II. SALUTING (US Forces Only):

The following extract from Circular No. 163 MTOUSA, dated 3 October 1946, is published for information and guidance of all concerned.

"1. IN THIS THEATER THE SALUTE IS REQUIRED AT ALL TIMES EXCEPT WHEN INDOORS, OR WHILE AT TRAINING OR WORK.

"2. Section VI, WD Circular 208, 1946, providing that the hand salute will not be required off military installations, except in Occupied Territory, has been amended by WD cable WCL 35608, 13 August 1946:

"The hand salute may be required in any foreign country when deer advisable by the Theater Commanders or Military Attaches."

"3. It is most important that the hand salute be continued throughout th Mediterranean Theater. Any instructions to the contrary given at Reception Centers, Staging Areas, or Camps in the Zone of the Interior, or by Commanders in this Theater, while based initially upon the provisions of Section VI, WD Circular 208, are herewith rescinded as provided in the WD cable quoted in paragraph 2, this circular.

"4. Saluting at present is seriously below the high standard desired by the Theater Commander. This is directly attributable to the failure of both senior and junior officers to correct individuals who fail to salute or who salute incorrectly. Emphasis on instruction is required of every officer.

"5. a. Each Major Command will include instruction in this subject in the training program of the command.

b. This training will insure a thorough knowledge, by all officers and men, of Chapter 3, FM 22-5, February 1946, on how and when to salute.

c. It will be impressed upon each officer that it is his personal responsibility to correct every failure to salute, or to salute properly, that he observes. Senior officers will take immediate measures to correct junior officers who fail in any respect to fulfill these requirements."

2. EMPLOYMENT OF CIVILIAN PERSONNEL:

Every possible effort is being made to reduce the number of civilian employees of the Allied Commission. All officers are requested to give daily consideration to consolidating the work assigned to civilian employees so that staff reduction may coincide with military personnel reduction and the closing out of activities of the Allied Commission. Job analysis should be made in order to eliminate unnecessary work and inefficient methods. In general the practice of hiring has been stopped. It is deemed highly impractical to hire individuals when others are to be released solely for reason of staff reduction. (Exception to this being only in the case of non available skilled or technical individuals). Where ever a need for civilians occurs it is requested that a note be forwarded to G-1 Civilian Personnel and/or a notice request be placed in the unofficial section of the Daily Bulletin so that a transfer could be effected. 3. TYPHOID - PARATYPHOID INOCULATION (British Personnel):

Immunisation against the enteric (typhoid) group of fevers with T.A.B. vaccine is rendered more important than ever at this time when the water supply in ROME is at a low level. All British officers serving at this Headquarters will therefore take such steps as are required to bring their T.A.B. inoculation up to date.

Primary inoculation consists of two doses at an interval of 10 - 14 days. When there has been a failure to keep up immunity by a yearly inoculation, immunity may be re-established by the administration of a single dose provided the lapsed interval does not exceed three years. (Ex Officer (B))

Attention of all British personnel is drawn to this Headquarters letter XOB/111/B dated 16 July 1946, addressed to all Sub-Commissions and Sections, which lays down the procedure for civilians travelling in W.D. transport. (G-4 (B))

8. EMPLOYMENT OF CIVILIAN PERSONNEL:

Every possible effort is being made to reduce the number of civilian employees of the Allied Commission. All officers are requested to give daily consideration to consolidating the work assigned to civilian employees so that staff reduction may coincide with military personnel reduction and the closing out of activities of the Allied Commission. Job analysis should be made in order to eliminate unnecessary work and inefficient methods. In general the practice of hiring has been stopped. It is deemed highly impractical to hire individuals when others are to be released solely for reason of staff reduction. (Exception to this being only in the case of non available skilled or technical individuals). Where ever a need for civilians occurs it is requested that a note be forwarded to G-1 Civilian Personnel and/or a notice request be placed in the unofficial section of the Daily Bulletin so that a transfer could be effected. An interesting Road Map of Italy has recently come to the notice of A.C. and has had a good reception in certain Sub-Commissions. The Map is on the lines of the A.A. or Michelin handbooks and covers mostly Main roads and Junctions.

(i) The following instructions have been received from GHQ.
(ii) Owing to lack of personnel and aircraft, facilities for military air movement within and from CMF have now become practically nonexistent.
(iii) Units are therefore advised that travel by other means will always be arranged except in highly exceptional circumstances. It is stressed that this will in most cases save time, as the demand for military air passages is at present so far in excess of availability that the delay involved would exceed the time spent in travelling by other means.
(iv) Full details of any exceptional circumstances must accompany any future applications for air passages, which will be submitted through this branch. (G-1 (R))

(Exception to this being only in the case of non available skilled or technical individuals).
