Italian Government, who are alive to their responsibilities and are taking suitable measures. To some extent, however, they find that the police are handicapped by the mistaken kindness of allied personnel.
3. Cases have been known in which allied personnel have "adopted" local children who have occasionally followed their benefactors from one location to another. This practice is strictly forbidden.
4. Rest Camps, clubs, canteens, and quarters occupied by large units, and other places where allied personnel congregate are always an attraction to children. In the vicinity of such places the Italian Police are reluctant to act against the children because at times personnel are apt to assume the role of protectors.
5. You are requested to take suitable measures to warn all ranks under your Command that this mistaken kindness is in the interests neither of the personnel themselves, the children or the future of Italy.

SUBJECT: Imposta Generale sull'Entrata.

1. Brief history of the Business Transaction or Turn-Over Tax, i.e. Imposta Generale sull'Entrata.

The Turnover Tax was enacted on 9th January 1940 to replace the then existing sales tax. It applied to all transactions in goods and services including public utilities and imports.

The tax rate was originally 2% on income in monetary value, or other form received by any person as compensation for the transfer of goods and services. It was increased to 3% on 1st July 1943. In certain cases it could be increased to as much as 6% and later to 8% to equalise the tax burden of different businesses.

The tax was assessed and collected by one or two methods viz.:

(a) Agreement between the Ministry of Finance and individual taxpayers or groups of taxpayers in the same industry, called 'concordato', based on their liability to Income Tax on General Income. Under this method they were not required to charge sull'Entrata to their customers separately on each transaction.

(b) For small purchasers the vendor affixes special sull'Entrata stamps purchased by him in bulk from the Post Office, to the invoice for sale, or, for larger transactions, pays the tax in cash at the Post Office. In this last event the invoice is endorsed "tax paid" and a receipt is attached to the invoice as proof of payment.

With a few exceptions, 1% of the tax was borne by the seller, and 2% by the purchaser.

Under decree of 5th December 1944 the rate of the tax was increased from 2% to 4% and the whole of the 4% may be passed on to the purchaser. The same rate is due for goods imported from abroad. For certain types of luxury goods the rate of tax is increased from 8% to 12%. One important difference in the new decree is that instead of the tax becoming payable as and when the goods are sold to the consumer the retailer has now to pay the tax within five days of receiving the invoice from the wholesaler. He may still pass the tax on to the consumer and in the event of the goods becoming unsaleable, machinery exists for reclaiming the tax paid.

The exemption from tax of certain foodstuffs such as wheat, maize, rice and barley is withdrawn. Also special rates have been imposed on certain goods according to the conditions under which they enter into consumption.

The following transactions are exempt:-

- (a) Sale of goods subject to Monopoly or Revenue Stamps.
- (b) Amounts received from the sale of bread and milk in their natural state to consumers.
- (c) Gifts to religious or charitable institutions for assistance or education, hygiene or public welfare or assistance by local authorities for maintenance in hospitals.
- (d) Amounts received for exportation of materials, goods, and freights for international service.
- (e) Amounts received from railways, tramways and inland shipping by private companies.

- (f) Amounts received by the State, Provinces or Communes as taxes or contributions.
- (g) Amounts received by the State for management of public services and lotteries.
- (h) Amounts received from the sale of a periodical or newspaper having a political character.
- (i) Amounts received as capital, such as money received from the sale of buildings, land, securities, shares or loans.
- (j) Interest on capital or dividends from capital invested in State and civil company securities and banking deposits.
- (k) Salaries, wages, bonuses, annuities, pensions, annuities and "aggi".

2. Bearing on the exemption of the Allies to the tax the following extracts from Executive Memorandum No. 83 (Revised) 23 January 1945 are important.

4. Duties on Goods Imported.

(A) No duties, taxes, imports or fees of any kind are chargeable on goods imported for the use of the Allied Forces; Allied Nationals employed by them and Allied Forces' welfare organizations or on goods imported under Allied auspices for distribution free of charge for civilian relief purposes and not for sale. Officers dealing with the latter should give a written certificate to the Customs that the goods are for free distribution for civilian relief.

(B)(1) The Italian Government have agreed to exempt temporarily from all Custom duties, charges and licence fees, all goods imported by the Allied Nations for commercial or civilian use except alcohol, tobacco, mechanical lighters and lighter flints; cigarette papers and tubes; matches and petroleum.

(2) Tobacco, mechanical lighters and lighter flints, cigarette papers and tubes must be handed over to the State Monopoly Administration for distribution.

Matches must be handed over to the sole authorized distributors, the Concorso Industrie Rimanifere (CIR).

Petroleum distribution for non-military use is the responsibility of the Comitato Italiano Petroli (CIP).

For all these goods special arrangements exist whereby the duty is collected by the State Monopoly, CIR and CIP respectively.

Alcohol must not be released for civilian or commercial use unless all the import duties have been paid.

It is emphasized that the directions in this sub-paragraph relate to goods imported for commercial or civilian use. The same procedure, however, should be applied to similar goods imported for the use of the Allied Forces should they be diverted to commercial or civilian use.

(K) Salaries, wages, bonuses, indemnities, pensions, annuities and "aggi".

2. Bearing on the exemption of the Allies to the tax the following extracts from Executive Memorandum No. 83 (Revised) 23 January 1945 are important.

4. Duties on Goods Imported.

(A) No duties, taxes, imports or fees of any kind are chargeable on goods imported for the use of the Allied Forces; Allied Nationals employed by them and Allied Forces' welfare organizations or on goods imported under Allied agreements for distribution free of charge for civilian relief purposes and not for sale. Officers dealing with the latter should give a written certificate to the Customs that the goods are for free distribution for civilian relief.

(B)(1) The Italian Government have agreed to exempt temporarily from all Customs duties, charges and licence fees, all goods imported by the Allied Nations for commercial or civilian use except alcohol; tobacco; mechanical lighters and lighter flints; cigarette papers and tubes; matches and petroleum.

(2) Tobacco, mechanical lighters and lighter flints, cigarette papers and tubes must be handed over to the State Monopoly Administration for distribution.

Matches must be handed over to the sole authorized distributors, the Consorzio Industriale Fiammiferi (CIF).

Petroleum distribution for non-military use is the responsibility of the Comitato Italiano Petroli (CIP).

For all these goods special arrangements exist whereby the duty is collected by the State Monopoly, CIF and CIP respectively.

Alcohol must not be released for civilian or commercial use unless all the import duties have been paid.

It is emphasized that the directions in this sub-paragraph relate to goods imported for commercial or civilian use. The same procedure, however, should be applied to similar goods imported for the use of the Allied Forces should they be diverted to commercial or civilian use.

(C) Imported goods not covered by the exemptions in paras 4(A) and 4(B) continue to be subject to all duties, taxes, imports, fees and rights prescribed by the existing Italian laws, which must be paid at the time and in the manner prescribed therein.

6. Duties on Goods Exported

The Statutory export duties and licence fees will be charged on all goods exported, except on goods certified in writing by the Allied officer responsible for shipment as being shipped, under Allied auspices, to Allied Government Departments.

3. Officers of this Commission are liable to meet the question of this tax in the following circumstances :-

(a) Goods imported for distribution to Italian civil population

In no circumstances do the Allies pay tax or recover tax on their selling prices on goods imported under Allied Government auspices or when Allied property is disposed of to any Italian organisation. As therefore the tax is not applicable until the goods have been taken over from Allied hands by the approved Italian organisation which handles them on behalf of the Italian State, the incidence of the tax has only to be considered when it is necessary to fix a price above which such goods must not be sold.

(b) Local purchases for Allied inc.

Under the Italian Government agreement, no tax is payable on such purchases but the seller is entitled to have his bill or invoice endorsed by authorised officers of the unit or organisation purchasing the goods, to the effect that they have been purchased on behalf of an Allied organisation.

(c) In contracts with Italian firms for goods for Allied use

The same principle applies -- the contractor must not include in his price any portion for Italian taxation; but he is however personally liable to Italian income tax on any profit he may make from the contract.

(d) Disposal of reconditioned or salvaged goods.

The same principle applies as in 3 (a).

(e) Requisitioned hotels and services

Any purchases, supplies or repairs are ultimately paid for by the Italian Government, who then recovers the tax payable from the Italian owner or manager, but no portion of the tax is borne by Allied organizations.

4. Effect on Price Index

With certain exemptions the tax is cumulative - that is, on every sale until the goods reach the consumer, the 4% Imposta sull'Entrata is payable, the vendor having the right to recover the tax in the selling price.

It should be borne in mind with respect to goods imported under Allied auspices that duty is not chargeable until the first sale of the goods by the central Italian Agency responsible for handling them.

The tax is also payable on any amounts included in the invoices in respect of transportation and packing charges.

Payments for services rendered by the professions, public houses, itinerant artisans, services, transportation of persons, certain trades such as barbers, tailors, laundresses, furriers, mills, olive presses, ovens etc., are liable to the tax, and require to be eliminated from any costings or charges to Allied

4. Effect on Price Fixing

With certain exemptions the tax is cumulative - that is, on every sale until the goods reach the consumer, the ~~tax~~ ^{Imposta sull'Entrata} ~~is payable~~, the vendor having the right to recover the tax in the selling price.

It should be borne in mind with respect to goods imported under Allied auspices that duty is not chargeable until the first sale of the goods by the central Italian Agency responsible for handling them.

The tax is also payable on any amounts included in the invoices in respect of transportation and packing charges.

Payments for services rendered by the professions, public houses, itinerant artisans, services, transportation of persons, certain trades such as barbers, tailors, laundresses, furriers, mills, olive presses, ovens etc., are liable to the tax, and require to be eliminated from any costings or charges to Allied organizations.

There are other Italian State or local taxes which may be payable in addition to Imposta sull'Entrata, viz.:

(a) IMPOSTE DI FABBRICAZIONE - State Taxation

This is a manufacturing tax imposed on sugar, alcohol, beer, mineral oils, etc. For home produced goods the tax is payable at the moment the goods leave the place of production; thereafter sull'Entrata Tax is applied. Imposta di Fabbricazione is chargeable on articles imported from abroad if the tax is due on similar articles manufactured in Italy. It is payable in addition to Customs duty.

(b) STAMP TAX - State Taxation.

Stamp Tax is payable:

- (i) on goods exempt from Imposta sull'Entrata;
- (ii) on receipts separate from the invoice, when Imposta sull'Entrata was paid on the invoice.

(iii) on subsequent sales of goods which pay sull'Entrata once only

e.g., live cattle.

In the case of (ii) and (iii) the maximum Stamp chargeable is L.3.

In other cases the Stamp Tax is:

between L. 1 and L. 100 - L. 0,30

" " 100 " " 1000 - L. 1.-

" " 1000 " " 3000 - L. 1,50

above L. 3000, L. 0,50 for every 1000 Lire - maximum

L. 150

A decree increasing these rates is expected to be issued shortly.

(c) IMPOSTE DI CONSUMO - Local Taxation.

This local tax is chargeable in addition to any State Tax in the case of certain specified goods on entering the bounds of the Comune.

The rates are on a quantity basis and vary according to the population of the Comune concerned. Special rates may be charged by Communes in agreement with the Minister of Finance. A decree fixing some of the rates on an "ad valorem" basis is expected to be issued shortly.

Attached hereto is an alphabetical schedule of goods specifically mentioned in the original law and subsequent amending laws, Ministerial decrees and circulars which:

- (a) are exceptions to the normal 4% charge on every movement, or
- (b) are liable in addition to either Imposta di Fabbricazione or Imposta di Consumo.

NOTES

i. Goods liable to Imposte di Fabbricazione (Production Tax) on leaving the place of production, and which on subsequent moves are liable to Imposta sull'Entrata, are indicated by I di P.

ii. Goods liable to Imposte sull'Entrata, and to Imposta di Consumo in the Comune in which sold, are indicated by I di C.

iii. Attention is drawn to liability to Stamp Tax in respect of certain transactions as explained in para. 4(b).

iv. In the case of some goods the rate of tax chargeable is determined according to the manner in which they enter into consumption. Various interpretations of the phrase are included in the law. These are shown in the lettered list below; the letter being used on the schedule to show the definitions appropriate to the rate of tax.

in other bases the Stamp tax is:

between L. 1 and L. 100	- L. 0,30
" " 100 " " 1000	- L. 1.-
" " 1000 " " 3000	- L. 1,50
above L. 3000	- L. 0,50 for every 1000 Liro - maximum

L. 150

A decree increasing these rates is expected to be issued shortly.

(c) IMPOSTE DI CONSUMO - Local Taxation.

This local tax is chargeable in addition to any State Tax in the case of certain specified goods on entering the bounds of the Commune. The rates are on a quantity basis and vary according to the population of the Commune concerned. Special rates may be charged by Communes in agreement with the Minister of Finance. A decree fixing some of the rates on an "ad valorem" basis is expected to be issued shortly.

- (a) are exceptions to the normal 4% charge on every movement, or
- (b) are liable in addition to either Imposta di Fabbricazione or Imposta di Consumo.

NOTES

- i. Goods liable to Imposte di Fabbricazione (Production Tax) on leaving the place of production, and which on subsequent moves are liable to Imposta sull'Entrata, are indicated by I di F.
- ii. Goods liable to Imposta sull'Entrata, and to Imposta di Consumo in the Commune in which sold, are indicated by I di C.
- iii. Attention is drawn to liability to Stamp Tax in respect of certain transactions as explained in para. 4(b).
- iv. In the case of some goods the rate of tax chargeable is determined according to the manner in which they "enter into consumption". Various interpretations of the phrase are included in the law. These are shown in the lettered list below; the letter being used on the schedule to show the definitions appropriate to the rate of tax.

- A. Sales by retailers shopkeepers or pedlars who sell exclusively or mostly these products.
- B. Purchases by retailers, who resell them together with other articles and products.
- C. Purchases by a merchant who consumes them for his trade or industry e.g., Hotel, Restaurant, Coffee Houses, confectioners, boarding schools, etc.
- D. Purchase direct from wholesale dealers by private consumers.
- E. Purchase by industrialists who transform these products.
- F. Purchase by wholesale dealers, who transform or preserve these products so as to alter their physical character.
- G. Purchases for export.

Finally, the usual difficulty of translation shades of meaning has been encountered. Any points of doubt should be referred to the Revenue Section of the Finance Sub-Commission.

ROME BRITISH RELIEF FUND.

In connection with para. 4 of Base Area Routine Order Serial No. 7, which accompanies this letter, this Headquarters (Unit) is making a special effort amongst Unit personnel, and up to the present there has been an almost 100% response.

2. It is felt that if a personal appeal could be made to your personnel by a specially appointed collector from the Unit, the sum raised by the Royal Air Force in Rome will be very substantially increased, and apart from the worthy nature of the cause, would reflect great credit on the Service, which at the moment, from a numerical point of view, is in the minority.

3. It should be clearly understood however, that subscriptions are entirely voluntary.

SUBJECT:- Rome British Relief FundTO :- See Distribution

1. There is in Rome a considerable number of persons of British descent but long domiciled in Italy and in some cases having Italian nationality. Many of these persons are in the present circumstances existing in great distress which must be expected in the coming months to be more acute.
2. To deal with such cases the Rome British Relief Fund exists. It is a fund of many years standing: the British Ambassador is its Patron and it is administered by a Committee under the Chairmanship of the Rev. R.T.R. Anderson resident Church of Scotland Minister Rome.
3. The Commander British Troops Rome sanctions the opening of subscription lists within units and wishes such a list to be opened in the HQ. of Rome Area Allied Command.
4. Subscriptions will be entirely voluntary and will in no case exceed the following scale:-

Colonels	15/-	W.O.	2/6
Lt-Colonels	12/-	S.Sjts & Sjts	2/-
Majors	9/-	Cpls	1/6
Captains	6/-	L/Cpls & Ptes	1/-
Subalterns	3/-		

5. Units will forward proceeds of subscriptions to ~~see~~ 45 Rome Allied Area Command.
