II. PAYROLLS:

The Allied Finance Agency has again drawn attention to the fact that Headquarters Allied Commission Payrolls are still being prepared slovenly and without regard to accuracy.

There is also a laxity on the part of officers submitting vouchers for payment. In many cases it is underpayment and in others it is overpayment. Overpayment will be refunded and underpayments will not be made except where it is underpayments on Payrolls.

Computations and extensions are often in error and there is far too much crossing out of figures and inserting new ones. This is being done and not even initialled.

Personnel preparing payrolls and vouchers should employ greater care and accuracy and certifying officers should check all computations before submitting them to G-1 Civilian Personnel or the Purchase and Contracts Officer.

IV. SEWLROM - END OF WAR LEAVE (British Personnel):

The following 7OUM - BM/7059 (A.G.4 a) 112/GEN/5408 dated 20 November 46 is published for information of all concerned:

"FINAL DATE FOR GRANT OF SEWLROM"

1. The question of a termination date for SEWLROM has been under consideration.

2. It is fully appreciated that in many overseas Commands it has been impossible so far to take SEWLROM in the United Kingdom, owing to the fact that there is no entitlement to a free passage for this form of leave if taken separately from other leave.

3. It has, however, been decided to adopt a termination date namely 1st April 1948, but discretion is granted to Commanders-in-Chief and General Officers Commanding-in-Chief to permit individuals to take their SEWLROM after the termination date in special cases. It is hoped, however, that every endeavour will be made to ensure that those eligible shall have this period of leave before the termination date. (G-1 (B))

V. VOLUNTEERS - OFFICERS FOR TRAINING IN PHOTOGRAPHIC INTERPRETATION (British Personnel):

Attention of all officers is drawn to GRO 757/46 which calls for volunteers for training in photographic interpretation.

V. CONSERVATION OF GASOLINE (US):

The Rome Area Commander, by direction of the War Department, is instituting a very strict conservation programme for the conservation of gasoline. Excessive or unnecessary use of military vehicl for recreational purposes will be the subject of definite disciplinary action. Attention of all officers is invited to MTOUSA circular No. 126, dated 29 July 1946, subject: "Transportation of civilians in motor vehicles" and circular No. 101, dated 20 June 1946, subject: "Use of motor vehicles". Recreational trips outside the immediate limits of Rome will be authorized in writing by the Regimental Commander only. All trip tickets are being carefully scrutinized and uneconomical use of vehicles for recreational purposes are being reported for disciplinary action.

The physical supply of gasoline in the theater is very critical and failure on the part of any officer or enlisted man to use proper conservation of transportation will result in a forfeit of the use of that vehicle. It is necessary for all officers to take a personal interest in this gasoline conservation campaign and it is expected that a definite saving will be shown in this Regiment. (Hq 7106th Regt)

XI. THANKSGIVING FOOTBALL GAME (US):

There will be an Army-Navy football game at the small Stadium of the Rest Center on Thursday, 28 November 1946, at 1400 hours. This game will be open to the general public and it is hoped that all military personnel will invite their friends in Rome to attend. Between the halves of the game, members of the shoeshines (Sciuscia) will pass their hat for donations to this worthy cause. (Hq 7106th Regt)

XII. CONSERVATION OF GASOLINE (US):

The Rome Area Commander, by direction of the War Department, is instituting a very strict conservation programme for the conservation of gasoline. Excessive or unnecessary use of military vehicles for recreational purposes will be the subject of definite disciplinary action. Attention of all officers is invited to MTOUSA circular No.126, dated 29 July 1946, subject: "Transportation o civilians in motor vehicles" and circular No.101, dated 20 June 1946, subject: "Use of motor vehicles". Recreational trips outside the immediate limits of Rome will be authorized in writing by the Regimental Commander only. All trip tickets are being carefully scrutinized and uneconomical use of vehicles for recreational purposes are being reported for disciplinary action.

The physical supply of gasoline in the theater is very critical and failure on the part of any officer or enlisted man to use proper conservation of transportation will result in a forfeit of the use of that vehicle. It is necessary for all officers to take a personal interest in this gasoline conservation campaign and it is expected that a definite saving will be shown in this Regiment.
(Hq 7106th Regt)
