Excellency,

I am obliged to disturb you once more as I have to go to Budapest very shortly and it is very difficult for me to obtain the passage via Innsbruck. The only other line we could choose and which depends exclusively from Allied authorities under American control, is the Villach-Tarvisio line.

My wife and I are anxious to reach Budapest immediately as we have received news that my mother-in-law is very ill.

Only the kindness you have shown to me by derequisitioning my car could help me to obtain the Allied visa there and back right away. May I ask you for this great favor? I hope in an affirmative reply and am anxiously looking forward to it. I beg you kindly to ask your secretary to call me on the phone. My number is 490388.

With many thanks, believe me

Gratefully and respectfully yours

The visas must be issued to:

Mr Cesare Formichi - Passport No. 645/KA 1943

Mrs Marina Kaltay Formichi - Passport No. 379270

and my driver, Mr Mario Costa, needs just a pass there and back.

We would like to remain in Budapest until 5 October 1946.
