MOVEMENTS & APPOINTMENTS, IAF OFFICERS
SEPT. 1944 - JAN. 1947

A.O.C. *[initials]*

/

This afternoon I was shown a letter dated 14/4/46 from the Air Minister giving instructions for Gen. Cavallarin to be immediately recalled and sent to the Direzione Servizi as Director.

2. I also saw a letter dated 5/4/46 from the Chief of Cabinet to the Director of Personnel giving instructions for the movement of 8 General Officers proposed by the Minister and suggested by the Stato Maggiore as follows:

1) Gen. Porro to the Promotion Commission.

Gen. Cupini to the Air Academy.

These had been approved by us. *OA*

2) Gen. Bonola to the Personnel Selection Commission.

Instructions were given for this movement to be held in advance in your letter to the Minister dated 26th March. *OA*

3) Gen. Monti to the Personnel Directorate.

Gen. Briganti, Gen. Biffi to the Personnel Selection Commission.

Gen. Agnesi to 3rd ZAT as C.O.

Gen. Pizzi to 4th ZAT as C.O.

In none of these cases was our approval previously asked for.

3. The Minister is reported to have said on more than one occasion that he does not intend to bother overmuch about obtaining prior approval for movements of senior officers and this latest development seems to bear out this policy.

THE UNDERSECRETARY OF STATE TO THE
PRESIDENCY OF THE COUNCIL OF MINISTERS

89387/13659.14/19.17

5 January 1947.

Dear Admiral,

Following the note of the President of the Council of Ministers, No. 11459, dated 10 October 1946, I wish to inform you that the insertion of the new Art. 46 (A) in the scheme of the Peace Treaty requires no organic changes or new measures regarding military personnel, since the necessary measures were taken some time ago by the Military Administrations in order to remove the officers and non-commissioned officers of the fascist militia or of the fascist republican army.

I can even specify more precisely that the measures taken by the Italian Authorities go beyond those provided in Art 46 (A), i.e., not only members of the fascist military organizations are excluded from the Italian Army, but, owing to the provisions taken for the reduction of the military cadres, even those officers and non-commissioned officers who, having been absolved after having been submitted to disciplinary action, are now being removed or are about to be removed.

Yours truly,

(s) Cappa.

Rome, 16 October 1946.

Dear Admiral,

I have taken note of your letter 2621/211/EC dated 26 Sept. 1946, bringing to my attention art. 46/A of the peace treaty, according to which for no reason whatsoever may the officers or non-commissioned officers of the ex-Fascist militia or ex-Fascist army be admitted in the Army, Navy, Air Force or Carabinieri with the rank of officer or non-commissioned officer, with the exception of those who have been discriminated by the competent authorities according to the Italian law.

APPOINTMENT OF SENIOR OFFICERS.

Reference your letter No. 35800 dated 27th December, 1946, there is no objection to the movements of Officers proposed therein.

2. However, I would be interested to know whether it is your intention, in carrying out the present re-organisation of the Air Ministry, to have a second General Officer as Vice Chief of each Department as proposed for the Directorate of Construction and that of Personnel in view of the increase in General Officers which this would entail and the possible adverse criticisms which would be made within the Italian Air Force. My personal opinion is that each of the three General Directorates which will be in charge of a member of the Supreme Air Council, a second General as Vice Chief is justified but I doubt the wisdom of having a second general in each Department in each General Directorate. However, this principle is a matter for your own decision.

*Confidential*APPOINTMENT OF ASSISTANT CHIEF OF STAFF.

In reply to your letter reference 35351, dated 23rd December, 1946, as already agreed verbally with General Amons Cat, there is no objection to the appointment of General Briganti as Assistant Chief of Air Staff in place of Colonel Remondino who would then be put at your disposition for an important mission in South America.

2. I would like, however, to take this opportunity, officially to thank Colonel Remondino, on behalf of all the Air Forces Sub-Commission, for his loyalty to the Allied cause. Colonel Remondino has always impressed us with his exceptional efficiency, good humour and tact, in spite of frequent unjust attacks upon his alleged dishonesty towards the Italian Air Force to whom we believe that he has been completely loyal.

With reference to the 3rd paragraph of letter A.P.S.C./240/3/222, dated 10.10.46, the following reply is given:

The competent Ministerial Commission has favourably discriminated Colonelle HIRIC, ruling him exempt from disciplinary sanctions, in effect account has been taken of the following factors:

- 1e) Proven anti-german and anti-Nazi sentiments of the officer,
- 2e) the initiative and effective action taken by the officer in salvaging of documents (approx. 400,000) of maximum interest to the administration and to the personnel of the Aeronautica Militare was considered to be so complete and of such importance as to justify the means used by him to attain the aim in view.
- 3e) The records of the officer's fictitious adherence to the pseudo republic, are successive to his arrest and imprisonment by the Germans, and therefore justified by the circumstances.
- 4e) Patriotic activity carried out during the war of liberation.

It is pointed out that good results would be obtained if use could be made of the valuable work of Colonel HIRIC, an expert officer and fitted with special qualifications for the delicate work of re-organizing the Central and Regional Offices for the conscripting and recording of personnel of the A.M.

It is requested therefore that favourable consideration may be given to the request for re-employment, necessitated by the present situation.

Reference your letter 24244/3528 Coll., dated 24th September, 1946 and our conversation with the Air Minister and General Monti on 15th October, it is confirmed that we agree in principle to the establishment of the post of Secretary General in the Air Ministry. We, therefore, agree that General Monti shall fill this new post and that General Ceppi shall take over General Monti's existing duties as Director of Military Personnel temporarily.

2. It is understood that the post of Secretary General will be filled by a serving Italian Air Force officer (until such time that a new law is passed to make the post a civilian one to be filled by an I.A.F. General retired³), and that it will not be a political appointment. Further more it is understood that the Secretary General will be responsible to the Air Minister for the co-ordination of certain Directorates (the details of which should be agreed between us at a further conference) and that he will advise the Chief of Air Staff and the Director of Military Personnel and other Directorates in those functions which are delegated to them by the Air Minister. There is of course no objection to the appropriate officers in all departments of the Air Ministry contacting officers in other Directorates on a staff level in order to ensure that the means employed in the preparation of draft policies are the best practicable.

3. It is understood that there is no intention on the part of the Air Minister to institute a new post equivalent to the British Permanent Under Secretary of State for Air who is a civilian and in a non-political appointment.

4. It is requested that you confirm that the statements made in paras. 2 and 3 above are correct.

5. As regards para. 2 above¹, I see no reason why the post of Secretary General should ultimately be held by a retired rather than an active serving officer (as in the case with the C.A.F. and A.F.P.) and I suggest that we discuss this later but before being finally committed.

2. Approval is given to the appointments of Col. CASERO and Lt. Col. TEOCHI. There is no objection to the re-employment of Gen. FAVORATO.
3. With regard to the re-employment of Col. RIZZO, it is understood that this officer adhered to and served with the Fascist Republican Air Force during the German occupation. As it is not the present policy to employ personnel in this category, authority for re-employment in this case would have to be sought from Higher Allied Authorities. Confirmation would be appreciated, therefore, that the recall of this officer is indispensable and that it is desired that the above mentioned action should be taken by us.

Subject: Colonello Pilota Guido PORCELLI.

This Officer, who does not excel in technical or professional qualities, is a returned POW and practically speaking knows nothing of the new Aeronautica.

It would therefore be a very grave error to recall him for assignment to the Sub Commission for discrimination in place of Colonel PORTA.

In view of the large number of Colonels in service the post could be filled by someone else of equal rank still on the active list.

Finally it is brought to your attention that a few months ago, at a meeting in the Stato Maggiore several lists were compiled of Colonels, not in service, to be recalled as soon as the opportunity arose: so far one only has been recalled by the Director of Personnel which obviously does not intend to take this list into account.

Dear

Many thanks for your letter 21065/3035 Com., dated 28th August, 1946, concerning the possibility of employing Colonel Armando FRANCOIS when Unita' Aerea closes down.

I quite understand that you cannot give Colonel FRANCOIS an Air Attache's job in the circumstances.

Between you and I, I have never been quite certain of the integrity of Colonel FRANCOIS, though my predecessors placed a lot of faith in him during the war.

Yours

COLONEL ARMANDO FRANCESCHI

Dear A.V.M.

With reference to your wish expressed in the course of our conversation early in the month of 28th August, I have examined the possibility of appointing Colonel ARMANDO FRANCESCHI as Air Attache at one of our Embassies or Legations.

I regret to inform you, however, that the examination has failed to result in any action for two reasons.

The only vacancies for Air Attaches which our Treasury has provided up to date have been filled some months ago, by officers of high qualifications and experience.

It would be unjust, therefore, at this stage to reappoint one of these officers in order to substitute Col. FRANCESCHI, and again our Treasury could not consent to such a change for reasons to be stated, in so much, as you must already know, such appointments abroad entail considerable expenses for which reason the actual job average in exceptional cases lasts for four months.

On the other hand I must state the position of Col. FRANCESCHI in relation to an enquiry which is still being held for serious imputations is not yet clear and, therefore, even if a post were available the officer's position would certainly not be the most suitable.

Subject: Law on the Release of the I.A.F. Officers and Non-Commissioned Officers.

Copy to: Air Ministry - Minister's Cabinet - Rome
 I.A.F. "Stato Maggiore" - Secretariat - "

Following the recent conversation between the Director of the Military Personnel Department General AGNESI and A/IDR SALTER of your Subcommission, we are furnishing you with the following details regarding the release of the I.A.F. Officers and Non-Commissioned Officers.

2. Since the I.A.F. military personnel consisted on 8/9/43 of regular service personnel (toward which the Administration was responsible for permanent employment) and temporary service personnel (toward whom the Administration was not responsible for permanent employment) we are informing you that the Administration has already provided for their release; as to the former - military personnel on regular service - it was deemed necessary to set up a law which would allow their release from the permanent service and relative conditions.

3. This law, common to the three armed forces, is in the process of being published for Generals and Senior Officers, and another one for Junior Officers and Non-Commissioned Officers is being compiled.

4. The main conditions foreseen in the above mentioned law are:

a. The power given to the Administration to release upon request or because of age limit Generals and Senior Officers who have twelve years of regular service and fifteen years of active service, period at the end of which the officer is entitled to a pension.

b. Appropriate commissions will be formed for selection of officers for release because of age limit.

c. The released officers will receive for two years on the

above provisions, a normal allowance corresponding to the rank, and after three years after the age limit is reached, pension allowance, plus a special monthly allowance.

d. The financial advantages (two years of normal rates of allowances corresponding to the rank and an additional bonus to the pension) are a form of compensation for the damage of rights of the officers concerned, caused by the unilateral abrogation of the employment agreement.

e. The release will be carried out gradually and in stages, thus obtaining an adequate number of military personnel in the regular service of the Italian Airforce.

f. It is foreseen that during 1946, 769 Generals and Senior Officers, and 7000 Non-Commissioned Officers will be released. For Junior Officers the limits within which the release is to be carried out have not yet been fixed.

A seguito della recente conversazione tra il Direttore del Personale Militare Generale AGNESI e lo S/Ldr SALTER di codesta Sottocommissione, si forniscono le seguenti precisazioni in merito allo sfollamento degli Ufficiali e Sottufficiali della R.Aeronautica.

2. Premesso che il personale militare della R.Aeronautica all'8/9/43 era formato da militari di carriera (verso cui l'Amministrazione è vincolato da un continuativo rapporto di impiego) e da militari richiamati dalla vita civile (verso i quali perciò l'Amministrazione non ha alcun vincolo di continuativo rapporto d'impiego), si notifica che per questi ultimi l'Amministrazione ha già provveduto a riporli in congedo, mentre per i primi (quelli di carriera) si è reso necessario approntare un'apposita norma di Legge che consentisse il loro allontanamento dal servizio continuativo e le relative condizioni.

3. Tale norma legislativa, comune alle tre Forze Armate, è in corso di pubblicazione per gli Ufficiali Generali e Superiori, mentre è in corso di compilazione per gli Ufficiali inferiori e per i Sottufficiali.

4. Le condizioni principali previste dalla anzidetta norma sono le seguenti:

a)- è data facoltà all'Amministrazione di collocare in congedo - a domanda o di autorità - Ufficiali Generali e Superiori che abbiano 12 anni di servizio effettivo e 15 di servizio utile a pensione;

Refer to conversation (Lt. Col. White - Maj. Rand-Smith speaking).

The "current principle" referred to in Appendix "A" of Aide Memoire dated 4 February 1945 is defined by Land Forces Sub-Commission as follows.

"G-5, M.E.I.A., is consulted over all general appointments and adv. sec. Also, unofficial advice on many junior or 'special' appointments. No question of veto has arisen".

Both Naval and Air Forces Sub-Commissions agree this principle but the Naval Sub-Commission approves appointments of the rank of Captain and certain Specialists and have on occasion vetoed appointments, and Air Forces Sub-Commission approve appointments of Lt. Col. and above.

CAPT. PILATONE

183A

We refer to your letter ref. AFSC/360/6/Org., dated 24th January 1946.

The following is the result of the enquiries made by this Ministry :-

1) - The same inconveniences attributed to W/O Malgarini occur quite often as Capt. Amore of M.M.I.A. has forbidden the Salvage Nucleus to deal with the correspondence relating to M/T of definite property of the R.A., before the A.F.S.C. issues specific authority.

This procedure naturally paralyzes the work of the Salvage Nucleus and in order to avoid the above, the Services Directorate of the Italian Air Ministry has appealed to the A.F.S.C., in order that detailed instructions be issued to Capt. Amore.

6421

2) - Several discrepancies delays are reported in the recovery work and sometimes R.A. vehicles are stopped by R.E. Units and viceversa.

3) - The personal activity of Capt. Pilatone is unrepachable regarding seriousness and honesty, for which the suspicions raised by the Turin HQ, unless there are other grievances against the officer concerned, are, according to information received, unfounded.

1. General CAVALLERIN was dismissed as C.O. of the I.A.F. in Sandania sometime between the end of 1944 and the beginning of 45, because of the fact that he had been a "Squadrone".
2. On April 15th 1946 he was recalled and was supposed to be appointed as C.O. of the equipment department at the H.F.S.C. in replacement of Gen. Pellacci.
3. On April 19th he reported to Mr. Cavallotto who told him that the H.F.S.C. had not yet given its approval.
4. Gen. Cavallotto came to see me today in order to ask me if I was in a position to tell him whether he had or no chances to get the H.F.S.C. approval. I replied that I could not say anything before having contacted Gen. 6403
5. Gen. Cavallotto from June until September 45 joined a company (L.E.N.A.) which were salvaging materials in collaboration with the I.A.F. and before joining them he asked General Pellacci's authorization. He left the company because dissatisfied.

Dear General Cavallarin,

Before departing from Sardinia, I want to express to you the gratitude and appreciation which I, for myself and in behalf of all the Allied units on this island, have for the cooperation and assistance given by you and the Italian Air Forces in Sardinia.

When the Allied Forces first arrived here last November, there was no central organized authority to which recourse could be had for help in the settlement of various problems that arose relative to becoming established here. The Italian Air Force in Sardinia immediately offered its assistance. During the ensuing months, the settlement of Allied units and their preparation for operations were greatly aided and their problems alleviated by the generous and loyal manner in which the Italian Air Force Headquarters in Sardinia and the members of its staff placed at our disposal valuable information about our surroundings and the services of the men and materials under its command. The manner in which you implemented this policy is commendable.

Without such assistance, the settling of Allied units here would probably have taken months longer and would have required the employment of greater numbers of Allied personnel.

In addition to your positive contributions, the economy of time and men which was made possible to us has been a noteworthy and considerable aid to the effort.

REVIEW OF I.A.F. OFFICERS RECORDS
SIX COMMISSIONS

From recent conversation as between AVM Brodie and the Air Minister and the Capo di Stato Maggiore, it seems that there may be some misunderstandings about whether or not Allied authority to the formation and operation of the six commissions which it is your intention to convene for the purpose of reviewing the records of officers with the ultimate aim of retiring those who are surplus to establishments (as required by the strength shown in your monthly blue book "Italian Air Force Strength State" as distinct from the current decree law establishment board on the pre-armistice figure of 2000 aircraft).

2. I wish to confirm that we welcome your decision and hereby authorize the formation of ~~three~~ commissions which should begin their review as soon as possible.

3. We would however like to have an up to date list of the officers whom you have appointed to sit on each commission showing the seniority of the officers that each commission will be considering.

My dear Mr. Minister,

MOVEMENT OF GENERAL OFFICERS.

With reference to our conversation of the 25th March, and your letter 7082/1073.Coll dated 16th March, I wish to confirm our agreement to the following movements of General Officers of the Regia Aeronautica:-

- (i) GENERAL S.A. FOMBO Felice, in place of GENERAL S.A. MAZZUCCO Renato, who will be placed on reserve.
- (ii) GENERAL S.A. DRAGO Carlo, to 1st ZAT.
- (iii) GENERAL S.A. CHINI, Renieri, to the Air Academy, Florence, and Director for reorganisation of the Training Centre at Florence.

2. As regards the other movements suggested in your letter mentioned above we also agree, and it was decided to hold the movements in abeyance for the time being.

Yours

Gen. PORRO: A very cultured man, capable and intelligent, reached this rank because of his good qualities and also because of a special inclination to show his ability in all circumstances.

He is not very well thought of by the personnel because of his strict character which was used by him in the post only in connection with his subordinates but not with his superiors! (It is said that he was General Valle's collaborator when the Duce was given the false aircraft strength!).

At the time of the armistice he could do nothing: no contingent of aircraft under him proceeded to the South: in effect he received no orders. He remained at his post, was captured, deported and stood out among his fellow prisoners by maintaining his sense of dignity.

As is mentioned above the personnel does not see eye to eye with him: however he would probably be acceptable in the new post as Massucco is very badly thought of.

Gen. BONOLA: A fairly cultured officer, hard character, impulsive, has no influence with the personnel.

In 1942-43, while in Sardinia, there was a very serious incident with a civilian workman whom he struck on the airfield with a whip.

At the time of the armistice he was on leave: when stopped in the train while proceeding to rejoin his family (!) he was stopped and, not having any other documents he did not omit to show his General's Identity Card. The Germans deported him: whereas if he had said that he had no documents perhaps he would have been able to get away with it. * 1393

It is not considered advisable to call him back into service to replace General Notari. The post which is now being filled by General Notari will shortly come to an end and when this Commission closes down Notari can be retired without calling up Bonola today who, when the work of the Discrimination Commission is completed would want to remain in service....!

Gen. Cavallerin: An officer who was formerly in Gardinia and after the Armistice was removed for having Fascist qualifications. He was declared immune but it would not be advisable to recall him at the moment because of the unfavourable comments which it would arouse. *(overheard by the Security Commission)*

As he is to assume the post of Director of Services it is pointed out that the Director has always been a Colonel up till now and if Col. Bellacci has been promoted General and is replaced we see no reason why he should not be replaced by another Colonel.

It would also be most illogical to entrust Cavallerin with this post because lately he has been dealing with the Services Directorate on behalf of firms which were carrying out salvage work.

1. We have received rumours from a source which is thought to be well founded that General Briganti is to replace Colonel Remondino as Assistant Chief of Air Staff. This is not a move which will be received well by Units, especially the fighter boys, and furthermore the Units as a whole do not want to see more Generals getting posts in the Air Ministry.
2. General Aimone Cat agrees about not re-employing more Generals but does not want to intimidate his colleagues as did General Piacentini.
3. So far no Generals have been retired in spite of the agreement that this would be done, and increasing numbers of Generals are, in fact, being employed. The latest rumours are - General Drago to Milan (this is a good thing because he was a partisan and bearing in mind the coming elections), secondly General Cufini, who was recently repatriated from Russia is lifted for the post at the Academia Aeronautica.
4. I will keep you informed of the situation.

Thank you. As regards para 1, I'm all for trying to stop Remondino from going - if we can.

2. As regards para 3, I see no reason why a general who has presumably done nothing in the Allied cause should get a job now when there are others who have done something - again we should

AOC

D.D.

1. Further to my minute of 18/3/46 concerning the post of A.C.A.S., General Briganti is reported to be telling everyone that he is to be the new A.C.A.S. Both he and the C.A.S. would like Remondino to stay on at the Stato Maggiore as they know they can rely on him, but as I see it, if Remondino is doing his job well as a Colonel why should he become Briganti's stooge, whilst at the same time more Generals are being employed when the policy is to cut down on this rank. Furthermore it is going to be hard for Remondino to accept what amounts to a reduction in rank, and working under another officer who presumably knows less about the job than Remondino himself. However Colonel Remondino is the type who would, I think, bear no malice and it may work out. General Briganti is described as being an extremely competent and well thought of officer who had no chance of doing any resistance work because he was deported to Germany on the 8th September. No doubt you will wish to discuss the matter personally with General Amione-Cat.

2. As regards the projected moves mentioned in Enclosure 9a I enclose histories of the various personalities mentioned.

General Mazzucco was recalled on the understanding that it was only a temporary measure last December. This case was the origin of some correspondence between the AOC, Cerullo and Amione-Cat.

General Pellacci was promoted General a few months ago on the understanding that he would then retire. So far it seems that his promotion has not been published officially.

General Drago who is replacing General Biffi who is now awaiting employment in Rome. Biffi recently had an interview with the AOC, subsequently he stated that the Air Vice Marshal had told him to study the question of establishments at the I.A.M. It is felt that General Drago should be sent to Milan for the reasons stated in my minute of 18/3/46 para 3.

General Cufini is mentioned as replacing a Lieut. Colonel at the Academy, but I think it is reasonable to have a General in command. This officer is reported to be one of the hopes of the I.A.F. and as he is the first pupil of the Academy to reach field rank, I suggest this would have a good morale effect on the pupils. He is a good disciplinarian which is what is needed at an Academy.

3. The Air Ministry has been asked for an up to date list of all Generals at present serving with the I.A.M., and also those temporarily assigned to jobs outside the I.A.M. We are also requesting a list of Colonels and Lt Colonels who have recently been promoted. Apparently there are about 30 new Generals and 11 Colonels who are filling former Lieut Colonels posts.

Herewith some information on the conduct of General Briganti after 8th September 1943. Previously General Briganti was always well thought of because of his excellent gifts as an Officer and Pilot.

Fairly well thought of by the personnel.

His recall would be well accepted except from the point of view of the number of Generals recalled being too high which is worrying the personnel and causing great agitation among them.

Generale di D.A. BRIGANTI Alberto.

- 8.9.43 - Commanding the Aegion Air Force. Received orders to proceed to Rome but as his Second in Command was absent he sent his Chief of Staff.
- 9.9.43 - Towards 2.30 in the morning the Germans arrived in force at Maritza airport, which has not sufficient defences to resist.

In view of the importance of the base, on which the larger part of the Aegion air strength is located, General Briganti insisted to the Governor that, as pre-arranged, army units should take part in the defence of the airfield.

However the Governor did not wish to put up any resistance at that moment because he hoped to smoothe the matter over with the German General. In fact, following an agreement with General Klemann the German forces partly withdrew from the airfield.

As later, however, the Germans again invaded the airfield with more decision and intent, General Briganti asked for and - hostilities meantime having commenced at other points on the island between army units and German forces - obtained permission for the batteries protecting Maritza airport to open fire in order to destroy the airfield.

10.9.43 - Encounters between Italian and German troops continued. General Briganti spoke with some English Officers who had arrived from Cyprus and - in agreement with the Governor - asked for Maritza and Cedurre airports to be bombed and Cos airport to be occupied by a fighter unit in order to defend Rhodes from attacks by Stukas.

11.9.43 - Towards 1300 hours, as the situation was turning decisively in favour of the Germans and there seemed only a very faint hope of obtaining help from the Allies in time, the Governor, at a meeting with the Chiefs of the Armed Forces, decided to open negotiations for a surrender. Meanwhile, from the morning onwards, General Briganti, foreseeing what was to take place, had given orders for the destruction of installations and stores outside the city, for the departure of the air sea rescue aircraft

to Leroy and the hiding of M.T. and the destruction of secret documents.

- 13.9.43. - As General Klemann had invited the Italian troops to collaborate with the Germans, General Briganti called a meeting of the C.O.'s of his subordinate units and ordered them to see that no soldier agreed to this; subsequently he read the text of his reply to the German invitation to the assembled military personnel. General Briganti pointed out to the German authorities that the I.A.P. personnel was obedient to the orders of the King.
During the night of the 14th English aircraft bombed the airports of Maritz and Cadurva as was suggested to the Allies by General Briganti himself.
- 16.9.43. - As a prisoner of the Germans because of his attitude, General Briganti was sent by air to Athens. From there he proceeded to the Concentration Camp at Schocken via Vienna and Posen, which he reached on 21st September 1943.
He remained a prisoner in this camp where, although pressed several times, he refused to join the Italian Republican Air Force.
- 21.1.45. - Following the breaking up of the Front he was obliged to march off in order to transfer to another locality further to the east. At Rosko he succeeded in escaping the vigilance of the Germans and took refuge in a farm house.
After other adventures during which he was attacked by Russian soldiers who, twice running shot at and wounded him and then abandoned him because they thought he was dead, he made contact with the Russian military authorities.
- 5.2.45. - He was released and was able to care for his wounds.
He was then sent to Dabino and Charkov.
- 11.9.45. - Left for Italy.

GENERAL OF AIR SQUADRON MARIO AJMONTE-CAT.

CHIEF OF STAFF IN THE R.A.

The General of Air Squadron Mario Ajmonte-Cat was born at Salerno on the 5th February 1894.

After having frequented the Military College at Rome and the Military Academy at Turin, he was assigned as an Infantry Officer during the first world war, flying as observer with a reconnaissance squadron since June 1915. During this period he received his first silver medal for military valour for having carried out a successful reconnaissance although his aircraft had been hit many times, and for having in a further flight, forced an enemy aircraft to land in Italian territory.

Promoted Captain in 1916 he received in the same year the pilot's brevet and continued to participate in the war over the axes of Trentino and Isence, drawing attention to himself as Squadron Commander and being worthy of an other silver medal for military valour.

In September 1917 he was transferred with his unit to the Macedonian Front, where, in August 1918, by order of the Allied Command, he became Aeronautical Commander in a sector of that front having Italian and French units under him. Although he had this duty he did not neglect his flying activity and carried out many offensive flights, some under very difficult conditions and often at a very low altitude which won for him a third Silver Medal, a Croix de Guerre and some Allied decorations.

Returned from Macedonia, in August 1919, he was given various duties, first with the War Ministry, after with the Air Ministry, constituted in 1923.

Appointed Lt. Col., selected for examinations in 1926, he carried out satisfactorily a course in 1927 with the War School at Turin; in the following years he was C.C. to the Air Observer School, a Fighter Wing, and a Bomber Wing, after which he was entrusted with the organisation of an Air War School.

Promoted to General of B.A. in March 1935 he was appointed the same year as first Chief of staff of the Aeronautics in East Africa and later, in November, Commander in Chief of the Air Forces in the Ethiopian campaign. During the whole of the war opera-

Promoted to General of B.A. in March 1935 he was appointed the same year as first Chief of staff of the Aeronautics in East Africa and later, in November, Commander in Chief of the Air Force in the Ethiopian campaign. During the whole of the war operations he held this office showing his qualities of organizer and Commander and a personality with a so independent judgement which often put him against the high military and political authorities.

For merit acquired in the course of the A.O.I. Campaign, he was awarded the "Ordine Militare di Savoia".

When he returned to Italy (August 1936) he was appointed C.O. of the Air War School where during approximately three years he endowed the benefit of his experience and studies.

General of Air Squadron in 1939 after a short period in which he commanded the 4th Air Zone at Bari, he was recalled to Rome in order to study a new organization of the aircraft defence. The project resulting from these studies, which proposed the joining into one organization of the energies displaced in separate units, although approved was never applied owing to the interference of political elements, with grave prejudice to this very important sector of the national defence.

- 2 -

After Italy entered the war in June 1940, General Ajmone-Cat in July of that year was transferred to the 3rd Air Squadron (at Florence first, then at Rome). But in January 1941, at the end of General Graziani's disastrous retreat in Cirenaica, he was transferred to the Command of the 5th Squadron in Libya. There he reconstructed the Air Forces and, in spite of opposition from the Stato Maggiore, succeeded in reorganizing them following autonomous and sensible judgements.

But his ideas on the employment of the air units inspired by the necessity for better utilization of personnel and material and to a better collaboration with the ground commands, put him in opposition to the Italian and above all German military authorities of Northern Africa. The friction became so acute that at the beginning of November 1941 Gen. Ajmone-Cat was recalled to Italy.

For the work carried out in Northern Africa he was awarded the "Comando dell'ordine militare di Savoia".

In February 1942 he had the general command of the Aeronautical Military Schools and organized this new unit which included the Academy, the War School and the Application School, the very numerous pilots, advanced training and pre-aeronautical schools.

After the 8th September 1943 he evaded all collaboration with the fascists and the Germans (by whom he was especially sought and entered the service again only in December 1944, when he was appointed Chief of Staff of the R.A., a duty that he is at present carrying out.

During all his career General Ajmone-Cat although carrying out the duties of officer commanding the Units and Sections, never failed to take an interest in aeronautical and military problems of an operational and technical nature. The cultural bases acquired in the courses frequented with the Military Academy, the Application School and the War School at Turin, together with the study have enabled him to resolve brilliantly the questions that the nature of his work and his personal interests have demanded from him.

He held very numerous conferences and made reports and studies amongst which very important are those concerning the development and the employment of the service, the Air Armament, the War School's programme, the organization of the Air Defence; very noticeable is also his activity as writer in technical and daily publications.

The cultural bases acquired in the courses frequented with the Military Academy, the Application School and the War School at Turin, together with the constant study have enabled him to resolve brilliantly the questions that the nature of his work and his personal interests have demanded from him.

He held very numerous conferences and made reports and studies amongst which very important are those concerning the development and the employment of the service, the Air Armament, the War School's programmes, the organization of the Air Defence; very noticeable is also his activity as writer in technical and daily publications.

During his career General Ajmone-Cat, who speaks fluent French, visited several countries: the Balkan Middle East (Greece, Macedonia, West Serbia, Albania, Bulgaria, Rumania, European Turkey) from 1917 to 1919; France during two months in 1920, England during a week in 1926, Greece again, Bulgaria, Rumania and South Russia, during an air raid of three weeks in 1929; Germany, five times lasting 10 days each from 1937 to 1942.

General Ajmone-Cat is also a very good speaker, and in his conversation shows his qualities: a great loyalty and dialectic, and a very deep education and experience.

The moral and intellectual standard of Gen. Ajmone-Cat is completed by his very noble manner and fine figure.

He has always taken advantage of an open air life and practiced his favourite sports: riding fencing and swimming.

Gen. Ajmone-Cat does not belong to any political party, nor to any other organization, he dedicates himself exclusively to his office and his family living together with him at Rome, Via Bernabò Orsini, 23.

GENERALE DI SQUADRA AEREA MARIO AJMONE CAT

CAPO DI STATO MAGGIORE DELLA R.A.

Il Generale di Squadra Aerea Mario AJMONE CAT é nato a Salerno il 5 Febbraio 1894.-

Dopo aver frequentato il Collegio Militare di Roma e l'Accademia Militare di Torino, fu assegnato quale Sottotenente ad un Reggimento di Artiglieria nell'Agosto 1914.-

Ceminció la sua carriera aeronautica durante la prima guerra mondiale, volando come osservatore presso una Squadriglia "RAUMAN" fin dal giugno 1915.- In tale servizio guadagnò la sua prima medaglia d'Argento al Valor Militare per avere condotto a termine, sebbene con l'apparecchio più volte colpito, una proficua ricognizione, e per avere, in un successivo volo, costretto un apparecchio nemico ad atterrare in territorio nazionale.-

Promosso Capitano nel 1916, conseguì nello stesso anno il brevetto di pilota e continuò a partecipare alla guerra nei cieli del Trentino e dell'Isonzo distinguendosi come Comandante di Squadriglia e meritando un'altra Medaglia d'Argento al Valor Militare.-

Nel settembre 1917 fu trasferito con il suo Reparto sul Fronte della Macedonia, dove, nell'agosto del 1918, d'ordine del Comando interalleato, divenne Comandante di Aeronautica in un settore di quel fronte, avendo alle dipendenze Reparti italiani e francesi.- Anche in tale incarico non tralasciò l'attività di pilota e compì numerosi voli bellissimi, taluni in condizioni particolarmente difficili, e spesso a quota bassissima, che gli valsero una terza Medaglia d'Argento, una Croce di Guerra al Valore ed alcune decorazioni alleate.

Rientrato dalla Macedonia nell'agosto del 1919, ebbe vari incarichi, dapprima presso il Ministero della Guerra, poi presso quello della Aeronautica, costituito nel 1923.-

Tenente Colonnello a scelta per esami nel 1926, ultimato con successo nel 1927, un corso presso la Scuola di Guerra di Torino, negli anni seguenti fu successivamente Comandante della Scuola Osservazione Aerea, di uno Stormo da Caccia e di uno Stormo da Bombardamento, e infine ebbe il compito di organizzare la Scuola di Guerra Ae-

Promosso Generale di B.A. nel marzo 1935, nello stesso anno fu nominato dapprima Capo di Stato Maggiore dell'Aeronautica per l'Africa Orientale, poi nel novembre, Comandante Superiore delle Forze Aeree nella Campagna di Etiopia.- Per tutta la durata delle operazioni belliche rimase in tale incarico rivelando le sue qualità di organizzatore e di Comandante ed affermando la sua personalità in una indipendenza di giudizio che spesso lo mise in contrasto con le alte gerarchie militari e politiche.- Per i meriti acquisiti nel corso della Campagna in A.O.I. venne insignito dell'Ordine Militare di Savoia.-

.../...

Al rientro in Italia (agosto 1936) assunse il Comando della Scuola di Guerra Aerea dove per circa tre anni portò il contributo della sua esperienza e del suo studio.-

Generale di Squadra Aerea nel 1939, dopo un breve periodo in cui resse la 4^a Zona Aerea di Bari, fu richiamato a Roma per studiare una nuova organizzazione della difesa antiserea.- Il progetto risultante da tali studi, che proponeva di riunire in un organo unico le energie disperse in ~~varie~~ Enti separati, benchè approvato, non venne mai applicato per le interferenze di elementi politici, con grave pregiudizio di questo importantissimo settore della difesa nazionale.-

Dopo l'entrata in guerra dell'Italia nel giugno 1940, il Generale AJMONE CAT, nel luglio di quell'anno fu preposto alla terza Squadra Aerea (a Firenze prima, poi a Roma), ma nel gennaio del 1941, al termine della disastrosa ritirata del Maresciallo GRAZIANI in Cirenaica, venne trasferito al Comando della 5^a Squadra in Libia.- Qui ricostituì in breve tempo le Forze Aeree, e, prevalendo sulle opposizioni dello Stato Maggiore dell'Arma, riuscì a riordinarle secondo criteri di elasticità e di autonomia.-

Ma i suoi concetti sull'impiego dei reparti aerei, ispirati alla necessità di un uso migliore del personale e dei mezzi e ad una migliore collaborazione con i comandi terrestri, lo posero in contrasto con le autorità militari italiane e, soprattutto, tedesche dell'Africa settentrionale; il contrasto divenne così acuto che, ai primi di novembre del 1941, il Generale AJMONE CAT fu richiamato in Patria.-

Per il lavoro compiuto in Africa Settentrionale, venne insignito della Commenda dell'Ordine Militare di Savoia.-

Nel febbraio 1942 assunse il Comando Generale delle Scuole Militari Aeronautiche ed egli stesso organizzò questo nuovo Ente che comprendeva l'Accademia la Scuola di Guerra e quella di Applicazione, le numerosissime Scuole di pilotaggio, di specializzazione e dei preaeronautici.-

Dopo l'8 settembre 1943 si sottrasse a qualsiasi collaborazione con fascisti e coi tedeschi (dai quali era specialmente ricercato) e riprese effettivo servizio solo nel dicembre 1944, allorchè fu nominato Capo di Stato Maggiore dell'Aeronautica, carica che attualmente ricopre.-

Il Generale AJMONE CAT fu esponente di primo piano della nostra aviazione.

Durante tutta la sua carriera il Generale AJMONE-CAT, pur espletando le mansioni di comandante di Reparti e di Unità, non ha mai sato di interessarsi di problemi aeronautici e militari, sia rattere operativo che di carattere tecnico. Le basi culturaliquisite nei corsi frequentati presso l'Accademia Militare, la di Applicazione e la Scuola di Guerra di Torino, integrarono uno studio costante, lo hanno messo in grado di risolvere brillantemente le questioni che i compiti affidatigli o il suo personale interessamento gli hanno posto di fronte. Numerosissime le conferenze, le relazioni, gli studi da lui compiuti, tra cui specialmete importanti quelli relativi agli sviluppi e all'impiego dell'arma, all'armamento aereo, ai programmi della Scuola di Guerra, e organizzazione della Difesa Antiaerea; notevole anche la sua a

vità di articolista in riviste tecniche e quotidiani.-

Nel corso della sua carriera il Generale AJMONE CAT, che parla certamente il francese, ha avuto occasione di visitare numerosi Paesi: l'Oriente Balcanico (Grecia, Macedonia, Serbia Orientale, Albania, Bulgaria, Rumania, Turchia Europea) dal 1917 al 1919; la Francia, per due mesi nel 1920; l'Inghilterra, per una settimana nel 1929; ancora la Grecia, la Bulgaria, la Rumania, e, in più la Russia meridionale, nel corso di una crociera aerea di tre settimane nel 1929; la Germania, in cinque riprese per la durata di una diecina di giorni ciascuna, dal 1937 al 1942.-

Dotato di facile parola, il Generale AJMONE-CAT anche nella conversazione mette in risalto le sue qualità peculiari: una grande lealtà ed un vivace spirito dialettico, qualità che, unite alla solida cultura e alla vasta esperienza, fanno di lui un causeur brillante ed avvincente.-

Le qualità morali e intellettuali del Generale AJMONE-CAT sono completate dal tratto signorile e dalla prestanza di una figura che, naturalmente ben costruita, si è sempre avvantaggiata dalla vita all'aperto e dalla pratica degli sport preferiti: equitazione, scherma e nuoto.-

Il Generale AJMONE-CAT non è iscritto ad alcun partito politico nè ad altre organizzazioni; si dedica esclusivamente alle cure del suo ufficio e a quelle della famiglia che vive con lui a Roma, in Via Barnaba Orsani 20.-
