APP. 32 to P.D. No. 12
Dated 22 Oct. 1943.

ORGANIZATION OF INTELLIGENCE WORK IN
THE ALLIED COMMISSION

1. General

Accurate and timely information is required for two main purposes:

- (a) to provide a sound basis for plans and operations of the Commission.
- (b) to provide the United Nations with intelligence about Germany, Japan and enemy occupied territories which will assist the United Nations' war effort. It should be possible to obtain such information of the enemy outside this theatre of operations, which will nevertheless be of great value to our forces in other theatres, e.g. as regards selection of bombing objectives.

2. It must be remembered that this occupation and supervision of an enemy country provides a unique opportunity for gaining intelligence about our enemies. Full and early advantage must be taken of this.

3. Whereas normally military intelligence has to be obtained from observation of an enemy, in the case of the allied commission intelligence is gained from direct sources, i.e. from the ordinary work of subcommittees and from a co-ordinated and possibly co-operative nature. Thus information will be largely collected and collated in the normal course of work without necessitating setting up separate intelligence staffs. Information about enemy and enemy occupied territories will however demand special attention, as it also will not be immediately apparent in the work of existing and supervising the Italian Government.

4. It follows that it will normally be unnecessary to allocate special intelligence officers in subcommittees.

5. Duties of Allied Intelligence Committee.

This committee will be responsible for:

- (a) collation of information received from subcommittees.
- (b) provision of collated information to sections, subcommittees staffs and committees of the allied command as required.
- (c) providing intelligence for AFHQ with particular reference to **233** intelligence about enemy and enemy occupied territories, including those outside this theatre of operations.
- (d) liaison with the Joint Army Navy Intelligence Collecting Agency.
- (e) ensuring that the necessary records and statistics are maintained.
- (f) receiving and dealing with **233**

6. The Allied Intelligence Committee will be composed of the Chief Intelligence Officers of Sections and the Principal Security Officer, presided over by the Chief of Staff or one of his staff officers, and will have a secretary and assistants. Additional members may be added as required for special purposes.

7. Duties of Intelligence Staffs of Sections.

The intelligence staff of a section will:

- (a) collate information collected by the subcommittees of that section.
- (b) provide collected information for the Allied Intelligence Committee.
- (c) deal with questions asked by the Allied Intelligence Committee.
- (d) frame questions for the subcommittees of that section.

(e) ensure that the necessary records and statistics are maintained in accordance with the instructions of the Allied Intelligence Committee.

8. The chief intelligence officer of each section will be ex officio a member of the Allied Intelligence Committee.

9. Liaison with combined offices of staff.

It will be the duty of AIIIC to forward intelligence from the Allied Commission to the CCOS.

10. Security.

A small security staff will work in the Headquarters Section, and be responsible for issuing the necessary security orders for the Allied Commission and for general supervision of security.

11. The Principal Security Officer will maintain close touch with the security organization at AFHQ, and will be an ex officio member of the Allied Intelligence Committee.
