1. With reference to your ACC/1/6/Int of 27 Jul 44 I have looked into the particulars of the proposed members of the Giunta Consultiva and have no comment to make on the list of members nominated. I understand that the High Commissioner selected and proposed the names to his Government.
2. In connection with the matter of the High Commissioner's staff I request that some very urgent action be taken as regards a Secretary General. A Sig. VOLPE was appointed to this post over two months ago but never moved to Sardinia and took over his duties.

The reason for this is not known here nor why it is now necessary to have another name under consideration for this appointment as notified to this Headquarters recently. But it is hoped this new appointment will be approved at a very early date and that there will be no delay in the official reporting to take over his duties.

The High Commissioner is losing many important members of his staff due to the withdrawal of service personnel. Under existing conditions it is impossible in my opinion for the High Commissioner to handle efficiently such important matters as the Granai del Popolo and introduction of the new ration scales or to initiate much needed reforms in the administration of the Island.

I therefore request that very urgent action be taken as regards filling the appointment of Secretary General to the High Commissioner for Sardinia.

- 2 By DLA 159 of 27 the responsibility for Defascism of teachers even in remote areas is on the Ministry of Instruction and seeing that that Ministry works quickly and effectively is the duty of the Education Sub-Commission (vide A/CC 250 of 15 Jul).
- 3 In order to enable it to carry out its duties it requires information and reports which is a routine matter on which it is entitled to correspond direct with the Divisional Officer (Par 7a Nat Memo 2).
- 4 It is not considered that there is any inconsistency between para 4 of the direction and para 1 of AOC/1/6/INT of 22 Jun. One says that the Scheda has no legal authority the other says that an officer may be requested to complete a form; but, if he could be compelled, the appropriate word would be required not requested.

A full instruction on defascism and a translation of the new one are both about to be issued which will clarify the situation.

SUBJECT: Region VI Report for June 1944

TO : HQ, Region VI

1. I have just read with great interest your Region VI report for June. May I state how much I have appreciated your detailed report under the heading of Local Government, Provincial.
2. It seems to me that local government is going ahead in Sardinia in a manner which compares favourably with any other province, and although there must be certain loopholes in every machinery, there seems to be few in Sardinia.
3. As regards to the statement as "to whether or not the bodies will turn out to be truly representative and give popular satisfaction", is entirely one which is on all fours with my own thoughts, but at least the opportunity has been given to them.
4. The delay in your prefectural appointments have been entirely due to the changes in the Italian Government and of varying policies, but I can inform you now that the Prefect for Sassari is being removed, and that a change has been made in regard to your Cagliari Prefect. Meanwhile, all steps are being taken to expedite the appointment of your new Prefect for Nuoro which I fully appreciate you require. The delay in the appointment of Secretary General to the High Commissioner is due to the same reasons.
5. Thank you again very much for your interesting report submitted to me through HQ & IG Section.

SUBJECT: Notes of Interview between Prime Minister Bonomi and Col. R.G.B. Spicer.

Interpreter - Lieut. Gerado
Also present - Lieut. Vernon Lewis

PLACE AND DATE: - Ministry of Interior, 14 July 1944

Conference began at noon.

1. Patriots - Col Spicer referred to his previous conversation with the Prime Minister and the proposal that the latter should broadcast and stated that since that time the subject had received and was still receiving careful examination by A.C.C. and other interests concerned. In view of this, and on military grounds, he requested that the Prime Minister should not give the suggested broadcast. The Prime Minister agreed and intimated that in any event the matter, as far as the Italian Government were concerned, was now entirely in the hands of and would be dealt with, the Ministry of War. He further intimated that any press references to the subject of patriots were made entirely by the newspapers concerned and not by or through Government arrangement.
2. Defascistization - Col Spicer enquired when the organization would be established under the Decree provisions to deal with defascistization of Ministerial staffs and particularly of Interior. The Prime Minister stated that this would be done without delay but that the position had been complicated by the fact that the Decree made no provision for separate bodies for different Ministries. It was intended to deal with this at tomorrow's Council meeting and he expected that the necessary bodies could be set up in about 7 days.
3. Giunta Consultiva for Sicily - Col Spicer referred to the delay which had occurred in the final appointment of this body and referred to the Badoglio-MacFarlane arrangement for notifying A.C.C. of the proposed members. He enquired the position. The Prime Minister stated that the difficulties in Sicily had necessitated the appointment of a new High Commissioner in place of Musotto. He proposed to appoint Aldisio and stated that the final selection and appointment of the members would have to be held up until Aldisio assumed office.
4. Giunta Consultiva Sardinia. In answer to Col Spicer's enquiry as to the reason for the delay in the appointment of this body the Prime Minister intimated that he had as yet been unable through other work, to deal with the Sardinian position. He was fully cognizant of the importance of the matter and would deal with it as soon as possible. He agreed that Ottaviano, Prefect of Sassari was wholly unsatisfactory and should be removed.

The Prime Minister knew nothing of the previous Government's nomination of Volpes for the position of Secretary General. Col Spicer undertook to write with particulars.

1723

4. over 250,000 10 4

4. The number of Communes in Groups 2, 3, and 4 in para 3 is roughly:-

Ital. Govt. Territ.	2	over 250,000	60,000 to 250,000	30,000 to 60,000
			10	25
Milit. Govt. Territ.	3			14

Note:- The Northern boundary of Military Govt. Territory has been taken as inclusive of Provinces Grosseto, Siena, Perugia, Ancona.

5. Thus there are, in all liberated Italy, only

5 Communes which will have a Giunta of 10
13 " " " " " " " " " " " "
40 " " " " " " " " " " " "

Mandreda will only have 2 Assessori. Several Provinces will not contain a single Giunta of more than 2.

6. The best method of proceeding in Military Government Territory appears to me to be as follows:

- (1) The PC should first make his own estimate of the relative strength of the parties.
- (2) This estimate should be based on the local knowledge of the PC and his Staff. The advice of the Prefect, Sindaco and other officials - FBI and CIC Reports - information from the C.I. RR. - and figures furnished by local party officials, which should not be regarded as conclusive but only as one fact.

(3) In making the estimate allowance must be made for

1722

- (a) many of the population having a particular political faith but not being members of the party concerned.
- (b) a still larger number, possibly, being of no particular political faith.
- (4) The PC should then make a provisional allotment of seats.
- (5) If the Giunta is 2, allot seats to the two largest parties.
- (6) If it is 4, allot seats to the four largest. BUT if one party is considered to represent 40% + of the population, give it 2 seats and 2 to the two next largest parties.
- (7) If the Giunta is 6, one seat to each party; BUT if one party is considered to represent, say 25-35%, give it 2 seats. If it is considered to represent 35-60%, give it 3. And the remainder one each to the next largest.
- (8) If the Giunta is 10, proceed similarly, but reducing the above rough percentages proportionately.
- (9) The above assumes the existence of only the 6 major political parties. There

might be however, in a particular commune, other parties of reasonably sufficient numbers and weight to require consideration. In that case the figures for the provisional allotment of seats must be ~~selected~~ ^{revised} accordingly.

(10) At this stage the parties chosen for representation should be asked to recommend names. It being made quite clear that the PC appoints, not they and that their nominations will not necessarily be accepted.

(11) At this point consideration should be given to the representation of social and economic interests. If the nominations received show a reasonable distribution in this respect, well and good. If not, consult again with the parties selected for representation.

(12) The foregoing is very rough and ready and will disatisfy most of those concerned. I consider however, that substantial justice would be done.

Principles which must be followed in the choice of the members of the "Giunta Municipali"

Before starting for the Communes, the Officials must:

1) Examine together with the Cabinet the files concerning the Sindaco in order to ascertain his curriculum and examine his political position.

Sindaci appointed after the fall of fascism will generally have to be confirmed, ~~unless~~ provided that there should not be against him a strong political feeling and that the person appointed can count on the support of the majority of the population.

Sindaci who were appointed during fascism, will all have to be changed.

Sindaci are not paid. Therefore all Sindaci who at the present moment receive an allowance, will have to be told that they will have to renounce to it and simply get the reimbursement of forced expenses.

2) ~~Announce~~ ^{inform} the secretary of the Comune of his coming, so that the following authorities be assembled in the seat of the Comune: The Sindaco in office, all the members of the local antifascist concentration, the *parish priest*, the commanding officer of the station of the Carabinieri, the local State ~~tax~~ physician, the local judge and the prominent people of the village.

3) Before starting Officials will contact the Secretary of the Provincial Concentration, Lawyer Pinus in order to ~~xxxx~~ be informed about recognition of the local Concentration Committees, about the parties existing in the village and the number of their members.

4) Announce the hour and the day, in which the Officials will get to the Comune so that the above mentioned citizens may meet in the Town Hall.

5) For the choice of the members of the Giunta, provided that serious opposition does not arise against the Sindaco, the Official, after having considered the population of the Comune and the formation of the various Parties, will invite the Sindaco to suggest the names of honest and competent persons ready to accept the place and who represent in the village the public opinion and the various antifascist Parties. Possibly persons who have not been members of the Fascist Party, will have to be appointed.

Information on the life of the people proposed will be taken immediately by the Official who fills a report which is undersigned by the Sindaco by the members of the Concentration and by other persons who took part to the meeting.

The official will try to make sure that every political party is represented in the Communal Administration. The Giunta will have to be formed by persons willing to collaborate with the Sindaco in the common interest.

The report will have to be signed by the Commanding Officer of the Carabinieri Station in order that the Prefettura should not need to get information on the chosen persons.

MORALE DA SENTIRE NELLA SOCIETA' DELLE GIUNTE MUNICIPALI

PRIMA DI PARTIRE PER I CONTI I MUNIZIPALI DORRANO :

1) Esaminare d'accordo col segretario il fascicolo relativo al Sindaco per rendersi conto del curriculum vitae e per esaminare la posizione politica del Sindaco in carica. I Sindaci nominati dopo la caduta del fascismo saranno in linea di massima confermati, sempre che nel paese non domini una forte corrente politica contraria e si presuma che il nominato possa avere il consenso della maggioranza della popolazione.

I Sindaci che furono assunti in carica nel periodo fascista dovranno essere tutti sostituiti.

Perché la carica di Sindaco è gratuita occorre avvertire i Sindaci in carica che godono d'indennità, che devono rinunciarvi e contentarsi del rimborso delle spese forzose.

2) Avvertire prima della partenza la segreteria del comune perché per il giorno prestabilito, in base ad un itinerario che il funzionario dovrà predisporre, siano convocati nella sede comunale: il Sindaco in carica, i membri della concentrazione antifascista locale, il parroco, il comandante la stazione carabinieri, il medico condotto, il conciliatore e le persone più in vista del paese.

3) Prima di partire i funzionari prenderanno contatto col segretario della concentrazione provinciale, avv. Pintas per informazioni circa l'avvenuto riconoscimento o meno dei comitati di concentrazione locali e circa i partiti esistenti in ciascun comune ed il numero dei loro aderenti.

4) Per conoscere l'ora e il giorno in cui i funzionari si troveranno nel comune perché i predetti cittadini possano trovarsi nella casa **1715** e.

5) Per la scelta dei componenti la giunta, ove non sorgano serie opposizioni come nei confronti del Sindaco, il funzionario tenendo di vista la popolazione del comune e la composizione dei diversi partiti inviterà il Sindaco a proporre i nomi di persone oneste competenti e disposte ad accettare l'incarico e che rappresentino nel paese l'espressione della volontà popolare.

Dovranno designarsi persone possibilmente mai iscritte al P.N.F.

Le informazioni e la biografia delle persone proposte saranno prese secondo stante dal funzionario che redige apposito verbale sottoscritto dal sindaco dei membri della concentrazione e dagli altri intervenuti.

Il funzionario farà opera di persuasione per assicurare che ogni tendenza politica rappresentata nel comune possa essere rappresentata nell'amministrazione.

(Attn: Education Officer and Provincial Commissioners).

1. Reference is made to Colonel R.G.B. SPICER's letter, ^{p. 33.} ACC/1/6/Int. Copy to Region VI for information.

2. This Subcommittee has, of course, given no directive as touching Youth Movements in Italian Occupied Territory.

3. In Allied Territory the Subcommittee has welcomed the cooperation of any groups interested in the youth and has not discouraged either religious or political groups from organizing youth movements of their own. It cannot as a matter of fact itself favor religious or political partisanship. The question arose in Region III when the Catholic Church, which has been participating in a scout movement organized by us, decided to recover the initiative and divert the movement as rapidly as might be to religious ends. Our policy was formed in conjunction with the then Minister of Education, Signor Adolfo Godeo: not of course to discourage such religious organization of the youth (or political) but to proceed, non-competitively, with our own efforts along lines neither political nor sectarian. The Boy Scout Movement, particularly in question, is in America and England strictly non-political and non-religious, though with high moral motives.

4. Our general policy is to welcome every movement in the interest of the youth, to collaborate with the Ministry of Public Instruction as to the complexion and direction of any movements we ourselves may sponsor, and to accept non-competitively any competition which may be sincerely offered by special groups. There is room in a field so wide and a need so urgent for all efforts dominated by good will.

SUBJECT: Scheda Personale

TO : AG, Region VI

1. I have been into this matter this morning. Since, of course, Region VI was never under AG, no issue has been made and such Scheda with its mandatory prefix can have no possible legal authority. The Scheda was issued in all territory coming under AG.
2. There is no intention on the part, as far as I can ascertain, of the Royal Italian Government to adopt such Scheda, but the last decree for Defascistization is now in hand, and the Italian Government had stated that it is one of the first things to which they will give priority and consideration.
3. I feel, therefore, that under the circumstances, there is nothing to be done in the matter until the new Italian Government issues their final decree and move accordingly.

TO : Vice President, Administrative Section

1. I brought this matter up in discussion with the Prime Minister this afternoon and his view was that although the Prefects might, if they so wished, consult these committees, the nominations were entirely their responsibility and that they would undoubtedly, as was found necessary, consult their ACC Regional Commissioners.
2. He was very emphatic that the Prefect was his representative and must be allowed to be the final arbiter in these matters, and should not delay the formation of the Giunta and Deputazione because the local committee cannot agree with the Prefect's choice. On the other hand, he was fully prepared to instruct his Prefects to the effect that they should give the committees' opinions reasonable consideration.
3. I propose to address Region I, through the High Commissioner, accordingly, if you concur. This rises from your conversation this morning.

TO : Food Sub-Commission

1. As a result of attending Region 6 conference recently, I forward for your information, some points which may be of interest:
2. The Food Officer, Captain Sullivan, was worried as to the power which the Prefect possesses to release grain for the Grande. In his opinion, no grain should be released by the Prefect without the visto of the High Commissioner, since he was certain that the Prefects abused their powers in this regard.
3. He states that they release grain for special interest of their own, and to millers who are their friends, for grinding.
4. Since I only attended this conference, I feel, on behalf of the Vice President, Administrative Section, it is not for me to comment in any way on this matter, but merely to forward such information as it is given.
5. The Captain of the Caribaldi Naval Cruiser stated to me that he understood Naples was short of salt, and since he made regular runs to Naples, and had a very considerable amount of deck space, that he could very easily, and without trouble, bring over 100 tons or so on each trip if it would help the salt situation of Naples at all.
6. Again, I do not comment, but merely give you the information. There are, of course as you know, thousands of tons of salt lying in Cagliari.

DEPUTAZIONE PROVINCIALE

To date the Prefettura, Amministrazione Provinciale and the Anti-fascist Concentration Committee have finally reached an agreement as to whom they think most fit to be nominated members of the Deputazione.

This was quite a hard task for all parties concerned because they had to find the right men who had no fascist precedents and then succeed in getting political party and district representation.

In the first list brought to A.C.C. for approval the following persons were nominated:

PRESIDENTE:

Ing. Manunta, Eugenio - Sassari - Liberal Party.

DEPUTATI:

Avv. Manca Tanda, Giuseppe - Ozieri - Liberal Party.
Dott. De Martis, Claudio - Tempio - Socialist.
Avv. Cassitta, Antonio - Calangianus - Communist.
Avv. Lai, Renato - Sassari - Italian Action.
Ing. Sale, Salvatore - Sassari - Sarde Action.
Ing. Brenici, Alessandro - Olbia - Demo-Christian.

SUBSTITUTES:

Avv. Saba, Michele - Sassari - Republican.
Sig. Pinna Corda, Giuseppe - Pozzomaggiore - Independent.

In looking over this list A.C.C. Sassari suggested that it would be best to have Alghero represented because it is a large and important town. It was later pointed out to A.C.C. that for the moment it was quite hard to find a person suitable for this position because all persons suggested for Alghero had fascist precedents or bad reputations. This problem was later straightened out when they referred to A.C.C. that Ingere Sale has only his office in Sassari and that his residence is in Padria which belongs to the district of Alghero.

A.C.C. refused to accept Avv. Lai, Renato on the Deputazione Provinciale because of his bad reputation as a racketeer.

In his stead the Italian Action Party nominated **1704** Berlinguer, Aldo from Sassari -- A.C.C. approved.

The Prefettura has not as yet named the Deputazione Provinciale because they still are awaiting a special secret report regarding the persons selected. This report will cover reputation, character, morale, relation with Province officials etc.

The Prefect thinks that this list will be final.

GIUNTA COMUNALE:

The Prefettura and Comitato di Concentrazione are cooperating to nominate as soon as possible the Sindaco and Giunta for each town. The system that the Prefettura is now using is that it selects the Sindaco and Giunta for each town and then passes it to the Prov. Antifascist Committee for consideration, substitution of names or approval.

2/A
The Prefettura receives this list from each town and it should be approved by the local CC.RR. and local Antifascist Committee.

If the Provincial Antifascist Committee does not approve other names are selected. If the Prefettura cannot reach a compromise with the antifascist Committee they ask A.C.C. to intervene so that a decision may be reached. (Olbia)

In the town where there are no local antifascist committee the CC.RR. send in to the Prefettura the persons whom they think most fit for each position.

A.C.C. Sassari has taken the stand that it must absolutely be informed of the nominations made for the larger towns and gives the Prefettura and Antifascist Committee a rather free hand in nominating the officials in the smaller communes.

The list sent in to A.C.C. for the Giunta Comunale of the city of Sassari included the following persons:

SINDACO:

Avv. De Villa, Ignazio - Liberal.

ASSESSORI:

Ing. Coda, Giuseppe - Independent.
Rag. Macciotta, Sebastiano - Socialist.
Prof. Saba, Vittorio - Republican.
Avv. Talu, Angelo - Sarde Action.
Prof. Pala, Carlo - Demo Christian.
Rag. Desi, Fausto - Communist.

SUBSTITUTES:

Dott. Canu, Brusco - Liberal.
Ing. Merella, Salvatore - Italian Action.

A.C.C. approved this list with exception made for Ing. Merella, Salvatore because Federal Clerk.

The Italian Action Party named in his stead Rag. Losa, Mario and A.C.C. approved.

This Giunta Comunale has not as yet been officially named for the same reasons stated for the Deputazione Provinciale.

It is presumed that by the end of this week (Saturday, June 17) the Giunta for about 10 towns will be appointed.

The Giuntas should all be named before the end of this month (June 22) but this will not be possible because first of all the Prefettura received the circular (Gazzetta Ufficiale) 15 days late and then in each village it is quite hard to find good trustworthy, reliable men without fascist precedents because more or less the intellectual class in the villages covered this

Another factor is that in certain towns the men picked by the Antifascist Committee will not accept the position of Sindaco because with the present food and clothing situation the people ask to much of the Sindaco. Proper party representation is another factor that troubles the Province Officials because the better classes of each town are doing their best to swamp Communists or men with radical Socialist principles.

1703

Prefettura and the Antifascist Committee are now working on the formation of the Giunta for the following towns: Aggius, Ala dei Sardi, Anela, Ardara, Banari, Benetutti, Bessude, Bonanaro, Bonorva, Bortigiadas, Borutta, Bottida, Budduso, Bultei, Calangianun, Castelsardo, Cargeghe, Chiamonti, Codrongianus, Cossoline, Florinas, Glave, Ittireddu, Ittiri, Laerru, Martis, Monti, Mores, Mulvi, Olbia, Olmedo, Ossi, Ozieri, Pattada, Perfugas, Ploagne, Porto Torres, Romana, S. Teresa di Gallura, Sedini, Sennori, Sorso, Thiesi, Tissi, Torralba, Uri, Usini, Villanova. (48) Sassari.

The Prefettura cannot reach an agreement with the Antifascist Committee as to the Giunta for Olbia. The Antifascist Committee wants to keep for Sindaco the actual Commissario Prefettizio who from the secret reports that the Prefettura received this man seems to be the Black Market "King" of the town (see attached report).

It seems that he is also a weak official because he lets himself be bossed around by the Antifascist Committee of Olbia.

The Prefettura have asked the Italian Army Headquarters in Cagliari if they can still hold Col. Anfossi for Sindaco of Tempio.

- (1) It is thought desirable to bring specially to the attention of Provincial Commissioners and Heads of Divisions the functions of the Interior Division of Regional H. Staff which Division is at present the responsibility of the Regional Legal Office.
- (2) In order to make these functions plain it is necessary, in the first place, to state briefly the scope and functions of the Interior Sub-Commission of A.C.C., with which the Regional Interior Division will provide a direct link. This Sub-Commission deals with all matters within the Province of the Italian Ministry of the Interior except (a) Public Safety (which includes Fire Service and A.R.P.) and (b) Public Health and Welfare. The functions of the Ministry of the Interior are multifarious and need not be detailed. It may however, be stated that the most urgent task of the present Ministry is to re-establish on a temporary and local provisional basis the machinery of Civil Administration and local Government throughout liberated Italian Territory. This involves first and foremost the selection of democratically minded and capable Administrators at every level and the subsequent observation of their activities. The principal immediate concern of the Interior Sub-Commission is to advise and assist the Italian Ministry in this latter task. It follows that the main function of the Regional Interior Division is to provide the Sub-Commission with sufficient information about local conditions and particularly about Italian Administrative personnel in the Region to enable it to carry out this task effectively so far as Sardinia is concerned.

- (3) The R.L.C. is unable, on account of his other duties, to maintain continuous personal contact with Provincial Commissioners and Italian officials throughout the island. It will therefore be necessary to de-centralise interior work to a very large extent. Provincial Commissioners and Heads of Divisions, but especially the former, are asked to be the eyes and ears of the Interior Sub-Commission in the field. In addition to making such special or routine reports as may be called for from time to time they are asked to bring to the attention of the Interior Division any matter affecting the efficiency of local Government or Administration which in their opinion might be of interest to the Sub-Commission. This applies particularly to any changes in administrative personnel. The R.L.C. will at all times give such advice and assistance as he can but, in the main the Interior Division will act only as the

(25A)
Regional Commissioner's channel for communicating to Provinces the policy of the Sub-Commission and as an agency for collecting and forwarding to the Sub-Commission, Reports, Returns and other information about Interior matters. In this connection Provincial Commissioners are asked to render in duplicate such Reports etc. as require to be transmitted to the Interior Sub-Commission.

(4) It is understood that the Liaison Officer of the Interior Sub-Commission recently attached to the Region explained to Provincial Commissioners and their staffs the policy with regard to the provisional re-constitution of the Deputational Provinciale and the Giunta Comunale. Whilst the Royal Decree authorizing such re-constitution has not been promulgated, Prefects should be encouraged to form these bodies. The Italian Government has issued instructions to its Ministries that the appropriate authorities of the Allied Control Commission should be consulted before making any senior appointments. A schedule of the Senior appointments referred to is attached at Appendix "A". It will be noted that citizen members of the Deputazione and of the Giunta are not included therein. It is understood, however, that the Prefects of the three Provinces of Sardinia have agreed to submit the names of the proposed members of these bodies to Provincial Commissioners for approval and this procedure should be followed. The Provincial Commissioner is the proper authority to screen all Provincial appointments shown under the heading "Interior" in Appendix referred to and he should ensure that he is given the opportunity to do so. It is suggested that members of Provincial Staffs should make a point of occasionally attending the deliberations of these bodies once they are constituted. Reports to this H.C. on such visits should be rendered.

(5) Close liaison should be established and maintained between Provincial Staffs and the Provincial and Communal Committees of the Anti-Fascist Concentration. These committees, in the absence of elected bodies, are the only reliable local indices of popular opinion presently available in Italy.

(6) Intimately connected with the work of the Interior Sub-Commission is the process of REPUTATION or De-Fascistization. This process is the executive responsibility of the Italian Government and in A.C.C. territory such as Sardinia active interference with the statutory procedure should be avoided. The Royal Decree law of 28 Dec. 1943 is apparently regarded in Sardinia as still operative although elsewhere doubts have been expressed about its continued validity. Pending the issuance of this new Decree the responsibility of Provincial Commissioners, so far as De-Fascistization is concerned, is limited to bringing to the attention of this H.Q. any cases of prominent persons still holding office who are well known to have been active Fascists.

 INTERIOR SUB COMMISSION
 SP. 394.

ACC/L/6/INT.

4th May, 1944.

SUBJECT: Local Government Survey of Sardinia.

TO : HC. Region VI.

1. As a result of the tour of Sardinia by Captain R.R. Temple, I desire to refer to certain matters dealing with the organization and administration of local government which you may think worthy of attention.

2. I might preface my remarks by stating that the Royal Decree on the administration of communes and provinces has just been published in the "Gazzetta Ufficiale", and that consequently the plan of local government which was adopted in Region I is now the law of the land for all of Royal Italy. Copies of the English translation will be sent to you shortly.

3. CAGLIARI PROVINCE.

(a) Giunta Provinciale Amministrativa.

According to the Prefect this body is in operation and meets regularly. This is admirable. However, under the decree, it may be necessary that the appointment of the four citizen members be made anew by the Deputazioni Provinciali and approved by the Prefect. May I suggest that copies of the agenda be secured by the P.C. and perhaps occasional meetings be attended by officers on his staff in order that they get some idea of the work of this body. I am sure that the Prefect would be glad to extend an invitation to attend a session just as those on the mainland have done.

(b) Deputazione Provinciale.

There is no Provincial Deputation in existence. The functions of that body are being carried out by a Prefectural Commissioner and a Vice Prefectural Commissioner. Since the Royal Decree provides for such a body as well as a President of the Provincial Administration to be appointed by the Prefect, the Prefect should begin seeking prospective nominees. These should be ten citizen members representative of various economic and political interests in the province.

(c) Giunta Municipale/Comunale.

To our knowledge there is no communal body of this type in existence. Its size varies from 2 to 10 according to the population of the commune. For Cagliari commune there should be about 8 members, and in the others at least 2. Here too, membership should reflect the varied economic and political interests in the commune.

(d) Sindaco.

Prefectural commissioners (Comissari Prefettini) are acting as mayors in the communes. Under the new decree the title "Sindaco" is to be

3. SAGLIARI PROVINCE.

(a) Giunta Provinciale Amministrativa.

According to the Prefect this body is in operation and meets regularly. This is admirable. However, under the decree, it may be necessary that the appointment of the four citizen members be made anew by the Deputazione Provinciale and approved by the prefect. For Cagliari commune there should be about 8 members, and in the others at least 2. Here too, membership should reflect the varied economic and political interests in the commune.

(d) Sindaco.

Prefectural commissioners (Commissari Prefettizi) are acting as mayors in the communes. Under the new decree the title "Sindaco" is to be adopted. Incidentally, the Prefect stated to Captain Temple that he intended to get out an order to that effect.

(e) Selection of officials and members of bodies.

Appointments should be scrutinized and representations made to the Prefects if glaring cases are noted wherein former fascists or other undesirable persons are being selected. Close scrutiny of the conduct and attitude of the following officials might be made in view of the comments made by the staff of the P.C. concerning their possible fascistic leanings.

Mayor of Donori

Mayor of Arborea

Mayor and Communal Secretary of Pabillonis.

24A

4. MUORO PROVINCE.

(a) Prefect.

Dr. Maitana, with the grade of Vice-Prefect "Vicario" has been acting as Prefect since 31 December 1943. Representations might be made to the Government as to why he has not been raised to a Prefect's rank and in any event, why Muoro does not have a full Prefect. The P.C. seems well satisfied with Dr. Maitana.

(b) Giunta Provinciale amministrativa.

The four citizen members of this body have not been appointed yet. Under the Royal Decree, the Deputazione Provinciale, after it is established, makes the appointments which are approved by the Prefect. Attention should be paid to the selection of persons representing the different shades of political opinion.

(c) Deputazione Provinciale.

There is no such body in existence. A Commissario Prefettizio performs the duties of that body as well as being the President of the Provincial administration. Comment and suggestions made under Cagliari Province (supra) are applicable here.

(d) Giunta Municipale/Comunale.

There is none in this Province, to our knowledge. The Royal Decree provides for at least two citizen members in each comune. These persons should represent varied economic and political interests of the comune.

(e) Sindaco.

The Prefect informed Captain Temple that Podestats (former Fascist title of mayors) have been replaced in about 50 out of the 89 communes in the province. This replacement should be completed, the title of "Sindaco" being given all mayors as provided for in the new Royal Decree.

As your Excellency is aware an arrangement has been come to between the Chief Commissioner and Marshal Badoglio whereby the Allied Control Commission is to be consulted as to the persons upon whom it is proposed to confer control of provincial government appointments.

In accordance with this agreement I shall be glad to receive from your Excellency the names of those persons whom it is proposed to appoint to the Giunta Consultiva of Sicily and Sardinia. Dear

Ruggero

1. Reference your MY/DC/19 of 20th April, I think I have gone into this matter thoroughly and I am convinced there has been misunderstanding in this matter.
2. The scheda personale which I return, and which you had enclosed in your letter and referred to in your penultimate paragraph, has nothing to do with us whatever. Captain Temple reports, "I did not have any such scheda with me, nor did I leave any behind, and I certainly left no instructions in this regard at all".
3. I, of course, agree that any matters which could possibly come under the head of instructions should come through you, and certainly not be given by one of my staff officers to a provincial Commissioner direct.
4. In going through my files, I find reference to a sentence which may have been misinterpreted, and that is contained in my letter ACC/42/3/Int, of 17th March, where I ask for "relevant matters pertaining to the officials of these communes". That entirely refers to the Sindaco himself, and the Communal Secretary. I had imagined this was known.
5. I am sorry that wording should have caused this misunderstanding. The mission of my staff officers on tour is to give information, to advise, and to help where explanation is required in the many intricacies of local government, but on no account to issue instructions. Captain Temple is the last one to neglect such orders.
6. Now that Major Alexander has attended our Course, and understands the position, I feel quite certain that matters will be easier.
7. I hope the position is now clear.
8. We are in a very difficult position in this sub-Commission as we cannot get information in from Regions and provinces. Anything you can do to help in this regard will be much appreciated.

 To Col. Spicer:-

1. There is definitely a misunderstanding here. The attached proforma that Brig. Carr sent is the "Scheda Personale" with which we have nothing to do and which, obviously, I did not have with me, and certainly left no instructions about. Furthermore, I never would leave any instructions with P.C.s but always would put them thru RC HQs.

2. I have traced the correspondence referred to by Brig. Carr. It is in File 42/3 and page 14, 55, 57, 58, 59. In your letter

1677

of 17 Mar (File 42/3/59) there
appears the phrase (para. 2) "rel-
evant matters pertaining to the officials
of these Communes" which Brig.
Carr wants cleared up.

3. I regret the rise of this
incident, but, certainly can
state unequivocally that
there is no basis for it in
so far as my actions are
concerned.

ALLIED COMMISSION FOR SARDINIA

REF: MC/DO/19

20th April 1944

FROM: Brigadier M. CARR, CBE., MC.

my Dear Spier

I was very glad to know that Captain Temple's visit to Region 6 was so successful, but I have one point to raise regarding his visit.

As I was on tour myself during most of the time, I did not see very much of Captain Temple. However, he paid me a final visit during which he said that he had collected various particulars as to officials and I told him that I thought there might be some duplication.

The situation at that time was that your Headquarters had already asked us in an official letter for particulars of ~~such a~~ confidential report on Prefects. Later we received a letter asking for the same details as regards Sindacos and "Communal Officials" of Communes of 15,000 inhabitants and over.

I told my Legal Officer (Major Alexander) who deals with Interior matters that we would interpret this to mean that details were only required of the Sindaco and the Communal Secretary.

When I got back from the conference at NAPLES I found that Captain Temple had left instructions with Provincial H.Qs. for them to obtain particulars of certain ~~other~~ Communal Officials in accordance with proforma enclosed. *I had suggested action*

As regards the proforma I wish to draw your attention to NOTE at the head. So far as I know we have no authority to insert such a note. Further, I should like to point out that a Staff Officer of your Headquarters should not issue instructions to my Provincial Headquarters but should put the matter through Regional Headquarters. I think you will agree that this is correct.

I should be glad if you would let me know what particulars are really required by you in respect of Communes. The phrase used in your official letter "Communal Officials" is somewhat vague and I presume you do not want particulars of every official who is employed under each Sindaco.

Yours

Sincerely

P.S. As far as I remember the phrase used was a general one such as "Communal Officials" but I cannot trace the correspondence at the moment as Major Alexander had it and he has not yet returned here.

1. Capt Hughes, Regional Public Safety Officer, Region VI, probably is alluding to para 5 of our letter to the Regional Interior Officers, dated 29 March (File ACC/75/Int) which I brought to his attention. He inadvertently sent ^{filed} it to me.

2. However, since we have the list, do you not think it should be brought to the attention of the different Sub-Commissions through the V.P., for further possible action?

Memo on the Decree for Defascization.

1. Article 1 does not include functionaries of such fascist offices or organizations as CUP, CIL, Vittorino Federale, Fascist Militia, fiduciary of the Gruppo Rionale, members of the Gruppo Rionale, committee, capo settore, capo nucleo, fascist school associations etc. On the whole this Article in connection with other provisions of the decree meets the promise expressed in the Order of the Day of the Council of Ministers of 24 Nov. 1943 para 7.
2. Article 2 in connection with other provisions of the decree on the whole fulfills the promise of the above mentioned Order of the Day Art. 9.
3. The procedure for the purging as described in Art. 3 seems to be reasonably well designed. There must be an error in the statement as to the member of the investigating commission mentioned under Art. 3 b. Such commission is said to have 4 members but would seem to have 5 members excluding the presiding officer and the ex-officio member. It should be pointed out that the preponderance of the bureaucratic vote over the vote of the lay members has been carefully secured and that no private person or other state official then that enumerated under Art. 3 has the right to call the attention of the exercising authority to the fascist past of an official or functionary.
4. The exemptions from the penalties described in Art. 4 have a broad scope indeed. The exemption (a) permits a particularly broad discretion.
5. In regard to Art. 5 some difficulty may arise as to what is meant by liberated national territory in the last sentence. The last sentence if technically interpreted would exclude the Italian diplomatic personnel located abroad from the application of the decree while permitting their offices abroad.
6. In para 3 of the above mentioned order of the day the Council pledged to readmit in the Public Administration persons dismissed or retired for political motives, to reexamine advancements and lack of promotions because of political motives. It would seem that this pledge has not been fulfilled by the decree under consideration although the subject could have at least been partly covered by it. Many cases suggest themselves as for instance: there might have been promotion of officials not falling within Art. 1 or 2 of the decree but which were due to the political pressure of relatives or friends of the promoted official.
7. It would seem rather strange that officials ousted under this decree retain their pension and receive indemnities.

In case of tie, the president's vote is decisive. The same organs shall determine the exemption in the case of the individual, as enumerated in the following paragraph.

The Head of the Administration or office to which the investigated person belongs shall participate in the meetings of the commission mentioned under (b) as an ex officio member, except where he himself is the subject of the disciplinary proceedings. In case of tie, the president's vote is decisive. The same organs shall determine the exemption in the case of the individual, as enumerated in the following paragraph.

1664

The evaluation of the merit mentioned under the letter (a) must in every case be in proportion to the degree of political responsibility for fascist activities of the respective employees. The request for acknowledgement of reasons for exemption and the presentation of proofs in cases mentioned under letters (a), (b), (c) and (d) must be made by the interested party in the report dealt with in subpara 1 of Art. 5 under circumstances provided therein and within 10 days after the denial of charges in cases provided for by Art. 2 above. The provision contained under letter (e) will be applied upon application made by the Administration employing the concerned person and such application will be passed upon by the Council of the Ministers.

Art. 5: To ensure the application of Art. 1 of this decree the personnel therein enumerated shall be obliged to report within 15 days after the effective date of the decree to their respective heads of branch or service all the attributes they have held. The failure to file such report within the said term will be equivalent to a negative report within the meaning of Art. 496 of the Penal Code and precludes the interested party from the benefits of Art. 4 and 9. In cases provided for by Art. 2 it is for the office heads of the bodies or enterprises employing the interested party to initiate the report which will be allowed to take its course only after a specific denial of the charges has been made by such party. In case the head of the office or body fails to act the Prefect will act in his place. The above mentioned report regarding the personnel located abroad or in enemy controlled territory must be made within one month from the day on which such personnel return or reach the liberated national territory.

Art. 6: The organs described in Art. 3 have investigative powers, may exclude testimony under oath and may request any act, document or information from any administration and also from judicial authorities. Organs of collective character may delegate such powers to one of their components. The interested party must be heard in person, if he so desires, and has a right to present explanations and written clarifications in his defence within a term fixed for such purpose, and not exceeding 2 months.

Art. 7: The fascists mentioned in the preceding Art. 1, who do not fall within any of the exceptions provided for by Art. 4, must be removed from their office and employment.

Art. 8: The act of dismissal from service or removal from office shall be executed on basis of the proposals formulated by the organs mentioned under Art. 3:

(a) As regards employees of state administrations, by the head of the respective department following the normal procedures set out by the respective organic laws; as regards functionaries of higher than 7th grade, by the Chief of the Government.

In cases provided for by Art. 2 it is for the office heads of the bodies or enterprises employing the interested party to initiate the report which will be allowed to take its course only after a specific denial of the charges has been made by such party. The above mentioned report regarding the personnel located abroad or in enemy controlled territory must be made within one month from the day on which such personnel return or reach the liberated national territory.

Art. 6: The organs described in Art. 3 have investigative powers, may exclude testimony under oath and may request any act, document or information from any administration and also from judicial authorities. Organs of collective character may delegate such powers to one of their components. The interested party must be heard in person, if he so desires, and has a right to present explanations and written clarifications in his defense within a term fixed for each purpose, and not exceeding 2 months.

Art. 7: The fascists mentioned in the preceding Art. 1, who do not fall within any of the exceptions provided for by Art. 4, must be removed from their office and employment.

(a) As regards employees of state administrations, by the head of the respective department following the normal procedures set out by the respective organic laws; as regards functionaries of higher than 7th grade, by the Chief of the Government.

(b) As regards employees of other administrations, bodies and enterprises, mentioned in Art. 1, by the Prefect, excepting however, the parastatal bodies, for which the necessary steps are taken by the heads of the department exercising control or supervision over the organic laws of there are none, by the Ministry of Interior. Whenever the organic laws of the administrations and bodies indicated under letter (a) require an opinion of councils or commissions for the validity of the above acts, the pronouncement of the organs described in Art. 3 letter (b) is considered to be for all purposes in substitution of such opinion.

Art. 9: The personnel dismissed or relieved in execution of this decree retain their benefits of pensions or retirement to which they are entitled according to the respective organic laws. The state employees who have not served for a period prescribed for acquisition of the right to a pension and who were dismissed for motives indicated in Art. 1 & 2, shall be granted a minimum pension in derogation of the valid laws, provided that they have completed 15 years of service; in other cases an indemnity will be granted amounting to as many twelfths of the last salary as there are years of completed service. This rule is extended, as far as applicable, to employees of the bodies and enterprises indicated above in Art. 1. Furthermore, functionaries and regular employees may be allowed to retain as an indemnity and in exclusion of any other

adernity the right to draw the entire salary. All they shall be able to return to their place of residence located in enemy held territory.

The nonregular personnel situated similarly to that mentioned in the preceding subparagraph will be paid at the most a three months salary to the exclusion of further benefits other than those to which they are entitled by law or contract.

Art. 10. The acts undertaken in accordance with Art. 8 may be attacked only by recourse to the State Council solely on the ground of lack of competence. The appeal must be filed within 30 days after notice of the act, the execution of which may not be suspended even under circumstances provided for by Art. 39. 2nd subpara of the Consolidated Text of 26 June 1924 No. 1054 of the law on the State Council and relative modifications.

Art. 11. The provisions of this decree will apply even in derogation of the respective organic laws, to functionaries of all classes or categories, who can otherwise not be removed from office under law.

Art. 12. The purging provided for by the present decree must be completed within three months after the day of its publication in the Gazzetta Ufficiale del Regno, special series, in the zones under the Italian administration and in other provinces within 3 months after the date at which they have been returned under the Italian administration.

Art. 13. This decree will be presented to the legislative assembly for enactment into law. The Chief of the Government proposing the decree is authorized to present the draft of the law. It shall become effective on the day subsequent to that of its publication in the Gazzetta Ufficiale del Regno. No order whatsoever it may concern to obey this decree and make it observed as law of the state.

SUBJECT: Region VI Local Government Administration

TO : HC, Region VI

1. I forward, for your information, which I understand you have not officially received, a copy of Administrative Instructions together with concomitant specimens of orders, in Italian and English.

2. These Instructions and documents are now operating in Region I, being introduced into Region II on a tentative basis, and had been issued throughout AMG territory, where they are being published under AMG authority as Regional Orders to be put into effect and operation.

3. Region VI, which is in Royal Italy, will be covered in the immediate future, by a decree of the Royal Italian Government, which has been approved.

4. I regret that the paucity of this Interior Sub-Commission's staff has made it impossible to send an officer over to your region to go into any of the detail which you may require, but I think that the Administrative Instructions and the accompanying orders are themselves self-explanatory.

5. I may remark that one of the most important points in the reconstruction of local government under ACC and AMG is the introduction of citizen members into the various bodies of local government, and when the Royal Italian Decree is published, this development, I feel confident, will be of interest to you.

6. If there are any points in this connection which are not clear, I should be only too pleased to answer them.

ALLIED CONTROL COMMISSION

ADMINISTRATIVE INSTRUCTION NO

SUBJECT: Reorganization of Provincial and Communal Administration.

TO : All Provincial Commissioners.

1. In order to restore Provincial and Municipal Administration to a pre-Fascist level, and in the interest of securing uniformity in the form and structure of local government, the following instructions are laid down for immediate application in each individual province.
2. The various government officers and organs herein mentioned derive their powers and functions from certain fundamental laws embodied in a Unified Text of Municipal and Provincial Laws of 1915, N. 148. It is necessary to revise certain provisions of these laws which were superseded or repealed under fascism. It will be found that local officials are conversant with the legislation and procedure in regard to local government bodies, and, upon issuance of the attached General Order (Appendix A), can proceed with its immediate execution.
3. The top position in provincial administration is that of Prefect. Next in order come the Vice-Prefect and Vice-Prefect Inspector (Vice Prefetto Ispettore). When the post of Prefect is vacant, and a suitable civil service career official of the necessary grade and qualifications is not available, a person must be nominated to the position who, beside the requisite executive ability, should have a suitable political background. The same principle applies when a vacancy exists for a Vice-Prefect and no suitable career official is available for appointment.
4. In both instances nominations, supported by information as to the qualifications of nominees, are to be submitted to the Regional Commissioner for transmission through channels for approval by the Chief Commissioner (FCMG Section CA Branch).
5. The selection of officials outside the civil service, as an emergency measure, is warmly recommended, for the choice of public spirited men with personality and universally accepted probity should not only enable the system of indirect rule to be greatly extended, but also infuse into the organs of local government a fresh vitality which is so abundantly needed.
6. A table of administrative grades of civil service career personnel in the Prefecture is attached for information (Appendix B), together with a chart outlining local government organization in re-

6. A table of administrative grades of civil service career personnel in the Prefecture is attached for information (Appendix B), together with a chart outlining local government organization in relation to the Ministry of the Interior (Appendix C).

7. The principal organs of provincial government which are to be revived in consultation with the Prefect are the following:

a) CONSIGLIO DI PREFETTURA ("Prefectural Council"): It is normally composed of the Prefect or his substitute, who presides, and two senior Councillors ("Consiglieri") of the Prefecture. Its powers

"1"

and

and functions are principally advisory and are regulated by specific laws, although the Prefect may request the opinion of the Council on any matter. It also has certain functions relating to the approval of accounts of communes and certain institutions, in which capacity its composition is enlarged to include additional officials.

b) GIUNTA PROVINCIALE AMMINISTRATIVA ("Provincial Administrative Board"): The formation and functions of this body are regulated by a series of laws and regulations which date from 1865. It is composed of ten members with the Prefect or his substitute as President of the Board, and includes the following officials of the Prefecture: a Vice-Prefect Inspector, two Councillors, the Chief Accountant ("Regioniere Capo") and the Intendant of Finance ("Intendente di Finanze"). The remaining four members are citizen appointees chosen from experts in legal administrative or technical matters, nominated by the Prefect and approved by the Provincial Commissioner acting for Allied Control Commission.

c) DEPUTAZIONE PROVINCIALE ("Provincial Deputation"): This body is revived to replace the fascist-created Rettorato, the latter body being now abolished. In pre-fascist provincial government, the Deputation was normally appointed by, and from among the members of, a larger elected body known as the Consiglio Provinciale ("Provincial Council"). For present purposes, since the elective Consiglio is not possible at this time, the Deputation is to be nominated by the Prefect and approved by the Provincial Commissioner on behalf of the Allied Control Commission. It consists of a President and ten unpaid citizen members. The President is also the Head of Provincial Administration ("Capo dell'Amministrazione Provinciale"). In provinces of less than six hundred thousand inhabitants, the number of members is reduced. The duties and powers are regulated by the Unified Text of 1915, above mentioned, which should be consulted if further details are required.

8. Municipal Administration is to be organized as follows:

a) SINDACI: In place of "Podestà" the democratic title of "Sindaco" (Mayor) must be universally adopted. As it is not possible to revive the electoral system at this time, new appointments or changes in the position of Mayor will be made by the Prefect who will issue a regular decree for this purpose after the person nominated has been approved by the Provincial Commissioner acting for the Allied Control Commission. Appointments of Vice-Sindaci are to be similarly effected.

b) SEGRETERIO COMUNALE ("Town Clerk"): This official is a civil servant and cannot be appointed mayor, nor be lightly dismissed. The Prefect has full power to effect transfers, retirements, and appointments of Town Clerks, and changes should be effected only through him under the standing procedure which must be closely followed.

c) GIUNTA COMUNALE ("Municipal Board of Aldermen"): This body is revived to replace the fascist-created Consulta Comunale. Normally, as in the case of the Provincial Deputation, its members, called "assessori" ("Aldermen"), would be selected by, and from among the members of, an elected Consiglio Comunale ("Municipal Council"). Under

series of laws and regulations which date from 1865. It is composed of ten members with the Prefect or his substitute as President of the Board, and includes the following officials of the Prefecture: a Vice-Prefect Inspector, two Councillors, the Chief Accountant ("Regioniere Capo") and the Intendant of Finance ("Intendente di Finanze"). The remaining four members are citizen appointees chosen from experts in legal administrative or technical matters, nominated by the Prefect and approved by the Provincial Commissioner acting for Allied Control Commission.

Normally, as in the case of the Provincial Deputation, its members, called "assessori" ("Aldermen"), would be selected by, and from among the members of, an elected Consiglio Comunale ("Municipal Council"). Under

present

present emergency conditions, the Giunta Comunale is to be nominated by the Mayor with the concurrence of the Provincial Commissioner or Provincial Officer, and the appointments confirmed by the Prefect of the Province. The numerical composition of the Giunta varies according to population as follows:

<u>INHABITANTS</u>	<u>ASSESSORI (ALDERMEN)</u>
Over 250,000	10
" 60,000	8
" 30,000	6
" 3,000	4
Smaller Communities	2

In order to cope with exceptional conditions, however, Provincial Commissioners may consider it advisable to increase the number at their discretion. The above-mentioned Unified Text of 1915 defines the appointment, powers, duties, and responsibilities of Mayors and Town Councils.

9. In the selection of members of the above agencies, consideration should be given to various shades of political opinion. Labor and agriculture, including the small farmers, must be adequately represented.

10. For the purpose of securing a proper understanding and a uniform application of these instructions, as well as other matters affecting local government, meetings of all Provincial Commissioners will be held at regular intervals. Similar meeting of all Prefects will also be held in order to assure a uniform application of the attached General Order (Appendix A) which is being issued to all Prefects in this Region.

11. In conformity with the above, from now onwards, all Provincial and Municipal Decrees and Orders must be issued in the name of the Prefect or local Mayor respectively and bear only the "VISTO" of the Provincial Commissioner or Provincial Officer concerned.
