a. Salvage, Scrap and Other War Materials

1. Basis for Procedure

A Chief of Staff memo dated 8 January 1945, designates War Materials Disposal Sub-Commission as the AC agency to receive from Military Services reports on availability of salvage, scrap and other war material, to collate such reports and distribute them to the appropriate Sub-Commissions of AC. The AC Priorities Board has, in Procedural Bulletin No. 1, divided all materials into four categories and has designated an Allocating Sub-Commission for each category. It is the purpose of this procedure to coordinate the activities of the Allocating Sub-Commissions and War Materials Disposal Sub-Commission.

2. Availability Statements to AC Sub-Commissions and Sections

a. The War Materials Disposal Sub-Commission will prepare lists of available salvage, scrap and other war materials according to the established categories and transmit to each Allocating Sub-Commission the list appropriate to that Sub-Commission's allocating function. Such lists will include relevant information as to location of materials; time limit for claiming; condition and specifications of materials; procedure for inspection, claiming and taking delivery.

b. Each Section will file with the War Materials Disposal Sub-Commission a list of its Sub-Commissions or Divisions requiring copies of availability lists and the number required by each. The War Materials Disposal Sub-Commission will distribute the required copies at the same time originals are transmitted to Allocating Sub-Commissions.

3. Availability Statements to Italian Government

Each Sub-Commission or Section receiving an availability list will determine if it is necessary or advisable to notify their opposite organization in the Italian Government and will transmit any notifications deemed necessary or advisable.

b. Each Section will file with the War Materials Disposal Sub-Commission a list of its Sub-Commissions or Divisions requiring copies of availability lists and the number required by each. The War Materials Disposal Sub-Commission will distribute the required copies at the same time originals are transmitted to Allocating Sub-Commissions.

3. Availability Statements to Italian Government

Each Sub-Commission or Section receiving an availability list will determine if it is necessary or advisable to notify their opposite organization in the Italian Government and will transmit any notifications deemed necessary or advisable.

4. Amendments to Par. 3 - Procedural Bulletin No. 1

a. Par. 3-a (1) - Add the following (1), 1: With respect to salvage, scrap, and other war materials this inventory statement will cover only materials which have passed into control of the Allocating Sub-Commissions.

b. Par. 3-a (2) - Add the following (2) 1: With respect to salvage, scrap and other war materials, War Materials Disposal Sub-Commission will prepare estimates of the quantity of each category of materials expected to become available through the current month. These estimates will be transmitted to the appropriate Allocating Sub-Commission for consolidation into the consumption and production forecast.

c. Par. 3-a (3) - Add the following (3) 1: With respect to salvage, scrap and other war materials, War Materials Disposal Sub-Commission will prepare the forecast of availability and forward to the Allocating Sub-Commission for consolidation in the demand and availability forecast.

2. The Board confirmed a previous informal allotment of 100 tires to Agriculture Sub-Commission to which the allotment noted above is an addition; both are for use in the olive oil campaign. Agriculture Sub-Commission will re-allocate to Regions in accordance with the needs of this campaign and the tires will be used on cars already controlled by the Region. In view of this allocation direct to the oil campaign the Regions need make no additional allocations for the same purpose.

3. Public Works & Utilities Sub-Commission may re-allocate or loan to civilian contractors working on Public Works & Utilities projects. Regions will therefore make no further allocations to such projects. The same is true for the Comitato Italiano Petroli and Italian State Railways.

4. All needs other than those specifically provided for in the above allocations represent claims on the allocations to Regional Offices. Regional Offices were authorized to distribute their allotments in their own discretion, but the Board agreed that as soon as possible a priority system should be laid down for the guidance of Regions. The Commerce Sub-Commission will recommend an appropriate priority system to the Board as soon as adequate information as to such use of tires is available.

5. All organizations (including Regions) have, in the above, been authorized by the Board to re-allocate out of the supply allotted to them by the Board are required to file monthly reports with the Allocating Sub-Commission (Commerce Sub-Commission). Reports should show to whom tires have been allotted; for what purpose they will be used; and numbers allotted to each person or organization for each purpose.

There will be some special cases where applications will not be filed directly with an Allocating Sub-Commission. Such exceptions will be noted in procedural bulletins and circulated to possible applicants; one is noted in this bulletin.

1. Salvage Clothing - Allocating Sub-Commission, Commerce

- a. The Board had approved an allotment of 50 percent of stocks on hand as of 11 January to military organizations employing civilian heavy workers in exposed places (para. 2, 2 Minutes No. 2). The Sub-Commission now presented memo AC/5134/23 January giving a basis for apportioning this total allotment among the several organizations sharing in it. It was proposed:
- (1) To prorate in proportion to the number of heavy workers employed in exposed places by each applying organization.
 - (2) To use figures supplied by Labor S/C as a basis for the above prorating.
 - (3) That the allotment to an organization should not exceed the amount for which it applied.
 - (4) That the amount by which any application fell short of the "normal allocation", determined by applying the proper percent prorate to available supplies, be considered "surplus". And, that the same would apply to the entire "normal allocation" of any eligible organization which made no application.
 - (5) That "surplus" be distributed to eligible applicants who have applied for more than their "normal allocation". Apportionment to be in proportion to the number of workers (as defined) employed by the organizations sharing in the distribution of surplus.

1080

The Board approved the above recommendations with respect to Military organizations.

16

- 2 -

b. The Board had approved allocation of 28 percent (70% of 40%) of 11 January stocks to Civil Affairs Section for distribution to Patriots, Disabled Persons and Public Safety Personnel (para. 4, 5 - Minutes No. 2). No basis for apportionment of the 28 percent allocation among the three groups was advanced but the Board permitted the allocation to stand as approved, Civil Affairs Section to apportion on the basis of day-to-day need.

1788
c. The Board had approved allocation of 12 percent (30% of 40%) of 11 January stocks to Economic Section for distribution: 45 percent to Public Works & Utilities; 45 percent to Transportation S/C; 10 percent for reserve. Transportation S/C application was so far short of allocation as to suggest the original basis for determining it had failed to consider all factors. It was pointed out that Transportation S/C had recently received a substantial allotment. The Board instructed Allocating Sub-Commission to review the basis for apportioning the Economic Section allotment among the three users, prior to the next application, and permitted the original 12 percent allocation to stand with distribution of the Transportation S/C surplus made according to the formula set for in 1-a(5) above.

d. The Board approved applying the above and previous percentage allocations to the stocks available as of 17 Jan as stated in memo AC/3134/23 January by Commerce S/C.

2. Tires - Allocating Sub-Commission, Commerce

The Allocating Sub-Commission distributed copies of a preliminary memo which was discussed briefly. The Board indicated:

- a. A need for knowing the relative demands of applicants.
- b. A need for truck and car population figures by use groups by regions, considering for each group the tire sizes required.

It was suggested that Public Safety S/C might supply some data since they initiated and administered the licensing program.

- 3. The Board approved Draft No. 2 of Procedural Bulletin No. 1 instructing the Secretary to consult Board members individually on the few points remaining unsettled and to incorporate the final decisions into a final procedure for general circulation.

Representative of D.M.R.S.

1. Purpose of the meeting was to make allocations among the various claimants for salvage clothing. The meeting was originally scheduled for Monday, 15 January and was postponed. The proposal submitted by the Allocating Sub-Commission (Commerce) was considered.

2. The Allocating Sub-Commission proposed allocating 50 percent of available salvage clothing to Allied Armed Forces for civilian employees; 40 percent to Allied Commission's Sub-Commissions and 10 percent to the Italian Government and USRA. The Board modified the recommendation to 60 percent of available supplies for Armed Forces; 40 percent for other civilians (AC).

3. The Allocating Sub-Commission proposed that the allotment to Armed Forces be subdivided as follows: military railways 40 percent; Navy Sub-Commission 20 percent; labor directorate 20 percent; other services 20 percent. The Board felt there was not sufficient factual foundation for establishing these percentages and instructed the Sub-Commission to telephone or signal all Armed Force applicants a request for the number of employees doing heavy work in exposed places and to effect distribution among claimants pro rata according to the number of these workers employed by each.

4. The Allocating Sub-Commission proposed that the 40 percent of total availability allowed for other civilians administered by AC Sub-Commissions should be distributed 70 percent to the Civil Affairs Section and 30 percent to the Economic Section. The Board approved this recommendation.

4255/10

10

- 2 -

5. The Allocating Sub-Commission proposed distributing the allotment made to Civil Affairs Section in equal parts to five sub-divisions of the section. The Board directed distribution be made only to patriots, displaced persons and for public safety personnel according to percentages to be determined by the Civil Affairs Section.

6. The Allocating Sub-Commission proposed that the allotment to Economic Section be distributed 45 percent to Public Works and Utilities Sub-Commission for distribution; 45 percent to Transportation Sub-Commission for distribution; and the ~~100%~~ remaining 10 percent should be held as a reserve for requirements not anticipated. The Board approved this recommendation.

7. The Board directed that the above decisions apply only to stocks available as of 11 January 1945 and that the Allocating Sub-Commission and the Secretariat should bring before the Board a proposal which would eliminate duplications and which would provide a sounder basis in fact for arriving at the percentages to be allotted in further actions.

8. Applications received by the Commerce Sub-Commission appeared to cover different time intervals making it impossible to compare the requirements of one organization directly with those of another. The Board directed that the procedure for further allocations should provide for applications on a comparable time basis.

9. The Board directed the Commerce Sub-Commission to prepare future reports of availability which would take into consideration the production of the factory run by the 5th Army, plus the imports reported to be arriving soon in the port of Livorno.

10. The Board discussed briefly the problem of allocating tires and directed the Sub-Commission to expedite work already underway and make any necessary modifications in the light of the experience thus far in dealing with clothing allocations.

11. The Board approved procedure whereby all applications by groups outside the AC for salvage clothing for refugees should be filed initially with the Displaced Persons Sub-Commission for collating and presentation to the appropriate Allocating Sub-Commission.

12. The Board noted that the general procedure for handling allocations was now being circulated for comments and concurrence by all Allocating Sub-Commissions.
