The President of the Council of Ministers

916 Rome, 19 January 1946

Dear Admiral,

On December 21, the Director of the Bank of Italy sent Col. Robert Menapace, Director of the Finnance Sub-Commission a report of the economic and finnancial situation of Venezia Giulia.

From this report, it appears that the Allied Authorities, to prevent the buying up of wares by Yugoslavia in zone A, blocked the accounts (existing in zone A) of people residing in Zone B, till April 30th, 1945 (1946)

From various information received, I heard the this regulation had the following consequences: the accounts of many Italians, refugees from Zone A, have been blocked and find themselves without any means of living.

I shall greatly appreciate your kind intervention with the A.M.G. of Venezia Giulia to have the said serious inconvenience eliminated.

Believe me,

Sincerely yours,
De Gasperi

Report by the Representative of the U.S. Political Adviser at XIII Corps, dated November 29, 1945.

"In my letter No. 12 of November 17th, I reported that the Welfare and Displaced Persons Officer here had cataloged the names of 6,000 persons deported from Zone A eastward during the Yugoslav occupation in Venezia Giulia. This officer, Captain J. A. Kellett, has just informed me that as the work of cataloging the names has continued, elimination of duplications has reduced the total to about 4,000. Captain Kellett believes it possible that as many as 2,000 more names may be added before the job is completed.

Captain Kellett also says that he has strong reason to believe that many of the persons listed in his files are now dead. He is all but totally convinced that the Yugoslav Red Cross has a list of deceased deportees, or prisoners, even though its officials refuse to admit the existence of such a list."

Subsistence for Venezia Giulia and Udine for January thru 1946.

This is LiC 1333. Ref CAL 1505.

Para 1. Your para 2. Reserve requested LiC 1320 and LiC Airgram 139 appx D para 6, was calculated as a substitute to meet needs for two months in event cessations of imports of fresh meat, milk, cheese, fruit and vegetables from Italian Government territory. On consultation with Commanding General XIII Corps it is now recommended that minimum reserves of all commodities, for two months for Venezia Giulia, and one month for Udine, should be held locally.

Para 2. Your para 4. Reserves now required on basis para 1 above are as follows: (including 3 percent loss factor)

SERIAL	B. COMMODITY	C. VENEZIA GIULIA	D. UDINE	E. TOTAL
1	wheat bulk	nil	5665	5665

9	totals	4702	6334	11036

Para 4. A. Shipment for March, April, May and June should therefore be phased as follows: (1) Through Venice, para 3 above (column D).

(2) Through Trieste, para 3 above (column C).

B. Shipment for January and February (each month):

(1) Through Venice, as for March through June plus half tonnages para 2 (column D).

(2) Through Trieste, as for March through June plus half tonnages para 2 (column C).

Para 5. Your para 3. Request:

The points raised in C, D and E should be taken up with AFHQ. As regards C, we should recommend that Zone "A" of Venezia Giulia should be treated as part of Italy and that the Italian Government should make arrangements to put the necessary indigenous supplies into the Zone. There will be a certain compensation if the recommendations submitted in D and E are followed.

MEMORANDUM FOR THE RECORD

Tel: 550

HC/sc

23 December 1945

SUBJECT: Conclusions and Recommendations about Venezia Giulia

1. The following are a number of points about Venezia Giulia which came up on my recent short visit there, and which appear to require further action of some kind.

A) The question of Responsibility for Imported Supplies is dealt with in a special memorandum to G-5, copy attached.

B) The question of Personnel on the Economic Side is also being dealt with separately.

C) Supplies from Italy. The question was raised about the responsibility for and payment for supplies coming into Venezia Giulia from the rest of Italy. The problem involved is set forth in the attached draft memorandum left with me by the Economic Section, AMG Venezia Giulia. Broadly speaking, the question seems to boil down to the following: Is Venezia Giulia to be treated economically as part of Italy, or is it to be administered for the time being as a separate economic (as well as political) entity? If Venezia Giulia is a part of Italy, then the Italian Government should make arrangements to put the necessary indigenous supplies into Venezia Giulia, and need not expect any special compensation for doing so. In this case supplies would be bought with AM lire issued by AMG Venezia Giulia and would thus be paid for in effect by the Italian Government itself. On the other hand, if Venezia Giulia is treated as a separate little country, which I gather is the ruling conception in AMG Venezia Giulia, then it follows that any supplies "imported" from Italy should be credited to the Italian Government, and dollars and sterling at the current rates of exchange; such "imports" would be in the nature of military exports from Italy, which Allied Commission has already recommended be reflected in dollar and sterling credits. Such a policy would also imply the setting up of a customs barrier on the western border of Venezia Giulia (rather than on the Morgan Line, where customs should be set up if Zone "A" of Venezia Giulia were to be treated as a part of Italy). At present there appears to be no customs barrier of any kind on either line.

The policy of AFHQ in this regard should be stated one way or the other, and the Italian Government should be informed of the decision reached. The answers to the problems of credit and customs will follow automatically from the policy decided.

1078

[42Ta]

Declassified E.O. 12356 Section 3.3/NND No. 785015

D) Payment for Services. Venezia Giulia, Zone "A", does not normally produce anything significant in exportable quantities. The greatest part of the area centering around Trieste normally lives on the proceeds from the sale of services -- the handling of goods in the port of Trieste, the repair of ships, expenditures by tourists, etc. At present a number of such services are being rendered, but no payment is being made for them. Supplies move through the port of Trieste to Austria (for British military account) and to Yugoslavia (for UNRRA account). Ships of the Ministry of War Transport are being repaired at Monfalcone Ship Yards. Payment for these and other services is made in AM lire, which are in effect a charge upon the Italian Government. The Italian Government is thus helping to pay the occupation costs of the Army in Austria and the cost of UNRRA operations in Yugoslavia.

It seems clear that each of these services should be credited to the Italian Government in dollars, sterling, or other appropriate foreign currency. If this is not done, the Italian Government may justifiably say that it is pouring supplies into Venezia Giulia without getting any return from the area at all.

E) The matter of the repair of Ministry of War Transport Ships at Monfalcone raises an interesting question. People in the Economic Section AMG XIII Corps say that the ship owners are actually paying Ministry of War Transport for repairs in sterling while the repairs are in fact being financed by the use of AM lire, with no counter value in sterling being credited to the Italian Government. If this is really the situation, it seems clear that MWT should make available to the Italian Government's Post-Liberation Account in London the sterling collected in respect of these ship repairs from the ship owners in the U.K.

F) Surplus. The Economic Section of AMG XIII Corps raised the question of getting surplus materials through the Italian Government and said that they had been having considerable difficulty making arrangements through Allied Commission for the acquisition of surplus property. I suggested that they were probably using the wrong channel, and that the best way to get surplus property would be to work directly with the G-4's of the British and American Army Headquarters in Italy and get the material they require before it is actually declared surplus and made available through surplus channels to the Italian Government. The same arrangements might well also apply in the case of such items as POL, technical stores, and other items which are normally available through military supply channels.

D R A F T

SUBJECT : Supplies Policy Venezia Giulia

1. The position as regards the responsibility for supplies entering this Area remains somewhat obscure.

2. It has been agreed that C.C.S. will be responsible for all sea bourne imports but no definite ruling has been given as to imports from Italy.

3. You will readily appreciate that the present system under which Venezia Giulia is draining Italy of resources and returning nothing is highly unsatisfactory to the Italian Government. While this arrangement was reasonable enough when the future of the territory seemed likely to be settled in the immediate future, it is hardly so now.

4. A suggestion has been made that supplies coming into Venezia Giulia and sponsored by A.M.G. should be treated in the same way as sea bourne imports but that supplies coming into the territory through normal commercial channels should be treated as normal purchases in any other Italian Area.

5. This seems hardly satisfactory and will lead to endless bickering as to whether supplies are or are not sponsored by A.M.G. We believe therefore that sooner or later the decision has to be taken as to whether all imports into this territory are to be made by A.M.G. and paid by C.C.S. or whether it is to continue to be treated as part of Italy and supplies made available to it by the Italian Govt. who will obtain in return little but a large paper credit in the territory.

6. The advantages of permitting all supplies from Italy to come into the territory by normal commercial means are great. Such procedure reduces the work of A.M.G. moreover the merchants concerned have ramification of which A.M.G. is not aware. Obstruction however to supplies leaving Italy is already a serious problem and it would seem to be quite unreasonable to expect Id Corps to accept responsibility for preventing disease and unrest in the Area if they are not to control the supplies. Therefore there is a strong case for A.M.G. being the sole importer of supplies into the territory.

SUBJECT: Imported Supplies for Udine and Venezia Giulia

TO : Brig. Gen. A. L. Rambler
Assistant Chief of Staff
G-5 AFHQ

1. On 14 and 15 December 1945 Mr. Harlan Cleveland visited Venezia Giulia and had a talk with Lt. General Sir John Harding, Commander of the XIII Corps, on the subject of the policy which should govern the furnishing of imported supplies to Venezia Giulia and the Province of Udine under the terms of TAM 690 as confirmed by FAM 634.

2. Before summarizing the Allied Commission's recommendation on this subject, it may be well to review briefly the present position. Combined military responsibility for civilian supplies to Italy terminated at the end of August loadings by decision of the Combined Civil Affairs Committee; however, an exception to this termination was made in TAM 690 of 24 September 1945 which stated that:

> "Civilian supplies for Venezia Giulia and the Province of Udine will remain a military responsibility . . . Action will be taken by military authorities on the requirements . . . for period September-December loadings, and you will be advised. In meantime your requirements will be met from supplies coming forward against AICOM requisitions and AFHQ should arrange with AICOM for setting aside sufficient supplies. Such supplies as are ultimately shipped on past action by military authorities on your MAT 889 requirements, will be used for replacement to extent you have drawn on AICOM stocks and any balance will be applied against the future Venezia Giulia and Udine requirements."

This policy was agreed by AFHQ in LAC 1311 of 27 September.

3. Considerable quantities of supplies, in amounts detailed in Appendix A. hereto, have been made available to Venezia Giulia. No special accounts of supplies for Udine have been kept. As far as is known in the Allied Commission or in AMG XIII Corps, no supplies have arrived for Venezia Giulia or Udine on a military basis against September-December loadings as promised in TAM 690, nor have any advices been received by AICOM or AMG XIII Corps that supplies are, in fact, being procured and loaded for this purpose by the Combined Chiefs of Staff. It may be that AFHQ has had communications on this subject of which we are unaware.

4. Repayment in kind to the Italian economy through ALCOM has, therefore, not been made by CCS/AFHQ to the extent of the items and quantities listed in Appendix A.

5. Since October the Allied Commission has taken the position that Udine should be regarded as a part of the rest of Italy for supply and economic purposes (see ALCOM cable 7089 to AFHQ dated 13 October 1945). With this background in mind, Allied Commission now makes the following recommendations:

(a) Udine should remain, insofar as possible, a part of Italy for supply and economic purposes. Specifically, imported basic supplies for the Province of Udine should come through the Italian Government, pursuant to the same arrangements which are made for the Italian basic supply line (CLAC/AC through January arrivals, UNRRA thereafter).

(b) Venezia Giulia can remain a military responsibility for supplies.

(c) To implement the above, AFHQ should (i) direct Allied Commission and (ii) request UNRRA to include Udine in their current distribution programs and future supply programming.

6. AFHQ may wish to check with the Combined Chiefs of Staff to determine whether any supplies will, in fact, be made available either for (i) reimbursement in kind to the AC-Italian Government Program, or (ii) provision of current supplies for Venezia Giulia itself.

7. Under the terms of FAN 634, these recommendations can presumably be carried out by SACMED without reference to the Combined Chiefs of Staff. The fact that civilian supplies for Venezia Giulia and Udine are retained as a military responsibility does not mean that SACMED, in discharging that responsibility, cannot make the necessary arrangements with a non-military agency such as UNRRA.

8. Gen. Harding concurred orally with the line of approach in Paragraph 5 above with the provisos set forth in his telegram to AFHQ of 18 December 1945 (copy attached).

Extract from Report by Representative of the U. S. Political Adviser at XIII Corps, dated December 13, 1945

The grave economic situation at Pola is uppermost in the minds of everyone there, local inhabitants and Allied officers alike; politics occupy a definitely secondary position in men's minds. Generally speaking, Pola feels completely cut off, and, not without some justification, feels that its needs are not appreciated by higher authorities. It is felt that it is impossible to discuss or assess Pola's problems in the same terms as those of Trieste and the rest of Zone A are viewed. There is no doubt that Pola is an economic island in the most disastrous sense of the word.

The principal problem is that of supply, particularly food. This problem is complicated by an acute shortage of transport and communications. I am told, for example, that there are presently available to bring supplies to Pola, one coasting vessel with a carrying capacity of ten tons, and such motor transport as the Area AMG officers can borrow from the 167 Brigade.

It is unanimously asserted that the rations provided by the AMG for the civilian population are below subsistence level. One thousand meals a day are served at AMG's soup kitchen. Much thought has been given by those in Pola to possible alternative and supplementary sources of foodstuffs. Further importation of these from Italy is complicated by the transport situation and by the legal restrictions on the movement of foodstuffs. It has only just been ruled that AMG officers may accept authorization issued by SEPRAL for such imports into Pola.

Signor Dagri (area president) told me that he had recently been to Rome, where he had found great sympathy on the part of the Minister for the Navy and other officials. He has proposed that the Commune borrow sixty-eight million lire with which to purchase and transport supplies from Italy; he said that although the Italian government supported his proposal, he understood that the Allies were opposed "for political reasons" and because any such program would ultimately result in the purchase of UNRRA supplies for use in Pola. He cited cereals as the gravest need. Somewhat bitterly Dagri wondered why the Italian Government could not assume responsibility for Pola to prevent starvation while a decision as to the area's final fate was awaited. 11:9

High levels of AMG have ruled that officers in Pola may not offer stocks at their disposal in barter for supplies from Zone B. The pro-Yugoslav UAIS has requested permission to es-

Somewhat bitterly Dagri wondered why the Italian Government could not assume responsibility for Pola to prevent starvation while a decision as to the area's final fate was awaited. 19 : 9

High levels of AMG have ruled that officers in Pola may not offer stocks at their disposal in barter for supplies from Zone B. The pro-Yugoslav UAIS has requested permission to establish coope ative societies within the Pola enclave, at which foodstuffs, including flour, would be sold to those inhabitants approved by UAIS. AMG has informally indicated their approval with the proviso that flour must not be sold. The Yugoslav authorities have replied by making acceptance of their proposal the quid pro quo for the delivery of much needed firewood from Zone B. Meanwhile, I can personally testify, Pola is cold, as well as hungry.

AMG officers rejected the possibility of permitting the establishment of Yugoslav-sponsored cooperatives without limitation as to produce they would sell and simultaneously restricting the issue of AMG ration cards to those not having UAIS-issued cards. Their reasoning was that AMG is responsible for feeding the entire population and that this responsibility is apart from any attempts to issue supplemental rations on political criteria.

(A)

Declassified E.O. 12356 Section 3.3/NND No. 785015

Meanwhile, the UAIS has established a cooperative store at Monte Grande, just outside the perimeter. I understand that sales are conducted there for two or three days at a time about once a week. The sales are advertised in the Pola Communist newspaper, but it is reported that seldom are all products on sale as advertised. Prices at the store are lower than in Pola, and on each announced day of business, large numbers of Polesi cross the demarkation line in search of necessities.

Subject : Officers - Class 'B' Release

To : HQ 13 Corps (for attn MS)
Hq Allied Military Government 13 Corps

Asst Ch of Police (Civil)

1. At the present time, HQ Venezia Giulia Police Force has on its establishment eleven Civil Affairs Officers who are genuine police officers in Civil life.

Their function is to give the benefit of their experience and knowledge to the Chief of Police, to assist in the formation of the Venezia Giulia Police Force, and to supervise the various divisions of that Force.

2. One of these officers has now been offered (and accepted) a Class 'B' release. As far as he is concerned, I do not propose to oppose this on the grounds that he is operationally vital. No replacement has been, or I think, is likely to be nominated.

3. In view, however, of the shortage of Police Officers in England at present, and in view of the serious "crime wave" there, it is possible (although not known) that in the near future Class 'B' releases may be extended to other members of this HQ.

4. In view of the importance of the initial formation and the efficient functioning of the Venezia Giulia Police Force, it is my considered opinion that, if other police officers were released under Class 'B' without replacement, it would seriously jeopardise the efficiency of the Force.

5. I would not press for all replacements to be found from police officers of experience, but in the future I am not prepared to allow any Civil Affairs Police Officer to be released under Class 'B' unless he is actually replaced by an officer

(4266

./.

Declassified E.O. 12356 Section 3.3/NND No. 785015

(specially selected as suitable for the appointment) before the release actually takes place.

6. In addition, I have the following Civil Affairs Officers who are due for release under the following A/S Groups :-

Supt QM Divn	Maj LEACH	Gp 25
Supt Tpt Div	Capt COOKE	Gp 26

With the large amount of equipment, buildings, tpt etc on charge to the VGPF, these two appointments are of the utmost importance. I should therefore like them to be replaced before release in order that a full hand-over can be carried out.

7. I should like to point out that of the eleven American Officers agreed to on the establishment of this HQ, many have been posted away on re-deployment, and only six are now on the strength of this HQ, the remainder having been posted <u>without</u> replacement. This naturally has caused an additional burden on the officers who remain on the strength.

My dear Mr. Minister:

I acknowledge receipt of your Prot. of/9299 dated 12 December 45.

The action taken by A.M.G. Venezia Region regarding the tobacco was undertaken because details to hand showed the merchandise to fall within the definition of war booty in that it formally belonged to the German Administration, as stated in AMG (Venezia Region) letter PWII/BEL/SP/799 dated 15 November 45 addressed to Direction General of the State Monopoly.

It has been requested that the fullest details regarding the origin of this tobacco be forwarded to this HQ to enable further investigation of this matter.

From Secolo XX of the 22nd December 1945

A GREAT BALL IN THE DUINO CASTLE.

(From our correspondent. Trieste.)

Tito's paper Primorski Dnevnick died this week (lit: this week the Slav paper P.D. gave back its soul to Tito) The paper was suspended because of an article against Lt J.P.Simoni, head of the Education Section of A.M.G. The Giuliano Communist party and the Italo-Slav anti-Fascist Union have organised strikes and movements (the Italian workers organisations did not join in this manifestation) and the matter has reached the British Parliament. This is therefore a bad week for those who desire annexation to Yugoslavia.

But besides these matters, in which serious people are interested, the feminine population was much more interested in the social events, which during this pre-Xmas period, bloomed in full. A ball in evening dress, in the historic castle of Duino - whose white rocks and grey walls have witnessed, during these last years, a succession of inhabitants - was the main attraction. The Castle belongs to the Princes of Thurn and Taxis (a sweet Princesse barring this name is described in "Jew Süss," by Feuchtwangher) who italianised their name in Torre e Tasso when the King of Italy, a few years ago, awarded the title of Duchi di Castel Duino; the previous Princesse - born Maria di Hohenlohe- offered hospitality to Rainer Maria Rilke and translated - though rather badly if the truth be told - his "Elegie Duinesi".

During the events of the last months of the war, the Castle - which is 20 kilometres from Trieste on the road to Monfalcone, was hardly damaged, and thus it was discovered and occupied by General Sir John Harding, Commander of the 13th Corps.

In the voluptuous and hospitable atmosphere of Trieste even the hardest fighting men become gentle; and thus, before his departure, his friend, the famous General Sir Bernard Freyberg, Commander of the Second New Zealand Division which liberated Trieste, decided to throw a ball whence Massimiliano di Absburgo left to go and find an hypothetical Empire and a certain death in Mexico.

And so the old Castles of the region reopen their halls; and the loveliest ladies of Trieste crowded in Duino for the ball offered by General Harding in honour of General Mc Creery's wife; General Mc Creery is the most photogenic British officer and he is at the head of British troops in Austria. Mrs Mc Creery is a beautiful lady, rather shy with those she does not know very well, but fascinating because sweetly reserved. There were few other English ladies but about a hundred local Italian ladies who had managed the miracle of being almost as lovely and as elegant as before the war..

During the week preceding the ball all "lovelies" were interested in nothing else; the husbands of those who had not been invited found that it was "not right" to go, while the husbands of those who had been invited rejoyced in this renewal of social life.

During the events of the last months of the war, the Castle - which is 20 kilometres from Trieste on the road to Monfalcone, was hardly damaged, and thus it was discovered and occupied by General Sir John Harding, Commander of the 13th Corps.

In the voluptuous and hospitable atmosphere of Trieste even the hardest fighting men become gentle; and thus, before his departure, his friend, the famous General Sir Bernard Freyberg, Commander of the Second New Zealand Division which liberated Trieste, decided to throw a ball ~~xxxxxxx~~ in the Castello di Miramare, the famous Castle from/ whence Massimiliano di Absburgo left to go and find an hypothetical Empire and a certain death in Mexico.

And so the old Castles of the region reopen their halls; and the loveliest ladies of Trieste crowded in Duino for the ball offered by General Harding in honour of General Mc Creery's wife; General Mc Creery is the most photogenic British officer and he is at the head of British troops in Austria. During the week preceding the ball all "lovelies" were interested in nothing else; the husbands of those who had not been invited found that it was "not right" to go, while the husbands of those who had been invited rejoyced in this renewal of social life. All tricks were invented in order to obtain an invitation. At the ball the few men in civilian clothes were entertained at the bar, in the cricket and golf links, while the old ladies danced with the Lietenants and the young girls danced with the Brigadiers.

Rather amusing the departure of an American General who lives in a part of zone A where sometimes the measures adopted in zone B are enforced; he was accompanied by a number of Military Police; the officer charged to accompany him to the exit, who was in a very gay mood following the various cocktails he had had, told the boys who had to escort him :"Take him boys, now he is yours"; those present ~~xxxxxxxxxxxxxxxxxxxxxxxx~~ and even the democratic General, were very much amused.

But the real "arbitri elegantiarum" were the Guards, the most elegant British Regiment which is divided in "Scots" and Gold-Stream". Their General, Malcolm Erskine, attractive, Scotish and a batchelor, lives in the Villa Modiano, where the "Gauleiter" used to dwell. And Captain David Carson is the only Guardsman who is allowed, by a special decree issued by King George, to wear a beard which is worthy of appearing in the Oberammergau representations. Only people who are either elegant or lovely or amusing are invited to their receptions; money or a political situation of importance, mean nothing to them, thus it is easier to meet, in their home, Austrian or Yugoslav refugees than American officers of A.M.G.

And in this world where everyone is concerned with disorders and devaluation, the "Cold-stream" and the "Scot Guards", manage to keep standing their own world and do not seem to care how ar how long this "douceur de vivre" will last.

Ref your FX 55949. I have discussed with Mr. (Cleveland ?) Economic Adviser to Alcom question of method of continuing supp to Udine and Venezia Giulia and other related matters. As a result I consider arrangements made must provide for following.

1. Res of two months civil supp for Venezia Giulia to be held locally.

2. Scale of civil supp for Venezia Giulia to be at least equal to that for remainder of Italy which I understand will be raised when UNRRA assume responsibility.

3. Res of one months civil supp for Udine to be held locally and to be at my disposal for use in emergency. AMG Udine to retain machinery for distribution in emergency.

4. Supply of commodities and materials essential to industry for which Venezia Guilia is dependent on rest of Italy to be maintained on scale proportionate to needs and availability. In other words all possible steps to be taken to prevent public or private commercial discrimination to the disadvantage of Venezia Giulia.

SUBJECT: Military Responsibility for Supplies in AMG Territory

TO : Chief Commissioner,
Allied Commission,
APO 394

1. Reference letter from Chief Commissioner, file ES/1.47/0 dated 13 December, which incloses a letter from the Acting Vice-President, Economic Section, Allied Commission. It is agreed that it would be most unfortunate if food supplies loaned from Italian stocks for use in AMG territory were not to be repaid in kind. A signal (copy to Allied Commission) has been sent to the Combined Chiefs of Staff requesting confirmation that repayment will be made in kind.

2. It is possible that the Italian representatives in the United States have requested payment in dollars so that they may purchase other commodities. This might be checked into in Rome.

3. It is agreed that if dollar payment should be made, that loans will be requested only as a last resort and after every effort has been made to obtain military supplies.

The Minister of Finance

Prot. n. 02/9299 12 Dec. 1945

encl. 2

Admiral Stone
Chief of the Allied Commission
Rome

Subject : Italian Kentucky tobacco left by the Germans, the payment of which has been requested by the monopoly.

According to informations which I received from the administration of the State monopoly, I take the liberty of bringing the following facts to your attention:

In a letter dated November 15th, of which we hereby enclose a copy (encl. n. 1) the Allied Military Government of the Belluno Province ordered to stock in the Venezia Tobacco Factory 29.161 tons of tobacco leaves, for which it gave an invoice amounting to L. 287.9[illegible], 15, stating that the payment must take place according to the procedure established in the letter A.C. 3603/163 Sec. O, para 9 K, dated June 22nd, 1945, of which a copy is also enclosed (encl. n. 2).

We point out that this is Kentucky tobacco, produced in Italy, which had been taken by the Germans and left behind when they withdrew from Northern Italy.

As you are aware, there is a regime of monopoly in our country, according to which raw and cultivated tobacco, produced and manufactured by us, belongs to the Administration of the State Monopoly exclusively. It seems therefore impossible to ask for the payment of tobacco which is de jure the property of the Italian State; this also because in its raw state, it has already been paid to the farmers.

As there have been similar cases in which Provincial Allied Commands or officers fixed the price and asked the Monopoly to pay for tobacco leaves of which they were somehow in possession, I deem it advisable to bring this matter to your attention, trusting you will issue whatever orders you consider fit to the provincial Command of Belluno, for what concerns this case, and also, on general principles, to all offices and Commands depending from you.

Thanking you in advance, I remain,

Sincerely yours,

e. Scoccimarro

Allied Military Government
A.F.O. 394

19 November 1945

To : Direction General of the State Monopoly
Piazza Mastai, 11 - Rome

Ref. : RCII/BEL/SP/739

Subject : Raw tobacco, Anatolli Barracks, Feltre (Belluno)

We inform you that in accordance with the orders we received from H.Q. Allied Commission (Captured Army Material Section) 5th Army, the following items have been withdrawn from the Anatolli barracks at Feltre and sent to the Venice Tobacco manufacture during the last ten days:

116 (one hundred and eighteen) parcels and 3 (three) cases of raw tobacco to be used in the manufacturing.

Such tobacco formerly belonged to the German Administration and has been sold by this Allied Command to the Administration of the State Monopoly.

The payment of the said tobacco must take place according to the procedure established and confirmed by the letter AC 300/163 LAB - G 9 K, dated June 22nd, 1945 (of which we enclose a copy).

The net weight of the said tobacco amounts to tons 29.161.

The price of the said packages, based on the price of raw tobacco, in package, Kentucky brand, of U.S. II category, including the extra-price, amounts to L. 2230 for Q.li, at L. 1800. For Q.li equal to an average price of L. 2015 for the net weight of 1 quintal.

The expenses for the repairing of the barrels and cases will be charged to the State Monopoly.

007

The Allied Command begs the Direction General to have the payment made to the A.M.G. FINANCE OFFICE, BELLUNO, through the channel of the local Trento or Belluno Monopoly office. We enclose the invoice.

Reference the Minister of Foreign Affairs' memorandum 3/2156 dated 3 Dec 45, the Chief Commissioner has made the following comments:

"To: Executive Commissioner.

With reference to the attached, it does seem to me that the R.C. more than leans over backwards in a mistaken sense of neutrality on the Italo-Jugoslav situation in Trieste. It seems to me that we were to preserve the "status quo", not to encourage greater Jugoslav activities in Zone A than we found when we took over.

Will you please investigate and report to me.

The following message has been received from the Combined Chief's of Staff as FAN 634.
Further instructions from AFHQ will follow.

Para 1. All areas in Italy, including the Province of Bolzano and the Commune of Colle Salvetti, Livorno, Naples and Pisa, and the fortress islands of Lampedusa, Linosa, and Pantellaria, but excepting Udine Province and that portion of Venezie Giulia west ot the Morgan Line, will be returned to Italian administration as soon as possible, and any case no longer the 21 days after receipt ot this directive (reference your radios NAF 1609. NAF 1071. NAF 1073. NAF 1092 and NAF 905).

Para 2. Simultaneously, in respect of any territories which may be retained under AMG, all command functions of ALCOM and AMG will be preformed by 13 Corps, reporting directly to AFHQ. Military personnel detached from duty with ALCOM will not be utilized as AFHQ Liaison to ALCOM

Para 3. At time of hand over you should inform Italian Government and make public announcement to include statements that:
(A) Udine is retained solely for military reasons and not because it is considered a disputed area.
(B) Return of Bolzano is without prejudice to final disposal of province under peace treaty at which Italian rights will receive full consideration.

Para 4. As regards Lampedusa, Linosa, and Pantelleria, handback of these Provinces should be made at the same time, subject to your obtaining agreement of Italian Government to:
(A) Their demilitarization.
(B) Your retaining right of inspection to insure that demilitarization is maintained. You should provice, if you think it necessary, for Allied officers to be stationed there, as in other parts of Italy administered by Italian Government, to ensure that Allied Military interests are safeguarded.

Para 5. You are completely relieved of Italian supply responsibility except for Venezia Giulia, and Province of Udine. Supplies will be the concern of the civilian departments of the United States and United Kingdom Governments of the Italian Government programs. Pending further instruction, you should, as President of the Allied Commission, continue to advise and assist the Italian Government in

You may also give assistance to the Italian Government in connection with the preparation of bids for transportation for the supplies when received in Italy. In addition as Military Commander, you will have right to communicate with the United States and United Kingdom Governments on supply matters affecting the security or redeployment of your troops.

Para 6. Your channel of communication to the United States and United Kingdom Governments, both with respect to Allied Force Headquarters and Allied Commission matters will continue through the Combined Chiefs of Staff and the Combined Civil Affairs Committee in appropriate cable series. It is contemplated that necessary Italian civil supply arrangements will be handled between Allied Commission and Combined Liberation Areas admitted and use of COM*MOC cable series has been authorized for this purpose. However, you may submit any matters you deem appropriate the Combined Civil Affairs Committee through existing channels. Combined Chiefs of Staff or Combined Civil Affairs Committee will, there appropriate, communicate with responsible civilian agencies of the United States and United Kingdom Governments.

My dear Mr. Minister:

I have received your letter No. 3/1977 of 8 November, 1945, and have delayed making reply pending the receipt of a report from Allied Military Government in Venezia Giulia on certain questions raised by you.

I can assure you that Order No. 14 in no wise commits the future as regards the determination of the ethnic character of the area. The purpose of the Order is nothing more than the implementation of that part of the agreement between the Commanders of the Allied and Yugoslav Armed Forces providing for the control of movement of civilians within and between the respective Zones. The final number of identity cards of each category will not necessarily represent the number of actual residents of each category.

I am informed by the AMG officials that the issuance of identity cards is being most carefully carried out and that the issuing officials are constantly on guard against attempted frauds including those suggested in your letter. You will appreciate, my dear Minister, that the Allied Authorities are very much interested in correctly issuing these cards, not with any political view, but only in order to be able to exercise proper control over civilian movement.

Your apprehension over the apparent discrepancy between paragraphs (a) and (b) of Article 3 of Order No. 14, may be dismissed from your mind as the discrepancy is due to the unfortunate selection of words in making the translation into Italian. The English text does not use any words which would be technically translated as "domiciliati" or "domicilio".

Declassified E.O. 12356 Section 3.3/NND No. 785015

The words used are "residents" and "residence" which should have been translated "residenti" and "residenza".

In view of the situation in Venezia Giulia of which you are fully aware, it is not deemed advisable that an inspector of the Italian Central Institute of Statistico should be sent to Trieste.

Yours very truly,

ROUGH TRANSLATION

Rome, December 3rd, 1945

MINISTERO DEGLI AFFARI ESTERI

Dear Admiral Stone,

The Allied Military Government of the Venezia Giulia has issued General Order n.19 (a copy of which is enclosed), which was published on November 1st, 1945 in the Allied Military Government's Gazette under the heading: "Abrogation of provisions of Law, now in force, requiring the Italian Citizenship for employment in Public Offices".

Said General Order came to the notice of the population of Trieste after some delay, because, as it has been reported, it was not published in the Press nor did it appear on the municipal bill-boards, but only in the Gazette, as stated above. Once known, the measure in question has caused a surprise, quite understandable, among the population of Trieste who has reacted in various manners against it, i.e. with protests to the newspapers, with resolution of protest of the National Committee of Liberation and of the Zone Council addressed to the A.M.G. (A copy of the motion by the aforesaid Zone Council is herewith enclosed). The National Committee of Liberation of Trieste has also made a formal appeal to the Italian Government asking their intervention with the Allied Authorities to obtain the repeal of the measure.

From information which has reached me, it seems that said Order aimed firstly at allowing the Allied Authorities to engage personnel also amongst true and genuine Yugoslav - i.e. amongst persons born in the old Yugoslav Provinces - to cover the requirements of the Slav schools recently established in the region and for the appointment of Slovene judges for the Tribunals of the district.

This is but a confirmation of what I had already the occasion to bring to your attention with my letter 3/2127, dated November 27th, concerning the artificial character of the educational institutions established in zone "A" and the tolerance of the Allied Military Government towards the Slav plan of regimenting the Slavs who are indigenous to Venezia Giulia by persons of the old Yugoslav provinces. In fact, if the Allied Mi-

litary Government's desire had been simply to entrust certain offices and assignments - in view of particular local situations - to non-Italian speaking persons, it could have availed itself, according to the nature of the different tasks, of its own Officers or of persons chosen amongst the Slavs pertaining to the region, who are still Italian citizens.

At any rate, irrespective of which the principal aim of the measure might have been, it befalls me to underline that such a wide and radical character of the General Order does not seem to be in conformity with the principles of international Law which are universally recognized (see Art. 43 of the Regulation attached to the IV Hague Convention of November 18th, 1907), according to which the occupying Authorities may complete the administrative organisation of the occupied country with special services to meet the requirements of the military situation, but are not entitled to modify and much the less to abrogate the existing Laws, except in the case of absolute war necessity. In view of the above it would seem needless to recall again the declarations repeatedly made to the Italian Government by the Allied Powers concerning their intention not to jeopardize the "statu quo" of the Venezia Giulia up to the moment of the Peace Treaties.

It appears therefore that the General Order in question goes far beyond the powers recognized to the Occupying Country by international Law; there is no doubt too that it goes far beyond the powers which might be recognized to a "trusteeship" administration, such as the Allies Authorities have defined their own administration of the Venezia Giulia.

You will acknowledge, dear Admiral Stone, that during all this time the Italian Government, and personally myself, have given complete evidence of our understanding in the matter of the extraordinary difficulties confronting the quite special task entrusted to Allied Military Authorities in the Venezia Giulia.

Consequently I do greatly regret, dear Admiral Stone, that I have to ask you to transmit to the Allied Commission, over which you preside, my protest for a measure appearing all the more arbitrary in as much as it does not seem essential to a po- 091

licy of recognition - even quite comprehensive - of Slav interest in the region. I trust therefore that some means will be found to revise such measure.

I shall greatly appreciate it, dear Admiral Stone, if you will acknowledge that the Italian Government, as far as they are concerned, formulate the most ample reserves as to the acquisitions by foreigners of rights and powers under the provisions of the above mentioned General Order.

While I am Awaiting to hear from you on this subject, I beg to remain, dear Admiral Stone,

Very sincerely yours,

SUBJECT : Transfers of Supplies and Materials from Italy to Venezia Giulia.

TO : All concerned (Distribution list at end of memorandum)

1. The Allied Commission has inquired of AFHQ, G-5 Section for a statement of policy respecting the transfer into Venezia Giulia of imported supplies on which the Italian Government had taken title. In a letter dated 12 September the Chief Administrative Officer, Civil Affairs Office of AFHQ, notified that no objection would be offered to the transfer of imported items to that part of Venezia Giulia in the area lying west of the Morgan Line. TAM Code 690 from CCS directs that civilian supplies for Venezia Giulia remain a military responsibility.

2. Imported supplies moved from Italy into Venezia Giulia may be transferred from

(a) Civilian supplies imported into Italy to prevent disease and unrest under combined military responsibility (Category A Supplies);

(b) Civilian supplies imported into Italy by the Italian Government, and charged against the fund set up in the U.S. Treasury representing the lire expenditure of U.S. troops in Italy and other Italian credits (Category B Supplies); and

(c) Civilian supplies imported into Italy under the 100 million dollar supply program of the Foreign Economic Administration (Category C Supplies).

It will be appreciated that Civilian Supplies of Categories B and C may be unloaded in Venezia Giulia so that, in fact, title never passes to the Italian Government.

(b) Civilian supplies imported into Italy by the Italian Government, and charged against the fund set up in the U.S. Treasury representing the lire expenditure of U.S. troops in Italy and other Italian credits (Category B Supplies); and

(c) Civilian supplies imported into Italy under the 100 million dollar supply program of the Foreign Economic Administration (Category C Supplies).

3. Separate accounting records are required to be maintained at AC Headquarters level for each of the three supply programs, because of the different arrangements under which charges are made against the Italian Government for the value of the goods. It will be necessary that the receiving, warehousing, distributing and accounting records of the agents for the Italian Government: Istituto Nazionale per il Commercio Estero, Federazione Italiana dei Consorzi Agrari, or Ufficio Centrale Carboni della Direzione Generale delle Ferrovie dello Stato, clearly show the particular programme under which supplies are imported into Italy. To accomplish this separate records must be maintained by them for each programme, corresponding to the related records in the Allied Commission. This requirement is essential, not only for charging the value of supplies against the Italian Government, but also for making allowance for credit for any supplies shipped from Italy to Venezia Giulia.

4. In the case of imported supplies taken on charge by the Italian Government and thereafter shipped from Italy into Venezia Giulia, the ICE, the Federazione, or the State Railways, as the case

Declassified E.O. 12356 Section 3.3/NND No. 785015

may be, must show on the related shipping documents, in the manner hereinafter prescribed, the supply programme under which the goods were furnished by the Allied Nations.

5. In connection with imported supplies (markings TOG and UK) furnished to Italy under the combined military responsibility, procedure has already been established for goods later transferred from Italy to Venezia Giulia. In such cases the agent of the Italian Government, who had previously acknowledged receipt of the imports on behalf of the Italian Government, has been allowed credits for the quantities transferred to Venezia Giulia. This credit is effected on the basis of a receiving report given by the Port Liaison Officer or other AC representative making the shipment. The document serves to relieve the Italian Government of the charge, and to transfer the same to the account of AMG, Venezia Giulia. No change will be made in this procedure. The combined military supply programme for Italy (as distinguished from Venezia Giulia) was terminated with the August loadings except for some minor exceptions.

6. In connection with imported supplies (markings YT) purchased by Italy in the United States from the Troop Pay Fund and other Italian credits (Category B Supplies), particular attention is invited to the restrictive authorization of the Chief Administrative Officer that such supplies may be transferred "to that part of Venezia Giulia West of the Morgan Line". Thus imported "Category B" supplies transferred from Italy are limited for distribution by the VIII Corps to a defined area. When supplies previously taken on charge by the Italian Government as imports under "Category B" are transferred to Venezia Giulia, the Sub-Commission effecting the transfer will make all necessary arrangements with ICE, the Federazione or the State Railways, and with the Port Liaison Officer or other AC officer handling the shipment. When it is made, the respective agent of the Italian Government will prepare a transfer voucher in quadruplicate showing the consignee as VIII Corps AMG Venezia Giulia, the commodity, and the quantity. The transfer voucher will state that the shipment is made from U.S. Troop Pay Fds., "Category B" Supplies. All copies of the transfer voucher will be signed by ICE, the Federazione or the State Railways and countersigned by the AC officer handling the shipment. The original transfer voucher will be forwarded to the Chief Accountant, Allied Supply Accounting Agency; the duplicate to the Supply Accountant, VIII Corps Venezia Giulia; the triplicate to the Transportation Sub-Commission; and the quadruplicate will be retained by ICE, the Federazione or the State Railways. It is important to note that transfers of supplies procured with YT funds will only be made after obtaining concurrence of the Italian Government.

Declassified E.O. 12356 Section 3.3/NND No. 785015

tention is invited to the restrictive authorization of the Chief Administrative Officer that such supplies may be transferred "to that part of Venezia Giulia West of the Morgan Line". Thus imported "Category B" supplies transferred from Italy are limited for distribution by the XIII Corps to a defined area. When supplies previously taken on charge by the Italian Government as imports under "Category B" are transferred to Venezia Giulia, the Sub-Commission effecting the transfer will make all necessary arrangements with ICE, the Federazione or the State Railways, and with the Port Liaison Officer or other AC officer handling the shipment. When it is made, the respective agent of the Italian Government will prepare a transfer voucher in quadruplicate showing the consignee as XIII Corps AMG Venezia Giulia, the commodity, and the quantity. The transfer voucher will state that the shipment is made from U.S. Troop Pay Lire, "Category B" Supplies. All copies of the transfer voucher will be signed by ICE, the Federazione or the State Railways and countersigned by the AC officer handling the shipment. The original transfer voucher will be forwarded to the Chief Accountant, Allied Supply Accounting Agency; the duplicate to the Supply Accountant, XIII Corps Venezia Giulia; the triplicate to the Transportation Sub-Commission; and the quadruplicate will be retained by ICE, the Federazione or the State Railways. It is important to note that transfers of supplies procured with YT funds will only be made after obtaining concurrence of the Italian Government.

7. In connection with imported supplies (Markings YB) furnished to Italy under FEA 100-million dollar programs (Category C) and thereafter transferred to Venezia Giulia, the same requirements will apply and the same procedure will be followed, except that the transfer voucher will show that the shipment was made from "FEA Program Supplies (Category C)".

8. In the event that any Category B or C supplies are unloaded at Trieste direct from the original vessel, the AMG Supply Officer XIII Corps will sign the out-turn report in sextuplicate, and will forward all copies to War Shipping Administration, Rome. At the same time the AMG Supply Officer XIII Corps will also prepare a direct import receiving report in quintuplicate. Copies of the report will be distributed as follows: original and quintuplicate to Chief Accountant, A.S.A.A.; duplicate to

Declassified E.O. 12356 Section 3.3/NND No. 785015

Supply Accountant, XIII Corps, triplicate to Transportation Sub-Commission, AC; and the duplicate will be retained in his files.

9. The Supply Accountant in Venezia Giulia will maintain separate accounting records, where applicable, for :

(a) Combined Military Responsibility Supplies (Category A);

(b) Troop Pay Etc, Supplies (Category B) ; and

(c) FTA Programme Supplies (Category C).

Statements of stock movements, schedules of imports, schedules of transfers of supplies received, and schedules of sales of supplies will be rendered separately for each of the three categories. Schedules of sales supporting the statement of stock movements under categories (a), (b) and (c) will show the respective quantities issued and the sales values according to Commercial sub-divisions, Gorizia, Trieste, and Pola. Sales in Udine should be recorded separately.

6. In connection with imported supplies (Markings YT) purchased by Italy in the United States from the Troop Pay Fund and other Italian credits (Category B Supplies), particular attention is invited to the restrictive authorization of the Chief Administrative Officer that such supplies may be transferred "to that part of Venezia Giulia West of the Morgan Line". Thus imported "Category B" supplies transferred from Italy are limited for distribution by the VIII Corps to a defined area. When supplies previously taken on charge by the Italian Government as imports under "Category B" are transferred to Venezia Giulia, the Sub-Commission effecting the transfer will make all necessary arrangements with ICT, the Federazione or the State Railways, and with the Port Liaison Officer or other AC officer handling the shipment. When it is made, the respective agent of the Italian Government will prepare a transfer voucher in quadruplicate showing the consignee as VIII Corps AMG Venezia Giulia, the commodity, and the quantity. The transfer voucher will state that the shipment is made from U.S. Troop Pay Fund, "Category B" Supplies. All copies of the transfer voucher will be signed by ICT, the Federazione or the State Railways and countersigned by the AC officer handling the shipment. The original transfer voucher will be forwarded to the Chief Accountant, Allied Supply Accounting Agency; the duplicate to the Supply Accountant, VIII Corps Venezia Giulia; the triplicate to the Transportation Sub-Commission; and the quadruplicate will be retained by ICT, the Federazione or the State Railways. It is important to note that transfers of supplies procured with YT funds will only be made after obtaining concurrence of the Italian Government.

7. In connection with imported supplies (Markings YB) furnished to Italy under FFA 100-million dollar programme (Category C) and thereafter transferred to Venezia Giulia, the same requirements will apply and the same procedure will be followed, except that the transfer voucher will show that the shipment was made from "FFA Procured Supplies (Category C)".

8. In the event that any Category B or C supplies are unloaded at Trieste direct from the original vessel, the AMG Supply Officer VIII Corps will sign the out-turn report in sextuplicate, and will forward all copies to War Shipping Administration, Rome. At the same time the AMG Supply Officer VIII Corps will also prepare a direct import receiving report in quintuplicate. Copies of the report will be distributed as follows: original and quintuplicate to Chief Accountant, A.S.A.A.; duplicate to

Declassified E.O. 12356 Section 3.3/NND No. 785015

Declassified E.O. 12356 Section 3.3/NND No. 785015

Supply Accountant, XIII Corps, triplicate to Transportation Sub-Commission, AC; and the duplicate will be retained in his files.

9. The Supply Accountant in Venezia Giulia will maintain separate accounting records, where applicable, for :

(a) Combined Military Responsibility Supplies (Category A);

(b) Troop Pay Etc, Supplies (Category B) ; and

(c) FTA Programme Supplies (Category C).

Statements of stock movements, schedules of imports, schedules of transfers of supplies received, and schedules of sales of supplies will be rendered separately for each of the three categories. Schedules of sales supporting the statement of stock movements under categories (a), (b) and (c) will show the respective quantities issued and the sales values according to geographical sub-divisions, Gorizia, Trieste, and Pola. Sales in Udine should be recorded separately.

Dear Dr. Prunas:

I have carefully noted your letter of 8 November 1945, No. 15/25778/65, in connection with the food situation in Trieste, as reported to the Minister of Foreign Affairs. As you indicate, the Ministry of Food is not in a position to assist directly in the administration of the food situation in Trieste.

It is a fact that the ration in the Trieste area is being maintained at a rate equivalent to that distributed in Northern Italy, although it has been necessary to adjust the ration upward slightly to meet special conditions in some areas where local availability of foodstuffs is limited. This policy is considered appropriate to the situation and adequate to meet the requirements of the civil population in the area.

Necessarily, it is the responsibility of AMG 13 Corps to maintain the food supply. In order to insure most satisfactory liaison between the Italian food administration in Northern Italy and AMG 13 Corps, a special liaison office of the Commissario Interregionale dell'Alimentazione per l'Alta Italia has been established in Trieste.

With specific reference to your request as to how the Italian Government can contribute, as much as possible, to supplying the food requirements of the people of Trieste, I should like to call your attention to the fact that a great deal of difficulty has been experienced in maintaining the normal flow of foodstuffs from Northern Italy into the Trieste area. Negative action by local officials in adjoining areas of Northern Italy have often interfered with the movement of foodstuffs to Venezia Giulia.

Such action as the Italian Government may take to insure the uninterrupted movement of foodstuffs normally supplied to Venezia Giulia by Northern Italy will be of material assistance. In that general connection, the Allied Commission will appreciate receiving reports of specific instances which indicate that the

food situation in Trieste may be unsatisfactory, and will transmit them to AMG 13 Corps with appropriate recommendations.

MEMORANDUM

PROPOSALS BY ALLIED COMMISSION THAT MILITARY LIAISON OFFICERS BE USED IN ANCHORAGES ON THE WEST COAST OF ISTRIA (OTHER THAN TRIESTE AND POLA).

---

1. On 26 September, soon after the communique issued by the Council of Five in LONDON regarding the Italian-Yugoslav frontier and TRIESTE, the American Political Adviser recommended the despatch of military liaison officers along the West Coast, AFHQ exercising SACMED'S rights under Article I of the BELGRADE Agreement which provides that the anchorages on the West coast of ISTRIA are under his command and control. His memorandum is attached as Appendix "A".

2. The British Political Adviser had on the same day "telegraphed to the Foreign Office making a similar suggestion".

3. Both Political Advisers strongly recommended the despatch of my telegram 6418 of 2 October 1945. = 372a

(376a) 4. AFHQ telegram F 47627 sent in reply on 7 October 1945 appeared to contain two points on which comment was desired.

5. Firstly, in para 3 it assumed that "any commission would inform itself concerning change in residents". It was this very information which military liaison officers in these anchorages could provide and

5. Firstly, in para 3 it assumed that "any commission would inform itself concerning change in residents". It was this very information which military liaison officers in these anchorages could provide and knowing the Yugoslav attitude and practices it appeared most unlikely that such information would be forthcoming in any other way.

6. Secondly, although the Yugoslavs would of course object to the maintenance of military liaison officers on shore, it appeared even from Appendix "G" of the MORGAN Agreement that Allied ships had the right to inspect the anchorages and that, in view of the necessity of providing evidence, we should exercise these rights and by doing so provide opportunity to collect such evidence. Hence, with full agreement of the Political Advisers, telegram 7594 of 23 October 1945 was sent.

7. To this a reply was received (F 51391) from AFHQ on 2 November 1945. The telegram rejected the proposals and stated that SACMED had been supplied with no new facts and implied that he was not impressed by the argument. It therefore appeared incumbent on Allied Commission to present the case once more.

8. In telegram 8384 of 15 November the facts were reiterated, namely, that the Yugoslavs policy of sabotaging every aspect of the BELGRADE Agreement would undoubtedly lead them to produce false eveidence to deceive the deputies of the Council of Five. The telegram recommended that the Allies should not passively allow this production of false evidence to take place but should, by legitimate means, try to prevent it. Both Political Advisers agreed with the telegram, POLAD (A) "heartily", POLAD (B) with the qualification that knowing the Foreign Office attitude "he doubted it getting anywhere".

9. With reference to General MORGAN's three paragraphs it must respectfully be observed that;

(a) We have the rights to inspect the ports and enchorages on the West coast within the borders of the Yugoslav held areas, which, according to the BELGRADE Agreement, are under command and control of SACMED. It surely would not be impossible to include in such inspections officers who could obtain evidence on movement of population.

(b) Whatever may be the official position there is ample evidence to prove that the Yugoslavs have no idea of the meaning of "in trust" and certainly no intention of applying the term to their occupation of Zone "B". Every detail of such news as we have proves that annexation is their policy.

(c) In view of the attitude of the Yugoslavs there is nothing to prevent the C-in-C MED being asked to exercise his rights, in order that the truth may be known. For it seems to me and my Political Advisers that we must find out the truth in every way possible so that true evidence and not false is produced before the international commission which may settle the future of these people. The US Embassy also point out that the rights of the Allies with respect to the anchorages were included in the BELGRADE Agreement, at any rate from the US point of view, not so much for purely naval reasons as for political reasons in order to increase Allied control over that densely (Italian) populated area.

10. It is submitted that the action suggested in para 3 would have no result even if the Ambassadors considered it correct or practical to carry it out. In the first place, the Italian Government are not in a position to make any representation through diplomatic channels until they have evidence to support their case. The Italian Government cannot obtain that evidence because they have no right of access to the area. The Allies have the right of access and it was in order to obtain the evidence that the infiltration of military liaison officers was suggested. No diplomatic action in BELGRADE by the Allies would produce evidence that the Yugoslavs were packing Italian towns in this area with Slovenes; no diplomatic action in BELGRADE would stop them packing these towns if they so intended. It would seem that no diplomatic action should be initiated until the Allies had endeavoured to place military liaison officers in these ports and their attempts had been rejected.

11. Both Embassies agree that on such a point as this it is for the Chief Commissioner to advise SACMED direct. The US Ambassador, moreover, points out that the original suggestion was made on the grounds that it was preferable to implement existing agreements in which we had undoubted rights than to initiate some new procedure through diplomatic means.

12. It will also be remembered that the Allied Commission was instructed to prepare an ethnic and economic report on VENEZIA GIULIA and it was in implementation of the instructions from SACMED that the proposals to send military liaison officers to these anchorages was made in order that further evidence could be obtained for the use of the deputies of the Council of Five.

1. On 26 September, soon after the communique issued by the Council of Five in LONDON regarding the Italian-Yugoslav frontier and TRIESTE, the American Political Adviser recommended the despatch of military liaison officers along the West Coast, AFHQ exercising SACMED'S rights under Article I of the BELGRADE Agreement which provides that the anchorages on the West coast of ISTRIA are under his command and control. His memorandum is attached as Appendix "A".

2. The British Political Adviser had on the same day "telegraphed to the Foreign Office making a similar suggestion".

3. Both Political Advisers strongly recommended the despatch of my telegram 6418 of 2 October 1945.

4. AFHQ telegram F 47627 sent in reply on 7 October 1945 appeared to contain two points on which comment was desired.

5. Firstly, in para 3 it assumed that "any commission would inform itself concerning change in residents". It was this very information which military liaison officers in these anchorages could provide and knowing the Yugoslav attitude and practices it appeared most unlikely that

It was this very information which military liaison officers in these anchorages could provide and knowing the Yugoslav attitude and practices it appeared most unlikely that such information would be forthcoming in any other way.

6. Secondly, although the Yugoslavs would of course object to the maintenance of military liaison officers on shore, it appeared even from Appendix "G" of the MORGAN agreement that Allied ships had the right to inspect the anchorages and that, in view of the necessity of providing evidence, we should exercise these rights and by doing so provide opportunity to collect such evidence. Hence, with full agreement of the Political Advisers, telegram 7594 of 23 October 1945 was sent.

Declassified E.O. 12356 Section 3.3/NND No. 785015

7. To this a reply was received (T 51391) from AFHQ on 2 November 1945. The telegram rejected the proposals and stated that SACMED had been supplied with no new facts and implied that he was not impressed by the argument. It therefore appeared incumbent on Allied Commission to present the case once more.

8. In telegram 8384 of 15 November the facts were reiterated, namely, that the Yugoslavs policy of sabotaging every aspect of the BELGRADE Agreement would undoubtedly lead them to produce false evidence to deceive the deputies of the Council of Five. The telegram recommended that the Allies should not passively allow this production of false evidence to take place but should, by legitimate means, try to prevent it. Both Political Advisers agreed with the telegram, POLAD (A) "heartily", POLAD (B) with the qualification that knowing the Foreign Office attitude "he doubted it getting anywhere".

9. With reference to General MORGAN's three paragraphs it must respectfully be observed that:

(a) We have the rights to inspect the ports and anchorages on the West coast within the borders of the Yugoslav held areas, which, according to the BELGRADE Agreement, are under command and control of SACMED. It surely would not be impossible to include in such inspections officers who could obtain evidence on movement of population.

(b) Whatever may be the official position there is ample evidence to prove that the Yugoslavs have no idea of the meaning of "in trust" and certainly no intention of applying the term to their occupation of Zone "B". Every detail of such news as we have proves that annexation is their

(c) In view of the attitude of the Yugoslavs there is nothing to prevent the C-in-C MED being asked to exercise his rights, in order that the truth may be known. For it seems to me and my Political Advisers that we must find out the truth in every way possible so that true evidence and not false is produced before the international commission which may settle the future of these people. The US Embassy also point out that the rights of the Allies with respect to the anchorages were included in the BELGRADE Agreement, at any rate from the US point of view, not so much for purely naval reasons as for political reasons in order to increase Allied control over that densely (Italian) populated area.

651

Declassified E.O. 12356 Section 3.3/NND No. 785015

10. It is submitted that the action suggested in para 3 would have no result even if the Ambassadors considered it correct or practical to carry it out. In the first place, the Italian Government are not in a position to make any representation through diplomatic channels until they have evidence to support their case. The Italian Government cannot obtain that evidence because they have no right of access to the area. The Allies have the right of access and it was in order to obtain the evidence that the infiltration of military liaison officers was suggested. No diplomatic action in BELGRADE by the Allies would produce evidence that the Yugoslavs were packing Italian towns in this area with Slovenes; no diplomatic action in BELGRADE would stop them packing these towns if they so intended. It would seem that no diplomatic action should be initiated until the Allies had endeavoured to place military liaison officers in these ports and their attempts had been rejected.

11. Both Embassies agree that on such a point as this it is for the Chief Commissioner to advise SACMED direct. The US Ambassador, moreover, points out that the original suggestion was made on the grounds that it was preferable to implement existing agreements in which we had undoubted rights than to initiate some new procedure through diplomatic means.

12. It will also be remembered that the Allied Commission was instructed to prepare an ethnic and economic report on VENEZIA GIULIA and it was in implementation of the instructions from SACMED that the proposals to send military liaison officers to these anchorages was made in order that further evidence could be obtained for the use of the deputies of the Council of Five.

27 November 1945

My dear Mr. Minister :

I have received your letter 3/1976 dated 8 November, 1945, relating to travel within Venezia Giulia.

You are aware, no doubt, that control of movement into and within Venezia Giulia including Zones "A" and "B" was determined and fixed by the terms of the agreement between the Supreme Commanders of the Allied and Yugoslav Forces. Those terms provide that there will be no restrictions on travel within Venezia Giulia by persons of either Italian or Slovene origin normally resident in Venezia Giulia nor on the passage of such persons to and fro across the Morgan line.

Provision was made for the issuance of identity cards which should indicate the residence of the holder. Unfortunnately circumstances beyond our control made it impossible to begin issuing such identity cards until quite recently. They are now in the process of being issued.

The agreement further provides that Italian and Yugoslav citizens, not resident in Venezia Giulia, may move freely in Venezia Giulia if those entering from the west have Allied approval and those entering from the east have Yugoslav approval. It will be noted that Allied authorities exercise no control over persons entering Venezia Giulia from the east.

This situation, coupled with the lack of proper identity cards showing residence, has made it practically impossible to exercise an adequate control over movement across the Morgan line. The

958

Yugoslavs solved the problem by establishing what has amounted to a complete block on travel eastward across the Morgan line by Italian citizens, whether resident in Venezia Giulia or not. Such action violates the spirit, if not the letter, of the agreement and the Allied authorities are not willing to adopt similar measures, believing that it would be impolitic to do so.

Now that identity cards are being issued Allied control of movement in the occupied zones is becoming much more strict and the provisions of the agreement can be enforced. I trust that, with the changed condition, the situations to which you refer will quickly disappear.

Very truly yours,

SUBJECT: Italian Citizens Deported from the Venezia Giulia by the Yugoslav Authorities.

It has been suggested that a differentiation be made between alleged 'fascist-republican' and other Italian citizens in requesting the Allied Authorities intervention with the Yugoslav Government in order that all Italians deported from the Venezia Giulia by the Yugoslav Authorities be released and returned to their homes, pursuant to article 6 of the Morgan agreement.

In the matter it may be useful to point out again that the Italian Government holds that all Italian citizens- irrespective of their possible political affiliations, illegally deported and arbitrarily still detained by Yugoslav Authorities should be forthwith released and returned their homes towns.

In support of said point of view, the special attention is called to the following consideration:

(a) The Italian Government is not in a position to prepare two lists, differentiating between the 'Fascist-republican' and other Italian deportees;

(b) Should the general principle of differentiation be accepted, it would be only too easy for the Yugoslav Authorities to allege the 'Fascist activity' of some deportee whom they do not wish to release;

(c) Deportations carried out by the Yugoslav Authorities, both from 'Zone A' and from 'Zone B' of the Venezia Giulia, are illegal actions in themselves, regardless of any subjective valuation of the persons so deported. It is never within the province of the occupying Power to deport citizens of the occupied Countries. As it is known, such system was practised during the war by Germany and it was universally condemned.

(d) The Italian Government have the duty as well as the right to protect all Italian citizens, specially when confronted with methods such as those used by the Yugoslavs, methods with which the Allies are by now well acquainted. 455

(e) As the Italian Government is anxious that their citizens be returned in order that they be freed from an extremely distressing situation, in any case it would be up to the Italian Government and to Italian Justice to proceed-according to the Italian law- against citizens who may have to be subjected to some legal action because of their political past in Italy.

I. BILINGUAL PRACTICE

The rigidly equal position maintained by the authorities in respect of the two nationalities living side by side in the "A" Area does not correspond either to the State of things or to fairness. In fact:

(a) in the "A" Area, as against 320,000 Italians, there are only 40-50,000 Slavs;

(b) the Slavs are bilingual and therefore there is no practical necessity of maintaining such an uncompromising bilingual practice which can only be accounted for by claims of a political character;

(c) it is a fact that not even the Austrian Government, though so favourable towards the Slavs, had adopted such a bilingual position. In Trieste there was never seen, for instance, a quasi-Governmental Austrian office, like that existing to-day in Piazza della Borsa, in which the Italian board is on an equal footing with the Slav one.

Similar considerations may be made as regards the bilingual character adopted by Radio Trieste, which has brought to the result that, by to-day, practically no citizen in Trieste listens in to the local broadcasting.

(d) not only from a numerical point of view can the two nationalities be placed on the same footing, since these are two nationalities having a quite different rank of civilisation; in fact, all the initiatives of an economic, financial and cultural character were always of Italian origin, whilst the Slav portion of the population never has contributed to the civilisation of this zone.

Another typical instance are the premises belonging to the firm of Messrs. Fischbein that were requisitioned by order of the Allied authorities in favour of the Slovene Library, which is no undertaking having commercial purposes, but a Slav political assertion in the centre of the town. The sub-lease, it had been agreed, was to run up to the return of the tenant Mr. Fischbein, who however not only did obtain the removal of the Slovene Library, but received an order issued by the Allied authorities requisitioning the premises in favour of the said Library and, it seems, with no payment of the respective rental

II. ADMINISTRATION

The citizens of Trieste see with concern the gradual disintegration of all those institutions liable to record the right of sovereignty of the Italian State still in existence (there can be no doubt that such a right continues to exist not only by virtue of general regulations of an international character and on the strength of art. 10 of the Armistice, but such a right is to be clearly found in the known memo of Marshall Alexander under date of May 19th, 1945, in which Marshall Alexander says that "the territory around Trieste and Gorizia, and east of the Isonzo, is part of Italy, under the name of Venezia Giulia".)

In conflict with such a right there are the following significant facts:

(1) Putting out of the National flag on public buildings has been prohibited on the strength of proclamation No. 3 of Marshall Alexander, the contents of which is of a quite general character, whilst several of the provisions contained therein have already been expressedly put out of force. Such an official prohibition corroborates the attempt made by the Slav-Communists to prevent the National flags flying on private buildings as well.

(412)

Declassified E.O. 12356 Section 3.3/NND No. 735015

(2) Change in the names and, in some cases, in the very structure of the offices of "Prefetto", "Sindaco", "Preside" of the Province, "Provveditore agli studi" (that has becare "Ispettore agli studi"), "Ufficio Genio Civile" (transformed into "Ufficio civile"), R.A.C.I. (which has becare Automobile Club Trieste, Pola and Gorizia).

(3) Transfer to the A.I.S. of the operation of the "Ente Autonomo Teatro Verdi" (being a public corporate body).

(4) Abolishment of the obligation of the Italian citizenship to be able to cover an office in public administrations.

III. CULTURAL LIFE

The citizens of Trieste furthermore complain that, whilst the Slav-Communists are in a position to broadly carry on their cultural and political activities, no assistance in this field is given by the Allies to the Italian part of the population, that are the absolute majority of the town and were used for centuries to be able to carry on, unhampered, their activities in every field.

In fact, whilst the Slav-Communists have at their disposal big premises which they took possession of during the Slav occupation of the town (we may confine ourselves to mentioning the first floor of No. 6 via Carducci, the Railway building in via Milano, the "Casa del Lavoratore Portuale", etc. etc.) in which to carry on their political and cultural activities, the Italians are in the regrettable position not even to be able to find accomodation for the National Liberation Committee in suitable and sufficiently large premises.

No Italian body or society has to-day in Trieste any premises of its own and such a deficiency prevents any and all activity in the field of both cultural and amusement. A club of culture and arts, which the A.I.S. itself had encouraged, could not be formed as the Allied authorities never allowed, in spite of their repeated promises, the Hall Duca d'Aosta which is the only place relatively available in Trieste in which the said club, in view of its objects, could be fixed up.

Also as regards the situation of the press in the town is the Italian element in a position of absolute inferiority; in fact, if it is true that there exist a number of weekly papers, which on the other hand are of little importance, the position of the daily papers is as follows:

3 dailies with a manifestly anti-Italian inspiration,
as against a singly one of Italian attitude.

The population of Trieste consider as useless also the Slav edition of the "Giornale Alleato" which, as it is known, has a circulation of only a few thousands of copies as compared with the 30,000 - 40,000 copies of the Italian edition.

URGENT

My dear Admiral,

my colleague of Industry and Commerce informed me about a disagreement that took place between the Trieste Mining District - an Italian State organ depending from the Ministry of Industry and Commerce- and the Trieste A.M.G., asking for my intervention.

Mr. Vitagliano, head of the said Mining District, received from A.M.G., on the 13th inst. the following telegram:

'As your Department no longer functions in Venezia Giulia, will you kindly evacuate at once the offices you are at present using in the Trieste prefecture. All your office outfit etc. should remain in the Prefecture to be used by other Government Agencies under the control of A.M.G. 13th Corps. You can leave archives and other materials in the Prefecture till you get further orders'.

Mr. Vitagliano immediately protested against such an order, but it doesn't seem that his steps had any effect. I therefore draw your attention on the following considerations about this order.

Such an order from A.M.G. is a complete exception, for there are no precedents of the kind in other Italian provinces under Allied Administration. Therefore, it might certainly be interpreted locally as Allied agreement to the Yugoslav thesis, that - in accordance with the assurances repeatedly given by the Allies - must not be prejudiced till peace is signed.

Besides, the jurisdiction of the Trieste Mining District, includes besides the Trieste and Istria zones, also that of Udine. To have it suppressed all of a sudden would therefore cause complications for the safeguard and management of the mining patrimony of the latter zone.

In consideration of what I have just said, I shall greatly appreciate it, my dear Admiral, if you kindly intervene to have this order either cancelled or suspended, to avoid another modification of the situation in Venezia Giulia, to the prejudice of the Italian side.

Believe me, my dear Admiral,

Sincerely yours,

1. I attach hereto a translation of a letter dated 20 October from the President of the Council of Ministers, proposing that a public works program in Venezia Giulia be financed by the Italian Government.

2. This Headquarters is sympathetic to the Italian request and I have discussed the proposal in principle with G-5, AFHQ, stating that, on the analogy of the Category "A" and "B" supplies, the AMG public works program could be considered as a preventive against disease and unrest and the supplemental Italian program, financed by an Italian budget appropriation, considered as a reconstruction measure. The planning and execution of such a supplemental program would of course be carried out under AMG supervision.

3. AFHQ's present view of the Italian proposal is not one of opposition, and I should like to present an agreed proposal for a final decision. Accordingly, I should be grateful for an early expression of your views, particularly as to the amount of funds that could usefully be spent during the next six months or a year in a supplemental program of public works, and a breakdown of the major types of works projects that could be undertaken.

Rome, 20 October 19

The President of the Council
of Ministers.

Dear Admiral,

The growing unemployment of workers in Trieste has certainly come to your notice, and it has been pointed out to me with great insistence under both social and humanitarian aspects in this particularly difficult moment. The feeling between Trieste and the Italian Government, one of growing discomfort owing to the fact that what has become to us impossible because of the abnormal conditions of military occupation is put down as indifference on our part; that is to retain communications with Venezia Giulia region, to keep a representative there, even though in the form of a simple observer, and to carry out any moral and material help towards our fellow countrymen very much tried during Tito's occupation at first, and by the Jugoslav agents now, who seem to have complete libe ty of movement on the other side of the Morgan Line, liberty completely ignored until now by the Italian Government.

We now intend to help the working population of Trieste by financing, even at the cost of great sacrifice on our part, public works, necessary to the city, so as to enable the unemployed to work. This will be under the care of the Technical Office of the Comune di Trieste and under the supervision of the Genio Civile.

I am certain that you will appreciate the exceptional importance of this project, and I beg you to inform the local Allied command, so that the financing on the part of the Italian Government may be facilitated.

I beg you, my dear Admiral, to accept my highest regards.

SUBJECT : Officers - Venezia Giulia Police Force.

TO : GHQ, CMF, for G-5.

1. As a result of the promulgation of the War Establishment CMF/1046/2 (Civil Police Movement to XIII Corps) no Public Safety Officers have been included in the proposed War Establishment for AMG Venezia Giulia. It was understood that the need for all such Officers had been catered for in CMF/1046/2, and this has been confirmed during a recent conversation between Brig. PARSONS/Lt.Col. WILLIE-JONES.

2. The proposed establishment referred to above is part of the new establishment which will shortly be submitted to cover AMG/AC throughout Italy. In order that the position may be clarified it is requested that steps be taken to nominate such AMG Public Safety and other Civil Affairs Officers as are required to fill vacancies on CMF/1046/2 and to have them posted to that establishment. It is requested therefore that you will take the necessary action with H.Q. 13 Corps, so that nomination may be made out of the present Civil Affairs Officers assigned to AMG Venezia Giulia.

3. It is designed to point out that this covers British Officers only. The original lay out of the Police Force Venezia Giulia was desired to include 10 American Civil Affairs Officers, of which there are at present nine in the Field. Every endeavour will be made to maintain this figure although the shortage of American Officers will render this increasingly difficult.

4. It is requested that the action indicated in para 2 above may be completed by 1 Dec next.

To Brigadier M.S. LUSH

Rome.

My dear General,

I bring to your attention the intolerable situation in which Italian workers who want to remain Italian find themselves because of the so-called Jugoslav activities of Trieste.

The situation is also described in an article of 'Avanti' of the 13th inst., a cutting of which I enclose.

In particular, it appears from reliable news sent during the last few days, numerous Italian workers were expelled from the plants in which they were working, this by the above mentioned activists, and for the following reasons:

a) for refusing to sign the forms for annexion to Yugoslavia;

b) for taking part in the great demonstration for Italianity which took part in Trieste on November 3rd.

c) for being members of the Italiansocialist party;

d) for stating they were in favour of Venezia Giulia (Italian) trade unions instead of common (Yugoslav) trade unions.

Elections were carried out with violent means and somentimes by threatening people with death.

As you can see, my dear General, even in Zone A, Yugoslav agents are trying to establish a real trade union terror which might bring about an easily understandable reaction on the part of the Italian elements.

As we earnestly wish the very strained situation in Venezia Giulia not to become more so, I beg you, my dear General, to give instructions to the G.M.A. of Zone A, for him to take such action as might safeguard the trade union freedom of the workmen of Venezia Giulia.

Thanking you for whatever action you will deem it advisable to take, I remain,

Sincerely yours,

s. R. PRUNAS.

MINISTERO DEGLI AFFARI ESTERI — Rough Translation — Copy

No. 3/1977 — Rome, November 8th, 1945

Dear Admiral Stone,

I am informed that Order N.14, issued on September 10th by the Allied Military Government of Trieste, instituting special "identity cards" for persons living in "Zone A", has entered a stage of practical application.

I am in possession of the Italian text of said order, only as printed in the newspapers of Trieste (see enclosure).

Allow me, dear Admiral Stone, to briefly outline some impression and some preoccupations concerning said Order as they have reached me from various sources affected thereby.

Order No. 14 is undoubtedly an important measure, because of the consequence that may derive therefrom: namely it commits the future, its true purpose being of establishing who pertains to the Venezia Giulia of the persons now present there and who does not.

As to its character, it is specified in the Order itself that it is issued at the result of an agreement between the Allied and the Yugoslav Armed Forces. However said Order loses its character of Military Police measure, to assumes a specific and true political nature, just because of the matter it deals with and on account of its scope. The political nature of the Order is furthermore emphasized by the fact that in the area subject to Yugoslav occupation, Tito's authorities behave as though the occupied zone were a territory already annexed to Yugoslavia. This happens with methods, the unscrupolousness of which has been amply and sorrofully experienced by these tormented populations.

As far a "Zone A" is concerned, the Allied Military Authorities are exercising there a true and complete governmental function, without the assistance of any organ of the Italian State.

In view of such situation, you will realize, dear Admiral Stone, how deeply concerned are the Italians about the application of the Order in question and how pressing are the appeals reaching me.

In particular, I am anxious to call your attention to the following observations: 926

May first, 1945 is taken as a date on which discrimination becomes effective.

After May first, 1945 tens upon tens of thousands of Slavs have been caused to flock to the Venezia Giulia, and specially to Trieste, and are still flowing there from the old Yugoslav provinces. Thousands of Yugoslav political refugees have moreover lately arrived in the Zone.

But even at the time of Tito's occupation the ethnic structure of Trieste had undergone substantial alterations on account of the Italian mobilization, of the vicissitudes of the partisan fight, and the policies carried out by Gauleiter Reiner during the Nazy period, policies aiming at balancing the Italians with the Slavs and at excluding from the district any interference by the so called fascist social republic.

With the occupation on the part of Tito, thousands upon thousands of Italian pertaining to Venezia Giulia have been deported, other thousands have taken refuge beyond the Isonzo river.

It would consequently have been fairer to chose an earlier date. Should this no longer be possible, it would at least be necessary that the applications for identity cards of the type "domiciled in the Venezia Giulia" be accurately scrutinized, in such a manner as to avoid that the rately scrutinized, in such a manner as to avoid that the authentic inhabitants of Trieste be on the same footing as the Slavs who have flocked to the town from the surrounding country districts or even from the interior of Yugoslavia.

Not even the ration cards (I have been told that their number is now of 400,000, whereas the normal population of Trieste is of 230,000) can reflect the normal situation of the town inasmuch as - apart from the fact that many Italians are absent from Trieste - it is proved that many Slavs who have immigrated only recently are back-dating the records where registering on the rolls of Vital Statistics, by taking advantage of the right to produce an "Affidavit". To obtain such affidavit it is sufficient to have the testimony of four witnesses: a perfectly legal procedure but a very dangerous one because of the present circumstances of time and place. In fact there is no need to stress how easily such procedure lends itself to be exploited by unscrupolous persons.

A discrepancy between comma (a) and comma (b) of Article 3 is also worth nothing.

In fact comma (a) deals with residence (according to Italian law this defines the habitual abode of a person whereas comma (b) deals with domicile (always according to Italian law this term means the main center of somebody's interests and activities).

Moreover the Order in question completely disregards the people of the Venezia Giulia who have abandoned the region for political or other grounds. What measures have been contemplated to safeguard their right to be considered true "citizens" of the territory and of inhabiting the region?

Lastly I should be very grateful to you, dear Admiral Stone, if you would kindly let me know what, on this subject, has been enacted or contemplated in Istria, by the Yugoslavs.

I have been informed that - beside substantial ethnic alterations caused by the Yugoslav occupation - even all Vital Statistics records have been destroyed in several places, as it happened, for instance, at Pisino.

Accepting a suggestion coming from a high authorities, I beg to point out how advisable as well as desirable it would be that the Allies should give their consent to the suggestion that an inspector of the Italian Central Institute of Statistics be allowed to proceed to Trieste and assist the organs entrusted with the issuance of the above mentioned documents. In fact, should the measure in question - which may have such an importance for the future of the region - be applied without any participation of the organs of the Italian State, the Italian Government would be compelled to formulate the most ample reserves and to disown, at the time when the exceptional status of the Venezia Giulia will have ceased to exist, any commitment deriving from the issuance of the documents under Order No. 14.

Please accept, dear Admiral Stone, my most cordial pgreetings,

Very sincerely yours,

Dear Admiral Stone,

the serious food situation in Trieste has been reported to the Ministry of Foreign Affairs.

The question was taken up with the Food Ministry, and such Department has done all within its power to help the inhabitants of the city, by taking the iniative of assigning special quantities of food. It appears however that it was not possible to overcome obstacles deriving from the fact that Trieste is under the administration of the Allied Military Government.

The situation keeps on being distressing; the closing in of winter will make it all the more so. Therefore I shall appreciate it greatly if you will give the matter your kind attention and examine whether a way can be found in which the Italian Government would be allowed to contribute, as much as possible, in relieving the needs of food of the people of Trieste.

Believe me, dear Admiral Stone,

Very sincerely yours,

1. Barter agreements, contrary to the policy of this Headquarters as stated in the Regional Commissioners' meeting of 23 June 1945, and in directive Ref.92-I/20/Food of 23 June 1945, are reported to be restricting inter-regional and inter-provincial trade. Such restrictions are also contrary to Italian law as set forth in Article 6 of the Italian Decree No. LL 347, of 9 October 1944, which has been implemented in the Northern Regions.

2. The refusal, by Prefects and other local Italian officials, to permit the removal of certain goods out of areas under their jurisdiction unless the area receiving the goods is prepared to offer certain other commodities in exchange, impedes the equitable distribution of supplies under established procedures. Regional and Provincial Commissioners should bear in mind that essential commodities, scarce enough to be attractive as barter, must be more equitably distributed than can be accomplished by inter-provincial agreements.

3. Immediate steps will be taken to ensure that Prefects and other local officials do not block or in any way hinder the movement of goods from one area to another, except in implementation of allocations under authority of appropriate agencies of the Italian Government and/or of this Headquarters.

Thank you for your interesting letter of the 25th October, 559/39/[illegible] with its enclosure from Cervignano. The reference is to that small group of communes south east of Palmanova which were Austrian before the last war were included in Friuli (Udine Province) after the last war.

I shall write you a longer report after I have got hold of a large scale map upon which I can mark the former and present boundary line.

In brief I can say that the writers are historically correct when they assert that these villages are traditionally linked with Gorizia rather than with Udine.

On the other hand the attempt to claim the generic term Friuli for their own little group is going a long way too far. The name Friuli is just as likely derived from "Forum Julii" which is the old name for the City of Cividate, founded by Julius Caesar.

I should say, as a quick estimate, that the writers have not a strong following. The names of the signatories are not Italian, and I should think they represent a Slovene national feeling that is not prepared to go pro-Tito.

The whole question is a left over from a piece of incomplete military history in the 16th century. At the time of the league of Cambrai, the Holy Roman Empire, in its counter offensive against the eastward penetration of the Republic of Venice, took Gradisca, and crossed the Isonzo, getting as far as Cervignano and Aquileia.

There they stopped, and the Venetians built Palmanova in 1593 to bar further progress. Palmanova was, in its time, one of the most famous fortresses in Europe.

So, from about 1600 to 1800, the Empire held this half open sally port across the Isonzo onto the Friulian plain, and into the terrain of the Republic of Venice. When, in 1866, Venice was set free from the Austrian domination under which it had fallen, and became Italian, the new Kingdom of Italy fell heir to the same problem. 026

As you rightly say, there is food for much thought.

My dear Mr. Ambassador:

Further to my CC 1008 of 12 October 1945, I have had the present situation in Venezia Giulia investigated in order to determine whether a restriction should be made on the movement of Yugoslavs westward across the Morgan Line.

It is considered that the statement made in my letter 609/28/EC of 13 September 1945 and quoted by you in your last paragraph is still true. There has been some considerable movement from east of the Morgan Line, but it could not yet be characterised as "large scale".

A registration of the population of this area for identity card purposes is now in progress and when this has been completed it will be possible to make a much more comprehensive estimate of the position. Should the situation change, however, I will immediately inform you and the matter can be considered once again.

2. This Headquarters is sympathetic to the Italian request, and if you agree in principle, I propose to discuss with the Italian Government the establishment of an Italian budget appropriation for public works in Venezia Giulia which would supplement the limited AMG program. On the analogy of the Category "A" and "B" supplies, the AMG public works program can be considered as a preventive against disease and unrest, and the supplemental Italian program as a reconstruction measure. The planning and execution of the supplemental program would of course be carried out under AMG supervision, and the provision of the necessary funds can easily be arranged under a reimbursement procedure, in the same manner as funds for Patriot activities in North Italy before liberation were provided.

The President of the Council of Ministers

Rome, 20 October 1945

Dear Admiral,

The growing unemployment of workers in Trieste has certainly come to your notice, and it has been pointed out to me with great insistence under both social and humanitarian aspects in this particularly difficult moment. The feeling between Trieste and the Italian Government, one of growing discomfort owing to the fact that what has become to us impossible because of the abnormal conditions of military occupation is put down as indifference on our part; that is to retain communications with Venezia Giulia region, to keep a representative there, even though in the form of a simple observer, and to carry out any moral and material help towards our fellow countrymen very much tried during Tito's occupation at first, and by the Jugoslav agents now, who seem to have complete liberty of movement on the other side of the Morgan Line, liberty completely ignored until now by the Italian Government.

We now intend to help the working population of Trieste by financing, even at the cost of great sacrifice on our part, public works, necessary to the city, so as to enable the unemployed to work. This will be under the care of the Technical Office of the Commune of Trieste and under the surveyance of the Genio Civile.

I am certain that you will appreciate the exceptional importance of this project, and I beg you to inform the local Allied command, so that the financing on the part of the Italian Government may be facilitated.

I beg you, my dear Admiral, to accept my highest regards.

IL PRESIDENTE
DEL CONSIGLIO DEI MINISTRI

Roma, 20 Ottobre 1945

Caro Ammiraglio,

a Lei è certo nota la crescente disoccupazione dei lavoratori triestini, che a me viene segnalata con insistenza sotto i suoi aspetti umani e sociali e sotto quelli politici, in questo momento particolarmente sensibili. Fra Trieste ed il Governo Italiano se è venuta creando un situazione di disagio, poiche i triestini imputano a noncuranza nostra quella che, per effetto delle condizioni anormali dell'occupazione militare, è solo una vera e propria impossibilita nostra di restare in comunicazione con la Venezia Giulia, di avervi un qualsiasi rappresentante, sia pure sotto forma di osservatore, e di svolgere qualsiasi azione di soccorso morale e materiale verso i nostri concittadini duramente provati dall'occupazione di Tito prima ed ora da perduranti imposizioni e prepotenze da parte di agenti jugoslavi, che pare godano ancora, attraverso la linea Morgan, di una liberta di movimento ignota finora al Governo italiano.

E ora nostro intendimento di venire in aiuto alla popolazione lavoratrice di Trieste, finanziando, anche con nostro grave sacrificio, lavori pubblici necessari alla citta, tali da poter assorbire la mano d'opera non impiegata. I lavori sarebbero affidati all'Ufficio tecnico del Comune di Trieste sotto la sorveglianza del Genio Civile.

Sono sicuro che a Lei non può sfuggire l'eccezionale importanza e l'urgenza del provvedimento e, mentre compio il dovere di comunicarle il nostro progetto, La prego di voler con cortese sollecitudine interessare il Comando Alleato locale, perche le operazioni di finanziamento da parte del Governo italiano vengano agevolate il più possibile.

La prego, caro Ammiraglio, di gradire i sensi della mia alta considerazione.

The Minister of Foreign Affairs

3/1946 Rome, 2 Nov. 1946

Restricted - Urgent

My dear Admiral,

I have just received the telegrams of which I hereby enclose a copy; two of them bearing the signature of the President of the C.L.N. of Venezia Giulia, Fonda, concerning the very grave situation which seems to be taking place in Capo d'Istria between the local population and the Yugoslav authorities.

Unfortunately, I have no direct means for controlling the bearing of theincidents which seem to have taken place, but according to the above mentioned communications, their seriousness is obvious. On the other hand, the preoccupations we formerly expressed regarding the occupation by the Yugoslavs, and without any allied control of so large a sector and particularly of those zones where the Italian speaking population forms a majority appear fully confirmed.

I shall therefore be most grateful, my dear Admiral, if considering the urgency of this matter, you are good enough to contact the organisms concerned to ascertain the elements of the situation, also in view of possible measures to safeguard the peaceful population of the so called 'B' zone.

Thanking you in advance, I remain,

Sincerely yours,

De Gasperi

1. This refers to Professor Parri's attached inquiry regarding the two insurance companies in Trieste.

2. As you know, under the State Department's safehaven project, we were charged with the obligation of carefully investigating all insurance companies with a view to obtaining all information bearing on their Axis connections, transfer and concealment of funds abroad, and their possible use as economic espionage agencies. The responsibility for handling this has now been transferred to the American Embassy, the British Embassy working in close conjunction with it.

3. You will recall also that we are still required by PAN 583 to control the foreign financial transactions of Italian insurance companies.

4. In connection with the foregoing, when our insurance officers were handling the safehaven project, we called on all insurance companies to furnish complete lists of their stock holders and required them to answer a long list of questions concerning their past foreign operations. The two big companies in Trieste, Assicurazioni Generali and Riunione Adriatica di Sicurta, supplied us with the required information and our insurance officers (none of whom are now here) may have requested the minutes of their Boards of Managers for scrutiny, but we doubt that these books have been permanently sequestered. We are checking this with the only insurance officer left, who is now stationed in Trieste with AMG Venezia Giulia.

TRANSLATION:

From various rather reliable sources, it appears that the Finance Office of the A.M.G. of Trieste is making careful investigations in the offices of the two Trieste Companies: "Assicurazioni Generali" and Riunione Adriatica di Sicurta". On the occasion of such investigations, the Officers in Charge seem to have sequestered the books of both companies (book containing the minutes of the shareholder's general meetings, minutes of the meetings of the Boards of Managers, of the partners, etc), and also all the restricted correspondence of the said companies. It appears that their inquiries are chiefly made to identify all the fund participations which both companies have in foreign companies.

Da varie fonti abbastanza attendibili giunge notizia che l'Ufficio Finanziario dell'A.M.G. di Trieste starebbe effettuando approfondite ispezioni negli uffici delle due Compagnie Triestine: "Assicurazioni Generali" e "Riunione Adriatica di Sicurtà". In occasione di tali ispezioni, gli Ufficiali incaricati avrebbero proceduto al sequestro dei libri sociali delle due Compagnie (libro dei verbali delle Assemblee generali degli azionisti, dei verbali delle riunioni del Consigli di Amministrazione, dei soci ecc.), nonchè di tutta la corrispondenza riservata delle Compagnie stesse. Le loro indagini sarebbero in massima parte rivolte al fine di identificare tutte quelle partecipazioni di capitali che le due Compagnie hanno in Compagnie Estere.

3. In particular, RFO, Lombardia Region, when in Rome, was asked what foodstuffs could be spared from that region; and he has given an assurance that arrangements would be made to send soft cheese, salami and a certain quantity of vegetables to Venezia Giulia.

4. This Section is at present compiling food requirement requisitions for Udine and Venezia Giulia. These provide for maintenance of existing Northern Italy ration scales for Udine and most of Venezia Giulia for the period January - June, 1946, as well as for a two months special emergency reserve on essential foodstuffsfor the whole of Venezia Giulia. For Pola, the isolated part of Venezia Giulian, certain slightly increased ration scales are provided for in view of its unique position and in order to ensure that the overall availability of foodstuffs there shall be at least the same as in the rest of Venezia Giulia.

I have made enquiries and I can now assure you that there is no intention of billeting these troops in Gorizia or its neighbourhood.

An area well to the southeast of Gorizia has been allocated to the Detachment, and preparations for its accommodation for the winter are being made.

SUBJECT: Ethnic and Political Reports on VENEZIA GIULIA.

TO : Allied Force Headquarters.
Attention: Chief of Staff.

1. I appreciate SACMED'n commendation on the preparation of the Venezia Giulia report referred to in your letter of 25 October.

2. With regard to that part covering the coal resources in Istria and their relation to Italian industry, as Major General Lemnitzer stated X at SACMED's conference on 24 October, the survey of the ARSA coal mines, which are the only coal mines in Istria, could not be completed because the Yugoslavs refused to allow access to them. The relation of these resources to Italian industry was, I had hoped, covered in para 7 of the economic section of my report in which it was stated that the ARSA coal mines supplied about 10 per cent of Italian industrial needs. You will also remember that I made reference in my covering letter to Foreign Office prints of which Paper R 10195/34/92/1945 dated 7 June 1944, Section 4, para 37 gives an output of nearly 1 million tons of inferior quality coal in 1942. You are also aware of the fact that several arrangements have been made to ship coal from ARSA for the TRIESTE area but when the time has come finally to put these into effect, some objection has always been raised on the part of the Yugoslavs.

3. With regard to the extent of the survey westward into Italy, I gave serious consideration to the terms of reference defined in your telegram FX 2459 of 15 July in which you instructed me to examine the general area between a line running north and south between GORIZIA and UDINE to the Austrian boundary and the MORGAN line. I took that line to be the line running between the two provinces of GORIZIA and UDINE for it seemed to me that if I had taken it as the line running between the two towns of GORIZIA and UDINE I might well have omitted the territory east of the western boundary of what is called Zone "A" (i.e., Venezia Giulia under AMG). The provincial boundary, therefore, between GORIZIA and UDINE provinces seemed to be the logical line to take.

4. At the same time in order to cover all eventualities I instructed the Regional Commissioner, Venezia Region, to prepare a report, which he did on 25 July. I attach copy of this report and in accordance with your instructions will file it with the original study available for transmission to representatives of the Allied Governments when so directed. 942

1. The following extract from a demi-official letter received by the Executive Commissioner from the Regional Commissioner, Venezia Region is forwarded for your information:

" I have just finished a very busy week of touring and I think I can report a good state of affairs generally. On Monday I went across to Udine and on Tuesday over to Trieste. We fully discussed the food position and I think that both the Corps Commander and Brigadier Terence Airey do fully realise that Udine and Venezia Giulia have to be regarded as economically on a different basis. At any rate I hope that they do now also understand that Udine has very little exportable surplus, certainly nothing like enough to maintain Trieste and therefore the question of feeding Trieste must be looked at from a much wider angle and must be a problem to be worked out in conjunction with the whole of Venezia Region and possibly the whole of Italy. For that purpose I arranged a meeting between Venezia Giulia representatives and Dring, my own Food Officer, and Dr Boldan, the very good Italian Regional Food Officer. When, later in the week, I was across at Bolzano I found that the fruit shipments from Bolzano to Trieste were moving all right. "

Rome, 20 October 1945

Dear Admiral,

The growing unemployment of workers in Trieste has certainly come to your notice, and it has been pointed out to me with great insistence under both social and humanitarian aspects in this particularly difficult moment. The feeling between Trieste and the Italian Government, one of growing discomfort owing to the fact that what has become to us impossible because of the abnormal conditions of military occupation is put down as indifference on our part; that is to retain communications with Venezia Giulia region, to keep a representative there, even though in the form of a simple observer, and to carry out any moral and material help towards our fellow countrymen very much tried during Tito's occupation at first, and by the Yugoslav agents now, who seem to have complete liberty of movement on the other side of the Morgan Line, liberty completely ignored until now by the Italian Government.

We now intend to help the working population of Trieste by financing, even at the cost of great sacrifice on our part, public works, necessary to the city, so as to enable the unemployed to work. This will be under the care of the Technical Office of the Comune of Trieste and under the surveyance of the Genio Civile.

I am certain that you will appreciate the exceptional importence of this project, and I beg you to inform the local Allied command, so that the financing on the part of the Italian Government may be facilitated.

I beg you, my dear Admiral, to accept my highest regards.

1. I enclose Brigadier Dunlop's report.

2. You will agree, I think, that sheer parochialism is not the main reason for supplies from Udine failing to reach Trieste. Many extra mouths have to be fed in the former province. It will be for the SCAO, XIII Corps, in addition to tapping Udine, to explore other sources of supply for Venezia Giulia especially, with the help of the Joint Economic Council, the more adjacent and more natural sources east of the Morgan Line.

SUBJECT: Food Supply for North Italy

File No: RGII/014.14

1. I am sure that the question of food supply for North Italy is already engaging the earnest attention of your economic section. I realise that the problem may well be bound up in part with the future policy of UNRRA.

2. I do however urge that the problem be brought into the forefront of our deliberations. If you could give Regional Commissioners some guidance as to the future it would be of great assistance.

3. The position, in general, in the Northeast, is that the political and public safety situation is settling down, but, all in authority, Prefects and the like, are all frightened of cold and hunger this winter.

4. The amassing, in the end, has not gone too badly up here. We have got in about 80% of Rome's estimate, and over 90% of the best local estimate. Yet even so we have only some 70 days's supply of grain for the Region. That means that by Christmas we shall be out of bread. Already Prefects are beginning to talk about the necessity of cutting the bread ration.

5. It is clear that if wheat ships are going to arrive in the port of Venice in time to be of use they should be there by the end of November, which is only some six weeks away.

6. If it was now known that plans were already in hand to meet this problem, then black market speculation would be checked and public morale would be immensely strengthened.

7. As I have written, in the first paragraph, I am sure that you know and appreciate all this. The people up here, however, get anxious and wonder whether Rome is doing anything. I should like to reassure them.

My dear Mr. Prime Minister:

I write with reference to your letter 47342/46247/61 of 15 October, 1945.

I can assure you that the question of providing Metropolitan lire to the Banca d'Italia, Fiume, for the purpose of meeting its obligations is receiving our most active consideration, and the Chief Finance Officer of AMG Venezia Giulia has been instructed to give this matter first priority in his discussions in the Joint Economic Committee. As you are aware, the Banca d'Italia is unwilling to send funds to Fiume unless the Jugoslav authorities give certain guarantees concerning the free use of such funds by the Banca d'Italia, Fiume. It is the purpose of the discussion in the Joint Economic Committee to elicit such assurances.

Rome, 16 October 1945

Dear Admiral,

referring to former similar communications, and as an example of the methods used by the Yugoslav side to extort the consent of the Italian population of Venezia Giulia and Friuli to the annexion of the said territories to Yugoslavia, I deem it advisable to draw your attention on the following incident, of which we were informed by reliable sources, and which can be controlled by the Allied Authorities.

'On August 29th, a Yugoslav vehicle loaded with various foodstuffs to be distributed to the population in the name of Tito's Government, arrived at S. Leonardo (Udine).

The Carabineers of S. Leonardo considering this to be false allurements, held up the vehicle.

Later on, the Allied Governor of Cividale authorized the distribution of the said foodstuffs, and the vehicle was therefore returned. The foodstuffs were thus given free to the population without distinction of person, class or political party. One obligation only: it was necessary to sign in special ledgers before being given the foodstuffs. However, on the next day, those who had received foodstuffs saw they had been deceived , for their signatures put on ledgers in blank, were not to be used as receipt for the foodstuffs withdrawn by them, but as proof of their willingness to have the territory annexed to Yugoslavia.

Many citizens handed back the foodstuffs, but the ledgers bearing their signatures had already been taken to Gorizia'

Believe me, my dear Admiral,

Yours sincerely,

The President of the Council of Ministers

47342/46247/6.1. Rome, 15 october 1945

Dear Admiral,

the material existence of a large number of Italian citizens in Fiume, and particularly of those who, in some way, are paid by the state, depend on the possibility for the Italian Banks in this town to function.

For the rapid resumption of such services, the Central Management of the Bank of Italy, with the full consent of the Government, had numerous contacts with the Finance Sub-Commission of the Allied Commission, and greatly appreciated its kind interest.

However, though the Allied Sub-Commission decided that, on general principle, there were no objections against supplying a certain amount of metropolitan lire to the Seat of the Bank of Italy in Fiume, up to now, the problem hasn't been solved, for, as we were informed on September 15th, by the above mentioned Sub-Commission in answer to the memorandum of the Banca d'Italia, dated 9 August, the decisions *that of the Joint Economic Committee at Trieste was to make on this subject, havent yet been forwarded.

However, the Popular Committee for Liberation (Yugoslav), is now exercising pressure on the above mentioned Central Administration, through the channel of the Fiume branch of the Banca d'Italia, to have such services re-organized, as, to its mind, nothing opposes the transfer of funds from the Anglo-American zone of occupation to the Yugoslav one; on the other hand, I have been informed that the said Yugoslav authorities of occupation are now proceeding to issue 'Istrian Lire' which are shortly to be put in circulation.

I shall therefore be most grateful, my dear Admiral, if you give your personal attention to this matter, which has an administrative character, but which should be solved without delay and which is of great importance.

Believe me, my dear Admiral,

Yours sincerely,

1. Reference your AC/4034/12/L of 9 October 45.

2. In your letter AC/4034/12/L of 11 September para 5 you suggest that the request of the Azienda Carboni Italiani for the recovery of its material be taken up with AFHQ: our 900E/29/EC of 6 October 45 merely endorsed this statement and asked you, as the most appropriate subcommission, to take this up with AFHQ. The Executive Commissioner also wishes you to take up the ROMSA case, as mentioned in para 2 of your above-quoted letter.

3. It is felt that a letter dealing with the general position of private and public Italian property in Yugoslav-occupied territory is not necessary at this juncture, since, at the moment, we are concerned with two specific cases only, and it will probably be more convenient to deal with each future case on its own merit.

4. Direct communication between the Italian and Yugoslav Governments does not exist; any negotiations between these Governments usually involve AC, G-5 AFHQ and the British and American Embassies. In order to receive instructions from AFHQ as to the procedure which should be followed to bring about adjustment, these two cases must be presented to them by this Commission from the legal aspect.

5. It does not concern Allied Commission that the Yugoslavs consider territory east of the Morgan Line as annexed territory; until the peace terms are published the whole of Venezia Giulia is Italian territory under the control of a military occupant (either Anglo-American or Yugoslav). We are not dealing with this subject from the Yugoslav point of view.

I refer to your letter 3/1568 dated 6 September 1945 on the subject of Yugoslav propaganda in Venezia Giulia and to my Executive Commissioner's acknowledgment 591/103/EC dated 10 September 1945 in which I promised you a further letter on the subject.

I shall discuss seriatim the paragraphs of your letter, in so far as they relate to the Anglo-American occupied portion of Venezia Giulia.

a) First paragraph. It is probable that there are petitions of the type mentioned in circulation, and that these are, in the aggregate, referred to in some newspapers as a "plebiscite." This term, of course, is not correct. We have always surveyed scrupulously any such efforts but, to date, in Allied occupied Venezia Giulia, there has been no cause to attribute these activities specifically to the "Yugoslav Authorities." Should you have any direct evidence of such connection I will be glad if you will let me know and I will take the matter up through diplomatic channels.

b) Second and third paragraphs. These paragraphs relate to the Yugoslav-occupied zone of Venezia Giulia, upon which I am not in a position to comment. If you have documented evidence again I shall be glad to take it up through the suitable channels.

c) Fourth paragraph. There is, of course, no reason why, under a democratic regime, any person may not, peaceably and without violence or duress, circulate any petition he pleases. The Senior Civil Affairs

The Senior Civil Affairs Officer of the Allied Military Government for Venezia Giulia, however, has heard reports of such methods being used as you describe in this paragraph. He has always given the strictest orders for arrests to be made whenever any evidence of such methods, however slight, can be discovered. 3. Last week, while at Bolzano, I stressed the importance of getting train shipments of fruit sent through to Trieste and I have been pressing transportation to ensure that the necessary waggons are available.

4. At the same time I am sure that you realize that the problem is not one-sided. You know that distribution of wheat, flour, sugar, fats, cheese and milk are made in accordance with a programme laid down by the Food Subcommission which we are bound to carry out. That does not leave much else except fresh fruit and vegetables. Colonel Bowman agrees that he is getting fresh fruit and vegetables from Italy. I have already explained our plans to move fruit from Bolzano to Trieste.

5. You will realize that from the other side I am receiving constant complaints from Udine that Trieste merchants roam the countryside buying up all available produce at fabulous prices to the detriment of the local inhabitants.

6. The truth is that Udine, which suffered heavy depredations from Germans, Cossacks, and Jugoslavs, has now to supply a population swollen by refugees, and has, no doubt, to find a limited amount of local produce for Allied troops. There will not be a big surplus available from Udine for Trieste.

7. In normal times, Trieste drew its supplies from as far afield as Treviso, Padova, and Rovigo, as well as from Bolzano. Now, with the lack of rail facilities and the high cost of road transport, there is an obvious tendency for Trieste to seek all its supplies from as near at hand as possible, that is from South Udine.

Declassified E.O. 12356 Section 3.3/NND No. 785015

train shipments of fruit sent through to Trieste and I have been pressing transportation to ensure that the necessary waggons are available.

4. At the same time I am sure that you realize that the problem is not one-sided. You know that distribution of wheat, flour, sugar, fats, cheese and milk are made in accordance with a programme laid down by the Food Subcommission which we are bound to carry out. That does not leave much else except fresh fruit and vegetables. Colonel Bowman agrees that he is getting fresh fruit and vegetables from Italy. I have already explained our plans to move fruit from Bolzano to Trieste.

5. You will realize that from the other side I am receiving constant complaints from Udine that Trieste merchants roam the countryside buying up all available produce at fabulous prices to the detriment of the local inhabitants.

976

8. The remedy must surely be to make a plan whereby the burden of supplying Trieste is distributed over as wide an area as possible, using rail and sea transport.

9. This plan I shall immediately study in conjunction with SCAO 13 Corps. You will, however, appreciate that its execution will depend on Italian cooperation after the date of transfer.

Dear Admiral,

as you know, according to the agreements made between the Allied and Yugoslav authorities, when the Morgan line was fixed, it was decided that a unit of the Yugoslav army, of 2.000 men, would remain in the neighbourhood of Gorizia, at Opechiocella.

This unit - which also has an office in town and patients in the military hospital - is formed of chosen units, very well equipped and certainly numbering over 2.000 men, who till now lived in tents.

The problem of winter quarters for such troops is now to be solved. It seems that the Allied side thought of some Gorizia barracks where the troops would be concentrated and therefore more easily kept under surveillance.

It is nevertheless obvious that the presence of the said military force in the town of Gorizia would be a great inconvenience.

Will you kindly draw the attention of the Allied Authorities in Gorizia on this situation. To our mind the above mentioned troops could be conveniently concentrated in the spacious barracks of Sacrado.

You must decide whether this is the case to ask for an intervention form the Allied Authorities in Caserta if necessary.

Believe me, my dear Admiral,

Yours truly,

S. R. Prunas

8th October, 1945

To: Chief Commissioner.

General Browning informs me that the latest form of returning Italian and Yugoslav troops to Venezie Giulia is as follows.

It has been recommended to AFHQ by Land Forces that these troops should arrive at Udine by rail in batches of 500 every 48 hours. At Udine they will be given and dressed in Army clothing dyed black without badges of rank or military emblems. So dressed, XIII Corps will transport them and distribute them in Venezie Giulia west of the Morgan Line.

AFHQ have not yet approved.

Reur your G418 of 2 October.

1. AFHQ interpretation of Article 1 of BELGRADE agreement in regard to command and control of anchorages on west coast of ISTRIA is contained in appendix G of MORGAN-JOVANOVIC agreement. Most unlikely that Jugoslav would agree to maintenance of Allied liaison officers on shore, particularly when anchorages not being used.

2. The occurrence of repeated incidents on the TRIESTE - POLA road in spite of definite agreement to keep it open shows that, even if agreement for these liaison officers were secured, local action against them and difficulties of maintaining them would make it impracticable to pursue the course you propose.

3. Any commission investigating ethnic character will undoubtedly inform itself concerning changes in residents.

Subject is timber supplies for VENEZIA GIULIA.

1. REAR 13 CORPS signalled DES AFHQ 14 September at our request asking for 2 timber mills allocated by DES to GENIO CIVILE UDINE to be reallocated to VENEZIA GIULIA in view this Regions urgent need for constructional timber.

2. AMG UDINE state timber mills allocated to UDINE GENIO CIVILE are insufficient for their own use and are suggesting that VENEZIA GIULIA requirements should be met direct by F. 2 FORESTRY GROUP.

3. Request your intervention with DES to ensure constructional timber is made available for VENEZIA GIULIA forthwith.

4. Local unions in strike discussions have been promised by this HQ that maximum employment will be given in public works reconstructions schemes. These are being held up by lack of timber. VENEZIA GIULIA has no timber resources of its own. Officer this HQ recently visited BELLUNO TRENTO and BOLZANO areas but found all available timber allocated.

5. In view unemployment situation please treat as most urgent.

28 September 1945

My dear Mr. Prime Minister:

I write with further reference to your letter No. 33111 of 30 August, 1945, regarding the position of Italian State employees in Venezia Giulia.

With reference to the pay of the State employees in that part of Venezia Giulia under Allied Military Government, I am able to assure you that such employees are receiving their full salary unless they fall into one of the following categories:

(a) unemployed former dependents of statal agencies domiciled in Fiume or any other province except Trieste, Gorizia and Pola.

(b) personnel dismissed or suspended by epuration commissions (in such cases only the base salary is paid).

I am advised by the Allied Military Government of Venezia Giulia that they consider the public wage question in that area has been properly dealt with and that they will welcome details of specific cases for investigation. I shall be glad to receive such information from you and transmit it to Venezia Giulia.

With reference to the pay of Italian State employees in that part of Venezia Giulia administered by the Yugoslav Government, I understand that this question has been referred to the American and British Embassies in Rome by Allied Force Headquarters. It is not proposed to take this matter up with the Yugoslav Government through military channels. There is, however, no financial objection to the proposal to allow AMG Venezia Giulia to pay the salaries of Italian State employees residing in that part of Venezia Giulia administered by Yugoslavia. I have requested AMG Venezia Giulia to investigate the feasibility of this procedure, discussing it if necessary in the Joint Economic Committee, and reporting to me. I shall keep you advised. If the procedure can be developed, it will not be necessary for you to send a paying officer to Udine, as the desired payments can be made through the regular paying offices in AMG Venezia Giulia.

Yours very truly,

Ministry of Foreign Affairs
The Secretary General

Rome, 27 September 1945

19/20478/54

My dear Admiral,

Among the numerous requests for us to take an interest in the fate of the Italian citizens residing in Venezia Giulia and deported by the Yugoslav authorities last May, an anxious and moving appeal sent to H. E. De Gasperi by a group of wives, mothers and sisters of the Trieste P.S. agents, about whom nothing is known, deserves particular attention.

I enclose the text of the above mentioned appeal, so that you may fully realize the painful state of mind of the women who signed it, and the necessity of taking action without delayto put an end as soon as possible to this serious and painful situation.

What is more, the request is perfectly legitimate, for, as you know, according to art. 6 of the Morgan agreement, the Yugoslav Government is obliged to hand over all Italian citizens residing in the parts of Venezia Giulia at present under allied control, who were arrested or deported.

Knowing your humanitarian feelings and your spirit of comprehension, I trust that you will support in the most efficacious way the request of all these unfortunate women.

Will you kindly let me know what action has been taken on this matter to enable this Ministry to send a few words of encouragement to these poor women, assuring them that the Allied Authorities are taking action to have their relatives returned.

Believe me, my dear Admiral,

Truly yours,

S. R. Pruneas

To H. E. De Gasperi, Minister of Foreign Affairs

Rome

Excellency,

In our despair, we appeal to you and ask for help. You are our last anchor of salvation and we put all our trust in your feelings as an Italian.

We are the wives, mothers, sisters of P.S. agents and live in anxiety because of our fate during the sad May days in Trieste, only because we happened to be Italian. It was then an offence to be Italian, and we were ill treated and scorned in our own land, because of the masterfulness of a foreigner that had nothing to do there. In a mad thirst for vengeance, the Jugoslav partisans then deported our men and we haven't had any news about their fate ever since. We vainly looked for them in the nearest Yugoslav concentration camps, we made endless researches, but all for nothing.

You may well understand how we are feeling.

We have been forsaken by everyone. Even the chiefs of the Questura do nothing, and when we think that those of the Guardia di Finanza managed so well that they obtained the repatriation of their dependents, it is enough to drive one mad, through sheer despair.

We speak to you openly, Excellency, for we feel as if you were our chief listening to us in a fatherly and understanding way.

For what concerns the financial question, we had the obvious proof of the interest of our superiors. However, how is it possible to think of depriving us of financial help, in the conditions in which we find ourselves, considering that besides the high cost of living, we have to spend a lot to travel in Yugoslavia, where we often go in the hope of finding our men.

You must understand us, Excellency, and God will reward you for the kindness you show us. You represent Italy abroad; please intervene with the Yugoslav Government about the fate of our relatives, and have them sent home before the Trieste problem is solved. If they don't come back before that, the hatred and vengeance of the Yugoslavs will be let loose on our men who are innocent. They are innocent; their task consisted in maintaining public order in the town; they were mistaken for criminals during these days of confusion and hatred towards Italy; however, it isn't fair that they should have to pay for those who are really guilty.

Our empty houses are dismal; our children are asking for their father and cry when they hear their mother's sobs.

Don't forsake us, Excellency, as everyone else did. Please give us back our men, help our children and support our rights - unfortunately, we are also in great need of financial help and we must also ask you for this.

Your kindness will never be rewarded enough, but we pray that all you do for us be for the good of our Country.

We thank you and put our trust in you.
