TO : His Excellency, The Minister of the Interior.

Your Excellency,

1. Reference your letter of October 12th, File 8499/2615 and this Sub-Commission's letter of 20th October, No. AG/1/5/3/LG.

2. We have been informed that two members of the Epuration Commission appointed by the Prefect were nominated upon the recommendation of the Committee of National Liberation, while the third was appointed by the Deputy High Commissioner for Epuration.

3. As we have already informed you, Avv. MAGNO who was a member of the Commission has already been removed from the office of Vice-prefect.

4. In view of the fact that under the new decree the members of the Provincial Epuration Commission must be appointed by a president of the council of ministers who has the discretion of appointing a new commission or confirming the existing one, this matter is purely academic now and consequently no action need be taken by us.

SUBJECT - Avv. MAGNO - Ex Vice Prefect of Pescara.

TO: - HQ AMG/AC ASENTZSI-MARCHE Region.

FROM: - P.C. CHIERI, PESCARA AND TERAMO Provinces.

1. Ref your R5/II/2/4 dated 23 Oct 44 and 13 Nov 44.

2. It is agreed that the removal of MAGNO from office has relieved the Province of one of the main causes of discontent.

3. As regards the constitution of the Provincial Defascism Commission a report on this has already been submitted under this HQ letter CP4/20/8 dated 1 Nov 44. There have been numerous changes of Provincial Commissioners and Provincial Officers since the Commission was first constituted, but the following information is submitted showing all the facts that can be ascertained from the Prefect and present Provincial Officers:-

(a) On receipt of DMF 159 dated 17 Jul 44, the Prefect of Pescara obtained the approval of the then Provincial Commissioner to proceed with the appointment of the Provincial Commission. It will be noted that this was previous to this HQ having received any instructions from higher authority.

(b) That Vice Prefect MAGNO was also the leader of the local Committee of National Liberation, which was consulted by the Prefect with regard to the nomination of the Commission, and was recommended by the Committee for the appointment to be filled by an official of the Prefettura.

(c) It is understood that the second member of the Provincial Commission, acc. MARTINI, was also appointed on the recommendation of the Committee of National Liberation.

(d) The third member, the representative of the High Commissioner, Sig CAMARRA, was appointed by the deputy High Commissioner, Dott. Mauro Seccimarro, under his letter No. 617/II/4-1 dated 18 Aug 44.

(e) Owing to the delay in the appointment of the third member by the High Commissioner, it was not until 23 Aug 44 that the Prefect of PESCARA was able to issue the necessary Prefectural Decree appointing the Provincial Defascism Commission. The decree was duly approved by the Provincial Officer of PESCARA on behalf of the Provincial Commissioner.

(f) On 23 Aug 44, this HQ received, under ref R5/507/3 dated 22 Aug 44, HQ AC letter 313/167/OA dated 4 Aug 44 outlining the policy to be adopted in the setting up of the Provincial Commissions. These instructions were communicated to Prefects by this HQ on 25 Aug 44.

(g) That the Commission was not functioning satisfactorily was made apparent owing to its failure to submit the necessary progress reports as called for in the above quoted HQ AC letter. An investigation into this was made and it was discovered that this was in a great part due to Vice Prefect MAGNO, who had since been

replaced by Vice Prefect TEMPERINI. A report to this effect was submitted to you with this letter CPT/20/8 dated 1 Nov 44.

4. From the above, it will be seen that the Commission was legally constituted in accordance with DUL 158 and with the approval of the Prefect, although it is now apparent that at the time the Prefect was more or less under the influence of MAGNO (as mentioned in Capt. Millian's report of 10/10/44 dated 21 Oct 44).

5. With regard to Sig. CAMARCA, the following is quoted from the Prefect's report to the Italian Government on this question (Tel. Gab. 1172 dated 11 Oct 44):-

"May I clarify that the delegate of the High Commissioner (Sig. CAMARCA) is a simple labourer, impulsive and completely devoid of knowledge of legal affairs and certainly unsuitable for judgement which requires a clear and enlightened legal mind".

6. The Prefect of PESCARA has also reported to the Italian Government, that the lack of progress of the Provincial Commission was due to the failure of the reinstatement of certain classes of employees (as reported in this letter CPT/20/8 dated 1 Nov 44).

7. The third member, the representative of the Fascist Party, was also appointed on the recommendation of the Provincial Commission. He is also a simple labourer, impulsive and completely devoid of knowledge of legal affairs and certainly unsuitable for judgement which requires a clear and enlightened legal mind".

8. The third member, the representative of the Fascist Party, was also appointed on the recommendation of the Provincial Commission. 1. I enclose herewith copy of Capt. Williams' report of his recent survey of this Province.

3. It is clear, I think, that we were right in substituting Avv. MAGNO by a career Vice Prefect, and in leaving in office the Prefetto Reggente Dr. PACI. The latter will, I think, continue to require some watching, especially now that the Province has been returned to the Italian Government.

TO : ALLIED GOVERNMENT COMMISSION
LOCAL GOVERNMENT SUB COMMISSION

OBJECT : Pescara Avv. Magno Pascuale.

OCT 1944

12, October, 1944

The following official report has been received by this Ministry :

" In the Province of Pescara deep discontent has arisen in regard to the Vice Prefect Avv. Magno Pascuale, who appointed himself after the Allies' liberation of the Province, because though declaring himself politically independent, in reality he directs the people towards communism, and availing himself of the career, he actively works in placing at the head of the Administrations communist elements.

All this causes deep resentment in the members of the other parties, who would also like to take active part in the public life of the Province.

Resentment is also caused by the manner in which the provincial commission of epuration was constituted. The art. 18-3 comma - of the D.L. of the 27th of July 1944 for the sanctions against fascism fixes that the provincial commissions must be composed by a Magistrate, in active service or retired, by an official of the Prefecture and by a member designated by the High Commissioner.

The Commission of the Province of Pescara, through the action of Magno, is so composed : Avv. Mancini Giovanni, retired Magistrate, , Avv. Magno Pascuale - above-mentioned - and of a certain Camerra Guerrino of the communist party, nominated by the High Commissioner.

The other parties object that the constitution of the Commission is illegal because the Avv. Mancini, though a magistrate, in the past was forced to resign for morality reasons and the Vice Prefect - as we have already mentioned, self-appointed, can not be considered a real official of the Prefecture.

We add likewise that of the members of the Commission the ex-magistrate is an official while the other two are communists: it would instead be desirable, for reasons of balance, that one of them should belong to another party.

The population considers him a harmful element to the spirit of collaboration and an obstacle to Reconstruction.

In the first years of fascism he was submitted to an admonition, but it is well known that, in a demand to obtain the revocation of the measure, he declared his compliance to fascism, of not harbouring resentments towards the regime, and he condemned his past political activities, affirming that they were due to a youthful error."

E' pervenuta a questo Ministero la seguente segnalazione ufficiale :

"Nella provincia di Pescara sono sorti vivi malumori nei riguardi del vice prefetto avvocato MAGNO PASQUALE, autonominatosi dopo la liberazione della provincia da parte degli Alleati, perchè pur dichiarandosi politicamente indipendente, in effetti orienta le masse verso il comunismo ed approfitta della sua carica per svolgere attivo lavoro inteso ad insediare a capo delle amministrazioni comunali esclusivamente elementi comunisti.

Da ciò il risentimento degli aderenti agli altri partiti, che pur desiderano partecipare attivamente alla vita pubblica della provincia.

Altro risentimento è originato dal modo come è stata costituita la commissione provinciale di epurazione.

L'art. 18 - 3° comma - del decreto luogotenenziale del 27 luglio 1944 per le sanzioni contro il fascismo stabilisce che le commissioni provinciali debbono essere composte da un magistrato, in servizio o in riposo, da un funzionario di prefettura e da un membro designato dall'Alto Commissario.

La commissione della provincia di Pescara, per manovre del Magno, è stata così composta: avv. Mancini Giovanni, magistrato a riposo, avv. Magno Pasquale - sopra citato - e da certo Camarra Guerrino del partito comunista, nominato dall'Alto Commissario.

Viene obiettato dagli altri partiti che la costituzione della commissione non è legale in quanto l'avv. Mancini, pur essendo stato magistrato, in passato fu costretto a dimettersi per ragioni di moralità, ed il Vice Prefetto, - come si è detto autonominatosi - non può essere considerato un vero

Si aggiunge altresì che dei componenti la commissione l'ex magistrato è apolitico mentre gli altri due sono comunisti; si desidererebbe invece - per ragioni di equilibrio - che uno dei membri appartenesse ad altro partito.

L'avv. Magno esplica inoltre propaganda ostile alle autorità locali costituite.

La popolazione lo giudica elemento deleterio per la unione degli animi e d'intralcio all'opera di ricostruzione.

Nei primi anni del fascismo fu sottoposto all'ammonizione ma, è risaputo, che in una domanda, intesa ad ottenere la revoca del provvedimento, ebbe a dichiarare la sua ossequienza al regime, di non nutrire idee ad esso contrarie e a condannare la sua passata attività politica sostenendo che doveva ascriversi ad errore giovanile. SUBJECT: ANTONIA, Dr. Constantino, Vice-Prefect Inspector of PERUARA

TO : His Excellency the Minister of the Interior

Your Excellency:

1. I have received a report that the above is absent from his post on sick leave and is in Rome. The report submitted to me states that, although he served under the Germans, he is believed to be a ~~non~~-collaborator.

2. Would Your Excellency please cause enquiries to be made about him and let me know if he is now fit enough to return to his post and, if so, whether his past record is such as to warrant, in your opinion, his being continued in office as Vice-Prefect Inspector of this province? If so, I shall be glad to have the usual biographical particulars of him.

3. As you know, I am somewhat concerned as to the Prefecture of PERUARA. It is important to ensure that it is manned by an adequate number of officials who are energetic and efficient and also of good reputation.

SUBJECT: Local Government Report (Pescona)

TO : SC, Region V

1. I should like to express my appreciation of your Local Government Report dated 11 August for Pescona. Without wishing to flatter anybody, it is a report of this sort which makes the work of this Sub-Commission easy, interesting, and practical, and I cannot thank Col. Holmes sufficiently for the manner in which he has put it up.

2. I would comment as follows, as Director of the Interior Sub-Commission:

Para 2. Giunta Provinciale Amministrativa - I regret that this doubt has existed, and there is no question, of course, that the ROL no. 111 of 4 April is the authority, and I am glad to see that it is now in the hands of the Prefect.

Giunta of Pescona - The professions of the Giunta members are a great advance towards democratic government and it is a most salutary sign that the old rule-of-thumb method of appointing only avvocati is dying out, at least in the province of Pescona.

Para 4 - As you know, the Prefetto Reggente is being removed, and a new nominee, whom we hope will be able to assist Colonel Holmes more effectively, is under review at this moment.

I will have immediate enquiries made as regards the Vice-Prefect Inspector Costantini ARONICA.

3. I will not comment further, as I think it will be admitted that without a good Prefect, it would not be possible to get "Pop".

4. If we from this end could do anything to help the Provincial Commissioner of Pescona or Region V, you may be sure it will be the endeavour of this Sub-Commission to do so.

present

Sindaci and whether nominated by AMG or by the population. Appointments made by the wish of the people have been continued temporarily by AMG and if proved suitable will be confirmed by the Prefect Regent subject to the approval of the Provincial Commissioner.

- (b) Scheda Personale Forno has been completed for some 150 of the more important Italian officials and are in course of vetting by the FSS and Quastum. Priority is being given to those in respect of Italian Court officials.

7. RELATIONSHIP OF AMG WITH ITALIAN OFFICIALS

- (a) The relationship between the officers of AMG and the Italian officials is good. The Italian Officials, generally speaking, appear to lack "pep" and the staff of AMG is so small that they cannot effectively increase the activities of the Italians. The administration too is suffering through having been brought into a demobilized team before it was in any way fit to live in.

There are several Italian officials who will have to go before the Administrative Machinery works smoothly as there are still many Fascists to be replaced.

- (b) The Italian Administration is not good. They lack a good ~~perfectly~~ ^{idea} would make all the difference. Like many other places they are afraid to shoulder responsibility

8. SPECIAL FACILITIES

The Prefecture, situated in a town which is so badly damaged that it has had to be evacuated, is functioning with difficulty owing to lack of accommodation for the staff.

The Administration is beginning to move slowly, but much "padding" will have to be done before it is satisfactory.

(h) As far as can be judged the Segretaria went fairly efficiently. In some cases Communes are either without a Segretario or share one with another Commune.

(i) Satisfactory.

6. DEFACTO SITUATION

(a) A number of former Fascists still remain in senior appointments as shown in Appendix "C" to this report. These are being eliminated immediately where possible.

(b) School personnel have been completed for some 150 of the more important Italian officials and are in course of vetting by the PSS and Quersura. Priority is being given to those in respect of Italian Court officials.

7. RELATIONSHIP OF AMG WITH ITALIAN OFFICIALS

(a) The relationship between the officers of AMG and the Italian officials is good. The Italian officials, generally speaking, appear to look "pep" and the staff of AMG is so small that they cannot effectively increase the activities of the Italians. The administration too is suffering through having been brought into a demolished town before it was in any way fit to live in.

There are several Italian officials who will have to go before the Administrative Machinery works smoothly as there are still many Fascists to be replaced.

(b) The Italian Administration is not good. They lack a good priority, they would make all the difference. Like many other places they are afraid to shoulder responsibility

8. SPECIAL PROBLEMS

The prefecture, situated in a town which is so badly damaged that it has had to be evacuated, is functioning with difficulty owing to lack of accommodation for the staff. The Administration is beginning to move slowly, but much "padding" will have to be done before it is satisfactory.

The Influence of the present prefect Regent, who has served under 3 Provincial Commissioners before I came, is not good and he should be removed.

Owing to the suspension of the Civil Postal Service, there is no organized system whereby the Italian Administration can communicate with its subordinate officials throughout the province. It is particularly important that some skeleton system of communications be restored as early as possible.
