REGIONAL ORDER)
No. 22)

15 March 1944

Whereas the Unified text of Municipal and Provincial laws approved by Royal Decree of March 3, 1934, No.383, concerning the composition and functions of the Provincial and Municipal administrations, do not conform to the new political situation, and necessary changes have to be made;

Bearing in mind that the Unified Text of Municipal and Provincial laws approved by Royal Decree of February 3, 1915, No.143, are laws which are more in conformity with liberal and democratic ideas; and

Whereas it is not possible at present to hold administrative elections which would mean applying in full the Unified Text of the law of February 3, 1915, No.143;

Considering, therefore, the necessity of issuing regulations in order that the Communal and Provincial Administrations function, since the provisions contained in the above mentioned Unified Text cannot be fully applied;

Considering that the Unified Text of 1915 contains regulations which allow, under exceptional circumstances, the substitution of the Council of Aldermen for the Town Council and the Provincial Delegation for the Provincial Council, and which, at the present moment, may be applied in general terms;

In virtue of the power conferred on me, I CHARLES POLETTI, Lt. Colonel Regional Commissioner,

O R D E R:

- Art. 1) Each Commune is governed by a Mayor and a Council of Aldermen.
- Art. 2) The Mayor and the Members of the Council of Aldermen, are appointed by the Prefect, subject to the approval of the Allied Military Government.
They may be removed from office, by the Prefect, 863

under authorization of the Allied Military Government, for not having complied with their duties, or for reasons of public order.

The Mayor assembles and presides over the Council of Aldermen, arranging for the matters to be discussed at each meeting, and puts into effect the decisions taken by the Council.

Art. 3) The Mayor will appoint a Vice Mayor from among the members of the Council of Aldermen, and he may entrust them with special duties in connection with the municipal Administration.

The Vice Mayor assists the Mayor, and takes his place in the case of absence.

The appointment of the Vice Mayor, must be approved by the Prefect.

Art. 4) Each Provincial Administration is governed by a President and a Provincial Deputation.

Art. 5) The President is the head of the Provincial Administration and President of the Provincial Deputation.

Art. 6) The President and the Members of the Provincial Deputation are appointed by the Prefect, subject to the approval of the Allied Military Government.

The ruling cited in second section of Art. 2) applies also to the President and Members of the Provincial Deputation.

The President assembles and presides over the Provincial Deputation, arranging for the matters to be discussed at each meeting, and puts into effect the decisions taken by the Deputation.

Art. 7) The President will appoint a Vice-President from among the members of the Provincial Deputation and he may entrust them with special duties in connection with the Provincial Administration.

The Vice-President assists the President, and takes his place in the case of absence. 863

The appointment of the Vice-President must be approved by the Prefect.

66/2

- Art. 8) Until such time as the Town and Provincial Councils are constituted, the Town Council will be substituted by the Council of Aldermen, and the Provincial Council by the Provincial Deputation which will retain all the other normal powers attributed to them by the aforementioned Unified Text of Municipal and Provincial laws of 1915.
- Art. 9) To the grounds for inelegibility established by the Unified Text of 1915 are added the following: No one is eligible to assume the office of Mayor, Alderman, President of the Provincial Administration and Deputation, or Provincial Deputy, if he has held such office, or offices, in the Fascist Party, as those specified in the Regional Order dealing with Inelegibility and Removal of Fascists.
- Art. 10) All other regulations of the Unified Text of the Provincial and Communal Laws approved by Royal Decree of February 3, 1915, No. 148, remain in force, provided they are not in variance with the present order or with special rulings issued, or to be issued by the Allied Military Government.
The regulations of the Unified Text dated March 3rd, 1934, #383 which are at variance with this Order, are hereby cancelled.
- Art. 11) The Prefect, when making appointments of members of the abovementioned agencies, will bear in mind the various political tendencies of the community. Also, labor and agriculture as well as industry and the professions must be adequately represented.
- Art. 12) The Prefects will appoint the Sindaci, the Members of the Council of Aldermen, and the Members of the Provincial Deputation, (by 30 April 1944.)
In the meantime, pending the appointments to be made under this order, the present Municipal and Provincial Administrative Officials will continue to maintain their positions, with the title of "Mayor" and "President".

Dear

Thank you for your letter of 29th March. I hasten to send you herewith three copies of the pro-forma with my compliments.

Your information as to the Ministry of Finance communicating direct with the Intendente di Finanza at Avellino is certainly interesting, and useful. I do not deal with Dr. Jung but only with the Minister of the Interior, Dr. Reale; but I have written to Reale today and asked that the attention of all government departments be drawn to the authorized channels for such communications and that the Government will ensure that only those channels are used.

May I mention one minor point about your letter and add that my Sub-Commission is called "Interior", not "Internal" !

My visit was most useful and instructive and I, too, hope that we shall meet again some time soon.

Yours sincerely,

Lt. Colonel A.H. White,

REPORT NO 134

SUBJECT: Note of interview - RG Southern Region (Provincia Building, Naples)

DATE : 9 February 1945

PRESENT: Brig. Dunlop, Regional Commissioner
Major R. R. Temple, Local Government S/C

1. Pursuant to instructions of the Chief Commissioner, I paid a formal call on the RG Southern Region.

2. Brig. Dunlop said that conditions from a local government standpoint were pretty good in Southern Region. The Prefect of Naples—GELVAGI—is satisfactory and the new Sindaco—FARWISILO—is working out very well.

3. The prefect of Poggia—Gen. COTRONI—is old and loquacious. However, Brig. Dunlop did not take the same positive attitude that his predecessor, Col. Teigerley, took in asking for his immediate removal. Nevertheless, if COTRONI was to be retired, no objection would be raised.

4. Brig. Dunlop suggested that it might be a good idea to have on his staff as an advisor an Italian official who could advise him about Prefects selected by the Provincial Commissioners. That is, this advisor would visit a province and would report to Brig. Dunlop on the desirability of retaining a non-career man selected by the RG. The Brigadier conceded the difficulty in finding such an Italian official who would be unprejudiced. I informed him about the decision to make available an official of this Sub Commission as a consultant to the SCAO and RG's. The Brigadier expressed the hope that SCAO's would make temporary appointments since they would probably have control for a relatively short period in a few weeks.

5. Quarters are being provided for the Prefect of Salerno—MASCOLI—in the Palazzo Milizie. The Prefettura could not be made available since Military units were in it. The Brigadier thought the new Prefect was quite satisfactory.

6. We discussed the plans for North West Italy. The Brigadier said he favored having a local non-career man only in certain provinces, but in the majority he preferred career men. I left a list of Prefects and Vice Prefects compiled from our records for checking by the Regional Commissioner's office. It is to be forwarded to us.

1. Reference your letter R/1028 of 16 September, I entirely agree with your request and I enclose herewith a pro-forma which I think would meet the case in regard to the provinces in your region.
2. This can be filled in entirely by the Prefects with one exception. The appraisals of the Prefects themselves, will, I hope, be filled in either by you or by your zone commissioners. If the Prefects themselves gave their own opinions on their qualities, the appraisals would, of course, be useless.

1. The Prefect of Salerno Province has sent us a copy of a letter addressed to the Provincial Commissioner of Salerno in which he asks the latter's permission to hold up the appointment of the six regular and two alternate members of the Deputazione Provinciale since he understands that the Council of Ministers is considering enlarging that local body.

received the list of the persons proposed for

both real and substitutional.

This list, comprising 10 persons for
the office of real Deputy and 4 for the office
of the substitutional, requires a few changes,
which will be effected with all haste, and I
hope to be able to send you within a few days the
final list for approval. 855

Meanwhile, I think I should point out
that article 24th of the T. U. of 4th February, 1915 no. 148
originally provided for the Province of Salerno, which

2) includes (as a population of 600,000, 10 real Deputies and 4 substitutional Deputies.

This law was repealed and substituted by a new regulation, art. 83 of the R.D. 30th December 1923 no. 2839, by which all provinces, regardless of the number of inhabitants, were to have a Deputation composed of 6 real and two substitutional Deputies.

Article 83 of the R.D. of 30th December 1923 of 4 April 1944 no 111 brought back into force the regulations of the T.U. of 4th February 1915 not as they were originally, but with the changes brought by the R.D. of 30th December 1923 no 2839, then the Provincial Deputation of Salerno should now be composed of 6 real and 2 substitutional Deputies.

But however I have been informed that at the next Council of the Ministers, a draft of D.L. will be examined, by which the number of Provincial Deputies will be brought back to that established by art. 247 of the T.U. of 4th February 1915 no. 148 amending the ~~above~~ amendments.

brought by R. D. of 30th December 1923 no 2839,
Before long, therefore, the number of 60

again be reduced to 4 substitutional Deputies.

This being the situation, I beg you to

Soltanto in questo momento mi è stato presentato l'elenco delle persone proposte per le nomine a deputati Provinciali effettivi e supplenti.

Tale elenco, che comprende 10 persone per la nomina a deputati effettivi e per la nomina a supplenti, necessita di qualche variazione, che sarà eseguita con la massima urgenza, ed io spero di poter comunicare, fra qualche giorno, la lista definitiva alle S.V. per il nulla osta.

Frattanto, ritengo opportuno fare presente che l'art. 247 del T.U. 4 febbraio 1915, n° 148 prevedeva originariamente, per la provincia di Salerno, che conta più di 600.000 abitanti, la nomina di 10 deputati effettivi e di quattro supplenti.

Con l'art. 83 del R.D. 30 dicembre 1923 n° 2839, l'art. 247 del T.U. del 1915 venne derogato e sostituito da una nuova disposizione per cui tutte le Province, indipendentemente dal numero degli abitanti, dovevano avere una Deputazione composta di sei deputati effettivi e di due supplenti.

L'art. 6 del R.D.L. 4 aprile 1944 n° 111 ha richiamato in vigore le disposizioni del T.U. 4 febbraio 1915 non quali esse erano originalmente, ma con le modifiche apportate col R.D. 30 dicembre 1923 n°

Soltanto in questo momento mi è stato presentato l'elenco delle persone proposte per le nomine a Deputati provinciali effettivi e supplenti.

Tale elenco, che comprende 16 persone per la nomina a Deputati effettivi e per la nomina a supplenti, necessita di qualche variazione, che sarà eseguita con la massima urgenza, ed io spero di pos ter cominciare, fra qualche giorno, la lista definitiva alla S.V. per il rullo estivo.

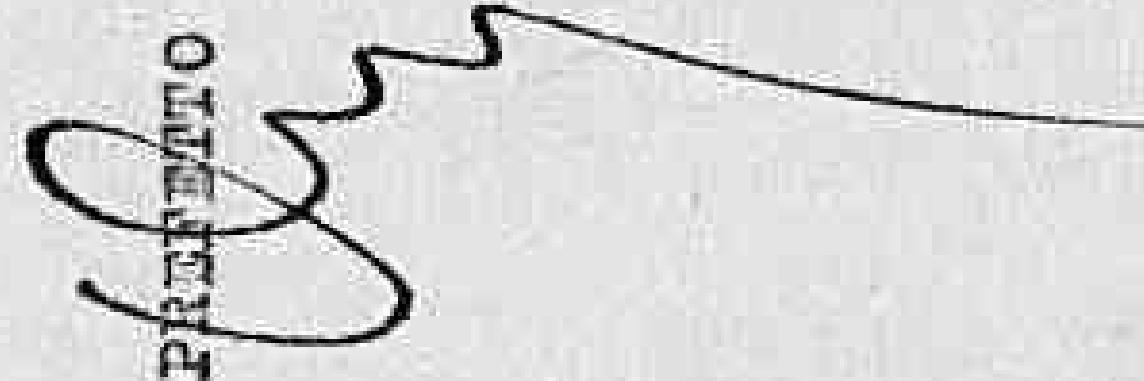

Brattanto, ritengo opportuno fare presente ch. l'Art. 247 del n.U. 4 febbraio 1915, n. 148 prevedeva originariamente, per la Provincia di Salerno, che conta più di 600.000 abitanti, la nomina di 10 Deputati effettivi e di quattro supplenti.

Con l'Art. 83 del R.D. 30 dicembre 1923 n° 2039, l'art. 247 del n.U. del 1915 venne abrogato e sostituito da una nuova disposizione per cui tutte le provincie, indipendentemente dal numero degli abitanti, dovessero avere una Deputazione composta di sei Deputati effettivi e di due supplenti.

L'Art. 8 del R.D. 4 aprile 1944 n° 111 ha richiamato in vigore le disposizioni del n.U. 4 febbraio 1915 non quali esse erano originalmente, ma con le modifiche apportate col R.D. 30 dicembre 1923 n° 2039, sicché la Deputazione Provinciale di Salerno dovrebbe ora essere costituita da sei Deputati effettivi e da due supplenti. Senonché sono stati intonati che, al prossimo Consiglio dei Ministri, sarà esaminato uno schema di D.L. che riporta il numero dei Deputati provinciali a metà che era stabilito con l'Art. 247 del n.U. 4 febbraio 1915 n. 148, ampliando la modesta apporzione col R.D. 30 dicembre 1923 n. 2039.

Sicché, fra breve, il numero dei Deputati provinciali per questa Provincia tornerà ad essere di 10 Deputati effettivi e 4 supplenti.

Stando così le cose, prego la S.V. di voler consentire che io
attenda la pubblicazione del D.L. di prossima emanazione, prima

che oggi sono in vigore e che presto saranno modificate.

SUBJECT: Status of Italian Local Government in Region III.

TO : HQ Region III.

2nd July, 1944.

1. I am furnishing copies of notes of interviews with my Executive Officer Captain R.R. Temple had with Provincial Commissioners and Prefects in provinces in Region III during his recent tour.

2. I offer the following comments in connection with these reports:-

(a) Mantua Province.

A very healthy state of affairs is disclosed in this province. However, I wish to draw your attention to the point made by the Prefect as to lack of transportation for his Vice Prefetto Impettore. If this can in any way be remedied, it should be done, especially since the Vice Prefetto Impettore is the touring and reporting officer, whose efficiency in his job is dependent upon adequate transportation being available.

(b) Benevento Province.

In this province too, the position with regard to Local Government appears most healthy. The lack of petrol makes it extremely difficult for the Vice Prefetto Impettore to perform his duties (see para. 14 of Report No. 91). I consider the efficient carrying out of the work of the Vice Prefetto Impettore to be highly important and if the transportation difficulty can be remedied, every effort should be exerted to do so.

I should like to point out that I do not agree with the point made by the Prefect in Report No. 92 that most people are disinterested in local government, unless Benevento is the exception in the case of liberated Italy.

(c) Avellino Province.

An exceptionally healthy state of affairs in regard to local government is disclosed in this province. I believe that if all the provinces in Italy were similarly handled, the task of this Sub-Commission would be a very easy one.

(d) Salerno Province.

2. I offer the following comments in connection with these reports:-
- (a) Naples Province.

A very healthy state of affairs is disclosed in this province. However, I wish to draw your attention to the point made by the Prefect as to lack of transportation for his Vice Prefetto Ispettore. If this can in any way be remedied, it should be done, especially since the Vice Prefetto Ispettore is the bonds and reporting officer, whose efficiency in his job is dependent upon adequate transportation being available.

(b) Benevento Province.

In this province too, the position with regard to Local Government appears most healthy. The lack of petrol makes it extremely difficult for the Vice Prefetto Ispettore to perform his duties (see Part II, 14 of Report No. 91). I consider the efficient carrying out of the work of the Vice Prefetto Ispettore to be highly important and if the transportation difficulty can be removed, every effort should be exerted to do so.

I should like to point out that I do not agree with the point made by the Prefect in Report No. 92 that most people are disinterested in Local Government, unless Benevento is the exception in the case of liberated Italy.

(c) Avezzano Province.

An exceptionally healthy state of affairs in regard to Local Government is disclosed in this province. I believe that if all the provinces in Italy were similarly handled, the task of this Sub-Commission would be a very easy one.

(d) Salerno Province.

The development of local government along the lines of P.D.L. 111 in Salerno Province is extremely backward and it may be accurately stated that this is especially so.

No Deputazioni Provinciale is in operation and less than one tenth of the Comune in the communes of the province have been formed. The effective members of the Comuna Provinciale Administrative are not constitutionally legal since they have not been nominated by the Dipartimenti Provinciale. I believe that the Provincial Commissioner should be directed to bring pressure on the Prefect to speed up the reorganisation of local government and if the Prefect does not respond, application should be made for the latter's removal by the Italian Government.

SUBJ: Italian Local Government - Salerno Province

TO : His Excellency Dott L. Rocca, Minister of Interior.

Your Excellency:

1. It has been brought to my attention that extremely slow progress in the reorganization of Italian local government has taken place in Salerno, even though the Royal Decree no. 111 was promulgated over two months ago.
2. In only 10 communes out of the 145 in the province have Giunte Comunali been formed. The Deputazione Provinciale is not in operation, and consequently, the 4 citizen members of the Giunta Provinciale Administrativa have not been selected pursuant to this Decree.
3. I regret the present state of affairs in this province, especially inasmuch as the seat of the Italian Government is located here.
4. I hope that proper representations will be brought by you to the Perfect with the view of effectuating a more prompt carrying out of the provisions of the Royal Decree.

Subject: Modifications of R.D.L. of 4.4.44 no. 111.

The laws regulating the functions of the "provincial delegation" and of the "Grunta Comunale" (art. 57 and 139 of Regulation no. 297 of 12th Feb. 1941 for the execution of communal and provincial laws) consent to the presence, ^{at the meeting} of the substitutes composing their offices, but not to vote however, unless the number of regular members is insufficient to render the meeting legal or unless most the matters discussed concern them.

The substitutes therefore, are required to complete the number necessary to make decisions, ^{8 & 8} and ^{also} take part ~~in~~ in ^{the} decisions regarding matters concerning them, but outside these cases their intervention in votes would annul the decisions.

These regulations are perfectly in keeping with the main principle of substitution, and the proposal of the ~~the~~ Prefet and the Mayor of Naples to amend the R.D.L. of 4th April last, no. 111, conferring ~~in every case~~^{to} the substitute members of the Provincial Deputation and of the Giunta Comunale the right to vote in every case, would obviously abolish that principle which is fundamental in Italian legislation.

N° 22)

15 Marzo 1944

Ritenuto che il Testo Unico della legge comunale e provinciale, approvato con R.D. 3 marzo 1934, N.383, non risponde alla nostra situazione politica;

Considerato che è l'opportuno richiamare in vigore, per quanto possibile, il Testo Unico della legge comunale e provinciale, approvata con L.R. 3 febbraio 1915 N.143, come quelle, che rispondono ai principi democratici liberali ed alla libera coscienza politica delle popolazioni;

Che non è possibile, per il momento, indire le elezioni amministrative, che costituiscono il presupposto della piena applicazione del citato T.U. del 3 febbraio 1915 N.143;

Ritenuto, pertanto la opportunità di dottare norme transitorie per il funzionamento delle amministrazioni comunali e provinciali, se ed in quanto non possa trovare piena applicazione il ripetuto T.U.;

Considerato che il ripetuto T.U. d. 1915 contiene norme, che consentono, in via di eccezione, la sostituzione della Giunta Municipale al Consiglio Comunale e della Deputazione Provinciale al Consiglio Provinciale, alle quali, nell'attuale momento, si può dar applicazione in termini generali;

Valendomi dei poteri conferitimi, io Charles Poletti, Tenente Colonnello, Commissario Regionale della Regione 3,

SUBJECT: Region III Order on Reorganization Local Government

TO : Col R. G. B. Spicer

1. Attached are:

- (a) English text of Region III Order - marked "I"
- (b) Dr. Bendheim's translation of Region III Order into Italian - marked "II"
- (c) Col Spicer's query to Dr. Bendheim on Region III Order - marked "III"
- (d) Dr. Bendheim's answer to said query - marked "IV"

2. Region III Order has been compared with our order by Captain Williams and myself. The variations in the Region III Order have been either underlined or marked on the side of the page, in pencil. There is no substantial difference between the two orders.

Region III Order merely elaborates on points which are covered in either our Administrative Instructions or in other directives.

3. Two paras are entirely new. The first para of Art. 12 states "The Prefects will appoint the Sindaci, the members of the Council of Aldermen, and the members of the Provincial Deputation by the 30th of April, 1944." Obviously the foregoing para has been inserted to speed up the appointment of various local officials.

Para 2 of Art. 10 is important. It states "Regulations of the Unified Text dated 3 March 1939, no. 383 which are at variance with this Order are hereby concelled". This para supplements para 1 of Art. 10 which appears in our draft. However para 1 and 2 of Art. 10 are not inconsistent. The effect is simply to preserve the worthwhile provisions of the Unified Text of 1915, as well as those of 1934 that are not contradictory to the Order itself. I believe it would be well to include para 2 in any subsequent Orders along these lines.

4. Dr. Bendheim's explanation of your first query as to the meaning of Art. 3 in Region III Order is a little cryptic and contains some gratuitous remarks about Der Faterland, Switerland. Briefly, the para simply means that the Giunta Comunale will have the powers of the Consiglio Comunale and the Deputazione Provinciale will possess the powers of the Consiglio Provinciale. The use of the English terms in lieu of the Italian ones makes for confusion and consequently I prefer our order, which retains the Italian connotations.

817

St 33

5. For your information the following are the Italian names of the parties mentioned in Art. 8:

Town Council Consiglio Comunale
Council of Aldermen Giunta Comunale
Provincial Council Consiglio Provinciale
Provincial Deputation . . . Deputazione Provinciale

6. With regard to your inquiry (a), as to what regulations of the U.T. of 1934 are cancelled by this Order, see Bendheim's list, document "IV", page 1 and top of page 2. Briefly, these regulations which are cancelled are of a political nature and dealing with the construction of local government bodies and the appointment of officials thereto. They include the old Fascistic set-up.

Art.10 para 2. "The regulations of the Unified Text dated March 3rd, 1934 No. 383, which are at variance with this Order, are hereby cancelled."

Question

A.

Short list of the regulations being at variance with the Order mentioned above.

Art.8 Ineligibility to the offices provided in this Law.

Para 11. Condemnation at the terms of the electoral political Law of Sept. 2nd, 1928 No. 1939 if there is the question of condemnation in political sense.

Para 12. Those who are excluded of public offices or who are subjects to a measure of preventive security or of guarded liberty, those who will be confined by supervision of police or who are admonished.

These punishments have very often been pronounced in political sense.

Art.25. Provincial Administrative Council and Rettorato (Council).
Art.113.

Art.405. Since the Fascism the Giunta Provinciale Amministrativa (Provincial Administrative Council) was composed of judicial members and of members designated of the Party.
a.) Two councillors of the Office of the Prefect and two other substitutes.
b.) The Ragioniere Capo (Head Accountant of the Office of the Prefect).
c.) The Intendent of Finance (Taxes).
d.) The Head Accountant of the Intendance of Finance.
The members designated of the Party were 3 or 5 nominated by Royal Decree.

The Rettorato (Council) was nominated of the Minister of Interior by Royal Decree and was composed of 5 - 7 members at the proposal of the Prefect.

The President was nominated by Royal Decree.

Art.4 of the Regional Order No.22:

Each Provincial Administration is governed by a President and a Provincial Deputation who are appointed by the Prefect, subject to the approval of the Allied Military Government.

Art.11. The Prefect, when making appointments of members of the above mentioned agencies, will bear in mind the various political tendencies of the community, so that all kinds of profession etc. are adequately represented.

Capo II & III. Communal Administration - Appointments.

The Mayor (Podestà) was nominated by Royal Decree.

The Council (Consulta) was nominated of the Prefect at the proposal of the Municipal Officials in conformity with the Provincial Chief of the Party (Federale).

Art.1 of the Regional Order No.22:

Each Commune is governed by a Mayor and a Council of Aldermen. (Giunta Municipale).

- 2 -

56/31

Art.2. The Mayor and the Members of the Council of Aldermen are appointed by the Prefect, subject to the approval of the Allied Military Government.

Art.11. concerning the composition will be also applied for the Communal Administration.

The Regional Order No.22 is a special order concerning only the appointment and the composition of the Communal and Provincial Administration but not touching upon the other regulations.

The other dispositions of the Communal and Provincial Law have been partially altered by Royal Decree of March 3rd. 1944 No. 383. Vide my note of March 18th. 1944.

Question

B.

Art.8 of the Regional Order No.22:

Until such time as the Town and Provincial Councils are constituted, the Town Council will be substituted by the Council of Aldermen, and the Provincial Council by the Provincial Deputation which will retain all the other normal powers attributed to them by the aforementioned Unified Text of Municipal and Provincial laws of 1915.

The Town Council (Consiglio Comunale) (During the Fascism Consulta will be substituted by the Council of Aldermen (Giunta Municipale) (In Switzerland, Cantone di Ticino: Consiglieri Municipali), the appointment of those is subject of the Regional Order No.22.

The Provincial Council (Law 1915 and 1944: Deputazione Provinciale) (During the Fascism Rettorato) will be substituted by the Provincial Deputation (Deputazione Provinciale) whose appointment is also subject of the Regional Order No.22.

Art.12 of the Regional Order No.22.

The Prefects will perform the appointments of the members of Provincial and Communal Administration by April 30th. 1944. In the meantime the present Officials maintain their positions with the title of "Mayor" = Podestà now Sindaco and President in the Provincial Administration (during Fascism Preside (Rettorato) and now Presidente (Deputazione Provinciale).

Office of the Provincial Commissioner*Avellino*

29 March 1944.

Dear *Spicer*,

When you were here the other day, you will remember that you handed over some papers regarding administrative instructions affecting the reorganization of Provincial and Communal Administrations, etc.

Amongst these, was a pro-forma to be filled in, giving the names and particulars of the various administrative officials and administrative bodies of the Prefecture and officials of the principal communes. You only left with me one copy of this pro-forma which you desired to have filled in for transmission to A.C.C. through my Regional H.Q. One copy is insufficient, as I wish to submit at least two copies to H.Q. and retain one or two for the Prefecture and my Office records. I hope you will send these along to me as soon as possible in order that the information required may be made available to you. You may be interested to know that communications are still coming direct from your Italian Ministries to the various offices in Avellino. One such is on my desk at present from the Ministro della Finanza, Guido Yung, addressed to the Intendente di Finanza in Avellino and asking him to send furniture to Salerno for the Corte di Cassazione. I am instructing the local authorities to take no action in the matter.

I was very delighted to meet you once again and I hope you will visit us in the not distant future.

Yours sincerely,

and understanding and to avoid contempt, superiority, sentimentiality, or sympathetic agreement with their complaints and grievances. It has been explained that the line to be taken is to emphasize all that is being done rather than to apologize or find excuse for what hasn't been accomplished. Officers were also advised to accept invitations to speak before military gatherings as a means of explaining the work and functions of A.S.A., of improving relationships between military personnel and civilians, and of strengthening public good will through soldier-citizen contacts.

Continuous attention is being directed to the use of civilian agencies wherever possible, rather than the assumption of responsibilities directly. Functions are transferred, or responsibilities are assigned as soon as it is felt that the civilian agency is able to take over.

SUBJECT: "Commissario Straordinario", Naples City.

TO : Colonel Spicer, Acting Director, Interior
Sub-Commission.

1. Reference is made to your communication dated 7 February 1944, Reference "File:ACC/56/Int".

2. Italian law provides that when a Mayor of the City is suspended or removed from office he shall be replaced by an official who is called "Commissario Straordinario" until he is confirmed in his office. This appellation has nothing to do with the size of the city, municipal custom or the qualification of the appointee.

3. Dr. Solimena replaces the old "Podestà" of Naples who was removed from office by Marshall Badoglio during the first part of August 1943 and is still called "Commissario Straordinario" because of the legal technicality referred to above.

4. There is thus no reason why Dr. Solimena could not be called by the prefascist appellation of "Sindaco" if we saw fit to confirm him in his position thus removing him from the "Commissario Straordinario" category of temporary appointees.

COMMISSARIO STRAORDINARIO

(See letter from Region III, ACC/56/Int., and notes on Sig. Benheim)

INTERVIEW, 14 February 1944 - Sig. Benheim

The title Commissario Prefetizio was used under Italian law in cases in which a Sindaco (or Podesta) was removed from office or where it was otherwise necessary to appoint someone to this position in a temporary capacity, but having the same powers as the previous holder.

In areas where AMG functions, the normal Italian laws were suspended by the effect of Proclamation #1. In the result the power to appoint a Commissario Prefetizio disappeared because the Prefect (in whom the power was inherent) himself no longer had the necessary power.

The person thus appointed Mayor of a town by AMG occupied an unusual and special position and to this extent and for this reason he was, and is, actually styled "Commissario Straordinario". By virtue of his special appointment, he does not possess the same rights (and obligations) of a Commissario Prefetizio, and has no legal authority to commit the commune in undertakings, etc., ~~which had~~ properly been done by a Prefetizio or Sindaco.

Sig. Benheim states that if and when a C. Straordinario is confirmed in his appointment by a Prefect he could and should use the title "Prefetizio" with the above implications.

799

Urgent

56/4

COMMISSARIO STRAORDINARIO.

The Italian law does not contain regulations concerning the installation, the scope and the power of the Commissarii Straordinarii. (Extraordinary Commissioner.)

The Commissarii Straordinarii are installed by the will of the people of the city or locality or by the Allied Military Government.

Before the occupation of Italy by the Allied forces the office of a Commissario Straordinario was unknown. The nomination of the Commissario Straordinario by the AMGOT can be based on the Proclamation No. 1.

The Commissario Straordinario has in practice the same scope and the same power as the Commissario Prefettizio. (Prefectorial Commissioner.)

If the Commissario Straordinario is a reliable person the Prefetto (Prefect) of the Province can appoint him to the Commissario Prefettizio in conformity with Art. 19 Paragraph 8 of the Testo Unico della Legge Comunale e Provinciale (Unified Text of the Comunal and Provincial Law) 3.March 1934, No.383.

Actually the Prefects of the Italian Provinces in the Allied Occupied Territory nominate only Commissarii Prefetizii and not Podestà, (Mayor) expecting the re-establishment of the office of the Sindaco of the former laws before the Fascism in conformity with the Italian Government.

TRANSLATION OF ART.19 PARAGRAPH 8 OF THE UNIFIED TEXT
OF THE COMUNAL AND PROVINCIAL LAW 3.MARCH 1934.No.383.
CONCERNING THE INSTALLATION OF THE COMMISSARII PREFETIZII.

The Prefect sends out the commissioners to Administration of local bodies with the task to perform acts required by law or to direct such bodies, whenever they are not able to function for whatever reason in case of delay or omission of the ordinary organs.

TO : Industry and Commerce Sub-Commission

1. This Sub-Commission is dealing with various matters affecting local government and administration, and has had occasion to consider the work of the above Giunta in connection therewith.

2. It appears that this body was a devolution of the old Chamber of Commerce, which during the fascist regime was established on a provincial basis for the control and assistance of industrial and agricultural activities in the area.

3. Although this work was not directly connected with local government as such, the functions of the Giunta were apparently subordinate to the Prefect and his department. It would be of assistance to this Sub-Commission to know the extent of the Prefect's interest, and the relationship of his department with the Giunta.

4. It is understood that the Giunta ceased to function in Naples City following the abolishment of fascist organizations, and that only the local secretary and his office still carry on under the Prefect's direction.

5. Will you kindly state whether your Sub-Commission has any ^{General} information upon the present position of the Giunta and its work, particularly in its relations, if any, with the Prefecture.

1. Reference previous correspondence regarding local government reorganization, this Sub-Commission would be glad to know whether the title "Commissario Extraordinario" for the Mayor of Naples, as opposed to the more normal "Sindaco" is on account of a municipal custom, of the city or whether it has reference to the qualification of the appointee (e.g. that he was a Prefect) or to terms of his appointment.

2. This inquiry is made in connection with various points of local administration of general application and the reason for the title's adoption will be of assistance.

Honorable members of the Council.

This is the first time that the Provincial Councils of the Corporate Economy enter into the examination in detail of all the aspects and nature of the subject of commercial and agricultural customs, because up to this time only a few of the defunct Chambers of commerce, and even they in a fragmentary and occasional manner, have been able to make a more delicate computation, to them entrusted by the law of March 20, 1910.

Mid-way in the life of our country there arose difficulties almost always incalculable, caused by the lack

from the lack faith and that

But these difficulties were
erased by the great and vigo-⁷⁹¹

"To this important reform of the Regime all the civilized nations of the world will await the results attentively."

February 1944

1. I have to report that I, today, interviewed Major Knight (A) (AG Region III) and later, Col. Kireld (A) (AG Naples City) who arranged a meeting for me with the mayor of Naples, Signor Solimena, who is styled "Commissario Extrordinario". I was provided with a 1st class interpreter (quite the finest I have met in AG and definitely superior to our interpreter at AGO).

2. The Mayor was at one time a prefect. I explained Interior sub-Commission's interest in L.G. administration, and asked his help to explain the following points which have arisen during our work.

3. The below mentioned matters were discussed and the position with regard to them appears, as explained by the Mayor,
I. Divisions (or Departments) of a Municipio (see Chart for Palermo Commune)

The Department, their number and the subject matter of their work vary slightly according to the size of the Commune. There is, however, a fairly general "pattern" and the following is a typical average Commune:
I. Registration of Births, Deaths, and Marriages
II. Education, Maternity and other General welfare matters.
III. Markets, weights and measures.
IV. Finance and accounting.
V. Public Health and Hygiene.
VI. Public works.

The above is abnormal division and was found both before, and during Fascism.

Under legislation and conditions has occasioned additional work, e.g., food rationing, which has been fitted in as most convenient, and may have fallen to be dealt with in Department III, above.

II. Authority of Citizen Members over work of Municipio, for which they are responsible (see also Palermo Chart)

to be assigned to a or responsible for a particular branch of the work which is dealt with in the different divisions in I, above.
In Naples (see & below) the arrangement is as follows: each member is given general instructions by the Mayor regarding his particular branch. To a limited extent, the Mayor delegates his powers to that member who is responsible for the discharge of its particular work by the officials. The ~~and~~ signs documents as "sub Commissario", any matters of importance must be brought before the Mayor for decision, e.g., dismissal of officials. In addition, each member

Regina III) and later, Col. Kincaid (A) (AGB Medina City) who arranged a meet-

Extraordinario". I was provided with a 1st class Interpreter (quite the finest
I have seen in AG and infinitely superior to our Interpreter at AGD).

2. The Mayor who at one time a Prefect, I explained Interior sub-com-
mission's interest in a. G. administration, and asked his help to explain the

3. The below mentioned matters were discussed until the position with re-
gard to them appears, as explained by the Mayor:

I. Divisions (or Departments) of a Municipio (see Chart for
Palermo Commune)

The Department, their number and the subject matter of their
work vary slightly according to the size of the Commune. There is, however, a
fairly general pattern and the following is a typical average Commune:

- II. Education, Maternity and other general welfare matters.
- III. Markets, weights and measures.
- IV. Finance and accounting.
- V. Public Health and Hygiene.
- VI. Public Works.

The above is normal division and was found both before, and
during fascism.

War legislation and conditions has occasioned additional work,
e.g., food rationing, which has been fitted in as most convenient, and may have
fallen to be dealt with in Department III. above.

II. Authority of Citizen Members over work of Municipio, for which
they are responsible (see also Salerno Chart)

to be "assigned to" or responsible for a particular branch or the work which is
dealt with in the different divisions in I. above.

In Naples (see 4 below) the arrangement is as follows: Each
member is given general instructions by the Mayor regarding his particular branch.
To a limited extent, the Mayor delegates his powers to that member who is responsi-
ble for the discharge of its particular work by the officials. The Mayor signs
documents as "Pub Commissario". Any letter of importance will be brought before
the Mayor for decision, e.g., dismissal of officials. In addition, each member
represents and speaks for his section work at the meetings of the Manta which are
presided over by the Mayor. In the result, the member sees to the discharge of
routine work, but always subject to the instructions and responsibility overriding
control of the Mayor.

III. Use of designation "Quinto Municipale" and/or "Giunta Comunale"

These two titles are quite definitely synonymous, and retain no
doubt whatsoever in L. O. circles. The use of the former in the Regional army for
reorganization is accurate and perfect. *House, Major*

IV. Inspection Service (referred to in the school and H.S. document

UD 201-4232

The ~~prefect~~, set up in a structure during Section was:

- (a) Prefect
 - (b) Vice Prefect
 - (c) Vice Prefect Inspector
- In the Province, to ensure that work was being properly carried out and general orders and legal regulations being obeyed and observed. In addition to (c) the Ministry also appointed inspectors who were themselves prefects and worked from home. They paid periodic and/or unannounced visits to provinces for the same purpose as in (c).

The Mayor considers that the system was good and served a useful purpose. At present there is not enough tact all the positions of V.P.I. have been filled throughout provinces. The Ministry's Inspectors are no longer functioning as there is not central governmental authority.

4. County Provinciale - Cooperative Economic (see document UD 201)

Before fascism there existed the system of Chambers of Commerce which (on the British basis) were autonomous bodies composed of representatives of trade, commerce, and industry, for the purpose of furthering the interests of those activities.

During abolished the Chambers of Commerce on such, and substituted the above. The new body was planned on a provincial scale and was placed under the prefect. It consisted of the same ~~representatives~~, the section of agriculture, and was ~~intended~~ financially by a compulsory levy on the interests concerned.

The work of this County was not directly connected with L.G. administration as such, other than the fact that it was subordinate to the prefect who or whose department was probably associated with the work of levying and collecting the financial contributions.

All previous arrangements were dismissed by me with the dissolution of the syndicates and further payments were suspended. In Naples, the secretary and his office will carry on under directions of the prefect.

4. I was unable to obtain full particulars of L.G. arrangements in Naples as my talk with the mayor lasted nearly 1½ hours. I did, however, learn the following:

- (a) Naples City has a working Committee of 10 citizen members.
- (b) There are unpaid persons in number 2 for each of the recognized parishes.

(c) These representatives are nominated by the Committee of Liberation existing in Naples, and appointed by the prefect (for ~~and~~).

- (a) The Municipio has the following divisions of work:
 - 1. Personnel of Commune
 - 2. Education and Welfare
 - 3. Demographic services
 - 4. Finance
 - 5. Public Health
 - 6. Public Works

7. Public service (e.g. gas, water, electricity, transport, which are not owned, but controlled to some extent by the Commune.

those activities.

It consisted of the same interests ~~as~~, the addition of agriculturists, who or whose department was principally associated with the work of levying and collecting the financial contributions.

All previous members were dislodged by AGD with the dissolution of the syndicates and further payments suspended. In Naples, the Secretary and his office still carry on under directions of the Prefect.

4. I was unable to obtain full particulars of L. G. correspondence in Naples in my talk with the Mayor lasted nearly 1½ hours. I did, however, learn the following:

- (a) Naples City has a working Clunie of 10 citizen members.
- (b) There are unpaid persons in number > for each of the recognized parties.

(c) These representatives are nominated by the Committee of Liberation existing in Naples, and appointed by the Prefect (for AGD).

(d) The Municipio has the following divisions of work:

4. Finance
5. Public Health
6. Public Works
7. Public Services (e.g. Gas, Water, Electricity, Transport,

which are not owned, but controlled to some extent by the Commune.

3. Food Distribution
- 7 - 10 - Public municipal institutions for assistance (presumably for poor, etc.)

(Note: It will be seen that this follows the pattern in 3 (L) above.)

5. The Mayor was helpful and provided any required information.

6. Major might be most interested in the sub-Commission's L. G. work and said he would welcome a representative with Section III to assist there, as proposed by you. I assured him that this was still your intention and that you had only been prevented from sending a Liaison Officer through shortage of staff and the difficulties caused through the posting of interior personnel to other work.

FILE NO. ACC/56/Int

4 February 1944

SUBJECT: Local Government Reorganization

TO : RGAO, Region III

1. I should be glad if you would convey to Major Knight my appreciation for the assistance he gave Lt. Vernon Lewis of this Sub-Commission when he called yesterday. Lt. Lewis, later, with the help of Col. Kincaid, interviewed the Mayor of Naples, who gave him much valuable information and disposed of the points which have arisen during our work of local government reorganization.

2. Major Knight raised the question of the appointment of a liaison officer from this Sub-Commission to work with Region III, as arranged with him during our talk on the 4th January. I entirely agree with him that this arrangement would be of mutual advantage and I had every intention of sending an officer for the purpose. I regret to say, however, that I have been prevented through shortage of staff. Three of my officers have been transferred to other work, and Lt. Harvey, whom I had earmarked for the job, did not arrive here, having returned to USA.

3. I assure you that I am still most anxious to effect this arrangement, and will do so as soon as possible. In the meantime, I will, for your information, keep you posted as to the state of affairs in Region I and II, following the redevelopments which have taken place.
