PRESERVATION OF PROPERTY OF HISTORICAL  
AND EDUCATIONAL IMPORTANCE IN ITALY

1. The following instructions for the protection of property of historical and educational importance apply to all territories administered directly by AFHQ.

2. To avoid needless damage to works of art, Allied Commission have prepared lists of the principal historical monuments, deposits of important documents (archived), and artistic treasures of Italy, with the degree of their importance indicated. These lists are known as "Lists of Protected Monuments" and supersede the lists printed in the Zone Handbook of Italy, and AFHQ General Order Number 68 of 29 December 1943 insofar as it refers to the Zone Handbook. For easy reference these lists are printed in sections on a regional basis, and will be issued on demand by the Monuments and Fine Arts Sub-commission of Allied Commission.

3. a. Districts and Basic Sections will insure that complete sets are maintained at their headquarters and that the undesignated keep a file of those sections which affect their areas of administrative control:

Headquarters Areas  
Headquarters Sub-Areas  
Town Majors  
Real Estate Officers.

24 ) b. Attached as Appendix "A" is an index showing the subdivision of the lists by areas, which may be used as a guide in requesting them.

4. All buildings listed in the "Lists of Protected Monuments" will be deemed "historical buildings" and will not be occupied when alternative accommodation is available or without the express authority in writing of this headquarters, which will in such instances consult the Monuments and Fine Arts Subcommission of Allied Commission. Consent will, however, normally be given when occupation is considered necessary in furtherance of the cultural, educational or welfare requirements of the Allied Forces. Churches will NOT in any circumstances be occupied.

AFHQ Adm Memo # 54 (cont'd)

5. a. Whenever it is found essential to occupy such buildings, the Commander of the occupying troops will be responsible that every reasonable precaution is taken to prevent careless or wilful damage and especially souvenir hunting. In the case of museums, galleries, libraries, repositories of documents and other cultural institutions, the contents will be stored separately from the parts occupied, communicating doors between the occupied and unoccupied parts of the building will be blocked, along with all unnecessary entrances from outside whether to the occupied or unoccupied parts. Notice boards will be erected, and all troops billeted in the building will be provided with passes and will be the only troops permitted to enter.

b. A single officer will in each instance be made responsible for the observation of these precautions and arrangements will be made whereby responsible Italian officials can have access for purposes of inspection.

6. Partial occupation of a large historical building, i.e. the occupation of only a small corner, or occupation by troops of more than one Allied Nation, will be avoided wherever possible. In the past buildings so occupied have suffered a high proportion of loss and damage, not necessarily attributable to the occupying units.

7. ALCOM has a staff of officers with expert knowledge of such matters who should be consulted in all cases of doubt. Where such officers rule that specific items e.g. of furniture should be included in those stored separately, their ruling will be binding subject to the right of appeal of the occupying unit to this headquarters through the normal channels.

8. In addition to the historical monuments etc. mentioned in the lists, there exist important repositories to which the more valuable treasures of museums and galleries have been removed for safety. The sites of such repositories are, with a few exceptions, included in the Lists, and these will on no account be occupied.

9. In the case of organized collections, written papers (Archives), and of books it is to be noted that even those which do not appear to be eminent may be of great importance, not only historically but as containing information necessary for the practical purposes of the war. Careless handling or disappearance can moreover be as harmful as destruction. In the event of the occupation of buildings, or parts of buildings, containing such collections, the commander of the occupying troops will be responsible for seeing that all reasonable precautions are taken to prevent damage or dispersal.

RESPONSIBILITY FOR THE EVACUATION AND  
ADMINISTRATION OF CIVILIAN REFUGEES

## 1. Refugees may be classified as follows:

a. Refugees who come through our lines. These are a GSI responsibility and are evacuated through FV channels for interrogation after which they may be detained, interned or released and handed over to Allied Commission. Instructions have already been issued regarding the procedure for dealing with such cases.

b. Refugees who are rendered homeless or whose removal becomes necessary for operational reasons or necessities. This class of refugee, which is the subject of this instruction, is initially an Allied Commission responsibility.

2. Serious economic problems arise out of the displacement of large bodies of civilians from their homes. Thus, provided their presence does not interfere with military operations nor endanger security and they are living in existing accommodation, civilians should be allowed to remain in forward areas.

3. Refugees will be billeted on inhabitants in the area wherever possible and will be evacuated the minimum distance considered necessary in relation to operations and available billeting facilities. The AG Refugee Officer attached to Corps and Army Headquarters will be responsible for making all arrangements for accommodation, feeding and supplying medical aid.

4. Refugees who cannot be accommodated locally will be evacuated to Italian Government Territory through forward Allied Commission Refugee Camps to Allied Commission Dis. Refugee Camps by arrangement of the AG Refugee Officer in conjunction with Armies and Corps.

5. Where necessary, arrangements will be made for such security screening as may be practicable. This will be coordinated by AG with GSI. Suspects will be segregated from the refugees and disposed of under arrangements made by GSI.

## I --- COMMAND AND ADMINISTRATION OF SARDINIA

Insofar as signal communications are concerned, the instructions contained in AFHQ Administrative Memorandum Number 30, 1943, have been superseded by "Signal Plan" dated 15 September 1944.

## II -- ROME ALLIED AREA COMMAND - COMMAND &amp; ADMINISTRATION

Paragraph 3 of AFHQ Administrative Memorandum Number 39, 1944 is amended as follows:

## "3. Assignment and Administration - U. S.

The 6750th Headquarters & Headquarters Company, Rome Allied Area Command (Ovhd) is relieved from assignment to M.T.C.S.A. and from operational control of A.A.I., and is assigned to AFHQ. Attachment to Sec. M.T.C.S.A. for administration and supply remains in effect."

## III - ALLOCATION OF LOCALLY PRODUCED FOODSTUFFS

1. It is anticipated that the problem of feeding the Italian civil population will become increasingly difficult as the large centers in the North fall into our hands.

2. To meet this situation the following principles will govern allocations of locally produced foodstuffs by the Food Supply Committee of the Allied Forces Local Resources (Italian) Board:

(a) In principle, locally produced foods which are readily stored or transportable will not be made available for allocation to the Armed Forces from 1 October 1944. Specifically, the following are not so available:

Dried vegetables  
Dried fruits.

(b) The local military and A.C.C. authorities shall consult together as to local surpluses, having regard to the possibility of moving the surpluses to another area as directed by the A.C.C. That portion of the surpluses which cannot be moved so as to arrive in good condition will be available to the Armed Forces under local arrangements. Specifically, the following fall in this category:

Green vegetables  
 Root vegetables  
 Hard fruits

(c) Certain relatively small quantities are required for the victualing of ships. These will be made available as a second priority after meeting the needs of hospitals (see paragraph 6 below).

(d) Hard green or root vegetables are bid for by the Armed Services at the Food Supply Committee, but of which there is no declared surplus, the Armed Services will offer at the same time the equivalent, or some other proportion, of preserved vegetables to the ACC for use as directed by the ACC in substitution of the green and root vegetables made available for the Armed Forces.

3. The ACC will not withhold from declared surpluses any commodities for use outside the area in which they are produced unless it has been established that they can be delivered in good condition in the areas in which they are required.

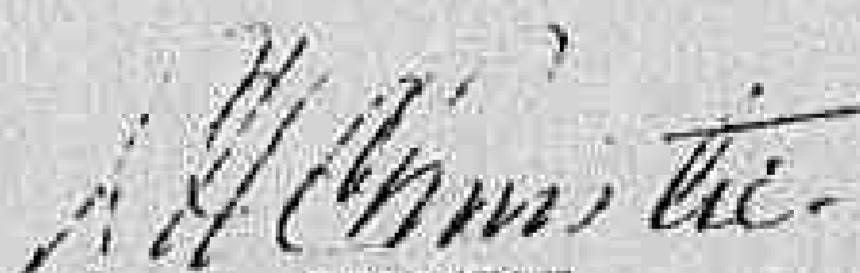

4. Potatoes: Owing to a failure of crop it will not be possible to meet the full estimated offtake which the Armed Forces should receive from the seed sown. The Chief Quartermaster, AFHQ and the Director of Supplies and Transport respectively, in consultation with AFIRS, AFHQ, will make an agreed final bid for locally produced potatoes. Thereafter paragraph 2 (b) above will apply.

5. Citrus fruits, soft fruits and nuts will continue to be made available under existing procedures.

6. Hospitals: The certified minimum requirements for hospitals for patients only, both British and American, will be met, and nothing in this instruction is to be read as limiting the necessary minimum supply of locally produced products to hospitals.

7. The American and British supply agencies respectively, in consultation with AFIRS, AFHQ, will issue such technical instructions as are necessary to give effect to this memorandum.

ACCOMMODATIONS IN ITALY

1. In order that there may be no misapprehension as to the attitude which should be adopted towards Italian private individuals, officials, and corporations in respect to obtaining necessary accommodation for military agencies or civilian agencies working for the armed forces, the following instructions will be strictly observed by all persons whose duty it is to obtain or allot accommodations.

2. It is desired to emphasize that strict adherence to this policy becomes increasingly necessary as more and more of the great centers of population in Italy come under our control. Every effort must be made to remove underground influences which might tend to limit the proper accommodation of military personnel and installations or civilian agencies working on their account.

3. a. The needs of all Italian agencies, whether commercial, governmental or private, are subordinate to those of the United Nations.

b. The fact that an Italian commercial or governmental agency or an Italian private individual or group of individuals may suffer inconvenience or hardship if evicted to provide for the needs of United Nations personnel will not be regarded as a valid reason for acceptance of less suitable accommodations offered alternatively.

c. In implementing these two principles the responsible officials of the United Nations agencies will not make unreasonable demands, but at the same time will not accept anything less than that which is necessary completely to fulfill their requirements.

2410 d. Intervention by Italian personnel, either by private individuals or through unauthorized channels, will not be accepted by any official of the United Nations. Persons making such approaches will be referred to the approved Italian agencies.

## HUNTING PARTIES

1. The participation of personnel of the Allied armed forces in hunting parties organized by or with local civilians in various sections of this theater presents a general security problem in that:

a. Firearms and ammunition are often in possession of and used by civilians in the parties without formal permit.

b. Often civilians travel in restricted military areas without formal permit, and only by virtue of the presence of Allied military or naval personnel in the parties. This tends to relaxation of enforcement of control measures by the military guard in the areas.

2. To provide for greater security, the following action will be taken by all concerned:

a. All allied armed forces personnel desiring to organize a hunting party must obtain specific permission on each occasion from the area or base commander to hunt in a certain locale for a certain period of time.

b. All civilians hunting or acting as hosts, guides or companions, must have in their possession, for each occasion, the following specific permits:

(1) Permit to hunt in certain locale for a certain period of time.

(2) Permit for travel involved.

(3) Permit for possession of firearms and ammunition carried.

2439

c. Allied armed forces personnel participating in the hunt will be responsible for obtaining the necessary permits for civilians accompanying the hunting party.

d. When obtaining permission or permits the owner and type of firearm and ammunition will be indicated.

e. Consideration will be given the danger to areas contiguous to hunting locale because of the range of firearms and ammunition used in the hunt.

2. The general policies for the disposal of material rendered surplus to requirements in these circumstances will be set by the War Department for United States property and by the War Office or other Ministry concerned for British property. In order that these policies may be implemented in an orderly manner and to the detriment of neither nation, the following instructions will be observed.

3. A joint committee will be formed at AFHQ for the formulation of procedure and the coordination of policy on disposals of British and American property in accordance with the policies set by higher authority. This committee will not assume the executive functions of final negotiation, accountancy, or physical transfer of any property disposed of. These functions will in all cases remain with the responsible military authority in accordance with the customs of the services of the two nations concerned.

4. The committee will be known as the Joint Disposal Committee, and will be composed as follows:

Joint Chairmen: Assistant Chief of Staff, G-4  
DAMG, G-4 (B)

Secretary : Will be provided by the Allied Force Local Resources Section, AFHQ

24 28 Members : Representatives of:

QM  
Q(Maint) Q(AE)  
Fiscal Director  
Financial Adviser  
And such other persons as the committee shall require to attend for any purpose from time to time.

5. Until further instructions are issued, the committee will confine itself to the disposal of:

dtd 12 May 1944, (cont'd).

b. Salvage (material, stores, supplies) which has no further value from a military standpoint and is available for disposal.

6. The functions of the Joint Disposal Committee in this respect will be as follows:

a. To receive lists of property or salvage, of the type referred to above, which is available for disposition by the British or United States Armies.

b. To maintain lists of responsible local firms or individuals to whom such material or salvage may be sold.

c. To recommend the best means for the disposition thereof in the interest of maintaining the economic balance of the country concerned, to avoid inflation of prices as a result thereof, or avoid the material falling into the hands of speculators.

d. To advise upon the prevailing commercial selling prices and prices at which similar material has previously been sold, and the conditions of the sale.

e. To provide any or all of the above data and such other information pertinent to the proposed transaction as may be useful and appropriate.

f. The Secretariat will keep formal records of all meetings held to decide on disposals.

7. United States or British authorities in the Mediterranean Theater of Operations having material which they desire to dispose of will submit a description thereof, together with their recommendations, to this headquarters for reference to the Joint Disposal Committee. (AG 321-1 (JDC) I-O)

III — CHANNEL OF COMMUNICATION WITH SUBORDINATE UNITS OF HEADQUARTERS ALLIED ARMIES IN ITALY

AFHQ Administrative Memorandum Number 56, 1943 series, is rescinded and the following substituted therefor:

1. This Headquarters will deal with Headquarters Allied Armies in Italy only, and not with subordinate units of that headquarters direct.
2. This does not effect the operation of direct channels on Special Staff technical and service matters or administrative matters dealing with purely United States or British affairs, where this is customary and normal procedure. Similarly, messages may be repeated for information to subordinate units when necessary.
3. In complying with this memorandum, all concerned will insure that a matter is not delayed by refusal to communicate with a subordinate headquarters when Headquarters Allied Armies in Italy has expressed a desire to use such a channel. Such arrangements will, however, be regarded as temporary and abnormal, and will be discontinued upon completion of the matter requiring direct communication with the subordinate headquarters. 4. To facilitate the formulation of a comprehensive program for the distribution of essential civilian supplies, copies of all outstanding requisitions for each area or region will be forwarded immediately by the responsible higher headquarters to the Committee of PLAMBO. All future requisitions will be forwarded through the committee for concurrence or comment.

5. In the discharge of its responsibilities, the committee will make the maximum use of Italian governmental agencies, the existing machinery of AGO/AMG and the facilities of the Allied Forces Local Resources (Italian) Board. #### II - CIVIL FOOD CONTROLLER (ITALIAN MAINLAND)

1. The situation in regard to supply and distribution of food for the Italian civil population is grave, and is liable, if unmitigated, to have an adverse effect on our ability to conduct operations. It may be desirable in certain cases to accept some diversion of military transport and/or supplies in order to alleviate situations which would result in internal security commitments, rather than to allow such internal security commitments to arise. The primary interest of this headquarters, in meeting the minimum food requirements in ITALY is to avoid interference with military operations. It is an over-riding military consideration that the civil population be fed. In emergencies where this consideration involves direct interference with military build-up and maintenance, the decision of the General Officer Commanding-in-Chief, 14th Army Group, will govern. Machinery for dealing with such matters is, therefore, being established immediately.

The significance for the execution of this policy will be that of the Central Committee of the Government of Italy, and the organization of the

will be given priority over all other AGO/AGM personnel except those of Allied Military Government Region III.

7. Direct communication between the committee and AGO/AMG areas and Regions on the mainland is authorized, but arrangements for such direct communication will be coordinated with the appropriate higher headquarters. Within the scope of its assigned functions, the decisions of the committee will be binding upon all AGO/AMG organizations on the mainland and its orders will be enforced by them.

8. Movement matters will be dealt with through local movement channels or coordinated with movements, PLATO, as directed by the chairman.

#### II - CIVIL FOOD CONTROLLER (ITALIAN MAINLAND)

It may be desirable in certain cases to accept some diversion of military transport and/or supplies in order to alleviate situations which would result in internal security commitments, rather than to allow such informal security commitments to arise. The primary interest of this headquarters, in meeting the minimum food requirements in ITALY is to avoid interference with military operations. It is an overriding military consideration that the civil population be fed. In emergencies where this consideration involves direct interference with military build-up and maintenance, the decision of the General Officer Commanding-in-Chief, 10th Army Group, will govern. Machinery for dealing with such matters is, therefore, being established immediately.

2. The machinery for the execution of this policy will be that of the Central Economic Committee established by Section I, above, under the chairmanship of the Deputy Chief Administrative Officer, AFHQ Advanced Administration Echelon (TAMBO).
