++++++++++++++++++++++++++

REPORT FOR MAY 1944.

1. For the last two months this Report has been a record of steady progress in many spheres, but nevertheless work for many assumed a routine character until such time as the Armies were again able to resume the offensive. Like the Armies we devoted the interim period to planning for a big advance. Fifth and Eighth Army AMG's were strengthened, and Region IV, now responsible for LAZIO, UMBRIA and the City of ROME, like Sleeping Beauty, was suddenly brought to life. The day when the Armies started their big attack, so long anticipated, was 11. May, and for the moment AMG teams with the Armies held the limelight.

2. The Armies progressed rapidly, leaving behind a trail of destruction wherever battles were hard fought. Townships like PONTECORVO, CASSINO and PIEDIMONTE ceased to exist as dwelling places, whilst others could accommodate only a small percentage of their inhabitants. As long ago as last September it is recorded that the enemy completely emptied one place, the population fleeing to the neighbouring hills. Considerable movement of the population took place as a result of all this and as examples, FONDI increased from 19,000 people to 30,000, and TERRACINA from 14,000 to 23,000. Many suffered from exposure and lack of food.

The feeding and medical treatment of all these people, together with the evacuation of refugees, fully extended AMG staffs but presented no new problems. By the end of the month 200,000 people were being fed in the Fifth Army area alone. Well earned were the congratulations of General Alexander and his application of the epithet "the Third Army" to A.C.C.

3. Due to the fast rate of advance contact was often lost with forward CAO's, whilst Provincial teams had to be called up urgently to take over. The small port of GAETA was quickly employed. It was captured on 20. May and although damage to the harbour was considerable a stretch of 'hard' was cleared by the Royal Navy and a U.S. Engineer Unit so that schooners could be brought in. The first one carrying food supplies entered on 26. May and was unloaded into a warehouse which had already been secured. By 28. May all supplies were on a sales basis up to a line TERRACINA - PICO, indicating a very rapid recovery of normal economic life.

It was unfortunate that the misery of the refugees in some areas was increased by the conduct of certain troops under French Command, which moreover caused a greater movement of refugees than would otherwise have been the case. Adverse accounts of behaviour of troops continue from many parts of the country. When, however, account is taken of the great number of troops, the many diverse nationalities and the fact that good behaviour is unrecorded, the situation would appear normal. A regretable exception is the behaviour of African troops under French command whose misconduct has led to much distress and resentment. The

progress in many spheres, but nevertheless work for many assumed a routine character until such time as the Armies were again able to resume the offensive. Like the Armies we devoted the interim period to planning for a big advance. Fifth and Eighth Army AMG's were strengthened, and Region IV, now responsible for LAZIO, UMBRIA and the City of ROME, like Sleeping Beauty, was suddenly brought to life. The day when the Armies started their big attack, so long anticipated, was 11.May, and for the moment AMG teams with the Armies held the limelight.

2. The Armies progressed rapidly, leaving behind a trail of destruction wherever battles were hard fought. Townships like PONTECORVO, CASSINO and PIEDIMONTE ceased to exist as dwelling places, whilst others could accommodate only a small percentage of their inhabitants. As long ago as last September it is recorded that the enemy completely emptied one place, the population fleeing to the neighbouring hills. Considerable movement of the population took place as a result of all this and as examples, FONDI increased from 19,000 people to 30,000, and TERRACINA from 14,000 to 23,000. Many suffered from exposure and lack of food.

The feeding and medical treatment of all these people, together with the evacuation of refugees, fully extended AMG staffs but presented no new problems. By the end of the month 200,000 people were being fed in the Fifth Army area alone. Well earned were the congratulations of General Alexander and his application of the epithet "the Third Army" to A.C.C.

3. Due to the fast rate of advance contact was often lost with forward CAO's, whilst Provincial teams had to be called up urgently to take over. The small port of GAETA was quickly employed. It was captured on 20.May and although damage to the harbour was considerable a stretch of 'hard' was cleared by the Royal Navy and a U.S. Engineer Unit so that schooners could be brought in. The first one carrying food supplies entered on 26.May and was unloaded into a warehouse which had already been secured. By 28.May all supplies were on a sales basis up to a line TERRACINA - PICO, indicating a very rapid recovery of normal economic life.

It was unfortunate that the misery of the refugees in some areas was increased by the conduct of certain troops under French Command, which moreover caused a greater movement of refugees than would otherwise have been the case. Adverse accounts of behaviour of troops continue from many parts of the country. When, however, account is taken of the great number of troops, the many diverse nationalities and the fact that good behaviour is unrecorded, the situation would appear normal. A regretable exception is the behaviour of African troops under French command whose misconduct has led to much distress and resentment. The French Command has taken vigorous measures to stop the excesses but the problem remains - and adds to the difficulties of the Refugees Branch.

1002

4. Next to the advance of the Armies harvesting prospects and organisation have received most attention. After long discussions the price of wheat was fixed at 1000 lire per quintal and it was announced in the Press and over the radio on 15 May by both A.C.C. and the Italian Government. Inevitably, there are localities where dissatisfaction is expressed over the price, but in reaching a decision factors of national importance had to be taken into consideration.

The word "Amassi", of evil association, is dropped and in its place comes "Granai del Popolo". Well conceived publicity is sucessfully establishing this phrase.

Declassified E.O. 12356 Section 3.3/NND No. 783017

With the wholehearted co-operation of AAI and the Italian Army, the labour problem has been largely solved by the transference to the principal grain areas of 25,000 Italian troops for the period of the harvest, mostly from Sardinia.

5. 30 and 31 May were devoted to the third Regional Commissioners' Conference which revealed both progress and harmony. Harvesting received rightly more time and detailed discussion than any other topic, for its importance to the Allied cause and the welfare of the country up to the time the last grain of wheat is stored could not be too much emphasised.

The personnel ceiling of ACC/AMG having been fixed and attained (including allowance for future expansion) it is obvious that as new areas are brought under control established areas must release personnel. Naturally the first to feel this thinning out process are the Regions in Italian Government Territory, who have nevertheless cheerfully faced the prospect during the month of parting with a number of their key men.

The remainder of NAPLES Province was handed over to Region III on 22 May.

A new defascistization law is being prepared to distinguish between the active Fascists and those who have only been tainted. In this connection emphasis has been laid on the difference existing between "defascistization" and "epuration". These terms are often used loosely and imply that they are synonymous which is not the case.

6. A committee under the chairmanship of the Deputy Chief Commissioner was appointed in order to make recommendations to check the present tendency to inflation.

POLITICAL.

7. The second meeting of the new Italian Cabinet took place on 4 May. Subjects under discussion were (i) the Granio del Popolo and the price of wheat; (ii) Defascistization; (3) Suppression of the Ministry of Foreign Exchange, its duties being taken over by the Ministry of Finance; (iv) Suppression of the Ministry of Popular Culture, press relations being taken over by the Ministry of the Interior (home and foreign news), the Ministry of Communications (tourism and radio), and the Ministry of Education (cinema and theatre); (v) Economic betterment of State employees.

8. The official price of wheat was issued on 15 May. The Italian Government asked that an A.C.C. announcement should be issued, covering AMG territory, at 2 p.m. followed at 2.30 p.m. by an Italian Government communique fixing a similar price "in order to ensure uniformity".

9. The new law dealing with the punishment of Fascist crimes and illegal practices contains a definition of those crimes which enabled Fascists to assume power in 1922 and to eliminate the last traces of democratic rule. Punishment ranges from imprisonment to death penalty. A list of mitigating circumstances is established to alleviate or to suspend sentences including such actions as fighting Germans. Provincial Commissions are established in each Province to judge all cases. Members of the Commissions will be both judges and laymen

Declassified E.O. 12356 Section 3.3/NND No. 783017

6. A committee under the chairmanship of the Deputy Chief Commissioner was appointed in order to make recommendations to check the present tendency to inflation.

POLITICAL.

7. The second meeting of the new Italian Cabinet took place on 4.May. Subjects under discussion were (i) the Granio del Popolo and the price of wheat; (ii) Defascistization; (3) Suppression of the Ministry of Foreign Exchange, its duties being taken over by the Ministry of Finance; (iv) Suppression of the Ministry of Popular Culture, press relations being taken over by the Ministry of the Interior (home and foreign news), the Ministry of Communications (tourism and radio), and the Ministry of Education (cinema and theatre); (v) Economic betterment of State employees.

8. The official price of wheat was issued on 15.May. The Italian Government asked that an A.C.C. announcement should be issued, covering AMG territory, at 2 p.m. followed at 2.30 p.m. by an Italian Government communique fixing a similar price "in order to ensure uniformity".

9. The new law dealing with the punishment of Fascist crimes and illegal practices contains a definition of those crimes which enabled Fascists to assume power in 1922 and to eliminate the last traces of democratic rule. Punishment ranges from imprisonment to death penalty. A list of mitigating circumstances is established to alleviate or to suspend sentences including such actions as fighting Germans. Provincial Commissions are established in each Province to judge all cases. Members of the Commissions will be both judges and laymen selected for their known anti-Fascist records and positions. Commissions will be appointed by the Prime Minister upon the recommendations of High Commissioner and Minister of Justice. The judgments of Provincial Commissions will be determined as in Courts of Law with a provisional appeal. The High Commissioner may review any sentence of the Provincial Commissions.

10. At a later meeting the Council affirmed a policy of war to the end against the Nazis and expressed its hope for a new world of international collaboration based on the principles of the Atlantic Charter and repeated its conviction that the Italian people had been betrayed and forced into a war against their interests and against their will. The Fascist invasions of other nations are deplored and, specifically, the Government looks to the early liberation of Albania.

FINANCE.

11. The complete report of the Finance Sub-Commission receives the same circulation as this report. It is therefore proposed to present here only the salient points.

12. As the next fiscal year for the Italian Government begins on 1.July it is necessary that a new budget be prepared to control expenditure after that date. The Italian Government is taking steps to prepare such a budget for the territory under its jurisdiction, and at the Government's request the Italian forms were sent to Military Government territory in order that if and when additional territory is turned over to the Italian Government, data will be available to make the necessary changes.

13. In Military Government territory there has been distributed a complete set of forms for the preparation of budgets, the operation of such budgets, the control of expenditures, and for reporting such expenditures. Revenue data are also included in these forms. In designing these forms every attempt was made to adhere as closely as possible to normal Italian accounting and fiscal procedures. Fiscal procedure for the State agencies is quite dissimilar to that for local government bodies, and two sets of forms were necessary. The operation of the new budget procedure should result in a definite measure of expenditure control.

14. Refugees leaving Italy for Palestine have deposited substantial funds with the Internees and Displaced Persons Sub-Commission, which is seeking a means of remitting these funds to Palestine. As there is yet little or no sterling available in the AF accounts, and as CCS has not approved the expenditure of foreign exchange for this purpose, the current procedure results in blocked deposits being held by the Internees and Displaced Persons Sub-Commission, for account of the refugees abroad. The problem has been referred to CCS decision as to policy, with a suggestion that the Jewish relief agencies abroad may desire to obtain lire funds, by purchase of these blocked deposits from the refugees arriving from Italy, if this is not contrary to general policy.

15. The Italian Government decree for the Insurance Advisory Committee has been signed and the opening meeting should take place during the first week in June. Arrangements have been made for the Insurance Department of Finance Sub-Commission to be provided with agenda and minutes of each meeting, and representatives have been invited to attend the first meeting.

16. In response to a request from AFHQ, the Minister of Finance was asked to give assurances as to the implementation of that part of the Armistice terms which provides that the Allied Forces shall be immune from Italian taxation. A satisfactory reply was received from the Minister, stating that no taxes, direct or indirect, will be imposed upon the Allied Forces or organisations serving with the Allied Forces, or upon individual members thereof whether acting in an official or un-official capacity. Specific instructions which have been issued to Italian tax officials by the ministry were cited in support of these assurances.

Specific instructions which have been issued to Italian tax officials by the ministry were cited in support of these assurances.

ECONOMICS, RESOURCES and SUPPLY.

1001 17. Food.

Grain shipments during May were much more regular than in April. Seven bulk wheat ships of a total tonnage of 56,000 tons and one flour ship tonnage 8,600 tons were unloaded during this period. The last ship was diverted to ANZIO with a large portion of its flour cargo together with an additional top cargo of miscellaneous subsistence items to establish a stockpile for the feeding of ROME. The manufacture of pasta for feeding of forward areas has begun and arrangements are well advanced for the manufacture of biscuit for emergency feeding of forward areas. Plans for making use of the local harvest and for its movement from areas with a surplus to areas with a deficiency are well advanced.

18. Food processing has received considerable attention. Plans are in hand to deal with potatoes, tomatoes, marmalade, jam, macaroni, fish (using the salting and drying processes) and yeast manufacture.

0554

Declassified E.O. 12356 Section 3.3/NND No. 783017

19. Ration Scales.

Supplementary Ration for Heavy Workers. The scheme for the issue of additional rations to heavy workers wholly and in part employed by Allied Armed Forces has been adopted to commence 1 June. This issue will be by means of supplementary ration cards, and these have been delivered to Regional Supply Officers for distribution to the employing units and the process is proceeding smoothly.

Industry and Commerce.

20. Much of the activity of the Industry & Commerce Sub-Commission has been in the direction of rehabilitation of factories and increased production in those concerns that are working. Special attention has been given to the following vital products:-

Soap - requirements of British Army, Italian Army, Navy and Air Force, civilians. Substantial quantities of soft soap will be produced by using the potash from almond-ash.

Glycerine and glycerine dyes for export.

Sulphuric Acid - acid for battery electrolyte has come into production and all British Army requirements will be covered.

Fertilizers - production commencing shortly at seven plants. Sulphur is to be used in place of pyrites.

Carbon disulphide, Cement, Industrial Gases, wire nails and paper.

21. Agreement has been reached with the Italian Government on measures for the future regulation of the manufacture and use of leather. The key to the scheme is control of the production and allocation of tanning extracts, and a survey of these is approaching completion. The project for the repair of salvaged Army boots has been, within its own limitations, very successful, but it is considered that this scheme should be extended even at the cost of manufacture of boots, as the needs of heavy workers for whom this type is suitable are of the most urgent priority. In addition, it is hoped that an early importation of 500,000 pairs of heavy boots will be made, as these, plus local production, would go far towards solving the problem.

22. Export Shipments. Since last reporting the following shipments have been made:-

To U.S.A.....	100,019 lbs.	Lemon Oil.
To U.K.....	10,265 tons	Sulphur.
	336 qtls	Filberts.
	388 qtls	Argols.
	17,731 gals	Lemon Juice.
	243 qtls	Lemon Oil.
	13 qtls	Tangerine Oil.
	37 qtls	Sweet Orange Oil.
	15 tons	Bentonite (sample shipment)
	160 kilos	Briarwood (" ")

23. Hemp products have shown the anticipated increases especially in canvas and sacking; large quantities of binder twine for agricultural purposes have been

Declassified E.O. 12356 Section 3.3/NND No. 785017

following vital products:-

Soap - requirements of British Army, Italian Army, Navy and Air Force, civilians. Substantial quantities of soft soap will be produced by using the potash from almond-ash.

Glycerine and glycerine dyes for export.

Sulphuric Acid - acid for battery electrolyte has come into production and all British Army requirements will be covered.

21. Agreement has been reached with the Italian Government on measures for the future regulation of the manufacture and use of leather. The key to the scheme is control of the production and allocation of tanning extracts, and a survey of these is approaching completion. The project for the repair of salvaged Army boots has been, within its own limitations, very successful, but it is considered that this scheme should be extended even at the cost of manufacture of boots, as the needs of heavy workers for whom this type is suitable are of the most urgent priority. In addition, it is hoped that an early importation of 500,000 pairs of heavy boots will be made, as these, plus local production, would go far towards solving the problem.

22. Export Shipments. Since last reporting the following shipments have been made:-

To U.S.A.....	100,019 lbs.	Lemon Oil.
To U.K.....	10,265 tons	Sulphur.
	336 qtls	Filberts.
	388 qtls	Argols.
	17,731 gals	Lemon Juice.
	243 qtls	Lemon Oil.
	13 qtls	Tangerine Oil.
	37 qtls	Sweet Orange Oil.
	15 tons	Bentonite (sample shipment)
	160 kilos	Briarwood (" ")

23. Hemp products have shown the anticipated increases especially in canvas and sacking; large quantities of binder twine for agricultural purposes have been produced. Supplies to the services have been maintained. The industry has been working for three months on the small stock of spare materials which were in hand. Production must diminish unless items which have been requested are supplied. These items should be regarded as military requirements and priority allocated accordingly.

AGRICULTURE, FORESTS & FISHERIES.

24. The general impression is that most sections of Liberated Italy will have a bumber crop in the present year. This is true not only of grain but of nearly every other crop which is normally planted. Fruit crops such as cherries and strawberries, plums and similar fruits show excellent output, and the general conditions of all crops at the end of May indicates first that most favourable

Declassified E.O. 12356 Section 3.3/NND No. 785017

contract or under strengthened gangs of the "Cantonieri" (direct labour). In spite of abnormally heavy traffic throughout the northern Military Government territory, there was a marked improvement in road conditions during May, both as to foundations and surfacing. All roads coming under first priority (military) were in hand, except for certain delays occasioned by local shortages of bitumen, or transport. The total number of quarries operated rose during May from five to eight.

31. Electrical Division. Under the heading of control of electric power supplies, further meetings were held with officials of the Public Works Ministry regarding a more uniform application of the decree on electricity rationing. The rationing has given very marked and on the whole satisfactory results, with a corresponding saving in coal consumption at thermal power stations, and conservation of the water held in storage at various high-level lakes and impounding reservoirs which furnish power to the numerous hydro-electric stations. The transfer of electricity generating plant from PALERMO (Sicily) to MATESE on the mainland was not found possible during the month, but will be completed in June.

LABOUR

32. Continued representations were made during the month to the Italian Government for the creation of a civilian mobilization law providing for manpower, and it is being given further consideration. The revised draft of the basic labour law was re-submitted by the Italian Government and is now being considered by A.C.C.

33. The labour situation remained fairly static. The continued threat of strike persisted and "sit-downs" of short duration were not uncommon. Unrest was more marked than in any previous month and the Labour Sub-Commission is convinced that there is systematic agitation of the workers coming from one or two major sources. The real cause of the unrest is food, not low wages.

34. Drafting of the Social Insurance plan in close collaboration with the Italian Minister is proceeding slowly. The Social Insurance structure, like the wage structure, is most complex and has never been systematically analyzed by the present Italian Government. The lack of knowledge, on the part of the Ministry, of Italian wage and social insurance laws and regulations is placing a tremendous burden upon the military authorities, who are being asked time and again by the Italian authorities to approve some ill-considered and unworkable scheme based upon fancy rather than upon fact. A social insurance programme is being drafted for direct employees of the Armed Forces in conformity with sound labour policy. The extension of social insurance to this large group of workers has been approved in principle by the A.A.I. Local Resources Board.

TRANSPORTATION

35. Railways. Whilst military control becomes less rigid in the south, in the north extended territory and preparations for further extension led to an increase in traffic to military railways. Arrangements were made for civilian mails to be conveyed twice weekly on the Naples - Bari military passenger train, and arrangements will shortly be completed to convey civilian mails over other parts of the service. Five additional passenger services have been introduced to meet civilian needs in the Naples - Salerno area.

36. The Coal Division has been placed under the Transportation Sub-Commission

Declassified E.O. 12356 Section 3.3/NND No. 785017

servation of the water held in storage at various high-level lakes and impounding reservoirs which furnish power to the numerous hydro-electric stations. The transfer of electricity generating plant from PALERMO (Sicily) to MATESE on the mainland was not found possible during the month, but will be completed in June.

LABOUR

32. Continued representations were made during the month to the Italian Government for the creation of a civilian mobilization law providing for manpower, and it is being given further consideration. The revised draft of the basic labour law was re-submitted by the Italian Government and is now being considered by A.C.C.

33. The labour situation remained fairly static. The continued threat of strike persisted and "sit-downs" of short duration were not uncommon. Unrest was more marked than in any previous month and the Labour Sub-Commission is convinced that there is systematic agitation of the workers coming from one or two major sources. The real cause of the unrest is food, not low wages.

34. Drafting of the Social Insurance plan in close collaboration with the Italian Minister is proceeding slowly. The Social Insurance structure, like the wage structure, is most complex and has never been systematically analyzed by the present Italian Government. The lack of knowledge, on the part of the Ministry, of Italian wage and social insurance laws and regulations is placing a tremendous burden upon the military authorities, who are being asked time and again by the Italian authorities to approve some ill-considered and unworkable scheme based upon fancy rather than upon fact. A social insurance programme is being drafted for direct employees of the Armed Forces in conformity with sound labour policy. The extension of social insurance to this large group of workers has been approved in principle by the A.A.I. Local Resources Board.

TRANSPORTATION

35. Railways. Whilst military control becomes less rigid in the south, in the north extended territory and preparations for further extension led to an increase in traffic to military railways. Arrangements were made for civilian mails to be conveyed twice weekly on the Naples - Bari military passenger train, and arrangements will shortly be completed to convey civilian mails over other parts of the service. Five additional passenger services have been introduced to meet civilian needs in the Naples - Salerno area.

36. The Coal Division has been placed under the Transportation Sub-Commission for the purpose of drawing up in conjunction with the Italian Government control organisation for handling and distribution of coal.

37. Road transportation problems have been considerably eased by the receipt of a quantity of tyres and tubes for trucks; more have been authorised and when received additional problems will be solved. The total number of trucks available to the end of the month for the transport of civilian supplies was 604. Re-allocations have had to be made to meet anticipated requirements consequent upon military operations.

Declassified E.O. 12356 Section 3.3/NND No. 785017

weather conditions have offset many of the handicaps resulting from the lack of fertilizers and materials, and second, that Italian farmers in spite of shortage of tools and work animals, and in spite of disruptions due to military activity, have gone ahead and planted the last inches of land and tended and cultivated the crops well.

25. Military installations, such as air fields, ordnance dumps and staging areas, cover a very appreciable portion of the farming land in Southern Italy. While there is considerable damage to growing crops and to agricultural faciltities in some areas owing to the military necessity of taking over planted land or buildings, the military is giving splendid co-operation in this particular phase through the Commanding Generals of the Armies who have issued orders instructing that every care be taken in installations and in the requisitioning of facilities, that proper regard be given to areas and facilities which may be utilised for agriculture.

26. Crop reports on the acreage planted and the condition of the crop were collected from all Provinces and the preliminary forecast on 15.May was:-

Wheat	-	1,624,135	metric tons.
Barley	-	153,460	" "
Rye	-	9,990	" "
Oats	-	271,415	" "
Corn	-	151,775	" "
Dry Broad Beans		208,830	" "
Potatoes	-	590,990	" "

27. The Granai del Popolo. Following close on the re-organisation of the Ministry of Agriculture and the announcement of the programme for collecting wheat and barley last month, activity has been intensified through the Sub-Commission and the Ministry of Agriculture to develop the necessary directives which will make possible the implementation of the collection decree, for the general co-ordination and broad supervision of the collection programme. Reports from the field indicate that the Communal and Provincial Committtees in most Provinces are functioning and declarations are being completed. Assessment forms are being printed and will be available in time for the harvest and threshing. Special decrees and directives dealing with the collection of other crops are being prepared and worked out in co-operation with the Italian Government. A programme of publicity and propaganda has been worked out by members of the staff, the Italian Government and PWB, utilizing press releases, posters, radio, sound trucks and motion pictures, in order that every citizen of Italy may realise the importance of the attempt this year of Liberated Italy to assist itself.

28. During the month inspections of important mills in the Provinces of SALERNO, POTENZA and COSENZA were made to ascertain what mills were able to provide bridge and construction timber. Eleven mills were examined and four found having machinery capable of sawing logs, 4 metres or longer in length. Public Works and Utilities Sub-Commission was notified of those considered of special interest to them.

29. Fisheries. The 21 tonnara around the Sicilian Coasts are in full swing and part of the harvest is being shipped to Naples. The remainder is being sold on the local markets as fresh fish food or is being either canned in olive oil or salted. Several shipments of hemp cordage were made to Region V during the month. Reports from Sardinia indicate that there is a normal run of tuna fish.

1080

Declassified E.O. 12356 Section 3.3/NND No. 785017

that every care be taken in installations and in the requisitioning of facilities, that proper regard be given to areas and facilities which may be utilised for agriculture.

26. Crop reports on the acreage planted and the condition of the crop were collected from all Provinces and the preliminary forecast on 15.May was:-

Wheat	-	1,624,135	metric tons.
Barley	-	153,460	" "
Rye	-	9,990	" "
Oats	-	271,415	" "
Corn	-	151,775	" "
Dry Broad Beans		208,830	" "
Potatoes	-	590,990	" "

27. The Granai del Popolo. Following close on the re-organisation of the Ministry of Agriculture and the announcement of the programme for collecting wheat and barley last month, activity has been intensified through the Sub-Commission and the Ministry of Agriculture to develop the necessary directives which will make possible the implementation of the collection decree, for the general co-ordination and broad supervision of the collection programme. Reports from the field indicate that the Communal and Provincial Committees in most Provinces are functioning and declarations are being completed. Assessment forms are being printed and will be available in time for the harvest and threshing. Special decrees and directives dealing with the collection of other crops are being prepared and worked out in co-operation with the Italian Government. A programme of publicity and propaganda has been worked out by members of the staff, the Italian Government and PWB, utilizing press releases, posters, radio, sound trucks and motion pictures, in order that every citizen of Italy may realise the importance of the attempt this year of Liberated Italy to assist itself.

28. During the month inspections of important mills in the Provinces of SALERNO, POTENZA and COSENZA were made to ascertain what mills were able to provide bridge and construction timber. Eleven mills were examined and four found having machinery capable of sawing logs, 4 metres or longer in length. Public Works and Utilities Sub-Commission was notified of those considered of special interest to them.

29. Fisheries. The 21 tonnara around the Sicilian Coasts are in full swing and part of the harvest is being shipped to Naples. The remainder is being sold on the local markets as fresh fish food or is being either canned in olive oil or salted. Several shipments of hemp cordage were made to Region V during the month. Reports from Sardinia indicate that there is a normal run of tuna fish. The heads of the Fisheries Division of the Agriculture Sub-Commission and of the Ministry of Agriculture made a complete survey on fishermen's needs in Region VII. Hemp cordage necessary to make and repair nets has been distributed to every fishing village from SALERNO to REGGIO CALABRIA. As soon as the material is made ready shipments will be made to fishing villages on the IONIAN Coast.

PUBLIC WORKS & UTILITIES.

30. Highways and Bridges. At the beginning of the month eight bridges on main highways were under constructions, and at the end of the month this number had risen to fifteen. Ten new bridges were under survey and design at the end of the month, or were being let out to contract. At the end of May heavy repairs of a major character were in hand on 158 miles of roads, mostly under contract, whilst normal repairs on 791 miles were similarly in hand, either by

Declassified E.O. 12356 Section 3.3/NND No. 755017

38. Shipping. The scheme for the control of auxiliary motor sailing vessels received the approval of all interested bodies and is now in operation. Further progress has been made in the registration of Italian schooners. Up to the present 489 vessels representing about 39,000 deadweight tons have been registered. Of these, 231 are each under 50 tons but over 20 tons deadweight. In addition, 55 motor vessels of 2250 deadweight tons in Sardinian ports are being registered. During the latter half of May, 99 schooner voyages were reported serving 35 ports and various Islands. The quantity of commercial cargo carried amounted to 7247 tons of which timber, 2227 tons, was the largest item, followed by 1312 tons of foodstuffs, fruit and fish. Wine cargoes are not included.

INTERIOR

39. The Royal Decree restoring Local Government in Italy is being made applicable to Military Government territory. Pools of Local Government officers of various grades are being constituted as a reserve for use where no suitable persons to replace the relieved officials can be found locally in recovered territory. Teams of officials have been sent forward to re-organise the devastated Frosinone and Littoria Provinces.

LEGAL

40. The seccessive passing of increased responsibility to Italian Courts is proceeding with the object of freeing officers for more forward areas.

41. The consolidations of proclamations and orders and the issue of the booklet of "Consolidated Instructions for Allied Military Courts" have proved valuable both as helps and as a simplification.

42. Fascists are being dealt with in two ways, under the Decree of Defascistization of 28 December and under the recent Decree of Epuration. The former is a purely purging decree and provides the machinery for removing Fascists from office. The machinery is not yet properly at work. The latter is a penal decree and provides the machinery for punishing those who have been guilty of "crimes" - this decree has only just been passed. No action under it has yet been possible. The progress of both classes is a matter of special care and interest.

43. In espionage cases seven death sentences were confirmed and one conviction, with death sentence, was squashed.

44. Some improvement has been shown as to the number of cases awaiting trial and in the prison situation but constant watchfulness is necessary if it is hoped to get Italian Courts to deal with cases with reasonable expedition.

PUBLIC SAFETY

45. The plans for moving Carabinieri into new territory as the Armies advance have worked smoothly. It has been reported on all sides that the Carabinieri have proved of the greatest assistance to Allied Forces in dealing with all civilian problems. It is interesting to note that the appearance of Carabinieri with the advancing troops has been enthusiastically welcomed by civilians.

Declassified E.O. 12356 Section 3.3/NND No. 785017

INFERIOR

39. The Royal Decree restoring Local Government in Italy is being made applicable to Military Government territory. Pools of Local Government officers of various grades are being constituted as a reserve for use where no suitable persons to replace the relieved officials can be found locally in recovered territory. Teams of officials have been sent forward to re-organise the devastated Frosinone and Littoria Provinces.

44. Some improvement has been shown as to the number of cases awaiting trial and in the prison situation but constant watchfulness is necessary if it is hoped to get Italian Courts to deal with cases with reasonable expedition.

PUBLIC SAFETY

45. The plans for moving Carabinieri into new territory as the Armies advance have worked smoothly. It has been reported on all sides that the Carabinieri have proved of the greatest assistance to Allied Forces in dealing with all civilian problems. It is interesting to note that the appearance of Carabinieri with the advancing troops has been enthusiastically welcomed by civilians.

999

46. Much closer relationship has been established between Provost and Public Safety Officers, with the object of maintaining direct contact between Allied Military Police and the Italian Police. Courses of lectures by Public Safety Officers are being given at Military Police Training Centres. The system of joint patrols by Allied and Italian Police is being extended.

47. The most serious case of counterfeiting yet discovered was at Palermo, where forged L. 1,000 Allied Military notes were being circulated. The printing press, tools and materials have been seized, 39 persons arrested and L. 42,000,000 recovered.

0562

Declassified E.O. 12356 Section 3.3/NND No. 785017

48. The problem of overcrowding in civil prisons has been energetically tackled and the crisis has passed. All concerned now have a lively appreciation of the problem. The new Director of Prisons at the Ministry of Justice is forming a competent staff and a body of Inspectors.

49. The Military Security Services have reported that the additional restrictions imposed on the movement of civilians, which have thrown a good deal of work on ACC officers in the field, have proved of great value in checking the activities of enemy agents.

PUBLIC HEALTH

50. Smallpox. No further cases have occurred in Taranto, the disease in Naples is of a mild form. At 31 May 161 cases had been reported. There are no deaths.

Venereal. The decline of the V.D. rate continues. 2,000 hospital beds for infected prostitutes have now been provided in Italian Government territory. The Italian Government doctors and officials are co-operating well.

Malaria. AAI has made a considerable amount of Paris Green available for Regions. DDT Powder which proved of such value in Typhus Control is now proving of value in anti-malarial work, mixed with oil it is an effective larvicide, and mixed with kerosene or talc it is an effective destroyer of adult mosquito.

Veterinary. 2,500 swine have been lost in Region V from Swine Fever/Hog Cholera. The production of vaccine for this disease and of other biologicals is proceeding satisfactorily.

EDUCATION

51. Defascistization of Educational personnel is not proceeding in Italian Government territory as rapidly as is desired, but some improvement has been manifest recently. There have been a number of student disturbances mainly of a more or less good humoured nature to obtain the benefit of successfully passing an examination without undergoing the burden of a test.

52. The text book printing is now complete. If text books are to be ready for next year a million will have to be printed during the next few months. The work is in preparation.

53. The development of various educational channels for infants, for recreation, for youths (including scouts), for adults, for extension classes, for the teaching of arts and crafts and science and for technical education are all proceeding.

PROPERTY CONTROL.

54. A decree has been passed revoking measures previously taken against the property of Allied - French Nationals. Local officials have accordingly been instructed by the Ministry of Finance to revoke orders for sequestration and to re-assign property to the owner or the Property Control Officer for the owner. Banks which had been acting as managers of sequestrated properties will continue to manage them for their owner. The Bank managership is proving very satisfactory.

Declassified E.O. 12356 Section 3.3/NND No. 759017

Banks which had been acting as managers of sequestrated properties will continue to manage them for their owner. The Bank managership is proving very satisfactory.

MONUMENTS & FINE ARTS

55. M.F.A. officers have been well forward and have entered captured positions with, or shortly after the capturing troops. The MAAF is granting every facility for co-operation to avoid inadvertant damage and to enable damage committed to be tabulated.

56. The following lists of protected monuments have been issued to forward troops :

Section 1 - Sardinia and Sicily.
" 2 - Apulia, Calabria, Campania and Lucania.
" 3 - Abbruzzi and Lazio.
" 4 - Le Marche, Tuscana and Umbria.

0564

Declassified E.O. 12356 Section 3.3/NND No. 785017

57. A booklet on the preservation of Works of Art with a foreword by the C. in C. Mediterranean Theatre has been distributed to the troops.

COMMUNICATIONS

58. Telecommunications. No major changes have taken place in the Telecommunications system. Detailed development has been in steady progress; in particular, the capacity of the telegraph circuits to Naples has been made adequate for the traffic with that city. The telephone circuits available for the Italian Government to Naples are inadequate, and an increase in these facilities has been requested of the military authorities.

59. Posts. Detailed improvements have included the provision of four mail services a week from Naples to Bari (in place of two a week), and an airmail service with Tripoli. The sequence and circumstances in which the resumption of postal finance services, advance postal services for P.O.W. mail, and normal postal services in newly occupied areas has been agreed and instructions issued.

60. Censorship. A policy has been agreed and approved to turn over the operational control of internal mail and telegraph censorship to the Italian Government in Italian administered territory, and simultaneously to permit this control to be exercised by the Italian Supreme Command instead of by local Prefects acting under instructions of the Ministry of the Interior. This has the result of centralising the control, and of ensuring that civil censorship is made primarily an instrument of military security and not a source of political information. Policy control is retained and the normal direct executive control by Allied censors in areas forward of the Italian Government territory is not affected.

INTERNEES & DISPLACED PERSONS

61. General. The numbers of refugees this month from Yugo Slavia were small compared with preceding months; 2895 persons were received, of whom some 2488 were women and children.

62. During the month 571 Zionist Jews were embarked for Palestine. This emmigration, the first of its kind from Italy since the commencement of the War largely concerned Jewish refugees located in Ferramonti and Di Bagni Camps. Many problems had to be faced in this first emmigration to Palestine, and the lessons learnt will be put to good use when a similar movement of Jews has again to be dealt with.

63. With impending operations likely in mid-May it was decided to organise approximately 1/8th of the Sub-Commission to find an Advance HQ and three Forward Groups. The extra work thrown on to individuals has been dealt with with energy and cheerfulness by all concerned. The organisations by which camps are to the maximum extent run by refugees has made it possible to face greatly increased commitments.

992 64. Medical. Yugo Slav and Italian civilians are being used to replace military personnel in the Medical Branch and several members of the Friends Ambulance Unit are now numbered amongst the staffs. Maglie Hospital still maintains a creditable military standard of efficiency. Both Leuca and Maglie hospitals are [illegible] capacity and their bed-strength is being increased. [illegible] training nurses was completed and of the [illegible] qualified. A second class [illegible] mild epidemic [illegible]

Declassified E.O. 12356 Section 3.3/NND No. 750017

requested of the military authorities.

59. Posts. Detailed improvements have included the provision of four mail services a week from Naples to Bari (in place of two a week), and an airmail service with Tripoli. The sequence and circumstances in which the resumption of postal finance services, advance postal services for P.O.W. mail, and normal postal services in newly occupied areas has been agreed and instructions issued.

60. Censorship. A policy has been agreed and approved to turn over the operational control of internal mail and telegraph censorship to the Italian Government in Italian administered territory, and simultaneously to permit this control to be exercised by the Italian Supreme Command instead of by local Prefects acting under instructions of the Ministry of the Interior. This has the result of centralising the control, and of ensuring that civil censorship is made primarily an instrument of military security and not a source of political information. Policy control is retained and the normal direct executive control by Allied censors in areas forward of the Italian Government territory is not affected.

INTERNEES & DISPLACED PERSONS

61. General. The numbers of refugees this month from Yugo Slavia were small compared with preceding months; 2895 persons were received, of whom some 2488 were women and children.

62. During the month 571 Zionist Jews were embarked for Palestine. This emmigration, the first of its kind from Italy since the commencement of the War largely concerned Jewish refugees located in Ferramonti and Di Bagni Camps. Many problems had to be faced in this first emmigration to Palestine, and the lessons learnt will be put to good use when a similar movement of Jews has again to be dealt with.

63. With impending operations likely in mid-May it was decided to organise approximately 1/8th of the Sub-Commission to find an Advance HQ and three Forward Groups. The extra work thrown on to individuals has been dealt with with energy and cheerfulness by all concerned. The organisations by which camps are to the maximum extent run by refugees has made it possible to face greatly increased commitments.

64. Medical. Yugo Slav and Italian civilians are being used to replace military personnel in the Medical Branch and several members of the Friends Ambulance Unit are now numbered amongst the staffs. Maglie Hospital still maintains a creditable military standard of efficiency. Both Leuca and Maglie hospitals are working to capacity and their bed-strength is being increased. The first course for training nurses was completed and of the original 30 who desired to be trained, 15 qualified. A second class of thirty has commenced training. There has been a mild epidemic of measles. Several cases of Whooping Cough and a few of Mumps and Scarlet Fever. Pulmonary Tuberculosis has also been shown to be fairly common. Most cases are absorbed into civilian sanitoriums. Red Cross personnel and Friends Ambulance Unit continued to render yeoman service.

65. Records Bureau. Approximately 31,500 persons have now been recorded. 1,050 enquiries have been booked out of which 375 definite answers have been received. Enquiries for Southern Italy are decreasing as certain results have been obtained and it has been stressed for some time now that the postal channels now available should be used. Enquiries are already coming in for areas nearer the old front line and it is estimated many more enquiries will come in shortly. The Foreign Relations Department of the British Red Cross have established a

998

Declassified E.O. 12356 Section 3.3/NND No. 785017

system whereby they accept enquiries from the American Red Cross, Allied Red Crosses, numerous Jewish organisations, and so on, which is an invaluable help in work of this character. The past months have proved beyond doubt the importance and immense psychological value of this work of handling enquiries and communications of displaced persons and this bureau has been able to co-operate with M.E.R.R.A. and other outside organisations fairly effectively.

66. Statistics. As at May 31 (unless otherwise stated) :

Refugee population in Camps and Hospitals	-	4,843
Reception during May (by ship)	-	2,895 +
Reception by means other than ship	-	10
Shipped to Mideast (Jews to Palestine)	-	571
Gross total shipped to Mideast to date	-	20,391

+ of which 911 were women and 1577 were children under 16 years.

REFUGEES (ITALIANS)

67. The Italian military personnel working under the direction of the Refugee Branch for handling refugees from the forward areas has been increased steadily and by the end of the month was 111 officers and 1040 other ranks, an accession of strength of 26 officers and 659 other ranks.

68. Movement during the month :

From 5 Army (by road)	-	4589
From 8 Army (by road/rail)	-	8020
Total		12609

To dispersal areas southward :

To Region I	(Sicily)	-	3971
To Region II	(Bari Province)	-	1388
To Region III	(Naples, Salerno & Avellino Provinces)	-	1440
To Region VII	(Reggio & Catanzaro Provinces)	-	1651
	Total		8450

In addition 1415 were dispersed to Local Homes and 878 handed over to the Italian Military authorities for possible military service.

69. As the Armies move forward the unrest amongst the refugees in the South increases. Refugees find it hard to live in the dispersal areas and are eager to return to their homes and property, whether it is intact or not.

PUBLIC RELATIONS

70. Early in the month an officer of the Commission's Public Relations Branch was attached to each of the Armies operating in the field, and these officers were in close touch in preparation for the active period expected. As a result contact was maintained with events and war correspondents and

Declassified E.O. 12356 Section 3.3/NND No. 785017

Reception during May (by road)	-	10
Reception by means other than ship	-	571

	Total	8450

In addition 1415 were dispersed to Local Homes and 878 handed over to the Italian Military authorities for possible military service.

69. As the Armies move forward the unrest amongst the refugees in the South increases. Refugees find it hard to live in the dispersal areas and are eager to return to their homes and property, whether it is intact or not.

PUBLIC RELATIONS

70. Early in the month an officer of the Commission's Public Relations Branch was attached to each of the Armies operating in the field, and these officers were in close touch in preparation for the active period expected. As a result contact was maintained with events and war correspondents and proper publicity was assured.

71. A number of items dealing with the work of ACC have been released to the press, the photographers attached to the Branch have covered stories of varied interest in the towns recently liberated, refugee camps and the forward areas generally.

72. The routine work was not neglected. Liaison with Sections, Branches, Boards and Regions was maintained, a particular feature being visits to Conferences and meetings held in the Regions. The weekly bulletin is proving increasingly useful and popular, especially in the southern Regions where authentic and up-to-date news percolates only slowly.

FILES A

Declassified E.O. 12356 Section 3.3/NND No. 785017

PART I.

AMG FIFTH ARMY.

1. During the month very little advance was made in the difficult mountainous country of the APPENINES. In all, about a dozen new communes were occupied in the Provinces of BOLOGNA, RAVENNA and FORLI. The four Provinces of PISA, FLORENCE, LUCCA and PISTOIA remained under command of AMG FIFTH Army throughout the month. Half of LUCCA Province and one commune in PISTOIA were still in enemy hands at the end of the month, while the liberated parts of these Provinces were for the most part full of tactical troops.

2. In the interest of good administration TOSCANA Region specialist officers have been encouraged to work in the Army area on long term problems and are in fact handling Education, Engineering, and certain phases of Economics.

3. Six Provincial teams of TOSCANA and EMILIA Regions have been under command, waiting to operate in their own areas, and during the month five other teams for Northern ITALY were added.

4. Because of the special eminence of TUSCANY in this field, Fine Arts have been of greater importance than ever before. Considerable progress has been made in repairs to the Campo Santo at PISA and the restoration to FLORENCE of paintings and soulpture, which had been taken elsewhere for safety.

5. In FLORENCE the chief interest has been over the food and fuel supply, which are both still far from satisfactory, and the political-constitutional struggle between the Prefect and the Committee of Liberation, in which important issues of national importance were raised. At one time the political atmosphere was lively but things had quievened down by the end of the month.

6. In PISA life is still paralyzed by the physical destruction and mining of the city and the grave housing shortage, which is further aggravated by large scale requisitioning of accommodation for military units.

7. Public morale generally was far from high, largely owing to the present inferiority of physical living conditions as compared with those prevailing under German occupation. While the people are in general friendly towards the Allies, empty bellies and economic distress are submitting this new friendship to a severe test.

8. In the towns the food situation was bad. There were demonstrations during the month in FLORENCE, PISTOIA and PISA, in each case dispersed without much difficulty. LUCCA and PISTOIA Provinces both ran out of locally produced grain and PISA will do so early in the New Year. There are a large number of towns in the area economically dependent on industry and in these the shortage of groceries and animal products caused severe hardship.

9. Much of the wheat crop on the Southern side of the APPENINES has been lost as a result of military operations. The shortage of livestock hampers autumn planting and precludes the distribution of any dairy products in the cities. Prospects for the olive crop are good.

10. Some 1800 refugees were sent South during the month. With the slowing down of the advance and the onset of bad weather, both of which make necessary the accommodation in buildings of large numbers of troops, it is expected that large-scale evacuation from forward areas will soon start.

Declassified E.O. 12356 Section 3.3/NND No. 785017

have been engaged in handling Education, Engineering, and certain phases of Economics.

3. Six Provincial teams of TOSCANA and EMILIA Regions have been under command, waiting to operate in their own areas, and during the month five other teams for Northern ITALY were added.

4. Because of the special eminence of TUSCANY in this field, Fine Arts have been of greater importance than ever before. Considerable progress has been made in repairs to the Campo Santo at PISA and the restoration to FLORENCE of paintings and sculpture, which had been taken elsewhere for safety.

996

AMG EIGHTH ARMY.

11. The Province of AREZZO was handed over to Regional administration on 21 October and it has been arranged that the Provinces of ANCONA and PESARO will be handed over to ABRUZZI-MARCHE Region on 1 Nov.

12. The new territory captured by EIGHTH Army can be divided into two geographical categories :

(a) The low lying/.....

(8)

Declassified E.O. 12356 Section 3.3/NND No. 785017

(a) The low lying agricultural plain in the triangle RAVENNA - RIMINI - FORLI, which is rich agricultural land producing grain, sugar beet and market garden produce. There was considerable damage to dwelling houses in this area and a very large portion of it is now under water as a result of the destruction of dykes, retaining walls and pumping stations.

(b) The mountain territory lying directly south of Route 9 and forming the most northerly ridges of the APPENINES. Here there was heavy damage to some of the villages and an almost complete destruction of the bridges which cross the not inconsiderable rivers running down to the PO Valley.

13. From the above description it will be appreciated that damage generally was heavier than in the past and that the outlook for the coming winter is extremely gloomy. The progress of troops has become slow and the war may almost be stated to be in a static phase, with large numbers of troops seeking winter quarters in the much reduced number of available houses. To this must be coupled great destruction caused by flooding on farm land, with the resulting impossibility either of harvesting this year's crop or of sowing next, and the difficulty of transporting such supplies as there are over bridgeless roads.

14. Committees of Liberation were met with in all newly captured areas but no particular difficulty was found in dealing with them. Prefects of all Provinces operated satisfactorily and Sindaci and Giuntas functioned in the communes of ANCONA Province, as well as in all but the ten most northerly towns in PESARO Province.

15. Miscellaneous food supplies from ANCONA and flour from SENIGALLIA were brought up to the advanced base supply depot at RIMINI. Special issues of grain were authorised to consumers in the Provinces of ANCONA and PESARO, where much of the wheat crop was lying unthreshed in the fields until an unusually late date. Measures were taken in FORLI and RAVENNA Provinces to supplement the very inadequate diet of the civil population by a properly organised distribution scheme for fruit and vegetables, which are plentiful in the plain.

16. The Civil Police performed excellently during the month in keeping the main Army roads free of civilian traffic.

17. Operation of tented refugee camps was greatly handicapped by the weather, which also made it more difficult to move displaced civilians to neighbouring communes. In all 8326 civilians were evacuated through AMG camps, of which 1890 passed through a camp in FIFTH Army area. The necessity of housing troops in an over-crowded and damaged zone may mean that a considerable number of refugees will have to be evacuated South.

18. All troops have now evacuated the Republic of SAN MARINO. Supplies of food and medical stores have been arranged for the Republic.

SICILIA REGION.

19. The tide of unrest caused during the early part of October by shortage of food, the rising prices of essential commodities, unfulfilled expectations as to increases in pay and the general inability of the local administration to control the situation culminated in an unpleasant incident at PALERMO on 19 October, when troops opened fire on and used grenades against a crowd (from which a bomb is reported to have been thrown) which was gathered in a confined area outside the Prefettura

Declassified E.O. 12356 Section 3.3/NND No. 785017

to be in a static phase, with large numbers of troops seeking [illegible] the much reduced number of available houses. To this must be coupled great destruction caused by flooding on farm land, with the resulting impossibility either of harvesting this year's crop or of sowing next, and the difficulty of transporting such supplies as there are over bridgeless roads.

14. Committees of Liberation were met with in all newly captured areas but no particular difficulty was found in dealing with them. Prefects of all Provinces operated satisfactorily and Sindaci and Giuntas functioned in the communes of ANCONA Province, as well as in all but the ten most northerly towns in PESARO Province.

15. Miscellaneous food supplies from ANCONA and flour from SENIGALLIA were brought up to the advanced base supply depot at RIMINI. Measures were taken in FORLI and RAVENNA Provinces to supplement the very inadequate diet of the civil population by a properly organised distribution scheme for fruit and vegetables, which are plentiful in the plain.

16. The Civil Police performed excellently during the month in keeping the main Army roads free of civilian traffic.

17. Operation of tented refugee camps was greatly handicapped by the weather, which also made it more difficult to move displaced civilians to neighbouring communes. In all 8326 civilians were evacuated through AMG camps, of which 1890 passed through a camp in FIFTH Army area. The necessity of housing troops in an over-crowded and damaged zone may mean that a considerable number of refugees will have to be evacuated South.

18. All troops have now evacuated the Republic of SAN MARINO. Supplies of food and medical stores have been arranged for the Republic.

SICILIA REGION.

19. The tide of unrest caused during the early part of October by shortage of food, the rising prices of essential commodities, unfulfilled expectations as to increases in pay and the general inability of the local administration to control the situation culminated in an unpleasant incident at PALERMO on 19 October, when troops opened fire on and used grenades against a crowd (from which a bomb is reported to have been thrown) which was gathered in a confined area outside the Prefettura and the Office of the High Commissioner. Serious casualties occurred, 26 civilians being killed and 156 wounded. The bomb thrown from the crowd injured 11 soldiers.

20. Many misrepresentations of the incident appeared both in the press and elsewhere, where the impression was sometimes given that a serious battle between strikers and the Italian armed forces had occurred, or that an attempt had been made by the Separatists to initiate violent action. It seems clear that the causes of the trouble were in the main economic and that, though the situation at the time was tense, had the forces of law and order been properly employed bloodshed could have been avoided or at least only a few casualties caused. Though excitement subsequently ran high in the city of PALERMO for some days and strong patrolling of the streets was necessary, the situation by the end of the month was outwardly calm and normal. Throughout the rest of the Island the situation was not abnormal, though there was continuous agitation against the low rate of wages and the high cost of living.

Declassified E.O. 12356 Section 3.3/NND No. 785017

21. During the month the Separatists held a congress at TAORMINA. The meeting was orderly but it appears that the movement is gaining strength. The congress was attended by some 250 individuals, mainly from CATANIA, MESSINA and PALERMO. Although the delegates held different political views there was complete unanimity over the fundamental aims of the movement.

22. Food and its price continue to dominate everything, while the approach of winter makes the lack of clothing, material and of shoes most serious. Workers would prefer a stabilization of prices at a reasonable level rather than a rise in wages, which may tend to drive prices still higher. Efforts are being made by the local administration to bring prices down and to exercise some rigid form of control but the shortage of commodities, the operations of those interested in keeping black market prices high, non-observance of laws and regulations and the inefficiency of the lower administration make the problem most difficult.

23. Grain availability, which has a disturbing influence on the whole situation, is most serious as present stocks will be exhausted by the end of the year and no plan has as yet been made to meet this situation. It is estimated that about one million quintals have not been amassed. Unfortunately activity in enforcing the amassing laws was seriously hampered by the PALERMO disturbance on 19 October. Black market prices of bread and pasta are rising steadily.

24. Communal soup kitchens are being set up in all the larger towns. Soup kitchens sufficient to feed fifteen thousand poor people will shortly be functioning in PALERMO.

25. Preparations have been made for the reopening of the schools on 4 November, but many school buildings are still occupied by the military, either Allied or Italian, and many others are uninhabitable due to war damage. Certain buildings are occupied by refugees but the utmost is being done to return these to the schools.

SOUTHERN REGION.

26. The Region continues to give day-to-day assistance to Allied forces. Amongst other routine work more than 2,000 civilians were found alternative accommodation in NAPLES Province to make room for Allied troops.

27. During the month a large number of activities were handed back to Italian control, including two cement and two brick works, distribution of drugs, control of certain industries such as soap, repairs to power stations and the operation of public utilities etc. At the provincial level the Italian authorities are functioning fairly well but they complain of a lack of guidance from their Government in ROME.

28. The political position continued to be confused but the activities of the various parties were under reasonable control. The Communist Party was stimulated by a visit of the Russian Trade Union delegation. The Socialist Revolutionary Party declared itself against the parties of the Committee of Liberation and also sponsored the newspaper "Bandiera Rossa". The great mass of the people, however, remained indifferent to the political situation and were more concerned with the problems of food and clothing for the winter. Fears for the future persisted, fear that the Italian currency would collapse and that the withdrawal of the Allies from ITALY would result in chaos.

997

29. As regards local government, the low salaries of all grades of state and

Declassified E.O. 12356 Section 3.3/NND No. 785017

iency of the lower administration make the problem most difficult.

23. Grain availability, which has a disturbing influence on the whole situation, is most serious as present stocks will be exhausted by the end of the year and no plan has as yet been made to meet this situation. It is estimated that about one million quintals have not been amassed. Unfortunately activity in enforcing the amassing laws was seriously hampered by the PALERMO disturbance on 19 October. Black market prices of bread and pasta are rising steadily.

24. Communal soup kitchens are being set up in all the larger towns. Soup kitchens sufficient to feed fifteen thousand poor people will shortly be functioning in PALERMO.

25. Preparations have been made for the reopening of the schools on 4 November, but many school buildings are still occupied by the military, either Allied or Italian, and many others are uninhabitable due to war damage. Ceftain buildings are occupied by refugees but the utmost is being done to return these to the schools.

SOUTHERN REGION.

26. The Region continues to give day-to-day assistance to Allied forces. Amongst other routine work more than 2,000 civilians were found alternative accommodation in NAPLES Province to make room for Allied troops.

27. During the month a large number of activities were handed back to Italian control, including two cement and two brick works, distribution of drugs, control of certain industries such as soap, repairs to power stations and the operation of public utilities etc. At the provincial level the Italian authorities are functioning fairly well but they complain of a lack of guidance from their Government in ROME.

28. The political position continued to be confused but the activities of the various parties were under reasonable control. The Communist Party was stimulated by a visit of the Russian Trade Union delegation. The Socialist Revolutionary Party declared itself against the parties of the Committee of Liberation and also sponsored the newspaper "Bandiera Rossa". The great mass of the people, however, remained indifferent to the political situation and were more concerned with the problems of food and clothing for the winter. Fears for the future persisted, fear that the Italian currency would collapse and that the withdrawal of the Allies from ITALY would result in chaos.

997

29. As regards local government, the low salaries of all grades of state and municipal officials and employees was a subject of complaint, and inaction at ROME caused irritation locally and created a deepening mistrust.

30. The main difficulty in connection with the food supply was still transport. Fruits and vegetables were plentiful in producing areas but scarce elsewhere. The situation remained unchanged insofar as rationed items and free market goods were concerned. FOGGIA exported 27,000 tons of grain and flour to other Provinces during the month and 4,300 tons of wine were transported by ship from TARANTO to ROME.

31. Total grain collections reported up to 29 October were 3,011,666 quintals of wheat and 305,792 of barley. Provincial grain collection committees were requested to submit plans for action to bring in as much additional grain as possible.

Declassified E.O. 12356 Section 3.3/NND No. 785017

32. Prices in general rose and in NAPLES today are double those of a year ago.

33. New olive oil control officers, in training at FOGGIA, seized on their first effort 9 quintals of wheat, a truck with a false bottom containing two quintals of oil and 80 gallons of Allied petrol.

34. The promise of an increased food ration for civil police agencies resulted in a marked uplift in morale. A number of crimes of violence, mostly committed jointly by deserters from Allied Forces and civilians, were reported in outlying districts of NAPLES Province. Operations of all police agencies against the black market were continued with success.

35. The local Housing Commission in NAPLES commenced a programme of house repair, in conjunction with the Genio Civile.

36. As regards public health, Italian smallpox vaccine was found to be defective and it is not now clear how many of the 1,300,000 persons vaccinated in NAPLES area have actually been immunized.

LAZIO-UMBRIA REGION.

(A) ROME City.

37. Both the general population of ROME and others entitled to rations in ROME received their quota of rationed food during October, with only slight exceptions. The issues were within 2% of the ration entitlement, a considerable improvement on September. The distribution of foodstuffs available in ROME no longer presents a major problem but transportation difficulties hinder the bringing in of food.

38. Labour made "strike talk" more often during October. Organised labour in ROME is getting stronger and finding its voice. A half-hour strike to take place on 31 October was proposed by the ROME Chamber of Labour, but was later called off.

39. The City Sindaco has formed a Committee for Coordination of Technical Services, the initial meetings of which indicate constructive and helpful cooperation.

40. Police agencies have worked better during the month but are still short of food, boots and clothing. However, the increase as from 1 November of the rations of Metropolitani, Finance Guards, Prison Guards and Fire Brigade personnel to a similar scale to that of the CC.RR is appreciated by the men and should still further improve efficiency.

41. Although crime decreased in October there has been a number of hold-ups and robberies after dark, against which concerted drives are being made by the civil and military police.

42. Public health has remained good. Typhoid cases have decreased to about seven daily and will decrease further. Infant mortality, which was high, has also improved as has the malarial situation, the cases in ROME city and Provinces having dropped to 110 a week. The only concern at present is the supply of chlorine for the water of ROME, but is is hoped that adequate future supplies will soon be available.

43. At the end of the month 235,700 daily bowls of soup were being served in industrial kitchens.

6 November. The situation as regards de-requisition-

Declassified E.O. 12356 Section 3.3/NND No. 785017

in conjunction with the Genio Civile.

36. As regards public health, Italian smallpox vaccine was found to be defective and it is not now clear how many of the 1,300,000 persons vaccinated in NAPLES area have actually been immunized.

The only concern at present is the supply of chlorine for the water of ROME, but is is hoped that adequate future supplies will soon be available.

43. At the end of the month 235,700 daily bowls of soup were being served in industrial kitchens.

44. Schools were due to open on 6 November. The situation as regards de-requisitioning of schools is still unsatisfactory but is improving.

45. There was no marked change in the black market where food still appears to be plentiful. Prices have not been increased.

46. A control post has been established North of ARSOLI in LAZIO Province in order to expedite the delivery of potatoes to the general markets in ROME.

47. Detailed instructions for the formation and operation of truck pools have been prepared and translated into Italian. Provincial Commissioners have also been contacted in connection with the formation of provincial pools.

48. The unblocking of uncontrolled materials has proceeded according to plan. As from 1 November the Italian Government will assume responsibility for controlled materials in Liberated Italy with a few exceptions.

(B) PROVINCES./.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

(B) PROVINCES.

49. Lack of transportation and communications are primarily responsible for failure to improve the supply situation. In many instances Provinces had on 1 October sufficient of certain foodstuffs to make the prescribed distribution but failed to do so for one or other of the above reasons.

50. Housing is a serious problem which the Italian Government has not successfully tackled.

51. The official scheme for dealing with landmines is now in the training stage, In the meantime one company has picked up a few and is helping to clear power lines etc. A small band of volunteers has also collected some eight thousand in FROSINONE.

52. Two new Prefects took office during the month. The change in LITTORIA was a great improvement and in VITERBO it seems likely that the high standard already reached will be maintained. Good progress is being made by the Italian Government with building up the rest of their provincial administration.

53. The main task in industry was the unblocking of various commodities. TERNI, the only industrial center in the Provinces, showed remarkable progress.

54. The transportation of seed wheat was the main agricultural problem of the month, and a reasonable degree of success was achieved.

55. Ploughing is behind schedule owing to bad weather and POL shortage. The collection of grain is still progressing well, with over-flowing granaries as one of the difficulties. 94% of Allied Commission goals was reached by 23 October.

56. The revival of the fishing industry is showing slow progress.

57. In the labour field, so long as the Italian Government does not hold up the release of funds for public works there will be no great unemployment problem. Provincial Labour Offices are in operation.

58. The only reports of serious crime come from Provinces where there are bands of Allied deserters but these are not widespread.

59. The proper equipment of Carabinieri is extremely urgent if public order is to be upheld.

60. A seasonal decrease in malaria and typhoid is general but VITERBO reports concern over tuberculosis and LITTORIA over scabies.

61. Heavy rains and the removal of Bailey bridges for more urgent military needs have made travel by road increasingly difficult. All Provincial capitals except FROSINONE are now in signal communication with ROLE.

ABRUZZI-MARCHE REGION.

62. Political activity was more widespread, with meetings throughout the Region, chiefly of a communist nature. The Christian Democrat party was reported to be in the lead with numbers but the Communist party was well to the fore with propaganda.

934

63. Welcome changes continued to be made in the Italian local government personnel. [illegible] co-operative and were beginning to take their full share of responsi-

61. Heavy rains and the removal of Bailey bridges for more urgent military needs have made travel by road increasingly difficult. All Provincial capitals except FROSINONE are now in signal communication with ROME.

ABRUZZI-MARCHE REGION.

62. Political activity was more widespread, with meetings throughout the Region, chiefly of a communist nature. The Christian Democrat party was reported to be in the lead with numbers but the Communist party was well to the fore with propaganda.

994

63. Welcome changes continued to be made in the Italian local government personnel. Prefects were co-operative and were beginning to take their full share of responsibility. A provincial epuration committee was set up in ANCONA and PESARO Provinces.

64. Collection of grain slowed down considerably in the last half of the month, especially in those Provinces handed over to the Italian Government. The weather was very bad and it may be that this was the reason. Collection was, however, approaching the target figure.

65. While the supply of salt improved, the olive oil position has deteriorated. The olive oil allocation for October and November had not yet been received. Up to the date of handing over AQUILA Province to Italian administration potatoes were coming in faster than they could be transported.

Civilian/.....

(8)

Declassified E.O. 12356 Section 3.3/NND No. 785017

66. Civilian labour offices were organized in all Provinces except in ANCONA and PESARO. There were no widespread clashes between employers and employees but dissatisfaction continued regarding the relationship of wages to purchasing power.

67. Work continued on the reconstruction of roads and bridges, though such work was hampered by bad weather latterly.

68. A number of plans for the rebuilding of schools, government offices, etc., were approved, the largest of which was the reconstruction of the AVEZZANO Prison at a cost of L. 2,400,000.

69. Some 41,000 mines were removed during the month from the Provinces of CHIETI, PESCARA and TERAMO. There is still a great amount of clearance to be done. This is also the case in PESARO Province, from which area the battle has only recently gone forward.

70. An improvement in the electricity supply is expected shortly, when it will be augmented by an allotment of power from Southern Region.

71. The Region continued to be free from serious crime and no large black market activities are reported. The political demonstration staged at ORTUCCHIO appeared at one time to be formidable. It was firmly handled by the Carabinieri and it is not thought that another such outbreak is likely to occur.

72. The health of the population is satisfactory and twenty tons of medical supplies received will be of great benefit.

73. The majority of the schools have been reopened, with the exception of those in the Province of PESARO-URBINO. Reopening in the Northern Provinces was hampered owing to the lack of accommodation, the schools having either been destroyed or occupied by the Army. New Rectors were elected in the three Universities of the Region and examinations were being held prior to reopening.

74. About 1300 refugees were received from the forward areas and dispersed in the Provinces. The organisation for their reception and dispersal functioned admirably and no difficulties were experienced.

SARDEGNA REGION.

75. General progress was made towards all round better cooperation and improved administration, the improvement being reflected in the absence of serious reaction following the reduction of the workers' food ration. Although the reduction was considerable and affected more than 200,000 workers there were only five food demonstrations in September and October against seventeen in the two previous months. But although the change has been accepted in good spirit, anxiety is not over as the grain collected on the Island will only maintain the ration until mid-December. 7000 tons of imported grain will then be required by the 15th of each month. This calculation is based on the assumption that locally amassed grain will amount to 300,000 quintals. At the end of October just over 276,000 quintals had been collected and an energetic drive to reach the target figure continued.

76. A serious factor in the food situation is a universal lack of sugar.

77. The political situation remained comparatively quiet. On 15 October the fusion of the Sardegna Action Party and the Italy Action Party was announced. The Communist Party had an opportunity to show itself as an organised group during the [illegible] it was prominent. Other

Declassified E.O. 12356 Section 3.3/NND No. 785017

also the case in PESARO Province, from which area the battle has [illegible] forward.

70. An improvement in the electricity supply is expected shortly, when it will be augmented by an allotment of power from Southern Region.

71. The Region continued to be free from serious crime and no large black market activities are reported. The political demonstration staged at ORTUCCHIO appeared at one time to be formidable. It was firmly handled by the Carabinieri and it is not thought that another such outbreak is likely to occur.

72. The health of the population is satisfactory and twenty tons of medical supplies received will be of great benefit.

73. The majority of the schools have been reopened, with the exception of those in the Province of PESARO-URBINO. Reopening in the Northern Provinces was hampered owing to the lack of accommodation, the schools having either been destroyed or occupied by the Army. New Rectors were elected in the three Universities of the Region and examinations were being held prior to reopening.

74. About 1300 refugees were received from the forward areas and dispersed in the Provinces. The organisation for their reception and dispersal functioned admirably and no difficulties were experienced.

SARDEGNA REGION.

75. General progress was made towards all round better cooperation and improved administration, the improvement being reflected in the absence of serious reaction following the reduction of the workers' food ration. Although the reduction was considerable and affected more than 200,000 workers there were only five food demonstrations in September and October against seventeen in the two previous months. But although the change has been accepted in good spirit, anxiety is not over as the grain collected on the Island will only maintain the ration until mid-December. 7000 tons of imported grain will then be required by the 15th of each month. This calculation is based on the assumption that locally amassed grain will amount to 300,000 quintals. At the end of October just over 276,000 quintals had been collected and an energetic drive to reach the target figure continued.

76. A serious factor in the food situation is a universal lack of sugar.

77. The political situation remained comparatively quiet. On 15 October the fusion of the Sardegna Action Party and the Italy Action Party was announced. The Communist Party had an opportunity to show itself as an organised group during the visit of the Russian Labour Delegation, at whose meetings it was prominent. Other visitors included Dott. CORSI, the Socialist Under-Secretary for Marine and EMILIO LUSSU, the leader of the Action Party, who on this occasion came in connection with welfare matters and not politics. Summarising political tendencies on the Island, there is an expressed desire for greater administrative autonomy under the High Commissioner but . there is no real separatist movement.

78. The functioning of the SARDINIA Courts of Law is again causing anxiety. There is an accumulation of over 16,000 cases awaiting trial and more than 1600 prisoners in jail awaiting trial. Despite this congestion, which continues to grow worse, the additional Judges sent to the Island have been removed.

Progress/.....

Declassified E.O. 12356 Section 3.3/NND No. 743017

79. Progress was made in the release of 611 time-expired prisoners at ASINARA Penal Settlement; 362 of these, whose homes were in Southern Italy, were embarked for the mainland on 29 October. One of these men said that he had completed his sentence sixteen months ago and another protested that his crime had been anti-fascist activity. There are still 250 men imprisoned in this Settlement who have completed their sentences.

80. Rain fell during the month and cultivation is well forward; barley and oats for forage have already been sown in many districts and the preparation of land for wheat is well forward. Prospects for the olive crop continue to be good.

81. Clearance of badly bombed CAGLIARI is a tale of slow progress, due to lack of transport to remove debris. Repairs to schools and public buildings are in hand.

82. 25 cases of armed robbery were reported during the month, whilst organised banditry continues in NUORO. A shepheard's vendetta resulted in the wanton slaughter of 800 sheep.

83. There was no unusual trend in Public Health except for an epidemic of typhoid in ORUNI, which has subsided.

TOSCANA REGION.

84. At the end of the month Regional Headquarters were obliged to move from SIENA in order to make room for an operational HQ. FLORENCE was the obvious centre but it proved impossible to find accommodation and the HQ had perforce to move to LUCCA.

85. The slowing up of the Armies' advance caused unavoidable congestion in the area close behind the fighting line, resulting in increased demands on stocks of food, fodder, accommodation etc. The widespread destruction to communications added to the difficulties experienced.

86. The various political parties continued to play for position, but on a reduced scale. Public morale generally was good. The necessity of requisitioning buildings to house troops caused concern in some areas, notably in AREZZO and LIVORNO, where anxiety was aggravated by a number of crimes committed by troops against civilians.

87. Local government functioned well in SIENA and GROSSETO. Communal Committees for aid to Patriots were established in LIVORNO and though in AREZZO no Sindaci have as yet been confirmed, all Northern communes are gradually being brought into the governmental administration.

88. There is ample lignite in AREZZO and GROSSETO Provinces and in the latter there is a good supply of charcoal, pyrites, pelts, wheat, oats, and olive oil when harvested. Shortage of sugar, however, will probably be seriously felt. A comprehensive programme to supply the Northern Provinces with seed wheat was worked out and some 250 tons have already been moved.

89. There were no labour disputes nor trade union developments during the month. The most difficult unemployment problem is at PIOMBINO but this will decrease when mining in the area is increased.

90. The Public Works and Utilities Division worked hard during the month, the drainage of flood water being among the most important tasks. Work on roads has also been constant and the railway has reached LIVORNO. A civil mail service from GROSSETO was resumed on 16 October.

[illegible] not serious and Allied and Italian courts

The necessity of requisitioning buildings to house troops caused concern in some areas, notably in AREZZO and LIVORNO, where anxiety was aggravated by a number of crimes committed by troops against civilians.

87. Local government functioned well in SIENA and GROSSETO. Communal Committees for aid to Patriots were established in LIVORNO and though in AREZZO no Sindaci have as yet been confirmed, all Northern communes are gradually being brought into the governmental administration.

88. There is ample lignite in AREZZO and GROSSETO Provinces and in the latter there is a good supply of charcoal, pyrites, pelts, wheat, oats, and olive oil when harvested. Shortage of sugar, however, will probably be seriously felt. A comprehensive programme to supply the Northern Provinces with seed wheat was worked out and some 250 tons have already been moved.

89. There were no labour disputes nor trade union developments during the month. The most difficult unemployment problem is at PIOMBINO but this will decrease when mining in the area is increased.

90. The Public Works and Utilities Division worked hard during the month, the drainage of flood water being among the most important tasks. Work on roads has also been constant and the railway has reached LIVORNO. A civil mail service from GROSSETO was resumed on 16 October.

91. Civilian crime in general was not serious and Allied and Italian courts functioned satisfactorily. Health in the Region continued to be good, the outbreak of typhoid in AREZZO Province having decreased. Finally, schools opened in GROSSETO, SIENA and AREZZO Provinces and are expected to open in LIVORNO during November.

PART II.

CIVIL AFFAIRS SECTION.

1. The Italian Government has issued a decree directing that priority be given to the epuration of the four senior grades of government and railway employees and requiring that epuration of these grades be completed by 31 Dec. It has also issued the Rules of Procedure for the epuration courts. Both decrees should expedite the process of epuration.

2. Despite shortage of equipment and other handicaps progress is being made by the Italian Government in mine clearance. The Centre of Instruction at PISA has completed its first course and squads are now operating in that area. The Centre at SPOLETO has been visited, where about 20 men are under instruction on the first course. At CHIETI a course of instruction for 30 men has commenced and a group of about 100 men are reported to be at work in PESARO.

LOCAL GOVERNMENT SUB-COMMISSION.

3. The Provinces of PESCARA, TERAMO, ASCOLI, MACERATA, ANCONA and PESARO have been surveyed and good progress is noted in the reorganisation of local government.

4. On representations of this Sub-Commission, the post of Prefetto Ispettore was created by the Italian Government. He is to visit Provinces in restored Italy, advising Prefects and to report, his reports being made available to the Local Government Sub-Commission.

5. A Decree has been published by the Italian Government in connection with the preparation of electoral lists. Implementation in Military Government Territory is held up pending study of the new decree.

6. At the request of the VP, the Director visited FLORENCE to investigate relations between the CLN, the Prefect and AMG.

7. Reports from political sources severely attacking the AMG Prefect of TER/MD have been submitted to the Italian Government. They have been investigated by this Sub-Commission and found to be baseless. The Italian request for the removal of the Prefect was refused and the Prefect is to receive all possible support.

8. Naples CLN was consulted by the Zone Commissioner as to the appointment of a new Sindaco. No suitable nomination was submitted by them and under pressure from the CLN through newspapers the AMG nominee withdrew. The Zone Commissioner therefore appointed a Commissario Prefettizio. The situation is being watched and the Regional Commissioner is to include in his monthly report special reference to this question.

PUBLIC SAFETY SUB-COMMISSION.

9. Agreement had been reached that the Carabinieri would be temporarily augmented by 5,000 Italian troops who would be attached to Regions in Southern ITALY, thus releasing trained Carabinieri for Northern ITALY. The whole scheme has been rendered however futile by a ruling that the 5,000 troops (who are not expected to arrive until the end of November) must return to military duties on 31 December. Suitable protests are being made.

10. The disturbance in PALERMO on 19 October (see account in report on SICILIA Region) was exploited by political factions and on the following day leaflets of a Separatist character were distributed in the streets. On 21 October the Separatist

Declassified E.O. 12356 Section 3.3/NND No. 785017

are reported to be at work in PESARO.

LOCAL GOVERNMENT SUB-COMMISSION.

3. The Provinces of PESCARA, TERAMO, ASCOLI, MACERATA, ANCONA and PESARO have been surveyed and good progress is noted in the reorganisation of local government.

4. On representations of this Sub-Commission, the post of Prefetto Ispettore was created by the Italian Government. He is to visit Provinces in restored Italy, advising Prefects and to report, his reports being made available to the Local Government Sub-Commission.

5. A Decree has been published by the Italian Government in connection with the preparation of electoral lists. Implementation in Military Government Territory is held up pending study of the new decree.

6. At the request of the VP, the Director visited FLORENCE to investigate relations between the CLN, the Prefect and AMG.

7. Reports from political sources severely attacking the AMG Prefect of TERAMO have been submitted to the Italian Government. They have been investigated by this Sub-Commission and found to be baseless. The Italian request for the removal of the Prefect was refused and the Prefect is to receive all possible support.

8. Naples CLN was consulted by the Zone Commissioner as to the appointment of a new Sindaco. No suitable nomination was submitted by them and under pressure from the CLN through newspapers the AMG nominee withdrew. The Zone Commissioner therefore appointed a Commissario Prefettizio. The situation is being watched and the Regional Commissioner is to include in his monthly report special reference to this question.

PUBLIC SAFETY SUB-COMMISSION.

9. Agreement had been reached that the Carabinieri would be temporarily augmented by 5,000 Italian troops who would be attached to Regions in Southern ITALY, thus releasing trained Carabinieri for Northern ITALY. The whole scheme has been rendered however futile by a ruling that the 5,000 troops (who are not expected to arrive until the end of November) must return to military duties on 31 December. Suitable protests are being made.

10. The disturbance in PALERMO on 19 October (see account in report on SICILIA Region) was exploited by political factions and on the following day leaflets of a Separatist character were distributed in the streets. On 21 October the Separatist Headquarters in PALERMO were raided by the Police, documents were seized and 11 persons arrested. No repercussions followed the incident and public order is normal.

11. The police (particularly the Carabinieri who are popularly supposed to be Monarchists) have been accused of being influenced by politics. The Commanding General of the Carabinieri has issued an order to the Force, again emphasising the need for the police to remain strictly non-political. To counteract unfair Press criticism, which was undermining public confidence in them, Col. Young of the Public Safety Sub-Commission, addressed the editors of the Italian Press in ROME, asking for their cooperation in restoring the prestige of the police.

The Italian/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

12. The Italian Government is now aware of the danger of weapons and ammunition being collected by political parties and instructions have been issued for the seizure of firearms illegally held by civilians.

13. Armed hold-ups in SICILY are on the increase. In ROME there has been an out-break of thefts in the streets at night, particularly robbery with violence.

14. The Council of Ministers has passed a decree re-naming the Corps of Agents of Public Security the "Guardia Nazionale di Polizia". 300 recruits have commenced a course of instruction at the Training School in ROME.

15. All Public Safety Agencies have been granted an increased ration scale, equivalent to the Italian Army ration.

PUBLIC HEALTH SUB-COMMISSION.

Public Health.

16. Only 15 cases of typhoid have been reported in BENEVENTO up to 26 October as compared with 30 for the whole of September.

17. Smallpox continued in NAPLES and adjacent areas, but the epidemic is of such a mild nature that it is largely disregarded and many cases are concealed by the local population, thus increasing the difficulties of control measures.

18. A grossly exaggerated account of V.D. amongst young girls in NAPLES has appeared in the Italian press.

19. The total tuberculosis death rate for ROME has also fallen, the October figure being 323.

20. Plans are being prepared for the 1945 Anti-Malarial Campaign.

21. Two cases of Endemic, i.e., not louse borne, typhus have occurred in NAPLES Province.

Veterinary.

22. Italian laboratories are producing all requirements for animal diseases with the exception of Hog Cholera.

23. The incidence of Rabies is decreasing, but the incidence of Bovine Tuberculosis is high among dairy cattle. Recommendations concerning the pasteurisation and boiling of milk have been made.

Medical Supply.

24. Medical supplies to the total value of $5,335,000 and the approximate weight of 3,000 long tons have been imported into ITALY from the start of AMG operations in ITALY.

25. The National Wholesale Druggist Association, formed for the distribution of Medical Supplies, was due to start operating on 1 November.

Welfare.

26. Satisfactory conferences with the Italian Government regarding the allocation of funds for Welfare projects have been held and as the result of a meeting held in [illegible] and attended by H.E. GANEVARI, Under-

17. Smallpox continued in NAPLES and adjacent areas, but the epidemic is of such a mild nature that it is largely disregarded and many cases are concealed by the local population, thus increasing the difficulties of control measures.

18. A grossly exaggerated account of V.D. amongst young girls in NAPLES has appeared in the Italian press.

19. The total tuberculosis death rate for ROME has also fallen, the October figure being 32%.

20. Plans are being prepared for the 1945 Anti-Malarial Campaign.

21. Two cases of Endemic, i.e., not louse borne, typhus have occurred in NAPLES Province.

Veterinary.

22. Italian laboratories are producing all requirements for animal diseases with the exception of Hog Cholera.

23. The incidence of Rabies is decreasing, but the incidence of Bovine Tuberculosis is high among dairy cattle. Recommendations concerning the pasteurisation and boiling of milk have been made.

Medical Supply.

24. Medical supplies to the total value of $5,335,000 and the approximate weight of 3,000 long tons have been imported into ITALY from the start of AMG operations in ITALY.

25. The National Wholesale Druggist Association, formed for the distribution of Medical Supplies, was due to start operating on 1 November.

Welfare.

26. Satisfactory conferences with the Italian Government regarding the allocation of funds for welfare projects have been held and as the result of a meeting held in the office of the Director of Public Health and attended by H.E. GANEVARI, Under-Secretary of the Interior, the establishment of a Commission to deal with devastated areas resulted.

LEGAL SUBCOMMISSION.

27. The Office of the Chief Legal Adviser was concerned during the month with completion of ordinances for restoration of additional territory to Italian jurisdiction and consideration of various needs pertaining to the future structure of the press, radio and film industries in ITALY. The problem of sequestration of the property of United Nations nationals was also considered, as well as a decree to restore property to Jews. Finally, a directive on enemy partisans was issued by the Office of the Chief Legal Adviser.

(8)

Declassified E.O. 12356 Section 3.3/NND No. 785017

28. ~~Amongst work carried out by the~~ Office of the Chief Counsel ~~was preparation~~ of opinions on:

(i) Right to require Italian Army to supply material and services;
(ii) to control appointment and personnel of Commissarii;
(iii) to control general economy.

Rules and regulations to supplement General Order No.28 (Labour Relations) were prepared; and the subject of control of utility rates was considered.

29. The Italian Branch was concerned with the control of draft decrees prior to their submission to the Council of Ministers and the procedure to be adopted, as well as with rules for restoration of property rights to Jews. Work was done on the reorganisation of the administration of Italian military justice. A memorandum on the complaints made by the Waldesian Church, arising out of its position in ITALY under the Lateran treaty, was considered and a decree was drafted on property control for administration by the Italian State of the property of members of the United Nations. A decree to facilitate marriage of the members of the U.S. Forces under the Italian law was approved.

30. The Office of the Chief Judicial Officer was visited by Chief Judicial Officer of TOSCANA Region, who reported that things were quiet in that Region and there was little work for Allied Military Courts, except at LIVORNO.

31. Espionage cases in October were :

Death sentences confirmed - 6;
" " confirmation by Chief Commissioner awaited - 2;
" " commuted - 0.

There was no case for review in which a person convicted of espionage had received any sentence other than death.

EDUCATION SUB-COMMISSION.

32. The extensive printing inaugurated during the summer is far from complete. Some books have been published in NAPLES. In ROME most of the printing is done but the covers are not yet finished. In FLORENCE, four of the ten books are printed, except for covers, others are getting under way. The paper and ink ordered from the UNITED STATES last April had begun to arrive. This has been the principal cause of delay in PALERMO and NAPLES. Delays have been due to difficulty in getting electricity for the presses and the taking over of presses, in the midst of ... printing, by PWB. In FLORENCE there was necessarily a late start.

33. Defascism of school and university personnel proceeds on normal lines - at least, the mechanism is excellent.

34. The gravest problem is in regard to school buildings. The number occupied by Allies, by Italian Military and Carabinieri and by refugees and homeless constitutes the majority in most Provinces; many of the rest are either destroyed or badly damaged.

35. This building problem is being vigorously and systematically attacked by the Regional Education Officers. Occasionally it is possible to get the military units to move over and make room for children. Strong pressure is being put on Prefects to get refugees out. Sindaci and Genii Civili are being pushed into making repairs ... disinfecting and disinfecting buildings. Their great cry is for materials.

Declassified E.O. 12356 Section 3.3/NND No. 785017

as with rules for restoration of prop[illegible]
anisation of the administration of Italian military justice. A memorandum on the complaints made by the Waldesian Church, arising out of its position in ITALY under the Lateran treaty, was considered and a decree was drafted on property control for administration by the Italian State of the property of members of the United Nations. A decree to facilitate marriage of the members of the U.S. Forces under the Italian law was approved.

30. The Office of the Chief Judicial Officer was visited by Chief Judicial Officer of TOSCANA Region, who reported that things were quiet in that Region and there was little work for Allied Military Courts, except at LIVORNO.

31. Espionage cases in October were :

Death sentences confirmed - 6;
" " confirmation by Chief Commissioner awaited - 2;
" " commuted - 0.

There was no case for review in which a person convicted of espionage had received any sentence other than death.

EDUCATION SUB-COMMISSION.

32. The extensive printing inaugurated during the summer is far from complete. Some books have been published in NAPLES. In ROME most of the printing is done but the covers are not yet finished. 33. Defascism of school and university personnel proceeds on normal lines - at least, the mechanism is excellent.

34. The gravest problem is in regard to school buildings. The number occupied by Allies, by Italian Military and Carabinieri and by refugees and homeless constitutes the majority in most Provinces; many of the rest are either destroyed or badly damaged.

35. This building problem is being vigorously and syatematically attacked by the Regional Education Officers. Occasionally it is possible to get the military units to move over and make room for children. Strong pressure is being put on Prefects to get refugees out. Sindaci and Genii Civili are being pushed into making repairs and disinfesting and disinfecting buildings. Their great cry is for materials.

36. Schools opened in the majority of Provinces from ROME north in October. In the rest of the Provinces and in all Southern ITALY they are ready for opening early in November - the date set by the Minister.

MONUMENTS, FINE ARTS AND ARCHIVES SUB-COMMISSION.

37. Liaison with LONDON and WASHINGTON: During October the Sub-Commission began its first sending of photographs to WASHINGTON and LONDON as records of damage to and repair of monuments in ITALY. These shipments will be carried on crescendo provided that the photographic equipment can be properly maintained. Special reports were also submitted on the condition of monuments and art objects in GREECE and on the removal of German archaeological Libraries from ROME.

38. Liaison/....

Declassified E.O. 12356 Section 3.3/NND No. 783017

38. Liaison with Italian Government: Meetings with Italian officials were concerned chiefly with taking energetic steps on the question of the budget for repairs, and assisting representatives of the Ministry of Public Instruction to go to SARDINIA and to cities in the MARCHE, where inspections and repairs were necessary.

39. Activities in various localities: In ROME the Exhibition of European Masterpieces still attracts many people. It will be kept open until 1 December. To-date 1,210,000 Lire have been deposited in the bank for use in monument projects, from the gate and photograph receipts at the exhibition. Repairs in the Protestant cemetery are practically complete. MICHELANGELO's "Moses" is being freed from the air-raid protective masonry and will shortly be on public view. In the field many repair projects are under way in LAZIO, UMBRIA, the ABRUZZI, the MARCHE and TOSCANA Regions.

(i) At FLORENCE the long labour of inspection and check-up of the deposits of art treasures and of many of the villas in the vicinity was concluded and reports submitted.

(ii) At PISA the emergency roofing of the CAMPOSANTO was completed and work on the damaged frescoes continued by Italian experts.

Both at FLORENCE and SIENA exhibitions are being prepared of works of art brought back to these cities from the deposits.

40. Operations of MFAA Officers (General): During this month MFAA Officers with FIFTH and EIGHTH Armies and the Regional MFAA Officers have been able to collaborate more closely in actual problems of inspection and repair and in planning for the future. Various tours of inspection in LAZIO-UMBRIA Region were undertaken by the Deputy Director.

DISPLACED PERSONS AND REPATRIATION SUB-COMMISSION.

41. No evacuation of Allied Nationals from ITALY has taken place during the month. Of the 7,000 Italian refugees arriving in refugee camps in ROME, some 5,000 have been repatriated to their communes. The shortage of transport in No.1 Sub Section, LECCE, is becoming acute. The need for release of blankets for Italian and Allied refugees is stressed.

42. In the southern camps the epidemic of measles and whooping cough had died down as the result of control measures. Mumps of a mild form has been prevalent and there have been a few cases of diptheria. Immunisation against diptheria is in process of completion. Adult health in general was good. Among new arrivals few cases of tuberculosis were reported. All camps north of ROME were visited during the month. General conditions were fairly good, although sanitation requires improvement in some instances. An automatic water pump and chlorinator has been installed at CINECITTA and AVERSA Camps.

43. Excellent work has been done during the month by the Records Bureau and 62,740 displaced persons are now recorded. Welfare and whereabouts enquiries continue to be received in large numbers.

44. Preliminary work on repatriation of 900 Jews to PALESTINE has been begun.

45. Advances to Allied Nationals continue and some 1611 people of 18 different nationalities have received sums totalling 6,736,200 lire. These loans average [illegible] and 1,380 of the beneficiaries are ex-internees of the Italian

Declassified E.O. 12356 Section 3.3/NND No. 785017

repair projects are under way in LAZIO, namely, the ABRUZZI, the MARCHE and TOSCANA Regions.

(i) At FLORENCE the long labour of inspection and check-up of the deposits of art treasures and of many of the villas in the vicinity was concluded and reports submitted.

(ii) At PISA the emergency roofing of the CAMPOSANTO was completed and work on the damaged frescoes continued by Italian experts.

43. Excellent work has been done during the month by the Records Bureau and 62,740 displaced persons are now recorded. Welfare and whereabouts enquiries continue to be received in large numbers.

44. Preliminary work on repatriation of 900 Jews to PALESTINE has been begun.

45. Advances to Allied Nationals continue and some 1611 people of 18 different nationalities have received sums totalling 6,736,200 lire. These loans average 2,666 lire a person and 1,380 of the beneficiaries are ex-internees of the Italian Government. Final arrangements have been made regarding Italian Government financial assistance to ex-internees. Currency conversion of those refugees proceeding overseas still awaits a ruling. The move of the further 900 Jews to PALESTINE in the near future emphasised the need for formulation of policy and planning at a high level, in anticipation of mass repatriation at the close of European hostilities.

PART III

ECONOMIC SECTION

AGRICULTURE SUB-COMMISSION.

Reconstruction of Italian Agriculture, Forestry and Fisheries.

1. Progress in the acceptance of responsibility by the Italian Government has been made during the past month in all three fields, Agriculture, Forestry and Fisheries. Programs have jointly been determined, responsibilities for securing results have been accepted and certain personnel changes, which should ensure speedier results, have been made.

2. Another step in the direction of closer working relationships with the Italian Government for King's ITALY resulted in the assignment of greater responsibilities to the Allied Civilians, who will work even more closely with the Italian Civilian representatives in the Ministry of Agriculture.

Agriculture.

3. Progress in developing a uniform livestock program was made by the Ministry through issuance of a decree prohibiting the slaughter of bovines, buffaloes and equines, except in certain unusual conditions.

4. Lack of transportation has been an especially important problem during the month with regard both to movements of seed wheat and seed potatoes. It is now clear that yields of these crops will be lowered by many thousand quintals during the coming season due to the use of poor quality local seed and actual reduced acreage in certain war damaged areas. In addition, the decision of AFHQ to reduce the imports of seed potatoes will mean a greatly reduced production of this important food item in 1945, as local seed potatoes are not being made available because of lack of transportation and of the high prices obtained as food.

5. Progress of the "Granai del Popolo" continues in many areas in spite of transportation and warehousing difficulties, showing an increase of 7% during the month, reaching a total of 9,197,232 quintals. Three Regions have now surpassed 90% of the estimated quantity of wheat to be amassed. SICILY and CALABRIA are still lagging far behind.

6. Wheat amassing will be limited in the forward areas due to a large proportion being damaged by weather conditions. In some communes it has been necessary to distribute such damp wheat as quickly as possible after occupation to all families in order to save it. In a few cases lack of warehousing has caused some damage, since sufficient transport was not available.

7. To increase delivery of the 1944 wheat as well as to give a reward for a high proportion of the crop amassed over family retentions, a limited quantity of the available nitrogenous fertilizers in SICILY are being used on an incentive basis in accordance with plan worked out jointly with the Regional personnel.

8. Olive oil amassing has now started. No reports are as yet available but estimates of production, consumption and quantities to be amassed are in the process of preparation.

9. The prices of rice, olive oil, silk cocoons and nitrogenous fertilizers have [illegible] information is being distributed to

9. The prices of rice, olive oil, silk cocoons and nitrogenous fertilizers have been approved by the Price Committee, and this information is being distributed to the forward areas as well as to other Regions.

10. For the first time since the Allied occupation a limited quantity of rock phosphate imports were received on the mainland for processing.

Forestry.

11. Acceptance by the Ministry of Agriculture of the responsibility of the Royal Forest Corps for carrying out a six-point Forestry program for charcoal and fuel wood production, allocation and distribution, marks another step forward toward turning the job of A.C. over to the Italian Government. The appointment of a few key people in the Royal Forest Corps and the re-activation of certain field offices lend further encouragement.

Fisheries/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

Fisheries.

12. To increase the supply of fish at regular fish markets two interdependent plans to bring about uniformity in the distribution of Nafta for motor fishing schooners and to discipline marketing centres, have been circulated to all Provincial Prefects in Italian territory by the Ministry of Agriculture through its Ufficio Centrale della Pesca e della Caccia. The Nafta circular goes into effect on 1 January 1945, while the one on the discipline of marketing centres goes into effect upon receipt. The plans are interdependent, since the assignments of Nafta and Oil Products depend on the amount of fish taken to the collection centres.

13. The problems of requisitioning and derequisitioning of motor fishing vessels and jurisdiction in transferring fishing craft from one area to another for increased production have been discussed with the various authorities concerned.

COMMERCE SUB-COMMISSION.

14. Materials Division:

(a) Availability of Materials.

Difficulties were encountered in connection with handing over to the Italian Ministry of Industry, Commerce and Labour the work of collecting data on, and reporting availability of, controlled materials in Italian Government territory; but eventually a formula was found which was acceptable both to AFLRS and to the Ministry, whereby it was agreed that Military Units requiring Italian controlled materials should notify the Ufficio Provinciale before withdrawing them.

(b) Requirements and Releases.

Releases from AFLRS to AC were on a reduced scale.

The Italian Ministry of Industry, Commerce and Labour circularised the Uffici Provinciali, putting into effect the new system of dealing with controlled materials as from 1 November.

Distribution of cement releases was hampered by the general shortage and poor quality of sacks.

Military demands for calcium carbide created a serious problem in connection with supply of this material in the ROME area.

(c) Special Materials.

Newsprint arrivals enabled stocks to be built up at distribution points in anticipation of demands for Northern ITALY when liberated. Supply of newsprint to SARDINIA was difficult, owing to lack of transportation facilities, but one ton was sent by air and 25 tons by boat. A plan for turning over control of this commodity to the Italian Government was put forward by the Allied Publications Board and is now awaiting approval of AFHQ.

Printing Inks: A supply sufficient for two to three months' requirements has been built up. 15 tons were received at LEGHORN and shipped to ROME, and a further seven tons are expected shortly at NAPLES.

Textiles, Shoes and Clothing: Negotiations were in progress regarding the

Declassified E.O. 12356 Section 3.3/NND No. 785017

13. The problems of requisitioning ... and jurisdiction in transferring fishing craft from one area to another for increased production have been discussed with the various authorities concerned.

COMMERCE SUB-COMMISSION.

Supply of newsprint to SARDINIA was difficult, owing to lack of transportation facilities, but one ton was sent by air and 25 tons by boat. A plan for turning over control of this commodity to the Italian Government was put forward by the Allied Publications Board and is now awaiting approval of AFHQ.

Printing Ink: A supply sufficient for two to three months' requirements has been built up. 15 tons were received at LEGHORN and shipped to ROME, and a further seven tons are expected shortly at NAPLES.

990

Textiles, Shoes and Clothing: Negotiations were in progress regarding the transfer of the distribution of repaired clothing and shoes to the Italian Government to fit in with the proposed transfer by Industry Sub-Commission of the actual repairing process.

83,665 pairs of workers' canvas shoes imported from the U.S. arrived at LEGHORN, were shipped to ROME and transferred to the Ministry of Industry, Commerce and Labour. Another 234,000 pairs at NAPLES were in the process of being transferred.

Declassified E.O. 12356 Section 3.3/NND No. 785017

(d) General.

Allegations concerning purchases for export by French agencies were investigated and evidence on the question was submitted to AFHQ, G-5, with the recommendation that French purchases should be coordinated with those of other forces and their export should go through regular channels.

Over 100,000 square metres of light, heavy and waterproof canvas were obtained by allocation from AFLRS for the FROSINONE-CASSINO housing project.

The situation in regard to the availability of sacks for foods and grains was well in hand and no undue difficulty was expected in providing for current needs of sacks for charcoal.

Leather continued to be critical in supply but current needs for boot repairs were met by using rubber soles and also surplus leather soles and heels from Army sources.

Production and distribution of belting was satisfactory.

Commencing in November the ration of matches was to be increased from 25 to 50 per month in the whole of occupied and liberated ITALY. This was made possible by improved production figures, availabilities found in forward areas and some importation from abroad.

Bidding for transportation of tobacco was turned over to the State Monopoly and all other questions concerning tobacco were transferred to Finance Sub-Commission, to avoid overlapping.

15. POL Section.

Control over POL allocations in Southern ITALY, SICILY and SARDINIA was handed over to the Italian Government, to whom bulk allocations were made.

Further work was done on canalising demand and control of POL for fleets of vehicles operated by the Vatican, Knights of Malta, Diplomatic Corps and Consular Offices.

16. Price Section.

The work of the Sub-Commission in connection with prices officially was concluded on 9 October and was transferred to Economic Section.

17. Foreign Trade Section.

Shipments of various commodities to the value of Lire 90,000,000 were made during the month, and at the end of the month goods purchased but not yet shipped consisted of 8751 tons of various items ready at ports, for which space had been bid, and 3623½ tons ordered forward to ports for which space had not yet been bid.

A shipping program for 20,000 tons of lemons for U.K. during Nov/Jan was arranged and bids were made for the first two shipments.

Declassified E.O. 12356 Section 3.3/NND No. 785017

A shipping program for 20,000 tons of lemons for U.K. during Nov/Jan was arranged and bids were made for the first two shipments.

30 tons of silk cocoons were imported and contracts for raw silk production in the next three to four months totalled 27,650 Kgs.

A serious theft of 3000 Kgs of silk, valued at 4 million Lire at controlled prices, took place between REGGIO CALABRIA and NAPLES and is being investigated by SIB Military and civilian police forces in NAPLES and REGGIO.

Initial reports and investigations were made in regard to export possibilities of the many artisan and small industries of Central ITALY.

The Intituto Commercio Estero was rapidly developing its work and had opened inspectorates at NAPLES, BARI and in SICILY; they were supplied with all relevant data in possession of the Sub-Commission.

Declassified E.O. 12356 Section 3.3/NND No. 785017

18. General.

Col. W. P. EVANS, Director of the Sub-Commission, proceeded to LONDON for consultation with the Ministry of Supply, Ministry of Food, War Office and Board of Trade.

A number of officers from HQ were assigned to forward Regions but remained with the Sub-Commission on call by the Regional Commissioners, whilst certain newly-assigned officers commenced work at HQ in preparation for later assignment to field activities.

FINANCE SUB-COMMISSION.

19. Financing of Imported Civilian Supplies.

On 10 October President ROOSEVELT announced that the United States Government would make available to the Italian Government the dollar equivalent of all lire issued as pay up to now and hereafter to troops of the United States in Italy. Later it was clarified that this referred only to that part of the dollar equivalent of lire issued to troops of the U.S. which is not sent home by way of remittances or through purchases of War Bonds. In addition there were, and will continue to be, made available the dollar proceeds representing (a) Italian exports to the U.S.A., and (b) remittances to ITALY from or through the U.S.A. The dollars made available will be used by the Italian Government to pay for essential civilian supplies to be purchased in the UNITED STATES.

It is contemplated that the Italian Government with the Allied Commission will jointly prepare a program of essential civilian imports.

Although the dollars accruing from all the sources indicated will not be applied by the U.S. Government against any claims upon ITALY, it is made clear that the provisions of the agreement do not affect the terms of the Armistice nor prejudice the final settlement between the Governments of the UNITED STATES and ITALY.

No similar announcement has been made by the UNITED KINGDOM, which will continue to provide its quota of essential civilian supplies but under different financial arrangements.

20. Italian Government Financial Mission to the UNITED STATES.

In July, 1944, the Italian Government raised with the UNITED STATES Government the possibility of sending a group of technical experts to the U.S. to discuss financial and economic questions. The U.S. State Department indicated that there was no objection to such a mission.

The Italian Government nominated as its representatives Ing. Quinto QUINTIERI, President of the Banco di Calabria and Minister of Finance in the third Badoglio Government (April, 1944); Dott. Raffaele MATTIOLI, Joint Managing Director of the Banca Commerciale Italiana and one of ITALY's most prominent bankers; Dott. Egidio ORTONA, of the Italian Ministry of Foreign Affairs; Dott. Enrico CUCCIA and Avv. Mario MORELLI, Secretaries. The mission, which is due to leave ITALY on 3 November, will be accompanied by Lieut-Comdr. J. J. LAWLER; recently appointed Joint Director (A) Finance Sub-Commission, in place of Col. E. H. FOLEY, Jr.

Declassified E.O. 12356 Section 3.3/NND No. 785017

939

21. Modification of British and United States Trading with the Enemy Legislation.

The British Prime Minister and President ROOSEVELT, in a joint statement on 26 September, announced that the application of the Trading with the Enemy Act would be modified so as to enable business contacts with ITALY to be resumed for the benefit of the Italian people.

Banks and other financial institutions in the U.S. and U.K. may now reply to requests for information from their depositors in Liberated ITALY, documents such as birth, death, marriage certificates, wills and legal notices may be transmitted, and US/UK and Italian firms may exchange business information with a view to the future resumption of business relationships. The resumption of private trade is not yet permissible. It is understood that no licences will be granted for private trade transactions at the moment, since trade with ITALY is now being carried on only through governmental agencies. The transmission of payment orders, proxies and powers of attorney from UK/US to ITALY will continue to require licences from the existing control authorities.

(8)

The status/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

The status of Italian assets in the U.S. and U.K. is not in any way affected by this modification of the Trading with the Enemy legislation.

22. Investment in Treasury Bills.

The excess of purchases over payments of Buoni del Tesoro Ordinari amounted to 2,999 million lire in September; the net investment for the first three months of the fiscal year was 9,461 million lire.

23. Tax Receipts.

Available information indicates that gross revenue receipts for the first quarter of the fiscal year 1944/45 (July through September, 1944) were approximately 2,500 million lire for the 44 Provinces of Liberated ITALY.

24. Rehabilitation of Industrial Plants.

The Italian Government has set up an appropriation of two billion lire to be used as a fund to guarantee loans to be made by credit institutions to private firms. The credit institutions may advance money on loans up to 75% of the estimated works cost, at a rate of interest to be fixed by the Ministries concerned. The Italian State will pay part of the interest charges provided they do not exceed 5%. This arrangement will continue in force for four years, after which time loans will be consolidated on new conditions as to the re-payment of the capital and interest.

25. Advances to United States and British Nationals.

The U.S. and British Consuls have assumed the responsibility for making loans to their respective nationals in Liberated ITALY, with the following exceptions :

(a) SICILY and SARDINIA. British Consul NOT yet responsible.
(b) Provinces of APUANIA, AREZZO, FIRENZE, FORLI, LIVORNO, LUCCA, PISA, PISTOIA, SIENA and RAVENNA. Swiss Legation will continue to look after the interests of British and U.S. Nationals.

Emergency payments will be made by Finance Officers of AMG FIFTH and EIGHTH Armies in newly liberated territory, until the Swiss Legation is able to take over the responsibility.

26. Defascism of Financial Institutions in AMG Territory.

The first specially trained group of Guardia di Finanza left for FIRENZE, PISTOIA and LUCCA in October to facilitate defascism in forward areas. Additional groups have been trained and will move forward as important additional territories are liberated.

27. Property Control.

A draft of decree under which the Italian Government will assume responsibility for the care and custody of Allied property in transferred territory was finally approved by AC and by a committee representing the Ministry of Treasury on 1st October, but the decree had not been passed by the Italian Government when the month ended.

28. Distribution of and Accounting for Imported Foodstuffs.

27. Property Control.

A draft of decree under which the Italian Government will assume responsibility for the care and custody of Allied property in transferred territory was finally approved by AC and by a committee representing the Ministry of Treasury on 1st October, but the decree had not been passed by the Italian Government when the month ended.

28. Distribution of and Accounting for Imported Foodstuffs.

In the last month's report mention was made of the arrangement which went into operation on 1 September. On that date the Italian Government, through the Ministry of Agriculture, assumed responsibility for receiving, distributing, and accounting for imported foodstuffs. Cargoes arriving at ports (except NAPLES) now pass directly to the local Consorzio Agrario, who prepare receiving reports. Such reports are ultimately routed through the Federazione dei Consorzi Agrari to the Chief Accountant. This new arrangement was extended to certain forward areas during October.

Food Sub-Commission/.....

Declassified E.O. 12356 Section 3.3/NND No. 783017

FOOD SUB-COMMISSION.

Grain Situation.

29. A topic which received a great deal of attention during the month was that of the general grain situation in relation to the proposed universal 300 grams bread ration. Representations continued to be made by Northern Regions of the prevailing discrepancy between Northern and Southern bread/pasta ration scales. It has long been recognized that such a discrepancy is illogical and the whole purpose of recent discussions and the visit of the Supply Section to WASHINGTON has been to have this discrepancy removed.

General Supply Situation.

30. It has been reported in previous months that the general supply situation has been deteriorating. A large extension of areas to be fed, coupled with almost complete cessation of imported foodstuffs other than grain, have led to a steady eating down of stocks. A memorandum to this effect prepared early in October showed that at present rate of consumption and present scheduled imports, stocks of dehydrated soup, meat and dried vegetables would be exhausted by January 1945. The situation was explained at the SIENA Conference in early October and views were asked as to the principle of Sellective Rationing being applied to make the best possible use of existing stocks of miscellaneous items, and to make presently available supplies last at least through the winter.

31. This was also discussed at a meeting with Italian Ministers, called owing to the imperative necessity of getting a decision in agreement with the Italian authorities upon vital questions such as the idea of Selective Rationing, the release of present controls upon some or all of locally produced foodstuffs, and the provision of supplies by the Italian authorities when they no longer have our imported supplies upon which to rely. At this conference it was decided that the Italian Government should put forward concrete proposals upon the points submitted to them, but at the end of the month these proposals were still awaited.

32. Studies were made of the actual bread/pasta ration that would be available throughout ITALY if present scheduled import tonnages were maintained, and also of the actual amount of grain imports that would be required if the higher ration of the South were to be made universal. The conclusion reached on the first was that a considerable reduction of the ration in the South would be necessary if no further increase upon scheduled imports were granted. The result of the second was communicated to AFHQ and an early decision upon the question of the higher ration for the present "unprivileged" part of ITALY was requested.

33. The necessity for such a decision became more pressing as the month went by, as statements in the Press, based upon the joint statements made in WASHINGTON, reflected the growing assurance of the Italian population that such a concession would, in fact, be granted to them.

34. By the end of the month, however, no definite program of increased imports had been issued and the question of the 300 gram universal ration was still in abeyance.

35. The SICILIAN wheat situation also was the subject of a special study during October. Amassing had been disappointing in the Island and by the end of the month the total amassed was still 100,000 tons below even the revised and decreased target figure. The Regional authorities are doubtful if much more amassing can be expected and at the moment it appears certain that SICILY will have to be "baled out"

Declassified E.O. 12356 Section 3.3/NND No. 785017

30. It has been reported in previous months that the general supply situation has been deteriorating. 33. The necessity for such a decision became more pressing as the month went by, as statements in the Press, based upon the joint statements made in WASHINGTON, reflected the growing assurance of the Italian population that such a concession would, in fact, be granted to them.

34. By the end of the month, however, no definite program of increased imports had been issued and the question of the 300 gram universal ration was still in abeyance.

35. The SICILIAN wheat situation also was the subject of a special study during October. Amassing had been disappointing in the Island and by the end of the month the total amassed was still 100,000 tons below even the revised and decreased target figure. The Regional authorities are doubtful if much more amassing can be expected and at the moment it appears certain that SICILY will have to be "baled out" long before expected.

36. Barley imports arrived during the month for the first time. The idea is that a certain amount of barley, surplus in certain countries, will be imported into ITALY to ease the pressure upon world supplies of wheat. Present proportion is 20% of barley will be imported to 80% of wheat. Certain stocks of local barley also exist and therefore instructions were sent to all Regions ordering the use of barley flour in bread making and a directive issued laying down milling ratios for barley and the amount of barley flour that is to be mixed with wheat flour in the making of bread. At present this is 20% but a possible revision will be made when the Italian Ministry of Agriculture, in agreement with us, issues complete instructions on the whole subject. The Ministry has also been requested to make allocations of all present stocks of locally grown barley.

37. Data to/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

37. Data to show the diminishing scale of imports are as follows :

MONTH	SUGAR	MILK	MEAT	DRIED VEG.	SOUP	FISH	TOTAL
JULY	-	1,375	6,306	2,634	-	404	10,719
AUG.	+2,687	10	-	-	-	158	2,855
SEPT.	-	-	-	1,834	-	291	2,125
OCT.	2,682	-	-	4,661++	-	326	7,669

\+ Into SICILY.
++ Into LEGHORN - stockpile earmarked for NORTH ITALY.

38. The first ship with sugar to reach the mainland since May arrived in NAPLES. It came in so late in the month, however, and rate of discharge was so slow, that for the second month in succession it was not possible to issue a sugar ration in large areas of the mainland.

39. Pending the final settlement of the question of the universal high bread/pasta ration it was decided, with the approval of AFHQ, to authorize an issue of 300 grams of pasta or flour fortnightly in all Provinces north of the GARIGLIANO. First issue was to take place during the first week in November.

Rationing.

40. A new ration scale for Guardia di Finanza and Public Security Agents was formulated to come into effect from 1 November. The new scale is near that of the existing military scale.

41. Further progress was made to provide special rations for meals for school-children.

42. Italian Under-Secretariate of Food: The question of the formation of all Under-Secretariats of Food has been followed up and after much discussion it is hoped that the whole organization will be prepared to function in a very short time under the leadership of the former Under-Secretary of Agriculture, Prof. H. E. BERGAMI.

43. Port Facilities: The Army authorities ceased operating the ports of CASTELLAMMARE and TORRE ANNUNZIATA and arrangements were made to hand them over for civilian operation.

44. Rome Supply Committee: This Committee continued to operate and an average daily tonnage of 500 tons plus a daily average of 2500 eggs were brought into ROME. Wine has also started to flow, a shipment of 4300 tons arriving in CIVITAVECCHIA.

45. Olive Oil: The movement of olive oil from APULIA was delayed by lack of tankers. 800 tons were scheduled to move but the total arrivals in the ROME area to 30 October, including oil railed from NAPLES, only amounted to 35 tons. 318 quintals of edible oil have been distributed in ROME to cover the September issue of 200 grams p.c.

46. Transportation: Problems increased in October with the continued shortage of rail cars, wet weather and railway operating difficulties. Because of this tonnage [illegible] operating long road

Declassified E.O. 12356 Section 3.3/NND No. 785017

++ Into LEGHORN - sugar

38. The first ship with sugar to reach the mainland since May arrived in NAPLES. It came in so late in the month, however, and rate of discharge was so slow, that for the second month in succession it was not possible to issue a sugar ration in large areas of the mainland.

39. Pending the final settlement of the question of the universal high bread/pasta ration it was decided, with the approval of AFHQ, to authorize an issue of 300 grams of pasta or flour fortnightly in all Provinces north of the GARIGLIANO. First issue was to take place during the first week in November.

Rationing.

40. A new ration scale for Guardia di Finanza and Public Security Agents was formulated to come into effect from 1 November. The new scale is near that of the existing military scale.

41. Further progress was made to provide special rations for meals for school-children.

42. Italian Under-Secretariate of Food: The question of the formation of all Under-Secretariats of Food has been followed up and after much discussion it is hoped that the whole organization will be prepared to function in a very short time under the leadership of the former Under-Secretary of Agriculture, Prof. H. E. BERGAMI.

43. Port Facilities: The Army authorities ceased operating the ports of CASTELLAMMARE and TORRE ANNUNZIATA and arrangements were made to hand them over for civilian operation.

44. Rome Supply Committee: This Committee continued to operate and an average daily tonnage of 500 tons plus a daily average of 2500 eggs were brought into ROME. Wine has also started to flow, a shipment of 4300 tons arriving in CIVITAVECCHIA.

45. Olive Oil: The movement of olive oil from APULIA was delayed by lack of tankers. 800 tons were scheduled to move but the total arrivals in the ROME area to 30 October, including oil railed from NAPLES, only amounted to 35 tons. 318 quintals of edible oil have been distributed in ROME to cover the September issue of 200 grams p.c.

46. Transportation: Problems increased in October with the continued shortage of rail cars, wet weather and railway operating difficulties. Because of this tonnage bids were out and other bids accepted to remote stations, necessitating long road hauls. These set-backs increased the already difficult job of keeping the food supplies flowing.

INDUSTRY SUB-COMMISSION.

47. General.

(a) On 9 October the directorship of the Industry Sub-Commission was handed over to a civilian, Mr. W. S. VAUGHAN. Colonel J. S. E. TODD, the Acting Director, is leaving for another assignment, making this the first of the Sub-Commissions to have a civilian as its head.

(b) The suggestion/...

Declassified E.O. 12356 Section 3.3/NND No. 785017

(b) The suggestion that small committees of experts in the Ministry of Industry should handle individual types of industries has materialised and the Ministry has now an organisation of some 60 odd engineers at work collating, correlating and resolving the data submitted by individual plants into lists from which it can be decided which products to manufacture. Certain technical organisations as well as the C.E.I. (Comitato Esperti Italiani) have been engaged on this task for a considerable time. This mass of information will finally be condensed into many requisitions for material items to be purchased either in ITALY or from foreign sources.

(c) The weekly meetings with the Minister of Industry have continued and it is felt that much is being accomplished by these contacts. Many items on the weekly agenda are settled at once and thus much loss of time in correspondence is avoided. This personal touch brings together many technical officers from the various divisions of the Sub-Commission - Building Materials Division, Textile Division, Chemicals Division, Mining Division, Coal Division and Hemp Division - with their opposite numbers in the Ministry.

(d) It was pointed out in the last report that the Minister of Industry was showing a strong desire for complete independence of action when making appointments to industrial posts under the Ministry. H.E. the Minister of Industry, Commerce and Labour, during the month insisted on the appointment of his nominees in connection with the discipline of the hemp and Sardinian coal industries. Industry Sub-Commission registered strong protests in writing but up-to-date has heard nothing further regarding them.

(e) The month of October brought to a successful conclusion the question of whether or not an Industrial Coordinating Committee should be formed. It had been felt for a long time that the Allied Commission should have a stronger representation on Committees, especially those where the allocation of industrial plant or equipment was concerned, and where the well-being of the Italian civilian economy was affected. Industry Sub-Commission now feels that through the proposed committee not only will military and civilian needs be protected, but productive capacities will be maintained at a higher level than would be possible without the direction of an organisation of this kind.

46. Decrees. During the month additional decrees were published by the Italian Government. Those of particular interest were :

(a) Regarding the appointment of a Commissary for the National Institute of Processed Food Products.

(b) Regarding the control of hides and tanning products.

(c) Regarding the blocking of olive-oil by-products and of sulphur oil.

(d) Regarding the declaration and blocking of industrial raw materials.

47. Industrial Activities. These can only be referred to briefly. The most outstanding activities during the month were :

Declassified E.O. 12356 Section 3.3/NND No. 785017

Industry Sub-Commission now feels that through the proposed committee not only will military and civilian needs be protected, but productive capacities will be maintained at a higher level than would be possible without the direction of an organisation of this kind.

48. Decrees. During the month additional decrees were published by the Italian Government. Those of particular interest were :

(a) Regarding the appointment of a Commissary for the National Institute of Processed Food Products.

(b) Regarding the control of hides and tanning products.

(c) Regarding the blocking of olive-oil by-products and of sulphur oil.

(d) Regarding the declaration and blocking of industrial raw materials.

Industrial Activities. These can only be referred to briefly. The most outstanding activities during the month were :

(a) Transfer of control of Soap and Paper Manufacture to the Italian Government, with the exception of plants producing for the Allied Forces.

(b) Progress toward the rehabilitation of the important Solvay Soda Plant at ROSIGNANO, the reactivation of which will eliminate completely need for imports of caustic soda and sodium carbonate. One 30 Km long pipeline has already been repaired and the difficult problem of repairing bridges, particularly that of the railway bridge at VADO, seems likely to be successfully solved shortly.

(c) The first/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

(o) The first imported American cotton has been delivered and is already in work. Production plans have been drawn up by the Italian Government with the advice of A.C. for manufacture of essential civilian fabrics, chiefly bed and personal linen, and sewing thread. These plans also include conversion of 400 tons of Sicilian Cotton now en route to the mainland of ITALY.

LABOUR SUB-COMMISSION.

50. A draft decree concerning Chambers of Commerce, submitted to AC by the Italian Government, was altered so as to transfer all functions in the labour field to the Provincial and Regional Labour Offices.

51. An active part was taken in the matter of wage increases and as a result the advance in the Armed Forces Wage Scale, which became effective on 1 October, was further increased by a mandatory 40 to 60 lire daily increase in wages. This matched the action taken by the Italian Government on 31 October, which made effective a mandatory increase to workers in Italian industry in similar amounts.

52. Wage control can in part be exercised by an active inspection service. Such a service, known as the "Ispettorato dell'Industria e del Lavoro", has been in existence since 1906, and representatives of the Labour Sub-Commission have recently made a number of trips in the field so as to aid in the reactivation of this excellent service.

53. Continued efforts have been made to facilitate the return to normal functioning of the national offices of the five major social insurance institutes: Previdenza Sociale, Malattia and Infortuni (covering workers in private employment); Previdenza Statali and Previdenze Enti Pubblici (covering government employees).

54. Although the Italian Government had made a commitment to provide for social insurance coverage for employees of the Armed Forces, definite action on their part through the issuance of a Royal Decree has not yet taken place and conferences between our representatives, the Minister of the Treasury and the Minister of Industry, Commerce and Labour are leading to imminent action upon the adoption of the implementing decree.

55. Because of the involved labour situation in the LIVORNO-PISA area, due to overlapping territorial authorities, this Sub-Commission, by request, has taken the matter in hand and sent a representative to take charge of the problem in that area.

56. Colonel J. R. SMITH was appointed Acting Director vice Colonel J. T. R. HAIN. He was also appointed as Chairman of the Labour and Wages Control Committee of the Allied Forces Local Resources (Italian) Board, AFHQ.

PUBLIC WORKS AND UTILITIES SUB-COMMISSION.

57. Epuration.

Defascism of Ministry of Public Work's personnel proceeded satisfactorily (refer September report). Special instructions given to Ministry to expedite cases down to and including Grade IV.

Declassified E.O. 12356 Section 3.3/NND No. 785017

56. Colonel J. R. SMITH was appointed Acting Director vice Colonel J. T. R. HAIN. He was also appointed as Chairman of the Labour and Wages Control Committee of the Allied Forces Local Resources (Italian) Board, AFHQ.

PUBLIC WORKS AND UTILITIES SUB-COMMISSION.

57. Epuration.

Defascism of Ministry of Public Work's personnel proceeded satisfactorily (refer September report). Special instructions given to Ministry to expedite cases down to and including Grade IV.

58. Mine Clearance.

Repairs and reconstruction of bridges, roads, buildings and other schemes were still being seriously retarded by lack of a mine clearance organisation. (A single commune reports the presence of at least 150,000 mines).

59. ROME Tunnel.

Request by Italian Ministry of Communications for engineering measures to pump out a flooded tunnel near the Colosseum (Ferrovia Metropolitana di Roma) was rejected after two detailed inspections. A simpler alternative was suggested after consultation with Public Health Sub-Commission.

60. Financing/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

60. Financing (repairs).

Conferences were held with Minister of Public Works (Signor MANCINI) and his Director-General, directed to proper financing of electrical rehabilitation (power stations and transmission lines) and that of first-aid repairs (war-damage) to private properties. Issue of certain decrees is being expedited.

61. Road Reports.

Heavy rains and floods causing many road blocks and interruptions, even in October, revealed value of the small "Road Reports Bureau" now maintained by this Sub-Commission.

62. Companies (increase of charges).

Increasing and more urgent demands from Public Utility Companies to be allowed to increase their charges to consumers (gas, water, electricity, etc.) resulted in conferences with other Sub-Commissions (Finance, Legal and Industry) at which principles suitable for general application were settled. These concern a decree about to be issued by the Italian Government.

63. ROME Electricity.

Complaints were lodged with Electricity Control Board (Rome Area Allied Command) concerning apparent lack of control of the situation, both by correspondence and in personal interview with Chairman of Board. A particular complaint was made about the energy allocated to local tram services whilst lighting situation remains so serious and preventing operation of lifts in a building such as A.C. Headquarters. Sub-Commission succeeded in getting a direct representative on the Board and also took other appropriate steps to bring about some improvement.

64. Controls and Approvals (Italian Government).

A codified system for approval of public works projects was prepared, setting out types and cost limits in Italian Government and A.M.G. territories respectively. It has operated satisfactorily and is now thoroughly understood by all concerned. It is being further modified almost immediately by permitting the Italian Government widely extended further powers, viz., to plan and execute works of a civil character without any cost restrictions, provided use of critical materials is not involved.

65. Highways, Bridges, Public Works.

Under Military Highways and Bridges headings 53 new contracts were made in October, and 41 for miscellaneous works (civil) including bridges, buildings and ports.

Expenditure on the former since last January reached a total of 887 million lire, and on the latter nearly 450 million lire. Monthly rate of expenditure is increasing rapidly. Serious local flooding on Routes 1, 2, 3, 6 and 7 in October was caused by temporary bridges built by the Armies with insufficient waterway or by culverts having been filled in with earth during spring and summer. Emergency gangs were organised and interruptions continued for only short periods. Route 1 at end remained blocked in three places. Consistent with severely res- critical places throughout

Declassified E.O. 12356 Section 3.3/NND No. 785017

Sub-Commission.

62. Companies (increase of charges).

Increasing and more urgent demands from Public Utility Companies to be allowed to increase their charges to consumers (gas, water, electricity, etc.) resulted in conferences with other Sub-Commissions (Finance, Legal and Industry) at which principles suitable for general application were settled. These concern a decree about to be issued by the Italian Government.

63. ROME Electricity.

Complaints were lodged with Electricity Control Board (Rome Area Allied Command) concerning apparent lack of control of the situation, both by correspondence and in personal interview with Chairman of Board. A particular complaint was made about the energy allocated to local tram services whilst lighting situation remains so serious and preventing operation of lifts in a building such as A.C. Headquarters. Sub-Commission succeeded in getting a direct representative on the Board and also took other appropriate steps to bring about some improvement.

64. Controls and Approvals (Italian Government).

A codified system for approval of public works projects was prepared, setting out types and cost limits in Italian Government and A.M.G. territories respectively. It has operated satisfactorily and is now thoroughly understood by all concerned. It is being further modified almost immediately by permitting the Italian Government widely extended further powers, viz., to plan and execute works of a civil character without any cost restrictions, provided use of critical materials is not involved.

65. Highways, Bridges, Public Works.

Under Military Highways and Bridges headings 53 new contracts were made in October, and 41 for miscellaneous works (civil) including bridges, buildings and ports.

Expenditure on the former since last January reached a total of 887 million lire, and on the latter nearly 450 million lire. Monthly rate of expenditure is increasing rapidly. Serious local flooding on Routes 1, 2, 3, 6 and 7 in October was caused by temporary bridges built by the Armies with insufficient waterway or by culverts having been filled in with earth during spring and summer. Emergency gangs were organised and interruptions continued for only short periods. Route 1 at end of October still remained blocked in three places. Consistent with severely restricted transport these "floating gangs" will be moved to critical places throughout the winter. But the only real remedy is reconstructing culverts and bridges as they previously existed.

Main railway line near CASSINO (Route 6) was closed by a "wash-out"; traffic was unloaded and carried forward by road for some distance, involving crossing of a large concrete bridge, fortunately just completed (20 October) in time to carry this unusual traffic.

66. Housing.

Schemes from the LAZIO-UMBRIA Region were approved as to repairs (32 million lire) and new constfuction (116 million lire).

67. Electrical/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

67. Electrical Division.

Revised organisation and increased officer personnel were arranged for to carry out AFHQ instructions dated 5 October making the Sub-Commission wholly responsible for all reconstructional and repairs activity in ITALY. Special conferences were held with Electrical Companies (co-ordination of all repairs that can be completed by 1 January 1945).

Several conferences were held with WASHINGTON and LONDON representatives. Detailed information was furnished to them.

Copies of approved estimates supplied by Electrical Companies in South ITALY were furnished to Finance Sub-Commission (repairs of war damage). Special maps were furnished to A.A.I. and also to AFHQ at request of respective Chief Engineers, relating to Northern plants and transmission lines.

Measures were taken under which all generating capacity in Central ITALY was put under impartial and equitable distributional control.

Fuel situation at ROME Power Stations (thermal) was critical throughout October; mechanical condition also was poor but output was increased. Special arrangements were made to provide energy to numerous industrial plants.

New rationing scheme ROME City to be put into force on 1 November.

68. - Miscellaneous.

Repairs to damaged water-works continued steadily, including large scheme at TERNI. Tendency on part of Italian authority to carry out more work than is strictly necessary, in several cases, checked. Supplies to ROME City will shortly be back to normal.

Repairs to sewage systems in various towns were continued and also several land reclamation schemes ("Bonifiche"), including PONTINE MARSHES and protection of Route 7 from local flooding.

As to gas, production in SICILY was suspended owing to lack of coal. Elsewhere restricted supplies were maintained, in ROME, NAPLES, BARI, TARANTO etc.

69. Personnel.

Lt. Cols. JENNY and LAPPER were absent during the whole month in AMERICA on special duty.

Four American civilian engineers joined the Sub-Commission in October making a total of 72 officers, viz., 19 at Headquarters and 52 in the Regions.

70. SICILIA Region.

The Sub-Commission has now only one Engineer Officer on the Island. In October 137 projects were in hand (estimated cost 73 million lire) including 63 public buildings, 10 bridges, 19 harbours and lighthouses, etc. Works at MESSINA and AUGUSTA required by Navy were in hand. In general, satisfactory progress was made throughout the Island in restoring roads and bridges (on one road, length 100 Km., there were, last Spring, [illegible] demolished bridges; all now completed or almost so).

Declassified E.O. 12356 Section 3.3/NND No. 785017

furnished to A.A.I. and also to AFHQ at request of respective Grid Engineers to Northern plants and transmission lines.

69. Personnel.

Lt. Cols. JENNY and LAPPER were absent during the whole month in AMERICA on special duty.

Four American civilian engineers joined the Sub-Commission in October making a total of 72 officers, viz., 19 at Headquarters and 52 in the Regions.

70. SICILIA Region.

The Sub-Commission has now only one Engineer Officer on the Island. In October 137 projects were in hand (estimated cost 73 million lire) including 63 public buildings, 10 bridges, 19 harbours and lighthouses, etc. Works at MESSINA and AUGUSTA required by Navy were in hand. In general, satisfactory progress was made throughout the Island in restoring roads and bridges (on one road, length 100 Km., there were, last Spring, 40 interruptions, including thirty demolished bridges; all are now completed or almost completed. This is one example).

71. SOUTHERN Region.

Requests for works are continually being received from Royal Navy, P.B.S., Military Districts, Air Forces and Sub-Commissions of A.C. There was a severe electrical breakdown on 29 October at hydro-electric station in CALABRIA. Repairs to three other plants were continued, also transmission lines and transformer stations.

—Principal electric supply company in the Region estimates war damage at 200 million lire.

Fresh applications for power were 250, of which only 64 were approved owing to general power shortage.

Desperate/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

Desperate shortage of road transport was reported for bridge and road works and also to enable Electricity Companies to maintain their hundreds of miles of transmission lines.

Distribution of gas in NAPLES was still further extended and aqueduct repairs (water supply) was continued. Elsewhere throughout the Region water supply conditions are almost back to normal and restrictions on consumption have been cancelled.

Fair progress on road works is reported, with eight bridges completed in October, five new contracts let and many others in hand.

For supply of stone (highways) a working agreement was reached with United States Air Corps for pooling joint resources and equipment.

Regional Engineer reports that Genio Civile officials (NAPLES) have recently been very lax and unhelpful, adding that this may be, in part, because they are very poorly paid.

72. LAZIO-UMBRIA Region.

Electric power available is barely 10% of pre-war demand. There has been a slight improvement which is continuing. ROME water-works repairs are still in hand.

Since July 146 bridge projects have been approved but 40 await financial sanction. Of bridges (classification Military) 43 were handed in October, bringing total to 137, of which only 19 were completed.

Housing schemes were obstructed by financial difficulties and absence of decrees. Over 130,000 people are homeless in FROSINONE and LITTORIA Provinces. Severe criticism is felt of Italian administrative and financial delays.

Clearance of FIUMICINO port made progress. There is a general shortage of cement, bricks and bitumen.

Slightly better progress was made in mine clearance.

73. ABRUZZI-MARCHE Region.

The Regional Engineer has a forward office at ANCONA. Genio Civile are still very disorganised, particularly in PESARO-URBINO. In PESARO Province all bridges are destroyed and communication is impossible.

Several bridge contracts were arranged permitting removal of Baileybridges further northwards; numerous bridges and diversions are in hand on Route 16; ten out of eleven bridges are ready-fabricated. Road and bridge works are in progress on many secondary and minor roads. In ANCONA and PESARO enemy carried out demolitions with exceptional thoroughness. A scheme is in hand at mouth of MISA River to prevent flooding of SENIGALLIA town. Repairs to five water undertakings are well in hand, also drainage repairs at PESCARA and land reclamation near FUCINO LAKE. Numerous schemes for public buildings are in hand (reconstruction), and re-building of AVEZZANO Prison (cost 2½ million lire).

PESARO Province is without electric power. Elsewhere extensive repairs are in hand to power stations. Rainy season has slightly improved output of energy.

Declassified E.O. 12356 Section 3.3/NND No. 785017

For supply of stone (highways) a working agreement was reached with United States Air Corps for pooling joint resources and equipment.

Regional Engineer reports that Genio Civile officials (NAPLES) have recently been very lax and unhelpful, adding that this may be, in part, because they are very poorly paid.

72. LAZIO-UMBRIA Region.

Electric power available is barely 10% of pre-war demand. There has been a slight improvement which is continuing. ROME water-works repairs are still in hand.

73. ABRUZZI-MARCHE Region.

The Regional Engineer has a forward office at ANCONA. Genio Civile are still very disorganised, particularly in PESARO-URBINO. In PESARO Province all bridges are destroyed and communication is impossible.

Several bridge contracts were arranged permitting removal of Baileybridges further northwards; numerous bridges and diversions are in hand on Route 16; ten out of eleven bridges are nearly finished. Road and bridge works are in progress on many secondary and minor roads. In ANCONA and PESARO enemy carried out demolitions with exceptional thoroughness. A scheme is in hand at mouth of MISA River to prevent flooding of SENIGALLIA town. Repairs to five water undertakings are well in hand, also drainage repairs at PESCARA and land reclamation near FUCINO LAKE. Numerous schemes for public buildings are in hand (reconstruction), and re-building of AVEZZANO Prison (cost 2½ million lire).

PESARO Province is without electric power. Elsewhere extensive repairs are in hand to power stations. Rainy season has slightly improved output of energy.

984 -

A general shortage of transport, cement and bitumen is reported.

74. SARDEGNA Region.

The Island is under Italian control and there is no Regional Engineer. Debris clearance in CAGLIARI City is 84% completed. Program amounting to 80 million lire for re-housing in CAGLIARI were prepared. In October 11 million lire spent on anti-malarial works, with a further program of 92 million lire.

Water supply position at CAGLIARI has improved but strict rationing is still in force. Electrical situation is satisfactory. Street lighting has been re-started. Normal progress was made on ports, highways, bridges and other matters.

75. TOSCANA/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

75. TOSCANA Region.

More engineering tasks were taken over from FIFTH Army. Electric power situation is serious and joint conferences were held with FIFTH Army, AAI, PBS and other interests. Several transmission lines and small power stations are under repair. Close liaison was maintained with Industry Sub-Commission to ensure power for special industries, with particular reference to that for oil presses.

There is a very heavy bridge reconstruction program; in hand 36 on Military highways, 45 provincial and 4 in FLORENCE City. Latest bridge survey shows total of nearly 1400 bridges needing heavy repairs or complete reconstruction. Demolition of dangerous buildings and removal of debris cost 14 million lire in October. A survey is in hand of damaged provaye houses.

First priority is given to flood control schemes, having regard to conditions near rivers ARNO, SERCHIO and OMERONE.

Works projects totalling over 76 million lire were in hand at end of October.

All officials of Genio Civile in Region are working well. There is an acute general shortage of road transport, both for supervisory personnel and materials.

76. EMILIA Region.

Assistance was given to FIFTH and EIGHTH Army AMG Headquarters. PISTOIA City aqueducts were repaired as well as small power plants. Water pumping stations were reconstructed for RICCIONE, CATTOLICA and RIMINI. At RICCIONE enemy had used reservoir for sewage; it is being emptied, cleaned and sterilised.

Generally, conditions are extremely serious over a wide area as to bridges, roads, utilities and general public works problems. There has also been serious flooding of areas through enemy destruction of dykes and pumping stations.

77. PIEMONTE, LIGURIA, LOMBARDIA and VENEZIA Regions.

No active work was possible and activities were confined to collecting information, planning, etc. Officers of Regional Engineer's staffs were temporarily transferred to give assistance in other active Regions.

TRANSPORTATION SUB-COMMISSION.

Rail Section.

78. During the month there have been many critical moments due to shortage of freight cars and concern is felt that traffic has been accepted for movement whilst the actual facilities for movement have not been available. Rolling stock has been shipped from SICILY and SARDINIA but this can only be a temporary relief as it soon gets merged into the general pool.

79. Plans are in hand for close working between Military Railway Service and Italian State Railways to ensure that rehabilitation of tracks is carried to greater effect. A number of important lines have been scheduled for repair and contracts signed by the Italian State Railways with contractors. In Southern ITALY improved rail services have been agreed, while SARDINIA Railways have been handed over to AC

Declassified E.O. 12356 Section 3.3/NND No. 785017

A number of important lines have been scheduled for repair and contracts signed by the Italian State Railways with contractors. In Southern ITALY improved rail services have been agreed, while SARDINIA Railways have been handed over to AC for supervision.

80. A decree has been agreed authorising increase in Railway rates and fares to 100% over June 1943 figures. Severe restriction to coal in SICILY is causing considerable difficulty and urgent requests have been made for reversion to original tonnage.

Shipments, Ports and Warehousing Division.

81. Shipment: Schooner traffic has been severely curtailed by the weather during the month. Schooners allotted to civil trade are the smallest type which are most affected by weather conditions, being constantly forced into port and remaining there for days. This will get worse during the winter and most civil bids have to be carried on other ships set up by AFHQ. The position cannot be improved until larger schooners are allotted to carry civil supplies.

82. Ports/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

82. Ports.

(a) CIVITAVECCHIA: A port Committee is now set up and an AC Port Liaison Officer appointed to ensure the smooth turn-over of the port to civil uses. The rail served berth should be completed shortly.

(b) CASTELLAMMARE: To enable a discharge of a top-loading of bag grain lighters and tugs have been obtained for the use of the civil contractors operating these ships, but bad weather has prevented this discharge.

(c) SALERNO: An inspection has been made of the port. It may have to be used for final discharge of ships with civil supplies, in order to avoid the rail congestion round NAPLES. The port is capable of taking ships alongside quay with the draught up to 21 ft. Warehouse accommodation is being repaired and all necessary arrangements made for accepting a ship with 4000 tons of cargo.

83. Warehouses.

As of 1 October the Warehouse and Forwarding Division of the Food Sub-Commission became the warehouse Section of the Shipment, Port and Warehouse Division of the Transportation Sub-Commission. The following were the principal changes made during the month:

(a) A.C. Dept No.49 in SIENA was turned over to TOSCANA Region for operation.

(b) A.C. LEGHORN accommodations were greatly expanded, increasing the capacity from about 14,000 tons to 40,000 tons. This change was necessary in order to accommodate the increase in Food Sub-Commission stock-piling activities. Further expansion is contemplated to bring capacity up to 70,000 tons.

Roads Section.

84. Of the two G.T. Coys (Italian) promised by AFHQ, one, the 1004 G.T. Coy, has been assigned and is operating out in the ANCONA area. Of the American personnel required to operate the Truck Battalion 9 officers and 20 enlisted men have been received, but we have no assurance as to the definite date when the remaining personnel will be made available. Three Q.M. Truck Coys have been formed and the training of two more is proceeding. Of the 250 vehicles promised by AFHQ, 100 have been drawn and it has not been considered advisable to draw any more until the necessary supervisory personnel have been obtained.

85. A standard work ticket has been agreed with ENAC and it is hoped that this standard work ticket will shortly be in operation throughout the whole of occupied ITALY.

86. Maintenance instructions have been published, setting out a complete system of maintenance to be applied to all vehicles. These instructions have been forwarded to all Regions and the system has now been put into effect. At the present moment a combined maintenance team, consisting of two British and two American officers from AFHQ, are in the process of making a study of all existing garages and garage facilities.

87. Steps have been taken for the manufacture of a number of spare parts and the outlook is fairly promising.

Declassified E.O. 12356 Section 3.3/NND No. 785017

87. Steps have been taken for the manufacture of a number of spare parts and the outlook is fairly promising.

88. The tire position, although still acute, has improved slightly as a shipment of tires and tubes has been received from Army sources. Tubes, however, are rapidly becoming a more serious problem than tires.

(8)

Declassified E.O. 12356 Section 3.3/NND No. 785017

PART IV

POLITICAL SECTION, PUBLIC RELATIONS BRANCH
AND INDEPENDENT SUB-COMMISSIONS

POLITICAL SECTION.

1. There were no major political developments during the month of October. It was a period of marking time for the moment when the Commission would be in a position to explain to the Italian Government the meaning of the joint declaration of 26 September by President ROOSEVELT and Mr. CHURCHILL, in its day-to-day application towards ITALY. The good intentions of the Allied statesmen were shown in the announcement that the word "Control" would be eliminated from the title of the Commission as from 28 October.

2. Certain further statements of policy were made in WASHINGTON. The lifting of the trading with the enemy regulations for Liberated ITALY was announced. A more profound expression of Allied policy was the announcement on 25 October that direct relations had been resumed between GREAT BRITAIN and ITALY and a following announcement that diplomatic relations with ITALY had been established by the UNITED STATES and RUSSIA. The U.S. Government stated that its action had been taken after consultation with the other American Republics, all of whom, excepting ARGENTINA, had agreed to resume relations with ITALY. The communique made it quite clear that no change in ITALY's status of co-belligerency was inherent in the government's announcement which, however, would signify its intention to return to ITALY control of her internal affairs as soon as possible.

3. The Italian press viewed these developments as an important step toward ITALY's emergence from isolation and towards the government's obtaining greater autonomy. The Prime Minister found that by them ITALY had regained her individuality as a nation but that this situation was incompatible with the state of subjection in which she was held by the terms of the Armistice.

4. The encouragement offered the Italian government and people by these developments was damped by a statement made in the House of Commons which the press attributed to Mr. EDEN, saying that the British Government was opposed to the return of colonies to ITALY, and that the Italian Empire in AFRICA was irrevocably lost. A clarification of these reported statements indicated that the questions and answers made in the House of Commons sought to lay down the present attitude of the British Government and that the future of territories will have to await consideration by the United Nations at the conclusion of peace. The public feeling of resentment toward s the British Foreign Secretary was assuaged by his visit to ROME at the end of October. At this time he conferred with the Prime Minister, the Under-Secretary of Foreign Affairs and the Italian representative designated to LONDON. The visit was regarded as significant, coming as it did on the heels of re-establishment of direct relations between the two countries and in light of the antagonism which had existed between Mr. EDEN and the Fascist regime. Press comment was friendly and stressed the fact that Mr. EDEN was opposed to Fascism, not to the Italian people.

5. In the field of domestic affairs the most important developments were a decree providing in certain special cases for the cultivation of large holdings of land by the peasants through properly organized and recognized peasants' cooperatives and measures to increase the wage scale.

6. Incidents occurred of the seizing of land by peasants which, in some cases, led

The visit was regarded as significant, coming as it did on the heels of re-establishment of direct relations between the two countries and in light of the antagonism which had existed between Mr. EDEN and the Fascist regime. Press comment was friendly and stressed the fact that Mr. EDEN was opposed to Fascism, not to the Italian people.

5. In the field of domestic affairs the most important developments were a decree providing in certain special cases for the cultivation of large holdings of land by the peasants through properly organized and recognized peasants' cooperatives and measures to increase the wage scale.

6. Incidents occurred of the seizing of land by peasants which, in some cases, led to conflicts between them and the Carabinieri. As a consequence the Prime Minister issued a circular instruction to the Prefects explaining the decree and urging strict observance of the law.

7. Following the incident in PALERMO on 19 October the Council of Ministers prepared the necessary decrees to set up in SICILY a consultative body of 24 members representing various interests on the Island, the financing by special funds of further industrial development and agrarian reform.

NAVY SUB COMMISSION.

8. Three of the seven active Italian cruisers have been refitting during the past month. The remainder and the destroyers and small craft continue to be fully employed in their transport and escort duties. The morale of officers and men remains satisfactory.

9. The Ministry/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

9. The Ministry of Marine has been notified of the turn back of the ports of CIVITAVECCHIA, PIOMBINO and SAN STEFANO to Italian Navy Control and has been requested to issue appropriate organisation orders for the above ports to ensure their efficient operation.

10. During the past several months the Navy Sub-Commission has arranged for the evacuation from the ROME area of over 1,000 inactive members of the Italian Navy and their families. The evacuees have been removed to SOUTHERN ITALY and SICILY under the guidance of the Ministry of Marine, to locations where they will be able to obtain better living conditions.

11. Routine activities of the Commission have included the usual problems of supplies and materials for the Italian Navy and control of movements of Italian Navy personnel.

LAND FORCES SUB-COMMISSION (MMIA).

12. The call-up of the 1915 to 1924 classes in the LAZIO Region continued during October. Personnel were recruited with a view to completing outstanding commitments for Allied Units. Certain units of the Italian Combat Groups were still in need of reinforcements and instructions were issued to the Ministry of War that all suitable personnel recruited at FROSINONE were to be allotted to these Groups and dispatched to the Reinforcement Depot for posting to units in the Combat Groups.

13. The results of the LAZIO call-up did not fulfill the necessary requirements. Land Forces Sub-Commission consequently authorised the War Ministry to extend the call-up of the 1914 to 1924 classes to CALABRIA, CAMPANIA, FOGGIA, PUGLIA and LUCANIA. Later the period of this call-up was extended owing to transport and communication difficulties in recruiting, assembling and dispatching this personnel.

14. Total reinforcements sent to Allied Units and the Combat Groups was 3,813.

15. The Italian Army Patriot screening agencies operating in the Army areas continued their work and sent 460 patriot volunteers to the Combat Groups.

16. The organisation and training of the Italian Combat Groups continued during October. By 3 October CREMONA Division had been reorganised and training had commenced;

17. Frequent visits to the Combat Groups were made by Land Forces Sub-Commission officers to discuss equipment, training and reinforcement problems. The issue of British clothing and equipment continued, as did the training of regimental instructors. Results of courses held during October were good and reports showed great keenness and ability on the part of the Italian students attending these courses.

18. October was a heavy month for the movement of Italian Army personnel. The main commitments were :

(a) Movement of troops from SARDINIA to the mainland.
(b) Regional call-up of classes to the Italian Army.
(c) Large moves of labour personnel to ports after re-forming at MINERVINO Camp.
(d) Additional movement of personnel and supplies to the Combat Groups training areas.

19. The evacuation of the first batch of Italian Military from the Balkans commenced towards the end of the month. Land Forces Sub- Commission ensured that the War

Declassified E.O. 12356 Section 3.3/NND No. 735017

personnel.

LAND FORCES SUB-COMMISSION (MMLA).

12. The call-up of the 1915 to 1924 classes in the LAZIO Region continued during October. Personnel were recruited with a view to completing outstanding commitments for Allied Units. Certain units of the Italian Combat Groups were still in need of reinforcements and instructions were issued to the Ministry of War that all suitable personnel recruited at FROSINONE were to be allotted to these Groups and dispatched to the Reinforcement Depot, C.

13. The results of the LAZIO call-up did not fulfill the necessary requirements. Land Forces Sub-Commission consequently authorised the War Ministry to extend the call-up of the 1914 to 1924 classes to CALABRIA, CAMPANIA, FOGGIA, PUGLIA and LUCANIA. Later the period of this call-up was extended owing to transport and communication difficulties in recruiting, assembling and dispatching this personnel.

14. Total reinforcements sent to Allied Units and the Combat Groups was 3,813.

15. The Italian Army Patriot screening agencies operating in the Army areas continued their work and sent 460 patriot volunteers to the Combat Groups.

16. The organisation and training of the Italian Combat Groups continued during October. By 3 October CREMONA Division had been reorganised and training had commenced;

17. Frequent visits to the Combat Groups were made by Land Forces Sub-Commission officers to discuss equipment, training and reinforcement problems. The issue of British clothing and equipment continued, as did the training of regimental instructors. Results of courses held during October were good and reports showed great keenness and ability on the part of the Italian students attending these courses.

18. October was a heavy month for the movement of Italian Army personnel. The main commitments were :

(a) Movement of troops from SARDINIA to the mainland.
(b) Regional call-up of classes to the Italian Army.
(c) Large moves of labour personnel to ports after re-forming at MINERVINO Camp.
(d) Additional movement of personnel and supplies to the Combat Groups training areas.

19. The evacuation of the first batch of Italian Military from the Balkans commenced towards the end of the month. Land Forces Sub-Commission ensured that the War Ministry made full arrangements for the reception, housing and screening of these men. Any suitable volunteers for the Army would be accepted after screening and sent to the Reinforcement Regiment of the Combat Groups after a period of leave. A Land Forces Sub-Commission Liaison Officer was dispatched to TARANTO in order to deal with any questions and problems of urgency.

AIR FORCES SUB-COMMISSION.

20. For most of the month of October the Fighter Wing was bogged down by heavy rain. On 19 October, however, it began operating with considerable intensity and has achieved good results. Enemy motor vehicles have been damaged or destroyed and a train knocked out. Successful bombing attacks have also been made on bridges and other communication targets. Although the number of sorties carried out is not as high as usual, the daily average is far above that ever carried out before.

21. The operations/..

Declassified E.O. 12356 Section 3.3/NND No. 785017

21. The operations of the Bomber Transport Wing were considerably curtailed owing to bad weather but a satisfactory weight of supplies was dropped over YUGOSLAVIA. In addition to their active operations, Bomber Transport Aircraft have proved a valuable means for evacuating damaged fighters from airfields which are inaccessible to transport. A method has been evolved whereby damaged fighters can be flown out in the SM.82's without extensive dismantling. In addition a shuttle-service has been in operation between ITALY and NORTH AFRICA carrying spares and equipment. Without this it would have been impossible to have made the Light Bomber Squadrons operationally ready by the end of October.

22. The Light Bomber Wing is now fully operationally trained and is about to move to its operational airfield.

23. Very few operational demands have been made on the Seaplane Wing. Two British aircrew and a dinghy were picked up under extremely difficult weather conditions, the aircraft being damaged during the process of landing and picking up the survivors.

24. The serviceability of the Italian Fighter aircraft shows a substantial increase. This is due to the protracted efforts of the Air Forces Sub-Commission Technical Staff and the Italian Technical Staff. With the aid of salvaged spare parts and a certain amount of improvisation, very creditable results have been achieved.

25. The demands for manpower from the I.A.F. in substitution for R.A.F. and U.S.A.A.F. manpower are gradually being satisfied.

26. The question of an adequate ration for aircrews is still in abeyance but the Sub-Commission has been visited by a Staff Officer from M.A.A.F. (Rear) and it is hoped that something will be done very shortly.

27. The morale of the Italian Air Force remains high, particularly in the Fighter Wing. The fighter squadrons have earned the praise of the Air Officer Commanding, Balkan Air Force.

28. Defascism within the Service is still proceeding very slowly and it is clear from some of the verdicts that some of the tribunals cannot be considered to be free from taint of favouritism.

29. Since the declaration by Mr. CHURCHILL and President ROOSEVELT it is clear that the Italian Air Force has expected something quite out of the ordinary to be done for them in the way of direct assistance, so that they can take their part to better advantage with the Allies. Air Forces Sub-Commission has done everything possible to discourage any undue optimism in this respect.

COMMUNICATIONS SUB-COMMISSION.

30. Telecommunications.

(a) Telephone: Intra-provincial service was authorised in the four additional provinces, and inter-provincial service was authorised in fourteen additional provinces. The telephone cable to SARDINIA was restored to the Italian Government and taken into use by them.

(b) Telegraph: Telegraph service was authorised in fourteen provinces. Restoration of circuits has now given the Italian Government telegraph communication to all provincial capitals of provinces under Italian administration plus five [illegible] Italian Government territory.

Declassified E.O. 12356 Section 3.3/NND No. 785017

23. Very few operational demands have been made on the Seaplane Wing. Two British aircrew and a dinghy were picked up under extremely difficult weather conditions, the aircraft being damaged during the process of landing and picking up the survivors.

24. The serviceability of the Italian Fighter aircraft shows a substantial increase. This is due to the protracted efforts of the Air Forces Sub-Commission Technical Staff and the Italian Technical Staff. With the aid of salvaged spare parts and a certain amount of improvisation, very creditable results have been achieved.

25. The demands for manpower from the I.A.F. in substitution for R.A.F. and U.S.A.A.F. manpower are gradually being satisfied.

26. The question of an adequate ration for aircrews is still in abeyance but the Sub-Commission has been visited by a Staff Officer from M.A.A.F. (Rear) and it is hoped that something will be done very shortly.

27. The morale of the Italian Air Force remains high, particularly in the Fighter Wing. The fighter squadrons have earned the praise of the Air Officer Commanding, Balkan Air Force.

29. Since the declaration by Mr. CHURCHILL and President ROOSEVELT it is clear that the Italian Air Force has expected something quite out of the ordinary to be done for them in the way of direct assistance, so that they can take their part to better advantage with the Allies. Air Forces Sub-Commission has done everything possible to discourage any undue optimism in this respect.

COMMUNICATIONS SUB-COMMISSION.

30. Telecommunications.

(a) Telephone: Intra-provincial service was authorised in the four additional provinces, and inter-provincial service was authorised ir fourteen additional provinces. The telephone cable to SARDINIA was restored to the Italian Government and taken into use by them.

(b) Telegraph: Telegraph service was authorised in fourteen provinces. Restoration of circuits has now given the Italian Government telegraph communication to all provincial capitals of provinces under Italian administration plus five provinces to the North of Italian Government territory.

About 150,000 telegrams a month are now passing through the ROME office.

Notification was received from AFHQ that civil radio and cablegrams would be permitted to U.S. and U.S. possessions, and to the U.K. and BRITISH EMPIRE from 15 November.

31. Postal.

(a) Internal postage rates were doubled on 1 October.

(b) Allied Military postage stamps were withdrawn from use in SICILY on 1 Oct.

(c) Internal/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

(c) Internal and foreign mail services were restored in all the further Provinces of ASCOLI, GROSSETO, MACERATA, TERNI and VITERBO. Preparations made in the Provinces of ANCONA, AREZZO, LEGHORN, PESARO, PERUGIA and SIENA, which are now ready to introduce services on receipt of the necessary authority.

(d) Restriction on type of language used in civilians' letters to places abroad removed. Any language now permissible.

(e) Direct despatches of mails from ITALY to MALTA introduced.

(f) Conference held at AFHQ on subject of delay to POW and civilian mails addressed to U.S.

(g) Announcements were made in press and radio broadcasts regarding resumption of commercial correspondence between U.S. and U.K. with ITALY, and action was taken regarding postal arrangements.

(h) Announcements were made in radio broadcasts and press of limited parcel service to be introduced between U.S. and ROME, NAPLES and PALERMO. Action was also taken regarding censorship, restrictions on contents, custom charges and operating accommodation and transport.

(i) Postcard services between members of Allied Forces in this theatre with civilians in parts of liberated FRANCE; application has been made to extend the service to Italian civilians.

WAR MATERIALS DISPOSAL AND ITALIAN P.O.W. SUB-COMMISSION.

War Materials Disposal.

32. During October progress was made with the proposal for re-forming and expanding the Italian Air Force Salvage Unit. Should the scheme be approved by HQ AAI it can start to operate at once. It is considered that when the organisation starts to function a considerable number of vehicles, stores, etc., will be made available to the Italian armed forces which are at present a dead loss. It is also considered that a good number of vehicles will become available for Allied Commission purposes.

33. In conjunction with Regional Transportation Divisions, 51 derelict vehicles were inspected, the majority of which were recovered and a considerable number put under repair. A number of these are now on the road working for Allied Commission, or have been handed back to the Italian Army. A further 16 are undergoing repair and will be on the road at an early date.

34. The Sub-Commission, with representatives from the Italian War Ministry, and at the request of the Italian Air Ministry, inspected a number of Italian military vehicles which were held illegally. Most of these vehicles have been returned to the Armed forces and are now back working for the Italian Army or Air Force.

35. Experiments are being carried out by the Italian War Ministry for repairing tyres classed as BLR by REME. Ten such tyres are being tried out now and, if the experiments prove successful, a scheme is prepared and it will be possible to commence work on a large scale.

36. The problem of clearing derelict ammunition and mines is still acute. Applications from farmers etc., for assistance in this matter arrive almost daily. Inspections have been made and AFHQ requested to give permission for the Sub-Commission

Declassified E.O. 12356 Section 3.3/NND No. 785017

(g) Announcements were made in press and radio broadcasts regarding resumption of commercial correspondence between U.S. and U.K. with ITALY, and action was taken regarding postal arrangements.

(h) Announcements were made in radio broadcasts and press of limited parcel service to be introduced between U.S. and ROME, NAPLES and PALERMO. Action was also taken regarding censorship, restrictions on contents, custom charges and operating accommodation and transport.

(i) Postcard services between members of Allied Forces in this theatre with civilians in parts of liberated FRANCE; application has been made to extend the sergice to Italian civilians.

WAR MATERIALS DISPOSAL AND ITALIAN P.O.W. SUB-COMMISSION.

War Materials Disposal.

32. During October progress was made with the proposal for re-forming and expanding the Italian Air Force Salvage Unit. Should the scheme be approved by HQ AAI it can start to operate at once. It is considered that when the organisation starts to function a considerable number of vehicles, stores, etc., will be made available to the Italian armed forces which are at present a dead loss. It is also considered that a good number of vehicles will become available for Allied Commission purposes.

33. In conjunction with Regional Transportation Divisions, 51 derelict vehicles were inspected, the majority of which were recovered and a considerable number put under repair. 34. The Sub-Commission, with representatives from the Italian War Ministry, and at the request of the Italian Air Ministry, inspected a number of Italian military vehicles which were held illegally. Most of these vehicles have been returned to the armed forces and are now back working for the Italian Army or Air Force.

35. Experiments are being carried out by the Italian War Ministry for repairing tyres classed as BLR by REME. Ten such tyres are being tried out now and, if the experiments prove successful, a scheme is prepared and it will be possible to commence work on a large scale.

36. The problem of clearing derelict ammunition and mines is still acute. Applications from farmers etc., for assistance in this matter arrive almost daily. Inspections have been made and AFHQ requested to give permission for the Sub-Commission to employ Italian munition experts to collect and break down such ammunition, and remake into explosives. If AFHQ agree to the collection and breakdown of such ammunition, a means will be found of providing explosives, of which Allied Commission alone requires several hundred tons.

37. Several truck loads of Italian guns and materials were located, inspected and the Italian War Ministry instructed with regard to disposal.

38. The question/.....

Declassified E.O. 12356 Section 3.3/NND No. 785017

38. The question of salvage was discussed with the Economic Section, who were in agreement that all salvage should in the first instance be handled through this Sub-Commission. A scheme is being prepared for discussion and consideration.

Italian Prisoners of War.

39. As forecast in the September report, the repatriations of Italian Prisoners of War increased to an average of some 120 a day during October. The return of these Italians to ITALY were :

(a) Sick and wounded, of whom the total was 1500.

(b) Specialists to fill administrative and medical appointments, some Carabinieri and Guardia di Finanza, totalling 2400.

40. The question of broadcasting messages to Italian Prisoners of War in AMERICA, GREAT BRITAIN and GERMANY had been discussed and approval has now been received to broadcast messages from the Italian Government to their Prisoners of War. A Committee to approve the broadcasts has been formed.

41. Weekly broadcasts from Radio Rome continue to be made, giving the names of those Prisoners of War who have been repatriated.

42. The official intimation of the release of the 65,000 parolled Prisoners of War in SICILY was made to the Italian Government.

43. The question of apprehending Prisoner of War co-operators stationed in ITALY who had absented themselves - or had not returned from leave - was raised with AFHQ and instructions on this subject are awaited. If a Prisoner of War co-operator gives himself up to an Italian Army Unit it is extremely difficult to apprehend him without causing certain embarrassment to the Italian Government.

44. During the last week of October some 800,000 lire a day were paid in allotments from Prisoners of War to their families in ITALY.

45. Transit Camps for the reception and disposal of Prisoners of War have been opened in NAPLES, BARI, TARANTO and PALERMO, under Italian administration.

46. The difficulty of finding transport to move sick and wounded Prisoners of War from ship to hospital has always been a problem. For the present the arrangement that we can, in emergencies, call on the military to help out with ambulances has been sufficient to cover all requirements.

47. The Sub-Commission is now dealing with some 20/30 requests a day for repatriation on compassionate grounds. Since only cases for compassionate repatriation forwarded by Allied Commission will be considered by AFHQ, an extra strain has been thrown on the Sub-Commission. Ways and means are being devised so as to cut down the number of applications received from the Italian High Commissioner for Prisoners of War which in many cases do not come under the conditions approved.

48. Among the complex questions of Italian Prisoners of War, the ever recurring one of the removal from Prisoner of War status was raised on every possible occasion by the Italian High Commissioner for Prisoners of War.

Declassified E.O. 12356 Section 3.3/NND No. 785017

(b) Specialists to fill administrative and medical appointments, some Carabinieri and Guardia di Finanza, totalling 2400.

40. The question of broadcasting messages to Italian Prisoners of War in AMERICA, GREAT BRITAIN and GERMANY had been discussed and approval has now been received to broadcast messages from the Italian Government to their Prisoners of War. A Committee to approve the broadcasts has been formed.

41. Weekly broadcasts from Radio Rome continue to be made, giving the names of those Prisoners of War who have been repatriated.

42. The official intimation of the release of the 65,000 parolled Prisoners of War in SICILY was made to the Italian Government.

43. The question of apprehending Prisoner of War co-operators stationed in ITALY who had absented themselves - or had not returned from leave - was raised with AFHQ and instructions on this subject are awaited. 44. During the last week of October some 800,000 lire a day were paid in allotments from Prisoners of War to their families in ITALY.

45. Transit Camps for the reception and disposal of Prisoners of War have been opened in NAPLES, BARI, TARANTO and PALERMO, under Italian administration.

46. The difficulty of finding transport to move sick and wounded Prisoners of War from ship to hospital has always been a problem. For the present the arrangement that we can, in emergencies, call on the military to help out with ambulances has been sufficient to cover all requirements.

47. The Sub-Commission is now dealing with some 20/30 requests a day for repatriation on compassionate grounds. Since only cases for compassionate repatriation forwarded by Allied Commission will be considered by AFHQ, an extra strain has been thrown on the Sub-Commission. Ways and means are being devised so as to cut down the number of applications received from the Italian High Commissioner for Prisoners of War which in many cases do not come under the conditions approved.

48. Among the complex questions of Italian Prisoners of War, the ever recurring one of the removal from Prisoner of War status was raised on every possible occasion by the Italian High Commissioner for Prisoners of War.

49. The Italian newspapers wrote a number of articles attacking the system of repatriation of their Prisoners of War and also the High Commissioner for Prisoners of War.

50. On an average 10 to 15 people call daily regarding Prisoners of War, mostly female, enquiring for husbands, sons, fathers and sweethearts, whom they have been told are on their way home and who have not yet arrived. To tell them to go to their own High Commissioner for Prisoners of War takes more time than to give a soft answer, which at least turns away wrath.

PUBLIC RELATIONS/.....

(8)

Declassified E.O. 12356 Section 3.3/NND No. 745017

PUBLIC RELATIONS BRANCH.

51. Re-organisation: On 1 October PRB took over responsibility for operation of the Information Division and Archives.

52. News Production: Daily releases to Allied, neutral and Italian press and PWB on normal range of topics, including civilian movement, FLORENCE art caches, malaria control record, infant mortality and tuberculosis statistics, typhus, Allied Advisory Council meetings, mail service, and particularly food announcements. Also arranged for, advised on and reviewed stories on AC by PWB for distribution through United Nations News News Service.

53. Journalists:

(a) Italian - Number of accrediting cards issued to screened journalists now total approximately 40. Interviews arranged with AC officers. Correspondence with ROME editors on various items of news. War correspondents finally sent in the field with Italian armed forces. Permits obtained for visits to forward areas.

(b) Allied - PRB Villa (billeting and mess) put into operation and used as a gathering place for political correspondents. Interviews arranged and information given on request. Trips arranged to NAPLES and field. PRO assigned to FIFTH Army AMG to assist correspondents.

(c) Neutral - Interviews, briefings and information arranged and given.

54. Relations with Italian Government: Recommendations forwarded to G-5, AFHQ, on re-activation of Italian news agency, films and radio. The Allied Publications Board also recommended that responsibility for licensing of newspapers and distribution of newsprint in Italian Government territory be given to Italian Press Commission. Arrangements made with Italian authorities on Allied coverage of AZZOLINI and other epuration trials.

55. AC Anniversary: Extensive research and writing devoted to production of press release marking one-year anniversary of AC and 16 months of military government in ITALY. Release now in hands of AMG for approval.

56. Information Division: Activities of Central Reference Library, distribution of maps and issuance of news bulletin continued. Increasing use of library by AC personnel noted as well as by Italian journalists who ask for Allied publications.

57. Archives: Documents have been placed in chronological order and gaps are being filled by requests from appropriate agencies possessing original files.

58. Routine: Trend of Correspondents' Copy, Daily Digest of Rome Press and Weekly PRB Bulletin continued to be issued.

28 September 1944.

MONTHLY REPORT FOR AUGUST

General Remarks

1. July was the harvest month. Normally August is the first month in which results can be seen from the Ammassi or, as it is now called, the Granai del Popolo. Collection of grain has proved moderately satisfactory although no Region is within close range of its target. But there are signs that the results will be better than normal and that the measures taken to make the country more self-supporting than usual will have some success.

2. It is natural that great attention should be paid by journalists and visitors to the situation in ROME. Here is the capital city, articulate and not very well fed. But compared with other cities in the line of advance, ROME has fared probably better and taking into account the almost complete absence of destruction of buildings, the Romans through their swollen Press, both Italian and Allied, complain too loudly. It is true that the present ration in ROME is not a generous one. It is nevertheless enough to live on and considering the difficulties of importation all that can be expected by the Romans under the circumstances. They have suffered little and are by no means starving nor homeless nor lacking in many of the amenities cut off from most of the great cities in Europe.

3. There are three other problems which are to the fore. Here in ROME it is easy to forget the numerous daily casualties occurring in the country districts from the presence of many thousands of mines strewn about the fields and the paths and the sides of the roads. Victims are found among the farmers and the road workers and the ordinary villagers. Attempts have been made to organise mine clearance companies from the Italian Army without success, chiefly due to lack of equipment. Except for the initial clearance by the Allied Armies in their advance nothing has been done to rid the country of mines which are a danger to life and a check on reconstruction far worse than any temporary shortage of food in ROME. It is hoped that the Italian Government will soon have civilian detachments trained in mine clearance.

4. In the devasted areas already referred to it is apparent that the Italian Government will not have time to rebuild or repair houses for the many thousands of homeless people before the winter sets in. Various improvisations are being considered but it is likely that a large scale evacuation of population will be necessary under a billetting scheme.

5. Transportation difficulties are constant and pressing, and it is feared will increase with the advance of winter. The country has considerable resources of its own transport, but much of it is immobile through the absence of spare parts, and especially tyres. This is a problem for which no real solution has been found; it is aggravated as time passes.

975 6. In the forward areas there has been little advance and A.M.G. Armies have

Declassified E.O. 12356 Section 3.3/NND No. 785017

1. July was the harvest month. Normally August is the first month in which results can be seen from the Ammassi or, as it is now called, the Granai del Popolo. Collection of grain has proved moderately satisfactory although no Region is within close range of its target. But there are signs that the results will be better than normal and that the measures taken to make the country more self-supporting than usual will have some success.

2. It is natural that great attention should be paid by journalists and visitors to the situation in ROME. Here is the capital city, articulate and not very well fed. But compared with other cities in the line of advance, ROME has fared probably better and taking into account the almost complete absence of destruction of buildings, the Romans through their swollen Press, both Italian and Allied, complain too loudly. It is true that the present ration in ROME is not a generous one. It is nevertheless enough to live on and considering the difficulties of importation all that can be expected by the Romans under the circumstances. They have suffered little and are by no means starving nor homeless nor lacking in many of the amenities cut off from most of the great cities in Europe.

3. There are three other problems which are to the fore. Here in ROME it is easy to forget the numerous daily casualties occurring in the country districts from the presence of many thousands of mines strewn about the fields and the paths and the sides of the roads. Victims are found among the farmers and the road workers and the ordinary villagers. Attempts have been made to organise mine clearance companies from the Italian Army without success, chiefly due to lack of equipment. Except for the initial clearance by the Allied Armies in their advance nothing has been done to rid the country of mines which are a danger to life and a check on reconstruction far worse than any temporary shortage of food in ROME. It is hoped that the Italian Government will soon have civilian detachments trained in mine clearance.

4. In the devasted areas already referred to it is apparent that the Italian Government will not have time to rebuild or repair houses for the many thousands of homeless people before the winter sets in. Various improvisations are being considered but it is likely that a large scale evacuation of population will be necessary under a billetting scheme.

5. Transportation difficulties are constant and pressing, and it is feared will increase with the advance of winter. The country has considerable resources of its own transport, but much of it is immobile through the absence of spare parts, and especially tyres. This is a problem for which no real solution has been found; it is aggravated as time passes.

975

6. In the forward areas there has been little advance and A.M.G. Armies have been able to turn more attention to local government, harvesting and the like. Food and transport remain difficulties, not only in forward areas, but particularly in the harvest Regions where it is only with great difficulty that the grain can be taken from the threshing floors to the depots. Lack of POL again creates a difficulty in threshing grain.

7. Great progress/..

(7)

Declassified E.O. 12356 Section 3.3/NND No. 785017

7. Great progress has been made in placing upon the Ministries of the Italian Government more responsibility, especially in the fields of agriculture, industry and commerce. The Ministry of the Interior also has shown progress in the appointment of prefects and other local government officials. Epuration moves slowly but Commissions of the Italian Government are being set up to deal ministerially with this problem.

8. The Shipping Sub-Commission has instituted a new scheme for the better employment of schooners in aid of civilian supplies. Schooner transport has been woefully short in the past due to operational needs, but it is hoped that this natural and very necessary coastal traffic will soon be set in motion, thereby avoiding the necessity of road and rail transport.

9. August saw the amalgamation of three A.C.C. Regions, II, III and VII, in the south of Italy into one Region with Headquarters at NAPLES. This new Region was called Southern Region and was organized in zones instead of Provincial Teams. The Headquarters of the zones, which consist of a varying number of Provinces, are located where Allied Military concentrations or installations exist. A considerable saving in personnel was made available for the Northern Regions by this amalgamation. At the other end of Italy the advance of the Armies renders control more difficult. This was overcome to a certain extent with the holding of fortnightly meetings at SIENA for forward Regions and A.M.G. staffs of Armies. These meetings proved a great success.

10. All the above problems and many others were fully ventilated and discussed at a Regional Commissioners' Conference held for the first time in ROME on August 22nd when, under the chairmanship of Captain Stone, the meeting was privileged to be addressed by the Supreme Allied Commander. The Italian Press was admitted for the first time and dealt fully with the points discussed. This has resulted, it is believed, in a better appreciation of the work of the Commission and the many problems with which it has to deal.

Declassified E.O. 12356 Section 3.3/NND No. 785017

PART I

R.C. & M.G. Section

AMG FIFTH ARMY.

1. Owing to the almost static military situation there is little to report. It is the first halt since the Garigliano and to compare it is to remark on the reduction of both transport and personnel.

2. There are now only 47 officers, of whom five are in hospital. 17½ of transport has been written off, all of it military vehicles, and the prospect of more failing owing to old age leaves a most disturbing situation.

3. GROSSETO Province was handed over to the Region VIII as from midnight 8 August.

4. In LIVORNO the situation is still unsatisfactory as the town remains evacuated on orders of the military authorities. At the moment only about a thousand civilians are working on military installations in the town. However, electricity, water and sewage are now functioning.

5. With military operations still confined south of the river the situation at PISA shows no change.

6. The harvest has been the main preoccupation and its gathering has proceeded very satisfactorily. To facilitate payment for its collection the banks were opened in LIVORNO and Southern PISA Province on 7 August and there were further openings in the Corps area on 21 August. All demands for POL for harvesting were met.

7. Refugees have been handled effectively with the co-operation of the Refugee Branch. The policy of the retention of refugees as near to their homes as possible is being pursued, only a few having to be evacuated to Corps area.

8. Patriots are behaving well and have been found useful for many duties including the handling of refugees. Certificates are still being issued but only a small proportion of the claimants receive them.

AMG EIGHTH ARMY.

9. At the beginning of the month the Provinces of SIENA, MACERATA, ANCONA, PERUGIA, AREZZO, and FIRENZE were being administered, but operational movement of the Armies resulted in SIENA and FIRENZE being handed over to Fifth Army AMG on 21 August. MACERATA was handed over in the normal course of events to Region V on 18 August.

10. The beginning of the month was notable for the occupation of the City of FLORENCE, which was first entered by the AMG team on 4 August. An extraordinarily difficult state of affairs prevailed, for at that time the enemy still occupied the northern half of the city. Only one bridge over the Arno was intact and that was heavily mined and in the city was a population of 410,000 in great distress. Sporadic shellfire and sniping continued even after the enemy withdrew on 11 August. Despite all difficulties supplies were taken in an administration set up without delay. Great help was rendered by Patriots in mopping up snipers and patrolling the city. As already mentioned this city was later handed over to FIFTH Army AMG.

974

Great help was rendered by Patriots in mopping up snipers and patrolling the city. As already mentioned this city was later handed over to FIFTH Army AMG.

974

11. Many small townships were entered, some much damaged, the area most effected being in the vicinity of the Gothic Line, where devastation is on a scale comparable with that in the area of the Volturno.

12. The new area occupied covers some of the richest agricultural land in Italy. Harvesting is completed so it has been unnecessary to import flour but milling has been done under great difficulty. Electrically driven mills are nearly all at a standstill and August was a period when a shortage of POL occurred.

(7)

Declassified E.O. 12356 Section 3.3/NND No. 745017

13. Public Health is generally good and there are no epidemics, but the almost total lack of serviceable civilian ambulances makes the evacuation of civilian casualties almost impossible. This problem was paramount at FLORENCE where the civilian hospitals were for some time inaccessible and casualties had to be taken elsewhere. The Army obligingly loaned some ambulances for a time and with other improvisation casualties were dealt with, but the problem remains generally unsolved.

14. Refugees were handled as a routine and nothing unusual occurred. It is estimated that the total number evacuated during the month was 17,700.

REGION I (SICILY)

15. In this Region the collection of grain has been the chief concern during the month of August. At the beginning of the month a sullen indifference everywhere confronted grain collecting officials, and everywhere a defeatist attitude on the part of Italian officials was present. Dissatisfaction with the price, the natural disinclination of the Sicilian to part with his wheat, the appeal to his cupidity, which successful black market operations would make, all join together to make "Granai del Popolo" a difficult assignment. There is, moreover, a lack of vehicles for officials responsible for grain collection which is seriously hampering the campaign. Every possible step is being taken to get the local Italian administration to rectify this. There is no place for complacence. It will be extremely difficult to amass enough grain to ensure the full ration for Sicily until the next crop season. But results appear better than was at one time anticipated.

16. The new ration scale has been authorised. It provides 200 grams of bread per day and 550 grams of pasta per week per person, or the equivalent. 2700 metric tons of sugar were received during August and a three months ration will be distributed early in September - remainder to be kept on hand.

17. Popular opinion revolves around and depends upon food. Some discontent has existed during most of August over the food ration. An increase in the ration was announced to come into effect on 12 August but it was not possible to increase it until 18 August because of the slowness of the amassing of grain.

18. Some activity of the Separatists has continued, with occasional meetings, but no violence. Political parties continue to be active. It is believed that the Christian Democrats will benefit by the fact that one of their members, Aldisio, has become the High Commissioner for Sicily.

19. 17987 quintals of potatoes have been amassed.

20. Sufficient sulphur oil and caustic soda are on hand for a two months ration of soap, but additional sulphur oil is necessary to maintain this soap ration.

21. 7043 tons of steam coal and 7000 tons of Sardinian coal were received.

22. The electric power situation for the Island is improved owing to the completion of the PORT EMPEDOCLE plant.

23. The health of the Island population continues to be well above the average. There is some increase in infectious diseases and in typhoid and malaria. Amoebic dysentery shows a decrease. Vigorous action is being continued against V.D. by treating those found with this disease.

Declassified E.O. 12356 Section 3.3/NND No. 785017

where confronted grain collecting officials, and everywhere [illegible]

19. 17987 quintals of potatoes have been amassed.

20. Sufficient sulphur oil and caustic soda are on hand for a two months ration of soap, but additional sulphur oil is necessary to maintain this soap ration.

21. 7043 tons of steam coal and 7000 tons of Sardinian coal were received.

22. The electric power situation for the Island is improved owing to the completion of the PORT EMPEDOCLE plant.

23. The health of the Island population continues to be well above the average. There is some increase in infectious diseases and in typhoid and malaria. Amoebic dysentery shows a decrease. Vigorous action is being continued against V.D. by treating those found with this disease.

24. All Communes with refugees from the mainland have been visited during the month. Refugee camps at SIRACUSA and TAORMINA have been closed and the staff cut to the minimum. Both camps can be reopened at short notice, when repatriation begins, and will be used as staging camps.

25. The railroad outlook has greatly improved with the reopening of the standard gauge railroad lines over the Island. The necessary movement of grain and food can now be ensured, subject to deliveries of coal. The gaps in the railroad lines between PALERMO and MESSINA, between MESSINA and CATANIA and the SIMETO Bridge between CATANIA and PALERMO, have been completed and were opened to traffic on 28 August.

0640
Declassified E.O. 12356 Section 3.3/NND No. 743017

REGION III (CAMPANIA)

26. There was comparatively little political activity during the month, Bonomi's speech on armistice terms resulting in pessimistic rumours among the civilian population. On the other hand, Churchill's farewell speech was most favourably received. In the City of Naples Unione Femminile Italiana was organized, a women's organization demanding equal suffrage rights for women.

27. The ACC Provincial Offices in AVELLINO and BENEVENTO were closed respectively on 17 August and 27 August.

28. The olive oil ration continued at 200 grams (about 7 ounces) per month and there was much dissatisfaction expressed in the Province of SALERNO and in the City of NAPLES on its distribution. Toward the end of the month fruits and vegetables, potatoes in particular, became scarce in the City of NAPLES. The Prefect of the Province of NAPLES had issued two decrees regulating the shipment of potatoes and other vegetables and fruit, but was required by an order from HQ ACC to rescind these decrees, with immediate effect in the NAPLES market, both in reduced supplies and in higher prices. Deliveries of grain for manufacture of flour were on the average 150 tons per day less than the amount required.

29. 2,000,000 candles (weight 100 tons) were produced for ROME. 429 tons of hemp and hemp products and 2 tons of silk were shipped to the United Kingdom. Prospects appeared good for meeting the quotas for collection of wheat for the Granai del Popolo.

30. Crime showed a further slight decrease. Prison population declined to 8150, from 8600 a month earlier.

31. Smallpox showed a decrease of over 45% in the Province of NAPLES and presented no problem in the other Provinces. Typhoid fever persisted throughout the Region and reached epidemic proportions in the City of BENEVENTO.

32. Uncontrolled movement of individual refugees into the City of NAPLES from the south caused a problem. At one time during August there were almost 1200 refugees living in and about the railroad station in the City of NAPLES under deplorable sanitary conditions.

33. Cash held by banks reached a total of 1,600,000,000 lire, compared with 1,000,000,000 lire in January and deposits reached a total of 22,600,000,000 lire, compared with 5,000,000,000 lire in January.

34. Region III was merged into Southern Region on 28 August 1944.

REGION IV (LAZIO)

35. On 1 August Rome Region was absorbed and Region IV was in control of its full complement of territory with the exception of PERUGIA Province, which is still under Army Control. On the 15 August the Provinces of FROSINONE, LITTORIA and ROME came under Italian Government jurisdiction.

36. It was becoming evident during the month that the food situation in ROME City was serious and that the shortage was not due to teething troubles which would

Declassified E.O. 12356 Section 3.3/NND No. 785017

28. The drive on [illegible] in the Province of SALERNO and [illegible] there was much dissatisfaction expressed in the Province of NAPLES and [illegible] of NAPLES on its distribution. Toward the end of the month fruits and vegetables, potatoes in particular, became scarce in the City of NAPLES. The Prefect of the Province of NAPLES had issued two decrees regulating the shipment of potatoes and other vegetables and fruit, but was required by an order from HQ ACC to rescind these decrees, with immediate effect in the NAPLES market, both in reduced supplies and in higher prices. 33. Cash held by banks reached a total of 1,600,000,000 lire, compared with 1,000,000,000 lire in January and deposits reached a total of 22,600,000,000 lire, compared with 5,000,000,000 lire in January.

34. Region III was merged into Southern Region on 28 August 1944.

REGION IV (LAZIO)

35. On 1 August Rome Region was absorbed and Region IV was in control of its full complement of territory with the exception of PERUGIA Province, which is still under Army Control. On the 15 August the Provinces of FROSINONE, LITTORIA and ROME came under Italian Government jurisdiction.

36. It was becoming evident during the month that the food situation in ROME City was serious and that the shortage was not due to teething troubles which would cure themselves. It is not proposed to ventilate here an extremely complex problem which is being fully explored by competent authorities but malnutrition is evident. At the same time the importance of ROME as a capital city should not obscure the difficulties which exist elsewhere in the Region. In the Provinces the supply situation is only fairly good when compared with ROME. By any other standard it is serious, as the population is not predominantly food producing and growers find the attractive prices of the ROME market hard to resist.

37. Returning to affairs in ROME, during the month 6358 tons of rationed food were distributed in addition to the daily flour ration of 306 tons, whilst other produce amounted to approximately 700 tons daily. The latter is only about 50% of the normal supply.

973

(1)

Declassified E.O. 12356 Section 3.3/NND No. 785017

38. The largest acqueduct carrying ROME's water supply was permanently repaired, electricity continued on a strictly rationed basis and a gas service of 1½ hours daily was commenced.

39. The state of crime is low but there is an increase in thefts of vehicles.

40. Sponsored by Monuments and Fine Arts Sub-Commission an exhibition of Masterpieces of European Paintings was opened on 27 August. Proceeds, after expenses have been covered, are being devoted to the restoration of Italian national monuments damaged by war.

41. In the Provinces the collection of grain is fairly good though hindered by a POL shortage at the beginning of the month. Prospects for oil and wine are good.

42. This Region includes the devastated area of CASSINO and its neighbourhood, where, it is estimated, there are 25,000 homeless people. Despite every precaution these people have drifted back and whilst suffering little hardship during the summer months, their housing during the winter will be a great responsibility for the Italian Government. A large scale evacuation may be yet necessary.

43. In this area mine clearance is also a serious matter. Despite every endeavour no assistance could be obtained other than that provided by two Italian Mine Clearance Companies, ill trained and equipped. Little impression has been made on the thousands of mines awaiting removal before large areas can with safety be approached.

REGION V (MARCHE, ABRUZZI E MOLISE)

44. On 31 August CampobassoProvince was divorced from Region V and taken under the wing of the newly formed Southern Region. CAMPOBASSO is now Italian Government Territory and according to reports already the old type of intrigue and improper influence are being used in making Provincial appointments. MACERATA was handed over to the Region by AMG EIGHTH Army on 19 August. At the beginning of August the ANCONA team was set up, and at the end of the month the PESARO team was in operation. The last two Provinces are, of course, still under the jurisdiction of EIGHTH Army AMG.

45. The main activity in the Region during the month has been the harvest. This is coming in faster than it can be dealt with. Already over 1,000,000 quintali have been collected and there is every hope of reaching the quota during the next few weeks, always providing that ANCONA - PESARO collections have not been destroyed by the incidence of war.

46. Two Provinces - AQUILA and CHIETI - are deficiency provinces in grain, but these deficiencies are being met from ASCOLI-PICENO and CAMPOBASSO. Very considerable dissatisfaction is expressed at the fact that provinces such as MACERATA should be placed on a lower flour and grain ration than certain deficiency provinces in the South of Italy. It has been quite impossible to enforce this lower ration and it is a source of considerable embarrassment to AMG Officers.

47. In the AVEZZANO District there is an exportable surplus of approximately 50,000 tons of potatoes. These are sold by the Consorzio at 600 lire per quintal,

Declassified E.O. 12356 Section 3.3/NND No. 785017

REGION V (MARCHE, ABRUZZI E MOLISE)

44. On 31 August CampobassoProvince was divorced from Region V and taken under the wing of the newly formed Southern Region. CAMPOBASSO is now Italian Government Territory and according to reports already the old type of intrigue and improper influence are being used in making Provincial appointments. MACERATA was handed over to the Region by AMG EIGHTH Army on 19 August. At the beginning of August the ANCONA team was set up, and at the end of the month the PESARO team was in operation. The last two Provinces are, of course, still under the jurisdiction of EIGHTH Army AMG.

45. The main activity in the Region during the month has been the harvest. This is coming in faster than it can be dealt with. Already over 1,000,000 quintali have been collected and there is every hope of reaching the quota during the next few weeks, always providing that ANCONA - PESARO collections have not been destroyed by the incidence of war.

46. Two Provinces - AQUILA and CHIETI - are deficiency provinces in grain, but these deficiencies are being met from ASCOLI-PICENO and CAMPOBASSO. Very considerable dissatisfaction is expressed at the fact that provinces such as MACERATA should be placed on a lower flour and grain ration than certain deficiency provinces in the South of Italy. It has been quite impossible to enforce this lower ration and it is a source of considerable embarrassment to AMG Officers.

47. In the AVEZZANO District there is an exportable surplus of approximately 50,000 tons of potatoes. These are sold by the Consorzio at 600 lire per quintal, but when purchased direct from the farmers, on what appears to be an organised black market from ROME, up to 1800 lire is paid. Strenuous efforts are being made to stop this but the CC.RR are lax and diffident in their dealings with this type of malefactor.

48. Communications, which were bad throughout the Region owing to the fact that for the best part of nine months a battle took place over it, are improving. For instance, in CAMPOBASSO Province up to the time of handing over to Southern Region, 100 bridges have been built since last September. It is imperative that this work should have priority in this mountainous district, the highest in Italy, against the coming of the snows, or else there will be great difficulty in distributing supplies.

0644

Declassified E.O. 12356 Section 3.3/NND No. 745017

49. In this same area there must be at least half a million mines, and an average of 18 casualties daily are being reported. Two mine disposal companies (Italian), which arrived were so short of equipment and transport that they have been of very little use.

REGION VI (SARDEGNA)

50. The High Commissioner has shown himself co-operative. He is faced with a major task of considerable difficulty, as he has to prepare to reduce the ration scales. Sardinia has never conformed to the scales laid down in the rest of Italy and unfortunately, when the basic ration was increased in July from 150 grams of flour daily to 240 grams, the opportunity was not taken to correct the higher Sardinian scales. The already generous Sardinian workers' scales were, in fact, increased. As there were ten food demonstrations in July and seven more in August, the prospects now of reducing the ration scales without trouble, in spite of the good seasonal food outlook, are small.

51. Politically the scene is one of frustration as there are seven parties and they all participate in the Government with a result that the smaller factions are over represented and so there are no majorities in the committees. It is in these circumstances that the value of ACC officers is apparent for they stand disinterested behind this instability.

52. The beneficial effects of the reduction of the Italian Army in the island have been felt but a reservoir of transport will ultimately be missed.

53. After the reasonably satisfactory results of the first treason trial it is hoped that there will be no further procrastination over other important trials which are pending.

54. Health has been satisfactory in spite of a disquieting upward trend of malaria earlier. The figure for the month of July of approximately 500 cases compares with 2,400 for the previous year, which is very satisfactory.

55. A Boy Scout camp has been held, the first for many years, thanks to the enterprise of the Roman Catholic Church.

56. The Island, as is known, has escaped major war damage and its remoteness from operations has left the people ignorant of the immensity of the Allied war effort. Its possibilities are great especially with regard to its mineral wealth. The moment is one of hesitation and the Sards are looking to the Allies for leadership.

REGION VII (CALABRIA)

57. As elsewhere politics are one of the principal subjects discussed, but no noteworthy action occurred. Remarkable certainly were events in the small village of CASTROVILLARI which was declared a republic by the Sindaco. This unusual situation was countered by appointing a new Sindaco, whereupon the republic collapsed.

58. The food situation in this Region is good and stocks on hand will last until 10 October.

Declassified E.O. 12356 Section 3.3/NND No. 745017

and unfortunately, when the basic ration was increased in [illegible] daily to 240 grams, the opportunity was not taken to correct the higher Sardinian scales. 51. Politically the scene is one of frustration as there are seven parties and they all participate in the Government with a result that the smaller factions are over represented and so there are no majorities in the committees. It is in these circumstances that the value of ACC officers is apparent for they stand disinterested behind this instability.

52. The beneficial effects of the reduction of the Italian Army in the island have been felt but a reservoir of transport will ultimately be missed.

53. After the reasonably satisfactory results of the first treason trial it is hoped that there will be no further procrastination over other important trials which are pending.

54. Health has been satisfactory in spite of a disquieting upward trend of malaria earlier. The figure for the month of July of approximately 500 cases compares with 2,400 for the previous year, which is very satisfactory.

55. A Boy Scout camp has been held, the first for many years, thanks to the enterprise of the Roman Catholic Church.

56. The Island, as is known, has escaped major war damage and its remoteness from operations has left the people ignorant of the immensity of the Allied war effort. Its possibilities are great especially with regard to its mineral wealth. The moment is one of hesitation and the Sards are looking to the Allies for leadership.

REGION VIII (CALABRIA)

57. As elsewhere politics are one of the principal subjects discussed, but no noteworthy action occurred. Remarkable certainly were events in the small village of CASTROVILLARI which was declared a republic by the Sindaco. This unusual situation was countered by appointing a new Sindaco, whereupon the republic collapsed.

58. The food situation in this Region is good and stocks on hand will last until 10 October.

59. With the virtual termination of the vegetable and fruit season prices show a tendency to rise. As an example meat has increased in price recently from 100 lire per kilo to 120 lire per kilo.

60. A comparison of the ordinary retail price of certain commodities and their corresponding black market price may be interesting:

Commodity	Normal price, lire p.Kg.	Black market price, lire p.Kg.
Bread	L. 5.00	L. 50 - 60
Olive Oil	" 32.50	" 90 - 100
Cheese	" 115 - 135	" 200
Sugar	" 20.00	" 180 - 200
Flour	" 5.00	" 150

(7)

Declassified E.O. 12356 Section 3.3/NND No. 782017

61. Transportation is difficult both for food supplies and miscellaneous traffic, although this Region has the advantage of road, rail and sea transport. Road vehicles are insufficient for requirements and there is a shortage of railway trucks. 550 tons of ACC traffic and 400 tons of Italian civilian traffic was handled by the railway as compared with over 15,000 tons of military supplies. 170-tons of fertilizer at MATERA have now been awaiting transport for over a year.

62. At the end of the month the value of all contracts let for work on military highways, including bridges, amounted to L.31,634,000 of which L.10,000,000 has already been spent. Road maintenance is unsatisfactory due to lack of material and the wherewithal to transport it.

63. The Minister of Public Works visited CALABRIA during the month and directed that national aid for the reconstruction of war damage to dwellings would cease.

64. Public utility projects recommended are to cost L.1,320,812 and include four contracts for the repair of sewers and two for the repair of aqueducts. The electricity supply is being severely curtailed.

65. Public health is good and there is nothing unusual to report.

66. Public safety shows a satsifactory situation and an increase in the efficiency of the police service. Crimes of violence have decreased and the perpetrators of five recent murders were all arrested within a short time.

67. Region VIII was merged into Southern Region on 28 August 1944.

REGION VIII (TOSCANA)

68. Up to the end of August only one of the nine Provinces which make up this Region had passed to Regional control. This was the Province of GROSSETO, which w was handed over by FIFTH Army on 9 August.

69. Public morale is good and while it is not easy to sense the drift of public opinion there appears a general feeling of relief that "the war has passed". If the food problem is successfully solved there is unlikely to be much difficulty in TUSCANY.

70. Within GROSSETO Province every commune with the exception of GIGLIO has a properly constituted Giunta. Provincial Local Government will be complete and working by the first week of September. Strong teams for the Deputazione and the Giunta have been chosen and appear to be generally approved.

71. Amassing is going well.

72. Agitation against the daily wage for unskilled labour of L. 65 a day continues; a demand for at leastt L.80 a day is supported by the Camera del Lavoro. The usual 70% increase has already been granted.

73. Some Patriots have been rearmed in GROSSETO to assist the Carabinieri to comb out Fascist bandits in the hills near MONTE AMIATA.

74. All schools will be ready to function for the regular autumn session. Defascistization is practically completed.

Declassified E.O. 12356 Section 3.3/NND No. 743017

73. Some Patriots have been rearmed in GROSSETO to assist the Carabinieri to comb out Fascist bandits in the hills near MONTE AMIATA.

74. All schools will be ready to function for the regular autumn session. Defascistization is practically completed.

75. Road surfaces are generally good. PONTE MUSSOLINI (Route 1), just South of GROSSETO, is likely to fall in the first flood, while the bridges over the CANALE DIVERSIVO and the ALBEGNA are not well constructed. If any of these bridges become unsafe the only alternative to PONTE MUSSOLINI is the bridge at ISTIA and difficulties in its construction are being encountered. If Route 1 is cut, the shortest way to FOLLONICA and the North would be via Route 74 and via SCANSANO, both narrow hilly detours.

Declassified E.O. 12356 Section 3.3/NND No. 745017

INTERNEES & DISPLACED PERSONS SUB-COMMISSION.

76. This month 628 Maltese were repatriated to TRIPOLI, about three and a half million lire being converted for their use.

77. There were no evacuations of Yugo Slav refugees to Middle East and only 1397 of them arrived at BARI from Yugo Slavia.

78. Brickfield Camp, TARANTO was lent to 52 Area for the accommodation of 1500 French, mainly from Alsace and Lorraine. Their history is curious; conscripted by Germans they were taken prisoner by the Russians, to be released by the intervention of Gen. De Gaulle. Then repatriated through Persia and marooned in Italy.

79. A detailed survey of the Southern Camps has been made with a view to UNRRA taking them over, with the exception of BARI. If this project is approved UNRRA will provide staff thus releasing Internees and Displaced Persons Sub-Commission personnel for use in the North.

80. Problems of ventilation, inoculation, feeding, water supply and sanitation need careful supervision. With the exception of children's diseases the record of the Sub-Commission is a good one. Dealing with refugees, many of whom have suffered years of hardship, necessitates a standard of hygiene which cannot be relaxed.

81. The Children's Summer Centre, FIUGGI, is operating successfully and has been expanded to 75 beds.

82. Record Bureau: At the present time a total of 48,533 Displaced Persons is recorded, of which the location of 41,181 is known. 63 nationalities are represented.

83. Finance: Relief payments in the form of loans to certain Allied Nationals have commenced. Payments have been made to several hundred Poles and Yugo Slavs and it is expected the same facility will exist for Greeks shortly. The Czechoslovak Mission has expressed a desire to participate. Norwegians continue to receive their payments through the Swiss Legation.

84. Prefects have been notified by the Italian Government that relief payments will be made by them through Ente d'Assistenza to all ex-Internees on the basis of 30 lire to the head of a household and 20 lire for each additional member not living in Allied Camps. Those in Allied Camps receive 25 lire and 15 lire respectively.

ITALIAN REFUGEE BRANCH.

85. Movement of Refugees:

Received in Main Transit Camps	-	13,847.
Dispersed through Main Transit Camps	-	10,156.
To Rome	-	8,717.
Local Communes	-	1,383.
Miscellaneous	-	56.

Received and dispersed through forward camp - 7,544, of which 1,625 were absorbed in GROSSETO Province, and 5,919 were dispersed locally.

Declassified E.O. 12356 Section 3.3/NND No. 785017

Miscellaneous	-	56.

Received and dispersed through forward camp - 7,544, of which 1,625 were absorbed in GROSSETO Province, and 5,919 were dispersed locally.

In addition approximately 25,000 were dispersed by Army AMGs.

971

86. Main Camps:

(a) Aversa Camp. Transferred to Follonica Camp. Thus Aversa Camp became entirely a camp for Displaced Persons.

(b) Cesano Camp. This was handed over to Region IV. The camp staff and stores were used to set up two camps in EIGHTH Army area. One for 3,000 at CASTIGLION FIORENTINO and one for 1,000 at S. MARIA DI ANGELO (Near Assisi).

(7)

0650

Declassified E.O. 12356 Section 3.3/NND No. 785017

(c) Cine Citta Camp. Our section of this camp was handed over to Region IV and the camp staff and stores used to set up a camp at FOLLONICA in Region VIII.

(d) Foggia Camp. This camp was closed and arrangements made through AMI to move it to ANCONA by sea.

87. Dispersal Area: Refugees in the South are still extremely restless. Many are arriving in NAPLES and other important towns, causing serious congestion. Some of these travellers are authorised by AMG, or Sindaco; some are without authorisation of any kind.

88. The repatriation of refugees, i.e. return to their homes of war refugees and of people who fled from the Allied Armies, is under M. ZANIBONI, Minister for Refugees. The numbers of war refugees, i.e. people who have become homeless because of the war, have shrunk considerably. More than 75% of the persons passing through our hands are repatriation cases, i.e. people wishing to return South to their homes. Of these, some had been moved North by the Germans, but the majority had fled in an attempt to avoid the advance of the Allied Armies.

PATRIOTS BRANCH.

89. To achieve closer contact with the new Northern Regions when they assume control of their territories a forward echelon has been established in FLORENCE.

90. The Italian Government has set up an Italian Patriot Committee under the Chairmanship of the Prime Minister to handle the Patriot problem. The Committee includes representatives of the Ministry of War, the Ministry of Press and Information and the Presidency of the Council.

91. Intelligence Teams for Regions IX, Piemonte, Liguria, XI and XII have been formed for the purpose of collecting and collating information on German occupied Italy. Detailed information is being supplied about industrial works which it is hoped to save, locations of bands and their leaders, and the activities of Patriots.

92. Patriot Representatives of the CLN and Military Centre Groups are carrying out their task of distinguishing between genuine and bogus Patriots in the Army areas and in Regions IV and V. In practice this work is carried out in cooperation with the Communal and Provincial Patriot Committees. Certificates are being awarded and it is hoped that in the rear areas this work will be concluded by the end of September.

93. The work of re-establishing Patriots in civilian occupations has progressed on the whole more slowly than was hoped. However, Communal and Provincial Patriot Committees are everywhere in being and they are being encouraged and exhorted by every means in the power of this HQ. In FLORENCE it was found that the Patriots were by no means eager to accept civil employment at once. It must be said that in the forward areas increasing difficulty is being experienced in inducing Patriots

Declassified E.O. 12356 Section 3.3/NND No. 785017

Some of these travellers are [illegible]
authorisation of any kind.

88. The repatriation of refugees, i.e. return to their homes of war refugees and of people who fled from the Allied Armies, is under M. ZANIBONI, Minister for Refugees. 93. The work of re-establishing Patriots in civilian occupations has progressed on the whole more slowly than was hoped. However, Communal and Provincial Patriot Committees are everywhere in being and they are being encouraged and exhorted by every means in the power of this HQ. In FLORENCE it was found that the Patriots were by no means eager to accept civil employment at once. It must be said that in the forward areas increasing difficulty is being experienced in inducing Patriots to hand in all their arms. This matter is engaging the serious attention of the Allied authorities.

94. Arrangements have been made to establish seven Patriot camps to receive Patriots on their way South to the Italian Army Recruitment Centres or to their homes. In Regions IV and V owing partly to the time which has elapsed since the territory was liberated, very few Patriots have volunteered to join the Italian Armed Forces. Arrangements are being made to make it possible for any Patriot in this area who may desire to volunteer to be given another chance to do so. In FLORENCE, through the courtesy of MMIA, arrangements have been made to make possible recruitment on the spot of up to 1000 Patriots.

0652

Declassified E.O. 12356 Section 3.3/NND No. 785017

95. Patriot camps, which will be established at suitable roadheads, will be operated by Italian Patriots. Most of the necessary equipment is being provided by the Italians. Rations will be on the refugee scale. The problem of securing motor transport to be used in connection with these camps has presented some difficulty but it is hoped that empty Allied lorries and trucks returning from the forward area can be used to transport these Patriots.

96. The Italian Liaison Section is carrying out its routine activities of daily contacts with the two recognised Patriot organisations, the Italian Home Office, War Office, Air Ministry and High Command.

PART II

ECONOMIC SECTION

LABOUR SUB-COMMISSION.

1. Labour relations, laws and regulations:

(a) The Decree Law concerning suppression of the Fascist Syndical Organisations and liquidation of their respective patrimonies is under further consideration.

(b) This Commission has given instructions concerning "what to submit", "when to submit" and "how to submit" to the Italian Ministry in regard to future legislation proposals.

(c) The delegations from the British Trade Unions Congress and the delegation of American Labour Unions are now viewing the Italian Labour Field.

2. Wages, hours and labour conditions:

(a) To bring about uniformity in the industrial family allowance schedules, a proposal for adjustment and a slight increase is now being discussed with the Italian Ministry.

(b) Much confusion exists among workers and employees as to the dates and payments for National holidays. A formal request has been made to the Italian Government for a clarifying new Decree Law.

(c) Prices have risen so much more rapidly than have wages and there has been such ineffective control over black market activities. Some suggestions and the course of action that should be taken in the wage adjustment field have been submitted.

(d) The small Labour Commission staff was again called upon to perform multitudinous Labour duties at Headquarters and in the field, with the Armies moving up and new territories being occupied.

(e) Manpower shortages have been reported and are being investigated wherever complaints are made.

3. Social insurance, benefits and training:

(a) This Commission with the concurrence of the Finance Sub-Commission has agreed to the proposed nominations of Commissioners for various Social Insurance Institutes.

(b) On the matter of "epurazione", Dr. Livio Malfettani, functionary and commissioner of the "Istituto Malattie" was suspended pending the outcome of a normal hearing with respect to charges of fascist activity filed against him by the High Commissioner.

4. Statistics, manpower and registration problems:

Declassified E.O. 12356 Section 3.3/NND No. 785017

(b) This Commission has given [illegible] "when to submit" and "how to submit" to the Italian Ministry in regard to future legislation proposals.

3. Social insurance, benefits and training:

(a) This Commission with the concurrence of the Finance Sub-Commission has agreed to the proposed nominations of Commissioners for various Social Insurance Institutes.

(b) On the matter of "epurazione", Dr. Livio Malfettani, functionary and commissioner of the "Istituto Malattie" was suspended pending the outcome of a normal hearing with respect to charges of fascist activity filed against him by the High Commissioner.

4. Statistics, manpower and registration problems:

969

(a) The commencement of a Labour Statistical Service has been inaugurated and will provide useful information for the future.

(b) Tentative plans for an enquiry into unemployment have been prepared. A report was also prepared on cost of living in Italy.

(c) The proposals for the increase of salaries of State employees presented by the Italian Government have been under study, alternative proposals are being prepared.

(d) Several wage agreements, the most important being that of the Sicilian sulphur mines, were examined and reports prepared upon them.

Declassified E.O. 12356 Section 3.3/NND No. 748017

5. Region I Summary:

(a) A strike occurred at the beginning of the month at the Imera Group of sulphur mines CALTANISETTA. After a short talk with the workers, work was resumed.

(b) The Labour and Wages Control Committee investigated the question of raising the wage of unskilled labour, a report was submitted to the Allied Forces Local Resources (Sicily) Board and accepted.

6. Region II Summary:

(a) Complaints have been received from all the Provincial Directors that no funds have been provided by the Ministry for salaries and office expenses since the end of June last.

(b) The Communist Party is very active, particularly in the "Camera del Lavoro".

7. Region IV Summary:

(a) Registration and classification of unemployed workers continued (approximately 2511 persons were placed during the month).

(b) Much difficulty has been experienced because of military units leaving the area before paying civilian employees.

(c) The disparity between cost of living and income levels increases. Insufficient supply to serve the demand due to inadequate control of distribution transportation is indicated.

8. Region V Summary:

(a) There are people in this part of Italy who are making money but generally they are the fascist landowners who get a high price for their commodities in the legitimate market and a much higher price in the black market. If wages are to remain fixed, the price of consumers goods must be fixed, and it is of no value to say "our legal price is such" when there is nothing on the legal market to buy.

9. Region VIII Summary:

(a) Reports that the labourers were receiving wages of 80, 90 and 100 lire per day, were reliable and widespread. A few hundred persons are involved at present and they will have to accept the reduction, particularly since in the adjoining province of LIVORNO the Army is trying to get 12,000 labourers at 65 lire per day.

(b) In GROSSETO Province the Trade Union organisation movement is making rapid advances.

FINANCE SUB-COMMISSION

10. Direct suspension of Italian personnel by the Finance Sub-Commission terminated in ROME on 15 August when full administrative responsibilities were assumed by the Italian Government. Files and information have been made available to the various ministerial committees which are now charged with defascistization duties.

Declassified E.O. 12356 Section 3.3/NND No. 785017

end of June last.

9. Region VIII Summary:

(a) Reports that the labourers were receiving wages of 80, 90 and 100 lire per day, were reliable and widespread. A few hundred persons are involved at present and they will have to accept the reduction, particularly since in the adjoining province of LIVORNO the Army is trying to get 12,000 labourers at 65 lire per day.

(b) In GROSSETO Province the Trade Union organisation movement is making rapid advances.

FINANCE SUB-COMMISSION

10. Direct suspension of Italian personnel by the Finance Sub-Commission terminated in ROME on 15 August when full administrative responsibilities were assumed by the Italian Government. Files and information have been made available to the various ministerial committees which are now charged with defascistization duties. Supervision is exercised over such committees, who render progress reports to the Sub-Commission. No one previously suspended by ACC is to be reinstated without permission.

11. As has been mentioned in earlier monthly reports, commercial bank interest rates are based on the Banca d'Italia 4½% rediscount rate and this combination of rates necessarily is an important factor in maintaining the high interest rate paid on government borrowings. In preparation for floating a new long-term government loan at a rate lower than 5% when substantially all of Italy is liberated, many discussions have taken place looking toward a reduction of the rediscount rate, commercial rates, and B.T.O. rates. Agreement among Treasury representatives, Banca d'Italia representatives and commercial bankers has finally been achieved and

Declassified E.O. 12356 Section 3.3/NND No. 785017

it has been decided to lower the rediscount rate and the commercial rate one half of one per cent with a similar reduction to follow shortly in B.T.O. rates. A continuing study of the situation will be made in the hope of effecting another decrease of one half of one per cent within another month.

12. In ROME for the period 1 - 31 August, the excess of purchases of Buoni del Tesoro Ordinarii over payments was 3.5 billion lire. The significance of this development may be realised from the fact that the comparable figure for ROME in July was only 312 million lire. Net investment in BTOs for all liberated Italy south of the 11 May line (roughly south of the northern boundaries of NAPLES - CAMPOBASSO Provinces), was approximately 2 billion lire; ROME city in one month has almost tripled this figure. It is striking evidence of financial confidence.

13. The total gross revenue collections for the 38 liberated Provinces for the year ended 30 June 1944 amounted to 13,105 million lire in respect of the 27 old liberated Provinces. The equivalent figures for the first month of the fiscal year 1944/45 are 291 and 228 million lire respectively. The collection result of the newly liberated Provinces is naturally poor, due to almost complete lack of communications in the immediate battle area and in some cases to the destruction of tax offices or the evacuation of office staffs. The results for the 27 liberated Provinces indicate that the improvement in revenue is being well maintained.

14. Two further tobacco factories have been liberated, at FLORENCE and at CHIARAVALLE. Both at present are out of production. The former is believed to be undamaged but access is not permitted at present owing to mines. The latter is badly damaged. The one at FLORENCE produced large quantities of handmade cigars. The two factories produced about 2,500 metric tons of cigarettes annually, sufficient to provide 30 cigarettes weekly for 1.5 million smokers. Owing to the expansion of liberated territory total production is insufficient to provide more than a ration of 20 grams of tobacco (20 cigarettes) weekly to the estimated 7.5 million smokers. A national rationing scheme is now being worked out. Production is being stepped up by longer factory working hours.

15. Expenditure of 50 million lire was authorised for urgent public works made necessary by the flooding of the Pontine and Littoria marshes. Provision had already been made for expenditures for anti-malarial measures in these districts. No clear policy has yet been stated by the Italian Government regarding the repair or reconstruction of war damaged properties or the rehabilitation of devastated areas. In AMG territory, financial control is directed to ensure that any work approved is primarily of military necessity. Much additional work is urgent and vital to the resumption of civilian life; and with the approach of winter the situation becomes acute. The problem is one which cannot fairly be considered piecemeal, and the financial aspect of any programme of national reconstruction is only one of other equally important facets, e.g. the availability of essential imports and the rehabilitation of key industries. The settlement of isolated projects tends to unfair discrimination and to become inequitable to all devastated areas. Any programme must therefore be comprehensive, putting into true perspective the needs of each district compatible with, and related to, the national resources and power of recovery.

16. In the state budget estimates for financial year 1st July 1944 to 30th June 1945, the total estimated expenditure is 39,808 million lire for the 22 provinces and 8,485 million lire for the central administration and Rome Province. This latter figure is a revised estimate and shows a considerable reduction in the estimate first submitted. The original budget for the Central Administration and Rome Province was 18,490 million [illegible]

Declassified E.O. 12356 Section 3.3/NND No. 785017

was approximately 2 billion lire; ROME city in one month has almost tripled this figure. It is striking evidence of financial confidence.

13. The total gross revenue collections for the 38 liberated Provinces for the year ended 30 June 1944 amounted to 13,105 million lire in respect of the 27 old liberated Provinces. The equivalent figures for the first month of the fiscal year 1944/45 are 291 and 228 million lire respectively. The collection result of the newly liberated Provinces is naturally poor, due to almost complete lack of communications in the immediate battle area and in some cases to the destruction of tax offices or the evacuation of office staffs. The results for the 27 liberated Provinces indicate that the improvement in revenue is being well maintained.

14. Two further tobacco factories have been liberated, at FLORENCE and at CHIARAVALLE. Both at present are out of production. The former is believed to be undamaged but access is not permitted at present owing to mines. The latter is badly damaged. The one at FLORENCE produced large quantities of handmade cigars. The two factories produced about 2,500 metric tons of cigarettes annually, sufficient to provide 30 cigarettes weekly for 1.5 million smokers. Owing to the expansion of liberated territory total production is insufficient to provide more than a ration of 20 grams of tobacco (20 cigarettes) weekly to the estimated 7.5 million smokers. A national rationing scheme is now being worked out. Production is being stepped up by longer factory working hours.

15. Expenditure of 50 million lire was authorised for urgent public works made necessary by the flooding of the Pontine and Littoria marshes. Provision had already been made for expenditures for anti-malarial measures in these districts. No clear policy has yet been stated by the Italian Government regarding the repair or reconstruction of war damaged properties or the rehabilitation of devastated areas. In AMG territory, financial control is directed to ensure that any work approved is primarily of military necessity. Much additional work is urgent and vital to the resumption of civilian life; and with the approach of winter the situation becomes acute. The problem is one which cannot fairly be considered piecemeal, and the financial aspect of any programme of national reconstruction is only one of other equally important facets, e.g. the availability of essential imports and the rehabilitation of key industries. The settlement of isolated projects tends to unfair discrimination and to become inequitable to all devastated areas. Any programme must therefore be comprehensive, putting into true perspective the needs of each district compatible with, and related to, the national resources and power of recovery.

16. In the state budget estimates for financial year 1st July 1944 to 30th June 1945, the total estimated expenditure is 39,808 million lire for the 22 provinces and 8,485 million lire for the central administration and Rome Province. This latter figure is a revised estimate and shows a considerable reduction in the estimate first submitted. The original budget for the Central Administration and Rome Province was 18,490 million, and after careful examination this was reduced by 10,006 million lire. Thus an economy was effected which almost exactly equals the total estimate revenue receipts for the whole financial year.

17. Preparations are now well under way for the operation of the remittance system in Italy by the Banca d'Italia. It is intended that the Banca d'Italia will eventually provide the entire machinery. However, at first the Banca will serve the area north of the Provinces of ROME, FROSINONE and CAMPOBASSO, for dollar remittances, and the whole of Italy for sterling remittances. Meanwhile approval by CCS is awaited for the Banco di Napoli to effect remittances in the Provinces of ROME (including ROME City), LITTORIA, FROSINONE and CAMPOBASSO.

(7)

Declassified E.O. 12356 Section 3.3/NND No. 763017

18. In centralising as much as possible in the Banca d'Italia the entire remittance plan, it is intended that the Banca d'Italia, rather than AFA, will provide lire on behalf of the Italian Government to effect remittance disbursements, but the foreign exchange proceeds will be subject to Finance Sub-Commission control. Eventually CCS will be requested to channel all remittances to the Banca d'Italia. Italian banks designated by the Banca d'Italia will act as paying agents throughout Italy.

FOOD SUB-COMMISSION

19. The distribution of rationed foodstuffs throughout liberated Italy has continued through the month as before, but the bread ration of 300 grams authorised im July for territory south of the winter line has been maintained. Olive oil and meats have had to be restricted in their issue to large urban areas due to the relative shortage of stocks. Stocks will last on the present basis to the end of this year. If no more imports come in, rationed items will be reduced to flour, sugar, and milk, by the beginning of 1945.

20. To make the local grain harvest go further experiments in mixing flour with barley meal have been carried out successfully, and milling at 95% extraction has made no appreciable difference in the quality of the bread which is being produced.

21. Dried vegetables were withheld from issue during the month so that they might be conserved for winter issue, whenthere is normally not a plentiful supply of fresh vegetables.

22. Particular attention was paid to the feeding of ROME. Transport was easier than in previous months so that full ration of bread (200 grams) olive oil, sugar, meat or stew, dried vegetables, soup, and salt was issued. Milk was made available for hospitals, invalids and babies. Some 160,000 meals were provided daily in communal kitchens. In addition to large imports of fruit and vegetables, some 16,000 tons of grain and miscellaneous items were brought into the city. As a further measure of alleviation, steps were taken during the month to relax restrictions and to increase the amount of market produce that could be brought into ROME on cycles and horse drawn vehicles.

23. Hitherto, too much emphasis has been laid on the quantity of local resources available. The heavy demands, authorised and unauthorised, made on local resources by the Armed Forces has been something of a drain on availabilities. The amount of local resources available has fallen considerably short of estimates so that purchases by the Armed Forces and the serious shortage of all forms of transport have mitigated against distribution on a higher scale of the available supplies.

24. The purchase of sheep on hoof for Indian troops is making a serious drain on the animal population.

25. ,Discussions have taken place with the Italian Ministry of Agriculture regarding the form and contents of a Decree for the amassing of the new crop of olive oil. Agreement was reached and the Decree has been issued. Prices are now under discussion and it is hoped to issue these early in September.

26. Recommendations have been made to the Economic Section that sufficient imports of wheat should be made to enable the extension of 240 grams of flour

Declassified E.O. 12356 Section 3.3/NND No. 785017

19. The distribution of rationed foodstuffs throughout liberated Italy has continued through the month as before, but the bread ration of 300 grams authorised in July for territory south of the winter line has been maintained. Olive oil and meats have had to be restricted in their issue to large urban areas due to the relative shortage of stocks. Stocks will last on the present basis to the end of this year. If no more imports come in, rationed items will be reduced to flour, sugar, and milk, by the beginning of 1945.

20. To make the local grain harvest go further experiments in mixing flour with barley meal have been carried out successfully, and milling at 95% extraction has made no appreciable difference in the quality of the bread which is being produced.

21. Dried vegetables were withheld from issue during the month so that they might be conserved for winter issue, whenthere is normally not a plentiful supply of fresh vegetables.

22. Particular attention was paid to the feeding of ROME. Transport was easier than in previous months so that full ration of bread (200 grams) olive oil, sugar, meat or stew, dried vegetables, soup, and salt was issued. Milk was made available for hospitals, invalids and babies. Some 160,000 meals were provided daily in communal kitchens. In addition to large imports of fruit and vegetables, some 16,000 tons of grain and miscellaneous items were brought into the city. As a further measure of alleviation, steps were taken during the month to relax restrictions and to increase the amount of market produce that could be brought into ROME on cycles and horse drawn vehicles.

23. Hitherto, too much emphasis has been laid on the quantity of local resources available. The heavy demands, authorised and unauthorised, made on local resources by the Armed Forces has been something of a drain on availabilities. The amount of local resources available has fallen considerably short of estimates so that purchases by the Armed Forces and the serious shortage of all forms of transport have mitigated against distribution on a higher scale of the available supplies.

24. The purchase of sheep on hoof for Indian troops is making a serious drain on the animal population.

25. ,Discussions have taken place with the Italian Ministry of Agriculture regarding the form and contents of a Decree for the amassing of the new crop of olive oil. Agreement was reached and the Decree has been issued. Prices are now under discussion and it is hoped to issue these early in September.

26. Recommendations have been made to the Economic Section that sufficient imports of wheat should be made to enable the extension of 240 grams of flour equivalent to all Italy as liberated and to furnish supplementary rations to hospitals, refugees, heavy workers, and religious institutions, and that sufficient imports of sugar, dried vegetables, milk and meat to meet estimates forwarded to AFHQ on 12 July 1944 should be arranged.

TRANSPORTATION SUB-COMMISSION

27. Railways: Owing to less spectacular advances by our troops during the latter part of August the long distance between railhead and forward troops has diminished. The west coast railhead has reached CECINA, south of LEGHORN. Rail line 65 has reached AREZZO, and line 87 has railheads at FASTIA and ASSISI. The branch line from this route, FOLIGNO-ANCONA, entered ANCONA at the beginning of September, and line 86 is being extended to MARZOCCA. Work on the section ORTONA-ANCONA has commenced.

Declassified E.O. 12356 Section 3.3/NND No. 785017

28. Authority has been given for the Italian Government to increase all fares on State and Private railways and the publication of the Decree is awaited.

29. In Southern Italy the REGGIO CALABRIA Railway Division is entirely operated by Italians under the supervision of one ACC Divisional Superintendent. In NAPLES our officer is waiting to take over.

30. An ACC officer has been posted to ANCONA, and others are being nominated for Northern Divisions.

31. Roads: Sixteen new officers joined the Roads Section during August.

32. The Italian Government Decree standardising Road Haulage rates is operating both in Italian Government Territory and Military Government Territory.

33. E.N.A.C. is being formed, and will shortly be in operation.

34. An Italian Truck Coy is hauling from PIOMBINO to FLORENCE. Permission has been asked to form a Truck Battalion of at least three companies.

35. New Regional demands for transport are presenting difficulties.

36. ROME is being fed by the use of civilian trucks only in conjunction with rail transport.

37. A Maintenance Section is being formed, which will be responsible for maintenance of all ACC load carrying vehicles. Spare parts are materialising. The Lancia and Super Garages in ROME are now both controlled by this Sub-Commission.

38. Tyres are still a problem, but information has been received that a consignment is on the way. Repair plants are operating on C.T. tyres drawn from P.B.S.

39. Water: Movement for ACC goods by sea is now incorporated in the overall A.F.H.Q. commitments, and not limited to what can be moved by schooners. Forecasts are required for movement a month ahead. This is done by the use of a standing allotment of schooner tonnage to ACC - 27,000 tons D.W. - then by additional allotment of further schooner or coaster space.

40. The new system for movement of goods by schooner under which all bids are required to come to ACC Headquarters is not sufficiently established to give a criterion of its operation.

41. Allotments of schooners for voyages are made at a daily meeting by representatives of ACC, MEDBO, and COGENA.

42. Coal: During August several Lignite Mines were examined and some will probably be restarted. One mine can produce a fuel which will be able to replace the imported coal used at the ROME Electric Plant.

43. Coal destined for the electricity generating plant was transferred to the gas works, which gave gas to ROME on 28 August, a month earlier than was expected.

Declassified E.O. 12356 Section 3.3/NND No. 785017

32. The Italian Government Decree standardising Road Haulage rates is operating both in Italian Government Territory and Military Government Territory.

33. E.N.A.C. is being formed, and will shortly be in operation.

34. An Italian Truck Coy is hauling from FIUMICINO to FLORENCE. Permission has been asked to form a Truck Battalion of at least three companies.

35. New Regional demands for transport are presenting difficulties.

36. ROME is being fed by the use of civilian trucks only in conjunction with rail transport.

37. A Maintenance Section is being formed, which will be responsible for maintenance of all ACC load carrying vehicles. Spare parts are materialising. The Lancia and Super Garages in ROME are now both controlled by this Sub-commission.

38. Tyres are still a problem, but information has been received that a consignment is on the way. Repair plants are operating on C-4 tyres drawn from P.B.S.

39. Water: Movement for ACC goods by sea is now incorporated in the overall A.F.H.Q. commitments, and not limited to what can be moved by schooners. Forecasts are required for movement a month ahead. This is done by the use of a standing allotment of schooner tonnage to ACC - 27,000 tons D.W. - then by additional allotment of further schooner or coaster space.

40. The new system for movement of goods by schooner under which all bids are required to come to ACC Headquarters is not sufficiently established to give a criterion of its operation.

41. Allotments of schooners for voyages are made at a daily meeting by representatives of ACC, MEDBO, and COGEMA.

42. Coal: During August several Lignite Mines were examined and some will probably be restarted. One mine can produce a fuel which will be able to replace the imported coal used at the ROME Electric Plant.

43. Coal destined for the electricity generating plant was transferred to the gas works, which gave gas to ROME on 28 August, a month earlier than was expected.

44. The clearing of FIUMICINO as a coal discharging port was discussed.

45. It was decided that a berth at CIVITAVECCHIA, served by rail, should be made for discharging coal to ROME.

46. Negotiations with the Ministry of Communications for the transfer of the "acceptance, discharge, and distribution" of coal and coke to the Italian Government, under ACC control, have been brought to a successful conclusion.

(7)

Declassified E.O. 12356 Section 3.3/NND No. 785017

PUBLIC WORKS AND UTILITIES SUB-COMMISSION

47. Time was spent in August in preparing, on special orders, a report stating why the Sub-Commission had not accomplished more, indicating obstacles to progress, and what had been done to surmount them. In amplification, reports were also obtained from 10 Regional Engineers, listing actual experiences over about a year. Vehicles for transport of structural materials, always lacking from the earliest days, so continue at the present time.

48. Relations with the Minister of Public Works are satisfactory. Frequent conferences are held.

49. Some of the matters negotiated with the Minister cover :

Organisation of Genio Civile.
Organisation of Cantonieri Gangs.
Contractors with Fascist records.
Excessive cost of works (certain areas).
Defascism (Work of special Commission appointed).
"Bonifica" works.
Financing of projects.
Raising sunken ships in ports.
Establishment of pool of Italian Engineers including electrical specialists, ready to move northwards at short notice.
Careless preparation of projects, and inaccurate estimates, submitted by Genio Civile.

50. The only Public Works officer in SARDINIA is being withdrawn as an experiment, with transfer of responsibility to Italian agency. If successful, the same procedure may be followed in SICILY, or elsewhere in Southern Italy. Schemes costing up to 500,000 lire need no longer be submitted by Italians to Regional Engineers for approval, unless controlled materials are involved.

51. Reports from Region IV show 27 towns with between 25% and 100% houses uninhabitable. Of these 14% are uninhabitable to the extent of more than 60%. A small scheme was approved for re-housing at CASSINO. The Italian Government proposes to set up by Decree a special body to deal with housing (matter still under discussion and negotiation).

52. Following the eruption of Vesuvius (March 1944) a project of over 200 million lire was approved in August; remedial measures to minimize dangers of landslides in the autumn.

53. Officer strength of Sub-Commission as on 31 August was 19 at HQ and 43 in the field (Regional Engineers and their staffs). Since the total establishment should be 74 there is a deficiency of 12.

54. Estimates of war damage to public works and buildings in Italy, recently put at over 2700 million dollars, may have been conservative. A Fund of 600 million lire set up last February (repairs to Military highways and bridges) was raised to 1,000 million lire.

55. Miscellaneous: Considerable information was furnished in August to UNRRA. Position as to ownership of materials of bombed properties is being investigated.

Declassified E.O. 12356 Section 3.3/NND No. 785017

conferences are held.

49. Some of the matters negotiated with the Minister cover :

Organisation of Genio Civile.
Organisation of Cantonieri Gangs.
Contractors with Fascist records.
Excessive cost of works (certain areas).
Defascism (Work of special Commission appointed).
"Bonifica" works.
Financing of projects.
Raising sunken ships in ports.
Establishment of pool of Italian Engineers including electrical specialists, ready to move northwards at short notice.
Careless preparation of projects, and inaccurate estimates, submitted by Genio Civile.

50. The only Public Works officer in SARDINIA is being withdrawn as an experiment, with transfer of responsibility to Italian agency. If successful, the same procedure may be followed in SICILY, or elsewhere in Southern Italy. Schemes costing up to 500,000 lire need no longer be submitted by Italians to Regional Engineers for approval, unless controlled materials are involved.

51. Reports from Region IV show 27 towns with between 25% and 100% houses uninhabitable. Of these 14% are uninhabitable to the extent of more than 60%. A small scheme was approved for re-housing at CASSINO. The Italian Government proposes to set up by Decree a special body to deal with housing (matter still under discussion and negotiation).

52. Following the eruption of Vesuvius (March 1944) a project of over 200 million lire was approved in August; remedial measures to minimise dangers of landslides in the autumn.

53. Officer strength of Sub-Commission as on 31 August was 19 at HQ and 43 in the field (Regional Engineers and their staffs). Since the total establishment should be 74 there is a deficiency of 12.

54. Estimates of war damage to public works and buildings in Italy, recently put at over 2700 million dollars, may have been conservative. A Fund of 600 million lire set up last February (repairs to Military highways and bridges) was raised to 1,000 million lire.

55. Miscellaneous: Considerable information was furnished in August to UNRRA. Position as to ownership of materials of bombed properties is being investigated. If used in the general interest, they would assist greatly in executing adjacent first-aid repairs, without involving transport. Responsibility for raising sunken ships in ports is still under discussion, i.e. Allied Navies, Italian Ministry of Marine, or this Sub-Commission.

56. Electrical: Of the large hydro-electrical stations 50% are totally destroyed and beyond repair. Dissolution of Central Electricity Board in July trebled the work of the Electrical Division of the Sub-Commission. Importation of 60,000 Kw generating plant might save up to 90,000 tons of shipping per month, and reduce unemployment if factories can be re-started. Electrical situation at present is "desperate".

Declassified E.O. 12356 Section 3.3/NND No. 783017

57. Remarks: Mine-clearance problems extremely serious. Reconstruction of public works hindered. Physical reconstruction and rehabilitation may be delayed for years, unless systematic mine-clearance is undertaken. Bonifica works in PONTINE MARSHES started in August, to cost about 48 million lire. Problems far greater than these are likely in the PO VALLEY and north thereof, where cities and whole tracts of country may be flooded. Ministry of Public Works pressed very strongly (under instructions Administrative Section) to expedite work of his Commission, dealing with "Defascism". Applications from Gas, Water and Electricity companies continued to be received, seeking to increase charges to consumers.

58. Highways, Bridges and Public Works: In August 83 new contacts put in hand for roads and bridges, and 33 others for miscellaneous projects. Expenditure was 127 million lire, and 59 million on miscellaneous works. Total expenditure (January to end of August) was nearly 700 million lire. Transport vehicles loaned by Armies and in use in Southern Region (military highways and bridges only) were 172, but due to poor condition never more than 50% were available at any one time. No serious difficulties encountered with labour. New system inaugurated under which bulk POL coupons are available to Regional Engineers, for contractors on military works projects. It is hoped by this means to eliminate confusion and shortages of past months. On 31 August 230 bridges were either completed or under construction. Problem constantly increasing in magnitude as Armies move northwards.

AGRICULTURE SUB-COMMISSION

59. The development of power and drive in the Ministry of Agriculture still proceeds slowly. There is difficulty evidently in finding suitable personnel, and the Commission of Epuration, like those in other Ministries, has not yet passed judgement in the case of any of the suspended officials; difficulty also arises from the fact that the Ministry covers the field of Alimentation, as well as Agriculture, Forestry and Fisheries, and the available energy is used in too many directions.

60. August was a month of many Reports. Overshadowing all others in importance, is the Crop Production Plan for 1944-45. At the end of the month the first rough draft of this was submitted to Economic Section. The Report should be completed and printed in English and Italian about 1st of October, and will contain complete Crop Plans for the whole of Italy, Province by Province; estimated farm requirements (fertilizers, insecticides, etc.) for maximizing production from these plans, and estimated minimum required imports. Re-habilitation plans for Forestry and Fisheries are also included.

61. Agriculture: In last month's report, there should have been noted the setting up, by the President of the Council of Ministries, of a Commission on Agricultural Contracts. This was a direct result of pressure brought to bear by this Sub-Commission on the Ministry of Agriculture.

62. Progress of the "Granai del Popolo" scheme remains reasonably good, in spite of transportation and other handicaps. Harvest control officers are having to be withdrawn, because transportation is not available for them, and this is bound to have an adverse effect.

63. Good progress was made during the month in the formulation of a Decree to control the collection of olive oil; greater difficulty is being found in arriving at a [illegible] schedule.

Declassified E.O. 12356 Section 3.3/NND No. 783017

roads and bridges, and 33 others for miscellaneous projects. Expenditure was 127 million lire, and 59 million on miscellaneous works. Total expenditure (January to end of August) was nearly 700 million lire. Transport vehicles loaned by Armies and in use in Southern Region (military highways and bridges only) were 172, but due to poor condition never more than 50% were available at any one time. No serious difficulties encountered with labour. New system inaugurated under which bulk POL coupons are available to Regional Engineers, for contractors on military works projects. It is hoped by this means to eliminate confusion and shortages of past months. On 31 August 230 bridges were either completed or under construction. Problem constantly increasing in magnitude as Armies move northwards.

AGRICULTURE SUB-COMMISSION

59. The development of power and drive in the Ministry of Agriculture still proceeds slowly. There is difficulty evidently in finding suitable personnel, and the Commission of Epuration, like those in other Ministries, has not yet passed judgement in the case of any of the suspended officials; difficulty also arises from the fact that the Ministry covers the field of Alimentation, as well as Agriculture, Forestry and Fisheries, and the available energy is used in too many directions.

60. August was a month of many Reports. Overshadowing all others in importance, is the Crop Production Plan for 1944-45. At the end of the month the first rough draft of this was submitted to Economic Section. The Report should be completed and printed in English and Italian about 1st of October, and will contain complete Crop Plans for the whole of Italy, Province by Province; estimated farm requirements (fertilizers, insecticides, etc.) for maximizing production from these plans, and estimated minimum required imports. Re-habilitation plans for Forestry and Fisheries are also included.

61. Agriculture: In last month's report, there should have been noted the setting up, by the President of the Council of Ministries, of a Commission on Agricultural Contracts. This was a direct result of pressure brought to bear by this Sub-Commission on the Ministry of Agriculture.

62. Progress of the "Granai del Popolo" scheme remains reasonably good, in spite of transportation and other handicaps. Harvest control officers are having to be withdrawn, because transportation is not available for them, and this is bound to have an adverse effect.

63. Good progress was made during the month in the formulation of a Decree to control the collection of olive oil; greater difficulty is being found in arriving at a final price schedule.

64. Forestry: A preliminary distribution plan for charcoal and fuelwood has been circulated in Regions IV, V and VIII; as soon as figures are obtained, a detailed plan will be prepared and submitted.

65. A detailed report, on charcoal production and distribution, was prepared, and covered the charcoal situation in 21 Southern Provinces of Italy, all Sicily and all Sardinia. The report gave recommendations for increasing the production, supplies on hand and the estimated production from July 1944 to April 30, 1945. It is estimated to be 56% of normal consumption.

(7)

Declassified E.O. 12356 Section 3.3/NND No. 785017

66. Fisheries and Hunting: The month of August, saw several important developments in this Division's programme to rehabilitate the Italian Fisheries Industry. With equipment and supplies, requisitioned from U.S. and U.K., arriving at Italian ports, the Division asked the Ministry of Agriculture to form a Government organisation which would distribute the supplies in such a way as to exercise a control of fishing and minimise transportation difficulties. The organization has been set up, and will assist to re-furnish Italian fishing, controlling supplies at just prices, and securing financial credits from Banks. Allocation of naptha and other coal products is based now on the quantity of fish unloaded at market.

67. The Ministry has been asked to revise the procedure of granting Hunting Permits; under Fascism Permits were issued by the Questura only after C.O.N.I., the Sports Federation Headquarters, approved the request. This undemocratic system has been changed, and now the Questura only will be responsible for the issuance of the Permit.

INDUSTRY SUB-COMMISSION

68. Foreward: The main objective of the past month's work in this Sub-Commission has been to effect the transference of the executive work from the Sub-Commission to the Italian Ministry of Industry, Commerce and Labour. The following steps have been taken towards this end.

69. Firstly, the representation of the Sub-Commission within the Ministry of Industry, Commerce and Labour has been further strengthened in order that continuous daily liaison may be maintained not only with the Minister himself, but with the various industrial experts working under him in the Ministry.

70. Secondly, regular weekly conferences are now held every Wednesday between the Minister, supported by his experts to advise him on technical matters on the Agenda, and the Acting Director, who has the assistance of the appropriate expert officers of the Sub-Commission. This practice has been found to be very effective both in ironing out difficulties that may arise with the Italian Government and also in accelerating the clearing up of outstanding matters.

71. Thirdly, arrangements have been made by the Italian Government for the selection of individual experts to deal with the more essential key industries - who can work side by side with the officers of this Sub-Commission who may have that particular industry under their control. As yet, however, it has been found impossible in certain situations for this Sub-Commission to hand over all its executive work. An example of this is the cement industry where the military services involved notified AGC that they were prepared to hand over various of the less efficient cement plants. As in some instances the military merely withdrew their control and at the same time stripped the factories of their stocks of coal, clinker, gypsum, sacks and even leather belting, the Sub- Commission had immediately to take on executive responsibility and arrange for an emergency programme for the production of cement for civilian needs.

72. Governmental Decrees: Work during the month has been concentrated mainly on three forthcoming decrees by the Italian Government.

73. The first, and the most difficult, was the decree for the control of the hemp industry and the manufactured products thereof. Terms were finally agreed between

Declassified E.O. 12356 Section 3.3/NND No. 785017

Permits; under Fascism Permits were issued by the Questura only after C.O.N.I., the Sports Federation Headquarters, approved the request. This undemocratic system has been changed, and now the Questure only will be responsible for the issuance of the Permit.

INDUSTRY SUB-COMMISSION

68. Foreword: The main objective of the past month's work in this Sub-Commission has been to effect the transference of the executive work from the Sub-Commission to the Italian Ministry of Industry, Commerce and Labour. The following steps have been taken towards this end.

69. Firstly, the representation of the Sub-Commission within the Ministry of Industry, Commerce and Labour has been further strengthened in order that continuous daily liaison may be maintained not only with the Minister himself, but with the various industrial experts working under him in the Ministry.

70. Secondly, regular weekly conferences are now held every Wednesday between the Minister, supported by his experts to advise him on technical matters on the Agenda, and the Acting Director, who has the assistance of the appropriate expert officers of the Sub-Commission. This practice has been found to be very effective both in ironing out difficulties that may arise with the Italian Government and also in accelerating the clearing up of outstanding matters.

71. Thirdly, arrangements have been made by the Italian Government for the selection of individual experts to deal with the more essential key industries - who can work side by side with the officers of this Sub-Commission who may have that particular industry under their control. As yet, however, it has been found impossible in certain situations for this Sub-Commission to hand over all its executive work. An example of this is the cement industry where the military services involved notified ACC that they were prepared to hand over various of the less efficient cement plants. As in some instances the military merely withdrew their control and at the same time stripped the factories of their stocks of coal, clinker, gypsum, sacks and even leather belting, the Sub-Commission had immediately to take on executive responsibility and arrange for an emergency programme for the production of cement for civilian needs.

72. Governmental Decrees: Work during the month has been concentrated mainly on three forthcoming decrees by the Italian Government.

73. The first, and the most difficult, was the decree for the control of the hemp industry and the manufactured products thereof. Terms were finally agreed between the Hemp Control Division of this Sub-Commission and the Minister, but the decree has not yet received Cabinet sanction, and negotiations are, therefore, continuing. It is satisfactory to note that new prices were established during the month for the forthcoming hemp crop.

74. The second decree deals with the control of the leather industry by means of a rigid control of the flow of tanning materials to the tanners. This decree has now been agreed between the Government and this Sub-Commission and its publication is pending. New prices for leather were finally agreed and approved, and it is considered that the final settlement of prices will have the effect of markedly increasing the availability of this commodity.

Declassified E.O. 12356 Section 3.3/NND No. 745017

75. The third decree to be mutally agreed between this Sub-Commission and the Government was the decree regularising the position of the Ente Zolfi Siciliani.

76. Reports: The main report drafted by this Sub-Commission during the month was the first part of the Emergency Programme for Industrial Rehabilitation. This report, which had to be completed within a very short space of time, taxed the energies of all the officers of the Sub-Commission to the utmost. It covered six key industries and outlined the Sub-Commission's programme for the rehabilitation and maintenance of those industries during the calendar year 1945.

77. The second in importance of the reports prepared by this Sub-Commission during the past month was that which was compiled for the representative of UNRRA. This report gives a brief history of the activities of the Sub-Commission since the beginning of the campaign up to date, and enumerated at some length the difficulties which confronted it and the steps taken to overcome them. It also embodied on broad lines the Sub-Commission's proposals for the future.

78. Surveys: Amongst the many surveys compiled by the officers of this Sub-Commission during the past month the two most important are that of the C.I.S.A. Viscosa Factory at ROME, where it is hoped that next year both rayon and fiocco can be produced, and of the Soda Solvay Works at ROSSIGNANO where the production of caustic soda will be eventually possible on a large scale. The problem of the manufacture locally of carbon bisulphide has been actively studied and a programme evolved for its production, which is in course of implementation.

79. Industrial activities: During the month under review the battle area has remained substantially unchanged, no new centres of industry or important plants have been liberated, and attention has largely been directed to amplifying action already initiated or to completing information previously available only in part.

COMMERCE SUB-COMMISSION

Materials Division.

80. Owing to greatly reduced personnel, especially in Southern Region, great difficulty is being experienced in dealing with current work. It is hoped to assign Italian officials to act as co-ordinating agents in the Provinces.

(a) Leather: Considerable belting has been produced by four factories operating in Regions III and IV. Prof. Enrico Simoncini was appointed Commissioner for leather for all Italy, being responsible for leather operations and control.

(b) Tobacco: No sea movements of tobacco were made during August. The ship "Senio" was procured through efforts of Commerce Sub-Commission to carry a three months supply of tobacco to CATANIA and PALERMO during first week of September.

(c) Matches: Arrangements have been completed for the distribution of matches throughout Italy by the national organisation of Consorzio Industrie Fiammiferi (C.I.F.) including all those domestically produced and imported from abroad.

(d) Paper: An AFLR (I) Board meeting, held on 21 August decided to remove

Declassified E.O. 12356 Section 3.3/NND No. 785017

77. The second in importance of the reports prepared by this Sub-Commission during the past month was that which was compiled for the representative of UNRRA. This report gives a brief history of the activities of the Sub-Commission since the beginning of the campaign up to date, and enumerated at some length the difficulties which confronted it and the steps taken to overcome them. It also embodied on broad lines the Sub-Commission's proposals for the future.

78. Surveys: Amongst the many surveys compiled by the officers of this Sub-Commission during the past month the two most important are that of the C.I.F.A. Viscosa Factory at ROME, where it is hoped that next year both rayon and fiocco can be produced, and of the Soda Solvay Works at ROSSIGNANO where the production of caustic soda will be eventually possible on a large scale. The problem of the manufacture locally of carbon bisulphide has been actively studied and a programme evolved for its production, which is in course of implementation.

79. Industrial activities: During the month under review the battle area has remained substantially unchanged, no new centres of industry or important plants have been liberated, and attention has largely been directed to amplifying action already initiated or to completing information previously available only in part.

COMMERCE SUB-COMMISSION

Materials Division.

80. Owing to greatly reduced personnel, especially in Southern Region, great difficulty is being experienced in dealing with current work. It is hoped to assign Italian officials to act as co-ordinating agents in the Provinces.

(a) Leather: Considerable belting has been produced by four factories operating in Regions III and IV. Prof. Enrico Simonoini was appointed Commissioner for leather for all Italy, being responsible for leather operations and control.

(b) Tobacco: No sea movements of tobacco were made during August. The ship "Senio" was procured through efforts of Commerce Sub-Commission to carry a three months supply of tobacco to CATANIA and PALERMO during first week of September.

(c) Matches: Arrangements have been completed for the distribution of matches throughout Italy by the national organisation of Consorzio Industrie Fiammiferi (C.I.F.) including all those domestically produced and imported from abroad.

(d) Paper: An AFLR (I) Board meeting, held on 21 August decided to remove from the list of controlled items sheet and rolled paper of all kinds, except printing paper. - Newsprint situation continues to be acute. No imports have been received during the period under review.

(e) Textiles, Clothing and Shoes: Jurisdiction over textiles owned by various merchants and held on the premises of the Consorzio Italiano Manufatti was turned over to the Italian Ministry of Industry, Commerce and Labour. Repair rate of salvaged shoes has been increased to 6000 pairs per week during the month. The Pirelli plant has started manufacture of rubber soles and heels.

Resources Section:

81. A method of procedure is in course of preparation whereby the discovery of controlled materials will become the responsibility of the Italian Government in AGC territory.

Declassified E.O. 12356 Section 3.3/NND No. 785017

Requirements and Release Section.

82. Important materials such as cement, nails and commercial gases remain in critically short supply. It may prove expedient, after approaching the Director of Works and PBS, to indent for imports to fill essential civilian requirements.

Fuel Section.

83. Owing to the move to ROME it was necessary to invent a modification whereby the existing circulation permits and petrol ration cards could be extended until the end of September. It proved impossible to get permits and ration cards printed in time to issue for 1 September.

Foreign Trade Section.

84. There has been difficulty in obtaining shipping. Quantities of goods are awaiting shipment, but lack of an Export Officer on the East coast of Italy retards all exports considerably. The first consignment of silk cocoons from Turkey has now arrived and will be distributed to filatures for reeling.

Price Section.

85. There is increasing interest on the part of the Government towards standardizing procedures relating to prices. The situation with respect to landed costs of imported supplies is still confused owing to AFHQ being unable to notify us as to landed costs of many items, forcing us to make our own estimates. An inter-ministerial committee has been set up by the Government and it is hoped that this will form a nucleus for more extensive price work in months to come.

SHIPPING SUB-COMMISSION.

86. During the month of August the chief subjects with which the Shipping Sub-Commission was concerned were : .

(a) The alteration in the operation of schooners.
(b) The planning of ACC requirements.

87. (a) As an initial step towards the operation of schooners a meeting was held at which it was mutually agreed that of the total of approximately 60,000 tons of schooners 25,000 tons would be allocated to the RASC and Water Transport Companies for Services requirements.

(b) All schooners over 500 tons to be allocated to P.S.T.O. Med. for operation as an addition to the coaster fleet for Services requirements, and small schooners presently utilised by the Navy for harbour craft to be continued in that service.

(c) This left a total of some 27,000 tons d.w. of schooners available for civil requirements, under the direction of the Allied Control Commission. In order that a complete control could be maintained as to the cargoes these vessels carried, a Schooner Control Committee was set up comprising a representative of COGEN., a representative of ACC and a representative of the Mediterranean Shipping [illegible]. This Control Committee functioning on 17 August, and up to date has

Declassified E.O. 12356 Section 3.3/NND No. 785017

the existing circulation permits and petrol ration cards could be extended until the end of September. It proved impossible to get permits and ration cards printed in time to issue for 1 September.

Foreign Trade Section.

84. There has been difficulty in obtaining shipping. Quantities of goods are awaiting shipment, but lack of an Export Officer on the East coast of Italy retards all exports considerably. The first consignment of silk cocoons from Turkey has now arrived and will be distributed to filatures for reeling.

Price Section.

85. There is increasing interest on the part of the Government towards standardizing procedures relating to prices. The situation with respect to landed costs of imported supplies is still confused owing to AFHQ being unable to notify us as to landed costs of many items, forcing us to make our own estimates. An inter-ministerial committee has been set up by the Government and it is hoped that this will form a nucleus for more extensive price work in months to come.

SHIPPING SUB-COMMISSION.

86. During the month of August the chief subjects with which the Shipping Sub-Commission was concerned were :.

(a) The alternation in the operation of schooners.
(b) The planning of ACC requirements.

87. (a) As an initial step towards the operation of schooners a meeting was held at which it was mutually agreed that of the total of approximately 60,000 tons of schooners 25,000 tons would be allocated to the RASC and Water Transport Companies for Services requirements.

(b) All schooners over 500 tons to be allocated to P.S.T.O. Med. for operation as an addition to the coaster fleet for Services requirements, and small schooners presently utilised by the Navy for harbour craft to be continued in that service.

(c) This left a total of some 27,000 tons dw. of schooners available for civil requirements, under the direction of the Allied Control Commission. In order that a complete control could be maintained as to the cargoes these vessels carried, a Schooner Control Committee was set up comprising a representative of COGEN, a representative of ACC and a representative of the Mediterranean Shipping Board. This Control commenced functioning on 17 August, and up to date has allocated 124 schooners approximating a total of 5,000 tons dw. cargo, these cargoes being approved by the ACC representative.

88. So far as the planning of requirements is concerned, this has now been presented and is under examination at AFHQ. It totals some 90,000 tons for the month of September, but gives priorities which will probably reduce the quantity considerably below that figure. On examination the Ministry of War Transport has agreed that it will be responsible for the tonnage under its own control for the carriage of timber from Southern Italy to Sicily to make lemon and orange boxes for shipment to the UK. A representative of the Ministry of War Transport will proceed shortly to co-ordinate these shipments.

Declassified E.O. 12356 Section 3.3/NND No. 785017

89. It is obvious, however, that this programme as presented by ACC will not be possible of fulfilment by ordinary schooner traffic, and a complete examination, therefore, is being made as to what contribution can be made towards it by a reduction in the military traffic or the allocation of outside shipping at the expense of other programmes. It will be several days before clarity on this subject is achieved. The main items, however, continue to be coal from SARDINIA and phosphates from TUNISIA. The Ministry of War Transport in LONDON, under pressure from the Mediterranean Shipping Board, has agreed to allocate five vessels approximately 5000 tons dw. each, which vessels will be utilised for these commodities.

90. As a matter of general interest on the shipping situation, ten Italian steamers have now arrived in GIBRALTAR from SPAIN, and one in CASABLANCA from PORTUGAL. These are being put into a fit state at GIBRALTAR to proceed to South Italy, but it is likely that extensive repairs will be necessary before they are fit for service.

Declassified E.O. 12356 Section 3.3/NND No. 785017

PART III

ADMINISTRATIVE SECTION.

1. Defascism: The Italian Government has expressed itself as not dissatisfied with the progress that it is making in two spheres of defascism, the punishment of those who have lent themselves to breaches of the old constitution or have obtained benefits improperly, and those who have corruptly obtained material benefits.

2. It has, however, expressed its dissatisfaction with the present method of purging the administration which is based on the individual consideration of each case. It is a lengthy process and includes the suspension of the person whose case is being investigated. An alternative method therefore is being considered to ensure the quick purging of officials.

3. Proposals for dealing with private firms and companies under Fascist control are under discussion.

4. Mine Clearance: A programme for the instruction of civilians in this work has been drawn up by the Ministry of War and approved in principle by this Section. These instructional squads of soldiers will be available on 15 September and will form centres of instruction in areas situated close to the more heavily mined areas. On completion of the instruction at the end of September the students are to be formed into working parties for mine clearance work. Some difficulty is being encountered in procuring the necessary equipment and transportation.

INTERIOR SUB-COMMISSION.

5. Local Government: A summary has been prepared and issued to AFG Armies shewing the primary steps necessary to reorganise local government. Italian official appointed to take charge of the Administration of ELBA.

6. Prefects and Officials: Arrangements were continued for maintaining supply of Prefects and other officials who may be required for forward Provinces, including planning for the 45 Provinces still in enemy hands. To meet shortage of Prefects the Ministry has been urged to promote efficient Vice-Prefects and suggestions have been made for transfer of Prefects. New Prefects and other officials sent to ASCOLI, ANCONA, FLORENCE and LIVORNO.

PUBLIC SAFETY SUB-COMMISSION.

7. Policing Forward Areas: Mobile CC.RR attached to Armies have continued their good work in policing newly occupied territory. As they move forward their places are taken by those supplied from replacement centres. A new centre has now been established in FLORENCE to hold 2200 and arrangements are in hand to form another centre at ANCONA. The SCAOs of FIFTH and EIGHTH Armies have expressed their satisfaction at the excellent services rendered by CC.RR under difficult conditions.

8. Patriots: A good deal of the time of Public Safety Officers in forward areas has been occupied in dealing with patriots. The difficulty has been to distinguish between genuine partisans and undesirable characters who seize the opportunity to form themselves into armed bands, robbing and plundering the country side. By constituting the CC.RR as the law enforcing authority and withdrawing weapons from

Declassified E.O. 12356 Section 3.3/NND No. 785017

considered to ensure the quick purging of prisoners.

3. Proposals for dealing with private firms and companies under Fascist control are under discussion.

4. Mine Clearance: A programme for the instruction of civilians in this work has been drawn up by the Ministry of War and approved in principle by this Section. These instructional squads of soldiers will be available on 15 September and will form centres of instruction in areas situated close to the more heavily mined areas. On completion of the instruction at the end of September the students are to be formed into working parties for mine clearance work. Some difficulty is being encountered in procuring the necessary equipment and transportation.

INTERIOR SUB-COMMISSION.

5. Local Government: A summary has been prepared and issued to AMG Armies showing the primary steps necessary to reorganise local government. Italian official appointed to take charge of the Administration of ELBA.

6. Prefects and Officials: Arrangements were continued for maintaining supply of Prefects and other officials who may be required for forward Provinces, including planning for the 45 Provinces still in enemy hands. To meet shortage of Prefects the Ministry has been urged to promote efficient Vice-Prefects and suggestions have been made for transfer of Prefects. New Prefects and other officials sent to ASCOLI, ANCONA, FLORENCE and LIVORNO.

PUBLIC SAFETY SUB-COMMISSION.

7. Policing Forward Areas: Mobile CC.RR attached to Armies have continued their good work in policing newly occupied territory. As they move forward their places are taken by those supplied from replacement centres. A new centre has now been established in FLORENCE to hold 2200 and arrangements are in hand to form another centre at ANCONA. The SCAOs of FIFTH and EIGHTH Armies have expressed their satisfaction at the excellent services rendered by CC.RR under difficult conditions.

8. Patriots: A good deal of the time of Public Safety Officers in forward areas has been occupied in dealing with patriots. The difficulty has been to distinguish between genuine partisans and undesirable characters who seize the opportunity to form themselves into armed bands, robbing and plundering the country side. By constituting the CC.RR as the law enforcing authority and withdrawing weapons from the patriots, the situation has been kept well in hand.

963

9. Public Security: Questori have been sent from a reserve pool in ROME to Provinces at the request of Army SCAOs or RCs. Inspectors from the Ministry of the Interior have been despatched to report on public security conditions in SICILY, SARDINIA and SIENA.

(7)

Declassified E.O. 12356 Section 3.3/NND No. 785017

10. Rations, Uniform and Equipment: Complaints that the rations allotted to Finance Guards and Agents of Public Security are inadequate are being sympathetically examined with the Sub-Commissions concerned. The uniform and equipment of all police agencies is still unsatisfactory, especially as regards transport. In spite of these conditions the police carry out their duties locally.

11. Epuration: Commissions have been set up to carry out the epuration of all Police, Fire Brigade and Prison officials. As yet these Commissions have made little progress. All OVRA officials and agents will be suspended from duty until their cases have been examined by the Public Security Epuration Commission.

12. Prisons: The problem of Italian Military prisoners which threatened to create acute overcrowding in civil jails has been solved. Although Italian Military prisoners will become a civilian responsibility after 30 days imprisonment, they will be kept in military jails. In many districts the prison population is decreasing owing to the expiration of sentences imposed by AMG in 1943. In SICILY as a result of the special drive on grain collection, overcrowding has increased. The repair work on four damaged prisons is being speeded up. If necessary, stockade prisons will be constructed in SICILY.

13. Control of Civilian Movement: In consequence of the handing over of new territory to the Italian Government, the instructions regarding civilian movement have been revised and consolidated in Executive Memorandum No.77. Civil Affairs Officers, Italian officials and the Italian public have been notified of the existing restrictions.

PUBLIC HEALTH SUB-COMMISSION.

14. General: The Italian Government has undertaken the rehabilitation of hospitals.

15. Supplies: Glass tubing is urgently required for the packing of biologicals produced locally.

16. Disease:

(a) Typhoid epidemic at BENEVENTO is being investigated and prophylactic measures have been instituted.
(b) V.D. the campaign continues.
(c) Typhus. The Typhus Control Unit will, during the autumn, instruct local teams throughout Central and Southern Italy in typhus control measures.
(d) Smallpox figures in NAPLES City and NAPLES Province show a definite decrease.
(e) Malaria. The work of the Malaria Control branch has been outstanding and has resulted, almost everywhere, in a marked reduction of cases as compared with 1943.

17. Veterinary: Foot and Mouth Disease and Swine Fever are both wide spread and steps to combat them have been taken. Supplies of veterinary biologicals have been distributed.

18. Welfare: The Ministry of Interior has increased the rates of assistance to political ex-internees.

Declassified E.O. 12356 Section 3.3/NND No. 785017

12. Prisons: The problem of Italian Military prisoners which threatened to create acute overcrowding in civil jails has been solved. 13. Control of Civilian Movement: In consequence of the handing over of new territory to the Italian Government, the instructions regarding civilian movement have been revised and consolidated in Executive Memorandum No.77. Civil Affairs Officers, Italian officials and the Italian public have been notified of the existing restrictions.

PUBLIC HEALTH SUB-COMMISSION.

14. General: The Italian Government has undertaken the rehabilitation of hospitals.

15. Supplies: Glass tubing is urgently required for the packing of biologicals produced locally.

16. Disease:

(a) Typhoid epidemic at BENEVENTO is being investigated and prophylactic measures have been instituted.
(b) V.D. the campaign continues.
(c) Typhus. The Typhus Control Unit will, during the autumn, instruct local teams throughout Central and Southern Italy in typhus control measures.
(d) Smallpox figures in NAPLES City and NAPLES Province show a definite decrease.
(e) Malaria. The work of the Malaria Control branch has been outstanding and has resulted, almost everywhere, in a marked reduction of cases as compared with 1943.

17. Veterinary: Foot and Mouth Disease and Swine Fever are both wide spread and steps to combat them have been taken. Supplies of veterinary biologicals have been distributed.

18. Welfare: The Ministry of Interior has increased the rates of assistance to political ex-internees.

19. Health: Infant mortality figures in ROME are high but it is anticipated that the distribution of powdered milk will result in a decrease in these figures.

LEGAL SUB-COMMISSION.

The following is a summary of activities during the month :

20. Office of Chief Legal Officer: Handling of all legal matters connected with restoration of territory on 15 August. Consideration of "Sanctions against Fascism". Examination has been given to the attitude of Italian Military Tribunals at BARI toward trial of cases involving Allied interests. Consideration of duties and functions of Property Control.

Declassified E.O. 12356 Section 3.3/NND No. 743017

21. Office of Chief Counsel: Preparation of revised proclamations 1, 2 and 4. Revised General Order No.2 and General Order No.32 (agricultural rents). Examination proposed decree for restoration of property and other rights taken away by Fascists legislation on racial or political grounds.

22. Italian Branch: Supervision of the "Epuration" of the Magistracy under the provisions of DLL 159 of 27 July. Contacts with ROME Jewish and Intergovernmental Refugee Committees on draft law to repeal racial legislation. Settling text of draft decree of marriage of members of Allied Forces in Italian territory. Determining the functions of Property Control in relation to the evolution of Italian administration. Extension of Italian Amnesty decree to territories restored to Italian Administration.

23. Office of Chief Judicial Officer: AMG court in Region II condemned Gaudio Martiere to 28 years imprisonment for murder of an Allied soldier and De Birade Michele to 20 years imprisonment for sabotage.

EDUCATION SUB-COMMISSION.

24. Italian Government Territory: This territory has required recently little attention. We are having to help in regard to the large new printing of textbooks (375,000 in PALERMO; 1,120,000 in NAPLES).

25. Region IV: LITTORIA, FROSINONE and ROME Provinces were handed over to Italian Control on 15 August. School lunches were served to 8,757 school children and plans are under way for increasing this number; 546 school administrative officials have been examined for fascism, of whom 175 were suspended. The printing of 1,039,000 elementary school textbooks for Region IV and V was launched. VITERBO, RIETI and TERNI Provinces are on their way to being in as favourable a situation. All school departments are functioning vigorously; many communes opened summer sessions. PERUGIA was visited and preliminary steps taken toward getting the educational machinery to function. Epuration proceeded at the University of ROME and examinations were held. Preliminary work was started at the two Universities in PERUGIA.

26. Region V: Eight Provinces are organized for the reopening of schools. School heads appointed; vetting under way; budgets prepared; directives issued; Sindaci are getting school quarters in shape; Fascist books are being confiscated. Conditions at the two Universities in MACERATA Province were investigated.

27. Region VIII: GROSSETO and SIENA Provinces were organized, defascising is proceeding, plans are completed for re-opening of schools. Preliminary arrangements are under way for the printing of 1,039,000 elementary school textbooks for Regions VIII and IX. The University of SIENA was the victim of an Army requisition.

28. Regions in General: A meeting of Regional Education Officers and the HQ Staff was held early in August. The two most urgent problems now before schools in both Italian Government Territory and Military Government Territory, are the printing and distributing of the millions of elementary school textbooks, and the making of buildings available and weather-tight for the winter.

PROPERTY CONTROL SUB-COMMISSION.

29. General: On 8 August Insurance Section, Finance Sub-Commission, assumed full responsibility for all Insurance Companies in Italy and PC was relieved of this

Declassified E.O. 12356 Section 3.3/NND No. 785017

functions of Property Control [illegible]
Extension of Italian Amnesty decree to territories restored to Italian Administration.

23. Office of Chief Judicial Officer: ANF court in Region II condemned Gaudie Martiere to 28 years imprisonment for murder of an Allied soldier and De Birade Michele to 20 years imprisonment for sabotage.

EDUCATION SUB-COMMISSION.

24. Italian Government Territory: This territory has required recently little attention. We are having to help in regard to the large new printing of textbooks (375,000 in PALERMO; 1,120,000 in NAPLES).

25. Region IV: LITTORIA, FROSINONE and ROME Provinces were handed over to Italian Control on 15 August. School lunches were served to 8,757 school children and plans are under way for increasing this number; 546 school administrative officials have been examined for fascism, of whom 175 were suspended. Epuration proceeded at the University of ROME and examinations were held. Preliminary work was started at the two Universities in PERUGIA.

26. Region V: Eight Provinces are organized for the reopening of schools. School heads appointed; vetting under way; budgets prepared; directives issued; Sindaci are getting school quarters in shape; Fascist books are being confiscated. Conditions at the two Universities in MACERATA Province were investigated.

27. Region VIII: GROSSETO and SIENA Provinces were organized, defascising is proceeding, plans are completed for re-opening of schools. Preliminary arrangements are under way for the printing of 1,039,000 elementary school textbooks for Regions VIII and IX. The University of SIENA was the victim of an Army requisition.

28. Regions in General: A meeting of Regional Education Officers and the HQ Staff was held early in August. The two most urgent problems now before schools in both Italian Government Territory and Military Government Territory, are the printing and distributing of the millions of elementary school textbooks, and the making of buildings available and weather-tight for the winter.

PROPERTY CONTROL SUB-COMMISSION.

29. General: On 8 August Insurance Section, Finance Sub-Commission, assumed full responsibility for all Insurance Companies in Italy and PC was relieved of this responsibility.

30. Regions: Reconsignment of properties to owners is going forward at an increasing tempo. Property Control offices in Regions II and VII were closed and records and files moved to office of RCP, Southern Region. In Region IV, RCP took into protective custody properties of numerous Fascist Organisations. The work of examining and completing records of United Nations' properties is nearing completion. In the FLORENCE area some difficulty was encountered because of operational activities. Much evidence of pilfering and looting was found.

(7)

Declassified E.O. 12356 Section 3.3/NND No. 745017

MONUMENTS, FINE ARTS & ARCHIVES SUB-COMMISSION.

31. Region IV: Inspections of the damaged sites in LITTORIA and FROSINONE Provinces, and VITERBO. In most of these cases repair projects have been difficult to initiate because of shortage of material and labour, both of which are needed by other claims in the devastated regions.

32. Deposits of Works of Art in the vicinity of FLORENCE: Steps have been taken to guard and check over the works of art placed in the deposits in the country South of FLORENCE. There are 23 such deposits around FLORENCE. Eight of these were accessible, the rest were in enemy territory. In FLORENCE, steps have been taken to salvage valuable records from the ruins of buildings mined by the Germans. Italian Superintendents have been organised to assist.

33. Region III: Final arrangements for the handing over of this Regions work to Italian Authorities have been made.

34. Art Exhibition: An exhibition of masterpieces of European Painting was opened in the Palazzo Venezia, ROME.

Declassified E.O. 12356 Section 3.3/NND No. 785017

PART IV

POLITICAL SECTION, PUBLIC RELATIONS BRANCH
AND INDEPENDENT SUB-COMMISSIONS

POLITICAL SECTION.

1. On the 15 August the Provinces of LITTORIA, FROSINONE and ROME (including the capital) were handed back to the Italian Government. On the occasion Bonomi issued a statement, rather sober in nature, in which he asked the Italian people not to expect miracles but assured them that the Government was well aware of the task confronting it and willing to tackle it. It may be said that the Government has indeed worked very hard during the month. The Council of Ministers has met frequently and dealt with some major matters. It has set up a committee for national reconstruction, realising fully that at the moment emergency measures must take precedence over long range planning. It has sanctioned the nomination of special commissioners for "concessionary enterprises affecting the public services or engaged in activities recognized to be of general interest" and on 31 August announced its intention of complying with the request of the CGIL delegates (presented 9 August) to take some action, in cooperation with the Allies, to protect the workers against the rising cost of living. And, in the meeting of 31 August, it avowed its intention to attack the Sicilian question laying plans for "strengthening the administrative apparatus" of the island with a view to combating the Separatist movement and to proceed to "concrete and organic resolution of the latifundia problem". These are only the principal activities; there were the usual routine and administrative matters. Epuration has proceeded with vigor, the most sensational event being the suspension of 309 out of the 420 senators.

2. Party life has also been full and in general events of the month have clarified the aims of the various elements. Noteworthy was the "alliance" of the Socialists and Communists (8 August) who announced a common programme for more active participation in the war, intensification of application of anti-fascist sanctions and protection of the workers against their difficult economic straits and dangers from reactionary forces. Their avowed hope is to bring the Christian Democrats (with whom they are already working in harmony on the labour front) into the pact but the latter have so far not given their assent. The Liberals followed suit, announcing on 13 August their fusion with the old Democratic Liberal party, an old pre-war group of some strength particularly in the South. This fusion is particularly interesting as it brings into the Government representation from a group outside the Committee of Liberation; an action which the Leftist parties view with some suspicion, Nenni calling the Liberal Democrats "a Trojan horse within the citadel of democracy". The young and hopeful Catholic Communists received another blow when it was categorically stated by Cardinal Salotti that the terms Catholic and Communists were mutually contradictory.

3. In the matter of foreign affairs the month has seen a crescendo in Italy's anxiety about her future. Demands have been repeated that the Allies should clarify their policy and at various times specific requests have been made in the press for Allied status, Lend Lease, UNRRA and permission to put more Italian troops in the field. It was widely understood that Signor Bonomi took advantage of Mr. Churchill's visit, which was followed with intense interest, to put at least some of these demands directly to him. Interest has been kept high by a series of speeches or gestures from the Anglo-Saxon world. Mr. Churchill's visit was of course the main episode of this sort; it was in general regarded as a good thing

Declassified E.O. 12356 Section 3.3/NND No. 785017

not to expect miracles but assured them that the Government was well aware of the task confronting it and willing to tackle it. It may be said that the Government has indeed worked very hard during the month. The Council of Ministers has met frequently and dealt with some major matters. It has set up a committee for national reconstruction, realising fully that at the moment emergency measures must take precedence over long range planning. It has sanctioned the nomination of special commissioners for "concessionary enterprises affecting the public services or engaged in activities recognized to be of general interest" and on 31 August announced its intention of complying with the request of the CGIL delegates (presented 9 August) to take some action, in cooperation with the Allies, to protect the workers against the rising cost of living. And, in the meeting of 31 August, it avowed its intention to attack the Sicilian question laying plans for "strengthening the administrative apparatus" of the island with a view to combating the Separatist movement and to proceed to "concrete and organic resolution of the latifundia problem". These are only the principal activities; there were the usual routine and administrative matters. 2. Party life has also been full and in general events of the month have clarified the aims of the various elements. Noteworthy was the "alliance" of the Socialists and Communists (8 August) who announced a common programme for more active participation in the war, intensification of application of anti-fascist sanctions and protection of the workers against their difficult economic straits and dangers from reactionary forces. Their avowed hope is to bring the Christian Democrats (with whom they are already working in harmony on the labour front) into the pact but the latter have so far not given their assent. The Liberals followed suit, announcing on 13 August their fusion with the old Democratic Liberal party, an old pre-war group of some strength particularly in the South. This fusion is particularly interesting as it brings into the Government representation from a group outside the Committee of Liberation; an action which the Leftist parties view with some suspicion, Nenni calling the Liberal Democrats "a Trojan horse within the citadel of democracy". The young and hopeful Catholic Communists received another blow when it was categorically stated by Cardinal Salotti that the terms Catholic and Communists were mutually contradictory.

3. In the matter of foreign affairs the month has seen a crescendo in Italy's anxiety about her future. Demands have been repeated that the Allies should clarify their policy and at various times specific requests have been made in the press for Allied status, Lend Lease, UNRRA and permission to put more Italian troops in the field. It was widely understood that Signor Bonomi took advantage of Mr. Churchill's visit, which was followed with intense interest, to put at least some of these demands directly to him. Interest has been kept high by a series of speeches or gestures from the Anglo-Saxon world. Mr. Churchill's visit was of course the main episode of this sort; it was in general regarded as a good thing since it enabled him to see Italy's condition for himself and to satisfy himself of the claim of the Bonomi Government for Allied support, but his failure to announce any specific measure of amelioration created some disappointment. Mr. La Guardia's dramatic final broadcast which seemed to imply something might soon be forthcoming was another such event, and the visit of the American and British Labour delegates has also kept hope alive for sympathetic action from the democracies.

951

4. On 25 August Signor Soleri, Minister for Treasury, gave a press conference in which he discussed with some frankness the financial situation of the country, pointing out among other things that Italian finance could not be established on any solid basis until the currency situation was clarified and for that the cooperation of the Allies was essential. This was taken up by the press and a statement

Declassified E.O. 12356 Section 3.3/NND No. 785017

on our currency policy may now be added to the list of things that the Italians would like to have. Their increasing frankness in stating what they want has had some justification - in Italian eyes at least - in the deeds of the patriot bands who distinguished themselves particularly in the fighting around FLORENCE and have thus been a factor in resuscitating national pride. To such a point indeed that Count Sforza, speaking on 21 August, did not hesitate to touch on territorial matters, affirming the "Italianita" of TRIESTE and suggesting that FIUME might well become a free city, the seat of a new league of nations. And the deeds of the Patriots as well as the kind words spoken about the Armed Forces by Allied officers at the last ACC Regional Commissioners' Conference have also served to bring to the fore the plight of war prisoners on which Italians would like action from us.

5. The Regional Commissioners Conference held on 22 and 23 August was for the first time open to the Italian press. Particular attention was given to the reports of the Economic Section and, as said above, the Services Sub-Commissions. Allowing the Italian press to be present may well have had some political value; it was clear from the articles that followed that many Italians had not realised the scope of the work of ACC. Further, the Acting Chief Commissioner's statement that ACC supported the Bonomi Government in the same spirit as that indicated in the statement of the Ministers without Portfolio (issued to express their solidarity at the time of the handover of ROME) was undoubtedly a factor in giving the Government stability and putting an end to any lingering rumours of its approaching dissolution under Allied disfavour.

PUBLIC RELATIONS BRANCH.

6. News Production: Regular press releases were issued to the Italian Press, PWB, Allied correspondents and neutral correspondents on all aspects of ACC activities including UNRRA liaison.

7. Press Conference: The Italian Press was admitted for the first time to the Regional Commissioner's Conference with excellent results. The Branch arranged two press Conferences between Brig. Gen. O'Dwyer and Allied and Italian correspondents, respectively. The former covered the Italian Economic situation and the latter the ROME food conditions and general economic plans. Both Conferences were well received.

8. Journalists:

(a) Italian: Contact with editors of ROME newspapers was maintained to explain ACC policies and to request assistance on problems needing public co-operation. The first ACC/PRB accrediting cards were issued to Italian journalists. Curfew passes were issued to newspaper workers, journalists automobile problems were adjusted, and two Italian photographers were issued with permits to photograph non-military subjects.

(b) Allied: Interviews arranged and information given to some twenty British and American correspondents.

(c) Allied Political Correspondents: The first four arrived and became an ACC responsibility. They represented The Times, Daily Express, and Daily Telegraph, (LONDON), and Tass Agency (Soviet Union).

(d) Neutral Correspondents: Weekly background briefings were held.

Declassified E.O. 12356 Section 3.3/NND No. 745017

(b) Allied: Interviews arranged and information given to some twenty British and American correspondents.

(c) Allied Political Correspondents: The first four arrived and became an ACC responsibility. They represented The Times, Daily Express, and Daily Telegraph, (LONDON), and Tass Agency (Soviet Union).

(d) Neutral Correspondents: Weekly background briefings were held.

9. Relations with Italian Government: Publicity was arranged and put into effect for the Italian Armed Forces including the first Allied recognition of Italian war correspondents. Epuration of the Italian Press was carried out in collaboration with the Italian Government Committee, the Federazione Stampa, and Security Branch. Long term arrangements for radio and cinemas were discussed with the Sottosegretariato delle Stampa and the PWB.

Declassified E.O. 12356 Section 3.3/NND No. 785017

10. Miscellaneous: The Allied Publication Board, with concurring PRB vote, froze further issues of newsprint because of shortage of imports. Extensive scheduling of story possibilities made for the March of Time film unit photographing ACC help to Italy. Publishing arrangements made for 75,000 copies of Art-Guide to FLORENCE for use of the troops. Plans started to make films of Italian Army, Navy and Air Force. Contacts maintained with Prime Minister Bonomi and Cabinet members. Regular services of Weekly Bulletin, Daily Rome Digest and Trend of Correspondents' copy continued. Material gathered for history of ACC.

WAR MATERIALS DISPOSAL AND ITALIAN PW SUB-COMMISSION.

War Materials Disposal.

11. The work of this Sub-Commission was for the most part of an administrative nature and the small staff was inundated with requests by individuals and representatives of firms for authority to collect derelict vehicles from the surrounding countryside and roads. A few permits were issued, in the most part, to collect parts from derelict vehicles, and in every case the parts were required so that the work on a certain vehicle could be completed and the vehicle put back on the road to do duty under ACC direction.

12. A reconnaissance was made of the RIETI and ALBANO area. In RIETI an inspection was made of the weapons which had been collected into a small Armament Shop, where an excellent job of cleaning and servicing weapons was being done by Italian labour. The weapons are held at the disposal of the Italian War Ministry.

13. In ALBANO a considerable quantity of water pipe and 30 litre tanks were found and put at the disposal of the Public Works and Utilities Sub-Commission.

14. Workshops in ROME and the immediate vicinity were visited and a check made of salvaged vehicles with a view to ascertaining their ultimate destination.

Italian Prisoners of War.

15. The repatriation of Italian Prisoners of War was increased and the release from PW status of approximately 65,000 paroled PW in SICILY was completed. The number of military PW returned for the month was 1030.

16. Prime Minister Bonomi accepted an invitation to send representatives to visit localities in Italy, and to inspect the conditions under which PW cooperators are employed.

17. Requests for repatriation for specialists, required for Allied Control Commission and Italian Government activities, and a few individual cases justified for compassionate reasons, were submitted for consideration.

18. Plans for expediting certain repatriations were made and a policy of active cooperation with the Italian Red Cross was initiated.

COMMUNICATIONS SUB-COMMISSION.

19. Telecommunications:

(a) Telephone: Two additional NAPLES-ROME circuits have been made available,

Declassified E.O. 12356 Section 3.3/NND No. 785017

18. Plans for expediting certain repatriations were made and a policy of active cooperation with the Italian Red Cross was initiated.

COMMUNICATIONS SUB-COMMISSION.

19. Telecommunications:

(a) Telephone: Two additional NAPLES-ROME circuits have been made available, permitting the opening of a restricted service to civil use of this important channel. Many urban telephone services have been restored, including the towns of CAMPOBASSO, TERNI, VENETRO, TERMOLI, LANCIANA, CHIETI, AVEZZANO, AQUILA, TERAMO, ASCOLI, FLORENCE, SIENA, GROSSETO, etc. Inter-urban service limited to intra-provincial calls has been authorised in the Provinces of FOGGIA, CHIETI, PESCARA, AQUILA, TERAMO, AVELLINO, BENEVENTO, CAMPOBASSO, FROSINONE, LITTORIA and ROME: inter-urban circuits are now approaching completion in many areas. Full inter-provincial service is authorised and available in all Provinces south of the above.

Declassified E.O. 12356 Section 3.3/NND No. 785017

(b) Telegraph: Telegraph service has been authorised in all Provinces listed above; in few cases are circuits available, but they are also now approaching completion in many districts. The telegraph service from ROME to the South has been improved, but is still inadequate, and many telegrams from NAPLES and BARI are still arriving by post. Arrangements to effect improvement, which include transfer of equipment from SICILY, are in hand. Submarine telegraph cables to SICILY and SARDINIA have been handed over to the Italian authorities; so far only the SICILY circuit is restored to operation. The Italian Foreign Office has been authorised to resume cablegram communications, in clear or in cipher, with all Italian Missions, etc., abroad, except that in ARGENTINA. (This service was previously restricted to the Embassies at MADRID, LISBON and TANGIERS).

20. Postal:

(a) Internal and foreign mail services have been restored in the additional Provinces of FOGGIA, CHIETI, PESCARA, AQUILA and TERAMO.

(b) PALERMO and BARI were closed as foreign mail transfer ports, leaving only NAPLES, and a few transfers through CATANIA.

(c) Some 17,000,000 letters (about 70 tons), including about 12,000,000 PW letters, have been dealt with in the foreign mail service since the opening of services early this year.

ARMY SUB-COMMISSION.

21. The planning, organisation and initial training of the Italian Combat Groups has gone according to the time programme. The limiting factor has been the provision of equipment. The training scale of arms and vehicles for the first two groups has now been issued.

22. On 10 August, GOC attended a conference at Public Relations for the Italian Army and observer reporters. GOC put forward the urgent necessity for more publicity to be given the Italian Army, not only in its combattant role but in its work behind the lines, providing labour on docks, engineer units, L of C signals, muleteers etc. It was decided that every effort would be made to get the Italian people Army-minded and several interesting articles have since appeared in the ROME newspapers on the achievements and activities of the Italian Army.

23. In an order of the day to the Italian Army, Count Casati, War Minister, reproduced part of GOC's report at the last Regional Commissioners' Conference in which due recognition and praise is given to the Italian Army and urges all ranks to make greater efforts to drive the enemy out of the country.

24. Arrangements are being made for the division of responsibility for rationing the Italian Armed Forces between the British and American Governments. This constitutes an amendment to the last sentence of this Sub-Commission's report for the month of July.

NAVY SUB-COMMISSION

25. During the month of August the active cruisers of the Italian Fleet carried out the normal programme of [illegible]

Declassified E.O. 12356 Section 3.3/NND No. 785017

etc., abroad, except that in ARGENTINA. (Mail service was previously restricted to the Embassies at MADRID, LISBON and TANGIERS).

(b) PALERMO and BARI were closed as foreign mail transfer ports, leaving only NAPLES, and a few transfers through CATANIA.

(c) Some 17,000,000 letters (about 70 tons), including about 12,000,000 PW letters, have been dealt with in the foreign mail service since the opening of services early this year.

ARMY SUB-COMMISSION.

21. The planning, organisation and initial training of the Italian Combat Groups has gone according to the time programme. The limiting factor has been the provision of equipment. The training scale of arms and vehicles for the first two groups has now been issued.

22. On 10 August, GOC attended a conference at Public Relations for the Italian Army and observer reporters. GOC put forward the urgent necessity for more publicity to be given the Italian Army, not only in its combattant role but in its work behind the lines, providing labour on docks, engineer units, L of C signals, muleteers etc. It was decided that every effort would be made to get the Italian people Army-minded and several interesting articles have since appeared in the ROME newspapers on the achievements and activities of the Italian Army.

23. In an order of the day to the Italian Army, Count Casati, War Minister, reproduced part of GOC's report at the last Regional Commissioners' Conference in which due recognition and praise is given to the Italian Army and urges all ranks to make greater efforts to drive the enemy out of the country.

24. Arrangements are being made for the division of responsibility for rationing the Italian Armed Forces between the British and American Governments. This constitutes an amendment to the last sentence of this Sub-Commission's report for the month of July.

NAVY SUB-COMMISSION

25. During the month of August the active cruisers of the Italian Fleet carried out the normal programme of ferrying troops and civilians in the Western Mediterranean. Destroyers and smaller vessels were employed in escort work. The three older battle-ships returned from Malta and have been reduced to reserve in Italian ports. The work of the TARANTO dockyard proceeded satisfactorily. Supplies of food and medical stores for the fleet were adequate and the introduction of a single ration scale for combat and non-combat troops has simplified administration. As far as possible the Italian Navy utilises its own stocks of Naval Stores and every assistance is given to them to obtain materials from local resources. Essential items not available from these sources are supplied mainly from British Naval stocks. The clothing situation was unsatisfactory and will remain so until the arrival of materials ordered from the United Kingdom, when the Italians will manufacture their uniforms in their own factories.

Declassified E.O. 12356 Section 3.3/NND No. 785017

26. Steps are being taken to obtain favourable publicity for the work of the Italian Navy, and details which are being worked out in conjunction with the Public Relations Branch include the production of a short film, shewing the work of the Italian ships during the past year.

AIR FORCE SUB-COMMISSION

27. The Italian Air Force continued to support the Allied Air Forces actively. The Fighter Wing has been carrying out fighter sweeps over enemy territory and has a good record. The Bomber/Transport Wing continued to drop supplies. The SeaPlane Wing continued to work as part of the Mediterranean Coastal Air Force.

28. The Operational Control of the Italian Air Force has now passed out of the hands of the Air Force Sub-Commission. While this loss of operational control is regretted, there is no doubt that it is a sound move, as it ensures complete co-ordination of the effort of the Air Forces as a whole.

29. Under the new Government, General Piscentini has been appointed Air Minister and Chief of Staff of the Italian Air Force.

30. Among many other problems there have been two outstanding ones. Firstly, the ceiling of manpower in the Italian Air Force, and secondly the question of rations. A somewhat arbitrary decision was made to reduce the ceiling from 32,000 to 22,000. This would have had serious repercussions in respect of Italian Air Force personnel on loan to the Allied Forces in substitution for Allied manpower. The ceiling, however, has now been permanently fixed at 31,000.

MONTHLY REPORT FOR JULY

General Remarks

1. July is the harvest month in Italy and though the wheat was late this year all eyes were turned towards the crop, which im most areas was well above average. The farmers were anxious about labour and gasoline for their threshing machines: the townspeople thought the generous price for wheat might seriously affect the price of bread (which it has not): the Italian Government and the Allied Control Commission wondered how much of the abundant crop would find its way to the Government grain depots. Generally speaking the harvest has begun well. Imported soldiers of the Italian Army helped the farmers in FOGGIA: helped also to maintain the labour markets for the Allied military authorities and to keep down exorbitant demands for wages by the harvesters. Where gasoline and oil was lacking the farmers reverted to the customary method of treading out the wheat by oxen. The intensive campaign for Granai del Popolo continued and collections of grain began to come in. Strenuous efforts by the officials of Allied Control Commission and in most (but not all) areas, by Italian Government officials, have been made to start the campaign with success. It is too early to prophesy the results.

2. Established in ROME, with the Headquarters of the Allied Control Commission alongside, the Italian Government had its first opportunity of functioning in the capital of the country and with the proper machinery of Government. The focus naturally turned to ROME and conditions in ROME were regarded as a mirror of those throughout the country. This is not so. ROME was not occupied until June 5th and although the city has suffered little material damage, much dislocation has taken place which can only be remedied in time. Conditions in South Italy and in the Provinces outside ROME are undoubtedly better than within.

3. In the North, AMGs with both Armies have done outstanding work. Their problems were manifold, but they overcame them. Law and order were kept: food was supplied im spite of grievous shortages of transport: refugees were passed back for dispersal in neighbouring Provinces: patriots, a new problem, were dealt with tactfully and firmly.

4. The procedure of Provincial teams, from the Region, rapidly following up and sometimes accompanying the AMG staffs in the Armies has proved successful.

5. AMG Regions have continued to employ to the maximum the Italian machinery and personnel of local government, who generally have been helpful and effective in spite of grave difficulties caused by devastation, lack of communications, and mines. Civilian casualties from these remnants of battle have been tragic and

MONTHLY REPORT FOR JULY

General Remarks

1. July is the harvest month in Italy and though the wheat was late this year all eyes were turned towards the crop, which in most areas was well above average. The farmers were anxious about labour and gasoline for their threshing machines: the townspeople thought the generous price for wheat might seriously affect the price of bread (which it has not): the Italian Government and the Allied Control Commission wondered how much of the abundant crop would find its way to the Government grain depots. Generally speaking the harvest has begun well. Imported soldiers of the Italian Army helped the farmers in FOGGIA: helped also to maintain the labour markets for the Allied military authorities and to keep down exorbitant demands for wages by the harvesters. Where gasoline and oil was lacking the farmers reverted to the customary method of treading out the wheat by oxen. The intensive campaign for Granai del Popolo continued and collections of grain began to come in. Strenuous efforts by the officials of Allied Control Commission and in most (but not all) areas, by Italian Government officials, have been made to start the campaign with success. It is too early to prophesy the results.

2. Established in ROME, with the Headquarters of the Allied Control Commission alongside, the Italian Government had its first opportunity of functioning in the capital of the country and with the proper machinery of Government. The focus naturally turned to ROME and conditions in ROME were regarded as a mirror of those throughout the country. This is not so. ROME was not occupied until June 5th and although the city has suffered little material damage, much dislocation has taken place which can only be remedied in time. Conditions in South Italy and in the Provinces outside ROME are undoubtedly better than within.

3. In the North, AMGs with both Armies have done outstanding work. Their problems were manifold, but they overcame them. Law and order were kept: food was supplied in spite of grievous shortages of transport: refugees were passed back for dispersal in neighbouring Provinces: patriots, a new problem, were dealt with tactfully and firmly.

4. The procedure of Provincial teams, from the Region, rapidly following up and sometimes accompanying the AMG staffs in the Armies has proved successful.

5. AMG Regions have continued to employ to the maximum the Italian machinery and personnel of local government, who generally have been helpful and effective in spite of grave difficulties caused by devastation, lack of communications, and mines. Civilian casualties from these remnants of battle have been tragic and numerous.

9.37

6. In the areas handed over to the Italian Government the reduction of Allied officers of the Allied Control Commission has been maintained gradually: the props on which the Italian Local Government is so prone to lean are being withdrawn and more responsibility is thrown on to the local authorities. There are some, especially in the cities, who think that the withdrawal is premature. But it is essential if the policy of the Allied Nations is to be implemented: and experience shows that it is right.

Declassified E.O. 12356 Section 3.3/NND No. 785017

7. At the end of his last report on Sicily, Colonel A. N. Hancock, the Regional Commissioner, writes as follows :

"SICILY has now been under AMG or ACC counsel for just over one year. Perhaps the greatest fault - or is it praise - that can be found in Region I is a too rapid return to a state of normal peacetime economic activity together with local politics and slow administration. As for over three thousand years, SICILY still suffers from internal disunion and too great a spirit of selfish independence and local patriotism. The grain campaign - which is still being run under the High Commissioner even if greatly aided by ACC pressure - will be the touchstone of SICILY's ability or failure to administer herself. For the future, the prosperity or poverty of SICILY is a matter for SICILY herself to make - there is little more ACC can do for her."

8. This will become true for the areas in Italy as time goes on.

9. The two problems which face the Commission are food and transport. In the South the peak of the food problem can be said to have passed - so long as the new crop can be distributed. North of the Garigliano in the devastated areas, food is not so plentiful: the basic bread ration from this line to the front line, is 200 grams compared with 300 grams in the South. Other forms of food are as short. The same applies to ROME. In the country districts to the East and North of ROME the general food situation is easier, though the basic bread ration remains at 200 grams. Transport is the difficulty. It is inadequate. Food cannot be brought from the producer to the consumer areas. It is very difficult to carry petrol to the threshing machines and grain from the threshing floors to the collection depots.

Declassified E.O. 12356 Section 3.3/NND No. 785017

PART I

R.C. & M.G. SECTION

AMG FIFTH ARMY.

1. The end of July found the Army on the banks of the Arno, with the Southern portion of PISA in our hands. The capture of SIENA intact on the 2nd July was followed on the 20th by the fall of LIVORNO with the port area in a ruinous state but the rest of the town mainly undamaged. During the month the latter remained under intermittent shell fire.

2. In SIENA the usual problems of power, light and water presented themselves, the former impossible to deal with at present, while the latter promised to be in fair order in about a month. Banks were sound, lacking only currency. They were opened on 20th July. The University was closed for summer vacation and so presented no problem. Being the centre of a rich agricultural district the food situation was not pressing. SIENA was handed over to AMG Eighth Army on 22nd July.

3. The supply situation grew more satisfactory during the month as the much needed items such as salt and sugar came through. The Army is in a corn growing area with an excellent harvest being gathered, so import of flour is not an immediate necessity. RCA is being distributed to promote grinding of flour locally thus relieving transport. In SIENA the stockpile for FLORENCE was established and with the opening of PIOMBINO and the retention of an RASC Transport Coy until replaced, the situation is not unsatisfactory.

4. LIVORNO does not present as bad a picture as was at first thought. There is a possibility of getting an alternative supply of water for some 60,000 people and as the present population is 35,000 against a normal 140,000 the situation will be well covered. There is a fine hospital with a potential capacity for 2,000.

5. The patriots have been most useful. In LIVORNO they marked minefields and acted as guides and police. They respond to tactful handling and the issue of certificates and proclamations has a very good effect. Similar services were rendered elsewhere but at SIENA they presumed complete political freedom even within sound of the enemy guns. Patriot Liaison Officers sent by HQ ACC were very welcome. Some Italian officers have been sent up by the Ministry of War to facilitate enlistment in the Italian Army.

6. In other branches affairs remain satisfactory. The Granai del Popolo collections are good. There is a little hooliganism but crime in the towns shows no unusual increases.

AMG EIGHTH ARMY.

7. The rate of advance slowed down during the month mainly owing to the increased resistance offered by the enemy in the hills South of FLORENCE. By the end of the month, however, the whole of the Provinces of SIENA and MACERATA and most of AREZZO, PERUGIA and ANCONA had been occupied. This meant a population of about 2,000,000 under Army AMG administration. These provinces are mainly agricultural and have not been greatly disturbed by war. They are self-subsisting as regards grain, oil and vegetables. Harvesting is proceeding but has been hampered by shortage of POL.

Declassified E.O. 12356 Section 3.3/NND No. 785017

2. In SIENA the usual problems of power, light and water presented themselves, the former impossible to deal with at present, while the latter promised to be in fair order in about a month. Banks were sound, lacking only currency. They were opened on 20th July. The University was closed for summer vacation and so presented no problem. Being the centre of a rich agricultural district the food situation was not pressing. SIENA was handed over to AMG Eighth Army on 22nd July.

3. The supply situation grew more satisfactory during the month as the much needed items such as salt and sugar came through. The Army is in a corn growing area with an excellent harvest being gathered, so import of flour is not an immediate necessity. POL is being distributed to promote grinding of flour locally thus relieving transport. In SIENA the stockpile for FLORENCE was established and with the opening of PIOMBINO and the retention of an RASC Transport Coy until replaced, the situation is now satisfactory.

4. LIVORNO does not present as bad a picture as was at first thought. There is a possibility of getting an alternative supply of water for some 60,000 people and as the present population is 35,000 against a normal 140,000 the situation will be well covered. There is a fine hospital with a potential capacity for 2,000.

5. The patriots have been most useful. In LIVORNO they marked minefields and acted as guides and police. They respond to tactful handling and the issue of certificates and proclamations has a very good effect. Similar services were rendered elsewhere but at SIENA they presumed complete political freedom even within sound of the enemy guns. Patriot Liaison Officers sent by HQ ACC were very welcome. Some Italian officers have been sent up by the Ministry of War to facilitate enlistment in the Italian Army.

6. In other branches affairs remain satisfactory. The Granai del Popolo collections are good. There is a little hooliganism but crime in the towns shows no unusual increases.

AMG EIGHTH ARMY.

7. The rate of advance slowed down during the month mainly owing to the increased resistance offered by the enemy in the hills South of FLORENCE. By the end of the month, however, the whole of the Provinces of SIENA and MACERATA and most of AREZZO, PERUGIA and ANCONA had been occupied. This meant a population of about 2,000,000 under Army AMG administration. These provinces are mainly agricultural and have not been greatly disturbed by war. They are self-subsisting as regards grain, oil and vegetables. Harvesting is proceeding but has been hampered by shortage of POL.

8. The Provinces of RIETI and TERNI were handed over to Region IV on the 10th and 30th July respectively.

9. Of the places occupied during the month one was the port of ANCONA where only 6,000 people were found on arrival out of a population of about 90,000. 35% of the town has been destroyed. The once attractive town of AREZZO was reported 30% destroyed and had a population of 1500 out of the normal 31,000. The Prefect was not there to welcome the Allies but fled with funds belonging to the Province to the tune of 17,000,000 lire.

Declassified E.O. 12356 Section 3.3/NND No. 785017

10. Many patriots were encountered and although a few were troublesome the majority were disarmed without incident and were cooperative. Some assisted to gather mines and explosives and others even volunteered to rebuild the railway from TERNI to TODI.

11. TERNI has a very considerable labour problem. The steel mills have been totally destroyed and the 7,000 employees have little prospect of returning to their old employment for a long time to come. This is the first purely industrial town to be encountered and therefore emphasises problems which will arise if similar destruction occurs in the industrial north.

12. Useful work has been done in the whole area by Italian welfare organisations although they have been handicapped by lack of supplies. They have shown themselves calm and efficient under great difficulties.

13. More refugees have been encountered, which is to be expected when an advance slows up, when they come over to us from no mans' land and the devastated areas in the battlefield zone.

REGION I (SICILY)

14. During July the grain campaign overshadowed all other forms of activity in Sicily absorbing AMG, the Italian Army, Carabinieri and Government officials, as well as affecting politics, Separatism and crime. Even the black market has reacted to the new conditions. It brings back memories of the first efforts to feed Sicily just a year ago.

15. The quota of grain to be collected this harvest has been fixed at 3,100,000 quintals, sufficient to feed the rationed part of the population for one year. By 30th June 6802 quintals had been collected; by 31 July this figure had risen to 234,251 quintals. Great difficulties beset the collection of the grain and already nearly 5000 persons have been denounced for infringement of regulations with confiscations amounting to over 10,000 quintals. Transportation facilities provided for the Granai del Popolo have been adequate but tyre troubles are severely felt.

16. In the field of politics Separatism has been more subdued this month in a belated attempt to appease the authorities and particularly the new High Commissioner - Aldisio, who is credited with the intention of crushing the Movement.

17. After a year as the first part of Italy and Europe to be liberated it seems that Sicily is likely to miss the greatest opportunity in her history of becoming an important part of Italy. Many of her difficulties are of her own making. Internally disunited and ultra-political she is unready to make common cause with the mainland and share its burdens, whilst her actions arouse deep suspicion on the part of Italians. A great deal depends on the influence of the High Commissioner in the next six months, for by firm handling he can do much to steer Sicily to a brighter future.

18. It is not generally realised that Sicily has already a lively export trade. The value of goods exported to the principal buyers in the last twelve months is as follows :

Great Britain	343,666,110	lire.
U.S.A.	21,626,000	"
Malta	242,614,225	"

Declassified E.O. 12356 Section 3.3/NND No. 785017

12. Useful work has been done in the whole area by Italian welfare organisations although they have been handicapped by lack of supplies. They have shown themselves calm and efficient under great difficulties.

13. More refugees have been encountered, which is to be expected when an advance slows up, when they come over to us from no mans' land and the devastated areas in the battlefield zone.

REGION I (SICILY)

14. During July the grain campaign overshadowed all other forms of activity in Sicily absorbing AGC, the Italian Army, Carabinieri and Government officials, as well as affecting politics, Separatism and crime. Even the black market has reacted to the new conditions. It brings back memories of the first efforts to feed Sicily just a year ago.

15. The quota of grain to be collected this harvest has been fixed at 3,100,000 quintals, sufficient to feed the rationed part of the population for one year. By 30th June 6802 quintals had been collected; by 31 July this figure had risen to 234,251 quintals. 18. It is not generally realised that Sicily has already a lively export trade. The value of goods exported to the principal buyers in the last twelve months is as follows :

Great Britain	343,666,110	lire.
U.S.A.	21,626,000	"
Malta	242,614,225	"

Nearly all the commodities exported are the products of the fertile soil and include items such as lemons (525,892 cases), lemon oil (180,000 Kgs.), nuts, oranges and orange oil.

19. Prices and cost of living continue to rise and taking the index figure for January 1944 as 100, in June it had increased to 129,95.

0702

Declassified E.O. 12356 Section 3.3/NND No. 785017

REGION II (APULIA, LUCANIA)

20. The Communist party has continued its ascendancy to the point where it is now provocative. This is most marked in POTENZA and BRINDISI Provinces. Previous uneasiness has turned among the intelligent classes of Italians to fear that some violence will occur if the Allies do not stand near them. Provincial governments still lack teamwork and initiative as they do not feel the staunch backing of the present Italian Government. They have become more suspicious lately that the Allies will leave them "on their own" entirely, despite assurances to the contrary.

21. In the majority of provinces the collection of wheat is well ahead of normal and MATERA Province has already exceeded its total collection for 1943. Barley collection is somewhat behind, for the reason that producers are awaiting a decision of the Italian Government on their appeal that Barley should be considered as food for livestock in many localities.

22. Otherwise, in the grain collection campaign, almost all the problems have been solved with satisfaction except transportation and policing. The transportation problem, rail and motor, with continued shortage of gasoline, tyres and spare parts, has become more acute than before. This shortage has now reached the point that the successful collection and distribution of grain is dependent largely upon how quickly and in what quantity rail transport and/or transport can be made available.

23. The Carabinieri and Questura have proved fairly effective in providing police for the grain campaign. Road blocks are in operation throughout the Region. Many arrests for grain violations have been made and more than 1,000 quintals of grain has been confiscated by these road block groups.

24. The food situation in this Region remains satisfactory.

25. The supply of leafy vegetables has lessened, but tomatoes and melons are fairly plentiful. Fruits remain satisfactory.

26. The wine surplus in APULIAN Provinces remains unchanged or in a worse position. Producers are now beginning to pour it out to make room for the new crop. There is still an excess of 300,000 tons remaining in the Region.

27. The new crop of grapes, almonds and tobacco continues normal in condition.

28. The usual labour unrest prevails in TARANTO Province. Otherwise, no serious labour disputes have occurred.

29. A few small imbroglios occurred among troop units. Chiefly between Italian soldiers and French Colonial troops in BRINDISI and TARANTO Provinces. In each instance local commanders and ACC officers handled the situation and managed to prevent serious disorders on a large scale.

30. The civilian population as a whole remains orderly.

31. The general health of the people continues to be very good. For the third successive month there has been no outbreak of an appreciable nature of any communicable disease.

9.5

32. The small epidemic outbreaks of foot and mouth disease in TARANTO, MATERA

Declassified E.O. 12356 Section 3.3/NND No. 785017

normal and MATERA Province has already [illegible] total collection for [illegible]. Barley collection is somewhat behind, for the reason that producers are awaiting a decision of the Italian Government on their appeal that Barley should be considered as food for livestock in many localities.

22. Otherwise, in the grain collection campaign, almost all the problems have been solved with satisfaction except transportation and policing. The transportation problem, rail and motor, with continued shortage of gasoline, tyres and spare parts, has become more acute than before. This shortage has now reached the point that the successful collection and distribution of grain is dependent largely upon how quickly and in what quantity rail transport and/or transport can be made available.

23. The Carabinieri and Questura have proved fairly effective in providing police for the grain campaign. Road blocks are in operation throughout the Region. Many arrests for grain violations have been made and more than 1,000 quintals of grain has been confiscated by these road block groups.

24. The food situation in this Region remains satisfactory.

25. The supply of leafy vegetables has lessened, but tomatoes and melons are fairly plentiful. Fruits remain satisfactory.

26. The wine surplus in APULIAN Provinces remains unchanged or in a worse position. Producers are now beginning to pour it out to make room for the new crop. There is still an excess of 300,000 tons remaining in the Region.

27. The new crop of grapes, almonds and tobacco continues normal in condition.

28. The usual labour unrest prevails in TARANTO Province. Otherwise, no serious labour disputes have occurred.

29. A few small imbroglios occurred among troop units. Chiefly between Italian soldiers and French Colonial troops in BRINDISI and TARANTO Provinces. In each instance local commanders and ACC officers handled the situation and managed to prevent serious disorders on a large scale.

30. The civilian population as a whole remains orderly.

31. The general health of the people continues to be very good. For the third successive month there has been no outbreak of an appreciable nature of any communicable disease.

32. The small epidemic outbreaks of foot and mouth disease in TARANTO, MATERA and POTENZA Provinces now appear to be stabilized.

33. During the month the Italian Provincial Committees have handled practically all the Italian refugee problems in this Region. Large numbers of Italian families have been surging into the Region, especially into BARI, trying to return to their homes in other parts of Italy, especially to NAPLES. This at a time when rail transport was very critical, caused acute distress.

34. Although there has been an inflow of over 2,300 Italian refugees during July, there has also been an outflow into those parts of Italy where travel is allowed. Therefore, the total refugee population in this Region has probably remained static at around 30,000.

G 7.0 A

Declassified E.O. 12356 Section 3.3/NND No. 743017

35. The unannounced "freezing" of rolling stock for movement of military supplies during the middle of the month was almost fatal to the distribution of civilian supplies and to the grain campaign. Only by superhuman efforts could grain be moved for bread. BARI and LECCE Provinces are living from hand to mouth insofar as bread and pasta are concerned.

36. There are some healthful signs of competition in trade since ordinary consumer goods formerly hidden are beginning to show in some quantity on the open market. However, transportation difficulties, scarcity of raw materials, and machine spare parts still tend to restrict revival of trade.

37. Prices of ordinary goods remain high and beyond the reach of the ordinary housewife. Bank savings and deposits continue to increase and surplus funds continue to flow into the central bank.

38. Black market dealings in sterling and Blue Seal dollars increased somewhat during the month.

REGION III (CAMPANIA)

39. The various political parties remain active and continue in their attempts to control public offices, but no party has a definite programme or policy and therefore party membership tends to reduce rather than to increase. The general public continues to be more interested in food than in politics. The change to Italian Government and the withdrawal of ACC officers have caused general uneasiness which in some cases amounts to actual fear.

40. The food situation was good until the latter part of the month, when purchases for ROME caused shortages and higher prices. At the end of June the population of the City was estimated to be 932,919 and the number of persons having a right to bread and pasta 885,847. On 30 July the total number of ration cards issued was 886,353.

41. The flour ration was increased from 160 grams to 240 grams per day, consisting of 200 grams of bread and 78 grams of pasta.

42. The olive oil crop is extremely good. It is hoped that mines will be cleared in the northern part of the Region in time to assist in the harvesting.

43. The water system for the City of NAPLES continued to operate satisfactorily and under excellent conditions from source to the pumping stations. Chlorination of the entire water supply has been considered advisable, but has been found to be impracticable because of the lack of chlorine and chlorinating equipment.

44. Coal for the gas works in the City of NAPLES came in quite regularly and two months' supply of coal was on hand at the end of July. The SALERNO gas works commenced supplying gas for heating and cooking.

45. There was a slight lessening of civilian crime. Fewer crimes of violence were reported and black market offences decreased. There were 21 cases of forgery of Allied currency.

46. Relations with Military Police were good. Apart from the Fascist but conduct

Declassified E.O. 12356 Section 3.3/NND No. 785017

37. Prices of ordinary goods remain high and beyond the reach of the ordinary housewife. Bank savings and deposits continue to increase and surplus funds continue to flow into the central bank.

38. Black market dealings in sterling and Blue Seal dollars increased somewhat during the month.

REGION III (CAMPANIA)

39. The various political parties remain active and continue in their attempts to control public offices, but no party has a definite programme or policy and therefore party membership tends to reduce rather than to increase. The general public continues to be more interested in food than in politics. The change to Italian Government and the withdrawal of ACC officers have caused general uneasiness which in some cases amounts to actual fear.

40. The food situation was good until the latter part of the month, when purchases for ROME caused shortages and higher prices. At the end of June the population of the City was estimated to be 932,919 and the number of persons having a right to bread and pasta 885,847. On 30 July the total number of ration cards issued was 886,353.

41. The flour ration was increased from 160 grams to 240 grams per day, consisting of 200 grams of bread and 78 grams of pasta.

42. The olive oil crop is extremely good. It is hoped that mines will be cleared in the northern part of the Region in time to assist in the harvesting.

43. The water system for the City of NAPLES continued to operate satisfactorily and under excellent conditions from source to the pumping stations. Chlorination of the entire water supply has been considered advisable, but has been found to be impracticable because of the lack of chlorine and chlorinating equipment.

44. Coal for the gas works in the City of NAPLES came in quite regularly and two months' supply of coal was on hand at the end of July. The SALERNO gas works commenced supplying gas for heating and cooking.

45. There was a slight lessening of civilian crime. Fewer crimes of violence were reported and black market offences decreased. There were 21 cases of forgery of Allied currency.

46. Relations with Military Police were good, apart from the French, but conduct of Allied troops did not show any marked improvement. There was too much drunkenness on the part of soldiers and sailors, and many reports of crimes of violence committed by them were received. American Negro troops and French Colonial troops were concerned in a number of these cases, and the conduct of Canadian troops in AVELLINO leaves much to be desired. The increase of French troops in the AVELLINO area caused alarm among the civilian population, and after dark there was in fact a voluntary curfew.

0706

Declassified E.O. 12356 Section 3.3/NND No. 785017

47. Smallpox showed an unseasonable incidence in the Province of NAPLES and BENEVENTO, approaching epidemic proportions in the cities of AFRAGOLA and FRATTAMAGGIORE. 416 cases of smallpox were reported in the Province of NAPLES and 106,913 vaccinations were administered in the Province. Typhoid fever has persisted in all Provinces, but has not been unseasonable.

48. Telephone service from NAPLES to ten other cities was established for Italian Government use. At the end of the month, telegrams could be sent to all parts of Southern Italy, with an average delivery time of two hours. No long distance telephone service was given to the public.

49. Delivery of letters and postcards was established on 1 July to the City of ROME and VATICAN CITY, on 17 July to the Provinces of CAMPOBASSO and ROME, and on the 24 July to the Provinces of FROSINONE and LITTORIA.

50. Cash holdings and deposits with the banks increased.

51. Sales and exchanges for the month exceeded redemptions by 260,000,000 lire. Unofficial meetings of the NAPLES Borsa were inaugurated to stop clandestine dealings. Prices were slightly lower, with the unofficial prices quoted in NAPLES about two points higher than the daily newspaper quotations in ROME, a disparity which no one could explain.

REGION IV (LAZIO)

52. The need to economise in personnel dictated a reorganization in the administration of ROME and at the end of the month ROME Region ceased to exist as a separate entity and was absorbed by Region IV.

53. The month of July was the harvest month over most of the Region. In the Southern Provinces the harvest yield was below normal, owing to war devastation, the withdrawal of labour, and the difficulties caused by minefields. In the Northern Provinces the crop was excellent. Anxiety was felt owing to the absence of POL required for the agricultural machinary, but in fact the Italian farmers, working long hours and using hand methods, have garnered most of their excellent harvest. The outlook for potatoes, olives and grapes remains good.

54. Progress was made in the construction of road bridges. An excellent bridge carrying the Via Salaria into RIETI was built in exceptionally rapid time. This bridge was ceremonially opened by the Regional Commissioner on 10 July. In the Provinces as a whole the Genio Civile got to work on the construction of the many bridges required.

55. Two other problems are of paramount importance: transportation and electric power. On every hand the same difficulties were met with. The lack of transport and the lack of electric power impinged upon practically every aspect of the work of the Region.

56. Political: No very definite developments took place during the month of July. Reports of activities of the Communist Party were received from TERRACINA and from the Province of VITERBO. In neither case was the movement very widespread though potential political tension exists in the numbers of Port workmen evacuated during German occupation from CIVITAVECCHIA to VETRALLA, TUSCANIA and other places in VITERBO Province. Similarly the serious unemployment problem in TERNI may have

Declassified E.O. 12356 Section 3.3/NND No. 785017

on the 24 July to the Provinces of FROSINONE and LITTORIA.

50. Cash holdings and deposits with the banks increased.

51. Sales and exchanges for the month exceeded redemptions by 260,000,000 lire. Unofficial meetings of the NAPLES Borsa were inaugurated to stop clandestine dealings. Prices were slightly lower, with the unofficial prices quoted in NAPLES about two points higher than the daily newspaper quotations in ROME, a disparity which no one could explain.

REGION IV (LAZIO)

52. The need to economise in personnel dictated a reorganization in the administration of ROME and at the end of the month ROME Region ceased to exist as a separate entity and was absorbed by Region IV.

53. The month of July was the harvest month over most of the Region. In the Southern Provinces the harvest yield was below normal, owing to war devastation, the withdrawal of labour, and the difficulties caused by minefields. In the Northern Provinces the crop was excellent. Anxiety was felt owing to the absence of POL required for the agricultural machinery, but in fact the Italian farmers, working long hours and using hand methods, have garnered most of their excellent harvest. The outlook for potatoes, olives and grapes remains good.

54. Progress was made in the construction of road bridges. An excellent bridge carrying the Via Salaria into RIETI was built in exceptionally rapid time. This bridge was ceremonially opened by the Regional Commissioner on 10 July. In the Provinces as a whole the Genio Civile got to work on the construction of the many bridges required.

55. Two other problems are of paramount importance: transportation and electric power. On every hand the same difficulties were met with. The lack of transport and the lack of electric power impinged upon practically every aspect of the work of the Region.

56. Political: No very definite developments took place during the month of July. Reports of activities of the Communist Party were received from TERRACINA and from the Province of VITERBO. In neither case was the movement very widespread though potential political tension exists in the numbers of Port workmen evacuated during German occupation from CIVITAVECCHIA to VETRALLA, TUSCANIA and other places in VITERBO Province. Similarly the serious unemployment problem in TERNI may have important political repercussions in the future.

57. Industry and Commerce: The paper manufacturing Industry in FROSINONE and ROME Provinces is being rehabilitated to supply newsprint, book and other papers sufficient for local consumption and will shortly be able to provide substantial exportable surpluses. Transportation of materials of construction and of raw materials to the plants makes progress slow. Several woollen mills, pasta factories, cement factories and a shoe factory are being resuscitated. Threshing proceeds slowly due to shortage of POL. Spoilage of grain will occur unless supplies of POL are made available more rapidly.

Declassified E.O. 12356 Section 3.3/NND No. 785017

58. Public Utilities: Survey of all generating facilities was made and necessary orders given to initiate repairs. Orders were issued rationing electricity and limiting it to essential users.

59. Postal: Services resumed in ROME, LITTORIA, and FROSINONE Provinces, limited to ordinary letter and P.C. mail not exceeding 210 grams weight. 872 Kgs. of POW mail was distributed.

60. Public Safety: Rapid strides have been made in the reorganisation of the Police Services, which as a result have regained confidence, and are taking a pride in their appearance. Their efficiency is good according to Italian standards. The prisons have been checked and there is no overcrowding. All courts are functioning and there is no delay in bringing prisoners to trial.

61. Public Health: The general health of the people remains the same as at the time of the last report. Malaria is still on the increase but this is to be expected. Typhoid has been reported in the VITERBO area but vaccine in sufficient quantities has been furnished.

62. Refugees: In the early part of the month there was a threatened wave of refugees from the AREZZO districts. On the whole, however, the local inhabitants "Stayed put" even in the battle areas. The main problem was the beginning of a cross surge of uncontrolled repatriation.

63. Opening of Schools: Practically all schools, elementary and secondary, have opened and are functioning in LITTORIA and FROSINONE Provinces - often under unbelievably difficult conditions in makeshift locations. In ROME, VITERBO and RIETI, schools have begun to function in a number of communes which had less than four months of schooling during the year, and the rest of such communes are rapidly being got ready to open schools.

REGION V (MARCHE, ABRUZZI E MOLISE)

64. After the first wild enthusiasm in the Northern Provinces following their liberation, the population remains favourably disposed to the Allies and appreciates the problems facing AMG in the new Provinces.

65. On the whole Italian Provincial Government has taken over administration fairly well. Some changes of Prefects and heads of Departments have been necessary and are to be anticipated from time to time.

66. The rationing system is felt to be unnecessarily rigid. CAMPOBASSO is on a higher cereal ration than other Provinces, which are all grain producers, and this discrimination is likely to affect the collection of grain and to render cereal rationing more difficult in the other Provinces.

67. Despite gloomy prophecies the harvest proceeded satisfactorily. Threshing is hindered by a shortage of POL, due partly to a reduction in deliveries and partly to transportation difficulties. However, it is hoped that the threshing will only be delayed and ultimately all the harvest will be dealt with.

68. Water supply is now generally satisfactory although the restoration of supply to PESCARA City was a particularly big problem. Everything possible is being done to complete repairs before winter sets in. Limited electricity for milling and essential needs is available.

Declassified E.O. 12356 Section 3.3/NND No. 785017

ing and there is no delay in bringing prisoners to trial.

61. Public Health: The general health of the people remains the same as at the time of the last report. Malaria is still on the increase but this is to be expected. Typhoid has been reported in the VITERBO area but vaccine in sufficient quantities has been furnished.

62. Refugees: In the early part of the month there was a threatened wave of refugees from the AREZZO district. On the whole, however, the local inhabitants "Stayed put" even in the battle areas. The main problem was the beginning of a cross surge of uncontrolled repatriations.

63. Opening of Schools: Practically all schools, elementary and secondary, have opened and are functioning in LITTORIA and FROSINONE Provinces - often under unbelievably difficult conditions in makeshift locations. In ROME, VITERBO and RIETI, schools have begun to function in a number of communes which had less than four months of schooling during the year, and the rest of such communes are rapidly being got ready to open schools.

REGION V (MARCHE, ABRUZZI & MOLISE)

64. After the first wild enthusiasm in the Northern Provinces following their liberation, the population remains favourably disposed to the Allies and appreciates the problems facing AMG in the new Provinces.

65. On the whole Italian Provincial Government has taken over administration fairly well. Some changes of Prefects and heads of Departments have been necessary and are to be anticipated from time to time.

66. The rationing system is felt to be unnecessarily rigid. CAMPOBASSO is on a higher cereal ration than other Provinces, which are all grain producers, and this discrimination is likely to affect the collection of grain and to render cereal rationing more difficult in the other Provinces.

67. Despite gloomy prophecies the harvest proceeded satisfactorily. Threshing is hindered by a shortage of POL, due partly to a reduction in deliveries and partly to transportation difficulties. However, it is hoped that the threshing will only be delayed and ultimately all the harvest will be dealt with.

68. Water supply is now generally satisfactory although the restoration of supply to PESCARA City was a particularly big problem. Everything possible is being done to complete repairs before winter sets in. Limited electricity for milling and essential needs is available.

69. Health is very satisfactory and an Italian malariologist has been appointed. Italian welfare organisations are functioning well.

70. Refugee Camps were opened during the month at ASCOLI, TERAMO and CHIETI. As elsewhere there has been an unauthorized movement of refugees which has caused considerable anxiety. A plan for billetting in the Communes is nearing completion and should help to arrest the movement South.

Declassified E.O. 12356 Section 3.3/NND No. 745017

71. In the Region's new Provinces practically all roads are open to traffic and the Italian civil engineering organization is being reorganized for their maintenance and repair.

72. Telephone and telegraph communications are so much damaged that it will be months before they can be restored. Every effort is being made to get the postal service operating, but the limitation of transport has its effect here.

REGION VI (SARDEGNA).

73. Recent incidents have revealed a tendency towards reprisals against ex-Fascists. Of particular note is the formation of "Action Squads" during a strike at NUORO. These "Action Squads" are somewhat reminiscent of the "Enforcers" of the Fascist regime.

74. The Christian Democratic Party continues to make constant progress. The Party is most active in fighting Communism and is strongly supported by the Clergy of the Island.

75. A new clandestine Fascist sheet has appeared in the latter part of the month. It is entitled "Repubblica Sociale" and is believed to be printed in CAGLIARI. The initial issue attempts to belittle the progress of the Allied Armies by stating that the invasion of Normandy has been a failure and that Allied claims in the Pacific are largely exaggerated. It also speaks of a new "secret weapon" which the Germans will soon bring to bear and which will change the entire course of the war.

76. Strikes took place at NUORO, CAGLIARI, IGLESIAS, and CARBONIA. The CARBONIA strike involved over 8,000 workers. The cause of the strike was :

(i) Protest against the black market and demands for authoritative control of prices.
(ii) Demands for increases in pasta and bread rations.
(iii) Demands for wage increases.

77. The food situation remains fairly satisfactory but the poor suffer considerably from the high prices of foodstuffs in the markets. The normal difficulties in regard to the supply of fresh produce to the population in the more densely populated areas obtained, due mainly to the lack of transportation and inadequate refrigeration facilities. Considerable supplies of fresh fish were available but distribution to the populated areas presented difficulties for the reasons just stated. The shortage of sugar and complete lack of olive oil is very much felt. A small consignment of olive oil is expected shortly from the mainland.

78. Thirty tons of soap has arrived for distribution to hospitals and other institutions. Two tons of caustic soda has also been imported and are being distributed to a soap factory in each of the three Provinces. This should make available a supply of soap to the general public for an estimated period of one month.

79. Orders have been received from Allied Military Authorities for 2,230 tons of various metal products from the metal mines in the IGLESIAS AREA. There is an exportable surplus of breathing and welding oxygen of between 300,000 and 400,000 cubic feet per month but caustic soda and cylinders would be needed if this oxygen was required outside SARDINIA.

Declassified E.O. 12356 Section 3.3/NND No. 785017

NUORO. These "Action Squads" are somewhat reminiscent of the "Enforcers" of the Fascist regime.

74. The Christian Democratic Party continues to make constant progress. The Party is most active in fighting Communism and is strongly supported by the Clergy of the Island.

75. A new clandestine Fascist sheet has appeared in the latter part of the month. It is entitled "Repubblica Sociale" and is believed to be printed in CAGLIARI. The initial issue attempts to belittle the progress of the Allied Armies by stating that the invasion of Normandy has been a failure and that Allied claims in the Pacific are largely exaggerated. It also speaks of a new "secret weapon" which the Germans will soon bring to bear and which will change the entire course of the war.

76. Strikes took place at NUORO, CAGLIARI, IGLESIAS, and CARBONIA. The CARBONIA strike involved over 8,000 workers. The cause of the strike was :

(i) Protest against the black market and demands for authoritative control of prices.
(ii) Demands for increases in pasta and bread rations.
(iii) Demands for wage increases.

77. The food situation remains fairly satisfactory but the poor suffer considerably from the high prices of foodstuffs in the markets. The normal difficulties in regard to the supply of fresh produce to the population in the more densely populated areas obtained, due mainly to the lack of transportation and inadequate refrigeration facilities. Considerable supplies of fresh fish were available but distribution to the populated areas presented difficulties for the reasons just stated. The shortage of sugar and complete lack of olive oil is very much felt. A small consignment of olive oil is expected shortly from the mainland.

78. Thirty tons of soap has arrived for distribution to hospitals and other institutions. Two tons of caustic soda has also been imported and are being distributed to a soap factory in each of the three Provinces. This should make available a supply of soap to the general public for an estimated period of one month.

79. Orders have been received from Allied Military Authorities for 2,230 tons of various metal products from the metal mines in the IGLESIAS AREA. There is an exportable surplus of breathing and welding oxygen of between 300,000 and 400,000 cubic feet per month but caustic soda and cylinders would be needed if this oxygen was required outside SARDINIA.

9.3

80. 288,300 fire bricks and 101 tons of refractory cement was shipped to the mainland for the Allied Forces and further supplies of the above are awaiting shipment.

81. The harvest has progressed normally though somewhat retarded by lack of supplies and materials. Practically no grain will be lost through failure to harvest. Crop yields are only about average due principally to lack of fertilizer.

82. As regards the Granai del Popolo the warehousing of grain began early in July at a slow rate increasing to about 4,000 qtls per day by the end of the month. Provincial Committees have proved valuable in planning but the Communal Committees vary from very good to poor.

0712

Declassified E.O. 12356 Section 3.3/NND No. 785017

83. Control is somewhat below a desirable standard due mainly to shortage of Carabinieri and guards, and to scarcity of transport.

84. Threshing has proceeded well but owing to lack of spare machinery parts, more than the usual amount of animal threshing is necessary with consequent reduced control. All grain was harvested without binder twine because the twine did not arrive in time. This, with the shortage of mechanical threshers and difficulty of transporting grain has accounted for relatively slow rate of collection.

85. Prospects for the olive harvest are good and should yield enough oil to meet Regional needs given adequate processing facilities.

86. The condition of roads remains satisfactory although secondary and inter-Communal highways are becoming increasingly worn to the extent of slowing up bus traffic, food distribution and mail deliveries.

87. The transfer of the work and maintenance formerly performed by the AA.SS to the Genio Civile is taking place.

88. The water situation generally continues satisfactory except that for CAGLIARI City which threatens to become critical about October next. The position is being closely watched particularly as this matter is of vital concern to the Allied Garrison.

89. The general health situation in SARDINIA is quite satisfactory. No medical supplies were received during the month but as existing supplies had not been exhausted the delay has so far caused no inconvenience. The primary morbidity rate of malaria with the exception of a few isolated areas, is still well below last year's figures for the corresponding period.

90. Road transportation continues to be hampered by lack of efficient vehicles and spare parts. It is considered however, that Italian officials are not organising existing resources to the best advantage.

91. Inflation is still a burning question but relatively the situation is calmer at the moment, probably due to more food being available. Money is still being deposited with the banks to a satisfactory degree, and revenue returns are increasing.

REGION VII (CALABRIA).

92. Owing to difficult supply position in July it was not possible to distribute the increase of 550 grams per week. However, as from 1st August 350 grams of pasta or flour per week will be distributed to those Communes which have had a satisfactory return of ration cards, and it is hoped that by August 15th the stock position will permit the introduction of the full scale of 550 grams flour or pasta per week.

93. Partly because of the price being too high, and partly because of differences in national diet, dehydrated soup, meats and stews do not go well, and the Consorzio Agrario are left holding large stocks. The black market price of tinned meat is lower than the official one.

94. The collection of olive oil has been proceeding slowly. Up to 31 July 23,600 quintals of oil had been shipped to NAPLES from REGGIO and CATANZARO Provinces.

95. There has been a gradual decline in black market prices which after all are a barometer of economic conditions. The reasons are several; first, the increased

Declassified E.O. 12356 Section 3.3/NND No. 763017

86. The condition of roads remains satisfactory although secondary and inter-Communal highways are becoming increasingly worn to the extent of slowing up bus traffic, food distribution and mail deliveries.

87. The transfer of the work and maintenance formerly performed by the AA.SS to the Genio Civile is taking place.

88. The water situation generally continues satisfactory except that for CAGLIARI City which threatens to become critical about October next. The position is being closely watched particularly as this matter is of vital concern to the Allied Garrison.

89. The general health situation in SARDINIA is quite satisfactory. No medical supplies were received during the month but as existing supplies had not been exhausted the delay has so far caused no inconvenience. The primary morbidity rate of malaria with the exception of a few isolated areas, is still well below last year's figures for the corresponding period.

90. Road transportation continues to be hampered by lack of efficient vehicles and spare parts. It is considered however, that Italian officials are not organising existing resources to the best advantage.

91. Inflation is still a burning question but relatively the situation is calmer at the moment, probably due to more food being available. Money is still being deposited with the banks to a satisfactory degree, and revenue returns are increasing.

REGION VII (CALABRIA).

92. Owing to difficult supply position in July it was not possible to distribute the increase of 550 grams per week. However, as from 1st August 350 grams of pasta or flour per week will be distributed to those Communes which have had a satisfactory return of ration cards, and it is hoped that by August 15th the stock position will permit the introduction of the full scale of 550 grams flour or pasta per week.

93. Partly because of the price being too high, and partly because of differences in national diet, dehydrated soup, meats and stews do not go well, and the Consorzio Agrario are left holding large stocks. The black market price of tinned meat is lower than the official one.

94. The collection of olive oil has been proceeding slowly. Up to 31 July 23,600 quintals of oil had been shipped to NAPLES from REGGIO and CATANZARO Provinces.

95. There has been a gradual decline in black market prices which after all are a barometer of economic conditions. The reasons are several; first, the increased price to grain growers and the consequent greater attraction of the Granai del Popolo scheme; secondly, the increased ration scale; and thirdly, the greater availability of seasonal vegetables and fruits in the market.

96. From a farmer's point of view the harvest is satisfactory both as to yield and quality, and harvesting is proceeding under ideal weather conditions. Collection, however, is another story. So far 83,000 quintals have been collected against a target figure of 290,000 quintals.

Declassified E.O. 12356 Section 3.3/NNB No. 785017

97. The principal source of fertilisers for the Region is the Montecatini Factory at CROTONE. This is ready to start production as soon as supplies of phosphate, due from North Africa early August arrive. Stocks of raw pyrites (obtained within the Region) are at a satisfactory level despite transport difficulties.

98. Owing to lack of transport stocks of wine are already very high. Storage of the new vintage will be difficult unless these stocks can be moved. Much economic hardship among the considerable proportion of the population connected with the industry is likely to result.

99. There have been five cases of smallpox at NICASTRO, limited to patients in the hospital there, where the original case contracted in NAPLES was treated. The Medico Provinciale has tightened quarantine measures.

100. There has been no movement of Refugees into the Region during the month. The lot of those already settled in Communes in the Region remains unenviable, and many are trying to return to their homes despite instructions issued by Prefects to the Sindaci that they are not to move without permission of the Italian Government.

ROME REGION.

101. At the end of the month ROME was absorbed into Region IV so that in future its activities will be reported on by that Region.

102. The administration of ROME has been attended by a mass of detail but generally speaking the month was without untoward incidents. Admittedly, the food ration is a bare minimum and consideration is being given to an increase at an early date. Through under-nourishment the people are restless and this is one of the reasons for the political situation being more tense.

103. As a measure of the supply problem of so large a city 7,986 tons of imported foodstuffs were distributed during the month. 93 tons went to soup kitchens and 99 tons to hospitals. These figures indicate a distribution of rationed foods of 164 grams per person per day, 160 grams of which was flour. This is 40 grams less than the amount decided upon and failure to supply the full scale was due to limitations of transportation. By the end of the month 172,400 meals per day were being served from soup kitchens and 51,000 in industrial kitchens.

104. Between 4,000 and 5,000 quintals of fresh vegetables and fruit were reaching the market daily by the end of the month.

105. The water supply, due to enemy action, continues to be unreliable and much work must be done before the autumn rains. Failure of temporary repairs has deprived certain areas in the city of water for periods of one to ten days.

106. Supply of electricity is also insecure. 400 tons of coal per day is necessary to maintain a reasonable output of current but only 250 tons are being received. Apart from this the unaccustomed use of standby steam driven generators brought another problem. The level of the Tiber fell so that water supplies for the condensers were endangered and a dam had to be built to step up the water level. Restrictions in the lighting supply has caused a heavy demand for candles which is being partly met by arrangements for increased local production. 50 grams per person per month will be available shortly.

Declassified E.O. 12356 Section 3.3/NND No. 785017

99. [illegible] the hospital there, where the original case contracted in NAPLES was treated. The Medico Provinciale has tightened quarantine measures.

Restrictions in the lighting supply has caused a heavy demand for candles which is being partly met by arrangements for increased local production. 50 grams per person per month will be available shortly.

107. - The incidence of crime is low and there is no serious trouble to report. One incident received publicity at the time and can be related. Allied soldiers held a dance to which Italian girls had been invited. A section of the male population resented this and when the girls left the hall the hair of one of them was cut off. Allied soldiers intervened and there was a clash between them and Italian civilians. Steps have been taken to avoid repetition of this incident by arranging for Carabinieri to patrol with Allied Military Police.

108. Health is satisfactory and there has been nothing in the nature of an epidemic. Hospitals are however badly administered.

Declassified E.O. 12356 Section 3.3/NND No. 785017

109. Several hundred escaped German prisoners have been rounded up as also have a large number of criminals released by the enemy from REGINA COELI Prison before retreating.

110. There are 40,000 registered unemployed at the present time. ROME has no industry worth mentioning so the influx of men unsettled by the course of events cannot be absorbed. Later when transportation becomes freer and rehabilitation schemes are organised there should be a considerable demand for labour.

111. Allied Courts disposed of 764 cases and referred 3000 to Italian Courts. The latter are falling into arrears and drastic action may soon be necessary.

112. Relations with the Church in welfare matters have been excellent and its assistance has been invaluable.

113. Bank deposits by the public increased by approximately 1079 million lire.

ITALIAN REFUGEE BRANCH.

114. Movement of Refugees:

(a) Received and dispersed by forward Corps Camps in Army areas - 17,867.
(b) Received in Main Transit Camps - 9,334.
(c) Dispersed through Main Transit Camps - 9,755.
(d) Dispersal from Main Transit Camps to Regions as follows :

Region I	-	110
" II	-	2636
" III	-	1149
" IV	-	4548
" V	-	866
Mis'cl.	-	446
Total:		9755

115. Main Camps:

(a) By July 1st, CAPUA and NAPLES Camps were closed.
(b) Most of AVERSA Camp was handed over to Int. & Displaced Persons Sub-Commission, Italian Refugee Branch retained a reduced staff to empty the camp of refugees.
(c) CESANO Camp was in full operation by the beginning of this period. The main difficulty was that the numbers of incoming refugees were nearly as great as the number of refugees dispersed, owing to transport difficulties.
(d) CINE CITTA Refugee Camp opened early in July. The chief difficulty being the lack of an adequate water supply.
(e) ROCCASECCA Camp was closed and transported to CINE CITTA Camp.
(f) FOGGIA Camp was closed and is now awaiting transport to move to ANCONA.
(g) Camps in ROME Area were declared the responsibility of ROME Area.

116. Transportation: Road transport from any source other than civilian sources has been extremely difficult to find. Rail transport has been used only for bringing refugees from :

(i) Railhead to ROME.
(ii) ORTONA to BARI.

Declassified E.O. 12356 Section 3.3/NND No. 785017

(i) Railhead to ROME.
(ii) ORTONA to BARI.

117. Dispersal Areas: Refugees in the South are restless. The authorities have failed to prevent them from treking North by every conceivable means of transport. The inevitable result being that NAPLES, and other cities are far beyond capacity. This movement has been encouraged by various unauthorised statements on the Italian radio and press, and by various authorities issuing unauthorised passes to refugees.

Declassified E.O. 12356 Section 3.3/NND No. 785017

INTERNEES AND DISPLACED PERSONS SUB-COMMISSION.

118. The main features of the month's activities were :

(a) The despatch of 983 Jewish refugees to the United States.
(b) The collection of approximately 600 Maltese for despatch to TRIPOLI in August.
(c) The opening of SANTA CESAREA as an Orphan Camp for about 1,000 children whose ages ranged from a few months to 14 years. The orphans were flown from Yugoslavia and were organised into groups of 25 under trained teachers.

119. A Childrens' Summer Centre at GIUGGI has been opened. Some 87 children of 7 nationalities have already been registered to spend from 14 days to two months, according to health requirements.

120. Food supplements on medical grounds have been supplied to 830 Allied Nationals weekly. ACC is supplying milk, meat, sugar and dried soup. An endeavour is being made to obtain from Army sources tea, cocoa, cornflour, custard powder and margarine.

121. Record Bureau: At the present time there are recorded in the Record Bureau a total of 40,000 displaced persons representing 56 nationalities. Of this number the location of 38,000 is known to the Record Bureau. 30,000 of them have been evacuated from Italy. Since arriving in ROME the Record Bureau has obtained information on 6,175 other persons. This includes displaced persons and other nationals who normally lived in ROME. It does not include a large group of other nationals who normally lived in the Vatican.

122. Repatriation: The movement of Jewish refugees to NAPLES for embarkation to the United States started on 9th July and persons began to arrive at the AVERSA Refugee Camp on 11th July. At AVERSA Camp, P.B.S. had set up a portable shower unit and a disinfector. All refugees went through these units and were then given a medical inspection by P.B.S. medical personnel who also vaccinated and inoculated where necessary. On 17th July all refugees were embarked and loading was completed that day.

123. Finance: During the month the finance officer's activities dealt with almost every conceivable financial problem that a refugee could present - letters of credit, foreign exchange, bank accounts in general and blocked bank accounts in particular, investment securities, relief funds, relief rates for ex-internees, advances for British and American Nationals, and conversion of currency for departing refugees. Arrangements were made for approximately one thousand Polish refugees to receive an emergency payment of an amount not to exceed four thousand lire each.

PATRIOTS BRANCH.

124. Formation of the Patriots Branch: Patriot bands which are many of them large and highly organised bodies, have been created in various centres of German occupied territory in Italy and have received considerable encouragement and active help and instructions from the Allied Command. It is therefore clearly one of our chief tasks to look after the individual members of these bands when their fighting is over and in this connection it has been laid down by A.A.I. that bands must not accompany the Armies forward out of their own

Declassified E.O. 12356 Section 3.3/NND No. 785017

of 7 nationalities have already been registered [illegible] according to health requirements.

120. Food supplements on medical grounds have been supplied to 830 Allied Nationals weekly. ACC is supplying milk, meat, sugar and dried soup. An endeavour is being made to obtain from Army sources tea, cocoa, cornflour, custard powder and margarine.

121. Record Bureau: At the present time there are recorded in the Record Bureau a total of 40,000 displaced persons representing 56 nationalities. Of this number the location of 38,000 is known to the Record Bureau. 30,000 of them have been evacuated from Italy. Since arriving in ROME the Record Bureau has obtained information on 6,175 other persons. This includes displaced persons and other nationals who normally lived in ROME. It does not include a large group of other nationals who normally lived in the Vatican.

122. Repatriation: The movement of Jewish refugees to NAPLES for embarkation to the United States started on 9th July and persons began to arrive at the AVERSA Refugee Camp on 11th July. At AVERSA Camp, P.B.S. had set up a portable shower unit and a disinfector. All refugees went through these units and were then given a medical inspection by P.B.S. medical personnal who also vaccinated and inoculated where necessary. On 17th July all refugees were embarked and loading was completed that day.

123. Finance: During the month the finance officer's activities dealt with almost every conceivable financial problem that a refugee could present - letters of credit, foreign exchange, bank accounts in general and blocked bank accounts in particular, investment securities, relief funds, relief rates for ex-internees, advances for British and American Nationals, and conversion of currency for departing refugees. Arrangements were made for approximately one thousand Polish refugees to receive an emergency payment of an amount not to exceed four thousand lire each.

PATRIOTS BRANCH.

124. Formation of the Patriots Branch: Patriot bands which are many of them large and highly organised bodies, have been created in various centres of German occupied territory in Italy and have received considerable encouragement and active help and instructions from the Allied Command. It is therefore clearly one of our chief tasks to look after the individual members of these bands when their fighting is over and in this connection it has been laid down by A.A.I. that bands must not accompany the Armies forward out of their own areas. The Patriots Branch of A.C.C. was formed early in July as a result of an instruction from A.A.I. and is responsible for all dealings with Resistance Groups as soon as the territory in which they have been operating is liberated by our troops, the main object being to ensure their return to normal civilian life as soon as possible.

125. Patriots, although mostly Italians, may be of any nationality, and are defined as being those in the ranks of genuine fighting bands who have carried arms, engaged in sabotage or secured important military information to the benefit of the Allied war effort.

Declassified E.O. 12356 Section 3.3/NND No. 759017

126. A pool of Italian patriot representatives has been formed to assist Allied officers who are concerned in identifying patriots and in handling patriot problems. Nine pairs of representatives (one each representing the C.L.N. Group and the Military Centre Group) have been despatched to Army areas and further teams are being organised for Regions.

127. It is the task of the Patriots Branch to direct the rehabilitation of all patriots in liberated territory, and to coordinate the policy of HQs AAI and ACC with regard to future operations in enemy territory. To this end a message in poster form signed by General Sir Harold ALEXANDER was designed and distributed in forward areas. A form of certificate of merit was prepared and approved at the same time and certificates have been sent to Regions and to the two Armies for distribution through the recognised "Band" leaders to individual patriots.

128. Handling of Patriots South of the Line: Plans have been drawn up for dealing with patriots. Although many are used for a short while by the Army in their own area as guides and as patrols and for reconnaissance work, the intention generally is to direct nearly all of them into civil life. About 50% return to their own homes and occupation locally. Of the remainder some will be used for police duties or as drivers, others will be employed on engineering work, and on mine clearance; and arrangements have been made for recruiting and passing back volunteers for service in the Italian Army and Air Force. Communal Committees are being set up to assist Provincial Commissioners in this work, and to help weed out bogus applicants among the genuine patriots. The problems of collecting and disposing of the patriots' arms is in hand. The arms will be used for future operations as directed by AAI.

129. Information and Publicity: Reports are being received from Patriot representatives and from the leaders of the patriot bands. Information from these reports is extracted and passed on when relevant, for use by P.R.O., P.W.B. and the press. Italian newspapers are closely scrutinised. Information is being collected about conditions in enemy occupied territory in order that suitable plans can be made for handling patriot problems in that territory when it is liberated.

130. Italian Liaison: Liaison is maintained with the Italian Ministry of War through an Italian senior officer who is responsible for coordinating the work of the Groups which are recognized - the C.L.N. Group and the Military Centre Group.

131. Policy: Directives have been issued as required in agreement with AAI and other authorities. It is fair to say that the task of ensuring that these directives are acted upon by all Allied officers concerned and by the leaders of the patriot bands is well in hand. The broad political aspect of the patriot problems has been borne constantly in mind, and very close liaison is being maintained with those Allied officers and officials who are concerned with the political future in Italy.

PART II.

ECONOMIC SECTION.

LABOUR SUB-COMMISSION.

1. Labour Relations, Laws and Regulations.

(a) Petitions and threats of work stoppage received by this office on the following: Postal Telegraph, railways, tobacco, provincial employees. The above were presented to the Ministry with policy that such could be considered by ACC when presented properly by the Italian Government.

(b) Agreement reached for sulphur mine wage and working conditions in joint conference with Industry Sub-Commission and the Ministry.

(c) A request for approval of unauthorised wage increases in the Tosi Dock-yards was left with this Sub-Commission at a conference held in the office of the Minister. The following regulations or procedures were offered:

(i) uniform interpretation of wage increase order;
(ii) required procedure for submission or requests for wage changes;
(iii) plan for the uniform study of wages throughout Italy.

(d) The following laws in draft were submitted to this Sub-Commission for approval:

(i) Suppression and Liquidation of Fascist Confederations;
(ii) arbitration by Labour Offices or Ispettorato of disputes arising from wage increase order of 7.December.1943.

(e) The general "Labour Charter" was found not acceptable by the new Ministry.

2. Wages and Hours and Working Conditions.

(a) Food ration in Rome Area was increased, still not satisfactory.

(b) Price of wheat and cost of bread held to a minimum.

3. Social Insurance, Benefits and Training.

(a) Desire indicated by the Ministry for new appointment of Commissario of Previdenza Sociale, Malattia and Infortuni.

(b) Provision of Proclamation No.4 prohibiting payment of family allowances to dependents of the military, POW's and workers in Germany rescinded by ACC, and only allowances to the dependents of those working for the enemy were prohibited.

4. Statistics, Manpower and Registration Problems.

(a) A tentative plan was approved and is being put into force in Rome for the comparative study of industrial wages in Italy.

(b) A collection made of weekly budgets of 12 familes; later extended to 100 families for a period covering several weeks.

5. Region II Summary. The following disputes were settled satisfactorily:

Declassified E.O. 12356 Section 3.3/NND No. 785017

(b) A collection made of weekly budgets of 12 familes; later extended to 100 families for a period covering several weeks.

5. Region II Summary. The following disputes were settled satisfactorily:

(a) sit down strike at S.G.P.E., Bari;

(b) political strike of a few hours duration in Taranto dockyard.

6. Region IV Summary.

(a) Order issued in Rome by SCAO 5 Army recognising increases over collective wages in effect 1 September 1942.

(b) Social security agencies established in Rome under policy of Labour Sub-Com.

7. Region VII Summary. Labour dispute pending involving the Societa Elettricita delle Calabria. The employees demanding same adjustment as in S.M.E.

Declassified E.O. 12356 Section 3.3/NND No. 785017

FINANCE SUB-COMMISSION.

8. The Finance Sub-Commission has undertaken a comprehensive programme to defascistize Italian financial institutions. 130 officials and other personnel have been suspended from the Banca d'Italia, the Royal Mint, Istcambi, Banco di Roma, I.R.I., I.M.I., Credito Italiano, Banco Commerciale Italiano, Banca Nazionale del Lavoro, and other organisations.

9. As nearly as can be estimated at this time, the Italian governmental deficit for the year ending 30 June 1944, amounted to approximately 180 billion lire. This figure includes German occupation expenses but does not include 30 billion lire of Allied occupation expenses. Thus the total excess of disbursements over income on "government account" is well over 200 billion lire for the year, or about 2½ times the enormous deficit of the preceding fiscal year.

10. Net investment in Governmental bills (Buoni del Tesoro Ordinarii) in Southern Italy during June remained at about the same level as the preceding month (a net investment of 362 million lire). The total net investment for the year in these territories amounted to around 2.5 billion lire, that is, less than 10 per cent of the deficit. The bulk of the deficit of 34 billion lire was covered by funds supplied by the Banca d'Italia.

11. Until this year the Conserzii, on receiving wheat, have issued paper accepted by the provincial group of participating banks. After sale of the flour to the millers at a much lower price, the Consorzii repaid the participating banks to the extent of the proceeds of sales. The balance, representing the subsidy and the operating costs of the amassing system, were guaranteed by the Government and bore interest ranging from 6 to 7½% until they were liquidated at the end of the fiscal year. Actually these balances have not been liquidated since 1940 so that the financing of the last four crop years has been drawing a high rate of interest. After conference with the Ministries of Agriculture and Treasury, the Banca d'Italia and the Corte dei Conti, this system has been changed. The Consorzii have been instructed to submit budgets for operating expenses and will obtain funds as do other governmental agencies, without payment of interest. All participating banks have been instructed to present claims for the custanding balances of past years for immediate payment, thus ending this interest burden. All participating banks have been instructed to present all balances of the current crop year for payment at a reduced interest rate of 6 per cent, at the end of each thirty day period, thus cutting the effective interest rate on this year's crop to one-half of one per cent.

12. Delay has been encountered in implementing the directive laid down in ES 41. This document states that local subsidies shall be provided to finance the same of imported supplies wherever such supplies cannot otherwise be sold at not more than a 25 per cent increase over the wholesale price listed in the directive. The delay was caused by the objection of the Ministry of the Treasury to the principle involved. However, the Minister of the Treasury has now instructed the Minister of the Interior to authorise the provincial officials to provide the subsidies required. A decree has been prepared providing 400 million lire for this purpose.

13. Sometime ago the CCS was duly authorised to explore, on behalf of the Italian Government, the production of non-military lire currency by the fastest possible means, since currency conversion, which is an integral part of the Italian Stabilization and Inflation Control Programme, is considered essential to the economic rehabilitation and political resurgence of Italy. Plans for such production are proceeding and in view of all the obstacles, considerable progress may be said to have been made.

Discussions are under way for the production in the United States of the 50

Declassified E.O. 12356 Section 3.3/NND No. 785017

10. Net investment in Governmental bills (Buoni del Tesoro Ordinarii) in Southern Italy during June remained at about the same level as the preceding month (a net investment of 362 million lire). The total net investment for the year in these territories amounted to around 2.5 billion lire, that is, less than 10 per cent of the deficit. The bulk of the deficit of 34 billion lire was covered by funds supplied by the Banca d'Italia.

11. Until this year the Conserzii, on receiving wheat, have issued paper accepted by the provincial group of participating banks. After sale of the flour to the millers at a much lower price, the Consorzii repaid the participating banks to the extent of the proceeds of sales. The balance, representing the subsidy and the operating costs of the amassing system, were guaranteed by the Government and bore interest ranging from 6 to 7½% until they were liquidated at the end of the fiscal year. Actually these balances have not been liquidated since 1940 so that the financing of the last four crop years has been drawing a high rate of interest. After conference with the Ministries of Agriculture and Treasury, the Banca d'Italia and the Corte dei Conti, this system has been changed. The Consorzii have been instructed to submit budgets for operating expenses and will obtain funds as do other governmental agencies, without payment of interest. All participating banks have been instructed to present claims for the oustanding balances of past years for immediate payment, thus ending this interest burden. All participating banks have been instructed to present all balances of the current crop year for payment at a reduced interest rate of 6 per cent, at the end of each thirty day period, thus cutting the effective interest rate on this year's crop to one-half of one per cent.

12. Delay has been encountered in implementing the directive laid down in ES 41. This document states that local subsidies shall be provided to finance the same of imported supplies wherever such supplies cannot otherwise be sold at not more than a 25 per cent increase over the wholesale price listed in the directive. The delay was caused by the objection of the Ministry of the Treasury to the principle involved. However, the Minister of the Treasury has now instructed the Minister of the Interior to authorise the provincial officials to provide the subsidies required. A decree has been prepared providing 400 million lire for this purpose.

13. Sometime ago the CCS was duly authorised to explore, on behalf of the Italian Government, the production of non-military lire currency by the fastest possible means, since currency conversion, which is an integral part of the Italian Stabilization and Inflation Control Programme, is considered essential to the economic rehabilitation and political resurgence of Italy. Plans for such production are proceeding and in view of all the obstacles, considerable progress may be said to have been made.

Discussions are under way for the production in the United States of the 50 and 100 denomination notes representing 75% of the total quantity of the new currency contemplated. It is hoped that with production of the large denomination notes (500's and 1000's) in Italy and the small denomination notes (50's and 100's) in the U.S., the total amount of currency required will be produced within 6 to 7 months. Lengthy discussions have been held with officials of the Italian Ministry of the Treasury and of the Banca d'Italia on this matter and every effort is being made to produce the required amount of currency by 15 February, 1945.

14. On 29th July, Niccolo Introna, Deputy Director General, was named by the Council of Ministers as Commissioner of the Banca d'Italia, and Ameeto Pettinari, Director of the Bari and Naples branches, as Vice Commissioner. Arture Atti, the

Commissioner...../

Declassified E.O. 12356 Section 3.3/NND No. 783017

Commissioner named last winter for Southern Italy, died during July. Introna, the new Commissioner, is a career man, having been with the Banca d'Italia from its foundation. Pettinari was the Vice-Commissioner in Southern Italy and continues in the same post. Vincenzo Azzolini, the former Governor, has now been imprisoned by the Italian Government.

15. During July a decision was taken by the Council of Ministers to place the supervision of banking institutions under the Ministry of the Treasury. In accordance with this decision, the Inspectorate (Ispettorate per la Difesa del Risparmio e l'esercizio del credito) which is charged with credit control has been assigned to the Treasury. At the same time, the industrial financing organisation of the government, I.M.I. (Instituto Mobiliare Italiano) was also put under the Treasury.

16. The Treasury has also made strenuous attempts to secure control of I.R.I. (Istituto per la Ricostruzione Industriale), the financial holding company of the Government. I.R.I. owns the three biggest commercial banks in the country and the largest part of the key heavy and armament industries of Italy. Were the control of I.R.I. to pass to the Treasury, this Ministry would literally be able to decide the economic future of Italy. The Finance Sub-Commission's adviser to I.R.I. has made arrangements to re-activate the organisation. A team consisting of a representative each from the Ministry of Finance, Onofrio Pompucci, and the Ministry of the Treasury, Sergio Fortis, who are technically competent and work well together, have been put in as temporary heads until the government can come to a final decision as to the control of I.R.I. The most probable outcome is that the Board of Directors of I.R.I. will consist of a sufficient number of Ministers or their representatives to give representation to the major national economic and political interests. The actual operation of I.R.I. would be conducted by a technician as managing director within the lines of general policy laid down by the Board.

FOOD SUB-COMMISSION.

17. Supplies.

(a) In July the main problem was the movement of supplies from base to forward areas. To meet the demands for food in the forward areas, Food Sub-Commission warehouses were opened at the Ports of CIVITAVECCHIA and PIOMBINO, and inland at ORVIETO and SIENA.

(b) 11,614 tons of imported supplies were delivered to ROME during the month, again after constant struggles for all forms of transport. Supplies for AMG Fifth and Eighth Armies have involved long road hauls from CIVITAVECCHIA to SIENA for AMG Eighth Army and to CECINA for AMG Fifth Army. In addition to the maintenance requirements, 15 days supplies have been built up for the City of FLORENCE. An added strain has been thrown on to SIENA depot by reason of the cessation of the mills in AREZZO through lack of POL to mill grain.

(c) The movement of locally produced grain constitutes a daily problem. Difficulty was experienced in moving it from FOGGIA to MATERA to less productive areas, deficiency of railcars being the bottleneck. Despite a surplus of 40,000 tons waiting to be moved from MATERA, imported grain had to be used to avoid a complete breakdown in the supply programme in LECCE and BRINDISI.

Declassified E.O. 12356 Section 3.3/NND No. 785017

ation of the government, I.M.I. (Instituto Mobiliare Italiano) was also put under the Treasury.

16. The Treasury has also made strenuous attempts to secure control of I.R.I. (Istituto per la Ricostruzione Industriale), the financial holding company of the Government. I.R.I. owns the three biggest commercial banks in the country and the largest part of the key heavy and armament industries of Italy. Were the control of I.R.I. to pass to the Treasury, this Ministry would literally be able to decide the economic future of Italy. The Finance Sub-Commission's adviser to I.R.I. has made arrangements to re-activate the organisation. A team consisting of a representative each from the Ministry of Finance, Onofrio Pompucci, and the Ministry of the Treasury, Sergio Fortis, who are technically competent and work well together, have been put in as temporary heads until the government can come to a final decision as to the control of I.R.I. The most probable outcome is that the Board of Directors of I.R.I. will consist of a sufficient number of Ministers or their representatives to give representation to the major national economic and political interests. The actual operation of I.R.I. would be conducted by a technician as managing director within the lines of general policy laid down by the Board.

FOOD SUB-COMMISSION.

17. Supplies.

(a) In July the main problem was the movement of supplies from base to forward areas. To meet the demands for food in the forward areas, Food Sub-Commission warehouses were opened at the Ports of CIVITAVECCHIA and PIOMBINO, and inland at ORVIETO and SIENA.

(b) 11,614 tons of imported supplies were delivered to ROME during the month, again after constant struggles for all forms of transport. Supplies for AMG Fifth and Eighth Armies have involved long road hauls from CIVITAVECCHIA to SIENA for AMG Eighth Army and to CECINA for AMG Fifth Army. In addition to the maintenance requirements, 15 days supplies have been built up for the City of FLORENCE. An added strain has been thrown on to SIENA depot by reason of the cessation of the mills in AREZZO through lack of POL to mill grain.

(c) The movement of locally produced grain constitutes a daily problem. Despite a surplus of 40,000 tons waiting to be moved from MATERA, imported grain had to be used to avoid a complete breakdown in the supply programme in LECCE and BRINDISI.

18. Food Processing. Allocation of the tomato paste pack of 21,550 tons was made to 22 plants in the NAPLES-SALERNO area. Allocation to these plants was based on their location in relation to the areas of tomato production to economise in transport. The yeast factory in ROME is being restarted with an output of three tons per day. Conferences have been held in ROME with directors of 11 processing plants in Northern Italy, to plan for their rehabilitation as soon as possible after liberation.

Declassified E.O. 12356 Section 3.3/NND No. 785017

19. Rationing. The increase in the basic ration from 200 grammes to 300 grammes of flour for all normal consumers in South Italy, Sicily and Sardinia became effective 1 July. The overall Heavy Workers entitlement was maintained at the June level however, necessitating a re-adjustment in the value of the supplementary ration cards "A" and "B". Owing to the late harvest in Sardinia and the insufficiency of supplies due to erroneous stock reports, delay in issue of increased rations was inevitable.

20. Warehousing and Forwarding Division. This division has been set up under the Food Sub-Commission to deal with the warehousing and forwarding of all supplies, including Food, Agricultural, Industrial and Medical Supplies and has assumed full operating responsibilities.

21. General. Important discussions have been held with Finance Sub-Commission in preparing plans for setting up a Government Department for handling all accounting for all imported supplies. Estimates have been prepared and submitted to AFHQ covering the total requirements for the whole of Italy, Sicily and Sardinia for a three monthly period October to December 1944 and a first monthly period October to February 1945.

TRANSPORTATION SUB-COMMISSION.

Railways.

22. Considerable progress has again been made in forward railheads, but the rapid military advance caused a distribution problem, which could only be met by combined efforts of rail, road and water. The nature of Military requirements has severely limited tonnage available for ACC on the two rail routes NAPLES - ROME, opened during the month, but fullest cooperation and assistance has been given by Army Movements during difficult circumstances.

23. In Southern Italy, Reggio Calabria Railway Division has been handed over to ACC for supervision, and plans are in hand for the training of other ACC personnel in methods of supervising Italian railroad operation, in order to facilitate conversion from purely military to civil administration. Grain traffic emanating from Matera, Potenza and Bari Provinces has been satisfactorily dealt with, and NAPLES area continued to move large tonnages, including a glut of potatoes.

24. Continued review of railways not in use for military purposes is maintained, and experienced railway engineers are examining the feeder private railways to ROME and the railways connecting valuable lignite mines with the main railway routes. Thanks are due to the Director General of Military Railway Services for continued and ready help.

Roads.

25. Roads Section has reorganized and expanded to cover increasing responsibilities. Sub-Sections have been established as follows :

1. Administration.

Declassified E.O. 12356 Section 3.3/NNU No. 785017

20. Warehousing and Forwarding Division. This division has been set up under the Food Sub-Commission to deal with the warehousing and forwarding of all supplies, including Food, Agricultural, Industrial and Medical Supplies and has assumed full operating responsibilities.

21. General. Important discussions have been held with Finance Sub-Commission in preparing plans for setting up a Government Department for handling all accounting for all imported supplies. Estimates have been prepared and submitted to AFHQ covering the total requirements for the whole of Italy, Sicily and Sardinia for a three monthly period October to December 1944 and a five monthly period October to February 1945.

TRANSPORTATION SUB-COMMISSION.

Railways.

22. Considerable progress has again been made in forward railheads, but the rapid military advance caused a distribution problem, which could only be met by combined efforts of rail, road and water. The nature of Military requirements has severely limited tonnage available for ACC on the two rail routes NAPLES - ROME, opened during the month, but fullest cooperation and assistance has been given by Army Movements during difficult circumstances.

23. In Southern Italy, Reggio Calabria Railway Division has been handed over to ACC for supervision, and plans are in hand for the training of other ACC personnel in methods of supervising Italian railroad operation, in order to facilitate conversion from purely military to civil administration. Grain traffic emanating from Matera, Potenza and Bari Provinces has been satisfactorily dealt with, and NAPLES area continued to move large tonnages, including a glut of potatoes.

24. Continued review of railways not in use for military purposes is maintained, and experienced railway engineers are examining the feeder private railways to ROME and the railways connecting valuable lignite mines with the main railway routes. Thanks are due to the Director General of Military Railway Services for continued and ready help.

Roads.

25. Roads Section has reorganised and expanded to cover increasing responsibilities. Sub-Sections have been established as follows :

1. Administration.
2. Operations.
3. Accounting.
4. Maintenance.
5. Inspections.
6. Supply of Spare Parts.
7. Tyres.

26. Transport requirements exceed availability. In February, AFHQ authorized 1000 trucks. To-date, 922 have been received. In May ACC submitted a further requisition for 2000 trucks. None have yet been received.

Declassified E.O. 12356 Section 3.3/NND No. 785017

27. ACC plan to use all available civil transport. Companies have been formed in most Provinces. They operate on standard Tariff Rates published by the Italian Government. Companies are charged for gasoline, oil, parts, and operating expenses, balance being credited to Company. Where military vehicles are used by civilian companies, same rates are charged for haulage: any excess o over expenditure is credited to ACC. About 3000 trucks, civilian and military, are operating under this scheme, which is working very satisfactorily.

28. Spare parts, and especially tyres, are a problem. No part of ACC requisition for tyres to AFHQ in June has yet been supplied.

29. A few miscellaneous tyres have been received, and ACC are repairing C - 1 tyres in various plants under their control. Inner tubes are urgently needed. A supply of tyres and batteries would enable ACC to place 50% more civilian transport on the road.

Water.

30. During July urgently needed supplies for ROME [illegible] were arranged. Coasters for special goods were arranged. On July 18 a new instruction for schooners was issued by MEDBO, by which all civil bids were required at a weekly Schooner Committee Meeting. As this reversal of ACC arrangements could not be made at once, an allotment for August of 1260 long tons (nearly all schooners under 50 tons) was made. These schooners to be operated by COCENA, not under ACC supervision but to carry ACC and civil goods. As far as possible with this limitation of authority the existing scheme of ACC Tn. Shipping Memo No.1 is being operated until September. A review of all schooner needs, Service, ACC and civil, has been ordered prior to a September allotment according to needs.

Coal.

31. The month opened and closed with the problem of the supply of coal for ROME, but great efforts enabled the Power Stations to operate although difficulties remain. Proposals to bring coal to FIUMICINO and CIVITAVECCHIA are being considered. It is intended to repair the rail connections to RIBOLLA and PIETRAFITTA Lignite Mines, with their stocks of over one hundred thousand tons.

32. Conferences have taken place with members of Italian State Railways with a view to their taking over the discharge, handling and distribution of coal in parts of Italy. The Government is considering the prices of coal and coke.

PUBLIC WORKS AND UTILITIES SUB-COMMISSION.

33. The month of July proved the soundness of the reorganisation. Relations with the Ministry of Public Works have improved. In the field staff distribution still appears to be almost insoluble but the proposed amalgamation of the Southern Regions and the subsequent handing of responsibility to the Italian authorities will ease the position considerably.

Declassified E.O. 12356 Section 3.3/NND No. 785017

29. A few miscellaneous tyres have been received, and ACC are repairing C - 1 tyres in various plants under their control. Inner tubes are urgently needed. A supply of tyres and batteries would enable ACC to place 50% more civilian transport on the roads.

Water.

30. During July urgently needed supplies for ROME [illegible] Coasters for special goods were arranged. On July 16 a new instruction for schooners was issued by MEDBO, by which all civil bids were required at a weekly Schooner Committee Meeting. As this reversal of ACC arrangements could not be made at once, an allotment for August of 1260 long tons (nearly all schooners under 50 tons) was made. These schooners to be operated by COGENA, not under ACC supervision but to carry ACC and civil goods. As far as possible with this limitation of authority the existing scheme of ACC Tns Shipping Memo No.1 is being operated until September. A review of all schooner needs, Service, ACC and civil, has been ordered prior to a September allotment according to needs.

Coal.

31. The month opened and closed with the problem of the supply of coal for ROME, but great efforts enabled the Power Stations to operate although difficulties remain. Proposals to bring coal to FIUMICINO and CIVITAVECCHIA are being considered. It is intended to repair the rail connections to RIBOLLA and PIETRAFITTA Lignite Mines, with their stocks of over one hundred thousand tons.

32. Conferences have taken place with members of Italian State Railways with a view to their taking over the discharge, handling and distribution of coal in parts of Italy. The Government is considering the prices of coal and coke.

PUBLIC WORKS AND UTILITIES SUB-COMMISSION.

33. The month of July proved the soundness of the reorganisation. Relations with the Ministry of Public Works have improved. In the field staff distribution still appears to be almost insoluble but the proposed amalgamation of the Southern Regions and the subsequent handing of responsibility to the Italian authorities will ease the position considerably.

9434 - Owing to the recent advance the work of the Sub-Commission has increased some ten times.

35. The Pontine Marshes besides being a responsibility of this Sub-Commission is now a cause for concern to Public Health for anti-malarial measures are held up owing to difficulties of finance.

36. Town planning, transport maintenance, material supplied by the Allies, payment of road gangs were all discussed with the Italian authorities. By degree the AASS, the Fascist highway organization, has been dissolved.

Declassified E.O. 12356 Section 3.3/NND No. 785017

37. Complying with Italian Ministry practice the Sub-Commission is prepared to organise ship salvage.

38. Many hundreds of bridges have been destroyed. Repairs to forty one were begun in July, of which 22 were in Regions III and IV. Bridges and highway contracts in hand involved a total of some 500 million lire. Transport for road maintenance improved slightly but the POL situation deteriorated jeopardising supplies to civilian contractors. Plans to deal with the situation were made in consultation with Pet. Sec. AFHQ. Materials are short with the additional embarrassment that they are mainly in the hands of firms closely associated with the old regime.

39. Electricity Staff has now the addition of a number of Italian experts. Power plants are now being cleared of debris and examined. The position is not encouraging for only some 5% of 600,00 Kw of power can be made available by first aid methods as against a total loss of some 90%. It must be emphasised that whereas ACC was not to indulge in long term planning a short term policy with regard to power is of no use at all. Complete rehabilitation alone is feasible and that would take from one to three years. It may be that certain machinery may have to be imported but the possibilities of the north are not being overlooked. Small portable plants are being requisitioned. Power in Southern Italy is in complete control and a rationing scheme for ROME now in practice. The Electrical Reconstruction Committee Italy has been formed under A&I to supersede the Central Electricity Board to coordinate Military and civil requirements. The dissolution of the C.E.B. has thrown a heavy burden on the Sub-Commission.

40. In Region I, Messina is 75% cleared and bridge building is being pushed forward to release Bailey Bridges to the Army. In Region II quarries have been reopened and a satisfactory state exists with regard to highways which is true also of Region III in its heavy programme. In Region IV the electricity position is serious with only 5% supplies available, while water supply constitutes a serious problem, affecting the City of Rome. A dam to raise the level of the Tiber has been completed to assist operation of the City Power Stations. Region VII has a drought which has affected the power situation. Elsewhere affairs are satisfactory with the usual emphasis on electricity without which the country will not come to life.

AGRICULTURE SUB-COMMISSION.

Reconstruction of Italian Agriculture Forestry and Fisheries Control.

41. Rather slow progress has been made during the month in getting the Ministry of Agriculture to strengthen its control. Many of the senior officials went North with the Republican Government, and some of those remaining in ROME are regarded with suspicion, and have not as yet been called back into service. Forestry and Fisheries Directorates are taking shape fairly rapidly; the former by building up staff under the acting chief who came with the Ministry from Salerno, and the latter by the dissolution of the Commissariato Generale per la Pesca (a Mussolini creation 1939). Fisheries control is now being transferred to a Directorate in the Ministry building.

42. The aim of every officer in this Sub-Commission, and of every Agricultural officer in the field, is to work himself out of a job at the first opportunity from south to north; to this end everything possible is being done to energise

Declassified E.O. 12356 Section 3.3/NND No. 785017

39. Electricity Staff has now the addition of a number of Italian experts. Power plants are now being cleared of debris and examined. A dam to raise the level of the Tiber has been completed to assist operation of the City Power Stations. Region VII has a drought which has affected the power situation. Elsewhere affairs are satisfactory with the usual emphasis on electricity without which the country will not come to life.

AGRICULTURE SUB-COMMISSION.

Reconstruction of Italian Agriculture Forestry and Fisheries Control

41. Rather slow progress has been made during the month in getting the Ministry of Agriculture to strengthen its control. Many of the senior officials went North with the Republican Government, and some of those remaining in ROME are regarded with suspicion, and have not as yet been called back into service. Forestry and Fisheries Directorates are taking shape fairly rapidly; the former by building up staff under the acting chief who came with the Ministry from Salerno, and the latter by the dissolution of the Commissariato Generale per la Pesca (a Mussolini creation 1939). Fisheries control is now being transferred to a Directorate in the Ministry building.

42. The aim of every officer in this Sub-Commission, and of every Agricultural officer in the field, is to work himself out of a job at the first opportunity from south to north; to this end everything possible is being done to energise the Italian officials and to improve Italian control. Accordingly intensive work has continued on a complete programme and plan for Italian agriculture 1944-45, and in connection therewith a complete and detailed estimate of farm input requirements (fertilizers, insecticides, seeds etc.) for the coming crop year is also in course of compilation. As an aid towards completing these plans and in passing executive duties to the Italians, a seventy-five page booklet "Re-activation of Italian Agriculture" has been compiled and is being circulated to Allied Officers and to Italian officials. It is printed in English and

Declassified E.O. 12356 Section 3.3/NNB No. 785017

Italian and will reach every Commune as close to the front line as possible. It contains all basic memoranda, decrees, ministerial directives and other official releases concerning organizations and programmes as agreed upon by the Italian Minister of Agriculture and the Agriculture Sub-Commission.

Agriculture.

43. Two new Decrees came into force:

(i) On control of threshing;
(ii) On penalties for grain delivery violation - strengthening the hands of legal authorities.

44. Progress of the crop collection (Granai del Popolo scheme) is retarded by shortage of fuel for threshing and of transport. Greater opportunity is therefore given for disposal by illegal methods, but nevertheless good progress is being made in many areas; indeed in some provinces the collection is ahead of the same period in years under Fascist control.

45. Purchase and stockpiling of many types of vegetable seeds and field seeds for export to Allied nations continued throughout the months.

Forestry.

46. A plan for the production, allocation and transportation of charcoal and fuel wood for all southern Italy under Italian Government control, has been prepared and distributed. A similar plan is in preparation for the rest of the country.

Fisheries.

47. Production is showing notable increases. Preservation of fish in oil and salt is progressing to such an extent that considerable exports could now easily be made both from Sicily and Sardinia. Permission for night fishing as far north as FIUMICINO has been obtained. Except for the port of NAPLES, and a few other restricted areas, the night fishing method (LAMPARA) - probably the most productive in Italy - is being practiced all over the west coast from FIUMICINO to REGGIO CALABRIA, around the Sicilian coast and along certain coastal areas of Sardinia.

INDUSTRY SUB-COMMISSION.

48. The current month has seen the divorce of Industry from Commerce Sub-Commission, and it is hoped that a greater concentration on essentials will be possible.

49. A scheme for the reactivation of Industry on a priority basis, to be undertaken by the Ministry of Industry, has been drawn up. This scheme provides for the establishment within the Ministry of an Industry Advisory Board, which will cover the entire industrial field.

94 60. - The liberation of large areas of territory has uncovered a considerable [illegible] to the Italian national economy, and reconnaissance

Declassified E.O. 12356 Section 3.3/NND No. 785017

(i) On control of threshing.

(ii) On penalties for grain delivery violation - strengthening the hands of legal authorities.

44. Progress of the crop collection (Granai del Popolo scheme) is retarded by shortage of fuel for threshing and of transport. Greater opportunity is therefore given for disposal by illegal methods, but nevertheless good progress is being made in many areas; indeed in some provinces the collection is ahead of the same period in years under Fascist control.

46. A plan for the production, allocation and transportation of charcoal and fuel wood for all southern Italy under Italian Government control, has been prepared and distributed. A similar plan is in preparation for the rest of the country.

Fisheries.

47. Production is showing notable increases. Preservation of fish in oil and salt is progressing to such an extent that considerable exports could now easily be made both from Sicily and Sardinia. Permission for night fishing as far north as FIUMICINO has been obtained. Except for the port of NAPLES, and a few other restricted areas, the night fishing method (LAMPARA) - probably the most productive in Italy - is being practiced all over the west coast from FIUMICINO to REGGIO CALABRIA, around the Sicilian coast and along certain coastal areas of Sardinia.

INDUSTRY SUB-COMMISSION.

48. The current month has seen the divorce of Industry from Commerce Sub-Commission, and it is hoped that a greater concentration on essentials will be possible.

49. A scheme for the reactivation of industry on a priority basis, to be undertaken by the Ministry of Industry, has been drawn up. This scheme provides for the establishment within the Ministry of an Industry Advisory Board, which will cover the entire industrial field.

94 50. - The liberation of large areas of territory has uncovered a considerable number of plants of importance to the Italian national economy, and reconnaissance of factories as far north as LEGHORN has been made.

51. The gravest problem, which confronts Italian industry is the wholesale destruction by the enemy of generating stations, priority has been given to a survey of their condition, as upon them will depend the possibility of operating the plants which they supply.

6

0 7 3 5

Declassified E.O. 12356 Section 3.3/NND No. 785017

52. Surveys have therefore been made of the imprtant heavy industrial plants at TERNI, with particular reference to the hydroelectric power stations, including the giant Galleto Unit and the Valdarno Generating Station at NERA MONTORO. It is considered that with the exception of last mentioned, their repair will be a long term project, and the industries dependent upon them will consequently be paralysed until repair is made.

53. Other surveys have been made covering chemical industries, including the extensive Solvay and Anieme Plants at ROSIGNANO, rubber processing plants of the Pirelli Company, and additional fertilizer production possibilities in Central Italy.

54. The chief extile manufacturing districts are still behind the enemy lines, and no substantial addition has therefore been made to productive capacity in liberated Italy. As in other industries one of the greatest obstacles to resumption will be lack of power, followed closely by lack of raw materials, upon the importation of which the Italian textile industries have always largely depended.

55. Leather production remains unsatisfactory, chiefly owing to the shortage of tannin, but a second factory has commenced production and another has recently been liberated and reports are awaited. A civilian expert is being sent to Italy to advise on the rehabilitation of this key industry.

56. Hemp maintains the average of the last four months, except for canvas which showed an increase of 100%.

57. Investigations of mines uncovered recently are being made especially of lignite and mercury in Tuscany, and of pyrites near Grosseto, where there is an exportable surplus of 20^0,000 tons.

Declassified E.O. 12356 Section 3.3/NND No. 743017

PART III.

ADMINISTRATIVE SECTION.

1. Defascism. The new consolidating decree was published on the 29th July and is in the hands of ACC officers in the Field and of Italian Prefects. The work of organising the Ministerial Commissions is in hand.

INTERIOR SUB-COMMISSION.

2. Local Government. During the period covered by the report the Italian Government submitted for approval a large number of names for appointment or for transfer. Having regard to experience gained by some of the nominees whilst working under AMG considerable negotiation and screening has had to take place. After alternative proposals were made agreement has been reached on the appointment of 10 Prefects, 4 Directors General, a Secretary General and seven members of the Giunta Consultiva of Sardinia.

3. Executive Memorandum No. 39 dealing with local government organisation and administration has been revised. This document summarises the position of and the arrangements connected with local government organisation, made since the Sicilian landing and its revision was necessary to give effect to developments which have occurred and experience gained since its original production. It has been issued by R.C. & M.G. Section.

4. Officials. As mentioned in previous reports, experience has shown that AMG with Armies have at times found no administrative officials in newly liberated provinces. To cater for these circumstances, arrangements were made in collaboration with the Italian Government for the provision of a small team containing the minimum number of officials (including a Prefect) which would be necessary to restart the administration. Such teams were prepared to proceed to PERUGIA, SIENA, AREZZO, PESCARA, TERAMO and ASCOLI.

In the Provinces mentioned, however, it was discovered that sufficient satisfactory officials had remained at their posts and the personnel who were ready to move at short notice were not called forward. A Prefect, however, was provided and sent to Macerata.

Similar preparations are being made to cover the following provinces should the need arise, viz: Pisa, Livorno, Florence, Pistoia, Lucca, Apuania and Ancona, and areas further North.

5. Interviews. The Director has seen his Excellency Bonomi in his capacity of Minister of the Interior on frequent occasions. In addition, interviews have taken place with the Under-Secretary of State Canevari, Sorrentino, the Chief of Cabinet and his successor, Berruti. The subjects concerned have included nominations for Prefect and Sindaco of Florence (each of whom was also seen), refugees going North and their interference with military movement, teams of officials, and other senior appointments.

PUBLIC SAFETY SUB-COMMISSION.

6. Commanding General, Royal Carabinieri. On 21st July General Taddeo ORLANDO formerly Minister of War, was designated Commanding General of the Royal Carabinieri with HQ in Rome.

7. Public Security. On 27th July Dr. Luigi FERRARI formerly President of the Court of Assizi in Rome, was appointed Director General of Public Security in the Ministry of Interior. The Public Safety officials at the Ministry are

Declassified E.O. 12356 Section 3.3/NND No. 785017

the Giunta Consultiva of Sardinia.

3. Executive Memorandum No. 39 dealing with local government organisation and administration has been revised. This document summarises the position of and the arrangements connected with local government organisation, made since the Sicilian landing and its revision was necessary to give effect to developments which have occurred and experience gained since its original production. It has been issued by R.C. & M.G. Section.

4. Officials. As mentioned in previous reports, experience has shown that AMG with Armies have at times found no administrative officials in newly liberated provinces. To cater for these circumstances, arrangements were made in collaboration with the Italian Government for the provision of a small team containing the minimum number of officials (including a Prefect) which would be necessary to restart the administration. Such teams were prepared to proceed to PERUGIA, SIENA, AREZZO, PESCARA, TERAMO and ASCOLI.

In the Provinces mentioned, however, it was discovered that sufficient satisfactory officials had remained at their posts and the personnel who were ready to move at short notice were not called forward. A Prefect, however, was provided and sent to Macerata.

Similar preparations are being made to cover the following provinces should the need arise, viz: Pisa, Livorno, Florence, Pistoia, Lucca, Apuania and Ancona, and areas further North.

5. Interviews. The Director has seen his Excellency Bonomi in his capacity of Minister of the Interior on frequent occasions. In addition, interviews have taken place with the Under-Secretary of State Canevari, Sorrentino, the Chief of Cabinet and his successor, Berruti. The subjects concerned have included nominations for Prefect and Sindaco of Florence (each of whom was also seen), refugees going North and their interference with military movement, teams of officials, and other senior appointments.

PUBLIC SAFETY SUB-COMMISSION.

6. Commanding General, Royal Carabinieri. On 21st July General Taddeo ORLANDO formerly Minister of War, was designated Commanding General of the Royal Carabinieri with HQ in Rome.

7. Public Security. On 27th July Dr. Luigi FERRARI formerly President of the Court of Assizi in Rome, was appointed Director General of Public Security in the Ministry of Interior. The Public Safety officials at the Ministry are now being reviewed.

8. Policing Forward Areas. During the month all requests from Armies and Region VIII for CC.RR to police newly occupied territory were met. New replacement centres were opened at Grosseto (west coast) and Chieti (east coast) to deal with CC.RR reporting for duty from liberated territory.

9. Strength of Royal Carabinieri. Urgent representations have been made that a total strength of 55,000 officers and men is totally inadequate to cope with the duties which will devolve on the Royal Carabinieri when the whole of Italy is occupied. Currently 41,702 CC.RR are fully employed and the thickly populated industrial north has yet to be policed.

10...../

Declassified E.O. 12356 Section 3.3/NND No. 785017

10. Royal Finance Guards: The HQ of the Royal Finance Guards has been established in Rome with General Morricca remaining in command. Owing to the ceiling imposed on CC.RR and GG.FF strength, on 31st July the GG.FF were taken off the Italian Army ration strength and placed on civilian (heavy workers) rations this being a substantial reduction in quantity.

11. Conduct of Troops. The behaviour of Allied troops generally leaves much to be desired. The conduct of French Colonial troops towards the Italian civil population is disgraceful, and the attitude of indifference adopted by junior French unit commanders when crimes are reported to them encourages indiscipline. At Taranto and Brindisi clashes between French soldiers and sailors and Italians in which firearms and hand grenades were used, resulted in five persons being killed and twenty injured. In three cases Allied Military police came to the assistance of the Italian police and in one instance machine guns were used to restore order.

12. Prisons. Overcrowding remains the chief problem in prison administration but, part from the question of military prisoners, the position is steadily improving. Progress is being made with the rebuilding problem, while a number of prisons requisitioned by Allied Military authorities have been released. The detention of Italian military prisoners in civil prisons is still under discussion with the authorities concerned.

PUBLIC HEALTH SUB-COMMISSION.

13. General. The lack of ambulances is a serious problem in both forward and rear areas. The question of the re-organisation of the Italian Nursing Service is one in which it is felt that the initial steps should be taken by the Italian Government.

14. Supplies. Expected shipments of medical supplies to cover the inclusive July to December period have not yet arrived. Latest information indictaes that they may be expected between the 19th and 29th August.

There is an acute shortage of glass ampules due to scarcity of long flame coal; the lack of transport is hampering the distribution of other medical supplies but it is hoped that the Italian Government will soon take over the responsibility for the distribution for medical supplies to Regions I, II, III, VI and VII.

15. Disease.

(a) V.D. The V.D. incidence among troops in the PBS-Naples area has fallen to 120 per thousand for June. In Region VI the venereal rate is very satisfactory, being as low as 60 per thousand and in some units even 37 per thousand. The hospital accommodation for infected women has improved in Region II and there is some diminution in the number of cases being admitted.

(b) Smallpox. Continues in Naples City and Province. Total number of cases to date is 870 and the total number of vaccinations is 446,257. The disease is in a mild form, six deaths only have occurred in debilitated children who might otherwise have been expected to recover.

(c) Malaria. As a result of enemy sabotage, large areas of country in Region IV and Rome Region are flooded. This will increase the incidence of malaria. Energetic measures, including airplane dusting are being taken to cope with the existing conditions.

Declassified E.O. 12356 Section 3.3/NND No. 785017

guns were used to restore order.

12. Prisons. Overcrowding remains the chief problem in prison administration but, part from the question of military prisoners, the position is steadily improving. Progress is being made with the rebuilding problem, while a number of prisons requisitioned by Allied Military authorities have been released. The detention of Italian military prisoners in civil prisons is still under discussion with the authorities concerned.

PUBLIC HEALTH SUB-COMMISSION.

13. General. The lack of ambulances is a serious problem in both forward and rear areas. The question of the re-organisation of the Italian Nursing Service is one in which it is felt that the initial steps should be taken by the Italian Government.

14. Supplies. Expected shipments of medical supplies to cover the inclusive July to December period have not yet arrived. Latest information indictaes that they may be expected between the 19th and 29th August.

There is an acute shortage of glass ampules due to scarcity of long flame coal; the lack of transport is hampering the distribution of other medical supplies but it is hoped that the Italian Government will soon take over the responsibility for the distribution for medical supplies to Regions I, II, III, VI and VII.

15. Disease.

(a) V.D. The V.D. incidence among troops in the PBS-Naples area has fallen to 120 per thousand for June. In Region VI the venereal rate is very satisfactory, being as low as 60 per thousand and in some units even 37 per thousand. The hospital accommodation for infected women has improved in Region II and there is some diminution in the number of cases being admitted.

(b) Smallpox. Continues in Naples City and Province. Total number of cases to date is 870 and the total number of vaccinations is 446,257. The disease is in a mild form, six deaths only have occurred in debilitated children who might otherwise have been expected to recover.

(c) Malaria. As a result of enemy sabotage, large areas of country in Region IV and Rome Region are flooded. This will increase the incidence of malaria. Energetic measures, including airplane dusting are being taken to cope with the existing conditions.

16. Veterinary. Foot and mouth disease is now widespread in Southern Italy but the mortality is low and it is hoped that sufficient vaccine will soon be available. An incidence of Sheep Pox has occurred in Brindisi.

Large quantities of crystal violet hog cholera vaccine are now available.

17. Welfare. The condition of all Italian welfare agencies is such that it is felt that a strong governmental policy of complete re-organisation is essential.

Legal Sub-Commission..../

Declassified E.O. 12356 Section 3.3/NND No. 785017

LEGAL SUB-COMMISSION.

18. Handled all legal matters connected with restoration of territory as of 20th July and proposed restoration as of 15th August 1944; consideration of "sanctions against fascism" decree and matters relating to unsatisfactory situation as to Italian Courts at Bari.

19. The Chief Council worked on the preparation of General Orders having to do with the agricultural and general economy of Italy.

20. Defascistisation decree approved and passed on 27th July 1944. Re-organisation of Ministry of Justice and High Court of Cassation well under way. New legislation promulgated to meet present conditions and eliminate all traces of fascist republican enactments. Judicial officials having taken refuge in Rome are gradually being reposted to their original seats.

21. Work in HQ and in the provinces was hampered by lack of personnel. The BENTEVEGNA case was the first open General Court in Rome. As the accused was a Communist and a patriot it became a political event. In Naples from 22nd December 1943 to 19th July 1944 the Allied Military Courts disposed of 25,961 cases. Allied Military Courts in Rome have, it is thought, made a generally good impression.

EDUCATION SUB-COMMISSION.

22. (a) Italian Government Territory. The most pressing problems are: school buildings still to be derequisitioned, old or inactive or dndependable proveditori, expurgated epuration, and in agricultural districts, absence of children from school.

(b) Littoria. In this devasted province all elementary schools except one and all secondary schools except two (2000 children) have been opened. Several hundred teachers have been brought from Rome and are working under primitive conditions. School officials have been looked over and 72 officials have been vetted and 21 dismissed. School lunches have been brought to six communes and 3,900 textbooks for each of the elementary grades.

(c) Rome. 76 members of the governing body of Rome University have been epurated.

PROPERTY CONTROL SUB-COMMISSION.

23. Command. The DPC, Lt.Col. C.R.S. Harris (B) was injured in a traffic accident on 9th July and he has since been invalided to England. Colonel C. Carroll (A) is now acting DPC.

24. Field Work. Satisfactory progress in controlling and caring for Allied properties has been made in all areas which we have occupied. Plans have been made for taking over in the Northern areas.

25. Policy. The following is under review:-

(a) The degree of control to be exercised over commercial concerns in AMG areas and in transferred territory.
(b) De-sequestration and its consequences.
(c) Means of insuring a continuing responsibility of the Italian Government for the care of sequestrated properties.
(d) Liability for management fees.
(e) Return of properties to owners.

945

(f) Reports to owners.

945

MONUMENTS, FINE ARTS & ARCHIVES SUB-COMMISSION.

26. General. MFAA problems of Regions I, II, VI and VII being in the hands of the Italian Government, and Region III about to be handed over, the major concentration of works is in the devastated portions of Lazio and Tuscany. Information passed to SHAEF about matters of interest re MFAA in the Western Theatre. Works of Art in Italy from centres outside Italy are being traced.

27. Field Work.

(a) Armies. Four MFAA officers are at present at work in the forward areas with 5th and 8th Armies. One of these belonging to Region VIII is in charge of controlling..../

Declassified E.O. 12356 Section 3.3/NND No. 785017

of controlling and protecting the deposits in the vicinity of Florence where most of the art objects from that city are stored.

(b) Rome. MFAA officer is busy with repair work in the vicinity of Rome and with arranging two great exhibitions of works of art for Allied troops in Rome.

(c) Region V. Damages are minor except in Ancona City where they are heavy.

28. Relations with Italian Government and Church. Close relations established and maintained with the Italian Director General of Monuments and Staff and with Director General of Archives at Rome. Relations also established with President of the Pontifical Commission for Sacred Art; Vatican Fine Arts authorities have given every facility for checking the deposits stored in the Vatican. Check of art objects stored at Vatican from the deposit at Montecassino completed with note of German pillage.

29. Publications. The Lists of Protected Monuments have been completed. Soldiers Guides to Rome and Florence published.

Declassified E.O. 12356 Section 3.3/NND No. 763017

PART IV.

POLITICAL SECTION, PUBLIC RELATIONS BRANCH AND INDEPENDENT SUB- COMMISSIONS.

POLITICAL SECTION.

1. The first half of the month was taken up by the transfer of the Government and the HQ. of the Allied Control Commission to Rome where it was announced they would alike begin to operate on July 15th. This move was carried out successfuly and the first meeting of the Council of Ministers in Rome was in fact held on that date. A symbolic link with the past was forged when Orlando was invited to assume his duties as head of the Camera dei Diputati and the Marchese della Torretta was named President of the Senate. On the 15th too the Allied Advisory Council announced the transfer - to take place on the 20th - of the Provinces of Naples (excluding the Commune of Naples), Avellino, Benevento, Foggia and Campobasso, to the Government. At the same time it was announced that Frosinone, Littoria and Rome Provinces, including the capital itself, would follow on August 15th.

2. It has been a month of considerable accomplishment for the Government. For one thing the various defascistisation decrees have been collated. Special courts have been set up to try Fascist crimes and these courts are empowered to give the death sentence, although, perhaps with some irony, at the same time Italy went back to her old position of "moral supremacy" by abolition of capital punishment which the Fascists had brought into the old code. Sforza was named High Commissioner for Fascist sanctions (July 28th). These sanctions can be resumed under the following headings: cancellation of Fascist political sentences, punishment of Fascist crimes, defascistisation of state administration and confiscation of wealth acquired through Fascist connections. Epuration of the various governmental branches is being handled through a committee formed by the department itself plus a member appointed by Sforza's commission. Sforza has been given subordinate High Commissioners to assist him, one for each of the "sanctions" indicated above. The machinery swung into gear somewhat late in the month but there are indications that it will move rapidly and remorselessly. Some earnest of serious intentions may be seen in the dismissal of De Vecchi and Bastianini from government service, naming of a new head of the Bank of Italy (Introna) to take the place of Azzolini, discharge of Jacomini, once Lieutenant General of Albania, and in such measures as revocation of pension to veteran "volunteers" of the Spanish war.

3. The government has been very anxious to have a greater participation in the war effort. Bonomi made a speech to the employees of the Foreign Office on July 25th, the anniversary of the overthrow of Mussolini, in which he stated this hope, stressing that it was only right that Italy should be allowed to "work her passage" since only in this way could the armistice terms which he described as "very hard" be modified. Along this same line the end of the month saw the Government taking a much more lively interest in the patriots; the Council of Ministers recommending, at its meeting of the 19th, that they be included in the armed forces. As the month ended the earlier anxiety about the armistice clauses changed into an appeal for "understanding" from the Allies, ranging from a straight-forward expression of hope for Lend Lease to fairly open hinting that the time had come for an end to co-belligerency and conferring of full Allied status instead.

4. After some heart searching, the Government also fixed (July 17th) a

Declassified E.O. 12356 Section 3.3/NND No. 785017

was invited to assume his duties as head of the Camera dei Deputati and the Marchese della Torretta was named President of the Senate. On the 15th too the Allied Advisory Council announced the transfer - to take place on the 20th - of the Provinces of Naples (excluding the Commune of Naples), Avellino, Benevento, Foggia and Campobasso, to the Government. At the same time it was announced that Frosinone, Littoria and Rome Provinces, including the capital itself, would follow on August 15th.

2. It has been a month of considerable accomplishment for the Government. For one thing the various defascistisation decrees have been collated. Special courts have been set up to try Fascist crimes and these courts are empowered to give the death sentence, although, perhaps with some irony, at the same time Italy went back to her old position of "moral supremacy" by abolition of capital punishment which the Fascists had brought into the old code. Sforza was named High Commissioner for Fascist sanctions (July 28th). These sanctions can be resumed under the following headings: cancellation of Fascist political sentences, punishment of Fascist crimes, defascistisation of state administration and confiscation of wealth acquired through Fascist connections. Epuration of the various governmental branches is being handled through a committee formed by the department itself plus a member appointed by Sforza's commission. Sforza has been given subordinate High Commissioners to assist him, one for each of the "sanctions" indicated above. The machinery swung into gear somewhat late in the month but there are indications that it will move rapidly and remorselessly. Some earnest of serious intentions may be seen in the dismissal of De Vecchi and Bastianini from government service, naming of a new head of the Bank of Italy (Introna) to take the place of Azzolini, discharge of Jacomini, once Lieutenant General of Albania, and in such measures as revocation of pension to veteran "volunteers" of the Spanish war.

3. The government has been very anxious to have a greater participation in the war effort. Bonomi made a speech to the employees of the Foreign Office on July 25th, the anniversary of the overthrow of Mussolini, in which he stated this hope, stressing that it was only right that Italy should be allowed to "work her passage" since only in this way could the armistice terms which he described as "very hard" be modified. Along this same line the end of the month saw the Government taking a much more lively interest in the patriots; the Council of Ministers recommending, at its meeting of the 19th, that they be included in the armed forces. As the month ended the earlier anxiety about the armistice clauses changed into an appeal for "understanding" from the Allies, ranging from a straight-forward expression of hope for Lend Lease to fairly open hinting that the time had come for an end to co-belligerency and conferring of full Allied status instead.

4. After some heart searching, the Government also fixed (July 17th) a political price for bread and pasta at 5 and 7 lire respectively, though the real price is 12 and 14. The Ministry of Education repealed the racial laws and the Fascist sindacati were legally suppressed - as they had been in fact ever since Allied landings - at the meeting of the Council on the 28th.

5. There has been one change in the Ministry. Croce has resigned stating that the trips from Sorrento to Rome would be too much for him and has been replaced by Count Carrandini (born 1885 of Piedmontese stock) a veteran Liberal and a man of some experience in agriculture and commerce. As Croce had long announced his intention of resigning on the transfer of the Government from Salerno, this change did not affect the stability of the Government nor detract from the added prestige which accrued to it by its establishment in the capital.

Public Relations Branch..../

Declassified E.O. 12356 Section 3.3/NND No. 785017

PUBLIC RELATIONS BRANCH.

6. News Production. More than 100 releases in both English and Italian were written or serviced to nearly 30 outlets concerning ACC Headquarters, Region IV and Rome Region, in connection with essential operations, as well as important matters of policy such as transfer of territory to the Italian Government, treatment of patriots, and rules on civilian movement. A full investigation and report of alleged German brutalities to prisoners in Via Tasso was made with documents and 18 photographs. Releases were made on behalf of the Allied Advisory Council.

7. Press.

(a) Italian Journalists.

Close and daily contact was maintained with Italian journalists to acquaint them with Allied objectives and to learn at first hand their re-actions to ACC activities. Schede Personali were filed for several scores of journalists and sent to Security Branch. Cards were printed and prepared for issue to screened Italian journalists accrediting them to function. Coordination was made with Italian epuration agencies in this field. Curfew and travel passes were obtained for Rome journalists.

(b) Neutral Correspondents.

Journalists of neutral nations were accepted as an ACC PRB responsibility. Accrediting cards were issued to nine such journalists. Weekly guidance meetings of the neutral correspondents were held.

(c) Allied Correspondents.

Interviews and information were arranged for representatives of British and American press and radio. Action was initiated through G-5 toward early acceptance by ACC PRB of accrediting responsibilities for political correspondents from the Allied press.

8. Relations with Italian Government. Daily talks were held with the office of the Under Secretary for the Press in the Ministry of the Interior toward better and more responsible service toward correspondents by the Italian Government. Quarters for the Italian press office were obtained.

9. Allied Publications Board. Regular and special meetings of the APB were attended preparatory to turning over operations of the Board to the Italian Government and in [illegible] the somewhat disorganised but free Rome press.

10. Publications. Distribution of the Weekly Bulletin and daily trend of copy of correspondents and Digest of Rome Press continued and considerably expanded due to demand from readers, including the Allied Advisory Council, War Department and War Office.

WAR MATERIAL DISPOSAL AND ITALIAN PRISONERS OF WAR SUB-COMMISSION.

11. During July the War Materials Disposal Sub-Commission commenced inspections of Italian Army material in the Military Depots in the newly liberated regions. Lists giving particulars of the depots, the service to which they belong, the condition of the buildings, etc., together with stock lists, have been compiled and filed for reference.

12. Equipment and stores found and handed back to the Italian Services concerned included radio equipment, MT spares of considerable value and 800 pairs of new boots.

13. Ammunition dumps were located and information passed to C.E.M. Section

Declassified E.O. 12356 Section 3.3/NND No. 785017

re-actions to ACC activities. Schede Personali were filed for several scores of journalists and sent to Security Branch. Cards were printed and prepared for issue to screened Italian journalists accrediting them to function. Coordination was made with Italian epuration agencies in this field. Curfew and travel passes were obtained for Rome journalists.

(b) Neutral Correspondents.

Journalists of neutral nations were accepted as an ACC PRB responsibility. Accrediting cards were issued to nine such journalists. Weekly guidance meetings of the neutral correspondents were held.

(c) Allied Correspondents.

Interviews and information were arranged for representatives of British and American press and radio. Action was initiated through G-5 toward early acceptance by ACC PRB of accrediting responsibilities for political correspondents from the Allied press.

8. Relations with Italian Government. Daily talks were held with the office of the Under Secretary for the Press in the Ministry of the Interior toward better and more responsible service toward correspondents by the Italian Government. Quarters for the Italian press office were obtained.

9. Allied Publications Board. Regular and special meetings of the APB were attended preparatory to turning over operations of the Board to the Italian Government and in [illegible] the somewhat disorganised but free Rome press.

10. Publications. Distribution of the Weekly Bulletin and daily trend of copy of correspondents and Digest of Rome Press continued and considerably expanded due to demand from readers, including the Allied Advisory Council, War Department and War Office.

WAR MATERIAL DISPOSAL AND ITALIAN PRIONERS OF WAR SUB-COMMISSION.

11. During July the War Materials Disposal Sub-Commission commenced inspections of Italian Army material in the Military Depots in the newly liberated regions. Lists giving particulars of the depots, the service to which they belong, the condition of the buildings, etc., together with stock lists, have been compiled and filed for reference.

12. Equipment and stores found and handed back to the Italian Services concerned included radio equipment, MT spares of considerable value and 800 pairs of new boots.

13. Ammunition dumps were located and information passed to C.E.M. Section at HQ. AAI.

14. Sufficient signal wire to complete the telephone installation in the Ministero delle Corporazione Building was provided by the Sub-Commission when other sources failed to supply.

15. The question of putting into operation some scheme whereby all damaged vehicles and material and MT spare parts could be collected immediately the Armies passed on was discussed with the Economic Section.

16...../

Declassified E.O. 12356 Section 3.3/NND No. 785017

16. As from July 29th the title of the Sub-Commission was changed to War Material Disposal and Italian Prisoners of War Sub-Commission and the additional duties of dealing with all matters in connection with Italian Prisoners of War were added to the other work of the Sub-Commission.

17. Instructions for the release of 60,000 paroled Prisoners of War in Sicily as at July 31st were received from AFHQ. New regulations regarding the repatriation of Italian prisoners of war were issued and now prisoners of war over 60 years of age, and those over 50 years who have been POW for over two years, can be released on compassionate grounds. Italian POW who can be employed in specific judicial and administrative positions for the furtherance of the war effort in Italy will be considered for repatriation.

18. The release of other Italian POW can only be considered on special compassionate grounds, and only when the grounds are such that an Allied soldier under similar circumstances would be repatriated to his own country.

19. Among the various and diverse questions on Italian POW the one asked daily is "why cannot they be released from POW status?" So far a simple answer has not been found.

COMMUNICATIONS SUB-COMMISSION.

20. (a) Telephone.

(i) All main telephone circuits to the South (e.g. Palermo, Messina, Reggio, Cosenza, etc), terminated at Salerno for Italian Government use, were put through to Naples. A total of five telephone circuits between Naples and Rome were handed over by the military for ACC/Government use; only three of these are trunk circuits of which one is used by ACC Rome - Naples, one by Italian Government Rome - Bari, leaving only one circuit for Italian Government use to Naples that is suitable for extension to the South. The other two circuits are overhead circuits only suitable for Rome - Naples communications. Trunk telephone facilities for Government use are therefore still extremely scanty.

(ii) Release on inter-provincial telephone facilities to civil use in Italian Government territory was given by military security. North of Naples, telephone facilities are reserved for Government use.

(b) Telegraphs.

(i) Telegraph circuits were made available to the Italian Government from Rome to the South (Naples and Bari). The traffic capacity is fair, but not capable of carrying all traffic without long delay. Direct telegraph circuits were provided for the Italian Air and Navy Ministries from Rome to Bari.

(ii) Civil telegraphs between Rome and the South of Italy were opened on July 21st; by the end of the month over 5000 telegrams a day were being dealt with in the Rome office.

943

(c) Circuit Repair. Work has been in progress on restoration of civil communications in Regions IV and V. Reconnaissances were completed, plans made, transport obtained and release of routes or wires from military signals arranged. Due to the extensive damage and shortage of stores, little tangible results

Declassified E.O. 12356 Section 3.3/NND No. 785017

can be released on compassionate grounds. Italian POW who can be employed in specific judicial and administrative positions for the furtherance of the war effort in Italy will be considered for repatriation.

18. The release of other Italian POW can only be considered on special compassionate grounds, and only when the grounds are such that an Allied soldier under similar circumstances would be repatriated to his own country.

19. Among the various and diverse questions on Italian POW the one asked daily is "why cannot they be released from POW status?" So far a simple answer has not been found.

COMMUNICATIONS SUB-COMMISSION.

20. (a) Telephone.

(i) All main telephone circuits to the South (e.g. Palermo, Messina, Reggio, Cosenza, etc), terminated at Salerno for Italian Government use, were put through to Naples. A total of five telephone circuits between Naples and Rome were handed over by the military for ACC/Government use; only three of these are trunk circuits of which one is used by ACC Rome - Naples, one by Italian Government Rome - Bari, leaving only one circuit for Italian Government use to Naples that is suitable for extension to the South. (c) Circuit Repair. Work has been in progress on restoration of civil communications in Regions IV and V. Reconnaissances were completed, plans made, transport obtained and release of routes or wires from military signals arranged. Due to the extensive damage and shortage of stores, little tangible results will be seen for some weeks.

21. Postal.

(a) Civil mail services, both internal and foreign, were extended to Rome on July 1st and to the Provinces of Rome, Littoria, Frosinone and Campobasso later in the month.

(b) The mail service between Naples and Bari, the main cross-Italy link, was increased to a daily service each way.

Army Sub-Commission..../

Declassified E.O. 12356 Section 3.3/NND No. 755017

ARMY SUB-COMMISSION.

22. The chief event of the month was the move from LEQUILLE (LECCE) to ROME on 14th July. The Italian War Ministry and General Staff moved simultaneously. The advantages of concentration were at once evident and the increased efficiency of having all contacts on the spot, especially the Ministry of War and SMRE, was most noticeable.

23. The first and most pressing problem to be tackled was Patriots. The Italian authorities were anxious to deal with the large numbers who had been found in newly liberated territory, and the War Ministry asked for a policy. Owing to the restrictions on recruiting for the Italian Armed Forces and the ceiling laid down by the CCS, MMIA authorised the Ministry of War to recruit up to 3000 men for the Army in Rome, stipulating that for every volunteer accepted a serving soldier of an older class must be demobilised, thus keeping within the ceiling laid down. Italian Army screening and recruiting agencies were sent to Army areas to work in close collaboration with AMG Fifth and Eighth Armies and Polcorps. Their function is to screen Patriots volunteers for the Army, and to arrange for their evacuation to the Rome and Chieti enlistment centres. A further three screening detachments have been sent to work under the direction of Region IV. All volunteers become an Italian Army responsibility only when they are actually re-enlisted at Rome or Chieti.

The ceiling for the Italian administrative troops has been fixed at 27,000 and the necessary steps have been taken to ensure that troops are not wasted in Administrative Headquarters.

24. July has been the heaviest month for the movement of Italian Army personnel. This increase is largely accounted for by the programme in hand for forming new Pioneer Labour Regts and re-forming existing Labour Units. Shipments from Sardinia went well.

25. The initial allotment from the CCS of certain items of boots and clothing is coming to an end and approximately 400,000 pairs of US part worn boots have been delivered to the Italian Army for repairs. The War Ministry have been instructed to make a survey of all repairable Italian uniforms and repair materials.

Advanced arrangements have been made for the rationing of the Italian Army from British sources, effective 1 Aug 44.

ELLERY W. STONE
Captain, USNR
Acting Chief Commissioner

By Lewis 6/25/54

REPORT FOR MAY 1944.

1. For the last two months this Report has been a record of steady progress in many spheres, but nevertheless work for many assumed a routine character until such time as the Armies were again able to resume the offensive. Like the Armies we devoted the interim period to planning for a big advance. Fifth and Eighth Army AMG's were strengthened, and Region IV, now responsible for LAZIO, UMBRIA and the City of ROME, like Sleeping Beauty, was suddenly brought to life. The day when the Armies started their big attack, so long anticipated, was 11.May, and for the moment AMG teams with the Armies held the limelight.

2. The Armies progressed rapidly, leaving behind a trail of destruction wherever battles were hard fought. Townships like PONTECORVO, CASSINO and PIEDIMONTE ceased to exist as dwelling places, whilst others could accommodate only a small percentage of their inhabitants. As long ago as last September it is recorded that the enemy completely emptied one place, the population fleeing to the neighbouring hills. Considerable movement of the population took place as a result of all this and as examples, FONDI increased from 19,000 people to 30,000, and TERRACINA from 14,000 to 23,000. Many suffered from exposure and lack of food.

The feeding and medical treatment of all these people, together with the evacuation of refugees, fully extended AMG staffs but presented no new problems. By the end of the month 200,000 people were being fed in the Fifth Army area alone. Well earned were the congratulations of General Alexander and his application of the epithet "the Third Army" to A.C.C.

3. Due to the fast rate of advance contact was often lost with forward CAO's, whilst Provincial teams had to be called up urgently to take over. The small port of GAETA was quickly employed. It was captured on 20.May and although damage to the harbour was considerable a stretch of 'hard' was cleared by the Royal Navy and a U.S. Engineer Unit so that schooners could be brought in. The first one carrying food supplies entered on 26.May and was unloaded into a warehouse which had already been secured. By 28.May all supplies were on a sales basis up to a line TERRACINA - PICO, indicating a very rapid recovery of normal economic life.

It was unfortunate that the misery of the refugees in some areas was increased by the conduct of certain troops under French Command, which moreover caused a greater movement of refugees than would otherwise have been the case. Adverse accounts of behaviour of troops continue from many parts of the country. When, however, account is taken of the great number of troops, the many diverse nationalities and the fact that good behaviour is unrecorded, the situation would appear normal.

1. For the last two months this Report has been a record of steady progress in many spheres, but nevertheless work for many assumed a routine character until such time as the Armies were again able to resume the offensive. Like the Armies we devoted the interim period to planning for a big advance. Fifth and Eighth Army AMG's were strengthened, and Region IV, now responsible for LAZIO, UMBRIA and the City of ROME, like Sleeping Beauty, was suddenly brought to life. The day when the Armies started their big attack, so long anticipated, was 11.May, and for the moment AMG teams with the Armies held the limelight.

2. The Armies progressed rapidly, leaving behind a trail of destruction wherever battles were hard fought. Townships like PONTECORVO, CASSINO and PIEDIMONTE ceased to exist as dwelling places, whilst others could accommodate only a small percentage of their inhabitants. As long ago as last September it is recorded that the enemy completely emptied one place, the population fleeing to the neighbouring hills. Considerable movement of the population took place as a result of all this and as examples, FONDI increased from 19,000 people to 30,000, and TERRACINA from 14,000 to 23,000. Many suffered from exposure and lack of food.

The feeding and medical treatment of all these people, together with the evacuation of refugees, fully extended AMG staffs but presented no new problems. By the end of the month 200,000 people were being fed in the Fifth Army area alone. Well earned were the congratulations of General Alexander and his application of the epithet "the Third Army" to A.C.C.

3. Due to the fast rate of advance contact was often lost with forward CAO's, whilst Provincial teams had to be called up urgently to take over. The small port of GAETA was quickly employed. It was captured on 20.May and although damage to the harbour was considerable a stretch of 'hard' was cleared by the Royal Navy and a U.S. Engineer Unit so that schooners could be brought in. The first one carrying food supplies entered on 26.May and was unloaded into a warehouse which had already been secured. By 28.May all supplies were on a sales basis up to a line TERRACINA - PICO, indicating a very rapid recovery of normal economic life.

It was unfortunate that the misery of the refugees in some areas was increased by the conduct of certain troops under French Command, which moreover caused a greater movement of refugees than would otherwise have been the case. Adverse accounts of behaviour of troops continue from many parts of the country. When, however, account is taken of the great number of troops, the many diverse nationalities and the fact that good behaviour is unrecorded, the situation would appear normal. A regretable exception is the behaviour of African troops under French command whose misconduct has led to much distress and resentment. The French Command has taken vigorous measures to stop the excesses but the problem remains - and adds to the difficulties of the Refugees Branch.

4. Next to the advance of the Armies harvesting prospects and organisation have received most attention. After long discussions the price of wheat was fixed at 1000 lire per quintal and it was announced in the Press and over the radio on 15 May by both A.C.C. and the Italian Government. Inevitably, there are localities where dissatisfaction is expressed over the price, but in reaching a decision factors of national importance had to be taken into consideration.

The word "Amassi", of evil association, is dropped and in its place comes "Granai del Popolo". Well conceived publicity is sucessfully establishing this phrase.

Declassified E.O. 12356 Section 3.3/NND No. 785017

With the wholehearted co-operation of AAI and the Italian Army, the labour problem has been largely solved by the transference to the principal grain areas of 25,000 Italian troops for the period of the harvest, mostly from Sardinia.

5. 30 and 31.May were devoted to the third Regional Commissioners' Conference which revealed both progress and harmony. Harvesting received rightly more time and detailed discussion than any other topic, for its importance to the Allied cause and the welfare of the country up to the time the last grain of wheat is stored could not be too much emphasised.

The personnel ceiling of ACC/AMG having been fixed and attained (including allowance for future expansion) it is obvious that as new areas are brought under control established areas must release personnel. Naturally the first to feel this thinning out process are the Regions in Italian Government Territory, who have nevertheless cheerfully faced the prospect during the month of parting with a number of their key men.

The remainder of NAPLES Province was handed over to Region III on 22.May.

A new defascistization law is being prepared to distinguish between the active Fascists and those who have only been tainted. In this connection emphasis has been laid on the difference existing between "defascistization" and "epuration". These terms are often used loosely and imply that they are synonymous which is not the case.

6. A committee under the chairmanship of the Deputy Chief Commissioner was appointed in order to make recommendations to check the present tendency to inflation.

POLITICAL.

7. The second meeting of the new Italian Cabinet took place on 4.May. Subjects under discussion were (i) the Granio del Popolo and the price of wheat; (ii) Defascistization; (3) Suppression of the Ministry of Foreign Exchange, its duties being taken over by the Ministry of Finance; (iv) Suppression of the Ministry of Popular Culture, press relations being taken over by the Ministry of the Interior (home and foreign news), the Ministry of Communications (tourism and radio), and the Ministry of Education (cinema and theatre); (v) Economic betterment of State employees.

8. The official price of wheat was issued on 15.May. The Italian Government asked that an A.C.C. announcement should be issued, covering AMG territory, at 2 p.m. followed at 2.30 p.m. by an Italian Government communique fixing a similar price "in order to ensure uniformity".

9. The new law dealing with the punishment of Fascist crimes and illegal practices contains a definition of those crimes which enabled Fascists to assume power in 1922 and to eliminate the last traces of democratic rule. Punishment ranges from imprisonment to death penalty. A list of mitigating circumstances is established to alleviate or to suspend sentences including such actions as fighting Germans. Provincial Commissions are established in each Province to judge all cases. Members of the Commissions will be both judges and laymen selected for their known anti-Fascist records and positions. Commissions will

Declassified E.O. 12356 Section 3.3/NND No. 783017

(including allowance for future [illegible]) brought under control established areas must release personnel. Naturally the first to feel this thinning out process are the Regions in Italian Government Territory, who have nevertheless chcerfully faced the prospect during the month of parting with a number of their key men.

The remainder of NAPLES Province was handed over to Region III on 22.May.

Provincial Commissions are established in each Province to judge all cases. Members of the Commissions will be both judges and laymen selected for their known anti-Fascist records and positions. Commissions will be appointed by the Prime Minister upon the recommendations of High Commissioner and Minister of Justice. The judgments of Provincial Commissions will be determined as in Courts of Law with a provisional appeal. The High Commissioner may review any sentence of the Provincial Commissions.

10. At a later meeting the Council affirmed a policy of war to the end against the Nazis and expressed its hope for a new world of international collaboration based on the principles of the Atlantic Charter and repeated its conviction that the Italian people had been betrayed and forced into a war against their interests and against their will. The Fascist invasions of other nations are deplored and, specifically, the Government looks to the early liberation of Albania.

Declassified E.O. 12356 Section 3.3/NND No. 783017

FINANCE.

11. The complete report of the Finance Sub-Commission receives the same circulation as this report. It is therefore proposed to present here only the salient points.

12. As the next fiscal year for the Italian Government begins on 1.July it is necessary that a new budget be prepared to control expenditure after that date. The Italian Government is taking steps to prepare such a budget for the territory under its jurisdiction, and at the Government's request the Italian forms were sent to Military Government territory in order that if and when additional territory is turned over to the Italian Government, data will be available to make the necessary changes.

13. In Military Government territory there has been distributed a complete set of forms for the preparation of budgets, the operation of such budgets, the control of expenditures, and for reporting such expenditures. Revenue data are also included in these forms. In designing these forms every attempt was made to adhere as closely as possible to normal Italian accounting and fiscal procedures. Fiscal procedure for the State agencies is quite dissimilar to that for local government bodies, and two sets of forms were necessary. The operation of the new budget procedure should result in a definite measure of expenditure control.

14. Refugees leaving Italy for Palestine have deposited substantial funds with the Internees and Displaced Persons Sub-Commission, which is seeking a means of remitting these funds to Palestine. As there is yet little or no sterling available in the AF accounts, and as CCS has not approved the expenditure of foreign exchange for this purpose, the current procedure results in blocked deposits being held by the Internees and Displaced Persons Sub-Commission, for account of the refugees abroad. The problem has been referred to CCS decision as to policy, with a suggestion that the Jewish relief agencies abroad may desire to obtain lire funds, by purchase of these blocked deposits from the refugees arriving from Italy, if this is not contrary to general policy.

15. The Italian Government decree for the Insurance Advisory Committee has been signed and the opening meeting should take place during the first week in June. Arrangements have been made for the Insurance Department of Finance Sub-Commission to be provided with agenda and minutes of each meeting, and representatives have been invited to attend the first meeting.

16. In response to a request from AFHQ, the Minister of Finance was asked to give assurances as to the implementation of that part of the Armistice terms which provides that the Allied Forces shall be immune from Italian taxation. A satisfactory reply was received from the Minister, stating that no taxes, direct or indirect, will be imposed upon the Allied Forces or organisations serving with the Allied Forces, or upon individual members thereof whether acting in an official or un-official capacity. Specific instructions which have been issued to Italian tax officials by the ministry were cited in support of these assurances.

Specific instructions which have been issued to Italian tax officials by the ministry were cited in support of these assurances.

941

ECONOMICS, RESOURCES and SUPPLY.

17. Food.

Grain shipments during May were much more regular than in April. Seven bulk wheat ships of a total tonnage of 56,000 tons and one flour ship tonnage 8,600 tons were unloaded during this period. The last ship was diverted to ANZIO with a large portion of its flour cargo together with an additional top cargo of miscellaneous subsistence items to establish a stockpile for the feeding of ROME. The manufacture of pasta for feeding of forward areas has begun and arrangements are well advanced for the manufacture of biscuit for emergency feeding of forward areas. Plans for making use of the local harvest and for its movement from ~~areas~~ with a surplus to areas with a deficiency are well advanced.

18. Food processing has received considerable attention. Plans are in hand to deal with potatoes, tomatoes, marmalade, jam, macaroni, fish (using the salting and drying processes) and yeast manufacture.

(4)

Declassified E.O. 12356 Section 3.3/NND No. 785017

19. Ration Scales.

Supplementary Ration for Heavy Workers. The scheme for the issue of additional rations to heavy workers wholly and in part employed by Allied Armed Forces has been adopted to commence 1 June. This issue will be by means of supplementary ration cards, and these have been delivered to Regional Supply Officers for distribution to the employing units and the process is proceeding smoothly.

Industry and Commerce.

20. Much of the activity of the Industry & Commerce Sub-Commission has been in the direction of rehabilitation of factories and increased production in those concerns that are working. Special attention has been given to the following vital products:-

Soap - requirements of British Army, Italian Army, Navy and Air Force, civilians. Substantial quantities of soft soap will be produced by using the potash from almond-ash.

Glycerine and glycerine dyes for export.

Sulphuric Acid - acid for battery electrolyte has come into production and all British Army requirements will be covered.

Fertilizers - production commencing shortly at seven plants. Sulphur is to be used in place of pyrites.

Carbon disulphide, Cement, Industrial Gases, wire nails and paper.

21. Agreement has been reached with the Italian Government on measures for the future regulation of the manufacture and use of leather. The key to the scheme is control of the production and allocation of tanning extracts, and a survey of these is approaching completion. The project for the repair of salvaged Army boots has been, within its own limitations, very successful, but it is considered that this scheme should be extended even at the cost of manufacture of boots, as the needs of heavy workers for whom this type is suitable are of the most urgent priority. In addition, it is hoped that an early importation of 500,000 pairs of heavy boots will be made, as these, plus local production, would go far towards solving the problem.

22. Export Shipments. Since last reporting the following shipments have been made:-

To U.S.A.....	100,019 lbs.	Lemon Oil.
To U.K.....	10,265 tons	Sulphur.
	336 qtls	Filberts.
	388 qtls	Argols.
	17,731 gals	Lemon Juice.
	243 qtls	Lemon Oil.
	13 qtls	Tangerine Oil.
	37 qtls	Sweet Orange Oil.
	15 tons	Bentonite (sample shipment)
	160 kilos	Briarwood (" ")

23. Hemp products have shown the anticipated increases especially in canvas

Declassified E.O. 12356 Section 3.3/NND No. 785017

Soap - requirements of British Army, Italian Army, Navy and Air Force, civilians. Substantial quantities of soft soap will be produced by using the potash from almond-ash.

Glycerine and glycerine dyes for export.

22. Export Shipments. Since last reporting the following shipments have been made:-

To U.S.A.....	100,019 lbs.	Lemon Oil.
To U.K.....	10,265 tons	Sulphur.
	336 qtls	Filberts.
	388 qtls	Argols.
	17,731 gals	Lemon Juice.
	243 qtls	Lemon Oil.
	13 qtls	Tangerine Oil.
	37 qtls	Sweet Orange Oil.
	15 tons	Bentonite (sample shipment)
	160 kilos	Briarwood (" ")

23. Hemp products have shown the anticipated increases especially in canvas and sacking; large quantities of binder twine for agricultural purposes have been produced. Supplies to the services have been maintained. The industry has been working for three months on the small stock of spare materials which were in hand. Production must diminish unless items which have been requested are supplied. These items should be regarded as military requirements and priority allocated accordingly.

AGRICULTURE, FORESTS & FISHERIES.

24. The general impression is that most sections of Liberated Italy will have a bumber crop in the present year. This is true not only of grain but of nearly every other crop which is normally planted. Fruit crops such as cherries and strawberries, plums and similar fruits show excellent output, and the general conditions of all cro[illegible]at the end of May indicates fi[illegible] that most favourable

Declassified E.O. 12356 Section 3.3/NND No. 785017

weather conditions have offset many of the handicaps resulting from the lack of fertilizers and materials, and second, that Italian farmers in spite of shortage of tools and work animals, and in spite of disruptions due to military activity, have gone ahead and planted the last inches of land and tended and cultivated the crops well.

25. Military installations, such as air fields, ordnance dumps and staging areas, cover a very appreciable portion of the farming land in Southern Italy. While there is considerable damage to growing crops and to agricultural faciltities in some areas owing to the military necessity of taking over planted land or buildings, the military is giving splendid co-operation in this particular phase through the Commanding Generals of the Armies who have issued orders instructing that every care be taken in installations and in the requisitioning of facilities, that proper regard be given to areas and facilities which may be utilised for agriculture.

26. Crop reports on the acreage planted and the condition of the crop were collected from all Provinces and the preliminary forecast on 15.May was:-

Wheat	-	1,624,135	metric tons.
Barley	-	153,460	" "
Rye	-	9,990	" "
Oats	-	271,415	" "
Corn	-	151,775	" "
Dry Broad Beans		208,830	" "
Potatoes	-	590,990	" "

27. The Granai del Popolo. Following close on the re-organisation of the Ministry of Agriculture and the announcement of the programme for collecting wheat and barley last month, activity has been intensified through the Sub-Commission and the Ministry of Agriculture to develop the necessary directives which will make possible the implementation of the collection decree, for the general co-ordination and broad supervision of the collection programme. Reports from the field indicate that the Communal and Provincial Committtees in most Provinces are functioning and declarations are being completed. Assessment forms are being printed and will be available in time for the harvest and threshing. Special decrees and directives dealing with the collection of other crops are being prepared and worked out in co-operation with the Italian Government. A programme of publicity and propaganda has been worked out by members of the staff, the Italian Government and PWB, utilizing press releases, posters, radio, sound trucks and motion pictures, in order that every citizen of Italy may realise the importance of the attempt this year of Liberated Italy to assist itself.

28. During the month inspections of important mills in the Provinces of SALERNO, POTENZA and COSENZA were made to ascertain what mills were able to provide bridge and construction timber. Eleven mills were examined and four found having machinery capable of sawing logs, 4 metres or longer in length. Public Works and Utilities Sub-Commission was notified of those considered of special interest to them.

9.10

29. Fisheries. The 21 tonnara around the Sicilian Coasts are in full swing and part of the harvest is being shipped to Naples. The remainder is being sold on the local markets as fresh fish food or is being either canned in olive oil or salted. Several shipments of hemp cordage were made to Region V during the month. Reports from Sardinia indicate that there is a normal run of tuna fish.

Declassified E.O. 12356 Section 3.3/NND No. 785017

that proper regard be given [illegible]
agriculture.

26. Crop reports on the acreage planted and the condition of the crop were collected from all Provinces and the preliminary forecast on 15.May was:-

Wheat	-	1,624,135	metric tons.
Barley	-	153,460	" "
Rye	-	9,990	" "
Oats	-	271,415	" "
Corn	-	151,775	" "
Dry Broad Beans		208,830	" "
Potatoes	-	590,990	" "

27. The Granai del Popolo. Following close on the re-organisation of the Ministry of Agriculture and the announcement of the programme for collecting wheat and barley last month, activity has been intensified through the Sub-Commission and the Ministry of Agriculture to develop the necessary directives which will make possible the implementation of the collection decree, for the general co-ordination and broad supervision of the collection programme. Reports from the field indicate that the Communal and Provincial Committtees in most Provinces are functioning and declarations are being completed. Assessment forms are being printed and will be available in time for the harvest and threshing. Special decrees and directives dealing with the collection of other crops are being prepared and worked out in co-operation with the Italian Government. A programme of publicity and propaganda has been worked out by members of the staff, the Italian Government and PWB, utilizing press releases, posters, radio, sound trucks and motion pictures, in order that every citizen of Italy may realise the importance of the attempt this year of Liberated Italy to assist itself.

28. During the month inspections of important mills in the Provinces of SALERNO, POTENZA and COSENZA were made to ascertain what mills were able to provide bridge and construction timber. Eleven mills were examined and four found having machinery capable of sawing logs, 4 metres or longer in length. Public Works and Utilities Sub-Commission was notified of those considered of special interest to them.

940

29. Fisheries. The 21 tonnara around the Sicilian Coasts are in full swing and part of the harvest is being shipped to Naples. The remainder is being sold on the local markets as fresh fish food or is being either canned in olive oil or salted. Several shipments of hemp cordage were made to Region V during the month. Reports from Sardinia indicate that there is a normal run of tuna fish. The heads of the Fisheries Division of the Agriculture Sub-Commission and of the Ministry of Agriculture made a complete survey on fishermen's needs in Region VII. Hemp cordage necessary to make and repair nets has been distributed to every fishing village from SALERNO to REGGIO CALABRIA. As soon as the material is made ready shipments will be made to fishing villages on the IONIAN Coast.

PUBLIC WORKS & UTILITIES.

30. Highways and Bridges. At the beginning of the month eight bridges on main highways were under constructions, and at the end of the month this number had risen to fifteen. Ten new bridges were under survey and design at the end of the month, or were being let out to contract. At the end of May heavy repairs of a major character were in hand on 158 miles of roads, mostly under contract, whilst normal repairs on 791 miles were similarly in hand, either by

Declassified E.O. 12356 Section 3.3/NND No. 785017

contract or under strengthened gangs of the "Cantoniere" (direct labour). In spite of abnormally heavy traffic throughout the northern Military Government territory, there was a marked improvement in road conditions during May, both as to foundations and surfacing. All roads coming under first priority (military) were in hand, except for certain delays occasioned by local shortages of bitumen, or transport. The total number of quarries operated rose during May from five to eight.

31. Electrical Division. Under the heading of control of electric power supplies, further meetings were held with officials of the Public Works Ministry regarding a more uniform application of the decree on electricity rationing. The rationing has given very marked and on the whole satisfactory results, with a corresponding saving in coal consumption at thermal power stations, and conservation of the water held in storage at various high-level lakes and impounding reservoirs which furnish power to the numerous hydro-electric stations. The transfer of electricity generating plant from PALERMO (Sicily) to MATESE on the mainland was not found possible during the month, but will be completed in June.

LABOUR

32. Continued representations were made during the month to the Italian Government for the creation of a civilian mobilization law providing for manpower, and it is being given further consideration. The revised draft of the basic labour law was re-submitted by the Italian Government and is now being considered by A.C.C.

33. The labour situation remained fairly static. The continued threat of strike persisted and "sit-downs" of short duration were not uncommon. Unrest was more marked than in any previous month and the Labour Sub-Commission is convinced that there is systematic agitation of the workers coming from one or two major sources. The real cause of the unrest is food, not low wages.

34. Drafting of the Social Insurance plan in close collaboration with the Italian Minister is proceeding slowly. The Social Insurance structure, like the wage structure, is most complex and has never been systematically analyzed by the present Italian Government. The lack of knowledge, on the part of the Ministry, of Italian wage and social insurance laws and regulations is placing a tremendous burden upon the military authorities, who are being asked time and again by the Italian authorities to approve some ill-considered and unworkable scheme based upon fancy rather than upon fact. A social insurance programme is being drafted for direct employees of the Armed Forces in conformity with sound labour policy. The extension of social insurance to this large group of workers has been approved in principle by the A.A.I. Local Resources Board.

TRANSPORTATION

35. Railways. Whilst military control becomes less rigid in the south, in the north extended territory and preparations for further extension led to an increase in traffic to military railways. Arrangements were made for civilian mails to be conveyed twice weekly on the Naples - Bari military passenger train, and arrangements will shortly be completed to convey civilian mails over other parts of the service. Five additional passenger services have been introduced to meet civilian needs in the Naples - Salerno area.

36. The Coal Division has been placed under the Transportation Sub-Commission

Declassified E.O. 12356 Section 3.3/NND No. 785014

servation of the water held in storage at various high-level lakes and impounding reservoirs which furnish power to the numerous hydro-electric stations. The transfer of electricity generating plant from PALERMO (Sicily) to MATESE on the mainland was not found possible during the month, but will be completed in June.

The Social Insurance structure, like the wage structure, is most complex and has never been systematically analyzed by the present Italian Government. The lack of knowledge, on the part of the Ministry, of Italian wage and social insurance laws and regulations is placing a tremendous burden upon the military authorities, who are being asked time and again by the Italian authorities to approve some ill-considered and unworkable scheme based upon fancy rather than upon fact. A social insurance programme is being drafted for direct employees of the Armed Forces in conformity with sound labour policy. The extension of social insurance to this large group of workers has been approved in principle by the A.A.I. Local Resources Board.

TRANSPORTATION

35. Railways. Whilst military control becomes less rigid in the south, in the north extended territory and preparations for further extension led to an increase in traffic to military railways. Arrangements were made for civilian mails to be conveyed twice weekly on the Naples - Bari military passenger train, and arrangements will shortly be completed to convey civilian mails over other parts of the service. Five additional passenger services have been introduced to meet civilian needs in the Naples - Salerno area.

36. The Coal Division has been placed under the Transportation Sub-Commission for the purpose of drawing up in conjunction with the Italian Government control organisation for handling and distribution of coal.

37. Road transportation problems have been considerably eased by the receipt of a quantity of tyres and tubes for trucks; more have been authorised and when received additional problems will be solved. The total number of trucks available to the end of the month for the transport of civilian supplies was 604. Re-allocations have had to be made to meet anticipated requirements consequent upon military operations.

Declassified E.O. 12356 Section 3.3/NND No. 785017

38. Shipping. The scheme for the control of auxiliary motor sailing vessels received the approval of all interested bodies and is now in operation. Further progress has been made in the registration of Italian schooners. Up to the present 489 vessels representing about 39,000 deadweight tons have been registered. Of these, 231 are each under 50 tons but over 20 tons deadweight. In addition, 55 motor vessels of 2250 deadweight tons in Sardinian ports are being registered. During the latter half of May, 99 schooner voyages were reported serving 35 ports and various Islands. The quantity of commercial cargo carried amounted to 7247 tons of which timber, 2227 tons, was the largest item, followed by 1312 tons of foodstuffs, fruit and fish. Wine cargoes are not included.

INTERIOR

39. The Royal Decree restoring Local Government in Italy is being made applicable to Military Government territory. Pools of Local Government officers of various grades are being constituted as a reserve for use where no suitable persons to replace the relieved officials can be found locally in recovered territory. Teams of officials have been sent forward to re-organise the devastated Frosinone and Littoria Provinces.

LEGAL

40. The successive passing of increased responsibility to Italian Courts is proceeding with the object of freeing officers for more forward areas.

41. The consolidations of proclamations and orders and the issue of the booklet of "Consolidated Instructions for Allied Military Courts" have proved valuable both as helps and as a simplification.

42. Fascists are being dealt with in two ways, under the Decree of Defascistization of 28 December and under the recent Decree of Epuration. The former is a purely purging decree and provides the machinery for removing Fascists from office. The machinery is not yet properly at work. The latter is a penal decree and provides the machinery for punishing those who have been guilty of "crimes" - this decree has only just been passed. No action under it has yet been possible. The progress of both classes is a matter of special care and interest.

43. In espionage cases seven death sentences were confirmed and one conviction, with death sentence, was squashed.

44. Some improvement has been shown as to the number of cases awaiting trial and in the prison situation but constant watchfulness is necessary if it is hoped to get Italian Courts to deal with cases with reasonable expedition.

PUBLIC SAFETY

939

45. The plans for moving Carabinieri into new territory as the Armies advance have worked smoothly. It has been reported on all sides that the Carabinieri have proved of the greatest assistance to Allied Forces in dealing with all civilian problems. It is interesting to note that the appearance of Carabinieri with the advancing troops has been enthusiastically welcomed by civilians.

Declassified E.O. 12356 Section 3.3/NND No. 763017

y.39 45. The plans for moving Carabinieri into new territory as the Armies advance have worked smoothly. It has been reported on all sides that the Carabinieri have proved of the greatest assistance to Allied Forces in dealing with all civilian problems. It is interesting to note that the appearance of Carabinieri with the advancing troops has been enthusiastically welcomed by civilians.

46. Much closer relationship has been established between Provost and Public Safety Officers, with the object of maintaining direct contact between Allied Military Police and the Italian Police. Courses of lectures by Public Safety Officers are being given at Military Police Training Centres. The system of joint patrols by Allied and Italian Police is being extended.

47. The most serious case of counterfeiting yet discovered was at Palermo, where forged L. 1,000 Allied Military notes were being circulated. The printing press, tools and materials have been seized, 39 persons arrested and L. 42,000,000 recovered.

(4)

Declassified E.O. 12356 Section 3.3/NND No. 785017

48. The problem of overcrowding in civil prisons has been energetically tackled and the crisis has passed. All concerned now have a lively appreciation of the problem. The new Director of Prisons at the Ministry of Justice is forming a competent staff and a body of Inspectors.

49. The Military Security Services have reported that the additional restrictions imposed on the movement of civilians, which have thrown a good deal of work on ACC officers in the field, have proved of great value in checking the activities of enemy agents.

PUBLIC HEALTH

50. Smallpox. No further cases have occurred in Taranto, the disease in Naples is of a mild form. At 31 May 161 cases had been reported. There are no deaths.

Venereal. The decline of the V.D. rate continues. 2,000 hospital beds for infected prostitutes have now been provided in Italian Government territory. The Italian Government doctors and officials are co-operating well.

Malaria. AAI has made a considerable amount of Paris Green available for Regions. DDT Powder which proved of such value in Typhus Control is now proving of value in anti-malarial work, mixed with oil it is an effective larvicide, and mixed with kerosene or talc it is an effective destroyer of adult mosquito.

Veterinary. 2,500 swine have been lost in Region V from Swine Fever/Hog Cholera. The production of vaccine for this disease and of other biologicals is proceeding satisfactorily.

EDUCATION

51. Defascistization of Educational personnel is not proceeding in Italian Government territory as rapidly as is desired, but some improvement has been manifest recently. There have been a number of student disturbances mainly of a more or less good humoured nature to obtain the benefit of successfully passing an examination without undergoing the burden of a test.

52. The text book printing is now complete. If text books are to be ready for next year a million will have to be printed during the next few months. The work is in preparation.

53. The development of various educational channels for infants, for recreation for youths (including scouts), for adults, for extension classes, for the teaching of arts and crafts and science and for technical education are all proceeding.

PROPERTY CONTROL.

54. A decree has been passed revoking measures previously taken against the property of Allied - French Nationals. Local officials have accordingly been instructed by the Ministry of Finance to revoke orders for sequestration and to re-assign property to the owner or the Property Control Officer for the owner. Banks which had been acting as managers of sequestrated properties will continue to manage them for their owner. The Bank managership is proving very satisfactory.

Banks which had been acting as managers of sequestrated properties will continue to manage them for their owner. The Bank managership is proving very satisfactory.

MONUMENTS & FINE ARTS

55. M.F.A. officers have been well forward and have entered captured positions with, or shortly after the capturing troops. The MAAF is granting every facility for co-operation to avoid inadvertant damage and to enable damage committed to be tabulated.

56. The following lists of protected monuments have been issued to forward troops :

Section 1 - Sardinia and Sicily.
" 2 - Apulia, Calabria, Campania and Lucania.
" 3 - Abbruzzi and Lazio.
" 4 - Le Marche, Tuscana and Umbria.

Declassified E.O. 12356 Section 3.3/NND No. 785017

system whereby they accept enquiries from the American Red Cross, Allied Red Crosses, numerous Jewish organisations, and so on, which is an invaluable help in work of this character. The past months have proved beyond doubt the importance and immense psychological value of this work of handling enquiries and communications of displaced persons and this bureau has been able to co-operate with M.E.R.R.A. and other outside organisations fairly effectively.

66. Statistics. As at May 31 (unless otherwise stated) :

Refugee population in Camps and Hospitals	-	4,843
Reception during May (by ship)	-	2,895 +
Reception by means other than ship	-	10
Shipped to Mideast (Jews to Palestine)	-	571
Gross total shipped to Mideast to date	-	20,391

+ of which 911 were women and 1577 were children under 16 years.

REFUGEES (ITALIANS)

67. The Italian military personnel working under the direction of the Refugee Branch for handling refugees from the forward areas has been increased steadily and by the end of the month was 111 officers and 1040 other ranks, an accession of strength of 26 officers and 659 other ranks.

68. Movement during the month :

From 5 Army (by road)	-	4589
From 8 Army (by road/rail)	-	8020
Total		12609

To dispersal areas southward :

To Region I	(Sicily)	- 3971
To Region II	(Bari Province)	- 1388
To Region III	(Naples, Salerno & Avellino Provinces)	- 1440
To Region VII	(Reggio & Catanzaro Provinces)	- 1651
	Total	8450

In addition 1415 were dispersed to Local Homes and 878 handed over to the Italian Military authorities for possible military service.

69. As the Armies move forward the unrest amongst the refugees in the South increases. Refugees find it hard to live in the dispersal areas and are eager to return to their homes and property, whether it is intact or not.

PUBLIC RELATIONS

70. Early in the month an officer of the Commission's Public Relations Branch was attached to each of the Armies operating in the field, and these officers were in close touch in preparation for the active period expected. As a result contact was maintained with events and war correspondents and

PUBLIC RELATIONS

70. Early in the month an officer of the Commission's Public Relations Branch was attached to each of the Armies operating in the field, and these officers were in close touch in preparation for the active period expected. As a result contact was maintained with events and war correspondents and proper publicity was assured.

71. A number of items dealing with the work of ACC have been released to the press, the photographers attached to the Branch have covered stories of varied interest in the towns recently liberated, refugee camps and the forward areas generally.

72. The routine work was not neglected. Liaison with Sections, Branches, Boards and Regions was maintained, a particular feature being visits to Conferences and meetings held in the Regions. The weekly bulletin is proving increasingly useful and popular, especially in the southern Regions where authentic and up-to-date news percolates only slowly.

Ellery W. Stone

ELLERY W. STONE,
Captain, USNR.

Declassified E.O. 12356 Section 3.3/NND No. 785017

57. A booklet on the preservation of Works of Art with a foreword by the C. in C. Mediterranean Theatre has been distributed to the troops.

COMMUNICATIONS

58. Telecommunications. No major changes have taken place in the Telecommunications system. Detailed development has been in steady progress; in particular, the capacity of the telegraph circuits to Naples has been made adequate for the traffic with that city. The telephone circuits available for the Italian Government to Naples are inadequate, and an increase in these facilities has been requested of the military authorities.

59. Posts. Detailed improvements have included the provision of four mail services a week from Naples to Bari (in place of two a week), and an airmail service with Tripoli. The sequence and circumstances in which the resumption of postal finance services, advance postal services for P.O.W. mail, and normal postal services in newly occupied areas has been agreed and instructions issued.

60. Censorship. A policy has been agreed and approved to turn over the operational control of internal mail and telegraph censorship to the Italian Government in Italian administered territory, and simultaneously to permit this control to be exercised by the Italian Supreme Command instead of by local Prefects acting under instructions of the Ministry of the Interior. This has the result of centralising the control, and of ensuring that civil censorship is made primarily an instrument of military security and not a source of political information. Policy control is retained and the normal direct executive control by Allied censors in areas forward of the Italian Government territory is not affected.

INTERNEES & DISPLACED PERSONS

61. General. The numbers of refugees this month from Yugo Slavia were small compared with preceding months; 2895 persons were received, of whom some 2488 were women and children.

62. During the month 571 Zionist Jews were embarked for Palestine. This emmigration, the first of its kind from Italy since the commencement of the War largely concerned Jewish refugees located in Ferramonti and Di Bagni Camps. Many problems had to be faced in this first emmigration to Palestine, and the lessons learnt will be put to good use when a similar movement of Jews has again to be dealt with.

63. With impending operations likely in mid-May it was decided to organise approximately 1/8th of the Sub-Commission to find an Advance HQ and three Forward Groups. The extra work thrown on to individuals has been dealt with with energy and cheerfulness by all concerned. The organisations by which camps are to the maximum extent run by refugees has made it possible to face greatly increased commitments.

932 64. Medical. Yugo Slav and Italian civilians are being used to replace military personnel in the Medical Branch and several members of the Friends Ambulance Unit are now numbered amongst the staffs. Maglie Hospital still maintains a creditable military standard of efficiency. Both Lecce and Maglie hospitals are working to

Declassified E.O. 12356 Section 3.3/NND No. 785017

requested of the military authorities.

59. Posts. Detailed improvements have included the provision of four mail services a week from Naples to Bari (in place of two a week), and an airmail service with Tripoli. The sequence and circumstances in which the resumption of postal finance services, advance postal services for P.O.W. mail, and normal postal services in newly occupied areas has been agreed and instructions issued.

60. Censorship. The extra work thrown on to individuals has been dealt with with energy and cheerfulness by all concerned. The organisations by which camps are to the maximum extent run by refugees has made it possible to face greatly increased commitments.

932 64. Medical. Yugo Slav and Italian civilians are being used to replace military personnel in the Medical Branch and several members of the Friends Ambulance Unit are now numbered amongst the staffs. Maglie Hospital still maintains a creditable military standard of efficiency. Both Leuca and Maglie hospitals are working to capacity and their bed-strength is being increased. The first course for training nurses was completed and of the original 30 who desired to be trained, 15 qualified. A second class of thirty has commenced training. There has been a mild epidemic of measles. Several cases of Whooping Cough and a few of Mumps and Scarlet Fever. Pulmonary Tuberculosis has also been shown to be fairly common. Most cases are absorbed into civilian sanitoriums. Red Cross personnel and Friends Ambulance Unit continued to render yeoman service.

65. Records Bureau. Approximately 31,500 persons have now been recorded. 1,050 enquiries have been booked out of which 375 definite answers have been received. Enquiries for Southern Italy are decreasing as certain results have been obtained and it has been stressed for some time now that the postal channels now available should be used. Enquiries are already coming in for areas nearer the old front line and it is estimated many more enquiries will come in shortly. The Foreign Relations Department of the British Red Cross have established a

++++++++++++++++++++++++++

REPORT FOR APRIL 1944.

1. The major change in organisation has been the division of the stretch of Italian Government territory hitherto administered as Region II into two distinct Regions. Road, rail and telephone communications are poor and confronted with the difficult problems of supply and refugee disposal, Calabria, Apulia, and Lucania had become unwieldy. Region VII was therefore constituted by splitting off Calabria from Region II. The HQ of the new Region was established under Colonel KIRKWOOD at CATANZARO. The staff of the Provinces of Cosenza, Catanzaro continued at their posts.

2. Most of the initial difficulties of the change over from Government to control have now been surmounted. The more frequent visits of HQ officers to the Regions have proved welcome in the Regions and helpful to all parties. At the same time, visits of field officers to Headquarters have become more numerous to the benefit of all concerned.

3. The Regional Commissioners and Sub-Commissions conference occupied three days, 14th, 15th and 16th April. The full discussion of common problems of Regional Commissioners, SCAO's Army AMG and the Directors and members of the Sub-Commissions was the means of arriving at solutions in many cases and lines of future action in others. Particularly was this observed in the consideration given to the problem of the harvest and the effect which it will undoubtedly have on the future of the Italian people. More exact details of the results will appear later in this report.

4. Throughout the whole of liberated Italy there is more political activity, generally of an orderly and quiet kind directed towards organisation and definition of objectives. The political inexperience of people, who have been compulsorily inarticulate for so long has had some strange effect. It is hoped that the growth of local administrations now possible under the schemes for re-organising local government from communes to provinces may create a greater sense of civic responsibility and consequently an increase in political sense.

5. In general popular opinion expresses more confidence in the newly constructed Government of Marshal Badoglio. The tendency everywhere is towards moderation, though there are still many signs of apathy. The broken morale of the Italians is by no means restored but a hopeful sign is the reception given to schemes for municipal and communal cleanliness, anti-malarial measures and measures adopted for the control of diseases that might become epidemic.

6. There are incipient labour troubles in all Regions. Nearly all these are concerned with food; demands for increased wages relate to the cost of living. It is the policy of the Commission to relieve these local troubles by methods that do not involve increases in the wage rates or embarrassing increases in the ration scales.

93

7

Declassified E.O. 12356 Section 3.3/NND No. 785017

fronted with the difficult problems of supply and refugee disposal, Calabria, Apulia, and Lucania had become unwieldy. Region VII was therefore constituted by splitting off Calabria from Region II. The HQ of the new Region was established under Colonel KIRKWOOD at CATANZARO. The staff of the Provinces of Cosenza, Catanzaro continued at their posts.

2. Most of the initial difficulties of the change over from Government to control have now been surmounted. The more frequent visits of HQ officers to the Regions have proved welcome in the Regions and helpful to all parties. At the same time, visits of field officers to Headquarters have become more numerous to the benefit of all concerned.

3. The Regional Commissioners and Sub-Commissions conference occupied three days, 14th, 15th and 16th April. The full discussion of common problems of Regional Commissioners, SCAO's Army AMG and the Directors and members of the Sub-Commissions was the means of arriving at solutions in many cases and lines of future action in others. Particularly was this observed in the consideration given to the problem of the harvest and the effect which it will undoubtedly have on the future of the Italian people. More exact details of the results will appear later in this report.

4. Throughout the whole of liberated Italy there is more political activity, generally of an orderly and quiet kind directed towards organisation and definition of objectives. The political inexperience of people, who have been compulsorily inarticulate for so long has had some strange effect. It is hoped that the growth of local administrations now possible under the schemes for re-organising local government from communes to provinces may create a greater sense of civic responsibility and consequently an increase in political sense.

5. In general popular opinion expresses more confidence in the newly constructed Government of Marshal Badoglio. The tendency everywhere is towards moderation, though there are still many signs of apathy. The broken morale of the Italians is by no means restored but a hopeful sign is the reception given to schemes for municipal and communal cleanliness, anti-malarial measures and measures adopted for the control of diseases that might become epidemic.

6. There are incipient labour troubles in all Regions. Nearly all these are concerned with food; demands for increased wages relate to the cost of living. It is the policy of the Commission to relieve these local troubles by methods that do not involve increases in the wage rates or embarrassing increases in the ration scales.

7. With the departure of Lieut.Colonel McCaffrey from Region II for another sphere, Colonel J.T. Zellars took command of the Region.

8. Two main topics occupy the minds of all officers of the Commission - the probable extension of Military Government activities as a result of military operations and the forthcoming harvest and collection of commodities.

POLITICAL.

9. The political crisis which began with the unanimous resolution of the Communist Party on 1st April, and proceeded to the King's request on 17th April

Declassified E.O. 12356 Section 3.3/NND No. 785017

to the Marshal to form a new Government, was finally resolved on 21st April when Badoglio succeeded in forming a Government in which all the six recognised opposition parties were represented. The new Government is as follows:-

Prime Minister and Minister of Foreign Affairs		- Badoglio
Ministers without Portfolio:		
ACTION PARTY		- Sforza
LIBERAL PARTY		- Croce
COMMUNIST PARTY		- Togliatti
SOCIALIST		- Mancini
CHRISTIAN DEMOCRAT		- Rodino
Minister of the Interior	CHRISTIAN DEMOCRAT	- Aldisio
Under-Secretaries	SOCIALIST	- Salerno
	ACTION PARTY	- Caracciolo

Declassified E.O. 12356 Section 3.3/NND No. 785017

10. The first formal meeting of the new Government took place on 27th April. The official declaration of policy made after the meeting may be summarised as follows:-

(a) The Government is formed from representatives of anti-fascist parties no longer opposed to one another, but united in the effort to solve the vital problems of the moment.

(b) Other problems, not of immediate urgency, will be set aside, including the institutional one, which can only be decided by a constituent assembly elected by universal suffrage.

(c) All the parties, according to their beliefs, are prepared for the fundamental reforms necessitated by two world-wars; but such reforms cannot be initiated or completed while Italy is cut in half and still at war.

(d) The renewal of democratic government provides a new spirit, lacking under Fascism, for the prosecution of the war at the side of the Allies, and for the heroic endeavours of patriots of every party now united in the defence of Italy and the conquest of Hitler's Germany.

(e) The necessity of war involves the severest measures against all traitors and the freedom of Italians from all those who, having served Fascism, still cling to its habits, hopes or aims.

(f) Such work must not be actuated by a spirit of revenge, but by a determination that Fascism shall never recur. The work has been put in hand and will be carried energetically to a swift conclusion.

(g) Government action will be based on the urgent necessity of improving conditions of life by increasing industrial and agricultural activity, fighting speculation, smoothing internal exchange of products, obtaining essential supplies from abroad, and hastening the construction of public buildings, roads and bridges. For such tasks the Government counts upon the co-operation of all professional organisations.

(h) Administration, despite difficulties of archives, accommodation and personnel, must be regularised and it is proposed to re-establish the State Accounting Office and the Accounting Court. It is proposed also, in co-operation with the Committees of Liberation, to establish a small Consultative Body, symbol of Parliament, to which periodic reports of progress will be made.

FINANCE.

11. It is still almost impossible to obtain any budget estimates even on a monthly basis from the Italian Government which prepared expenditure estimates only when it felt the need for additional supplies of currency. Such estimates are not expenditure estimates but solely estimates of cash disbursements. The failure of the former Minister of Finance to initiate the preparation of a budget for the remainder of the current year means that Regions I, II, VI and VII are now operating without any form of budgetary control.

J36

12. A proposed procedure for exercising control over Government expenditures submitted to the Italian Government during the month, is now being considered

Declassified E.O. 12356 Section 3.3/NND No. 785017

(c) All the parties, according to their beliefs, are prepared for the fundamental reforms necessitated by two world-wars; but such reforms cannot be initiated or completed while Italy is cut in half and still at war.

(d) The renewal of democratic government provides a new spirit, lacking under Fascism, for the prosecution of the war at the side of the Allies, and for the heroic endeavours of patriots of every party now united in the defence of Italy and the conquest of Hitler's Germany.

(e) The necessity of war involves the severest measures against all traitors and the freedom of Italians from all those who, having served Fascism, still cling to its habits, hopes or aims.

(f) Such work must not be actuated by a spirit of revenge, but by a determination that Fascism shall never recur. The work has been put in hand and will be carried energetically to a swift conclusion.

(g) Government action will be based on the urgent necessity of improving conditions of life by increasing industrial and agricultural activity, fighting speculation, smoothing internal exchange of products, obtaining essential supplies from abroad, and hastening the construction of public buildings, roads and bridges. For such tasks the Government counts upon the co-operation of all professional organisations.

(h) Administration, despite difficulties of archives, accommodation and personnel, must be regularised and it is proposed to re-establish the State Accounting Office and the Accounting Court. It is proposed also, in co-operation with the Committees of Liberation, to establish a small Consultative Body, symbol of Parliament, to which periodic reports of progress will be made.

FINANCE.

11. It is still almost impossible to obtain any budget estimates even on a monthly basis from the Italian Government which prepared expenditure estimates only when it felt the need for additional supplies of currency. Such estimates are not expenditure estimates but solely estimates of cash disbursements. The failure of the former Minister of Finance to initiate the preparation of a budget for the remainder of the current year means that Regions I, II, VI and VII are now operating without any form of budgetary control.

J36

12. A proposed procedure for exercising control over Government expenditures submitted to the Italian Government during the month, is now being considered. The draft of a war profits tax decree to include farming profits and a memorandum detailing the long-term changes required in the Italian tax system have been prepared.

13. Since July 1943 the Italian Government and its agencies have disbursed about 28 billion lire of which only 4 billion was offset by gross revenues. In March the excess of Government expenditures over revenue was approximately 3 billion lire. During April the separate pools of currency reserves held at the various branches of the Banca d'Italia were brought under central control. The currency needs of deficit Regions are now met not by [illegible] but by transferring currency from Regions with surplus currency.

Declassified E.O. 12356 Section 3.3/NND No. 785017

14. Though there has been an increase in the black market prices of bread, potatoes and meat during the month, the black market price of fish fell from 250 to 125 lire per kilo as a result of the ACC development of fish supplies and the establishment of a fish marketing programme. Olive oil also declined in price due to rations issued at the end of the months of March and April. Supplies of spring vegetables also helped to reduce the cost of living in Naples at the end of the month to a figure lower than at any time since February.

ECONOMICS, RESOURCES & SUPPLY.

15. Food. Over half a million tons of civilian supplies have now been received, 106,000 tons being handled this month. The proportion of grain to flour is increasing. The scale of distribution of bread and miscellaneous foodstuffs was maintained.

16. Olive oil is now being supplied in sufficient quantities to make a universal ration available. Considerable quantities of unrefined oil exist in Southern Italy and the arrangements in hand for supplies of caustic soda for refining should make it possible to keep up the present ration for several months.

17. The check on ration cards in Naples has been continued and extended to all Regions. The indications are that an appreciable measure of success in the proper distribution of food supplies will be attained.

18. Mining. Shipments of Sardinian coal during April were:-

To Southern Italy	-	10,170 metric tons.
To Sicily	-	14,500 metric tons.

By the end of the month the 10,000 tons of sulphur asked for by the Ministry of Supply was ready for shipment and loading was in progress.

19. Exports. Shipments:-

To United Kingdom:	Hemp	-	400 tons
	Rope	-	9½ tons
To United States:	Wine	-	278 barrels
	Lemon Oil	-	100,000 lbs.

20. Hemp. Production figures compare favourably with those of the previous month:-

Hemp and tow	-	1,418 tons	decrease 52 tons
Canvas	-	70,150 metres	increase 5239 metres
Sacks	-	140,225	increase 37905
Ropes	-	3,923 tons	decrease 452 tons
Binder Twine	-	1,960 quintals	increase 1880 quintals.

Considerable quantities of hemp products were supplied to the Services. The present heavy demands for canvas will be more adequately met when the several small factories that have been rehabilitated during the month come into production in May

21. The project for the repair of salvaged footwear is now in operation though only on a small scale pending the arrival of grinders and the increased production of leather. Output is now 500 pairs per day. This can be increased

Declassified E.O. 12356 Section 3.3/NND No. 785017

foodstuffs was maintained.

16. Olive oil is now being supplied in sufficient quantities to make a universal ration available. Considerable quantities of unrefined oil exist in Southern Italy and the arrangements in hand for supplies of caustic soda for refining should make it possible to keep up the present ration for several months.

17. The check on ration cards in Naples has been continued and extended to all Regions. The indications are that an appreciable measure of success in the proper distribution of food supplies will be attained.

18. Mining. Shipments of Sardinian coal during April were:-

Considerable quantities of hemp products were supplied to the Services. The present heavy demands for canvas will be more adequately met when the several small factories that have been rehabilitated during the month come into production in May

21. The project for the repair of salvaged footwear is now in operation though only on a small scale pending the arrival of grinders and the increased production of leather. Output is now 500 pairs per day. This can be increased to 1000 pairs per day.

AGRICULTURE, FORESTS & FISHERIES.

22. Agreement was reached with the new Italian Government for a co-ordinated control of agriculture at all levels, Communal to Provincial, Compartmental and Ministerial. The necessary decrees for the collection of wheat and barley have been drawn up and details of the organisation of the committees that will give effect to the decrees have been published.

Declassified E.O. 12356 Section 3.3/NND No. 785017

23. Retentions of grain for seed will again be permitted but on a reduced scale. Retentions on a production-worker basis have been drastically cut. Both these measures are designed to obtain as large a collection of these vital commodities as possible.

24. To divorce the old associations of AMASSI and FASCISM from the minds of people and farmers and to focus the attention of the Italian people on the efforts that they must make to satisfy their own needs for food, the term "Il granai del Popolo" (The people's grain) is being used instead of "amassi" in all harvest publicity and references to "amassing" will be avoided in favour of "contributing" and "collecting".

25. The price to be paid to the farmer for wheat has been the subject of much discussion. Recommendations varied from 640 lire per quintal to 1800 lire per quintal. The price has been fixed at 1000 lire per quintal for hard wheat, and 900 lire per quintal for soft.

26. Forestry. 500 tons of fuelwood have been provided for 5th Army. Other plans for the provision of timber are in hand in consultation with the Italian Royal Forest Corps.

27. Fisheries. Fish production continues to increase. Materials have been furnished to enable new nets to be made and old ones repaired. The industry can now make a useful contribution to the food supply. Fishermen have been moved from areas where night fishing is prohibited to unrestricted areas.

LABOUR.

28. Negotiations are started in connection with manpower mobilisation, pensions, establishment of Trade Unions, Labour Offices, and the governance of Labour Relations. It is hoped that the Italian Government will produce legislation covering these subjects.

29. The actual labour situation has been especially tense in Public Utilities. Many disputes proved to be complaints about food rather than wages. Wage studies have been instituted in Public Administrative Services, printing trades, sulphur mines, leather goods trade, as well as Public Utilities.

PUBLIC WORKS & UTILITIES.

30. Highways and Bridges. In Southern Italy about 330 miles of military priority highways are being resurfaced, or completely reconstructed. Numerous bridges are being rebuilt, generally involving wholly new designs. The armies are providing 200 trucks, on loan, until the 4000 tons of transport and other heavy engineering equipment arrive from U.S.A. Operatins in stone quarries and crushing plants are increasing.

31. Electrical Division. The Italian Decree rationing electricity came into force on 5th April. Public Works officers are enforcing observance in conjunction with various electrical supply companies. This rationing is of vital importance to conserve energy for Rome, and north thereof. Arrangements were completed for the reconstruction of a transmission line from north of the Garigliano River to Rome, involving probable employment of 300 to 400 civilian workmen. A very large hydro-electric turbine plant was planned for removal from Sicily to Southern Italy where it is urgently required; actual transfer will take place in May.

935

Declassified E.O. 12356 Section 3.3/NND No. 785017

much discussion. Recommendations varied [illegible] per quintal. The price has been fixed at 1000 lire per quintal for hard wheat, and 900 lire per quintal for soft.

26. Forestry. 500 tons of fuelwood have been provided for 5th Army. Other plans for the provision of timber are in hand in consultation with the Italian Royal Forest Corps.

27. Fisheries. Fish production continues to increase. Materials have been furnished to enable new nets to be made and old ones repaired. The industry can now make a useful contribution to the food supply. Fishermen have been moved from areas where night fishing is prohibited to unrestricted areas.

LABOUR.

28. Negotiations are started in connection with manpower mobilisation, pensions, establishment of Trade Unions, Labour Offices, and the governance of Labour Relations. It is hoped that the Italian Government will produce legislation covering these subjects.

29. The actual labour situation has been especially tense in Public Utilities. Many disputes proved to be complaints about food rather than wages. Wage studies have been instituted in Public Administrative Services, printing trades, sulphur mines, leather goods trade, as well as Public Utilities.

PUBLIC WORKS & UTILITIES.

A very large hydro-electric turbine plant was planned for removal from Sicily to Southern Italy where it is urgently required; actual transfer will take place in May.

935

32. Public Works. Very good progress has been made in clearing Messina and Cagliari. Arrangements have been made with Malarial Control Branch for execution of necessary engineering projects, e.g., pumping operations, etc. The eruption of Vesuvius necessitated remedial measures, including retaining walls on the mountain, which are expected to cost 370 million lire.

Declassified E.O. 12356 Section 3.3/NND No. 783017

TRANSPORTATION.

33. No major difficulties were experienced in the first full month's operation of the Sicilian railways under ACC supervision. Some war-damaged lines have been re-opened, train services have been increased, some damaged locomotives are being repaired, and plans are in preparation for sending scrap to U.S.

34. Approximately 70,000 tons of civilian freight were carried on the mainland railways. 45% of this total was arranged through ACC officers in the field and the rest was accepted through the "bidding" system. Though the basic schedule of civilian freight trains has been reduced at military request, ACC are notified daily of available space for civilian freight on military trains. Movement has improved.

35. 512 military trucks with civilian drivers and 120 Italian Army trucks are now being used for the transport of civilian supplies. (An additional 104 military trucks will be in operation during May).

36. Shipping. A scheme for the closer control of all Italian schooners has been submitted to MEDBO with the request that this be issued as a AFHQ directive. Another 225 Italian schooners have been registered making a total of 375 vessels, with a deadweight tonnage of 30,000 tons, the employment of which is directed by MEDBO. Schooners are not now allowed to sail between Sardinia and the Italian mainland and Sicily.

INTERIOR.

37. A Royal Decree reconstituting Local Government has now been published. Its effect is to continue the arrangements in regard to local administration introduced in AMG areas before the restoration. Steps are being taken to secure uniformity by applying when practicable the provisions of the Decree to Military Government territory.

LEGAL.

38. The work of consolidating the original fifteen AMG proclamations into four, with new translations of each, was completed. The mechanisation of the implementation of Italian Government decrees in Allied Military Government territory has been in operation since the beginning of the month and is working satisfactorily.

39. Allied Military Courts continue to function satisfactorily. Arrears are being overcome in the Naples area; there was a reduction in the number of cases compared with the previous month.

40. A handbook "Consolidated Instructions for Allied Military Courts", containing in addition to the Instructions, specimen Legal Forms and Rules for Procedure together with Italian translations of the latter, has been prepared. This translation is for limited distribution amongst Italian authorities and Avvocati appearing in Allied Military Courts.

41. The figures for April in respect of espionage cases are as follows:- 7 death sentences were confirmed; 7 death sentences were commuted to terms of

Declassified E.O. 12356 Section 3.3/NND No. 785017

the field and the rest was accepted through the "Bidding" system. Though the basic schedule of civilian freight trains has been reduced at military request, ACC are notified daily of available space for civilian freight on military trains. Movement has improved.

35. 512 military trucks with civilian drivers and 120 Italian Army trucks are now being used for the transport of civilian supplies. (An additional 104 military trucks will be in operation during May).

36. Shipping. A scheme for the closer control of all Italian schooners has been submitted to MEDBO with the request that this be issued as a AFHQ directive. Another 225 Italian schooners have been registered making a total of 375 vessels, with a deadweight tonnage of 30,000 tons, the employment of which is directed by MEDBO. Schooners are not now allowed to sail between Sardinia and the Italian mainland and Sicily.

INTERIOR.

37. A Royal Decree reconstituting Local Government has now been published. Its effect is to continue the arrangements in regard to local administration introduced in AMG areas before the restoration. Steps are being taken to secure uniformity by applying when practicable the provisions of the Decree to Military Government territory.

LEGAL.

38. The work of consolidating the original fifteen AMG proclamations into four, with new translations of each, was completed. The mechanisation of the implementation of Italian Government decrees in Allied Military Government territory has been in operation since the beginning of the month and is working satisfactorily.

39. Allied Military Courts continue to function satisfactorily. Arrears are being overcome in the Naples area; there was a reduction in the number of cases compared with the previous month.

40. This translation is for limited distribution amongst Italian authorities and Avvocati appearing in Allied Military Courts.

41. The figures for April in respect of espionage cases are as follows:- 7 death sentences were confirmed; 7 death sentences were commuted to terms of imprisonment; 6 cases were submitted for confirmation; 2 sentences each of 20 years imprisonment were affirmed on review; 2 accused were acquitted. Proceedings were commenced against a Director and two Managers of the Manifatture Sottoniere Meridionali on charges relating to black market offences. The trial attracted much attention and publicity as the three accused were formerly influential Fascists. All three accused were convicted and each sentenced to 5 years imprisonment.

42. The first trial by an Allied Military Court in Unoccupied Territory took place during the month at Salerno. The two accused were charged in respect of a series of thefts from a British Army Post Office. They were both convicted and sentenced to 10 years imprisonment.

Declassified E.O. 12356 Section 3.3/NND No. 785017

PUBLIC SAFETY.

43. Police. Law and order has been well maintained with the exception of one serious incident between civilian and French troops which occurred in Trapani Province, Sicily. This is the subject of a full inquiry which is now proceeding. The situation is now quiet. The civil police have rendered excellent service in dealing with refugees, clearing military roads and controlling civilian movement.

44. Fire and Civil Defence. The Minister of the Interior has issued instructions for the civil defence organisation in Italian Government territory to be absorbed into the fire service. This will mean a large reduction in civil defence personnel.

45. Prisons. The overcrowding of civilian prisons has become more acute. The latest available figures show that throughout the Regions there are prisoners detained in prisons, the normal capacity of which is 19,963 and some prisons are filled to over twice their capacity. There are many contributory factors, the chief being the requisitioning of civilian prisons by Allied Forces (1860 places), the detention of Italian Military prisoners (1784 places) and war damage to jails (1891 places). A committee has been set up with instructions to find a solution to this problem and has already achieved results.

PUBLIC HEALTH.

46. A few cases of smallpox have been reported. Measures have been taken to prevent epidemic.

Venereal Disease. The setting up of hospitals for the treatment of infected women is retarded owing to the difficulty in obtaining beds and bed furniture. Statistics show a diminution in the number of cases amongst troops stationed in Naples.

Typhus. This is now so well under control that no reason remains for reporting the case incidence.

Veterinary. Four diseases have become marked in different parts of Italy, Rabies, Glanders, Epizootic Lymphangitis and Swine Fever. The Italian Minister of the Interior immediately issued instructions concerning the proper counter measures to be adopted in the territory under its control. Similar instructions have been issued for the Military Government area.

EDUCATION.

47. A number of the decrees issued by Allied Military Government providing for the decentralization of the control of schools have been confirmed by the Minister of Education, and will therefore continue to apply in the territory administered by the Italian Government. The defascistisation of schools is not yet completed, though a plan has been evolved which will authorise Superintendents to suspend undesirable officials.

The publication and distribution of the revised elementary school text books was continued. The new books have met with widespread approval and are to be re-printed by the M.E. Command for use in North Africa.

PROPERTY CONTROL.

48. The Minister of Finance prepared a decree revoking the application of the provisions contained in the War Law to the property of United Nations and French Nationals, and the Minister has sent out an instruction to all Prefects and Intendenti di Finanza detailing the procedure to be followed when the decree is published.

Declassified E.O. 12356 Section 3.3/NND No. 745017

49. In Region I, most of the property of the Italian Government (including that of semi-statal institutions) taken into custody by AMG has been formally handed back. Fascist funds standing in the name of the CP have been or are being transferred to the Commissario Straordinario appointed by the Italian Government.

50. In Region III estates of 80 Allied and French owners and 35 commercial and industrial concerns have been taken into custody.

MONUMENTS, FINE ARTS AND ARCHIVES.

51. List of Protected Monuments No.3 (Lazio and Abruzzi-Molise) is in the press. Work on the preparation of the remaining lists continues.

Declassified E.O. 12356 Section 3.3/NND No. 763017

COMMUNICATIONS.

Telecommunications.

52. Telegraph. The extension of the internal telegraph service has been authorised to include Avellino Province and Naples Province up to the R. Volturno. Service with Naples City has been inaugurated; by the end of the month about 850 messages a day have been passing through Naples post office. The internal telegraph service is now restored to about 65% of the communes in Italian Government Territory which previously had such service, and includes all provincial capitals and large towns.

53. Telephones. The civil telephone service, previously limited to urban calls, has been authorised for calls within provincial boundaries. Within Italian Government Territory about 12% of the communes now have telephone communications to their provincial capitals and a further 9% to the local large town not a provincial capital. The repair of the main Salerno - Reggio cable has been completed, making many additional long-distance telephone circuits available to the Italian Government. Direct telephone service for official use is now available from Salerno to all provincial capitals on the mainland in Italian Government territory, and to Palermo, Messina and Catania in Sicily.

Plans have been completed as far as practicable for the restoration of telecommunications in enemy occupied Italy. Available equipment in Southern Italy has been inspected and suitable items earmarked for future use; details of additional equipment needed have been forwarded to AFHQ for supply from US or UK.

54. Posts. Arrangements were completed for restoration within the postal zone of internal service for the following classes of mail:

Registered letters
Insured letters
Express letters
Newspaper post
Airmail (Italy - Sicily - Sardinia)

Maximum weight allowed was raised from 90 grams to 210 grams per letter.

Foreign Mail. The first inward foreign civil mails arrived during April, and included consignments from the US, USA, North Africa, Egypt, India and Australia. The first New York consignment to reach Naples arrived on 21 April and comprised some 200,000 items.

55. Censorship. The Civil Censorship Group, Italy, formerly operating under INC, AFHQ, was transferred to ACC towards the end of April. The Headquarters personnel was moved from Palermo to Salerno and the group now forms part of the Sub-Commission, the title of which has been changed to the more inclusive one of the Communications Sub-Commission.

INTERNEES & DISPLACED PERSONS.

56. General. Refugees this month from Yugoslavia were as in March, composed of children, women encumbered with large families, old men and old women. The orphans' homes at Di LEUCA and Di BAGNI are doing good work and have had a very satisfactory beginning. That at Di Leuca is now in full running order. The school, gardening and games are organised and a large quantity of toys have been made by the RED CROSS representative at No.1 Camp, BARI and distributed to the children. A large number of Jews were moved from BARI to Di BAGNI Camp, only those requiring

Foreign Mail. The first inward foreign civil mails arrived during April, and included consignments from the US, USA, North Africa, Egypt, India and Australia. The first New York consignment to reach Naples arrived on 21 April and comprised some 200,000 items.

55. Censorship. The Civil Censorship Group, Italy, formerly operating under INC, AFHQ, was transferred to ACC towards the end of April. The Headquarters personnel was moved from Palermo to Salerno and the group now forms part of the Sub-Commission, the title of which has been changed to the more inclusive one of the Communications Sub-Commission.

INTERNEES & DISPLACED PERSONS.

56. General. Refugees this month from Yugoslavia were as in March, composed of children, women encumbered with large families, old men and old women. The orphans' homes at Di LEUCA and Di BAGNI are doing good work and have had a very satisfactory beginning. That at Di Leuca is now in full running order. The school, gardening and games are organised and a large quantity of toys have been made by the RED CROSS representative at No.1 Camp, BARI and distributed to the children. A large number of Jews were moved from BARI to Di BAGNI Camp, only those remaining who had employment at BARI and their close relatives.

57. Medical. A general all round improvement may be recorded for April. One sign of progress was evident when nearly 2,000 refugees were received on one day and were all disinfested, vaccinated and inoculated before passage to Holding Camps. The entire British Staff at Di LEUCA Refugee Hospital was withdrawn on 24 April and the hospital is now staffed by Yugoslavs who are working as well as can be expected, bearing in mind their lack of experience. One case of typhus occurred during the month. Seven members of a Hospital Unit of the Society of Friends are working at two hospitals of this Sub-Commission and giving invaluable service. Red Cross personnel at Hospitals and Camps have contributed very largely in assuring the welfare of the inmates.

Declassified E.O. 12356 Section 3.3/NND No. 785017

58. Records Bureau. To the 30 April, 24,400 persons have been recorded, of whom 13,950 have been evacuated, 3,000 present whereabouts unknown, the remainder in camps or residents at known addresses (own or employers), 300 in hospital, 42 dead. 31 nationalities are involved. About 600 RED CROSS messages have been sent out, but as the International Red Cross are now established and have made their services available through Italian post offices in Southern Italy, it has been advocated that this service should be used wherever possible. If it is impossible for the individual to use this service, messages can be sent through the Records Bureau.

59. Repatriation. Work on the selection of Jewish principals to send to PALESTINE within the limits of certificates authorised has been dealt with and it is expected that some 600 immigrants will leave for PALESTINE at the end of May.

60. Statistics. As at 1st May (unless otherwise stated):-

Refugee population in Camps and Hospitals	-	7458 +
Reception during April (by ship)	-	7708 =
Reception by means other than ship	-	12
Shipped to Middle East	-	3571

\+ includes 676 Partisan trainees
= of which 2601 were women, 3796 were children under 16 years.

Gross total shipped to Mideast to date - 19820

REFUGEES (ITALIAN).

61. The Italian military personnel working under the direction of the Refugee Branch for handling refugees from the forward areas has been increased from 58 to 85 officers and from 381 to 767 Other Ranks.

Movement during the month:-

From ANZIO by sea	-	8539
From 5 Army by road/rail	-	1403
From 8 Army by rail	-	656

To dispersal areas southwards:

To Region I (Sicily)	-	5496
To Region II (Bari Province)	-	628
To Region III (Avellino Prov)	-	1336
(Naples Province)	-	2411
(Salerno Province)	-	1469

62. Whilst there is some improvement in the settlement of refugees by the Italian authorities there is still not enough. Efforts to stimulate the local authorities continue to be made by ACC assisted by officers of the Red Cross Organisation. Establishment of feeding points en route has greatly ameliorated the rigours of the train journeys.

93 63. An additional camp was opened at CAPUA and is operating successfully. A camp is in course of preparation in the FOGGIA area and should be ready to receive refugees by mid-May. (This camp is now operating and will be used in connection with harvesting operations if not required for refugees). Aversa

93 63. An additional camp was opened at CAPUA and is operating successfully. A camp is in course of preparation in the FOGGIA area and should be ready to receive refugees by mid-May. (This camp is now operating and will be used in connection with harvesting operations if not required for refugees). Aversa Camp had to be closed for two weeks owing to an outbreak of typhoid fever. It is now in operation again.

PUBLIC RELATIONS.

64. The relationship between PRB, HQ and the Regions was more clearly defined and a weekly bulletin was started.

65. Assistance of various kinds was offered to newsmen; precis and trends of copy concerning ACC affairs were prepared, press conferences were arranged - notably one for Mr. Murphy and Mr. MacMillan, which was attended by 28 correspondents - and facilities of transport and liaison offered to reporters covering the change in

Declassified E.O. 12356 Section 3.3/NND No. 785017

Italian Government and Cabinet meetings. PRB also assisted in organising Italian Ufficio Stampa in Salerno, with a branch in Naples. Photographs were taken of activities of interest: delivery of bread in Naples, work of Education and Fine Arts Sub-Commissions, and personalities of Italian Government.

66. With PWB arrangements were made for publication of a soldier's guide to Rome; this has been printed with a foreword by General Sir H. Alexander. Work was continued with Central and Local Allied Publications Boards. Pre-censorship has been abolished but a reminder on the procedure for military censorship was sent to Italian Government. A scheme for a new Press decree has been discussed with Chief Legal Officer and is in preparation.

HEADQUARTERS
ALLIED CONTROL COMMISSION
APO 394

REPORT FOR MARCH 1944

1. Certain reorganization and redistribution in the army areas has resulted in corresponding redistribution and changes in the Allied Military Government personnel attached to them. This has been accomplished the more easily because of the static nature of operations along the whole front. At the end of the month all AMG personnel were in position and ready for whatever calls future operations may make upon them.

2. In the areas handed over to the Italian Government, Regional and Provincial Commissioners are taking stock of the situation and feeling their way slowly in the change from Executive to Advisory status. The new relationship between the Italian Government, the people and themselves needs delicate adjustment because the people still rely in many cases on the American and British officers who have been in charge of their affairs since the invasion last Autumn and in many cases remain the same individuals. The numbers are being very substantially reduced but this adjustment is a delicate one and time must be allowed for the people so long benumbed and muzzled by Fascist officialdom to realize that they have in fact regained their freedom. This is made the more difficult because the bulk of officials were and had to be Fascists to earn their daily bread. The appointment of an efficient man nearly always means the appointment of a Fascist in some degree, with resulting criticism from both press and people. Machinery is now set up in agreement with the Italian Government for a systematic scrutiny and cleansing of the entire Italian administrative machine in all occupied territory, both Italian Government and Allied Military Government Regions.

3. Meanwhile, the administration is suffering from certain inherent disabilities consequent on the character of the Italian people and the nature of our occupation. A Prefect cannot do so much as an alien Governor, yet the natural normal tempo of Italian Government (in peace time) cannot be permitted without serious detriment to the war effort. This is where constant adjustment is necessary and if progress may seem slow it should be remembered that pressure on the Italian Government is only applied when absolute military necessity demands.

932 - 4. In the AMG territory, Regions IV and V are either not yet occupied or very partially so. Region III is completely occupied, though one of their four Provinces, Salerno, which is the seat of the Italian Government, has been handed over to them. In this Region great progress

Declassified E.O. 12356 Section 3.3/NND No. 785017

in the Allied Military Government personnel attached to them. This has been accomplished the more easily because of the static nature of operations along the whole front. At the end of the month all AMG personnel were in position and ready for whatever calls future operations may make upon them.

2. In the areas handed over to the Italian Government, Regional and Provincial Commissioners are taking stock of the situation and feeling their way slowly in the change from Executive to Advisory status. The new relationship between the Italian Government, the people and themselves needs delicate adjustment because the people still rely in many cases on the American and British officers who have been in charge of their affairs since the invasion last Autumn and in many cases remain the same individuals. The numbers are being very substantially reduced but this adjustment is a delicate one and time must be allowed for the people so long benumbed and muzzled by Fascist officialdom to realize that they have in fact regained their freedom. This is made the more difficult because the bulk of officials were and had to be Fascists to earn their daily bread. The appointment of an efficient man nearly always means the appointment of a Fascist in some degree, with resulting criticism from both press and people. Machinery is now set up in agreement with the Italian Government for a systematic scrutiny and cleansing of the entire Italian administrative machine in all occupied territory, both Italian Government and Allied Military Government Regions.

3. Meanwhile, the administration is suffering from certain inherent disabilities consequent on the character of the Italian people and the nature of our occupation. A Prefect cannot do so much as an alien Governor, yet the natural normal tempo of Italian Government (in peace time) cannot be permitted without serious detriment to the war effort. This is where constant adjustment is necessary and if progress may seem slow it should be remembered that pressure on the Italian Government is only applied when absolute military necessity demands.

932 - 4. In the AMG territory, Regions IV and V are either not yet occupied or very partially so. Region III is completely occupied, though one of their four Provinces, Salerno, which is the seat of the Italian Government, has been handed over to them. In this Region great progress has been made in spite of many difficulties. The general condition of the people continued to improve during March, partly due to increased food and trade, and partly also due to more vigorous administration. All the problems caused by large concentrations of foreign troops of various nationalities were present, and the eruption of Vesuvius created an appreciable problem quite of its own.

Declassified E.O. 12356 Section 3.3/NND No. 785017

5. Efforts during March to improve the administration of Italian agencies were concentrated largely on attempts to instil initiative into local officials and to get them to assume greater responsibility. Frustration of this objective was encountered in two major aspects: The incompetency of several key officials for whom immediate replacements were not available and the inadequacy of procedure and organization to accomplish a satisfactory job. In spite of this, considerable progress was made in preparing the Italian administrative machine for the assumption of responsibility.

6. In Region III the Regional Commissioner has instituted progressive schemes for the improvement of provincial and communal public assistance and child welfare departments. Soup kitchens feeding 10,000 per day were reopened. A nutritional survey covering 148 boys and 123 girls which was started in February was continued in March.

7. In the same Region a vigorous drive against the black market was undertaken with civilian aid through citizen squads charged with reporting exhorbitant prices and trading irregularities. The complete scheme requires to be developed but a good start has been made.

8. Summary and Superior Courts have been set up in sufficient numbers in Naples City and Province to deal with the large number of cases. These courts sit daily. A General Military Court has been convened in three instances. A total of 4908 cases were disposed of during the month.

POLITICAL

9. On March 4, 1944, it was locally reported that President Roosevelt had stated at a press conference in Washington that one-third of the Italian fleet which had surrendered to the United Nations would be made available to the Soviet Government. This gave rise to the interpretation in Liberated Italy that the United States and Great Britain intended to hand over a number of Italian vessels to the Soviets. The Government and Italian public opinion as a whole were deeply disturbed by the implications of such a proposal and the Government threatened to resign. Further statements by the President and Mr. Churchill eased the situation. It is generally believed that Badoglio's position was reinforced by the strong stand he had taken against a transfer.

10. As a result of the agreement with the Allied authorities cancelling the strike on March 4, the Party of Action, Socialist and Communist Parties and the Confederation of Labor held a mass meeting in Naples on March 12. The meeting approved a resolution to intensify Italy's war effort [illegible]

Declassified E.O. 12356 Section 3.3/NND No. 759017

...ing the Italian administrative machine for the assumption of responsibility.

6. In Region III the Regional Commissioner has instituted progressive schemes for the improvement of provincial and communal public assistance and child welfare departments. Soup kitchens feeding 10,000 per day were reopened. A nutritional survey covering 148 boys and 123 girls which was started in February was continued in March.

7. In the same Region a vigorous drive against the black market was undertaken with civilian aid through citizen squads charged with reporting exhorbitant prices and trading irregularities. The complete scheme requires to be developed but a good start has been made.

8. Summary and Superior Courts have been set up in sufficient numbers in Naples City and Province to deal with the large number of cases. These courts sit daily. A General Military Court has been convened in three instances. A total of 4908 cases were disposed of during the month.

POLITICAL

9. On March 4, 1944, it was locally reported that President Roosevelt had stated at a press conference in Washington that one-third of the Italian fleet which had surrendered to the United Nations would be made available to the Soviet Government. This gave rise to the interpretation in Liberated Italy that the United States and Great Britain intended to hand over a number of Italian vessels to the Soviets. Further statements by the President and Mr. Churchill eased the situation. It is generally believed that Badoglio's position was reinforced by the strong stand he had taken against a transfer.

10. As a result of the agreement with the Allied authorities cancelling the strike on March 4, the Party of Action, Socialist and Communist Parties and the Confederation of Labor held a mass meeting in Naples on March 12. The meeting approved a resolution to intensify Italy's war effort, that the National Administration be purged beginning with the supporters of the Monarchy, and that a Democratic Government composed of all political parties be created. It is noteworthy that this was the first proclamation of any of the parties condemning the Monarchy as an institution.

Declassified E.O. 12356 Section 3.3/NND No. 785017

11. The mass meeting was to be followed by the preparation of a petition to demonstrate the extent of popular support of the opposition. It would appear that the Communists have now become indifferent and it seems likely that the whole plan will be dropped. This change of attitude of the Communists has no doubt been influenced by the announcement that the Soviet and Italian Governments had agreed to exchange diplomatic representatives.

12. Following conversations between the Soviet representative, M. Bogomolov, and Marshal Badoglio, the Italian Government issued a statement on March 14 that agreement had been reached with the Soviet Government to exchange diplomatic representatives. No prior consultation with the British and American Governments had taken place, and following Anglo-American inquiries at Moscow, it appeared that the intention of the Soviet Government was not to derogate from the authority either of the Allied Control Commission or of the Advisory Council for Italy. In fact, the Soviet appointment of the diplomatic representative carries only the rank of Counsellor or Minister and he will be under the orders of the Soviet representative on the Advisory Council for Italy. There is no doubt that the Soviet move has had a marked influence throughout Liberated Italy. Some consider that it will strengthen the hand of the Badoglio Government and others believe that it will increase the influence of the Communist Party throughout Italy. There is no question that since the announcement was made, the tone of the Communist press and Communist declarations has altered. Many rumors are current that this will lead to changes in the Government and possibly even in the King's position in the near future.

13. The leader of the Communist Party in Italy, Mario Togliatti, otherwise known as Ercoli, arrived in Italy on the 26th of March from Moscow after eighteen years of exile. Immediately following his arrival the leaders of the Communist Party met in Naples and indications are that his leadership will be undisputed.

14. Marshal Badoglio paid a short visit to Sicily at the end of the month to be present for the induction into office of Francesco Musotto, the newly appointed High Commissioner for Sicily. The Marshal made an excellent impression in Sicily where he was given a warm welcome.

FINANCE

15. Joint Directorate:- During March appointment of a Joint Directorate for the Finance Subcommission was announced, consisting of Colonel E. H. Foley, Jr., (A) and Colonel A. P. Graffiey-Smith, (B).

931

Declassified E.O. 12356 Section 3.3/NND No. 735017

ment issued a statement on March 14 that agreement had been reached with the Soviet Government to exchange diplomatic representatives. 13. The leader of the Communist Party in Italy, Mario Togliatti, otherwise known as Ercoli, arrived in Italy on the 26th of March from Moscow after eighteen years of exile. Immediately following his arrival the leaders of the Communist Party met in Naples and indications are that his leadership will be undisputed.

14. Marshal Badoglio paid a short visit to Sicily at the end of the month to be present for the induction into office of Francesco Musotto, the newly appointed High Commissioner for Sicily. The Marshal made an excellent impression in Sicily where he was given a warm welcome.

FINANCE

931 15. Joint Directorate:- During March appointment of a Joint Directorate for the Finance Subcommission was announced, consisting of Colonel E. H. Foley, Jr., (A) and Colonel A. P. Graffrey-Smith, (B).

16. U. S. War Department Finance Mission:- In March the Theater was visited by a United States War Department Mission. The Mission was primarily interested in the accounts and records maintained by the Finance Subcommission and the procedures under which supplies and funds are accounted for. The Mission visited Naples, Salerno, and Palermo, and held discussions with sections of the Finance Subcommission and other Subcommissions.

Declassified E.O. 12356 Section 3.3/NND No. 785017

17. The Lire Exchange Rate:- Since his appointment to the post, the Italian Minister of Finance has maintained that the exchange rate of 100 lire to the dollar and 400 lire to the pound is the principal cause of the inflation in Italy. He argues that the rate has been responsible for two reasons: Because it has caused Italian sellers to demand higher lire prices and Italian buyers to be willing to pay such prices; and because it has given Allied troops an excessive purchasing power in Italy. On 24 February Marshal Badoglio submitted a statement to ACC requesting that the dollar value of the lire be increased. The request was rejected on the grounds that the Italian Government deficit, and not Allied troop expenditures, has obscured its own failure to prevent its revenues from declining and its expenditures from increasing.

18. Control of Advances and Currency:- As from 1 April, advances on the Italian Government account in King's Italy or AMG Regions must be cleared through Finance Subcommission Headquarters in order to make possible an examination of the cash position of the government as a whole. Thus the Italian Government deficit will be financed in the normal way through the central bank, the Banca d'Italia.

19. Preparation of a new Italian Government Currency:- Samples of the new Italian Government lire currency prepared in the U.S. has been brought to this country. All Fascist symbolism has been removed from the design of the new Banca d'Italia and State notes. The King's portrait, which formerly appeared only on the 5 and 10 lire State notes, has been omitted from the new design. The proposed designs were accepted by the Minister of Finance, subject to certain minor technical changes.

20. Remittances from the U.S. and the U.K:- The Banco di Napoli is now prepared to act as agent for effecting personal remittances to Sardinia and ten provinces of southern Italy.

21. Proposals have been made to the Italian Government for the revision of the Italian tax system. A plan by which the turnover tax can be made to reflect more closely actual current turnovers, has also been brought to the notice of the Minister.

ECONOMICS, RESOURCES & SUPPLY

22. Food:- The food situation continued to improve with the arrival of supplies other than wheat and flour, such as meat and vegetable stew, dried pulses and dehydrated soup. Plans for handling all food items have been improved.

23. Existing ration scales have been reviewed and a start has been made on a check of ration cards. Prosecution of persons responsible for illegal manipulations of ration cards are being

Declassified E.O. 12356 Section 3.3/NND No. 785017

ment to ACC requesting that the dollar value of the lire be increased. The request was rejected on the grounds that the Italian Government deficit, and not Allied troop expenditures, has obscured its own failure to prevent its revenues from declining and its expenditures from increasing.

18. Control of Advances and Currency:- As from 1 April, advances on the Italian Government account in King's Italy or AMG Regions must be cleared through Finance Subcommission Headquarters in order to make possible an examination of the cash position of the government as a whole. Thus the Italian Government deficit will be financed in the normal way through the central bank, the Banca d'Italia.

19. Preparation of a new Italian Government Currency:- Samples of the new Italian Government lire currency prepared in the U.S. has been brought to this country. All Fascist symbolism has been removed from the design of the new Banca d'Italia and State notes. The King's portrait, which formerly appeared only on the 5 and 10 lire State notes, has been omitted from the new design. 20. Remittances from the U.S. and the U.K:- The Banco di Napoli is now prepared to act as agent for effecting personal remittances to Sardinia and ten provinces of southern Italy.

21. Proposals have been made to the Italian Government for the revision of the Italian tax system. A plan by which the turnover tax can be made to reflect more closely actual current turnovers, has also been brought to the notice of the Minister.

ECONOMICS, RESOURCES & SUPPLY

22. Food:- The food situation continued to improve with the arrival of supplies other than wheat and flour, such as meat and vegetable stew, dried pulses and dehydrated soup. Plans for handling all food items have been improved.

23. Existing ration scales have been reviewed and a start has been made on a check of ration cards. Prosecution of persons responsible for illegal manipulations of ration cards are being instituted and a real drive on the black market has been started.

24. Mining:- Work in the Sardinian mines proceeded but the absence of explosives and pit props has resulted in decreased production.

25. During the month, supplies were demanded for other productive industries including 8 metal mines, two lead smelters and a sulphuric acid plant.

Declassified E.O. 12356 Section 3.3/NND No. 783017

26. Hemp:- Production has been increased; the output for March was:

Hemp & Tow	1,470 tons
Canvas	64,911 metres
Ropes	4,375 quintals
Sacks & sacking	102,320
Binder twine	80 quintals

The production of binder twine, for which the demand is increasing, is insufficient.

27. Seventy-eight industrial plants have now been surveyed covering heavy industries, soap manufacture, olive oil refining, food processing, industrial gases, leather, footwear, clothing, cloth, sewing threads, silk and tobacco. Sewing threads ("findings") in particular will help to meet the clothing deficiency by increasing the possibility of repairs. Importation of Egyptian cotton will be necessary.

28. Requisitions:- As the result of a close examination of the many demands, 1748 separate items representing estimated shipments of 465,000 long tons, were requisitioned during the month.

29. Exports:- Shipments during the month:

To U.K. -	Lemons	3800 tons
	Oranges	550 tons
	Lemon juice	140 tons
	Orange oil	7 tons
	Lemon oil	64 tons
	Almonds (unshelled)	2920 tons
	Pumice	50 tons
	Filberts	73 tons
	Argols	36 tons
	Mustard seed	47 tons
To U.S. -	Cadmium	1 ton

AGRICULTURE, FORESTRIES & FISHERIES

30. Potatoes:- Thirty-seven thousand tons of seed potatoes have been received. One thousand tons were diverted to civilian food uses, two thousand tons (approx.) to army rations whilst there has been an estimated loss due to pilferage and deterioration of 10% to 20% of the total. The remainder has been distributed though some plantings were late and so may be subject to weather hazards and consequent low yield.

940

31. Seeds:- All seed [illegible]

Declassified E.O. 12356 Section 3.3/NND No. 743017

The production of binder twine, for which the demand is increasing, is insufficient.

27. Sewing threads ("findings") in particular will help to meet the clothing deficiency by increasing the possibility of repairs. Importation of Egyptian cotton will be necessary.

28. Requisitions:- As the result of a close examination of the many demands, 1746 separate items representing estimated shipments of 465,000 long tons, were requisitioned during the month.

29. Exports:- Shipments during the month:

To U.K. -	Lemons	3800 tons
	Oranges	550 tons
	Lemon juice	140 tons
	Orange oil	7 tons
	Lemon oil	64 tons
	Almonds (unshelled)	2910 tons
	Pumice	50 tons
	Filberts	73 tons
	Angols	36 tons
	Mustard seed	47 tons
To U.S. -	Cadmium	1 ton

AGRICULTURE, FORESTRIES & FISHERIES

910 -

30. Potatoes:- Thirty-seven thousand tons of seed potatoes have been received. One thousand tons were diverted to civilian food uses, two thousand tons (approx.) to Army rations whilst there has been an estimated loss due to pilferage and deterioration of 10% to 20% of the total. The remainder has been distributed though some plantings were late and so may be subject to weather hazards and consequent low yield.

31. Seeds:- All seed stocks have been listed and it is intended to assist seed farmers in order that they may fit their production programmes into future world needs.

32. Timber and Fuel Wood:- Cutting of bridge and other heavy timbers continues under difficulties due to lack of suitable mills within haulage distance. Large supplies of fuel have been provided for the army and the work has provided employment for some refugees.

33. Fishing:- Night fishing has commenced in southern Italy and on the west and southern third of the east coasts of Sardinia. In the Naples bay area a fish marketing scheme is ready for operation in the first week of April.

(2)

Declassified E.O. 12356 Section 3.3/NND No. 785017

34. Beachhead Survey:- A survey of the Anzio Beachhead was made to estimate its potential for the current year. Nearly all the land suitable for seeding was planted before the landing and the growing wheat is in good condition. Little work is being done in the vineyards. There are many small gardens planted and well cared for. Sheep in the area are estimated at about twelve thousand, with about 30% lamb crop anticipated. It has been recommended that they, with 1000 head of cattle should be allowed to benefit from the improving grazing in the area and be used as food for Indian or French troops.

LABOUR

35. Representations were made to the Italian Government to ensure the validity in liberated territory of labour pronouncements and acts of the Allied Military Government until such time as substitute Royal decrees could be issued.

36. A threatened strike of electric workers on basic wage adjustments was averted by conference and without the necessity of making adjustments.

37. Wage studies were instituted during the month and draft legislation has been prepared for the establishment of labour offices and the regulations for collective bargaining. An increase in the food ration is, however, the real issue and this aspect has been examined with the other authorities concerned.

PUBLIC WORKS AND UTILITIES

38. Highway Reconstruction:- Progress is slow owing to difficulties encountered in persuading the Italian authorities to take over administrative responsibilities which absorb the energies of A.C.C. officers who should be otherwise employed. Nevertheless, progress has been made with the improvement of between 3500 and 4000 km. of highways. Twenty-two contracts totalling nearly 42,000,000 lire have now been let and a further eleven projects are under consideration in the Army zones.

39. Electricity:- Numerous distribution problems have been settled and the rationing scheme, developed during February, was completed during the month.

40. Sunken Ships:- The raising and salvage of sunken ships has been made a responsibility of the Public Works Ministry and work will shortly begin on the raising of two salvage craft in Reggio harbor.

COMMUNICATIONS

41. Transportation:- The road haulage transport organi-

39. Electricity:- Numerous distribution problems have been settled and the rationing scheme, developed during February, was completed during the month.

40. Sunken Ships:- The raising and salvage of sunken ships has been made a responsibility of the Public Works Ministry and work will shortly begin on the raising of two salvage craft in Reggio harbor.

COMMUNICATIONS

41. Transportation:- The road haulage transport organization is proceeding with the allocation of trucks and training of personnel. Five hundred and fifty trucks (300 6x6 2½ ton American and 250 4x2 3 ton British) are available for Italian haulage companies. The 1001 General Transport Coy (Italian), controlled by a British cadre, is now operating in forward areas.

42. Civil movement by railway is still restricted due to the priority requirements of the army but essential civil freight traffic is being conveyed on military trains. Suburban workers trains are inactive. From 1st March the supervision of the Sicilian Railways became the responsibility of the Commission.

Declassified E.O. 12356 Section 3.3/NND No. 783017

43. Telecommunications:- The internal telegraph service has been restored between all parts of Italian Government controlled territory and the islands, except Sardinia. Except for official calls, no permission has yet been granted for civil telephone services outside urban areas.

44. Mails:- The internal and foreign mail service has been extended to include parts of Region III south of the rear army boundaries. Special services have been arranged for the Vatican and International Red Cross.

LEGAL

45. Frequent consultations with the Italian Government are necessary on the various problems on property control that have now arisen.

46. Italian Section:- Trials in Italian courts of Italians for offences against Allied interests, particularly in Catanzaro and the Apulia Provinces have been speeded up whilst there has been a marked improvement throughout Region III.

47. A gradual transfer of cases from Allied Military Courts to Italian Courts, with evacuation of premises occupied by Allied Courts, has been arranged.

48. Allied Courts:- In Region II trials by Allied Courts of cases pending prior to the transfer have ended. In Region III, by attachment of spare legal officers from other Regions, congestion has been greatly relieved.

49. One feature is the exceptional number of spy cases; the Court has been in practically constant session. Fifteen were sentenced to death during the month and other sentences up to twenty years imprisonment have been imposed.

INTERIOR

50. A Royal Decree is in preparation dealing with the reconstitution of local government. A course of lectures and practical work on all aspects of Italian local government was held during the month for Provincial Officers. Further courses will be held at intervals.

PUBLIC SAFETY

929 -

51. Police:- The Carabinieri Reale and Guardia di Finanza, are regaining their confidence and becoming more efficient bodies.

50. A Royal Decree is in preparation dealing with the reconstitution of local government. A course of lectures and practical work on all aspects of Italian local government was held during the month for Provincial officers. Further courses will be held at intervals.

PUBLIC SAFETY

929 -

51. Police:- The Carabinieri Reale and Guardia di Finanza, are regaining their confidence and becoming more efficient bodies.

52. Fire and Civil Defence:- In Region III a reduction of Civil Defence paid personnel has been effected and there is more supervision of volunteers. Schemes are in preparation for the interchange of officers of fire brigades and the pooling and distribution of equipment and supplies.

53. Motor Vehicle Circulation:- Plans for registration and licensing of vehicles, the issue of circulation permits and the authorization of petrol and oil supplies have been completed. They are being put into operation in both Italian Government and Military Government territory.

(2)

Declassified E.O. 12356 Section 3.3/NND No. 775017

54. Prisons:- Prisons in Regions II and VI are overcrowded. Those in Region III are full. These conditions are attributable to:-

(a) Distruction or damage caused to prisons by Military operations.

(b) The use of prison accommodation by Allied Forces.

(c) The increased number of arrests.

(d) Delay in bringing prisoners to trial.

(e) Confinement of Italian Military prisoners in civil prisons.

Orders have been issued for a general survey of prisons with particular reference to accommodation, retuilding, sanitation and hygiene and in the provision of work for prisoners. The supply of soap and disinfectants is unsatisfactory.

PUBLIC HEALTH

55. The general health of the population continues good. Due to the activities of the Typhus Control Service the incidence of typhus is so reduced that it need no longer be considered a menace. The work of the service is now to be handled by the Rockefeller Foundation and the Italian Civilian medical and lay group.

56. Additional campaigns are:

(a) Disposal of refuse.

(b) Anti-Malaria.

(c) Venereal disease and prostitution.

(d) Veterinary measures and the control of rabies.

Progress is being made in (a) in all large towns and communes, particularly in areas occupied or frequented by Allied troops. The Malarial control section has been set up to direct and advise all areas. Hospital beds are being provided for venereal infected prostitutes and there is an improvement in the V.D. incidence. More stringent police control has been called for from the Italian Government and a proposal made for the creation of a V.D. Division within the Italian Public Health organization. Veterinary surveys have been made for the increased production of biological preparations. Anti-rabies laws are fairly well enforced, but improvements are necessary.

57. Medical Supplies:- Continue to arrive satisfactorily. Warehousing of stocks of American Red Cross clothing has been undertaken by medical supply section [illegible]

57. Medical Supplies:- Continue to arrive satisfactorily. Warehousing of stocks of American Red Cross clothing has been undertaken by medical supply section now that distribution has been properly organized.

58. Welfare:- The formulation of a unified Italian welfare program for all territory under the control of the Italian Government has been under discussion.

Declassified E.O. 12356 Section 3.3/NND No. 785017

EDUCATION

59. Schools:- Opening of schools has continued in Foggia and Bari though many difficulties over accommodations have been encountered. Picture theaters, teachers homes, sacristies and unused tramway cars have been used as class rooms.

60. Textbooks:- Of the ten text books being prepared for the elementary schools two are ready for distribution and the others will be available shortly. Distribution includes sale by booksellers in each provincial center. Each text book has a preface giving suggestions to teachers and pupils for the modernization of the school program. In Region I, and Calabria four of the books have already been published.

61. Copy books:- Waste paper from the text books has been salvaged for the preparation of 200,000 copy books which will be sold to pupils through the provveditore at a nominal cost. Other writing paper will be distributed gratis.

62. Defascistization of teachers and school officials is proceeding and dismissals have been recommended to the Minister. A plan for classifying all teachers and officials is being prepared.

63. Youth Committees:- Youth Committees established in Naples have considered the following:

(a) For University students, establishing a political forum, a students mess and printing house.

(b) For "Scuole medie Superiore" the establishment of clubs in the secondary schools (the first has already been started) and the publication of a newspaper.

(c) For "Scuole Elementiare" a detailed plan for furnishing meals to school children. The plan will be operated in conjunction with the Public Health and Welfare organizations.

MONUMENTS, FINE ARTS & ARCHIVES

64. Protection of Monuments:- Action taken on the recommendations of the "Collier" report includes:

(a) Preparation of lists of protected monuments of Italy.

(b) Preparation of a pamphlet for the Army Bureau of Current Affairs (ABCA).

y2?

MONUMENTS, FINE ARTS & ARCHIVES

64. Protection of Monuments:- Action taken on the recommendations of the "Deliler" report includes:

(a) Preparation of lists of protected monuments of Italy.

(b) Preparation of a pamphlet for the Army Bureau of Current Affairs (ArCa).

(c) Evacuation of troops from buildings ranked as monuments.

(d) Establishment of guards at places where evacuation is not possible.

(e) Issue of air photographs showing the location of monuments of historical, cultural and religious importance in Italy to formations of MAAF, on request of the Commander.

922

(2)

Declassified E.O. 12356 Section 3.3/NND No. 785017

65. Publications and publicity regarding monuments, Fine Arts and Archives have been discussed with Public Relations branch; the intention being to educate the armed forces and the public on the importance of the preservation of monuments.

PROPERTY CONTROL

66. Measures have been concerted with the Italian Government on the legislative and administrative details required to regularize the position of the Controller of Property in restored territory. By agreement, the Italian Government will:-

(a) Pass a decree in general terms suspending the application to United Nations and French property of the relevent provisions of the War Law of 1938.

(b) Instruct Prefects in restored territories to issue individual decrees revoking the sequestration of Allied and French properties and ordering the reconsignment of properties to the owner or his representative. Financial arrangements were agreed in principle, the details to be worked out between the responsible authorities.

67. In Region III, of the total of 336 real properties on which sequestration could have been effected under Italian law it has been found that in 27 cases sequestration was not carried out. Custody has been taken of 81 properties (including 17 at Capri). In 90 cases the securities or proceeds of sale have been transferred to Rome in North Italy. The total of business concerns being investigated is now 48, of which half have been taken into custody.

DISPLACED PERSONS

68. The bulk of the refugees handled are Yugoslavs and of these, approximately 96% are Yugoslav Partisans and 4% Royalists. The type of refugee has changed considerably during the last month. Those now coming are mainly old men and old women, women with large families and orphans. Practically no men fit for fighting are being received, and the overall proportion of those requiring medical care has increased. One orphan's home has been established and another is planned.

69. The medical situation has been eased by the assignment of six Italian Army medical officers to various camps and hospitals. Medical stores have been received from Central Medical Supply. Clothing is in short supply and thread and needles for Singer sewing machines are urgently needed. (See also para 27).

70. Records Bureau:- The Records Bureau though not a Red Cross responsibility has been set up by an officer of the British Red Cross, loaned for the purpose. Twelve thousand one hundred and thirty displaced persons have been recorded to date. Twenty-nine nationalities are represented; Yugoslavs accounting for 9,900. The total figure does not yet include 11,281 Yugoslavs

Declassified E.O. 12356 Section 3.3/NND No. 785017

(a) Pass a decree in general terms suspending the application to United Nations and French property of the relevant provisions of the War Law of 1938.

Twelve thousand one hundred and thirty displaced persons have been recorded to date. Twenty-nine nationalities are represented; Yugoslavs accounting for 9,800. The total figure does not yet include 11,281 Yugoslavs and Jews shipped to Middle East. There is also a service of inquiries.

Declassified E.O. 12356 Section 3.3/NND No. 785017

71. Statistics:- [All as at 31st March unless otherwise stated]

Refugee population in camps & hospitals	5751
Reception during March. arriving by ship	4404*
Entrained for other areas	4243
Reception by means other than ship	191
Number of wounded & sick in shipments	100
Shipped to Middle East	4916

*Of these 2428 were under 16 years of age and 1416 were women.

REFUGEES (Italian)

72. This branch now controls the activities of 58 Italian officers and 881 Italian ORs who are performing the majority of the tasks of handling the refugees from the forward areas.

73. Movement during the month has been as follows:-

From Anzio by sea	5538
From 5 Army by road/rail	6782
From 8 Army by rail	1165

To dispersal areas southwards:

To Province of Potenza	1929
To Province of Cosenza	3284
To Province of Catanzaro	4332
To Province of Reggio	3765

Region II is temporarily saturated and plans are being made for subsequent dispersals in Regions I and III. It is expected that 20,000 can be absorbed in Region I (Sicily).

74. The work of settling refugees into new areas is made more difficult by the indifference on the part of the Italian Government and people towards their fellow countrymen. The authorities have constantly to be prodded and are slowly being made to alter their attitude. Assistance is being given to the formation of reception, feeding and welfare committees.

PUBLIC RELATIONS

75. Correspondents are displaying greater interest in the work of the Commission. The Chief Commissioner held his second press conference on March 10 and requests for interviews and information have grown.

927

76. The eruption of Vesuvius called for special activity

Declassified E.O. 12356 Section 3.3/NND No. 785017

*Of these 2082 were under 16 years of age and 1416 were women.

REFUGEES (Italian)

73. Movement during the month has been as follows:-

From Anzio by sea	5533
From 5 Army by road/rail	6762
From 8 Army by rail	1108

To dispersal areas southwards:

To Province of Potenza	1929
To Province of Cosenza	3284
To Province of Catanzaro	4382
To Province of Reggio	3755

Region II is temporarily saturated and plans are being made for subsequent dispersals in Regions I and III. It is expected that 30,000 can be absorbed in Region I (Sicily).

74. The work of settling refugees into new areas is made more difficult by the indifference on the part of the Italian Government and people towards their fellow countrymen. The authorities have constantly to be prodded and are slowly being made to alter their attitude. Assistance is being given to the formation of reception, feeding and welfare committees.

PUBLIC RELATIONS

75. Correspondents are displaying greater interest in the work of the Commission. The Chief Commissioner held his second press conference on March 10 and requests for interviews and information have grown.

927

76. The eruption of Vesuvius called for special activity in the collection and release of accurate news. The material and photographs gathered are being worked into the record of the Commissions activities.

77. In the future there will be more effective reporting of Military Court proceedings, particularly in connection with the black market and sabotage cases. This should add to the effectiveness, as deterents, of the sentences imposed.

(2)

Declassified E.O. 12356 Section 3.3/NND No. 785017

78. Relations with the press generally are close and cordial. The associations and publications with which the branch has had contact during the month number 46, including American, British, Canadian, New Zealand, French and the newspapers published in Italy for Allied troops. There was continual contact with the P.W.B. and the furnishing of news for broadcasting and for the licensed local publications in Italian; "Risorgimento" - Naples and "Sicilia Liberata", etc.

Declassified E.O. 12356 Section 3.3/NND No. 785017

NOEL MacSTAPLETON
Lieutenant General
Chief Commissioner

C O N F I D E N T I A L

HEADQUARTERS
ALLIED CONTROL COMMISSION
[redacted]
APO 394

1. This report covers the activities of the Allied Control Commission in Regions I, II, III, V, VI and in the 5th and 8th Army areas during the month of February 1944, which was the first complete month of the united Headquarters under Lieutenant General Mason MacFarlane. As from 15 February, Foggia, the only territory which was being administered by Region IV, was placed in Region V.

POLITICAL

2. Upon the return to Naples of the delegates from the Congress of the six parties of National Liberation, which was held in Bari on January 28 and 29, the Executive Giunta was formed. The Giunta has met several times in Naples, one of its first acts being the dispatch of a communication to the King, which recited the decisions of the Bari Congress and invited him to abdicate forthwith. This communication was made on February 6, but has up to the present elicited no apparent action from the monarch or his Government. Pending further developments in this respect, which are however not anticipated, the Giunta is endeavoring to reach a greater degree of agreement in respect of the points not clarified at Bari. Count Sforza and Senator Croce, with whom the Giunta's terms of reference require it to maintain close association, are likewise attempting to bring about a compromise, which will enable the opposition to present a united program of action to the Badoglio Government and the Allies.

3. Meanwhile, as previously scheduled, the transfer of administration of the southern mainland provinces, Sicily and Sardinia to the Italian Government took place on February 11 and the Badoglio Government with the exception of the Defence Ministries began to operate from its new temporary capital of Salerno. The transfer created very little reaction throughout the territory concerned. Some regret has been expressed that this handing back of territory seemed to show the intention of the Allies to strengthen the Badoglio Government.

4. At Taranto two manifestations of labor disturbances occured during the first week in February which resulted in the removal of the Prefect but did not take the form of the threatened strike among the dock workers. Although the alleged cause had been lack of food and dissatisfaction with working conditions, investigation indicates that the underlying reason was political in order to discredit the government.

926

5. On 22 February the British Prime Minister made a state-

Declassified E.O. 12356 Section 3.3/NND No. 785017

complete month of the United Headquarters under Lieutenant General Mason MacFarlane. As from 15 February, Foggia, the only territory which was being administered by Region IV, was placed in Region V.

POLITICAL

2. Upon the return to Naples of the delegates from the Congress of the six parties of National Liberation, which was held in Bari on January 28 and 29, the Executive Giunta was formed. The Giunta has met several times in Naples, one of its first acts being the dispatch of a communication to the King, which recited the decisions of the Bari Congress and invited him to abdicate forthwith. This communication was made on February 6, but has up to the present elicited no apparent action from the monarch or his Government. Pending further developments in this respect, which are however not anticipated, the Giunta is endeavoring to reach a greater degree of agreement in respect of the points not clarified at Bari. Count Sforza and Senator Croce, with whom the Giunta's terms of reference require it to maintain close association, are likewise attempting to bring about a compromise, which will enable the opposition to present a united program of action to the Badoglio Government and the Allies.

3. Meanwhile, as previously scheduled, the transfer of administration of the southern mainland provinces, Sicily and Sardinia to the Italian Government took place on February 11 and the Badoglio Government with the exception of the Defence Ministries began to operate from its new temporary capital of Salerno. The transfer created very little reaction throughout the territory concerned. Some regret has been expressed that this handing back of territory seemed to show the intention of the Allies to strengthen the Badoglio Government.

926 4. At Taranto two manifestations of labor disturbances occured during the first week in February which resulted in the removal of the Prefect but did not take the form of the threatened strike among the dock workers. Although the alleged cause had been lack of food and dissatisfaction with working conditions, investigation indicates that the underlying reason was political in order to discredit the government.

5. On 22 February the British Prime Minister made a statement in the House of Commons that the "policy which His Majesty's Government have agreed to provisionally with the Government of the United States was to win the battle of Rome and take a new view when we are there." This statement was received with satisfaction in Royal and Governmental circles, but was taken by the opposition as a negative reply to their proposals. The Party of Action and the Socialist and Communist Parties in Naples decided to call a ten minute strike for eleven a.m. Saturday, 4th March, as a protest, but in order to emphasize that they did not intend any damage to the Allied war effort they called upon workers to do fifteen minute overtime during the luncheon period on the same day. It was made

Declassified E.O. 12356 Section 3.3/NND No. 785017

clear to the three parties and the union leaders that the Commander-in-Chief would not tolerate any strike under any circumstances in this area. Further announcement was therefore made at the last moment by the three parties and the Confederation of Labor cancelling the strike and announcing, in agreement with Allied authorities, that a public meeting should take place on Sunday, 12th March, in Naples and that a petition should be drawn up to demonstrate the extent of popular support of the opposition. No suspension of work in Naples area occured on 4th March.

6. Two large meetings were held in Palermo on successive Sundays and were attended by some 4000 people on each occasion. The first meeting, which was organized by the Free Sicily movement, favored the separation of Sicily from Italy and was openly hostile to the Monarchy and the Badoglio Government, while the second, sponsored by the Committee of Liberation, emphasized the need for unity as a prerequisite of liberty. Subsequent announcements in the local press by the parties which compose this committee show, however, that party differences are still supreme and self interest stronger than any sentiment for national unity. This self interest is emphasized by the fear among most men of military age that they may be recalled to the army.

7. In Sardinia political activity is increasing. It remains to be seen to what extent the local Concentrazione Anti Fasciste will hold together or how soon there will be a cleavage between parties of the left and center. The feeling for some form of increased autonomy for Sardinia is strong.

8. The Badoglio Government has announced the appointment of Signor Soriboni as High Commissioner for the purging of Fascism from public life. Soriboni was elected a Socialist Deputy in 1919, continued in active opposition to Fascism after the advent of Mussolini and was involved in an attempt on his life in 1923. Since that date he has been in prison and only reached the mainland of Italy from the island of Ponza with the arrival of Allied troops. He has expressed his intention of working in the closest possible collaboration with Allied authorities and his determination to carry out his duties with thoroughness and method. On accepting this post, he was expelled from the Socialist Party of Naples which continues to refuse to permit any of its members to collaborate with the Badoglio Government.

PUBLIC SAFETY

9. Public Security during the month can be said to have been "normal" in all Regions. No case of sabotage or subversive activities were reported but there were several cases of violence, including a few of shooting at British and American soldiers. Arrests were made in all cases. In the 5th Army area, Algerian and Moroccan troops have become involved in a considerable number of cases of alleged rape or attempted rape and have used fire-arms to enter houses.

10. The morale and efficiency of the Carabinieri, Guardia di Finanza and the other police agencies continues on the whole

Declassified E.O. 12356 Section 3.3/NND No. 785017

favored the separation of Sicily from Italy and was openly hostile to the Monarchy and the Badoglio Government, while the second, sponsored by the Committee of Liberation, emphasized the need for unity as a prerequisite of liberty. Subsequent announcements in the local press by the parties which compose this committee show, however, that party differences are still supreme and self interest stronger than any sentiment for national unity. This self interest is emphasized by the fear among most men of military age that they may be recalled to the army.

7. In Sardinia political activity is increasing. It remains to be seen to what extent the local Concentrazione anti Fasciste will hold together or how soon there will be a cleavage between parties of the left and center. The feeling for some form of increased autonomy for Sardinia is strong.

8. The Badoglio Government has announced the appointment of Signor Carlucci as High Commissioner for the purging of Fascism from public life. Carlucci was elected a Socialist Deputy in 1919, continued in political opposition to Fascism after the advent of Mussolini and was involved in the attempt on his life in 1926. Since that date he has been in prison and only reached the mainland of Italy from the island of Ponza with the arrival of Allied troops. He has expressed his intention of working in the closest possible collaboration with Allied authorities and his determination to carry out his duties with thoroughness and method. On accepting this post, he was expelled from the Socialist Party of Naples which continues to refuse to permit any of its members to collaborate with the Badoglio Government.

PUBLIC SAFETY

9. Public Security during the month can be said to have been "normal" in all Regions. No case of sabotage or subversive activities were reported but there were several cases of violence, including a few of shooting at British and American soldiers. Arrests were made in all cases. In the 5th Army area, Algerian and Moroccan troops have become involved in a considerable number of cases of alleged rape or attempted rape and have used fire-arms to enter houses.

10. The morale and efficiency of the Carabinieri, Guardia di Finanza and the other police agencies continues on the whole to be good and useful work was accomplished by them in all regions. Examples of their activities are, policing of ports and railways, checking civilian vehicles at road blocks in search of contraband, dealing with the problems of venereal disease and the prompt dispersal of various minor disturbances, all in connection with the desire for more food. A decision by [redacted] the Carabinieri and the Guardia di Finanza are to be militarized, in so far as rations, uniforms and equipment are concerned, as parts of the

Declassified E.O. 12356 Section 3.3/NND No. 785017

Italian Armed Forces, should have a very good effect on morale.

11. Extracts from civilian mails collected by the censors have proved a useful means of assessing public morale in various parts of the country. Allegations of black market activities by named individuals have proved of value.

12. The prison situation remains satisfactory. In Sardinia there is considerable congestion and steps to relieve it are being taken (see paragraph 19 of this report).

13. The publication of General Order No. 20 which relates to the issue of motor vehicles and petroleum permits was delayed pending discussions with the Italian Government in regard to their issuing a similar order in their territory.

ALLIED COURTS

14. Allied Courts continued to function satisfactorily during February. Totals of cases disposed of were much the same as the previous month, namely, around 300 for the army areas and around 600 for the other regions. An exception was Region III in which no less than 4207 cases were tried in Allied Courts, of which 3840 resulted in convictions. This large number is due mainly to curfew and petty theft cases in the city of Naples. In all regions the large proportion of the cases dealt with were for very minor offences.

15. Among the more important cases tried were those of the leader of a gang of mail robbers in Bari, of a man charged with murdering an Allied soldier in Catanzaro and 75 persons in Reggio for taking part in disturbances. The mail robber was sentenced to death for interference with Allied mail. Those convicted of disturbing the peace in Reggio received sentences ranging from three months to ten years. 336 grain cases were tried in Matera Province. Four cases of wire cutting were dealt with in Sicily and in the 5th Army area a man was charged with espionage before a General Military Court but was acquitted.

ITALIAN COURTS

16. During the month H. E. Guiseppe de Santis, who had been acting for some months as Minister of Justice, was replaced by H. E. Ettore Casati. The Ministry of Justice was at all times cooperative and the transaction of business between it and the Legal Subcommission was smooth and expeditious.

17. The Italian Corti-d'Appelo at Avellino and Benevento have been reopened. Two officers, specialists in Italian law, were loaned to Region III to aid the Regional Legal Officer and his Italian Court Officer in bringing about the more efficient functioning of the Italian courts and securing peace for the conduct of such courts.

18. In Region II the Italian Courts are functioning satisfactorily except in Apulia where little or no progress was being

Declassified E.O. 12356 Section 3.3/NND No. 785017

their issuing a similar order in [illegible] Territory.

ALLIED COURTS

14. Allied Courts continued to function satisfactorily during February. Totals of cases disposed of were much the same as the previous month, namely, around 300 for the army areas and around 600 for the other regions. An exception was Region III in which no less than 4207 cases were tried in Allied Courts, of which 3840 resulted in convictions. This large number is due mainly to curfew and petty theft cases in the city of Naples. In all regions the large proportion of the cases dealt with were for very minor offences.

15. Among the more important cases tried were those of the leader of a gang of mail robbers in Bari, of a man charged with murdering an Allied soldier in Catanzaro and 73 persons in Reggio for taking part in disturbances. The mail robber was sentenced to death for interference with allied mail. Those convicted of disturbing the peace in Reggio received sentences ranging from three months to ten years. 336 grain cases were tried in Matera Province. Four cases of wire cutting were dealt with in Sicily and in the 5th Army area a man was charged with espionage before a General Military Court but was acquitted.

ITALIAN COURTS

16. During the month H. E. Guiseppe de Santis, who had been acting for some months as Minister of Justice, was replaced by H. E. Ettore Casati. The Ministry of Justice was at all times cooperative and the transaction of business between it and the Legal Subcommission was smooth and expeditious.

17. The Italian Corti-d'Appelo at Avellino and Benevento have been reopened. Two officers, specialists in Italian law, were loaned to Region III to aid the Regional Legal Officer and his Italian Court Officer in bringing about the more efficient functioning of the Italian courts and securing space for the conduct of such courts.

925 18. In Region II the Italian Courts are functioning satisfactorily except in Apulia where little or no progress was being made before February 11th in the trial and punishment of civilian offenders against the Allied Forces, many of whom had committed serious crimes. Constructive steps are being taken to remedy this situation.

19. The crowded state of the jails is a disturbing feature of the present situation in Sardinia. Of the 500 inmates of Cagliari jail only 8 have received legal trial. The situation is

Declassified E.O. 12356 Section 3.3/NND No. 785017

rendered difficult by the dispersion of the judiciary in a number of small villages and the lack of suitable accommodations in Cagliari. At the beginning of March an officer with wide knowledge of Italian law proceeded to Sardinia to help clear up the situation with regard to Italian courts in that island.

20. In Region V the Court of Assize opened at Lucera on 19 February and disposed of 5 cases. The tribunali of both Foggia and Lucera have been in constant session throughout the month, and arrangements have been made for the Court of Appeal to open in Lucera on April 1st.

21. In other areas no special problems have arisen during the month and Italian Courts have functioned with reasonable efficiency, if somewhat slowly. The policy of handing over to these Courts all possible cases except where military interests are directly involved is being developed.

ECONOMICS, RESOURCES AND SUPPLY

Food

22. The food situation improved during the month in all Regions. On February 7th the bread ration was increased to 200 grams per capita per day and in some regions a limited amount of pasta was made available. In other areas the 200 grams was distributed in the form of 150 grams of bread and the balance in flour, in order that the people could make pasta. The increased ration of bread, although less than normal, is nevertheless a sufficient subsistence ration and has been generally welcomed. Supplementary meals are available for heavy workers in some industries.

23. The arrival of a considerable quantity of sugar at Reggio made possible a general distribution throughout Region II on the basis of 200 grams per head per month. This distribution, the first for many months, has given great satisfaction. In this Region the milk situation, both tinned and fresh, has improved. In most areas soup, peas and beans were received in sufficient quantities to allow of a limited distribution. Dehydrated soup is, however, proving an unsatisfactory issue, since this food is not understood by the people and they do not want to accept it. Instructions as to its use in English and Italian are being prepared for general distribution. Considerable difficulty in distribution was experienced during the month due to heavy snowfalls in the mountain districts, preventing movement of transport, particularly in Compobasso Province. No communes, however, lacked basic rations for more than a day or two even in this province.

24 Supply officers in all Regions are trying to keep control of the constant tendency towards further inflation. Unfortunately, they receive very little real help from Italian officials, even in the areas handed back to the Italians, though promises and fair words are plentiful. Possibly this is due to the natural inertia of most Italian officials, or it may be that they take a realistic view of the fact that the only "work" a very large proportion of southern Italians have to do is the running of black market operations, a vocation in which most have

Declassified E.O. 12356 Section 3.3/NND No. 785017

the month and Italian [illegible]
efficiency, if somewhat slowly. The policy of handing over to these Courts all possible cases except where military interests are directly involved is being developed.

ECONOMICS, RESOURCES AND SUPPLY

Food

22. The food situation improved during the month in all Regions. On February 7th the bread ration was increased to 200 grams per capita per day and in some regions a limited amount of pasta was made available. In other areas the 200 grams was distributed in the form of 150 grams of bread and the balance in flour, in order that the people could make pasta. The increased ration of bread, although less than normal, is nevertheless a sufficient subsistence ration and has been generally welcomed. Supplementary meals are available for heavy workers in some industries.

23. The arrival of a considerable quantity of sugar at Reggio made possible a general distribution throughout Region II on the basis of 200 grams per head per month. This distribution, the first for many months, has given great satisfaction. In this Region the milk situation, both tinned and fresh, has improved. In most areas soup, peas and beans were received in sufficient quantities to allow of a limited distribution. Dehydrated soup is, however, proving an unsatisfactory issue, since this food is not understood by the people and they do not want to accept it. Instructions as to its use in English and Italian are being prepared for general distribution. Considerable difficulty in distribution was experienced during the month due to heavy snowfalls in the mountain districts, preventing movement of transport, particularly in Campobasso Province. No commune, however, lacked basic rations for more than a day or two even in this province.

24 Supply officers in all Regions are trying to keep control of the constant tendency towards further inflation. Unfortunately, they receive very little real help from Italian officials, even in the areas handed back to the Italians, though promises and fair words are plentiful. Possibly this is due to the natural inertia of most Italian officials, or it may be that they take a realistic view of the fact that the only "work" a very large proportion of southern Italians have to do is the planning of black market operations, a vocation in which most have had considerable experience in the years since the Italian "self sufficiency drive" was initiated. The black market plays a very important part in the life of Italy, and evidence is constantly accumulating that the Consorzii play a very important part in the black market. It is to be hoped that the new Minister of Agriculture can be persuaded to do something about this.

Declassified E.O. 12356 Section 3.3/NND No. 785017

25. From Sardinia came reports of a notable increase in the number of ration card holders. Part of them are due to the fact that farmers, having been allowed to keep a portion of their crop for their own needs sold part of this in the black market. Having sown for the next season they are now coming to the end of their store bins and are asking for allied flour. This situation is being fully investigated. The island is almost entirely without olive oil.

Export Trade

26. Total shipments to U.K. up to end February include:

Lemons	877,000	boxes approx. 15,000 tons
Lemon Juice	89,000	imperial gallons
Lemon Oil	100,000	lbs
Bitter Oranges	30,000	boxes
Sweet Orange Oil	1,600	lbs
Bitter Orange Oil	6,300	lbs
Tangerine Oil	750	lbs
Bergamot Oil	25	tons
Citric Acid	300	tons
Argols	110	tons
Filberts	570	tons
Almonds (all kinds)	1,100	tons
Mustard Seed	69	tons
Sumac	400	tons
Pumice Stone	110	tons
Sulphur	45	tons

27. Two filatures in Reggio and Cosenza started production. Allocations of last season's cocoons were made to them and at the end of the month about a ton of spun silk was ready for shipment.

Mining and Fuel

28. In accordance with instructions from AFHQ, production of coal from the Sardinia mines was limited to 25,000 metric tons for the month of February. These mines are in fact in a position at the present time to produce well over 2,000 metric tons of coal per day, provided adequate timber and other supplies are available. The total number of workers employed at the mines is 5,384.

29. Arrangements have been completed for exporting 2,026 metric tons of lead metal from Sardinia to North Africa and future production is to be stockpiled in Sardinia pending allocation.

30. A comprehensive study has been made of barite deposits and stocks in Sardinia. An existing stockpile of 1200 metric tons with not less than 92% barium sulphate content is available at mine near the port of Santa Teresa. Investigation indicates

Declassified E.O. 12356 Section 3.3/NND No. 785017

Lemons	377,000	boxes approx. 15,000 tons
Lemon Juice	28,000	imperial gallons
Lemon Oil	100,000	lbs
Bitter Oranges	30,000	boxes
Sweet Orange Oil	1,800	lbs
Bitter Orange Oil	6,300	lbs
Tangerine Oil	760	lbs
Bergamot Oil	25	tons
Citric Acid	300	tons
Argols	110	tons
Filberts	570	tons
Almonds (all kinds)	1,190	tons
Mustard Seed	45	tons
Sumac	400	tons
Pumice Stone	110	tons
Sulphur	45	tons

27. Two filatures in Reggio and Cosenza started production. allocations of last season's cocoons were made to them and at the end of the month about a ton of spun silk was ready for shipment.

Mining and Fuel

28. In accordance with instructions from AFHQ, production of coal from the Sardinia mines was limited to 25,000 metric tons for the month of February. These mines are in fact in a position at the present time to produce well over 4,000 metric tons of coal per day, provided adequate timber and other supplies are available. The total number of workers employed at the mines is 5,594.

29. Arrangements have been completed for exporting 2,625 metric tons of lead metal from Sardinia to North Africa and future production is to be stockpiled in Sardinia pending allocation.

30. A comprehensive study has been made of barite deposits and stocks in Sardinia. An existing stockpile of 1200 metric tons with not less than 92% barium sulphate content is available at mine near the port of Sant'Antioco. Investigation indicates that production of barite from Sardinia could be made with an average of 1,000 metric tons per month during the first three months and an output of over 3000 tons per month at the end of one year's operation. Most of the heavy equipment required is available in Sardinia.

31. A general inspection of Sicilian sulphur mines has been made, together with an investigation of processing equipment for the preparation of refined ground sulphur. There are facilities in Sicily at the present time for producing 700 metric tons of

Declassified E.O. 12356 Section 3.3/NND No. 785017

flowers of sulphur and 1,500 metric tons of ground sulphur per month. An allotment of 4,000 tons of raw sulphur has been made for dusting purposes, and will be processed in the Sicilian plants. An inspection of sulphur mines on the Italian mainland is in progress. If conditions warrant reopening, supplies will be requisitioned for these mines and production started.

32. Fuel and petroleum products requirements for essential services for the whole of liberated Italy for 12 months were estimated for submission to Washington and London. As from the beginning of the month the entire responsibility for the distribution of petroleum products was handed over to G.I.F. and the Industry and Commerce Subcommission now has the duty of full coordination between ACC (and, through them, the Italian Government) and Headquarters, AAI (Adm. Sch.), Petroleum Section. Arrangements for handing over to the Italian Government the licensing of motor vehicles and the rationing of petroleum products were well advanced and were expected to be successfully concluded early in March.

Development of Industry

33. The program of surveying and reporting on industries and individual establishments, with a view to their rehabilitation where deemed necessary, was continued and the collection of information on the availability of commodities was extended to cover fresh ground.

34. Industrial surveys were carried out during the month on the Industriale Meridionale Erato e Derivati, Naples; the Ilva Steel Works, Bagnoli; the Ansaldo Works, Bagnoli; and the Sulurificio Plant, Baia. All these had been heavily damaged by enemy demolitions and are incapable of rehabilitation except under a long term policy. Considerable quantities, however, of valuable raw materials, special alloy steels, non-ferous metals and machine tools escaped destruction and reports have been made on these, with recommendations as to their recovery and utilization.

35. Soap production possibilities were investigated and recommendations on the auxiliary industries of carbon bisulphide for olive oil extraction and glycerine recovery from soap manufacturing plants were made. Requisitions have been made for caustic soda for restarting the industry to an extent sufficient to meet minimum essential civilian needs.

36. The Hemp Industry has commenced production and is already supplying cordage and cloth to various services. Manufactured materials actually delivered up to end of February are:

Rope & Twine	1600.93 quintals
Fabrics	109119 metres
Sacks	20000

In order to deal with future shipments of hemp, it has been necessary to requisition a warehouse in Naples. Arrangements

Declassified E.O. 12356 Section 3.3/NND No. 785017

and Headquarters, AAI (Adm. Sec.); Petroleum Section. Arrangements for handing over to the Italian Government the licensing of motor vehicles and the rationing of petroleum products were well advanced and were expected to be successfully concluded early in March.

Development of Industry

33. The program of surveying and reporting on industries and individual establishments, with a view to their rehabilitation where deemed necessary, was continued and the collection of information on the availability of commodities was extended to cover fresh ground.

34. Industrial surveys were carried out during the month on the Industriale Meridionale Lreto e Derivati, Naples; the Ilva Steel Works, Bagnoli; the Ansaldo Works, Bagnoli; and the Sulurificio Plant, Baia. All these had been heavily damaged by enemy demolitions and are incapable of rehabilitation except under a long term policy. Considerable quantities, however, of valuable raw materials, special alloy steels, non-ferous metals and machine tools escaped destruction and reports have been made on these, with recommendations as to their recovery and utilization.

35. Soap production possibilities were investigated and recommendations on the auxiliary industries of carbon bisulphide for olive oil extraction and glycerine recovery from soap manufacturing plants were made. Requisitions have been made for caustic soda for restarting the industry to an extent sufficient to meet minimum essential civilian needs.

36. The Hemp Industry has commenced production and is already supplying cordage and cloth to various services. Manufactured materials actually delivered up to end of February are:

Rope & Twine	1605.93 quintals
Fabrics	109119 metres
Sacks	20000

In order to deal with future shipments of hemp, it has been necessary to requisition a warehouse in Naples. Arrangements are in hand for shipping 500 tons to U.K.

37. Deficiencies in clothing and footwear amongst the civilian population continue acute and arrangements are therefore being made for the repair and dyeing of salvage American and British uniforms for issue, after treatment, to civilians. Repair facilities are adequate, but dyeing capacity is limited and all dyestuffs will have to be imported.

Declassified E.O. 12356 Section 3.3/NND No. 785017

AGRICULTURE, FORESTRY & FISHERIES

38. During the month the work was continued of replacing the top-heavy and cumbersome group of corporate organizations in agriculture which grew up under the Fascist system, with a simplified organization, running down from the Minister through the Compartments, Provinces and the Communes. When this work is completed it will bring all agricultural, forestry and fisheries control under the absolute authority of the Ministry of Agriculture.

39. Estimates were secured of the probable production of all the principal crops this year.

40. One thousand tons of Canadian Spring Wheat have been released for planting from supplies brought in for consumption. This seed is being used to plant land which might otherwise be idle.

41. Late in 1943 arrangements were made to ship about 40,000 tons of seed potatoes into southern Italy, Sicily and Sardinia for planting. This seed has arrived in large quantities and during February distribution was made and planting begun.

42. Timber cutting by 5th and 8th Army representatives in Calabria was reviewed. Neither army has so far cut much standing timber in this area; both have confined operations to the sawing of large stockpiles of logs, produced by the Italians previous to occupation and the work seems to have been carried out according to good forest practice. There is no doubt that the Italians themselves have cut the private lands very heavily.

43. A plan to meet 5th Army's requirements of fuelwood was initiated during the month in cooperation with the Peninsular Base Section Quartermaster Corps. The Army has agreed to refer all proposed contracts for fuelwood to the Allied Control Commission and to bring prices paid by the Army more in line with present market conditions.

44. An area containing suitable timber for fuel was located between Mignano and Cassino and a contract was signed by PBS with a civilian contractor for 3000 tons of wood, at a price of 700 lire per ton delivered to a motor road usable by 5th Army trucks.

45. Cutting is now in progress and is being supervised by the local representative of the Royal Forest Corps.

46. Considerable progress was made during the month in regard to fishing in the bay of Naples and to the marketing of fish in the city. Night fishing is, however, still prohibited except

Declassified E.O. 12356 Section 3.3/NND No. 785017

is completed it will bring all agricultural, forestry and fisheries control under the absolute authority of the Ministry of Agriculture.

39. Estimates were secured of the probable production of all the principal crops this year.

40. One thousand tons of Canadian Spring Wheat have been released for planting from supplies brought in for consumption. This seed is being used to plant land which might otherwise be idle.

41. Late in 1943 arrangements were made to ship about 40,000 tons of seed potatoes into southern Italy, Sicily and Sardinia for planting. This seed has arrived in large quantities and during February distribution was made and planting begun.

42. Timber cutting by 5th and 8th Army representatives in Calabria was reviewed. Neither army has so far cut much standing timber in this area; both have confined operations to the sawing of large stockpiles of logs, produced by the Italians previous to occupation and the work seems to have been carried out according to good forest practice. There is no doubt that the Italians themselves have cut the private lands very heavily.

43. A plan to meet 5th Army's requirements of fuelwood was initiated during the month in cooperation with the Peninsular Base Section Quartermaster Corps. The Army has agreed to refer all proposed contracts for fuelwood to the Allied Control Commission and to bring prices paid by the army more in line with present market conditions.

44. An area containing suitable timber for fuel was located between Lignano and Cassino and a contract was signed by PBS with a civilian contractor for 3000 tons of wood, at a price of 700 lire per ton delivered to a motor road usable by 5th Army trucks.

45. Cutting is now in progress and is being supervised by the local representative of the Royal Forest Corps.

46. Considerable progress was made during the month in regard to fishing in the bay of Naples and to the marketing of fish in the city. Night fishing is, however, still prohibited except around Sicily and in certain areas around Sardinia. New regulations were drafted during February which aim at restoring night fishing in many areas in southern Italy where it is compatible with security.

PUBLIC WORKS AND UTILITIES

47. Considerable advance was made in planning the road and bridge program in southern Italy (about 3000 km) and similar works in occupied territory. A revolving fund of six hundred million lire has been agreed upon to be earmarked for military roads and utilities.

(1)

Declassified E.O. 12356 Section 3.3/NND No. 785017

48. Various applications were made to increase charges to consumers. Three of these were from Water Companies operating near Naples. Applications were also received from Gas Companies and from seven electrical undertakings. These are under examination. On the 11 February 1944 the heads of the principal utility companies met the Director of the Public Works and Utilities Subcommission for a general discussion on charges and rationing. At this meeting it was disclosed, somewhat surprisingly, that considerable capital sums are invested in some of these companies by the nationals of Switzerland, Belgium and France. The Naples Gas Company and the Soc. Merid. Elettrica, for example, are controlled from a head office in Geneva; the Vesuviana Water Company has its main office in Liege, Belgium.

49. A special investigation was made of existing conditions at the large Naples Gas Works, which were subject to extensive and most destructive bomb damage. Production has now reached about 35% of normal, giving a supply of gas to many areas of the city and efforts are being made to increase this still further.

50. The repair of transmission lines which will be used to transmit electric power to Rome was undertaken.

51. Good progress continues to be made in Sardinia in the clearance of Cagliari City. It is estimated that about 55,000 people now live in the city as compared with a normal population of 110,000 and a population of about 5,000 in mid-December.

LABOR

52. In Sicily the General Electric Company's employees at Agrigento and Palermo made demands for increased wages but there was no trouble and no strike.

53. The labor unrest at Taranto is referred to in paragraph four of this report. When the Apulian provinces became part of Region II it was found that no Provincial Labor Offices had been set up in them. This matter is being dealt with. There is practically no unemployment in Region II owing to its largely agricultural character.

54. Provincial Labor Offices are now functioning in Naples, Avellino and Benevento Provinces and employment exchanges in Region III now number over 100 and have met all the demands of the Armed Forces during the month. There are about 20,000 male and female workers unemployed in Naples at the present time. In this Region some labor unrest and disturbances were experienced due almost entirely to demands for more food and increased wages to buy food in the black market, but in spite of this it may be said that labor has responded in an admirable way to the suggestions, requests and guidance of AGC and to the calls of the Armed Forces for workers.

Declassified E.O. 12356 Section 3.3/NND No. 785017

FINANCE

Prices and the Cost of Living

55. In Naples the effect of the increase in the bread ration to 200 grams was to reduce the weekly expenditure necessary for the purchase of 2 kilos of bread nearly 50%. Increases in the prices of other foods have partially offset this gain, but the cost of purchasing the representative food budget for one person for one week declined to about 320 lire for the week ending

Declassified E.O. 12356 Section 3.3/NND No. 785017

15 February. Comparable figures for other recent dates are as follows:

Month of January	- 348
Week ending 30 January	- 331
Week ending 7 February	- 369
Week ending 15 February	- 619
Week ending 23 February	- 534
Week ending 29 February	- 342

The price of black market bread in Naples rose sharply during January and the first week of February, reaching 155 lire per kilo. After the increase in the ration the price fell to 120 lire on 15 February and rose again to 150 lire, the current price.

56. An increase of 12½ in living quarter rentals and 15% in other rentals has been proposed by the Italian Government. The Finance Subcommission recommended that the increase should not be granted. While it is true that rents are very low in comparison with other prices, it was believed that the hardship that would be imposed upon hard-pressed urban workers by a rent increase would not justify an increased income to the owners of urban real estate who are for the most part wealthy and who are holding real estate more as a hedge against inflation than as a source of current income.

Allied Financial Agency

57. On 7 February 1944 the U.S. Treasury and War Department announced the restoration of facilities for living expenses remittances to Sicily, and the Treasury Department issued General License No. 32A to implement the decision.

58. A procedure in regard to advances to British, American and other Allied Nationals was embodied in a draft Executive Memorandum which, however, has not yet been finally approved. In the meantime the various Regional Finance Commissioners are making advances in cases where they are satisfied that the applicants are nationals and that the funds are required to cover minimum essential needs.

Financial Institutions

59. To implement AFHQ Administrative Memorandum No. 93, a comprehensive program was developed whereby the Italian Government is to pay for all goods and services furnished to the Allied Armed Forces.

60. The Minister of Finance was informed that ACC was prepared to terminate restrictions on real property transactions provided details of the number of transactions are presented at regular intervals. The Minister of Finance agreed to do this

Declassified E.O. 12356 Section 3.3/NND No. 785017

The price of black market bread in Naples rose sharply during January and the first week of February, reaching 135 lire per kilo. After the increase in the ration the price fell to 120 lire on 15 February and rose again to 130 lire, the current price.

56. An increase of 18% in living quarter rentals and 15% in other rentals has been proposed by the Italian Government. The Finance Subcommission recommended that the increase should not be granted. While it is true that rents are very low in comparison with other prices, it was believed that the hardship that would be imposed upon hard-pressed urban workers by a rent increase would not justify an increased income to the owners of urban real estate who are for the most part wealthy and who are holding real estate more as a hedge against inflation than as a source of current income.

Allied Financial Agency

57. On 7 February 1944 the U.S. Treasury and War Department announced the restoration of facilities for living expenses remittances to Sicily, and the Treasury Department issued General License No. 32A to implement the decision.

58. A procedure in regard to advances to British, American and other Allied Nationals was embodied in a draft Executive Memorandum which, however, has not yet been finally approved. In the meantime the various Regional Finance Commissioners are making advances in cases where they are satisfied that the applicants are nationals and that the funds are required to cover minimum essential needs.

Financial Institutions

59. To implement AFHQ Administrative Memorandum No. 95, a comprehensive program was developed whereby the Italian Government is to pay for all goods and services furnished to the Allied Armed Forces.

60. The Minister of Finance was informed that ACC was prepared to terminate restrictions on real property transactions 92? provided details of the number of transactions are presented at regular intervals. The Minister of Finance agreed to do this and a general order will be published in AMG territory lifting the prohibition.

61. A Committee of insurance interests is being formed in Naples to act as a responsible and representative body with which the Finance Subcommission can deal and through which instructions can be transmitted to insurance companies.

(1)

Declassified E.O. 12356 Section 3.3/NND No. 785017

62. Considerable attention has been devoted to bringing the Naples offices of insurance companies into control of their organizations in liberated Italy, as it was known that the most important companies had empowered their Naples offices to assume this control in the event of severed communications with their head offices, and had provided them with funds for the purpose.

63. Employment of large numbers of civilians by Allied Armed Forces, including ACC, has raised certain problems relative to their status under Italian social insurance laws. Employers contracting with our armed forces should be subject to the same obligations relative to social insurance of their employees, as are other private employers. The Italian Government has now adopted a plan for covering all necessary social insurances for civilian employees of the Allied armies, for 20% of payroll (plus a fraction of one per cent for expenses). The application of this plan has met with certain objections which are, however, likely to be overcome in the near future.

64. The report on proposed state pension increases, estimated that additional payments of from L. 25,000,000 to L.26,000,000 will probably be required monthly in the twenty-six provinces completely liberated when the estimate was made. Pressure for a similar adjustment of private pensions must be expected.

Italian Government Finance - Expenditures and Revenues

65. At the present time there is little Italian Government budgetary control over expenditures. The Italian budget was made in Rome and included expenditures for all of Italy. To meet this difficulty the Minister of Finance has required that "accreditamenti" be signed by the Minister of Finance. This device, however, provides little control, for accreditamenti have no time period and expenditures in any period may be greater or smaller than the amount of accreditamenti issued in that period. Indeed, many Ministries are still using accreditamenti issued by the Fascist Government. Through the use of accreditamenti the Government is not able either to control the expenditures of the Ministries or to know what their expenditures are. Finally, no adequate figures of disbursements can be obtained even after the disbursements have been made, since reports of large amounts of Civil government disbursements are grouped under the heading "pagamenti collettivi", rather than under the Ministry for whose account the disbursements were made.

66. Figures submitted by the Banca d'Italia on cash disbursements by the Civil Ministries in Puglia are very incomplete. They total only 30 million lire for December and 40 million lire for January. The great incompleteness of these data is shown below, where they are compared with the Finance Minister's estimates of expenditures.

Declassified E.O. 12356 Section 3.3/NND No. 785017

contracting with our armed forces should be subject to [illegible] obligations relative to social insurance of their employees, as are other private employers. The Italian Government has now adopted a plan for covering all necessary social insurances for civilian employees of the Allied armies, for 20% of payroll (plus a fraction of one per cent for expenses). The application of this plan has met with certain objections which are, however, likely to be overcome in the near future.

64. The report on proposed state pension increases, estimated that additional payments of from L. 25,000,000 to L.35,000,000 will probably be required monthly in the twenty-six provinces completely liberated when the estimate was made. Pressure for a similar adjustment of private pensions must be expected.

Italian Government Finance - Expenditures and Revenues

65. At the present time there is little Italian Government budgetary control over expenditures. The Italian budget was made in Rome and included expenditures for all of Italy. To meet this difficulty the Minister of Finance has required that "accredimenti" be signed by the Minister of Finance. This device, however, provides little control, for accredimenti have no time period and expenditures in any period may be greater or smaller than the amount of accredimenti issued in that period. Indeed, many Ministries are still using accredimenti issued by the Fascist Government. Through the use of accredimenti the Government is not able either to control the expenditures of the Ministries or to know what their expenditures are. Finally, no adequate figures of disbursements can be obtained even after the disbursements have been made, since reports of large amounts of Civil government disbursements are grouped under the heading "pagamenti collettivi", rather than under the Ministry for whose account the disbursements were made.

66. Figures submitted by the Banca d'Italia on cash disbursements by the Civil Ministries in Puglia are very incomplete. They total only 30 million lire for December and 40 million lire for January. The great incompleteness of these data is shown below, where they are compared with the Finance Minister's estimates of expenditures.

Declassified E.O. 12356 Section 3.3/NND No. 785017

Foreign Exchange	-	-	-	-
Total Civilian Ministries	376.5	29.7	293.5	39.5

In addition to these disbursements, the Italian Government makes large disbursements grouped under the heading "pagamenti collettivi". These disbursements totalled 490 million lire in December 1943 and 514 million lire in January 1944. Thus to the total known Ministerial expenditures of 40 million lire would have to be added an unknown part of indifferentiated expenditures totalling 514 million lire if true monthly cash disbursement figures for January were to be obtained.

67. It is sometimes thought that ACC can control Italian Government expenditures through its ability to provide or refuse AM lire to the Government. The experience in February, when no currency advances were made, clearly demonstrates that this is not the case. Specific control cannot be achieved because there is no direct relation between any particular expenditure and the advance of currency to the government. General control cannot be achieved because total government expenditures are only one of the factors which affect the cash position of the Banca d'Italia and, therefore, the necessity for making currency advances. With effective control of the money market and with popular confidence in the government, the return flow of currency to the Banca d' Italia through government revenues, sale of government securities and growth of bankers' deposits at the Banca d'Italia should normally be enough to take care of the currency needs of the government. The provision by ACC of currency to fill the gap in the currency circuit is quite a different problem from [illegible] effective expenditure control must,

Total Civilian Ministries	376.5	29.7	293.5	39.8

In addition to these disbursements, the Italian Government makes large disbursements grouped under the heading "pagamenti collettivi". These disbursements totalled 480 million lire in December 1943 and 514 million lire in January 1944. Thus to the total known Ministerial expenditures of 40 million lire would have to be added an unknown part of indifferentiated expenditures totalling 514 million lire if true monthly cash disbursement figures for January were to be obtained.

67. It is sometimes thought that ACC can control Italian Government expenditures through its ability to provide or refuse AM lire to the Government. The experience in February, when no currency advances were made, clearly demonstrates that this is not the case. Specific control cannot be achieved because there is no direct relation between any particular expenditure and the advance of currency to the government. General control cannot be achieved because total government expenditures are only one of the factors which affect the cash position of the Banca d'Italia and, therefore, the necessity for making currency advances. With effective control of the money market and with popular confidence in the government, the return flow of currency to the Banca d' Italia through government revenues, sale of government securities and growth of bankers' deposits at the Banca d'Italia should normally be enough to take care of the currency needs of the government. The provision by ACC of currency to fill the gap in the currency circuit is quite a different problem from that of expenditure control. Effective expenditure control must, therefore, depend upon direct methods.

68. The unreliable state of communications between the provincial capitals in Sicily and the Italian Government in Salerno make it obviously impossible to restore expenditure control to the peacetime pattern of centralization. The shortage of qualified Italian personnel make it desirable for ACC officers to continue for the time being some of their functions and to assist such Italian personnel as can be assigned to Sicily. The present political situation in Sicily makes it necessary that any regional expenditure office be established in such a way as to avoid an

Declassified E.O. 12356 Section 3.3/NND No. 785017

appearance of autonomy. With these three points in mind a plan for expenditure control in Sicily was developed and presented to the Italian Government. For that portion of the mainland now under the Italian Government no instructions have been issued, but agreement has been reached that this area will be administered from 1 April under the procedure now in effect for Puglia.

69. A copy of the full report of the Finance Subcommission is attached as Appendix "A".

COMMUNICATIONS

70. Authority was obtained for the Italian Government to transmit official messages to Palermo (Sicily), and Cagliari (Sardinia) via the military operated submarine cables from Naples.

71. On 16th February an international letter and postcard service was started, linking up Sicily, Sardinia and the provinces of Italy with all Allied countries abroad other than those occupied by the enemy.

72. The registration of schooners within the whole area of occupied Italy, Sicily and Sardinia, as requested by the C.-in-C., Mediterranean, has continued; 56 vessels of some 6,400 deadweight tons having been added to the list.

73. The difficult and complicated questions of crews wages and bonuses as well as insurance of Italian vessels employed inside the Mediterranean area were studied and are in a fair way to solution.

74. During the month a further advance of 5 million lire was made through the Deputy Ministry of War Transport Representative, Mediterranean, to the Comitato Italiano Sestione Navi to enable the Italian Government to meet running expenses such as crew wages, stores, etc., of vessels requisitioned by them and placed at the disposal of the Allied C.-in-C.

75. Some progress was made in the salvage of ships in Sicily. The "Modena" and her cargo of coal has been completely salvaged and salvage of "Giacomo Costa" is well under way and the removal of 5000 tons of coal from her is expected shortly.

76. The successful operation of the weekly "bidding" system for the coordination of ACC railway and shipping movements with those of operational forces was continued.

77. All civilian railway traffic was suspended in western Sicily on 11 February because of a coal shortage precipitated largely by the unexpected use of coal alloted for civilian traffic for movement of military traffic in December, and failure to recoup the civilian allocation so used. Three workers' trains (out of

77. All civilian railway traffic was suspended in Western Sicily on 11 February because of a coal shortage precipitated largely by the unexpected use of coal alloted for civilian traffic for movement of military traffic in December, and failure to recoup the civilian allocation so used. Three workers' trains (out of Palermo) were restored to service 21 February and the coal situation was reported eased, at least up to the latter half of March.

78. By the end of the month the Regions (except Region 1) had not completed their arrangements for the reception of the 800 M.T. trucks which are being made available, though considerable progress was made.

Declassified E.O. 12356 Section 3.3/NND No. 785017

79. As regards 1001 G.T. Coy (120 trucks organized on an Italian military basis), it was most disappointing to find this Company was not in a fit state to work when due to be handed over to Region II. The 21st and 22nd QM Truck Coys (Italian) (60 trucks) are now being operated by Region III.

PUBLIC HEALTH

80. The general health of the population is surprisingly good considering the high cost of living, the shortage of food and the very poor living conditions in some of the badly devastated villages in the forward areas. There have been few epidemics with small numbers of people involved in widely scattered districts.

81. Typhus in Naples no longer represents a serious danger and the situation is well under control. The Italian Director of Public Health has been approached with the request to nominate teams of Italian workers in all Provinces. These teams are to be trained in dusting and will constitute flying squads to deal with a typhus emergency in their territories. In this way it is hoped to educate the Italians to a realization of their own responsibilities in combating this disease and also in time to relieve the strain put upon Allied personnel.

82. Venereal disease still presents a very formidable problem, especially in Naples, and the control of prostitutes under Italian law is a matter of the utmost difficulty. Special hospitals are to be established in all regions for the treatment of women infected with this disease. These hospitals will be staffed by Italian doctors.

83. Large quantities of clothing have been received and distributed in Regions I, II, III, and V in cooperation with the American Red Cross.

EDUCATION

84. The second of the new text-books has been published in Palermo and two others are nearly ready for distribution. The text-book program in Naples has involved a long search for materials, most of which have now been found and work is proceeding rapidly in three printing houses. One book is just going to press; the other nine are in various stages of composition and all are scheduled for publication during March.

85. The courses of study and instructions to teachers prepared in Sicily have been reprinted for all other parts of liberated Italy. In addition, part 2 of the elementary program has been completely rewritten and a new edition published. A [illegible] in Naples is writing a new course in pedagogy and

Declassified E.O. 12356 Section 3.3/NND No. 785017

good considering the high cost of living, the [illegible]
and the very poor living conditions in some of the badly devas-
tated villages in the forward areas. There have been few
epidemics with small numbers of people involved in widely
scattered districts.

81. Typhus in Naples no longer represents a serious danger and the situation is well under control. In this way it is hoped to educate the Italians to a realization of their own responsibilities in combating this disease and also in time to relieve the strain put upon allied personnel.

82. Venereal disease still presents a very formidable problem, especially in Naples, and the control of prostitutes under Italian law is a matter of the utmost difficulty. Special hospitals are to be established in all regions for the treatment of women infected with this disease. These hospitals will be staffed by Italian doctors.

83. Large quantities of clothing have been received and distributed in Regions I, II, III, and V in cooperation with the American Red Cross.

EDUCATION

84. The second of the new text-books has been published in Palermo and two others are nearly ready for distribution. The text-book program in Naples has involved a long search for materials, most of which have now been found and work is proceeding rapidly in three printing houses. One book is just going to press; the other nine are in various stages of composition and all are scheduled for publication during March.

85. The courses of study and instructions to teachers prepared in Sicily have been reprinted for all other parts of liberated Italy. In addition, part 2 of the elementary program has been completely rewritten and a new edition published. A commission in Naples is writing a new course in pedagogy and psychology for the program of the Magistrale Superiore which will complete the series.

86. A youth committee has been established in Naples to consider the problems of recreational and constructive activities for youth outside of school hours. This Committee is for the most part composed of able, intelligent and interested civilians (mostly teachers, professors, etc.). The church has been invited to appoint representatives to serve on subcommittees. For providing allied help and advice there is an advisory council composed of the Region III Education officer, the Region III Welfare Officer

Declassified E.O. 12356 Section 3.3/NND No. 785017

and an unofficial representative of the American Red Cross, who is a specialist in recreation and a representative of the Education Subcommission. A full time civilian Executive Secretary has been employed for the work of the youth committee which is operating entirely in the Naples area as a proving ground.

87. The surrender of Fascist books in all Regions is proceeding with the full cooperation of Italian officials, as is also the removal of teachers with a Fascist background. The number removed is now about 800.

88. On the mainland the public schools throughout Campania and 45 private schools have now been opened. About 50% of elementary school class rooms in Naples are still requisitioned for military purposes and 25% of the secondary schools. In normal times there were about 390 schools in Naples Province and at present there are 225 schools in session, many of them in temporary quarters.

89. The rebuilding and repairing of the damage to Universities in Sicily is now in progress. Sums of 8 million lire to Messina and 2 million lire to Catania University have been earmarked for urgent repairs. The principal buildings of Naples University and the library of the Royal Society of Naples which was housed in the University were deliberately destroyed by the Germans.

PROPERTY CONTROL

90. Following the transfer of territory to the Italian Government on February 11 the Director of Property Control continues to be responsible for the custody of United Nations (including French) property, but all property belonging to the Italian Government or Italian Nationals which has been taken into custody in the area restored, is now handed back to the Italian authorities.

91. Only a few British and American properties now remain to be taken into custody except in the Province of Messina in Region I where about 100 cases have still to be dealt with. For the most part these are small houses or plots of land belonging to persons born in Italy but resident in America.

92. A decree has been issued by the Prefect of Catania in Sicily revoking the decrees of sequestration and expropriation of the Bronte Estate and restoring it to its owner, Viscount Bridport.

MONUMENTS & FINE ARTS

93. A further case of the requisition of a monumental building was reported, this time from Sicily, where the Palazzo Reale at Palermo was requisitioned on 4 February without any advice to the Regional Commissioner. The Palace itself is not

Declassified E.O. 12356 Section 3.3/NND No. 785017

About 50% of elementary school class rooms in Naples are still requisitioned for military purposes and 25% of the secondary schools. In normal times there were about 390 schools in Naples Province and at present there are 225 schools in session, many of them in temporary quarters.

89. The rebuilding and repairing of the damage to Universities in Sicily is now in progress. Sums of 6 million lire to Messina and 2 million lire to Catania University have been earmarked for urgent repairs. The principal buildings of Naples University and the library of the Royal Society of Naples which was housed in the University were deliberately destroyed by the Germans.

PROPERTY CONTROL

90. Following the transfer of territory to the Italian Government on February 11 the Director of Property Control continues to be responsible for the custody of United Nations (including French) property, but all property belonging to the Italian Government or Italian Nationals which has been taken into custody in the area restored, is now handed back to the Italian authorities.

91. Only a few British and American properties now remain to be taken into custody except in the Province of Messina in Region I where about 100 cases have still to be dealt with. For the most part these are small houses or plots of land belonging to persons born in Italy but resident in America.

92. A decree has been issued by the Prefect of Catania in Sicily revoking the decrees of sequestration and expropriation of the Bronte Estate and restoring it to its owner, Viscount Bridport.

MONUMENTS & FINE ARTS

93. A further case of the requisition of a monumental building was reported, this time from Sicily, where the Palazzo Reale at Palermo was requisitioned on 4 February without any advice to the Regional Commissioner. The Palace itself is not in the Zone Handbook lists of monuments, only the Cappella Palatina being mentioned. Protest was made to the military authority but it was without effect. Shortly after the requisition, the quarters occupied by the military were considerably damaged by fire; fortunately the Cappella Palatina was not effected, though at one time the priceless wooden ceiling was in considerable danger. It is estimated that the cost of repair of damage will be over 1 million lire.

Declassified E.O. 12356 Section 3.3/NND No. 785017

94. In the Palazzo Sclafani in Palermo the removal of the "Triumph of Death" Fresco is progressing and in the same town it is reported that the temporary quarters of the National Library will open in March.

95. In Naples, repairs to churches and other monuments are proceeding. The damage done to the Palazzo Reale by Allied troops is still subject to investigation at the time of writing this report.

96. Worldwide interest was aroused by the bombing of Monte Cassino and plans are ready for AMG officers to enter the Monastery as soon as it is captured to inspect the damage caused by the bombardment and check up on the available evidence of German occupation. The Corps SCAO concerned is maintaining close touch with security branches in order to obtain all possible information from individuals who from time to time make their way across from the enemy lines. So far no fully convincing stories have come to light.

PRESS & PUBLIC RELATIONS

97. In Sicily the daily papers controlled by P.W.B., "Sicilia Liberata" and "Corriere di Sicilia" continued to provide a source of news to the Italian population, as did "Risorgimento" in Region III.

98. The growing shortage of newsprint seriously affected the control and publication of newspapers. Paper stocks on the open market in Bari were exhausted, but black market stocks facilitated the issue of many clandestine journals and brochures. To meet this problem the Allied Publications Board drafted two decrees, laying down a procedure with suitable penalties for applications to publish and for the declaration of all stocks of paper. Authority was also received, permitting the distribution of Bari newspapers in Foggia Province, thus giving the people there the first opportunity in many months to obtain printed news. For this purpose the "Gazzetta del Mezzogiorno" was permitted to increase its daily circulation from 30,000 to 40,000 copies.

99. At present there are two daily papers in Sardinia, "L'Unione Sarda" published in Cagliari, and "L'Isola" published in Sassari. Both these, at least in theory, express the general view of the Concentrazione Antifascista. There are in addition three weekly papers:

"Liberta"
"Orto Bene"
"Sardegna Catolica"

These weekly papers are all published under clerical auspices. They contain some news and local reports, but chiefly leading articles of a religious or educational nature. Many of the political parties which comprise the Concentrazione Antifascista would like to publish their own weekly or monthly papers. It has

Declassified E.O. 12356 Section 3.3/NND No. 785017

bombardment and check up on the available evidence of German occupation. The Corps SCAO concerned is maintaining close touch with security branches in order to obtain all possible information from individuals who from time to time make their way across from the enemy lines. So far no fully convincing stories have come to light.

PRESS & PUBLIC RELATIONS

97. In Sicily the daily papers controlled by P.W.B., "Sicilia Liberata" and "Corriere di Sicilia" continued to provide a source of news to the Italian population, as did "Risorgimento" in Region III.

98. The growing shortage of newsprint seriously affected the control and publication of newspapers. Paper stocks on the open market in Bari were exhausted, but black market stocks facilitated the issue of many clandestine journals and brochures. To meet this problem the Allied Publications Board drafted two decrees, laying down a procedure with suitable penalties for applications to publish and for the declaration of all stocks of paper. "Liberta"
"Orto Bene"
"Sardegna Catolica"

These weekly papers are all published under clerical auspices. They contain some news and local reports, but chiefly leading articles of a religious or educational nature. Many of the political parties which comprise the Concentrazione Antifascista would like to publish their own weekly or monthly papers. It has already been pointed out to them that the best method of maintaining the unity of the Concentrazione is to give their united support to one good paper.

919

100. The establishment of a Public Relations Branch, hitherto somewhat neglected, to cover ACC and AMG activities was discussed and steps were taken to centralize and strengthen its functions. In order to meet criticism effectively and to provide a rapid service of information to the Allied Press, better and swifter transmission of newspapers and press clippings from Washington are urgently needed and were requested, so far without result. The publication of a monthly record of ACC activities was approved.

(1)

Declassified E.O. 12356 Section 3.3/NND No. 785017

Press releases were issued on the transfer of territory to the Italian Government, the increase in the bread ration, the resumption of foreign mail services, the proposals of the Executive Giunta, the withdrawal of the Giunta's manifesto, the meeting of the Labor Conference, conditions in Sicily, the issue of revised text-books to elementary schools and the three-party cancellation of the proposed strike. Interviews were arranged with all the leading press correspondents and contact was established with P.R.Os of all organizations in the area.

REFUGEES

101. During the first three months of the campaign in Italy there have been large movements of refugees. On the west they had moved uncontrolled and dispersed themselves. On the east, S.C.A.O., 8th Army, with his limited staff and no refugee specialist officers, had collected and sent them to the rear areas, where they had dispersed independently.

102. From the start of the campaign until 31 January 1944 the movement was:-

8 Army side	30,600
5 Army side	1,300

Nearly all of these were dispersed in the areas adjacent to Bari, Brindisi and Lecce. During February the movement was:-

8 Army side	800
5 Army side	13,800

Included in the 5 Army figure are refugees from the Beachhead numbering 4,900. The main evacuation started on Feb. 14. All these refugees have been sent back to the provinces of Potenza, Cosenza, Catanzaro and Reggio in Region II.

103. Great difficulty has been experienced in the matter of transit camps and the whole of the numbers handled during February have been passed through 2 small centers. These two centers can accommodate some 750 persons but are devoid of proper cooking and sanitary facilities. In the hot weather the situation would have been impossible, but as it was, the refugees were fed and the children given milk, doctors were in attendance and the sick sent to hospitals. Security screening was done and the Red Cross distributed clothing to all the needy.

104. Plans are now in hand for proper camps with capacities as follows:

West:

Capua - Capacity 4000 - Tented and mobile
Aversa - Capacity 3000 - In existing buildings

Declassified E.O. 12356 Section 3.3/NND No. 785017

101. During the first three months of the campaign in Italy there have been large movements of refugees. On the west they had moved uncontrolled and dispersed themselves. On the east, S.C.A.O., 8th Army, with his limited staff and no refugee specialist officers, had collected and sent them to the rear areas, where they had dispersed independently.

102. From the start of the campaign until 31 January 1944 the movement was:-

8 Army side	30,800
5 Army side	1,800

Nearly all of these were dispersed in the areas adjacent to Bari, Brindisi and Lecce. During February the movement was:-

8 Army side	800
5 Army side	13,800

Included in the 8 Army figure are refugees from the Beachhead numbering 4,900. The main evacuation started on Feb. 14. All these refugees have been sent back to the provinces of Potenza, Cosenza, Catanzaro and Reggio in Region II.

103. Great difficulty has been experienced in the matter of transit camps and the whole of the numbers handled during February have been passed through 2 small centers. These two centers can accommodate some 750 persons but are devoid of proper cooking and sanitary facilities. In the hot weather the situation would have been impossible, but as it was, the refugees were fed and the children given milk, doctors were in attendance and the sick sent to hospitals. Security screening was done and the Red Cross distributed clothing to all the needy.

104. Plans are now in hand for proper camps with capacities as follows:

West:

Capua - Capacity 4000 - Tented and mobile
Aversa - Capacity 3000 - In existing buildings
Naples - Capacity 2000 - In existing buildings

East:

Foggia - Capacity 5000 - Huts

The camp at Aversa is already functioning.

105. Though a lot still remains to be done, the refugee problem was on the way to being solved by the end of the month. The biggest problem now is the dispersal of the refugees in the countryside, mainly in Region II.

106. The civilian population of Anzio and Nettuno were evacuated by the Germans in September 1943. These civilians were sent inland to the northern wooded Campana region where they have been confined ever since. The Germans left about 350 persons in the two towns and issued them with passes. They are bakers, doctors, electricians, railroad workers, etc. Approximately 15,000 were evacuated to the Campana region and it is estimated that about 5000 additional refugees have filtered in, making a total population of about 18,000 in this area.

107. This rather unusual situation of the two towns being almost entirely evacuated and the population being concentrated and controlled in one area is working well. AMG is carrying out food distribution along the lines established during the last five months. There is no major problem in the Campana area, the people having thoroughly settled down and become used to their life. The bread ration is being increased to 200 grams a day as evacuation reduces the number of civilians to be fed.

108. The details of the Allied Nationals Camp in Sicily are as follows:-

	Living in the Camp			Living without the Camp		
Nationality	Men	Women	Children	Men	Women	Children
Yugoslavs	69	9	5	19	13	4
Greeks	6	-	-	-	-	-
Polish	9	-	-	2	1	-
Czechoslovaks	5	-	-	-	1	-
Bulgarian (friendly)	1	-	-	-	-	-
French	2	-	-	-	-	-
Total	92	9	5	21	15	4

Grand Total:- 146

Adequate provision in the way of medical attention, food, clothing, shelter and recreational facilities has been made for these people.
