TRANSLATION

BIOGRAPHICAL AND POLITICAL DATA ON THE FORMER FASCIST LEADER

ON THE PRESIDENCY OF THE COUNCIL

Born in La Spezia on April 24, 1900, son of the late Giuseppe and Maria
Santini.

Never a member of the M.S.I., under the surveillance of the police for political reasons, arrested and warned by the police of the M.S.I. in Milan where he studied in the university; he belonged to the Milanese group of the "Avanguardia Libera" ever since it was founded, with Piero Gobetti, Riccardo Bauer, etc.

Since 1924, he subscribes to the "critica" of Benedetto Croce. During war against Ethiopia and Spain, he got warnings from the M.S.I. and the political police because of his attitude regarding these enterprises, which he thought fatal for Italy and for the future peace of the world. Because of his attitude, he could take no part in public life though he strongly attracted him, and he lived apart, giving private lessons and studying the internal and international political problems, the development of which he never ceased to follow by means of books, periodicals, the press, especially the foreign one, and the radio. In spite of the pro-M.S.I. policy, like many Italians and many of his friends, he was a partisan of the cause for which the United Nations that represented for him the salvation of Italy and of all nations, were fighting. In spite of the threats and warnings of the political authorities and of the fascists, he made a strong propaganda in that sense. When fascist collapsed, he pleaded for immediate peace, and a young friend of his, a member of the liberal party, the engineer Antonio Rossi urged the workers of the "Iri" establishment in Spezia to make a fascist demonstration; for this, etc. Rossi was arrested. The anti-fascist Committee of which he was a member met at his house, and with a delegation of this Committee, he went to Rome to talk to the M.S.I. Council, then President of the National Anti-fascist Committee. After the arrest, as the armed forces of the district were melting, he left for Rome at the end of September, not to be taken by the German and heading to consult with his political friends on what was to be done. With him was his young friend, Lieutenant of the R. Navy Sergio Colombo who, after they had together passed the firing line, near Campobasso, in the middle of October, enlisted in the Italian Navy to fight the Germans. As he couldn't trace his friends in Rome, in spite of various captivities, he made up his mind to reach liberated Italy.

As soon as he reached Bari, he contacted the Anti-fascist Committee. In the same time, delegated by the party, he organized with etc. Giuseppe Intenza the regional section of the Italian Liberal Party. At the same time, at Radio Bari, on the request of M.S.I., he spoke every evening about political subjects; the daily note of our country till the transfer of the personnel to Radio Napoli, and he also spoke for the liberal party. He wrote in the "Avanguardia Libera" and he was a member of the congress of the six anti-fascist parties in Bari in the end of January 1944, and as a closing speech made the declaration of the liberal party. He is a member of the Directive Committee of the Italian Liberal Party. He is a member of the Presidency of the Council,

Since 1924 he subscribed to the "vision" of Benedetto Croce. During war against Attilio and again, he got warnings from the F.I.R. and the political police because of his attitude regarding these enterprises, which he thought fatal for Italy and for the future peace of the world. Because of his attitude, he could take no part in public life though it strongly attracted him, and he lived apart, giving private lessons and studying the internal and international political problems, his development of which he never ceased to follow by means of books, periodicals, the press, especially the foreign one, and the radio. Disapproving of the pro-Axis policy, like many Italians and any of his friends, he was a partisan of the cause for which the United Nations that represented for him the salvation of Italy and of all nations, were fighting. In spite of the threats and warnings of the political authorities and of the fascists, he made a strong propaganda in that sense. When fascist discipline, he pleaded for immediate peace, and a young friend of his, a member of the liberal party, the engineer Antonio Rossi urged the workers of the internal establishment in Spezia to make a fascist demonstration; for this, eng. Rossi was arrested. The anti-fascist Committee of which he was a member met at his house, and with a delegation of this Committee, he went to Rome to talk to the M. Rossi, then President of the National Anti-Fascist Committee. After the arrest, as the armed forces of the district were melting, he left for Rome at the end of September, not to be taken by the German and meaning to consult with his political friends on what was to be done. With him was his young friend, sottotenente of the R. Navy Sergio Colombo who, after they had together passed the firing line, near Capri, in the middle of October, enlisted in the Italian navy to fight the Germans. As he couldn't trace his friends in Rome, in spite of various captives, he made up his mind to reach liberated Italy.

As soon as he reached Bari, he contacted the Anti-Fascist Committee. In Bari, delegated by the party, he organized with eng. Giuseppe Laterza the regional section of the Italian Liberal Party. At the same time, at Radio Bari, on the request of F.I.R., he spoke every evening about political subjects; the daily note of our observatory till the transfer of the command to Radio Napoli, and he also spoke for the liberal party. He wrote in the "Lavoro", for Ezzeogiarino of Bari. He was a member of the congress of the six anti-fascist parties in Bari in the end of January 1944 and as a closing speech made the declaration of the liberal party. He is a member of the directive committee of the Italian Liberal Party. He is a member of the Press Office of the Presidency of the Council, appointed with other five members chosen in the other parties. He has a perfect knowledge of the men and problems of Spezia and his coherence and constancy have won him great esteem among his most enlightened fellow-citizens.

NOTA BIOGRAFICO-POLITICA DEL GIORNALISTA PIERO MORELLI
DELLA PRESIDENZA DEL CONSIGLIO

Nato a La Spezia il 24 aprile 1900 da fu Giuseppe e da Amelia Simonini.

Mai iscritto al P.N.F., schedato e vigilato politico, fermato e ammonito dalla polizia e dal P.N.F. Dalla fondazione, a Milano dov'era studente universitario, partecipò al gruppo milanese della "Rivoluzione Liberale" con Piero Gobetti, Riccardo Bauer, ecc.

Dal 1924 è abbonato alla "Critica" di B. Croce. Al tempo della guerra etiopica e di quella di Spagna fu ammonito dal P.N.F. e dalla Polizia politica per il suo atteggiamento avverso a tali imprese, che riteneva infuiste per l'Italia e per la futura pace del mondo. Per il suo costante atteggiamento fu costretto a tenersi lontano dalla vita pubblica e cui lo spingeva pertanto una fortissima inclinazione, e visse in disparte dando lezioni private, dedicandosi però intensamente allo studio dei problemi politici interni ed internazionali, di cui ha seguito costantemente lo sviluppo anche attraverso libri, periodici ed in genere la stampa, specie quella estera e la radio. Avverso alla politica pro Asse, fu come moltissimi italiani, e tanti suoi amici, partigiano della causa per cui combattevano le Nazioni Unite in cui vedeva la salvezza dell'Italia e di tutte le Nazioni.

Fece una assidua opera di propaganda in tal senso, malgrado gli avvertimenti e le minacce delle autorità politiche e dei fascisti. Alla caduta del fascismo perorò per la pace immediata e fu un suo giovane amico del Partito Liberale, l'Ing. Antonio Rossi, che allo stabilimento della "Terni" di Spezia incitò gli operai alla dimostrazione antifascista per cui l'Ing. Rossi fu arrestato. Per delega avuta da Roma riorganizzava a Spezia il Partito Liberale. Il Comitato antifascista, di cui era membro, si riuniva nella sua abitazione e con una delegazione di questo si recò a Roma a conferire con l'On. Bonomi, allora Presidente del Comitato Nazionale Antifascista. Dopo l'Armistizio, di fronte alla liquefazione delle forze militari del dipartimento e per non essere preso dai tedeschi, partì verso la fine di settembre per Roma allo scopo di deliberare con i suoi amici politici sull'azione da svolgersi. Era con lui il suo giovane amico, il Sottotenente della Regia Marina Sergio Colombo che si è arruolato, dopo che avevano insieme passato la linea del fuoco, nei pressi di Campobasso, alla metà di ottobre, nella flotta italiana per combattere contro i tedeschi. A Roma non essendogli riuscito di rintracciare i suoi amici politici, malgrado i ripetuti tentativi fatti, decise come si è detto di passare nell'Italia liberata.

Appena giunto a Bari si mise in relazione col Comitato Antifascista. In Puglia organizzò, per delega del Partito, con l'Ing. Giuseppe Laterza la sezione regionale del Partito Liberale Italiano. Contemporaneamente alla Radio Bari, per incarico del P.W.B., tenne una rubrica di commento politico serale: "La nota quotidiana del nostro osservatore" sino al trasferimento del personale a Radio Napoli, e parlò pure alla radio come portavoce del Partito Liberale. Collaborò alla "Gazzetta del Mezzogiorno" di Bari. Partecipò al congresso dei sei partiti antifascisti a Bari alla fine del gennaio 1944 e pronunciò in chiusura la dichiarazione del Partito Liberale. E' membro del Comitato Direttivo del Partito Liberale Italiano. Fa parte dell'Ufficio Stampa della Presidenza del Consiglio chiamato con altri cinque membri scelti negli altri partiti. Conosce minutamente gli uomini e i problemi di Spezia e la sua coerenza e costanza gli hanno valso fra i suoi concittadini più illuminati larga stima.

1) Reference attached correspondence forwarded to Commerce
Sub-Commission for attention.

2) It is regretted that Count Amedeo d'Inzillo's application
for a position as Commissar of the A.G.I.P. cannot be taken into
consideration as, acting on instructions from Petroleum Section
A.F.H.Q., we have already requested the Italian Government to ap-
point the Managing Committee of C.I.P. to the post in question. The
Oil business is a highly complex and specialised field with Inter-
national ramifications and, apart from any other consideration, it
is felt that only such a body as the Managing Committee of C.I.P.
could adequately administer A.G.I.P. under present conditions.

3) Regarding Count d'Inzillo's other suggestion that he be
considered as Commissar for the Ente Nazionale Turismo, an organi-
sation formed for the purpose of fostering the Tourist Trade, re-
habilitation of hotels, etc., it is submitted that such functions
do not come within the province of this Sub-Commission.

RESUME

D'AMICO Amadeo born in New-York in 1907. Father, American citizen, has worked and lived in America for many years.

Owner of one of the best industrial agricultural enterprises in Calabria; part of the family is now living there; the enterprise, managed by the father himself, is in full activity. Since he came back from America, his father has dedicated himself exclusively to his own estates, purposely and always avoiding to take part in any political activity; no member of the family ever took any part in fascist policy.

An only son, he is married and has two children.

A cavalry officer permanently in active service, he has been many years out of Italy. From 1931 to 1936 he was in Tripolitania - Cirenaica and East Africa, and from May to November 1940 he was in Alania as ADC to his Excellency General Count Visconti Rasco.

He has five distinguished service medals.

When the Nazi troops occupied Rome, he put himself at the disposal of General Visconti Rasco. Because of the arrest of the same General who was transported to Poland after many sufferings, the undersigned was several times requested to present himself before the military authorities, and the Germans actively looked for him. After finding a hiding place for his family because of reprisal threats from the fascist military authorities, he found shelter in the Basilica of S. Giovanni in Laterano, and later, always with the help of his Excellency Mons. Montini, in the American college, on the Gianicolo. Protected by the American Rector, the undersigned, in spite of the danger, remained for more than 2 months in contact with about 40 Anglo-Americans who were refugees or who had avoided from concentration camps. He is proud to say that he is the only Italian officer who lived with these prisoners.

When the allied troops came to Rome, he detached his family and immediately presented himself before his superiors, filling the personal questionnaire requested from him.

during German occupation

When the fact that he did his duty to his country will be acknowledged, the undersigned will permanently resign from the army for family reasons, and work for the reconstruction of the country.

He has dedicated all his activity and possibilities to the agricultural-industrial field.

Glenn for many months, he didn't earn anything since August 1943; as he was not working, he spent money but earned nothing.

Owning shares of several North Italy companies, he had to give up all dividends, for fear of being found.

The undersigned is related ^{to} or knows manufacturers or agriculturists in Italy.

He gives his word of honour that all he said is true, and asks the Allied Regional Commissioner to recompense him morally, putting himself at his disposal for any job which might be deemed useful for an active collaboration, in the heavy task of reconstruction.

Dear Admiral Stone,

The advocate Raffaele Lanzara had been appointed by my predecessor commissioner of the 'National Institution of the Dopolavoro' for the secondary seats in liberated territory.

Rome having been liberated, it is now necessary to appoint a new commissioner whose powers would stretch not only to the secondary seats in liberated territory, but also to the central seat which is in Rome.

I thought of appointing Sig. Vincenzo Baldazzi, who would be helped by the adv. Giuseppe Berlingieri and adv. Raffaele Lanzara, both of them vice-commissioners.

I take the liberty of stressing the fact that the new commissioner ought to occupy his post as soon as possible, for the present situation is causing serious inconvenience; also, the abovementioned institution must be put in a condition which will enable it to resume its regular work.

Will you kindly let me know if you have anything against these appointments.

I remain,

Yours sincerely,

Caro Ammiraglio Stone,

a commissario dell'"Opera Nazionale Dopolavoro" per le sedi secondarie site nel territorio liberato, fu nominato, dal mio predecessore, l'avv. Raffaele Lanzara.

Avvenuta la liberazione di Roma - ove ha la sede centrale il predetto ente - occorre ora procedere alla nomina di un nuovo commissario, i cui poteri, oltre che alle sedi secondarie site nel territorio liberato, si estendano anche alla sede centrale.

Sarebbe mio proposito nominare a tale carica il sig. Vincenzo Baldazzi, coadiuvato dall'avv. Giuseppe Berlingieri e dall'avv. Raffaele Lanzara, in qualità di vice commissari.

Al riguardo mi permetto di richiamare la Sua attenzione sulla necessità che il nuovo commissario entri in funzione al più presto, al fine di ovviare ai gravi inconvenienti che derivano dalla presente situazione e mettere l'Ente suddetto in condizione di iniziare il suo regolare funzionamento.

Pertanto, Le sarei grato se Ella volesse comunicarmi se nulla osti a tali nomine.

Si abbia, caro ammiraglio, il mio cordiale saluto

A 314
18 SEP 1944

My understanding of yesterday's conversation about the question of an investigation into what happened in Rome on 8th, 9th and 10th September, 1943 is as follows:-

You would say orally to Signor Bonami that the Allies were, of course, not against an enquiry in principle. The question at issue was whether an enquiry of the kind proposed was opportune here and now. As to that, our view was that a general enquiry would not be helpful. For instance, not all of the witnesses were present in liberated Italy. Surely the proper procedure would be for the cases of the two Generals in Naples to be tried in the ordinary courts. If in the process of these trials officers and officials in Rome were implicated, their cases should be investigated by the committee which the Government has already formed and the result of the investigation transmitted to the Court. If the investigation showed that they had committed any punishable crimes, then they should be tried in exactly the same way as the two Naples Generals.

Is this right?

My dear Mr. Prime Minister:

I understand that in order to make it possible to meet the responsibility of feeding the Italian people, the Ministry of Agriculture, in cooperation with the Commission's Food Sub-Commission, has worked out a program requiring certain steps of reorganization within the Ministry of Agriculture.

At a conference held at the Ministry of Agriculture on 24 August, the final plans were approved, providing for the setting up of a Direzione Generale dell'Alimentazione which would take over the functions of the old "Federazione Generale dell'Alimentazione" and the "Direzione Generale della Tutela". It is understood that the old Parametral distribution offices such as UCEFAP, UDOGA, UCOF, etc., are to be abolished and a new organization, the "Ufficio Nazionale Approvvigionamento Distribuzione Alimentare (UNADA)" set up. The above changes appear to have the full approval of the Ministries of Agriculture and Finance and is agreed to by the Commission.

It appears that this matter was on the agenda of the last Cabinet meeting but was not reached and that it will be brought up at the Cabinet meeting on Thursday, 14 September. The approval of the plan and proposed changes will be most helpful in solving what is recognized to be the most important problem before all of us at this time. I shall be glad if you can give this matter your personal attention and have it considered at the Cabinet meeting Thursday.

No doubt there will be many administrative details connected with the plan which are, however, extraneous to the main issue and which will have to be settled by the Ministries concerned. But I feel that the plan as such could be approved and the details resolved later.

Yours very truly,

Precis:

x-100-2 Do not believe Ital Govt should be asked to look into adequacy of relief payments: you (Gen O'Dwyer) are right that present payments are inadequate, but then payments if larger would only tend to drive prices higher, and initiate wholesale demands for wage etc increases from other quarters.

x-100-2 Further, any increase in living conditions could be accomplished (re Anti-Inflation Committee report) by increase in rationed commodities rather than by any increase in salaries or income.

A 112
2 SEP 1944

Dear Admiral,

The Government, in order to reply to the lively insistence of public opinion -- which is unanimous in asking for light on the events of 8-9-10 September in Rome -- has decided to appoint a Commission of Inquiry to inquire into the matter and refer it to the public.

This Commission will be presided over by an eminent military personality, General Asantea, and composed of two generals, generals Ago and Bencivengo, and by six members representing the six parties now in the Government.

I wanted to inform you of all this asking you to give me -- with the greatest urgency -- your views in the matter.

I await your early and courteous reply and send you my best and most cordial greetings.

Most devotedly,

My dear Mr. Prime Minister:

This is in reference to your letter L-908/10720-1/3.1 of 25 July 1964 relative to the issuance of Allied Military rations to all persons of the Italian Central Administration, who are really in need, estimated by you to be some six or seven thousand.

It is unfortunate that this matter was not settled prior to the transfer of the government from Salerno to Rome. Subsequent to my letter of 27 June to you on this matter and prior to receipt of your letter of 25 July, the Allied Military authorities, after pressing us for an answer, which we were unable to give, arrived at a decision "that the only members of the Italian Government who will be issued with passions will be the Ministers and their Under Secretaries".

I appreciate that it is the several thousand people who are really in need, and not the Ministers and their Under Secretaries, for whom you feel consideration should be given. The Salerno situation with respect to rations for Central Administration employees was somewhat different from the present situation. There an effort was being made to protect the food supply of a relatively small community and to assist people most of whom had no established contacts or homes in that area.

It is suggested that there doubtless would be criticisms of your government and the Allied Authorities on the ground of favoritism of Central Administration employees and discrimination against a much larger number of unfortunate people outside the Central Administration, who are similarly situated, if it were possible to issue several thousand rations to government employees only. It is possible that the political reaction would be undesirable if rations were furnished only to Ministers and their Under Secretaries.

It seems to me the answer to this problem lies in increasing the amount of food available for all inhabitants of Rome--a problem on which, as you know, we are diligently working, and with some degree of success.

Do you concur that I should inform the Military Authorities that issuance of rations to Ministers and their Under Secretaries is not desired and that the matter of special rations for the Italian Central

Administration may be considered closed?

My dear Mr. Prime Minister:

This is in reference to your letter 10908/10720-1/3.1 of 25 July 1944 relative to the issuance of Allied military rations to all persons of the Italian Central Administration, who are really in need, estimated by you to be some six or seven thousand.

It is unfortunate that this matter was not settled prior to the transfer of the government from Salerno to Rome. Subsequent to my letter of 27 June to you on this matter and prior to receipt of your letter of 25 July the Allied Military Authorities, after pressing us for an answer, which we were unable to give, arrived at a decision "that the only members of the Italian government who will be issued with rations will be the Ministers and their Under Secretaries".

I appreciate that it is the several thousand people who are really in need and not the Ministers and their Under Secretaries, for whom you feel consideration should be given. The Salerno situation with respect to rations for Central Administration employees was somewhat different than the present situation. There an effort was being made to protect the food supply of a relatively small community and to assist people most of whom had no established contacts or homes in the area.

It is suggested that if it was found possible to obtain authority for the issue of several thousand Allied rations for needy employees of the Central Administration in Rome, considerable difficulty would be experienced in the determination of who would be entitled to the issue and most certainly there would be criticism from a much larger number of unfortunate people outside the Central Administration, who are similarly situated. The reactions from a political point of view would no doubt be undesirable.

It now appears that it will be most difficult to obtain authority for the issue of rations other than to the Ministers and Under Secretaries. I feel sure that from the political effect alone you would not favor an issue to such officials. It has been suggested that the Military Authorities possibly would consider the issue of rations to those persons who were not residents of the Rome area and were brought here by the government at the time of the transfer, provided such persons are specialists of some nature, whose services could not be dispensed with by employing available people who regularly reside here. In such cases it would appear that general messes could be established in order to avoid the issue of rations to individuals. Such persons, of course, would be required to surrender their ration cards and rations would be available to those specialists actually employed by the Central Administration and not ex-

tended to members of their family. The cost of such ration would be born by those who received them.

It is not known how many persons there are that would be included in such a plan. The number involved would no doubt have considerable bearing on the decision of the Military Authorities if they are asked to consider the matter on the basis mentioned above. If in your opinion there is merit to a suggestion of this nature and if you will indicate to me the number of persons so situated, who would receive their food through messes under Central Administration operation, I will submit the matter to the Military Authorities for reconsideration.

Professor Guido CASTELNUOVO, former holder of the chair of plane and solid geometry with the faculty of mathematics of the University of Rome, is today 78 years old.

He is considered one of the greatest living mathematicians and his scientific fame rests above all on his researches in algebraic geometry.

Even after having left teaching by reason of his age, Professor Castelnuevo did not cease his scientific research. He recently published his "Essay on the Calculus of the Laws of Chance", which has quickly become a classic text on the subject.

Of the Jewish religion, he suffered persecutions under the Nazi-Fascist regime.

Il prof. Guido CASTELNUOVO, già titolare della cattedra di geometria analitica e proiettiva presso la facoltà di matematica dell'Università di Roma, conta oggi 78 anni.

Egli è considerato come uno dei maggiori matematici viventi e la sua fama di scienziato riposa soprattutto sulle sue ricerche di geometria algebrica.

Anche dopo lasciato l'insegnamento per limiti di età, il prof. Castelnuovo non ha desistito dalla ricerca scientifica: recente è la pubblicazione del suo "Trattato sul calcolo delle probabilità", divenuto in breve un testo classico nella materia.

Di religione israelita, egli ha subito persecuzioni sotto il regime nazi-fascista.

PRESIDENCY OF THE COUNCIL OF MINISTERS

Cabinet

No. 7258 of Prot.

Salerno, 20 June 1944

To: Captain Ellery W. Stone, USNR
Allied Control Commission.

I have the honor of communicating to you the information requested in your letter dated 7 June.

On 1 February 1944 290 rations were drawn. At the end of the same month the number rose to 1400, and on 31 March to 1750 rations. The number rose to 2200 at the end of April and finally to 2400 in the course of the month of May.

In the figures listed above are included the soldiers (officers non-commissioned officers, and troops) under the command of the 2nd Company of the Independent Ministerial Unit (Reparto Autonomo Ministeriale), with offices in Salerno.

Since 11 June, however, following the clarifications furnished us by the Control Commission and the particularizations communicated by the Ministry of War, those belonging to this unit have no longer been included in the drawing of supplies for the civilian personnel of the government.

Hence from the above date, as the attached table shows, about 1400 rations have been drawn daily for the entire Central Administration.

I have reason to make the reservation that as long as the government is located at Salerno, this number might vary between 1300 and 1500 rations at the most.

The personnel for whom rations are drawn belong to the following categories:

- a. Members of the government (Ministers & undersecretaries)
- b. Employees of Group (a) (Officials possessing a university degree or its equivalent)
- c. Employees of Group (b) (Clerks & employees, in general, in possession of a diploma from a superior technical high-school, "Istituto medio superiore").

I answer your letter of July 26th M.091.1

I entirely agree with you about the necessity of transferring the greatest possible part of the civilian administration of Naples to the Italian authorities.

Rather than making a list of the services and establishments to be transferred, I think it would be more convenient if the Allies indicated which of them belong to their own sphere of action, and will therefore have to remain under the administration of the Allied Military Government.

With letter ACC 091.1 dated 25 July, Adm. Stone suggests to the President the formation of a Corps of Officials of the Italian Administration (Doctors, Engineers, P.S. Officers, agricultural Surveyors, "intendenti di finanza", Officials of the local administration), volunteering to go in recently occupied territories to immediately start their reorganization.

This Presidency, having requested to the various Ministries list of names of such officials, would like to have the following points made clear:

- 1st) - Whether the Allies will supply such officials with rations, beginning from the time of their departure from Rome on to the whole period they will stay out of the Capital.
- 2nd) - Whether the Allies will furnish them billets during same period.

1. Reference 10908/10720 1/3.1 dated 25 Jul 44 in which Prime Minister Bonomi asks you to consider making available additional rations for six or seven thousand employees of the government's central administration.

2. The only existing authorities for the issue of rations to Italian Government employees, at a higher scale than the normal civilian basic ration, are as follows:-

- a. AAI, 1025/1/Q1 dated 11 Jul 44 as amended by MMIA, AQ 1719 dated 21 Jul 44 which authorized the issue on repayment, of Italian Army Scale Rations, to Ministers and Under Secretaries, and,
- b. Army Sub-Commission AQ/2 dated 23 Jun 44 which authorized the daily issue up to 1300 Italian Army Rations for officials of the Ministry of War including civilian executive officials of officers' status, at the present time 22 in number.

3. Any additional rations issued to government employees would come from the limited stocks available for the civilian population. There is no economic justification for such preferential treatment. The overall Italian supply situation is extremely critical at the present time and I do not consider that the Italian Government should seek to obtain preferential treatment for government employees which would only accentuate the serious situation.

My dear Mr. Prime Minister:

I thank you for your letter of 1 August No. 2072 on the subject of the Town of Naples.

You will recall that you originally asked me to write you proposing to transfer to the Italian Government, responsibility for certain parts of the civil administration of Naples and this I did in my letter of 26 July suggesting certain functions you might care to take over.

I am convinced that this is the better way of proceeding. In view of my general responsibility for the government of the Commune of Naples as indicated in the Proclamation of the Commander in Chief, it would, I am sure you will agree, be inappropriate to adopt your suggestion—namely that I should retain certain specific spheres of action leaving the remainder and therefore the general responsibility to the Italian Government.

I shall be glad to hear, my dear Prime Minister, of your suggestions in reply to my letter of the 26 July.

(a) The necessity of keeping the concession of the rations already settled by the Allies when the Government was transferred from Brindisi to Salerno (maximum of 1200 rations authorized).

(b) Necessity of giving food rations to all persons depending from the Central Administrations, who are really in need. I think it will be about six or seven thousand.

1 AUG 1944THE PRESIDENT
OF THE COUNCIL OF MINISTERS

Rome, July 30th 1944

To the Allied Control Commission

Secretariat of the President

(Col. Densmore)

Rome

The private Secretariat of my predecessor, Marshal Badoglio followed directly the affairs of a military character and also those connected with Military Commands, thus maintaining the necessary contacts with the Allied Control Commission, with the Military Ministries, with the High Commissioners Prisoners of war and Refugees, especially for all questions which may have interested these various organisations as depending from all of them.

To avoid that a discontinuity in the methods should increase the numerous difficulties of the present moment, I order that my private Secretariat shall have two sections, one civilian and one military.

General Pettorelli Palatta Cesare who already fulfilled the same post with Marshal Badoglio, will remain head of the military section, which will go on dealing with the above mentioned matters.

Segreteria del Presidente
(Col. Densmore)R O M A

La Segreteria Particolare del mio predecessore Maresciallo Badoglio seguiva direttamente le pratiche di carattere militare o aventi attinenza con Comandi Militari, mantenendo così i necessari contatti con la Commissione Alleata di Controllo, coi Ministeri Militari, con gli Alti Commissari Prigionieri di Guerra e Profughi, specie per tutto ciò che poteva interessare interdipendentemente i vari Enti.

Al fine di evitare che una discontinuità nei metodi aumenti le non poche difficoltà del momento attuale dispongo perciò che la mia Segreteria Particolare costituisca due sezioni, quella civile e quella militare.

A capo della sezione militare, cui permangono affidati i compiti precedenti, rimane il Generale Pettorelli Lalatta Cesare già con le stesse funzioni presso S.E. Badoglio.

My dear Mr. Prime Minister:

Now that the Province of Naples has been restored to Italian administration it may be convenient, in so far as the military situation will permit, to explore the possibility of placing as much as may be desirable of the purely civil administration of the Comune of Naples itself under the Italian services. I refer to such matters as the field of education, asylums, charitable institutions, and so forth, and later on possibly some public utilities.

As it would be necessary to define what public services and institutions might be properly included in such an arrangement, perhaps you would kindly give me the benefit of your views hereon.

SUBJECT: Rations for Marshal Badoglio and Staff

FILE No. A/CC 091.1

TO: Brigadier H. Lush, R.C. & H.C. Section

26 July 1944

On July 16th, General Robertson authorized the issuance of the same rations to Marshal Badoglio and his staff as has been authorized by AAC for issuance to Ministers of the Government. The Marshal's staff consists of 12 officers and CUs, making a total of 13, including himself. The rations are to be issued in this area.

Will you kindly work out the details for issuance of these rations so that I may communicate to Marshal Badoglio where and how he should arrange to pick them up.

My dear Mr. Prime Minister:

As you may know, we have been trying to form a pool of Italian officials, doctors, engineers, police, Inspectors of Agriculture, Intendenti di Finanza as well as Local Government Officers to go forward to re-organize recently liberated areas.

These officers are often wanted extremely urgently. If we are to allow those waiting to go up to live meanwhile in some degree of comfort in Rome, they must be ready to move without delay when called upon. Otherwise, as it takes some time for a message to come back and more for us to send them forward, we may have to consider forming the pool farther forward which would be less comfortable.

Will you please impress on the Ministries concerned the importance of their assistance in supplying the names of officials willing to go and ensuring that they will keep themselves able to move on at least 24 or better, 12 hours notice.

1. Col. Upjohn explained that at the meeting held on 19 July at Adv. HQ. A.A.I. with representatives of 5th & 8th Armies AMG and Regions IV (2) V, VIII, IX, that a request was made for the organization of pools of replacements for essential civilian administrative officials to take over vacancies in town in the North.
2. Col. Spicer who had had considerable experience of supplying Prefects pointed out some of the practical difficulties to be met with in persuading officials to leave their comforts in Rome and move North. He had found it utterly impossible to get officials to move with less than 48 hrs notice.

3. Brig Parkinson instanced one or two cases where he had sent up Italian Medical Officers in response to requests but in the meantime the original official had reappeared and the official sent up had returned home. This had made it very difficult to persuade other officials to go up as they thought they would only have 3 weeks of discomfort and be returned home.

Col. Upjohn said he would ask SOAGs, AMG, and Regional Commissioners to appoint officials sent up in response to requests even if the original holder of an office reappeared in the meantime.

4. It was finally agreed ;

(1) Col Upjohn would ask the A/OO to write a letter to Bonomi stressing the importance of having officials ready to start at the earliest possible moment and the Prime Minister's cooperation in the scheme.

(2) Sub-Commissions as under would forthwith see their respective Minister with a view to arranging lists of at least 6 and if possible more officials as set out below in Rome who would be ready to move on 48 hours notice to the North.

OF THE COUNCIL OF MINISTERS

28 JUL 1944

No 10908/10720 1/3.1

Rome, July 25th 1944

Dear Admiral Stone,

Thank you very much for your kind informations, and for the interest you have shown for the settlement of the question of the number of rations assigned the civilian personnel of the Government, when the said Government was out of Rome.

Nevertheless, I must draw your attention to the fact that the Allied stores, to which your letter of the 27th inst. was delivered, declared that they could not distribute more than thirteen hundred rations as long as they had no orders from the A.A.I., so that during the last days of our stay in Salerno, the number of daily rations distributed was about 200 short.

As you are giving me the opportunity of doing so, I must also say, my dear Admiral, that the first days of the soggiorno in Rome of the central Administrations have made still more obvious the necessity of keeping the concession of the rations already settled by the Allies when the Government was transferred from Brindisi to Salerno.

In truth, many of the functionaries who have been brought from this last city have no relations here, while the food problem is much worse here than anywhere else, and the means of the employees of the Government have generally been diminished, for they are not getting anymore the special indemnity due to them as long as they were working out of their usual place of residence.

The trouble is not limited to the employees who have been transferred from Salerno, the situation of the personnel already living in Rome is by no means less serious. Consideration must also be taken of the privations they suffered from during the German domination.

Therefore, and for reasons of justice, I think it would be necessary to give food rations to all persons depending from the central Administrations, who are really in need. The Presidency of the Council is gathering full particulars about this personnel, and I am not yet able to tell you the exact number of rations needed. I think nevertheless, that it will be about six or seven thousand, considering that many employees, to resist Nazi-fascist pressure, which lasted for several months, have been forced to sell their linen and household goods, or to run into serious debts, and are now consequently in a state of dire poverty.

If this figure - in spite of the above mentioned considerations - should prove to high for the number of rations that the Allied Authorities can spare for this aim, I could, to my great regret, diminish the number of persons to whom this favour is to be granted. In such a case, I should like to know now the maximum number of daily rations that I can count on.

As for the Antuori case, which is referred to in the last part of your letter of June 27th, I can tell you that even if this employee had been taken as not on the establishment, he could not have a salary which amounts to more than 2000 lire a month, including rises and additions. I want to add that it has never been the custom in the Ministries to give gratuitous meals in addition to the salary.

The civilian personnel of every category, depending from the Central Administration, had organized masses in Salerno. Generally, every customer paid daily a basic sum of 10 lire (Table expenses), with the addition of 15 lire, daily also, for bettering the food.

To share this advantage, the personnel was nevertheless obliged to give his food tickets, to prevent their buying any rationed food on the market in addition to the ration which was distributed by the allied stores.

Trusting that this petition will as usual meet with your kind comprehension, I thank you in advance and remain,

Yours sincerely,

/s/ Ivanoa Bonomi

Mio caro Ammiraglio Stone,

La ringrazio delle Sue cortesi informazioni e dell'interessamento svolto allo scopo di definire la questione del numero delle razioni assegnate al personale civile del Governo, allorchè esso era fuori della sede ordinaria.

Al riguardo, però, devo segnalarLe che i magazzini alleati, ai quali pur era stata rimessa la Sua lettera del 27 giugno u.s. dichiararono di non poter distribuire più di milletrecento razioni finchè non avessero ricevuto ordini della A.A.I., talchè anche negli ultimi giorni di permanenza a Salerno furono erogate circa 200 razioni giornaliere in meno rispetto a quelle occorrenti.

Inoltre, poichè Ella stessa, caro Ammiraglio, me ne offre la opportunità, devo significarLe che i primi giorni di permanenza a Roma delle Amministrazioni centrali hanno reso ancora più evidente la necessità di conservare la concessione delle razioni già disposta dagli Alleati all'atto del trasferimento del Governo da Brindisi a Salerno.

In verità molti dei funzionari qui condotti da quest'ultima sede sono privi nella Capitale di qualsiasi appoggio familiare, mentre la crisi alimentare risulta qui molto più acuta che altrove e le risorse dei pubblici impiegati restano in genere decurtate della speciale indennità loro corrisposta ²⁴² in tanto che prestarono servizio fuori della sede ordinaria.

Nè il disagio può ritenersi circoscritto agli impiegati trasferiti da Salerno, poichè non meno grave è la condizione del personale già residente a Roma, a favore del quale milita inoltre la considerazione delle privazioni alle quali si è dovuto assoggettare durante il periodo della sopraffazione tedesca.

IL PRESIDENTE
DEL CONSIGLIO DEI MINISTRI

- 2 -

Per tali considerazioni e per ragioni di equità, ritengo opportuno che le razioni viveri siano estese a tutti i dipendenti delle Amministrazioni centrali che versino in condizioni di particolare disagio. La Presidenza del Consiglio va raccogliendo i dati relativi a questo personale ed io non sono perciò ancora in grado di precisarle il numero delle razioni occorrenti. Ritengo tuttavia che esso si aggirerà intorno alla cifra di settemila, tenuto conto della circostanza che molti impiegati, per resistere alle pressioni nazi-fasciste, protrattesi per parecchi mesi, sono stati costretti a vendere persino biancheria e suppellettili domestiche o a contrarre debiti di notevole ammontare e versano in conseguenza in condizione di vera miseria.

Se questa cifra apparisse - nonostante le considerazioni suddette - troppo rilevante rispetto al numero di razioni che le Autorità Alleate possono destinare a questo scopo, mi riserverei, sebbene con rammarico, di restringere le categorie di personale da ammettere al beneficio. In tal caso gradirei fin da ora conoscere il numero massimo di razioni giornaliere sul quale si possa contare.

Quanto al caso Antuori, cui si riferisce l'ultima parte della Sua lettera 27 giugno, posso assicurarla che se anche detto impiegato fosse stato assunto come avventizio di concetto, non potrebbe fruire di uno stipendio che, compresi gli aumenti e le aggiunte, superi le lire 2.000 mensili. Soggiungo che presso i Ministeri non è mai stato in uso il sistema di corrispondere, in aggiunta allo stipendio, pasti gratuiti.

Il personale civile di ogni categoria, dipendente dall'Amministrazione Centrale, fruiva in Salerno di mense organizzate,

Rome, 15 July 1944

To The Allied Control Commission,
Rome.

With the return of H. R. H. The Prince of Piemonti, Lieutenant General of the Realm, the Ministry of the Royal Household and some of its offices, which are in the Palace of the Quirinale, have resumed their work, which can be assimilated to that of other public services.

It is therefore necessary that according to the dispositions taken for the other ministries, electric power should be given to both Royal buildings for the working of the following services: light, internal telephone exchange, lifts.

We should be most grateful if the Allied Control Commission would kindly see that the Societa Romana di Eletticità (Rome Electric Company) is authorized to resume the distribution of electric power to the Royal Household and to the Quirinale Palace.

Con il ritorno in sede S.A.R. il Principe di Piemonte, Luogotenente Generale del Regno, il Ministero della Real Casa ed alcuni suoi uffici che trovansi nel Palazzo del Quirinale, hanno ripreso la loro attività, analoga a quella delle pubbliche Amministrazioni.

Sarebbe, pertanto, assai sentita la necessità che, in conformità a quanto è stato disposto per gli altri Ministeri, venisse erogata ai due Reali Fabbricati l'energia elettrica per il funzionamento dei vari servizi: luce, centrale telefonica interna, ascensori.

Si sarebbe molto grati a codesta Commissione Alleata se volesse cortesemente interessare gli organi competenti affinché la Società Romana di Elettricità sia autorizzata a ripristinare l'energia elettrica al Ministero della Real Casa ed al Palazzo del Quirinale.

APPOINTMENTS TO THE OFFICE OF PREFECT
IN MILITARY GOVERNMENT TERRITORY

1. This Memorandum is supplementary to Executive Memorandum No. 12 dated 12th June 1944.
2. Since that date and consequent upon the fall of Rome, a number of fully qualified Prefects have become available for forward provinces. The Italian Government now represents that these officials should retain the title of their rank and not be appointed as Reggenti.
3. Paragraph 3 of Executive Memorandum No. 12 is cancelled and the following substituted:-

"3. In future Allied Military Government appointments the title "Prefetto" will only be used if the appointee is already of the rank of Prefect. If the candidate selected is of junior rank or is not a career official, the title "Prefetto Reggente" will be used. The Italian Government lay great stress on the use of the word "Reggente" in such cases.

"3A. When a candidate is sent forward from the rear, Interior Sub-Commission will, when moving up the candidate, advise the Regional Commissioner or Senior Civil Affairs Officer as to the proper title. When it is proposed to appoint a local man, the Regional Commissioner or Senior Civil Affairs Officer will first inform the Sub-Commission, by telegram if necessary, and give all requisite particulars, so that the Sub-Commission can advise in such cases also. Care will be taken not to give a candidate who may only be qualified to be appointed "Reggente" the impression that he is going to receive the substantive rank of "Prefetto".

"3B. When the appointment is that "Prefetto Reggente" that title will invariably be used in formal document and official communications, both by the Reggente and by officers of Allied Military Government; but there is no objection to the Reggente being addressed or referred to in ordinary conversation as the Prefect."

1. Reference is made to your letter on same subject of 6 July 1944.

2. Your offer to repatriate specially qualified prisoners of war is particularly welcome since great difficulty is being met in finding suitable men to fill appointments in the various civil ministries and State agencies. Sufficient men are simply not available in Italy.

3. Rather than send a special mission to North Africa to select suitable men - a method which would probably be clumsy in practice - it is now considered that quicker results could be obtained by the submission of lists of men who are known to be suitable for such posts.

4. In conjunction with the Italian High Commissioner for Prisoners of War we are now compiling three lists of two hundred names each. These lists would include civil servants of all grades down to class 8 or 9. They will shortly be forwarded, and your assistance is most earnestly requested to facilitate their speedy repatriation - or, alternatively, to inform us quickly of those cases which prove impracticable.

5. In the meantime a shorter list is being forwarded giving the names of prisoners suitable to fill judicial appointments. Owing to the number of cases which we are now handing over to be dealt with by the civil courts, it is essential that a rather large number of judges be made available to the Italian Government.

For this list, therefore, we ask your immediate attention.

1. Reference is made to a letter written by Provincial Police Officer Bari to the Territorial Defence Commander (File PS/9/9) of 20 March 44, and to the refusal to permit His Excellency PESNUTI, Undersecretary of State for Finance to deliver a lecture announced beforehand for 28 May 44.

2. These matters have been the subject of correspondence between the Italian Government and A/Chief Commissioner, A.C.C.

3. As you know your duties are advisory and not executive but it would appear from this correspondence that one or more of your officers have been acting in an executive manner which you will of course agree is outside their powers. Will you please see that they are reminded of their limitation of their powers in Italian Government territory. Interference with the actions of the Italian Government or their representatives in Italian Government territory can only be warranted on exceptional grounds of military necessity. Otherwise it is undesirable and improper.

4. With regard to the prohibiting of the meeting or lecture fixed for 28 May you should report as to why permission was refused and what action was taken by you or your representative in the matter.

TO : Allied Force Headquarters.

12 JUL 1948

1. I attach translation of letter from the Italian High Commissioner for Prisoners of War regarding the repatriation of Prisoners of War who were formerly employed in various Civil Ministries and State Agencies.
2. Great difficulty is being experienced in finding suitable personnel to fill appointments in the different Ministries and departments mentioned in the Italian High Commissioner for Prisoners of War letter, and as our policy is to assist the Italian Government in the reorganising and administration of the country, it is believed that this request should be complied with.
3. The lists would include civil servants of all grades down to class 8 or 9 and it is suggested that 4 lists of 250 names in each list be submitted.

(53) Attention is drawn to your cablegram # 197 of 13 May 1944, proposing the release of selected Italian prisoners of war found suitable for judicial office, and to the favorable reply conveyed in our F 50356 of 26 May. This Headquarters is prepared similarly to repatriate such Italian prisoners of war as may, by reason of Civil Service, Treasury, or banking experience, be found particularly useful at this time to the effective functioning of the Italian State. You are therefore requested to consider this proposal in the light of anticipated needs and, if it seems desirable, to include in the party which you propose to send to this Headquarters a representative of the Italian Government qualified to make a discriminating selection of such personnel. It is of course to be understood that each case will be considered on its merits, and that a prisoner of war would be released only if he was found to have outstanding ability for the public service. This Headquarters, moreover, would not be prepared to release any prisoner of war holding a key position in a P of W Service unit.
