It is as Capt. Temple points out a strategic

TRANSLATION

The Sindaco of Cascia Paride LAGRELLI, was nominated by the Allied Authorities as soon as the Province was liberated.

He belongs to the Communist Party.

His profession is that of photographer, his culture modest and his energy not very great; however he is an honest man, patriot and brother of a nazi-fascist martyr.

Complaints against Lagrelli have reached this Prefecture, especially in regards to ~~xxxxxxxxxxxx~~ mixing personal matters with the carrying out of his functions. This partiality would consist in the removal of the Maestro Director of the band, sig. Bartoloni, who is his brother in law and with whom disagrees. Apart from this moral charges have been brought against the sister of the Sindaco. The Carabinieri, in a report that I asked for confirmed the above adding that in the most important decision the Giunta is not always consulted.

Following an inspection made personally by the Prefect in the month of November the Giunta was reconstituted and also the Committee of Liberation, the Sig. Bartoloni was resumed in office as his removal did not appear justified. Successively, so it appears to this Prefecture, the Committee and the Giunta have always functioned regularly, so much so that the Prefect in a second visit ~~xxxxxxxxxxxx~~ without forwarning, found them assembled under the Presidency of the Sindaco.

The Comune has had the misfortune to have had during the fascist period extremely bad administrators and secretaries not permanent and constantly changed. On the express wish of the Sindaco an excellent secretary, dott. Bertini Giuseppe, who has given efficient work to reorganise the secretariat services, the Communal Body for Relief, and the Communal Agrarian Boards. The Sindaco of Cascia with a letter of the 4th of November, 1944 has pointed out furthermore to the advisability of an administrative inspection to examine the eventual irregularities of the precedent managements and to establish rules for normalising the administration. This inspection, made with particular diligence by the Prefectural Accountant dott. Francesco Gargiulo who remained in Cascia for nearly a whole week in the month of December, has excluded any responsibility of the actual administration; he observed some arrears in the book-keeping records in the Comune and in the other Bodies and he dictated rules for their rapid regulation, and the inspection has ascertained the penal responsibility of the Accountant Donati Giuseppe Secretary of the E.C.A. and of other Bodies., the Accountant Donati has been invited to come in the Prefecture to justify himself, since the month of December. Notwithstanding this request he has not presented himself, ~~he~~ therefore had to denounce him to the Judicial Authorities.

that happened in
Notwithstanding the inconveniences/~~at~~ the first period of the present administration and as we have observed an amelioration in the work of the Sindaco and of the Giunta, we do not advise for the moment a provision of substitution. I have already pointed out the principal points of the this situation in a talk with Major Pain and Comm. Limentani and it is probably because of an inexact interpretation of my words that you must have had the impression that I had substituted the Sindaco.

28B

Il Sindaco di Cascia Paride Magrelli venne nominato dall'Autorità Alleata all'atto della liberazione della Provincia.

Appartiene al partito comunista.

E' di professione fotografo, di modesta cultura e di non grande energia. Tuttavia è una persona onesta, patriota e fratello di un martire dei nazi-fascisti.

Contro il Magrelli sono pervenute a questa Prefettura alcune lagnanze soprattutto circa personalismi che egli avrebbe commesso nell'esercizio delle sue funzioni. Tali parzialità consisterebbero essenzialmente nell'allontanamento del maestro Direttore di banda Sig. Bartoloni, che è un suo cognato e con il quale vive in disaccordo.

Oltre a ciò sono stati fatti appunti di carattere morale a carico di una sorella del Sindaco.

I Carabinieri in un rapporto da me sollecitato hanno sostanzialmente confermato quanto sopra soggiungendo che nelle più importanti deliberazioni non sempre la Giunta veniva consultata.

In seguito a ispezione effettuata personalmente dal Prefetto nel mese di Novembre fu ricostituita la Giunta e il Comitato di Liberazione e fu anche riassunto il dipendente Sig. Bartoloni il cui allontanamento non era risultato pienamente giustificato.

Succesivamente per quanto risulta alla Prefettura il Comitato e la Giunta hanno sempre regolarmente funzionato, tanto che il Prefetto in una seconda ispezione senza preavviso li trovò adunati sotto la presidenza del Sindaco.

Il Comune ha avuto la disgrazia di avere nel periodo fascista pessimi amministratori e segretari non titolari e sempre cambiati.

Per desiderio del sindaco è stato ora destinato a Cascia un ottimo segretario, il Dott. Bertini Giuseppe, il quale ha dato opera efficace per il riordinamento dei servizi di segreteria, di quelli dell'Ente Comunale di Assistenza e delle Comunanze Agrarie Consorziare.

Il Sindaco di Cascia, con lettera 4 novembre 1944, ha inoltre segnalato la opportunità di una ispezione amministrativa intesa ad accertare l'eventuali irregolarità delle precedenti gestioni e stabilire norme per la regolarizzazione dell'amministrazione.

Tale ispezione, compiuta con particolare diligenza dal Rag. di Prefettura Dr. Francesco Gargiulo il quale si è trattenuto a Cascia circa una settimana nel mese di dicembre, ha escluso ogni responsabilità dell'attuale amministrazione; ha constatato un certo arretrato nelle registrazioni contabili sia del Comune che degli altri Enti, dettando norme per la loro rapida regolarizzazione; e ha portato allo accertamento di responsabilità penali a carico del Rag. Donati Giuseppe Segretario dell'E.C.A. e di altri Enti il Rag. Donati è stato invitato in Prefettura fin dal mese di dicembre per fornire le sue giustificazioni.

Malgrado un sollecito non si è presentato; si è pertanto dovuto provvedere alla sua denuncia all'Autorità Giudiziaria.

Malgrado gli inconvenienti avvenuti nel primo periodo dell'attuale amministrazione, e in conseguenza del miglioramento riscontrato nell'opera del Sindaco e della Giunta, non si ravvisa per ora l'opportunità di un provvedimento di sostituzione.

Tale situazione venne già da me rilevata nella sue parti sostanziali del colloquio avuto con il Sig. Magg. Pain e il Comm. Limentani, ed è probabilmente per una inesatta interpretazione delle mie parole che si è potuto avere la sensazione che io abbia provveduto alla sostituzione del Sindaco.

PRESENT: Lt. Col. Ames, Acting Regional Commissioner, Lazio-Umbria Region

 Major R. R. Temple, Chief Executive Officer, Local Government S/O.

1. Pursuant to directions of the VP, I paid an official call at the Regional HQ, Lazio-Umbria Region, and spoke with Lt. Col. Ames and Lt. Col. Bonham-Carter. They informed me that generally the situation so far as local government was concerned in their region was pretty good; that the Prefects are all working out very well.

2. I mentioned to them the fact that the Decree dealing with the reorganization of Rome Comune had just been published and that I was sending them a copy of the English translation.

3. I left a copy of the translation of a letter appearing in the Civil Censorship papers sent to us, containing accusations of a lawyer against ZANPHAMUNDO, Prefect. Lt. Col. Bonham-Carter said he would send it on to the Provincial Commissioner of Grosseto for his observations.

4. They mentioned that the Prefect of Rome was still somewhat slow in the formation of Giunta Comunale and that they were trying to ginger him up a bit.

5. At Perugia, they were having some trouble with the Sindaco, but they hoped to have the situation ironed out soon. They have a new Provincial Commissioner there, a Lt. Col. Ramsey, (American) whom they regard very highly. They were hopeful that Lt. Col. Ramsey would straighten out the affairs in the province. They mentioned that after Col. Belser, the former PC, had received instructions to disband the Advisory Council on which all the Sindaci were appointed, he thereupon made all the Sindaci welfare officials and continued to have them paid.

6. Lt. Col. Ames stated that pursuant to a formal request from the Allied Commission, he had sent in a letter several weeks ago expressing his opinion as favoring local elections. Both he and Lt. Col. Bonham-Carter did not think there would be much trouble from the Public Safety angle.

7. They stated finally that there were no other matters they could think of to bring to my attention now, and thanked me very much for paying a call on them. I in turn thanked them for the opportunity of visiting them and assured them of our continued cooperation.

(Attn: Lt.Col. Bonham-Carter)

Reference your R/5596 dated 31 October 1944.

1. The statement of the Provincial Commissioner Perugia that his reason and authority for forming the now disbanded Council was the result of conversations between Group Captain Benson, himself and me is very surprising.

2. I have no recollection of any such agreement. Indeed I cannot remember ever having seen Group Captain Benson and Col. Belser in one another's company.

PURPOSE: Discussion of Local Government

PERSON INTERVIEWED: Avv. Luigi PEANO, prefetto reggente of PERUGIA

INTERVIEWED BY: Capt. R.R. Temple, Executive Officer, Local Government S/C Interpreter - Staff employee of the PC

PREFS

- 1 The Prefect stated that the 2 vice prefects are not experted in administration. He thought it would be a good thing to be assigned a trained vice prefect vicario who was an expert in Italian Administration. He pointed out that SORBELLO oved the vice prefect was devoting his time exclusively to public works - which assignment he is performing extremely well. The other vice prefect PACIETTI, was concerned with public health, alimentation, agriculture, and educational matters. Both vice prefects were given the designation without being characterized as Ispettore or Vicario.
- 2 DOTT. BARONI, a consigliere has been carrying on the functions of VPI. The prefect said he was a very good man and travels about with him in the province.
- 3 The prefect stated that the Italian Government had proposed to nominate as vice prefect CARATOLLI of Grosseto. However, the latter was dismissed there, and the prefect said he did not want him now in Perugia.
- 4 The prefect stated that he believed that the PC desired to retain the present 2 vice prefects. He himself would also like to retain them since they are very useful at the present time. However, he said he needs a career vice prefect in administration.
- 5 The prefect said that at the present time, he desires to have 4 employees in group A - 2 segretari and 2 consiglieri. He said that he believed that the Government had consented to give 1 segretario and 1 consigliere.
- 6 The prefect stated that he received the raccolta on 10 September.
- 7 In 2 or 3 of the 53 communes in the province, there are commissari prefettizi and no giunte. In all of the others, there are sindaci and Giunte. Members of the giunte were nominated by the committee of liberation and approved by the CAO. They represent all parties and classes. It may be necessary, in view of R.D.L. N. 111 to review and reduce their number

Members of the giunte were nominated by the committee of liberation and approved by the CAO. They represent all parties and classes. It may be necessary, in view of R.D.L. N. 111 to review and reduce their number.

8 In 3 communes the consigliere nominale has been created in addition to the Giunte, namely in SPOLETO, PERUGIA, and CERRA in PERUGIA, the consiglio consists of 15 members appointed by the sindaco.

The Giunta in that town consists of 10 members. In CERRETA, which is a mountain town of about 2100 inhabitants an election was held about a month ago, supervised by the Committee of National Liberation. When the CAO was apprised of the elections of the Consiglio, he wanted to dissolve it, but finally decided to let it alone. There are 20 persons in the Consiglio. In view of the R.D.L., the prefect said that he would take immediate steps to dissolve the consiglio since there was no provision for such a body at the present time.

9. The Prefect hopes to have the Deputazione Provinciale established in one week. He has already received nomination from the Committee of National Liberation and is having them investigated by carabinieri.

10. It is difficult the prefect said, to find people of the farmer and workman class to serve as sindaci without pay and that was a reason for forming the advisory council to the PC and putting the sindaci on it as paid technicians. He said that the sindaci knew that it was a temporary arrangement, He believed that most of the sindaci with one or two exceptions will remain in office when the arrangement is abolished.

11. The principal problem of the province concern the building of roads, bridges and the restoration of electrical and other forms of energy and transportation. The food situation is not too serious although salt and fat are lacking, Housing, with the exception of a few towns, is not a serious problem.

12. COMMENT: The prefect impressed me as being an intelligent man with a good knowledge of the problems of his province and a keen interest in attempting to solve them. I took time to explain the position of the Prefettura in AMG territory and stressed the point that communication between the Prefettura and the Italian Government be through AMG channels. I discussed also the effect of the R.D.L. no. 111 in his province and had a general discussion with him of the form of administration and organization provided thereunder. I finally told him that I would take up the matter of a trained vice-prefect and other officials with Col Belser and then, with the latter's and the IG's permission, with the Italian Government.

REPORT No. 120

SUBJECT : Report of conference at office of PC Perugia, 27 septem'44

PURPOSE : Italian Local Government

PERSON INTERVIEWED: Col. Irvin F. Belser (A), PC, Perugia

INTERVIEWED BY: Capt. R.R. Temple, Executive Officer, Local Government S/C

PREFACE

1. Col Belser informed me that he took over the Provincial Commissioner-ship on 20 June. He found that the Prefect had fled. He recounted how he had talked to the high officials of the province who had remained, had all investigated, and dismissed many pursuant to 8 army directive. He then consulted the foremost people in the province, as well as the Committee of Liberation for recommendations.
2. On the basis of recommendation to the Committee of National Liberation, and prominent people, and after a thorough screening on security ground, 3 non-career persons were appointed to position of Prefects and Vice Prefects of the province. As Prefect, avv. Luigi FEANO was appointed; Ing. Gianni RALLERI DI SORBELLO, Vice-Prefect, and Gen. Dott. Verecondo PAOLETTI, Vice-Prefect. A lawyer by the name of FAUSTO Andreani was made Sindaco of Perugia commune. Since FEANO was a non career official, he was appointed Prefetto Reggente.
3. An Advisory Council to the PC was appointed, its members consisting of the Prefect and Vice Prefects, 2 or 3 advisors, and almost all the sindaci for the communes of the province. By Executive Order dated 17 September, payment was provided for the members based on yearly salaries ranging from 15000 to 50000 lire a year. The Prefect and Vice Prefect receive no salary since they draw stipends as officials in the Prefettura. The PC meets with the members individually or in group to discuss and get advice on governmental problems. Col Belser stated that the technique of having an Advisory Council was originated by 8 army AMG at a suggestion of Brigadier Upjohn's. It helped to meet the problem of getting persons whose source of income was curtailed or non-existent to serve as Sindaci. As technical advisors to AMG they will receive payment from AMG.
4. All Sindaci who had served under the Republican Fascist Government were dismissed. Those who were appointed by 8 army are being investigated to determine if they are to be appointed. The Prefect was allowed to retain a few trained officials even though there was some question about their political background.
5. Col Belser was of the opinion that the Prefect FEANO was a very fine person, a man of education, a highly reputable lawyer and an owner of property in Perugia. He was very much anti-fascist and one of the most respected men in the province. His father had been in the pre-fascist Government.

2. On the basis of recommendation to the Committee of National Liberation, and prominent people, and after a thorough screening on security ground, 3 non-career persons were appointed to position of Prefects and Vice Prefects of the province. As Prefect, avv. Luigi FRANO was appointed; Ing. Gianni RAVIERI DI SORRELLIO, Vice-Prefect, and Gen. Dott. Verecondo PAOLETTI, Vice-Prefect. A lawyer by the name of FAUSTO Andreani was made Sindaco of Perugia commune. Since FRANO was a non career official, he was appointed Prefetto Reggente.

6. Col Belser considered the Vice-Prefects SORRELLIO and PAOLETTI as high types of individuals representing the best elements on the Italian side.
7. The PC related how the Prefect had received a letter from the head of the Committee of National Liberation who practically had laid down an ultimatum demanding the right to determine the appointment of individuals. The Prefect had handled this matter with dispatch and informed the Committee that it was his responsibility, with the approval of AMG, and that the Committee of National Liberation was another source of the expression of public opinion and not the sole source,

8 The Deputazione Provinciale is in the course of being formed. Names have been submitted to the prefect.

9 Practically all commune have Giunte. (There are 50 communes in the province). The PC pointed out that his province was one of the largest in Italy and that his staff was rather small. He has 3 CAOs - of whom 2 have received orders to move

10 On the matter of the prefect communicating direct with the Government, the PC stated he had already informed the prefect that this must be done through AMG hereafter.

11 The PC had the following comment to make concerning the various problems: food situation - excellent; transportation - good; housing - not a substantial problem; health - good; communication - none to speak of.

12 The PC did not know whether the Raccolta had been given to the Prefect.

13 COMMENTS: The PC did not have too much information to contribute about Italian administrative side of his province but indicated very clearly his extreme efforts to ensure the selection of good high officials for the province. I informed him that I would get the detailed information from the prefect directly; that I would find out the immediate needs of the prefect for administrative officials; that I would impress on the prefect the fact that communication between him and the Government must be through AMG channels. I also informed the PC that I would bring the matter of the Advisory Council to the attention of HQ, since the general policy of payment to sindaci, even indirectly, was involved. That furthermore, the problem of its continuation would have to be considered when the province was turned over to Royal Italy.

The PCs organization of his own staff which handled the different functional phases of administrations was very good. After talking to the Prefect (see report N. 121) I discussed the matter of strengthening the Italian side of the administration with the PC and agreed readily to the desirability of getting a vice-prefect of career training appointed as quickly as possible.

He expressed the desire to retain the 2 vice-prefects for the time being at least, since of them (SCORBELLO) was handling some very important matters of road and bridge building and public utilities, while the other vice prefect (PACIETTI) was handling general welfare matters.

I left a copy of the Revised Executive Memorandum No. 39, an English translation of R.D.I. N. 111, and the provincial guide for PCs, with Col Belser.

1. I am forwarding herewith copies of report of my Chief Executive Officer, Capt. in Temple, on the local government situation in Perugia.
2. The Italian personnel matter is being taken up with the Ministry of Interior. They are to submit to us the name of a proposed career Vice Prefect Vicario. As soon as we receive the designation I will consult you. One consular official and one notario are to be sent to Perugia as soon as they are screened. Since the needs of other provinces are quite heavy and there is a shortage of adequately trained personnel, it was decided to send no other employees until the situation in Perugia is lined up again after the Vice Prefect Vicario and the two functionaries arrive.
3. The Italian Government has offered no objection to the retention for the time being of the incumbent Vice Prefects. In view of the circumstances I suggest they remain as Vice Prefects Inspectors.
4. I have brought the Public Safety situation, and the matter of payment of employees in the office of the Genio Civile (see paras. 7 & 8 of report no. 122) to the attention of the Public Safety S/O and Labor S/O respectively.
5. The subject of the creation of the Advisory Council to the Provincial Commissioner has been taken up with the Vice President, Civil Affairs Section and a letter regarding that matter is to be sent to you by him under separate cover.
6. A listing of the Prefectural officials and biographical data about the more important ones are also attached hereto. Copies were left by Capt. Temple with the P.C. of Perugia.

SUBJECT : Local Government - PERUGIA - Province
TO : 80, LACTO Region

1. I am forwarding herewith copies of report of my Chief Executive Officer, Capt. Temple, on the local government situation in Perugia.
2. The Italian personnel matter is being taken up with the Ministry of Interior. They are to submit to us the name of a proposed career Vice Prefect Vicario. As soon as we receive the designation I shall consult you. One counsel-gliere and one secretario are to be sent to Perugia as soon as they are concerned. Since the needs of other provinces are quite heavy and there is a shortage of adequately trained personnel, it was decided to send no other employees until the situation in Perugia is signed up again after the Vice Prefect Vicario and the two functionaries arrive.
3. The Italian Government has offered no objection to the retention for the time being of the incumbent Vice Prefects. In view of the circumstances I suggest they remain as Vice Prefects Inspectors.
4. I have brought the Public Safety situation, and the matter of payment of employees in the office of the Genio Civile (see paras. 7 & 8 of report no. 122) to the attention of the Public Safety C/O and later C/O respectively.
5. The subject of the creation of the Advisory Council to the Provincial Commissioner has been taken up with the Vice President, Civil Affairs Section and a letter regarding that matter is to be sent to you by him under separate cover.
6. A listing of the Prefectural officials and biographical data about the more important ones are also attached hereto. Copies were left by Capt. Temple with the P.C. of Perugia.
7. I wish to convey my thanks for the cooperation and courtesy shown Capt. Temple in Perugia.

2. Sorbello (the Vice Prefect) stated that the carabinieri situation needs investigation. The Questura is very inefficient. There is a lack of trained staff and there is poor organization. Sorbello also suspect that some spy activity is going on.

SUBJECT: Advisory Council to P.C. PERUGIA

TO : Director, Interior Sub-Commission, A.C.C.

1. In my survey of PERUGIA Province (September 26 - 29, 1944) which I found generally to be in a good state but needing a little strengthening on the Italian Administrative side by the addition of a career Vice-Prefect (see my report in process of being written), the following matter came to my attention.
2. Attached hereto is an order and schedule providing for payment of members of the Advisory Council to the Provincial Commissioner of Perugia Province.
3. Capt Falk (B), Deputy Provincial Commissioner and Col Belser (A), PC of Perugia both told me that 8th Army AMG at Brig. Upjohn's suggestion, originated the scheme.
4. The members of the Advisory Council consist of, with 3 or 4 exceptions, almost all the Sindaci of the communes of the Province (there are 58 communes). The Prefect and Vice-Prefects are members also but receive no salary since they draw a stipend as officials in the Prefettura. Three men in Perugia (Nos. 1, 2, and 4 on Schedule B) are not Sindaci, but are used as advisors (economics, supplies, legal, etc). No. 3, Andreani, is Sindaco of Perugia Commune. The PC meets with the members individually or in groups to discuss, and get advice on governmental problems.
5. The Advisory Council is apparently a device of paying Sindaci as technical advisors of AMG and thus provide some compensation for these non-salaried (on the Italian side) officials whose private sources of income have been greatly curtailed and in many cases are non-existent. The latter fact is particularly true of many ordinary workmen who were appointed as Sindaci. How many other provinces under 8th Army have used this technique is unknown to me.
6. The Prefect Regente (Peano) of Perugia informed me that all the Sindaci know that they are getting payment under a temporary AMG arrangements which would cease when the Province was turned over to Royal Italy. He also said that he anticipated little difficulty in getting the Sindaci to remain in office, with 2 or 3 exceptions, thereafter.
7. Lt Col Stephens of the Finance Sub-Commission of ACC and Lt Col Bonham-Carter, Executive Officer, Region IV (now Lazio) whom I telephoned today, both stated they knew nothing about the arrangement.

All references in this instruction to salaries, wages and ordinary and extraordinary indemnities, as well as to any other payments of any kind made to public employees, shall be construed as referring solely to those provided for by laws and regulations of the Italian Government, in effect 1 Sept. 1943, or subsequently established in liberated territory by recognized Italian Government Authority. (In territory where the Wage Adjustment Order has not yet been published, Article I will be corrected before issuance by inserting the base date of 1 September 1943.)

4. The scale of percentage increases in Article IV will be applied only to the TOTAL SUM of such of the following items as are applicable in the case of particular employees:

- a. BASE SALARY (STIPENDIO BASE)
- b. SUPPLEMENT FOR ACTIVE SERVICE (SUPPLEMENTO DI SERVIZIO ATTIVO)

--To be included only in those cases where it is legally payable under provisions of Italian law or competent authorization given by Allied Military Government prior to 1 January, 1944. Where payable, it will be calculated only on the basis provided by R.D.L. No. 1498 of December, 1942, irrespective of previous differing procedures in particular offices, and its calculation will not take into consideration any increase previously or hereafter authorized in the amount of the Mission Indemnity (Indennità di Missione), as established by R.D.L. No. 76 of 27 February, 1942.

(ii) In respect to salaries or wages which exceed L.5000 per month, no increase in excess of L.1900 shall be granted.

3. In territory which has been under control of the Fascist Republican Government, the wage adjustment for public employees (Article I) will be based on the pay in effect 1 September 1943. The base will exclude, therefore, any and all increases and adjustments in public employees' salaries, wages and ordinary or extraordinary indemnities made since that date. - c. TEMPORARY WAR ALLOWANCE (ASSEGNO TEMPORANEO DI GUERRA)
- d. FAMILY ALLOWANCE (AGGIUNTA DI FAMIGLIA).

e. BOMBARDMENT INDEMNITY (INDENNITA' DI BOMBARDAMENTO).--To be included only in those cases where it is legally payable under provisions of Italian law or competent authorization given by Allied Military Government prior to 1 January, 1944. Where payable, it will be calculated only on the basis provided by R.D. L. No. 1498 of December, 1942, irrespective of previous differing procedures in particular offices, and its calculation will not take into consideration any increase previously or hereafter authorized in the amount of the Mission Indemnity (Indennità di Missione), as established by R.D. L. No. 76 of 27 February, 1942.

f. MISCELLANEOUS COMPENSATION FOR SPECIAL GROUPS (COMPENSI VARI PER GRUPPI SPECIALI).--This term shall be understood to include all special indemnities and allowances provided by law in fixed amounts as recurrent, integral parts of the total compensation of public employees in particular branches of government service or working under particular conditions, excluding however such items as are dealt with separately in paragraph 5. Examples of items included are the Toga Indemnity for Magistrates, the Special Service Indemnity for public Safety employees, the Running (Percorrenza) Indemnity for State

 railway workers, the Evening and Night Service Indemnity for post office and other employees, etc. When such indemnities, as in the case of the Toga indemnity or the Disadvantageous Residence Indemnity, are normally paid at longer intervals than monthly, a monthly average will be established for purpose of applying the scale of percentage increases in Article IV.

5. The following special rules will govern the calculation of the payments listed below which are considered as not coming within the group of items to be totaled for the purposes of applying the scale of percentage increases in Article IV.

a. PERIODICAL PREMIUMS FOR INDUSTRIOUSNESS AND PRODUCTIVITY (PREMI PERIODICI DI OPEROSITA'E RENDIMENTO).--This term shall be understood to include all premiums however designated, which are normally and regularly paid periodically to selected employees on the basis of their relative merit, whether paid quarterly, semi-annually, or annually. The total sum allocated for the purpose of the premiums, the scale of individual payments, and the basis for selecting eligible employees shall be determined by the Governmental authority legally empowered to make such provisions, except however that in no instance may the provisions accepted entail the allocation of a larger total sum nor entail a higher scale of payments than was in effect for the last periodical premium of this type paid in 1943.

b. MONTHLY PREMIUM FOR INDUSTRIOUSNESS AND PRODUCTIVITY (PREMIO MENSILE DI OPEROSITA'E RENDIMENTO).--In all offices where this premium is based on hourly rates, it will be calculated as follows:

1. The hourly rates will be those established by law (or by the governing bodies of the offices in accordance with powers derived from law) prior to the AMG Wage Adjustment Order.

2. For State employees, the maximum number of hours for which the premium may be paid with respect to any month may not exceed 75, as prescribed by R.D.L. No. 182 of 17 February, 1924, except for State employees for whom a different maximum was prescribed by law prior to the AMG Wage Adjustment Order. For other public employees, the number of hours for which the premium may be paid with respect to any month shall be in accordance with regulations heretofore or hereafter adopted by the governing bodies of the offices, subject to a maximum of 75 hours.

In the case of public offices which, prior to the AMG Wage Adjustment Order, paid this premium on the basis of a fixed amount established by a central governing body, rather than on the basis of hourly rates and a specified number of hours, the premium will continue to be calculated on the basis of such fixed amount. Subject to the limitations of this paragraph, the premium may be paid irrespective of whether or not work is done in excess of normal hours.

c. 13TH MONTH AND SIMILAR BONUSES BASED ON EXTRA MONTHLY SALARY (TREDICESIMA MENSILITA'E ALTRE GRATIFICHE SIMILARI CORRESPONSE SULLA BASE DI UNA MENSILITA').--This type of bonus may be paid only in the event that it is annually and

(PREMI PERIODICI DI OPEROSITA' E RENDIMENTO).--This term shall be understood to include all premiums however designated, which are normally and regularly paid periodically to selected employees on the basis of their relative merit, whether paid quarterly, semi-annually, or annually. The total sum allocated for the purpose of the premiums, the scale of individual payments, and the basis for selecting eligible employees shall be determined by the governmental authority legally empowered to make such provisions, except however that in no instance may the provisions accepted entail the allocation of a larger total sum nor entail a higher scale of payments than was in effect for the last periodical premium of this type paid in 1943.

b. MONTHLY PREMIUM FOR INDUSTRIALNESS AND PRODUCTIVITY (PREMIO MEINSILE DI OPEROSITA' E RENDIMENTO).--In all offices where this premium is based on hourly rates, it will be calculated as follows:

1. The hourly rates will be those established by law (or by the governing bodies of the offices in accordance with powers derived from law) prior to the AMG Wage Adjustment Order.

2. For State employees, the maximum number of hours for which the premium may be paid with respect to any month may not exceed 75, as prescribed by R.D.L.No.162 of 17 February, 1924, except for State employees for whom a different maximum was prescribed by law prior to the AMG Wage Adjustment Order. For other public employees, the number of hours for which the premium may be paid with respect to any month shall be in accordance with regulations heretofore or hereafter adopted by the governing bodies of the offices, subject to a maximum of 75 hours.

In the case of public offices which, prior to the AMG Wage Adjustment Order, paid this premium on the basis of a fixed amount established by a central governing body, rather than on the basis of hourly rates and a specified number of hours, the premium will continue to be calculated on the basis of such fixed amount. Subject to the limitations of this paragraph, the premium may be paid irrespective of whether or not work is done in excess of normal hours.

c. 13TH MONTH AND SIMILAR BONUSES BASED ON EXTRA MONTH'S SALARY (TREDICESIMA MENSILITA' E ALTRE GRATIFICHE SIMILARI CORRELATIVE SULLA BASE DI UNA MENSILITA').--This type of bonus may be paid only in the cases of offices where, and to the extent that it is annually and customarily payable to a 11 employees as an established part of their annual compensation, in accordance with regulations and provisions adopted by central governing bodies, prior to the AMG Wage Adjustment Order. Where payable on the basis of the above criteria, the amount of the bonus will be calculated only on the sum of the base salary (plus supplement for active service) and the Family Allowance, augmented in accordance with the scale of percentage increases in article IV.

309D
d. COMPENSATION FOR ACTUAL OVERTIME EXCEEDING NORMAL HOURS OF WORK (COMPENSO PER LAVORO STRAORDINARIO EFFETTIVO ECCEDENTE L'ORARIO NORMALE).--This provision is applicable only to agencies in which overtime exceeding normal hours of work is authorized by law or by competent regulations of central governing bodies. Proper control will be exercised in accordance with such regulations, subject to the further provision that all compensable overtime must be designated as essential by the head of the office concerned, must be performed at his direction and must be verified by adequate records. Compensation will be based on such fixed hourly rates for overtime as were legally in force prior to the AMG Wage Adjustment Order, plus an increase of 70%.

6. No increase in the Mission Indemnity (Indennità di Missione) was authorized by the A.M.G. Wage Adjustment Order, since this indemnity clearly is not part of total salary or wage, but rather is in the nature of a reimbursement for the specific expenses incurred by an employee in the course of his work. The same is true of the Mileage Indemnity (Indennità Chilometrica) and other similar payments intended to offset to greater or less degree an out-of-pocket expense. However, with respect to the two indemnities mentioned, the following adjustments in rates are hereby authorized.

a. MISSION INDEMNITY (INDENNITÀ DI MISSIONE).--The daily rates established by R.D.L. No. 76 of February 27, 1942, shall be increased by 70%.

b. MILEAGE INDEMNITY (INDENNITÀ CHILOMETRICA).--The rate per kilometer established by R.D.L. No. 1311 of 14 September, 1918, as amended, shall be uniformly set at 3 lire.

7. The pertinent provisions of this Instruction will be issued without delay to all public offices concerned, as an A.M.G. order, effective immediately, supplemental to and equally binding with the Wage Adjustment Order.

8. The order containing the pertinent provisions of this Instruction shall include a statement that persons violating its terms or the terms of the Wage Adjustment Order, as here interpreted, will be liable to fine or imprisonment, with or without other lawful punishment, upon conviction by a court of competent jurisdiction.

9. No adjustments of any kind will be undertaken with respect to payments to public employees made under varying interpretations of the Wage Adjustment Order prior to issuance of the interpretive order based on this instruction.

10. For reference in the preparation of the Italian version of the pertinent provisions of this Instruction, an Italian translation of paragraphs 3 to 6, inclusive, is appended.

3. = Nel territorio che è stato sotto il controllo del Governo repubblicano Fascista la sistemazione delle paghe per i pubblici impiegati (art.1) sarà basata sulla paga corrisposta al 1° Settembre 1943.

Nella paga base, perciò, non sarà compreso qualunque aumento e sistemazione concessa dopo quella data nei confronti delle paghe dei pubblici impiegati, e delle indennità ordinarie e straordinarie. Qualunque riferimento contenuto in queste istruzioni, in merito agli stipendi, ai salari ed alle indennità ordinarie e straordinarie come qualunque altro pagamento di qualunque natura fatto ai pubblici impiegati, sarà considerato unicamente in relazione a quelli previsti dalla legge e dai regolamenti del Governo Italiano, vigenti al 1° Settembre 1943 o stabiliti successivamente nel territorio liberato dalle Autorità Governative italiane riconosciute.

4. = La gradazione dell'aumento percentuale previsto nell'art. 4 sarà applicato solamente sulla somma totale di quelle voci che seguano quando esse rappresentano parte dell'emolumento degli impiegati:

- a) STIPENDIO BASE
- b) SUPPLEMENTO DI SERVIZIO ATTIVO
- c) ASSEGNO TEMPORANEO DI GUERRA
- d) AGGIUNTA DI FAMIGLIA
- e) INDENNITÀ DI BOMBARDAMENTO.

Da includere solamente in quei casi in cui essa è legalmente dovuta secondo la legge italiana oppure secondo la competente autorizzazione accordata dall'A.M.G. prima del gennaio 1944. Quando ne è stabilito il pagamento l'indennità di bombardamento verrà calcolata solamente sulla base prevista dal R.D.I. del 16 Dec. 1942, senza tenere conto delle diverse proposte adottate precedentemente da determinati uffici ed il suo calcolo non terrà in considerazione alcun incremento precedentemente o in seguito autorizzato nell'ammontare dell'indennità di missione, come è stabilito da R.D.I. n°76 del 14 febbraio 1942.

f) COMPENSI VARI PER GRUPPI SPECIALI. Sotto questa denominazione vanno inclusi tutte le speciali indennità e gli assegni previsti dalla legge in misura fissa, come parti integrali e normali del compenso totale dei pubblici impiegati appartenenti a speciali rami della pubblica amministrazione che svolgono la loro attività in particolari condizioni, escluso tuttavia quelle voci che sono state trattate separatamente nel paragrafo n°5. Esempio delle voci da includere sono le indennità di toga per i magistrati, l'indennità di servizio speciale P.S. per gli impiegati di Pubblica Sicurezza; il premio di percorrenza per gli impiegati delle FF.SS.; indennità di servizio serale e notturno per gli impiegati delle Regie Poste e per gli impiegati quando tali indennità, come per esempio l'indennità di toga e l'indennità per di-

saggiata residenza, sono normalmente pagate a scadenze superiori al mese, sarà stabilita una media mensili ai fini dell'applicazione della graduazione dell'aumento percentuale previsto dall'art. 24.

5) Le seguenti norme speciali regoleranno il calcolo delle voci sotto elencate, le quali non si debbono considerare comprese nel gruppo delle voci da sommare ai fini dell'applicazione della graduazione dell'aumento percentuale previsto dall'art. 17;

a) PREMI PERIODICI DI OPEROSITA' E RENDIMENTO. Con questo termine s'intende comprendere qualsiasi premio comunque denominato pagato normalmente in modo periodico e regolare (trimestralmente, semestralmente o annualmente) agli impiegati che si sono distinti per merito. Le quote individuali, la somma totale stanziata allo scopo ed i sistemi di valutazione del merito degli impiegati, saranno determinati dagli organi amministrativi investiti all'uopo dalla legge, purchè tuttavia, in nessun caso le quote individuali e la relativa somma totale stanziata siano superiori a quelle relative all'ultimo premio periodico dello stesso genere pagato nel 1943.

b) PREMIO MENSILE DI OPEROSITA' E RENDIMENTO. In tutti gli uffici in cui questo premio viene corrisposto sulla base di tariffa oraria, esso verrà calcolato come segue:

1) le tariffe orarie saranno quelle stabilite dalla legge (o dagli organi amministrativi degli uffici secondo i poteri attribuiti dalla legge) prima dell'ordine dell'A.M.G. sulla sistemazione degli stipendi o salari.

2) Per quanto riguarda gli impiegati dello Stato, il numero massimo di ore per cui il premio può essere concesso per qualsiasi mese, non può accedere le 75 ore, come prescritto dal R.D.L. n° 182 del 17 febbraio 1924 ad eccezione degli impiegati statali in favore dei quali un numero superiore di ore era fissato dalla legge prima dell'ordine dell'A.M.G. sulla sistemazione degli stipendi e dei salari. Per gli altri pubblici impiegati il numero di ore per cui il premio può essere concesso, per qualsiasi mese sarà regolato dalle precedenti norme e da quelle in seguito adottato dagli organi amministrativi dei vari uffici, col limite massimo di 75 ore mensili.

Nel caso di uffici pubblici che prima dell'ordine dell'A.M.G. sulla sistemazione degli stipendi e salari, corrispondevano questo premio sulla base di una somma fissa stabilita da un organo amministrativo centrale, invece che sulla base di tariffa oraria e di un determinato numero di ore, si continuerà a calcolare il premio sulla base di detta somma fissa.

12¹²
Fermo restando le limitazioni dettate in questo paragrafo, il premio può essere pagato senza tener conto e il lavoro eccedente l'orario normale sia stato o meno svolto.

sistemi di valutazione del merito degli impiegati, saranno determinati agli organi amministrativi investiti all'uopo dalla legge, purchè tuttavia, in nessun caso le quote individuali e la relativa somma totale stanziata siano superiori a quelle relative all'ultimo premio periodico dello stesso genere pagato nel 1943.

b) PREMIO MENSILE DI OPEROSITA' E RENDIMENTO. In tutti gli uffici in cui questo premio viene corrisposto sulla base di tariffa oraria, esso verrà calcolato come segue:

1) le tariffe orarie saranno quelle stabilite dalla legge (o dagli organi amministrativi degli uffici secondo i poteri attribuiti dalla legge) prima dell'ordine dell'A.M.G. sulla sistemazione degli stipendi o salari.

2) Per quanto riguarda gli impiegati dello Stato, il numero massimo di ore per cui il premio può essere concesso per qualsiasi mese, non può accedere le 75 ore, come prescritto dal R.D.L. n°182 del 17 febbraio 1924 ad eccezione degli impiegati statali in favore dei quali un numero superiore di ore era fissato dalla legge prima dell'ordine dell'A.M.G. sulla sistemazione degli stipendi e dei salari. Per gli altri pubblici impiegati il numero di ore per cui il premio può essere concesso, per qualsiasi mese sarà regolato dalle precedenti norme e da quelle in seguito adottato dagli organi amministrativi dei vari uffici, col limite massimo di 75 ore mensili.

Nel caso di uffici pubblici che prima dell'ordine dell'A.M.G. sulla sistemazione degli stipendi e salari, corrispondevano questo premio sulla base di una somma fissa stabilita da un organo amministrativo centrale, invece che sulla base di tariffa oraria e di un determinato numero di ore, si continuerà a calcolare il premio sulla base di detta somma fissa.

Ferme restando le limitazioni dettate in questo paragrafo, il premio può essere pagato senza tener conto e il lavoro eccedente l'orario normale sia stato o meno svolto.

c) TREDICESIMA MENSILE ED ALTRE GRATIFICHE SIMILARI CORRISPONDE SULLA BASE DI UNA MENSILE. Questo tipo di gratifica può essere pagata solo dagli uffici o nella misura di cui costituisce normalmente e per consuetudine una parte di complessivo emolumento annuale pagato a tutti gli impiegati secondo i regolamenti e disposizioni adottate dagli organi amministrativi centrali prima dell'ordine Regionale dell'A.M.G. sulla situazione degli stipendi e dei salari. Nel caso in cui sia pagabile l'ammontare di questa gratifica sarà costituito solo dalla somma dello stipendio base (e del supplemento di servizio attivo) e dall'aggiunta di famiglia, aumentata dalle percentuali previste dall'Art. IV.

d) COMPENSO PER LAVORO STRAORDINARIO EFFETTIVO ECCEDENTE L'ORARIO NORMALE. Questo compenso sarà limitato ai pubblici uffici nei quali il lavoro straordinario eccedente l'orario normale è autorizzato dalla legge e da regolamenti emanati da organi amministrativi

Centrali in mancanza di contrarie disposizioni di legge. Aggiunto controllo del lavoro straordinario sarà effettuato secondo tali regolamenti, tenendo presente inoltre la norma per cui tutto il lavoro straordinario da compensare deve essere dichiarato indispensabile dal Capo Ufficio deve essere eseguito su ~~ordini~~ suo ordine ed annotato per iscritto in un registro delle ore eseguite. Le tariffe orarie di tali compense saranno quelle in vigore per il lavoro straordinario effettivo alla data dell'ordine dell'A.M.G. sulla sistemazione degli stipendi e salari, aumentato del 70% per cento.

6. - Nessun aumento è stato autorizzato sulla indennità di sistemazione degli Ordini Regionali che prevedono la sistemazione degli stipendi per il fatto che essa evidentemente non rappresenta una parte integrale dello stipendio, ma piuttosto ha il carattere di rimborso di spese effettivamente sostenute nello svolgimento delle missioni. Lo stesso vale per l'indennità chilometrica e per le altre indennità di uguale natura inteso a rimborsare in maggiore o minore misura una spesa di denaro effettuato. Tuttavia relativamente alle due indennità ora menzionate, col presente ordine, sono autorizzate le seguenti di sistemazioni sulle loro tariffe:

- a) INDENNITÀ DI MISSIONE. La misura giornaliera stabilita dal R.D.L. n°76 del 27 Febbraio 1942, dovrà essere aumentata del 70%.
- b) INDENNITÀ CHILOMETRICA. Il compenso per ogni chilometro stabilito dal R.D.L. n°1311 del 14 Settembre 1919 sarà elevato in modo uniforme a L. 3,=.

OCCETTO Perugia = Requisizione abitazioni.

1. Il 25 agosto c.a. un ufficiale dell'A.M.G. intimò al Sindaco di Perugia di far sgombrare 14 famiglie, abitanti nel palazzo Tosti - via XX Settembre, 60 - che doveva essere adibito ad alloggio di crocerossine americane.

2. Il sindaco, avv. Andreani, fece presente all'ufficiale le difficoltà che si opponevano al provvedimento, e particolarmente quella di collocare altrove le famiglie sfrattate; l'ufficiale insistè nell'ordine impartito, minacciando il sindaco di arresto.

3. Il sindaco adottò i provvedimenti necessari per l'immediato sgombero dei locali; alle famiglie allontanate fu concesso di portar seco solo materassi, biancheria e stoviglie.

4. Dopo di ciò, il Sindaco dichiarò all'ufficiale che si sarebbe dimesso dalla carica; l'ufficiale gli fece notare che il dimettersi avrebbe potuto essere interpretato come atto di ribellione.
