1. CIVILIANS EMPLOYERS PAY (Disbursing O)

- a. The Divisional Civilian Pay Officers of Divisions employing five (5) or more civilians will collect payroll money and payrolls for the pay period 1st - 15 April 1946, at the Disbursing Office, Room 162 on the first floor, Friday 19 April 1946.
- b. Civilians of Divisions where less than five (5) civilians are employed, will collect their wages direct from the Disbursing Office.

2. TRAVEL ORDERS FOR MOVEMENT BY ROAD AND RAIL (ADM. C - E)

- a. GRO 87/46 was designed to simplify the documentation side of travel as far as possible.
- b. Observations show that at the moment a good deal of unnecessary travel is taking place. Some of this is being indifferently disguised under the heading of duty. This is particularly noticeable at week-ends.
- c. It is essential that all unnecessary travel should be stopped, not only on account of waste of equipment, petrol, and particularly tyres, but also because the shortage of manpower has necessitated the reduction to a minimum in transit facilities. Excessive travel also entails the retention of an unnecessarily large number of ROME repair and recovery personnel distributed over the theatre.
- d. It is undesirable to complicate the permission for travel, but all commanders will assist in curtailing unnecessary movement. The following further restrictions will however be added to GRO 87/46.

SUBJECT: Road Discipline.

TO : See Distribution.

1. The largely increased numbers of vehicles traveling on the roads at night has recently attracted some attention. In a large proportion of cases the vehicles are travelling singly and it is noticed that included in the numbers are many Allied vehicles.

2. There must be some suspicion that many of the vehicles traveling after dark are doing so for improper purposes and the Italian Police, in a praiseworthy attempt to curb the illicit market and to increase public security, operate road blocks at night and stop all vehicles. Cases have occurred in which the drivers of Allied vehicles have attempted to rush these road blocks. All ranks whose duties require them to be on the roads after dark should be warned that they are liable to come upon such parties and that the fact of their not stopping when called upon to do so immediately arouses suspicion that their activities are improper. In such circumstances it is the practice of the Carabinieri to open fire.

3. At the same time it is felt that nowadays only exceptional circumstances should make it necessary for Allied vehicles to be singly on the road at night, and every effort should be made to reduce the numbers. Public security on the main roads in the Provinces surrounding ROME is not bad but cannot be described as complete, and cases are from time to time reported of vehicles being held up.

Subject: Utilization of Limited Assignment Personnel.

To : All Concerned.

1. In accordance with directives of the Commanding General, MTOUSA, every effort will be made to absorb and utilize limited assignment enlisted personnel in service and overhead units. A personnel audit was made for the purpose of spotting those jobs then being performed by general assignment enlisted men which limited assignment enlisted men could perform. General assignment men, who are replaced by limited assignment men, are to be retrained for combat service.

2. The 1st increment of limited assignment enlisted men have arrived in the various units, and problems are arising in effectively utilizing them. In the near future an officer from the Replacement and Training Command will contact units for the purpose of assisting in placement of limited assignment men.

3. Junior Officers and Non-commissioned Officers exercising immediate supervision of training must be impressed with the importance of their tasks. Painstaking effort must be taken and considerable leadership exercised to determine the capabilities of and to utilize each assigned soldier to best advantage in this program. The importance of on-the-job training must be stressed for the proper absorption of these men. Unit Commanders are enjoined to cooperate to the fullest extent.

INSTRUCTIONS FOR OFFICERS ACTING AS MILITARYCOMMANDERS IN CHARGE OF TROOPS EMPLOYED INAID OF THE CIVIL POWER IN ITALIAN GOVERNMENTTERRITORY

1. It may happen that cases will occur when the local Italian authorities may ask for the assistance of Allied Troops to quell civil disturbances.
2. If such a request is made the local commander will take no action unless he is satisfied that Allied lives or property are in danger or that assistance is necessary in order to protect Allied military interests. He will point this out to whomsoever makes this request, adding that the quelling of Italian riots and disturbances is a responsibility of the Italian Administration and that if he gives such assistance the territory in question will forthwith become an Allied Military Zone.
3. After receiving such a request the local commander will, if time permits, consult the local ACC officer and seek instructions from his superior commander before giving assistance. In any event he will inform his superior commander of any request made to him and the action taken thereon without delay.
4. Within the limits of the City of Rome the only authority for ordering Troops to take action in aid of the Civil Power is HQ Rome Allied Area Command. Any requests for assistance will be referred by the quickest possible means to this Headquarters.
5. Within Rome Allied Area Command but outside the City limits, any officer who receives such a request for assistance will, if time and circumstances permit, similarly refer the request to this Headquarters. In the event of Emergency, however, when in the judgment of the Officer concerned circumstances do not admit of the delay involved in referring the matter to this Headquarters, he will act on his own initiative but will invariably report action taken at the earliest possible moment.
6. Firearms will only be employed when the Military Commander is of the opinion that loss of Allied lives or the destruction of valuable installations will result unless drastic measures are taken.
7. If firearms are used the following procedure will be adopted except in the case of the gravest emergency:
 - a. The intention that firing is about to take place will if possible be made clear to the rioters. A line of levelled rifles is the clearest possible indication. If possible some announcement should be made that unless the crowd disperse within a stated period they will be fired on.
 - b. The actual firing will be done by a comparatively small number of soldiers selected for their training and marksmanship.

3. After receiving such a request the local commander will, if time permits, consult the local ACC officer and seek instructions from his superior commander before giving assistance. In any event he will inform his superior commander of any request made to him and the action taken thereon without delay.

 - b. The actual firing will be done by a comparatively small number of soldiers selected for their training and marksmanship.
 - c. A limited number of rounds will be fired from each rifle and that number clearly stated before the order to fire is given.
 - d. The soldiers detailed to fire will if possible concentrate their aim on the ringleaders or apparent ringleaders and will not fire indiscriminately into the crowd.
 - e. Shots will not be fired over the heads of the crowd, and blank rounds will not be fired.
 - f. Automatic weapons will not be used.
 - g. All precautions will be taken to prevent the shooting of women and children.
 - h. Firing will cease as soon as it becomes effective.

3. No application will be given consideration and no certificate of approval of the proposed marriage will be granted until paragraph 2 hereof has been fully complied with, unless the Commander U. S.  - (2) Existing laws of the United States prohibit the admission into the United States of aliens ineligible to citizenship. This means that persons of Asiatic or East Indian descent, even though married to American citizens, cannot be admitted to the United States.
 - (3) The laws of a number of States do not recognize as valid any marriage contracted between persons of certain different races, regardless of whether the marriage was valid where contracted.
 - (4) The alien wife of an American citizen will be denied admission to the United States if the American consular officer determines that she is likely to become a public charge. The consul's decision that the wife is likely to become a public charge is not subject to revision or appeal.

- (6) The spouse will be entitled to allotments, insurance and other benefits authorized by the laws of the United States for the wives of naval personnel; however, dependency allowances will cease to be paid six months following the termination of the present war.
- (7) No special living arrangements or privileges will be granted as result of marriage in this area.
- (8) So long as the war continues, naval personnel are subject to transfer and change of station in accordance with the exigencies of the service. It is manifest that family considerations cannot and will not be taken into account when transfers are made, either within an area or from one area to another, or to the United States.

(9) For the period of the present war and for 6 months thereafter transportation of dependents and household goods of naval personnel from overseas theaters to the United States, or from one theater to another, will not be furnished at Government expense.

(10) In general, all naval personnel, except those who entered the service outside the continental United States, will be returned to the United States prior to discharge. Facilities for the transportation of the dependents of any such personnel from an overseas theater to the United States are not available and it is doubtful that such will be available for a long period of time after the cessation of hostilities.

b. The commanding officer making the first endorsement on each application to marry will include a statement that the applicant has read and understands the provisions of this letter.

6. Naval personnel in this area, and attached to this command, marrying contrary to the provisions of this circular will be tried by court martial."

2. The following excerpts from reference (b) are quoted for information of all hands:

"1. No applications made for permission to marry pursuant to reference (a) will be approved until thorough investigation of the case has been made and the necessary security clearances obtained through the intelligence organization of the Command.

2. No marriages will be approved in the case of Fascist or Nazi suspects or persons suspected of subversive activity or disaffection to the Allied Cause.

3. No marriages will be approved with persons who have escaped from enemy-held territory within twelve (12) months prior to the date of the application, Allied Military and Naval personnel being excepted."

1. Under Article of War 2, "all persons accompanying or serving with the Armies of the United States in the field" are subject to military law and may be tried by court-martial.

2. Under international law, when enemy territory is occupied by an invading power, it is the duty of the invading power to establish and maintain a Government for the control and protection of the civilian population. 3. In Italy, therefore, not only the military forces, but all persons accompanying or serving with the Armies of the United States will be tried by court-martial for offenses properly brought before such courts. This will include military personnel, U.S.O. and Red Cross personnel, merchant seamen, lease-lend personnel, and all others serving directly with or under the Armies in the field, but will exclude naval, coast-guard, and diplomatic personnel of the United States.

4. Native inhabitants, whether citizens of Italy or citizens of other countries, will be tried for their offenses by the courts established by Allied Military Government, which is the agency established by the invading powers for the government and control of the occupied territory. All offenses committed by native inhabitants will be vigorously prosecuted, and unit commanders are directed to lend every reasonable assistance to the Allied Military Government in the apprehension, prosecution and confinement of such offenders.

5. The foregoing will be brought to the attention of all military personnel of this command and all civilians who are in the PMS territory.

The censor shall assure himself that the initials are genuine, and shall stamp, reinitial, and pass such mail in the regular manner without reading. All other officers and all enlisted men shall submit their mail for reading and censoring.

(b) No censor shall censor his own correspondence; such correspondence shall be censored by other censors.

15. Action by censors.

(a) The officers detailed as censors for the Administrative Headquarters will be instructed and organized by the Chief Censor with a view to minimizing delay in forwarding mail consistent with proper performance of the censorship function.

(b) Censors may suppress, delete parts, or delay correspondence that passes through their hands as the circumstances appear to them to warrant. Outgoing correspondence may be returned to the sender for correction, and this shall be done when the number of deletions would be large. The censor shall, through the use of comment sheets, immediately notify the Director of Naval Intelligence of any suspicious circumstances which come to his attention in the execution of his office. Deletions shall be made by cutting out in the case of ordinary letters, and by the use of Censoring in the case of V-Mail.

(c) Censors shall keep a log of all currency, coin, money-orders, checks or other valuables enclosed in letters, showing date, name of sender and addressee, description of contents and name of censor handling the correspondence.

(d) No deletions shall be made on postal money-orders. No deletions shall be made on legal or notarized documents, bonds, certificates, forms, etc., when the validity of such forms would be compromised.

(e) Except in official reports by use of Comment Sheets (reference (a) page 28) censors shall not divulge or discuss information contained in correspondence read by them. 17. Miscellaneous.

(a) Official correspondence is not subject to censorship by naval censors.

(b) Official printed letterheads shall not be used for private correspondence.

(c) It is not desirable to have mail posted in division mail boxes, nor should the mail of a division be regularly censored by an officer of that division.

(d) Nothing in these regulations shall be construed to forbid the taking of legitimate correspondence courses by naval personnel.

(e) After correspondence has been censored, sealed, and stamped, it shall be safeguarded and delivered to the Navy Post Office as expeditiously as practicable.

RESTRICTEDSUBJECT: Procedure for Red Cross Messages. *Secretary General*Fifth Army (25)
Eighth ArmyAdv Headquarters,
Allied Armies in Italy
46/2/G(Ops)
17 Oct 44. *C*

1. Effective 1 October 1944, the following procedure will govern the transmission of American Red Cross messages through official Signal channels.
2. Under authority contained in AR 850-75, the American Red Cross will transmit messages for any United States' officer or enlisted man who desires information relating to family matters of an urgent nature.
3. The message must:
 - (a) Relate solely to family or urgent business matters.
 - (b) Not exceed twenty-five plain English words.
 - (c) Include individuals first and last name, serial number, unit and APO number.
 - (d) Include name and address within the continental limits of the United States for Red Cross to make delivery or inquiry.
 - (e) Not contain terms of endearment, congratulations, greetings, etc.
 - (f) Except as indicated in c, above, will not contain any reference to any unit, headquarters, or any location in the command.
 - (g) Be approved, censored and authenticated by the writer's immediate commanding officer, who will indicate these actions over his signature on the message.
4. One of the following systems will be used:
 - (a) The individual may contact the nearest Red Cross representative who will obtain the necessary facts and transmit them by most expeditious means to the nearest Red Cross Regional Office.
 - (b) When no Red Cross representative is available, the organization *with office* commander will transmit facts to the nearest Red Cross Regional Office.
 - (c) Any United States officer or enlisted man may file a message in duplicate at any Army message center addressed to the American Red Cross (AMCROSS). Message centers will transmit such messages to the nearest Red Cross Regional Office.
5. The Red Cross will transmit information received in answer to inquiries by most expeditious means to the individual concerned.

RESTRICTED

6. The Red Cross will refuse to accept or forward messages which do not conform to the requirements of paragraph 3, above.

7. Procedure for handling AMCROSS traffic:

(a) Sealed envelope addressed to AMCROSS.

- i. It will normally be transmitted by next scheduled motor or airplane messenger to the nearest American Red Cross Regional Office.
- ii. It will show a return address of the unit filing the message, or the individual's name, serial number and APO address.

(b) Messages filed in duplicate at a message center.

- i. The original message normally will be handled as in paragraph 4 a, or it may be transmitted in clear over Signal Corps wire telegraph channels available to the nearest Red Cross Regional Office. Precedence below all official traffic will be accorded these messages. The duplicate copy is retained and handled as in normal message center procedure.

8. The American Red Cross Regional Office will prepare a consolidated message, omitting unit designations, of approximately 1000 words, in triplicate, on the regular message form for transmission to AMCROSS, Washington. The message will then be presented to the base censor for approval and after being censored will be filed at a message center for transmission. All three (3) copies will be given a message center number and filing time. The original will be routed via radio to WAR "in the clear" with the second copy handled as the message center file copy. The third copy will be returned to Red Cross for their file. (Reference number is optional.)
