Transportation Report Month of December, 1947

The following is the statement of the use of the 74 American Relief for Italy trucks in the service of the National Committee.

This report covers the period from December 1 to December 31 and the figures herein submitted have been calculated on the business basis adopted by the National Committee for Distribution of Relief in Italy (N.C.D.R.I.), Transportation Section, and already submitted in the previous reports.

The use of the vehicles is in three categories:-

1. Use for the distribution of relief supplies furnished to N.C.D.R.I. by American Relief for Italy and other contributing agencies;

2. Gratuitous transport of critical supplies of other agencies including Italian Red Cross, Hospitals, Orphanages, Department of Public Welfare, Protestant Welfare Association, Catholic Charities and Association of Jewish Welfare Groups;

3. The full use of back loading (return trips from hauls of the first two categories) to augment the food supply under the Ministry of Food and other public utilities. This includes the bringing of grain, potatoes, rice, eggs and other foods into the metropolitan area from the rural districts and the hauling of electric transformers, cement, wiring, water mains and other critically needed industrial supplies on transport space which would otherwise be wasted on return trips. At the request of the Ministries of Food and Industry, repayment for this service was accepted by N.C.D.R.I. by Government transfer of funds for this service. This income is then converted into maintenance service and labor cost of the National Committee, Transportation Section.

The following is an account of the three categories of service in quintal kilometer converted into lira value.

First Category:- distribution of relief supplies:-

Quintal Kilometers 1,467,701 - Lire Value 2,681,647

Second Category:- gratuitous service to indigenous agencies:-

Transportation Report Month of October, 1945.

Report of Transportation Services to National Committee

The following is the statement of the use of the American Relief for Italy  
trucks in the service of the National Committee.

This report covers the period from October 1 to October 31 and the figures herein  
submitted have been calculated on the business basis adopted by the National Committee  
for Distribution of Relief in Italy (NCD), Transportation Section, and already submitted  
in the previous reports.

The use of the vehicles is in three categories:-

1. use for the distribution of relief supplies furnished to NCD by American Relief  
for Italy and other contributing agencies;

2. contribution transport of critical supplies of other agencies including Italian Red  
Cross, Institutes, Organizations, Department of Public Welfare Association,  
National Committee and Association of Jewish Welfare Groups;

3. The full use of truck loads; (return trips from hauls of the first two categories)  
to support the food supply under the Ministry of Food and other public utilities. This  
includes the bringing of grain, potato, rice, eggs and other foods into the camps  
from the rural districts and the hauling of electric transformers, cement,  
lithium ore from the rural districts and the hauling of electric transformer space  
wiring, water mains and other critically needed industrial supplies on transport space  
which would otherwise be wasted on return trips. At the request of the Ministry of  
Food and Agriculture, payment for train service was deducted by NCD by Government  
transfer of funds for this service. This figure is then converted into equivalent  
service and later cost of the national committee, Transportation Section.

The following is an account of the three categories of service in quintal kilometers  
converted into lire values:

## AMERICAN RELIEF FOR ITALY, INC.

Sep 19 1946

Transportation Report Month of August, 1946.

No. 17

The following is the statement of the use of the 74 American Relief for Italy trucks in the service of the National Committee. This report covers the period from August 1 to August 31 and the figures herein submitted have been calculated on the business basis adopted by the National Committee for Distribution of Relief in Italy (ENDRI), Transportation Section, and already submitted in the previous reports.

The use of the vehicles is in three categories:-  
 1. Use for the distribution of relief supplies furnished to ENDRI by American Relief for Italy and other contributing agencies;

2. Gratuitous transport of critical supplies of other Agencies including Italian Red Cross, Hospitals, Orphanages, Department of Public Welfare, Protestant Welfare Association, Catholic Charities and Association of Jewish Welfare Groups;

3. The full use of back loading (return trips from hauls of the first two categories) to augment the food supply under the Ministry of Food and other public utilities. This includes the bringing of grain, potatoes, rice, eggs and other foods into the metropolitan area from the rural districts and the hauling of electric transformers, cement, wine, water mains and other critically needed industrial supplies on transport space which would otherwise be wasted on return trips. At the request of the Ministries of Food and Industry repayment for this service was accepted by ENDRI by Government transfer of funds for this service. This income is then converted into maintenance service and labor cost of the National Committee, Transportation Section.

The following is an account of the three categories of service in quintal kilometer converted into lire value:

First Category: distribution of relief supplies:-  
 Quintal Kilometers: 2,479,010 - lire value 5,521,331

## AMERICAN RELIEF FOR ITALY, INC.

## Transportation Report Month of May, 1946

No. 14

The following is the statement of the use of the 74 American Relief for Italy trucks in the service of the National Committee.

This report covers the period from May 1 to May 31 and the figures herein submitted have been calculated on the business basis adopted by the National Committee for Distribution of Relief in Italy (ENDSI), Transportation Section, and already submitted in the previous reports.

The use of the vehicles is in three categories:

1. Use for the distribution of relief supplies furnished to ENDSI by American Relief for Italy and other contributing Agencies;

2. Gratuitous transport of critical supplies of other Agencies including Italian Red Cross, hospitals, orphanages, Department of Public Welfare, Protestant Welfare Association, Catholic Charities and Association of Jewish Welfare Groups;

3. The full use of back loading (return trips from hauls of the first two categories) to augment the food supply under the Ministry of Food and other public utilities. This includes the bringing of grain, potatoes, rice, eggs and other foods into the metropolitan area from the rural districts and the hauling of electric transformers, cement, wiring, water mains and other critically needed industrial supplies on transport space which would otherwise be wasted on return trips. At the request of the Ministries of Food and Industry, repayment for this service was accepted by ENDSI by Government transfer of funds for this service. This income is then converted into maintenance service and labor cost of the National Committee, Transportation Section.

The following is an account of the three categories of service in quintal kilometer converted into lire value:

First category: Distribution of relief supplies:

quintal kilometers 2,753,911 - lire value 5,483,490

APR 19 REC'D

AMERICAN RELIEF FOR ITALY, LTD.Transportation Report Month of March 1946.

The following is the statement of the use of the 74 American Relief for Italy trucks in the service of the National Committee.

This report covers the period from March 1 to March 31 and the figures herein submitted have been calculated on the business basis adopted by the National Committee for Distribution of Relief in Italy (ENDSI), Transportation Section, and already submitted in the previous reports.

The use of the vehicles is in three categories:

1. Use for the distribution of relief supplies furnished to ENDSI by American Relief for Italy and other contributing Agencies.

2. Gratuitous transport of critical supplies of other Agencies including Italian Red Cross, hospitals, orphans, Department of Public Welfare, Protestant Welfare Association, Catholic Charities and Association of Jewish Welfare Groups;

3. The full use of back loading (return trips from hauls of the first two categories) to augment the food supply under the Ministry of Food and other public utilities. This includes the bringing of grain, potatoes, rice, eggs and other foods into the metropolitan area from the rural districts and the hauling of electric transformers, cement, wire, water mains and other critically needed industrial supplies on transport space which would otherwise be wasted on return trips. At the request of the Ministries of Food and Industry, repayment for this service was accepted by ENDSI by Government transfer of funds for this service. This income is then converted into maintenance service and labor cost of the National Committee, Transportation Section.

The following is an account of the three categories of service in quintal kilometer converted into lire value:

AMERICAN RELIEF FOR ITALY, INC.

Transportation Report Month of February 1946.

Ac. 11

The following is the statement of the use of the 74 American Relief for Italy trucks in the service of the National Committee.

This report covers the period from February 1 to February 28 and the figures herein submitted have been calculated on the business basis adopted by the National Committee for the Distribution of Relief in Italy (ENDI), Transportation Section, and already submitted in the previous reports.

The use of the vehicles is in three categories:

1. Use for the distribution of relief supplies furnished to ENDI by American Relief for Italy and other contributing Agencies;
2. Gratuitous transport of critical supplies of other Agencies including Italian Red Cross, hospitals, orphanages, Department of Public Welfare, Protestant Welfare Association, Catholic Charities and Association of Jewish Welfare Groups;

3. The full use of back loading (return trips from hauls of the first two categories) to augment the food supply under the Ministry of Food and other public utilities. This includes the bringing of grain, potatoes, rice, eggs and other foods into the metropolitan area from the rural districts and the hauling of electric transformers, cement, wiring, water mains and other critically needed industrial supplies on transport space which would otherwise be wasted on return trips. At the request of the Ministries of Food and Industry repayment for this service was accepted by ENDI by Government transfer of funds for this service. This income is then converted into maintenance services and labor cost of the National Committee, Transportation Section.

The following is an account of the three categories of service in quintal kilometer converted into lira value:

First Category: distribution of relief supplies:

quintal kilometers 2,959,746 - lira value 4,218,064

Second Category: gratuitous service to indigenous agencies:

AMERICAN RELIEF FOR ITALY  
Transportation Report Month of August 1945.

P.D.

The following is the statement of the use of the 54 American Relief for Italy trucks in the service of the National Committee.

This report covers the period from August 1 to August 31, and the figures herein submitted have been calculated on the business basis adopted by the National Committee for the Distribution of Relief in Italy (ENDSI), Transportation Section, and already submitted in the previous reports.

The use of the vehicles is in three categories.

1. Use for the distribution of relief supplies furnished to ENDSI by American Relief for Italy and other contributing Agencies;
2. Gratuitous transport of critical supplies of other Agencies including Italian Red Cross, hospitals, orphanages, Department of Public Health, Department of Public Welfare, Protestant Welfare Association, Catholic Charities and Association of Jewish Welfare Groups.
3. The full use of back loading (return trips from hauls of the first two categories) to augment the food supply under the Ministry of Food and other public utilities. This includes the bringing of grain, potatoes, rice, eggs and other food into the metropolitan area from rural districts and the hauling of electric transformers, cement, wiring, water mains and other critically needed industrial supplies on transport space which would otherwise be wasted on return trips. At the request of the Ministries of Food and Industry repayment for this service was accepted by ENDSI by Government transfer of funds for this service. This income is then converted into maintenance service and labor cost of the National Committee Transportation Section.

The following is an account of the three categories of service in quintal kilometer converted into lira value:

First Category: distribution of relief supplies:  
quintal kilometer 2,420,090 - lira value 4,104,598.45.

Second category: gratuitous service to indigenous agencies:

AMERICAN RELIEF FOR ITALY, INC.Transportation Report Month of July 1945.No. 4

The following is the statement of the use of the 54 American Relief for Italy trucks in the service of the National Committee.

This report covers the period from July 1 to July 31, and the figures herein submitted have been calculated on the business basis adopted by the National Committee for the Distribution of Relief in Italy (ENDSI), Transportation Section, and already submitted in the previous reports.

The use of the vehicles is in three categories:

1. Use for distribution of relief supplies furnished to ENDSI by American Relief for Italy and other contributing Agencies;
2. Gratuitous transport of critical supplies of other Agencies including Italian Red Cross, hospitals, orphanages, Department of Public Health, Department of Public Welfare, Protestant Welfare Association, Catholic Charities and Association of Jewish Welfare Groups.
3. The full use of back loading (return trips from hauls of the first two categories) to augment the food supply under the Ministry of Food and other public utilities. This includes the bringing of grain, potatoes, rice, eggs and other foods into the metropolitan area from rural districts and the hauling of electric transformers, cement, wiring, water mains and other critically needed industrial supplies on transport space which would otherwise be wasted on return trips. At the request of the Ministries of Food and Industry repayment for this service was accepted by ENDSI by Government transfer of funds for this service. This income is then converted into maintenance service and labor cost of the National Committee Transportation Section.

The following is the account of the three categories of service in quintal kilometer converted into lira value:

First category: distribution of relief supplies:  
quintal kilometer 3,241,012 - lira value 6,052,722.75.

Second category: gratuitous service to indigenous agencies:
