we have long been waiting for the allies to come to Italy to see Fascism fall so that we might enjoy freedom and democracy. But it is not quite so at Roccaraco (Frosinone). I lived five months up the mountains with English and American prisoners waiting for your troops and democratic freedom. There I learned English.

Back home I was appointed as a mayor of my village by the people. Finally tired of this hard job I resigned after six months asking the prefect of the province to replace me. I was replaced temporarily with an old clerk of the province a certain Mr Scolati three months ago. According to the democratic custom this exceptional commissary (commissaryship is a fascist and anti-democratic institution) was to be replaced as soon as possible with a mayor proposed by people through the representatives of the local political parties and the C.L.N.C. (Town National Liberation Committee). But in spite of many appointments and statements of the local parties and the C.L.N.C. the commissary after more than three months has not yet been replaced. SUBJECT : NOTE OF INTERVIEW with Capt. Renzo BOZZI.

DATE : 14 February 1945.

PRESENT : Capt. W. I. CUNNINGHAM.

Translator Sig.na. Topazia Gaetani.

1. Capt. BOZZI

called here at 1600 hours today. He said Dr. Camera has told him to come to see us about his case. He stated that he had earned no money since his appointment at Frosinone was terminated and was selling his personal effects to buy food, and urged that we should find some employment for him.

2. I told him that as the Italian Government had terminated his employment it really was up to them to find him something to do but that we had a good opinion of his work and had recommended him for a position in the North. There were no vacancies at present and while the front remained static vacancies were not likely to occur. We would keep his name before us and if a suitable position was vacant would strongly recommend him for it.

3. He said he had spent 25.000 lire in mouving his wife and family.

4. I enquired if it was possible for him to rejoin the Italian Army but he did not seem to think this would be possible without specifying any reason.

5. Having said good bye and departed he returned to state he was qualified as a lawyer .

Reference your AC/1/4/2/LG dated 15 Nov. a letter from Provincial Commissioner Frosinone is enclosed.

At this HQ it is agreed that there is, probably, no necessity for the continuation of the Office. On the other hand it does not seem to be a good moment to remove it.

The main reason for the position being unnecessary is that the Economics and Supply position has made possible action very limited. This has restricted the scope of the job considerably. Should the new Repairs to Houses Decree genuinely become effective or should this winter bring some of the difficulties which are possible (including the withdrawal of personnel) we may be very glad to have a Commissario to help out the unpaid Sindaci.

SUBJECT : Commissari speciali for Devastated Areas.

With reference to your letter 17 November your file n.3/5663. It is noted from copy of a letter from local government sub-commission that information is required in two respects:

a) - Whether the Prefect or the Ministry is correct in the statements given by them. I have to advise that I cannot say which one is telling the truth. There is attached to the copy of the letter from local government sub-commission a statement made by the Ministry and by the Prefect, and I feel that this sub-commission is as fully capable of determining the truth as I am.

b) - Durano was appointed by the Prefect after the transfer of the Province to the Italian control.

I see no necessity of continuing to have Commissari speciali in the devastated areas of this Province.

1. I refer to the copy of letter from HQ Frosinone dated 9 November as to the pending dismissal of the two officials above named, a copy of which was handed (Capt. Fulton - Capt. Williams) to us on 13 November.

2. We saw the Ministry of the Interior about this yesterday morning. At the same time the Prefect called here and was interviewed by another officer. Copies of the notes of these two interviews are annexed.

3. You will see that the Ministry are postponing the dismissal until the P C can be consulted. They will take no further action till the views of this HQ are made known to them.

4. The necessary facts seem now to be established except in two respects :-

(a) the exact nature of the instructions received by the Prefect from the Ministry. The Prefect says he was ordered to terminate the appointments by 15 November : the Ministry say they have merely advised the Prefect that it is a matter for him to decide. Could the HQ please ascertain the truth of this ?

(b) whether DENARO was appointed by A.M.G., ROME clearly was: but we do not know whether DENARO was appointed before the date of the transfer of the province to Italian control. Could this be ascertained please ?

5. There appears to be nothing against DENTI or DENARO personally. The reasons for terminating their appointments seem to be : -

(a) that the office of Commissario Speciale is unknown to Italian law;
(b) that it is unnecessary, now that the normal organs of local government have been set up in all the communes affected.

We should be glad to have your views and those of the HQ upon the necessity or otherwise of continuing to have Commissari Speciali in these devastated areas.

TO : - HQ Land-Liberia Region.

1. I refer to the copy of letter from HQ Piedmont dated 9 November as to the pending dismissal of the two officials above named, a copy of which was handed (Capt. Fulton - Capt. Williams) to us on 13 November.

2. We saw the Ministry of the Interior about this yesterday morning. At the same time the Prefect called here and was interviewed by another officer. Copies of the notes of these two interviews are annexed.

3. You will see that the Ministry are postponing the dismissal until the P.C can be consulted. They will take no further action till the views of this HQ are made known to them.

4. The necessary facts seem now to be established except in two respects :-

(a) the exact nature of the instructions received by the Prefect from the Ministry. The Prefect says he was ordered to terminate the appointments by 15 November : the Ministry say they have merely advised the Prefect that it is a matter for him to decide. Could the PC please ascertain the truth of this ?

(b) whether DELLO was appointed by A.M.C.G. BOSSI clearly was: but we do not know whether TRIMO was appointed before the date of the transfer of the provinces to Italian control. Could this be ascertained please ?

5. There appears to be nothing against BOSSI or DELLO personally. The reasons for terminating their appointments seem to be : -

(a) that the office of Commissario Speciale is unknown to Italian law;
(b) that it is unnecessary, now that the normal organs of Local Government have been set up in all the communes affected.

We should be glad to have your views and those of the PC upon the necessity or otherwise of continuing to have Commissari Speciali in these devastated areas.

SUBJECT: Interview--AC HQ

DATE : 14 November 1944 - 10:30 hours.

PRESENT: H. E. Giovanbattista ZANFRAMUNDO, Prefect of Frosinone.
Capt. C. G. R. Williams
Signorina T. CAETANI, interpreting.

1. I told the Prefect we had heard that the Ministry had proposed the dismissal of the two Commissari for devastated areas. The Prefect replied yes, the Ministry had directed him to terminate their appointments on 15 November.

2. He said they were not Commissari Prefettizi because each town had its own Sindaco and Giunta but they were Commissari Speciali appointed to exercise "vigilanza", i.e. to supervise closely the operations of local authorities under their charge and to report to the Prefect.

3. The areas each one controlled were as follows:

Capt. BOZZI--northeast of the river Liri

Cassino	Vallerotonda	
Roccasecca	Acqua Fondata	
Terelle	S. Elia - Fiumerapido	
Atina	Viticuso	
Villa S. Lucia	Belmonte Castello	
Piedemonte	S. Biagio Saracinesco	
Cerraro	Picinisco	
S. Vittore del Lazio		15 Communes

Dott. DUMANO--southwest of the river Liri

Portecorvo	Pignataro Interamna	
Aquino	S. Apollinare	
Esperia	S. Ambrogio sul Garigliano	
Ausonia	~~Sul Carigliano~~	
Castelnuovo Parano	S. Andrea	
S. Giorgio a Liri	Vallemaio	11 Communes

4. The Prefect stated that when CANEVARI visited him in Frosinone he stated that the two Commissari were to be dismissed. He said he told CANEVARI he did not agree, but if it was the view of the Ministry he would do so. He said he pointed out that at least one of them--BOZZI--was an AMG appointment and the Allies should be consulted. He did not know if that had been done. But at the same time ZANFRAMUNDO did say in the course of conversation that he did consider the appointments superfluous, as all the 170 towns had their Sindaci, etc.

4a. Dumano was formerly Sindaco of Portecorvo: the Prefect thought he had been appointed before the province passed to the Italian Government but he was not sure.

5. I asked him how he proposed to supervise the restoration of these devastated areas . He said he, the Prefect, would have to go there more frequently; transport was difficult but he would have to manage as best he could. I asked him if he had a good VPI. He said he had none: a Consigliere FABIANI was acting as such, but as there was only one other Consigliere, the Prefect could not let the Acting Inspector go out very much. He said he has asked the Ministry frequently for another VPI, but so far without success.

6. I advised the Prefect to continue to press the Ministry for a VPI and said we would refer the matter to them as well.

SUBJECT: Interview--Ministry of the Interior.

DATE : 14 November 1944 - 10:00 a.m.

PRESENT: H. E. BERRUTI
Cav. CAMERA
Capt. R. R. Temple
Lt. D. MEDINO, interpreting.

1. Capt. Temple referred to the information received (as at No. 24 on the file) that the Ministry proposed to dismiss BOZZI and DUMANO, the two Commissari for the devastated areas in Frosinone Province.

2. BERRUTI said the Prefect ZANFRAMUNDO was at the Ministry about 20 days ago and he himself had said there was no more need for these Commissari as all the communes under their supervision were now properly organized with Sindaci and Giunte. The Ministry told the Prefect (a) that there was no provision in Italian law for posts such as these Commissari: (b) that the Ministry could neither dismiss nor confirm the appointments--that was for the Prefect.

3. BERRUTI stated he did not know that the two Commissari had in fact been dismissed. He did not think so. He thought the Ministry had gone no further than the advice giver to the Prefect as stated above.

4. He said that, however, the Under Secretary CANEVARI was in Frosinone some time ago and spoke to the Prefect about this. It was possible, BERRUTI thought, that CANEVARI's words might have been taken by the Prefect as an instruction to dismiss.

5. Capt. Temple pointed out that at least one of the Commissari--BOZZI--was an AMG appointment and the Allied Commission had not been consulted as to his dismissal. BERRUTI immediately suggested that any question of dismissal should be postponed until the FC had been consulted. Capt. Temple agreed.

6. BERRUTI stated that the Prefect was in Rome today and was calling on Local Government S/C this morning. Capt. Temple thereupon telephoned Capt. Williams, who said he had the Prefect with him at the moment and that he had obtained a full statement from him on the subject (see No. 27 on this file).

Capt. Alton:

Dismissal of BOTTAI and DUMMO

1. Was DUMMO also an AMG appointment, i.e. made before the handover to the Italians of the Province of Frosinone.

2. What exactly are the offices that BOTTAI and DUMMO hold? Are they Commissario Prefettizi? (NOTE: In the normal Italian system, a Commissario Prefettizio is an official appointed by the Prefect to take the place of the usual local government organs, i.e. Sindaco and Giunta, etc., when the commune cannot function. If BOTTAI and DUMMO were Commissario Prefettizi, the method of appointment would be by decree of the Prefect with the "visto" of the RC at the foot to signify AMG approval.)

3. Just what communes were each of them responsible for.

4. Has notice of dismissal been actually given or is it merely intended? Is the Prefect doing it himself at the instruction of the Ministry or of his own accord.

5. Have any reasons been given for the dismissal.

Note — Telephoned Capt. Alton, CofA, their attention as to further information required re #24 & 24A. Arranged to hand him note typed above - he would send it by DR to PC Frosinone, first thing on 14/11/44. CGHS 13.11.44

Col. Charles A. Poletti
Regional Commissioner

Dear Colonel Poletti:

Avv. Renzo Bozzi, Special Commissario for the Cassino wone of this province has been dismissed by the Ministry of Interior without notice of any kind and without consulting with me. Frankly very little has been accomplished by the Commissario due largely to the fact he had nothing to do with. Dott. Ernesto Dumano, holding the same appointment for the area south of the Liri river has also been dismissed.

Sig. Bozzi was appointed by General MacFarland several months ago and had recently gone to the expense of moving his family from Bari to Roccasecca. He feels very keenly about his dismissal and I think the Italian Government should place him in some other position where he can earn a living. He is a very nice little fellow, energetic, and I think, honest. Any thing that you might do to help him will be appreciated by him and the undersigned.

DRAFT

SUBJECT : Tour of Provinces

TO : Col. R.G.B. Spicer

1. I submit my reports of the interviews I had during my recent visit to Littoria and Frosinone.

2. The following points emerge from the information obtained :

(I) - Local Government Reorganization - It appears that no clear-out policy has been expressed or definite orders given Region HQ. on this subject. As far as Littoria is concerned it may well and truly be said that it is difficult having regard to the appalling war conditions which exist and the consequent necessity of other and more immediate needs having priority. Whatever may be the explanation the position either of the immediate or later introduction or lengthy postmponement should be clearly decided upon and that appropriate steps be taken accordingly.

I n Frosinone the scheme is in hand through the attitude of the PC and the experienced Prefect and not on account of any direct lead or instruction from the top.

(II) - Direct contact with the Ministry - The Prefects of both Provinces have with the PC's approval have been writing and dealing directly with the Ministry of the Interior. As long as territory is under AMG the proper channel is from RC to ACC. This point is made not for mere "Channel's sake" but because this Sub-Commission has daily contact with the Ministry and as far as personnel matters are concerned can doubtless get better results than a letter from a Prefect. It is suggested that this point should be made clear to RCs via RC & MG Section. D raft memorandum herewith.

(III) - Officia ls and Staffing - This Sub-Commission is primarily concerned with assisting the Italian Administration generally. As far as bodies are concerned its interest is confined to Prefects and Vice-Prefects. It is no part of the S ub-Commission's function to conduct detailed surveys of staffing problems in Prefectures. It is suggested that the question whether or not a Prefettura is adequately staffed by the right officials is essentially one for a Provincial Commissioner to settle. If they do not exist and cannot be obtained locally the PC should contact this Sub-Commission. Further where small teams of officials have been provided these should be considered only as a nucleous. Others may or may not exist. If they do not the small skeleton staff which is provided as an emerge ncy measure must be built up. Particularly do these remarks apply to devasteted Provinces which should be " priority" for supply and built-up of staff.

I consider this point should be made to and impressed upon the Ministry. It is also of prime interest to AMG whose policy is to get the Italian Administration AMG to work. Whether it be AMG or the Government.

SUBJECT: Local Government - Littoria and Frosinone

TO : RO, Region IV

1. Shortly before the change of Provincial arrangements an officer of my staff visited Littoria and Frosinone Provinces in connection with the state of local government arrangements.

2. I append a precis of the interviews with the Provincial Commissioners, and Prefects, and I make the suggestions appearing therein which I hope may prove of some assistance to you.

(1) LITTORIA

a. Local Government - Apparently it had not yet been practicable to introduce the plan of local government reorganisation as contained in AMG 111. There was some doubt as to the effect and intention of Regional Order 1 dealing with the subject and the RO had requested clarification of the position. The matter will now be covered by the RAL which, as you know, has been made applicable to AMG territory.

b. Prefectural staff. It will be recalled that the Prefect Reggente (Piacco) was appointed together with a small team of officials who were sent forward at the request of 5th Army owing to the disappearance and lack of officials when the Province was taken.

The Prefect Reggente has no Vice-Prefect Vicario or Ispettore. On a basis of the normal requirements of the Prefecture he said he was short of the following, viz: -

1 Vice Prefetto Vicario
11 Vice Prefetto Ispettore
1 Consigliere
3 Segretari
11 Ragioniere provinciale
4 Ragionieri
1 Architetto
3 Applicati

1163

In view of his increasing needs he asked that at least the following should be sent:

0037

Declassified E.O. 12356 Section 3.3/NND No. 785021

11 Vice Prefetto vicario
2 Segretari
3 Ragionieri
1 Archivista
2 Applicati

By arrangements with AMG the Prefect had written the Ministry direct urging them to provide the minimum list above.

Regarding communication with the Government in AMG areas, it is advisable that the normal procedure of contact by Italian through AMG should be used. I make this point not for mere insistence on "channels for their own sake" but because that arrangement ensures the best and certainly quickest result.

As you know this Commission have what is now a well established arrangement and procedure with the Ministry on this subject of personnel. Actually I have since contacted the Ministry in support of the Prefect's requirements.

(ii) Progress:

a. Local Government - No formal order on the subject has been received. However, the Prefect ALREADY in close collaboration with the AC, is going ahead with the arrangements which are well in hand. Lanfranconi has had previous experience of the subject at Avellino (under Lt Col Irish) and knows it well.

b. Provincial staff. The Prefect had no difficulties in this respect but is in need of an additional engineer and 2 ragionieri which we undertook to pass on to the proper quarter. I have conveyed his request. He did mention that he wants to change his Vice-Prefect Segettore and had written to the Ministry thereon. My remarks above also apply here.

3. The comments made above are intended in no critical sense. AMG's difficulties are appreciated and Interior's function is to help and not hinder.

4. Lt Col Thornhill asked for a copy of our completed pro-forma containing data of Frosinone Province. I enclose it herewith for forwarding.

5. Please convey to both HQs my thanks for the help and hospitality they extended to Lieut. Lewis.

29 JUL 1944

TO : HQ ACC, Interior Sub-Commission 28 July 1944

SUBJECT : Proposed amalgamation of Roma and Frosinone Provinces

FILE No.: R4/850.22

1. Reference your ACC/1/4/2/Int of 24 July, the question of the amalgamation of Roma and Frosinone Provinces, appears to the writer, to be part of a long term planning, which mainly must be the responsibility of the Italian Government.

2. As you are aware, the entire present territorial subdivision of Lazio, only dates from 1927. Most of the territory now generically known as Lazio, was then contained in one large province of Rome. On the other hand, the south eastern portions of Littoria and Frosinone were in the now suppressed Province of Caserta, and most of Rieti was in Aquila.

3. It is submitted that an ~~ephemeral~~ empirical merging of Roma and Frosinone Provinces would only be a half way solution in any programme of re-organisation. The resultant Province of Rome-Frosinone stretching, as it would, from Cassino to Civitavecchia, would be exceedingly difficult to administer; moreover it would become in population, wealth and industrial importance, unduly large in comparison with the other provinces.

4. The Province of Littoria is, in population, one of the smallest, and is, as a political and geographical entity, of comparatively recent growth. The writer's suggestions are clearly those of an outside observer, but in response to your request for comments, the counterproposal is submitted that the two provinces of Frosinone and Littoria might be combined, with the HQ of the combined provinces at Frosinone. These two provinces have alike suffered considerably from the war, and there is much similarity

1162

between their two problems. While it is true that the mountain range of the Lepini lies between the Via Casilina and Via Appia, there are a number of quite good cross-country routes, and the distance from Frosinone to Gaeta, Terracina or Littoria is much less than, for example, the distance from Civitavecchia to Frosinone.

PROPOSED MERGING

Command asked what would be Gen Sutton's reaction to a proposal to incorporate Frontiere Province in the Province of Udine as was previously the case. Command stated that the appointment of Prefect of Frontiere was vacant. He did Gen Sutton point out that the Prefectural appointment was held by Confirmando who was transferred there from Aquileia by arrangements between the Italian Government and A.C.C. If the proposal were agreed, Command stated that the administrative staff would remain at the existing Provincial HQ. He further stated that the merger would not throw excessive work on the Prefect of Udine since Command was not so busy as one might expect in that in many matters which were otherwise dealt with by the Prefecture were in fact handled by the Ministry. Gen Sutton said his immediate reaction was that on the return of Venezia Giuliana to the Italian Government the matter was primarily a matter of the Government and he was not prepared to express an opinion at this stage.

SUBJECT: Italian Officials - FROSINONE Province.

TO : Colonel R.G.B.Spicer, Director.

FROM : Captain C.C.R.Williams. Assistant Executive Officer.

1. I refer to my report of 27th June (Nos.16 and 16A in file) as to the delivery, under my conduct, to the PC FROSINONE of BOZZI, Capitano Renzo, the Italian Officer selected for appointment as Commissario Prefettizio of the devastated Cassino - Roccasecca area.

2. The incident described in this present report has already been reported verbally to you and it is now submitted in writing in accordance with your orders.

3. Provincial HQ are in the town of FIUGGI. We arrived there at about 18.15 hours. The only officers available were Major - PINO (A) and 1st Lieut. - O'DONNELL (A). The PC - Lt.Col.John S. Thornhill (A) was in Naples but he was expected back that evening.

4. I explained our presence to the two officers above-mentioned and asked as to quarters and meals for Capt.BOZZI and myself. Major PINO and Lt. O'DONNELL said the PC had requisitioned two rooms in a hotel next his office and we could have these. As to meals, they agreed that I should dine in the mess and that Captain BOZZI would have to do so as well.

5. We accordingly went to our rooms and returned to the mess at 19.00 hours. I asked Captain BOZZI to follow me in but he did not understand me and remained waiting outside.

6. Several officers were present, including Major PINO and Lt.O'Donnell. The PC had not arrived. A moment after I had entered, Lt.Col.R.HOWARD (B) came in. As he was the senior officer present, I introduced myself, explained why I was there, mentioned the arrangement for Captain BOZZI to dine in the mess and asked permission to bring him in.

1155

7. Lt.Col.Howard then said "Oh, damn that - there's too many Italians coming into our mess and eating our rations" - or words to that effect. After some more observations of the same character, he told Lt.O'Donnell to give Capt. BOZZI a K Ration and tell him he could not take his meals in the mess. Lt.O'Donnell did so.

8. Lt.Col. Howard's language was both abusive and indecent.

9. Capt. BOZZI showed no resentment at, or even awareness of his treatment in my contacts with him next morning. The incident was however, most embarrassing to me and I believe, to the other Provincial Officers present.

SUBJECT: Commissario Prefetizzio for devastated area of Frosinone Province - delivery to PC.

TO : Colonel R. G. B. Spicer, Director

FROM : Captain C. G. R. Williams, Assistant Executive Officer

1. Pursuant to your orders, on Sunday, 25 June 1944, I accompanied BOZZI, Capitano Renzo, to Fiuggi, temporary capital of Frosinone Province and reported him to the PC, Lt Col Thornhill.

2. There was an hour's delay in starting owing to the transport not reporting as directed: this forms the subject of a separate report. Otherwise, the journey was made without incident. We arrived at 1815 hours.

3. I reported to the PC the same evening and Capitano Bozzi was instructed to report to the Prefect the next morning, which he did.

4. The PC was without information as to the details of the plan of the PC for the Cassino-Roccasecca area. The only information he had was a copy of letter AP 4/850.12 of 26 May from HQ Region IV to HQ & MG Section (see file ACC/1/4/2/Int at No. 1A).

5. He stated his orders were to inform the HQ immediately the Commissario arrived, as Brigadier Dunlop wanted to interview him personally.

6. Lt Col Thornhill spoke well of the new Prefect Zanframundo. He said he was "all right but a thought slow".

7. Progress is being made with the reorganization of local government. The Prefect has appointed a Presidente and 2 Vice-Presidenti of the Deputazione Provinciale. He is appointing new Sindaci as fast as he can - 2 or 3 every day. He is selecting names of the Deputazione Provinciale and it is intended to set that up as soon as possible. After that the Giunte Comunali will be set up, first of all in towns with a peace-time population exceeding 10,000, i.e.:

Frosinone	Ferentino
Ceccano	Sora
Veroli	Alatri
Isola di Liri	Arpino
Anagni	Monte S. Giovanni Camparo
Pontecorvo	

8. Both the PC and the Prefect are looking for the new local government office-holders among the better elements of the Partisans and the Committee of Liberation. They both feel that this will direct their energies into useful channels.

9. General Padovani, the leader of the Partisans in the Frosinone-Fiuggi neighborhood, is now very co-operative. He keeps in close contact with the PC and defers to his views. He is going about the country telling people to calm down and go about their business and to give their obedience to AMG.

10. [illegible] Lt Col Thornhill said the Questore was

2. There was an hour's delay in starting owing to the transport not reporting as directed: this forms the subject of a separate report. Otherwise, the journey was made without incident. We arrived at 1815 hours.

3. I reported to the PC the same evening and Capitano Bozzi was instructed to report to the Prefect the next morning, which he did.

4. The PC was without information as to the details of the plan of the PC for the Cassino-Roccasecca area. The only information he had was a copy of letter AR 4/850.12 of 26 May from RC Region IV to RC & MP Section (see file ACC/1/4/2/Int at No. 1A).

5. He stated his orders were to inform the RC immediately the Commissario arrived, as Brigadier Dunlop wanted to interview him personally.

10. The date of my last visit (10 June) Col Thornhill said the Questore was badly needed. This was relayed to Public Safety, who sent one to them. He arrived with little or no personal equipment, and after a couple of days asked leave to return to Naples to fetch more clothing. This was granted. He has not been seen since.

11. Col. Thornhill's main difficulties are food and transport. Food is on a hand to mouth basis. Some supplies intended for Frosinone have been diverted

to Rome. The fear is others will be diverted to provinces nearer the line.

12. As to transport, Region IV has a total of 40 vehicles for the whole of 7 provinces comprising the region. Civilian transpart is very scarce and Col. Thornhill is putting all possible pressure on the Prefect to requisition some. The Prefect is rather hanging back on this, not, I gather, out of any unwillingness to do as he is told, but because energetic action of this kind is rather unfamiliar to him. Lt Col Thornhill hoped to make use of the car licensing and petrol rationing system for the purpose of discovering civilian vehicles which could be requisitioned.

13. Region IV have warned the PC that some of his officers will be withdrawn shortly for provinces further north.

SUBJECT: Report on Tour to Frosinone Province and HQ Region IV and AGF 5th Army.

TO : Colonel R. G. B. Spicer, Director

FROM : Captain C. G. B. Williams, Assistant Executive Officer.

1. According to your orders, I travelled to Frosinone via Avellino on Saturday, 10 June, picking up the Prefect designated for Frosinone, AUGUSTANIELLO at Avellino on the way.

2. The Prefect had a quantity of trunks, boxes, and suitcases -far more than would go in my Bianchi car. Moreover, he had arranged - without any word to this Sub-Commission - to take with him a local Agente di Publica Sicurezza as his personal attendant, and Lt Col Irish had prepared a letter for this man which, it was hoped, would serve as some sort of a pass. Ultimately, it was arranged that the Prefect, the Agente, and part of his luggage should come down in a local ACC car which was used to take the Prefect about the province, I taking the rest of the luggage in my Bianchi.

3. This involved taking a second Italian civilian to drive the Prefect down and bring back the car: and he also, of course, had no pass.

4. The journey to Frosinone was then made without anyone being stopped or questioned on the way.

5. Traffic delays beyond Cassino were considerable. We arrived at Frosinone late to find that the PC's HQ were at Piuggi, 32 kilometres to the north. We arrived there about 2300 hours and found accommodation for the night.

6. The Prefect reported to Lt Col Churchill, PC, the following morning (12th June) and I also had a conference with him.

7. I then travelled to Region IV Advance HQ, which was under canvas at Sulphur Springs Camp just outside Ferentino. I found that Brigadier Dunlop had gone north to look for a fresh camp site, and that Col Govers was still in Naples.

8. I went on, therefore, to AGF 5th Army at Main HQ, under canvas just off Highway 6, 7 miles beyond Valmontone, and interviewed Group-Captain Benson.

9. The rest of the 12th June and the whole of the 13th was spent in looking for Brigadier Dunlop. Being unable to get any word of him, I returned on the 13th to Region IV Advanced HQ near Ferentino, to find them in the act of moving north to the new camp site - about 24 kilometres north of Rome, on Highway 3 (Via Flaminia), where I found the HQ.

10. I interviewed Brigadier Dunlop early on the morning of the 14th June and returned to Salerno the same day, via Highway 7.

11. Reports of my conference with PC Frosinone, SCAO 5th Army Group, and HQ Region IV are annexed. As will be seen from these reports, I was not able to obtain very much help or guidance for the immediate tasks of this Sub-Commission.

1. I refer to your letter of 3 June /57/49/CA and enclosure.

2. I have been in touch with the Ministry of Interior who have arranged for two of the persons in the pool of Sindaci to be summond to Salerno from Lecce and Bari, respectively. They are expected on the 11th or 12th June.

3. Each are Army officers and after interview the Ministry will recommend the man best suited for this particular appointment. He will remain here and be available on short notice. (The second man will also stay in Salerno for use elsewhere if and when required by AFHQ.)

4. When called forward he should be appointed by the Prefect and styled "Commissario Prefettizio".

5. The Prefect should be requested to arrange for the Commissario's payment of allowances to which he is entitled under the Italian "Missione".

6. It will be of assistance if you could obtain some indication, however general, of the probable time by which he will be required to go forward.

7. When finally notifying me for his movement forward, will you please supply full particulars as to the place, person, etc., to whom he should report on arrival.

8. Screening, pass, and transport will be arranged here.

1. I saw Capt. Cerulli + Dr Camera this morning at 1130 hours + explained Reg. IV's request for a Commissario for the Carnio - Roccasecca area.

2. They consulted the names submitted by the Ministry for the post of Sindaci. They thought the best selections were :-

BOZZI - a young man (37) + an experienced lawyer.

ALESSANDRI - an architect formerly in the service of Ferrara city - 44 years old. His professional knowledge might be useful in a devastated area.

3. The Ministry of the Interior has no personal knowledge of these two. Cerulli + Camera would like to interview them.

4. They will get on to the Ministry of War + have Bozzi + Alessandri sent to Salerno at once. They will interview them + decide which to recommend + telephone me.

5. Bozzi + Alessandri should arrive tomorrow 9 June or Saturday 10 June. They will be warned to bring with them baggage + equipment, ready to go forward at once.

6. If Ministry of War consents, it is thought preferable that Commissario should go forward in uniform as an Army Officer. This will greatly simplify question of a pass

Note - All members of post of Sindaci have been hand

TO : HQ ACC (R.C. & M.G. Sec.) (2 Copies) 25 May 1944

SUBJECT: Frosinone Province

FILE NO: AR4/850.12

1 It appears that an area of some ten communes in the east portion of Frosinone Province contained in the general quadrilateral:- Roccasecca - Cassino - R. Rapido - R. Gari - R. Liri - R. Melfa, will present a problem that may be unique in the Italian Campaign. This area has been under heavy shell fire for some three months and has been the scene of heavy fighting; it constitutes a real devastated area.

2 For the present this area has been declared a closed zone by AMG Eighth Army in their CA/67 of 25 May.

3 In order that as much as possible be saved of the crops and that the maximum work may be done in the dry, summer weather; it will be necessary to make a plan for the rehabilitation of this area, to be put in effect as soon as the area passes to Region IV and military conditions permit.

4 It appears desirable that the group of ten or more communes be treated as one unit. It is therefore suggested that the Italian Government be requested to appoint, in due time, a Commissario who could work with the AMG/ACC Officer concerned, and would act for the Prefect of the Province in respect of these special areas.

5 Region IV will study the possibility of setting up a special HQ for this area, possibly under canvas alongside Route 6, South of Piedimonte.

6 This project has been discussed with Brig. Moseley, Cdg: 55 Area. He will, at a later date, be Area Commander for the above-mentioned territory. He is in complete agreement.
