Subject : Contract for works for the Province of Savona.

The Ministry of Transportation has communicated to this Ministry that the Prefect of the Province of Savona, by letter N. 551 of the 4 September 1945, copy of which is transmitted herewith, has ordered that for the execution of the works to be effected in said Province exclusively firms and Building Cooperatives of the same Province will be called upon to submit their bids for contracts. This measure has been taken to insure the greatest extent of employment of manpower available in the territory in question.

In this connection it is pointed out that this provision entails a limitation detrimental to the interests of the Administration, since it would relatively restrict the selection among the Firms residing in that Province which are particularly fit for given works, while it would exclude the possibility of availing oneself if necessary of the competition of other numerous Enterprises residing in other Provinces, and especially in Genoa, which may execute the works at a lesser cost and therefore with a greater economy on the part of the public Administrations.

It is noted, moreover, that such restrictions would favor the interests of the Enterprises rather than the workers of Savona: since the employment of the latter may be insured no matter which would be the Enterprise in question as it could be stipulated in the contract that the said enterprise would be bound to avail itself of the local available manpower.

We are therefore kindly requesting you Commission to please examine the possibility of ordering the revocation of the directives imparted by the Prefect of Savona with the enclosed letter.

OGGETTO Appalto lavori in provincia di Savona.-

Il Ministero dei Trasporti ha comunicato a questo che il Prefetto della Provincia di Savona, con lettera n. 551 del 4 sett. u. s., che si trasmette in copia, ha disposto che, per l'esecuzione dei lavori da effettuarsi in detta Provincia, dovranno invitarsi alle gare di appalto esclusivamente Ditte e Cooperative edili della Provincia medesima; e ciò allo scopo di assicurare il più vasto impiego della mano d'opera disponibile nel territorio relativo.-

Al riguardo, si osserva che il provvedimento implica una limitazione dannosa agli interessi dell'Amministrazione, in quanto risulterebbe relativamente ristretta la scelta fra le Ditte residenti in quella Provincia e particolarmente adatte per determinati lavori, mentre verrebbe preclusa la possibilità di avvalersi, ove necessario, del concorso di altre numerose Imprese residenti in Provincie diverse e particolarmente a Genova che potrebbero eseguire i lavori con un costo minore e quindi con maggiore economia da parte delle pubbliche amministrazioni.-

Si osserva, inoltre, che tale limitazione favorirebbe gli interessi delle Imprese piuttosto che quello dei lavoratori di Savona; poichè l'impiego di questi ultimi potrebbe essere assicurato qualunque sia l'Impresa, potendosi fare obbligo contrattuale all'Impresa stessa di avvalersi della mano d'opera locale disponibile.-

Pertanto, si prega codesta Commissione di voler esaminare la possibilità di disporre la revoca delle disposizioni impartite

The Ministry of Reconstruction asked me to examine the situation of skilled labor will find itself on 30 September as a result of the cessation of binding and restrictive provisions in connection with dismissals.

As a matter of fact the absorption of manpower may be effected in this Province exclusively by means of the execution of public works relating especially to reconstruction and re-organization of road and railways and ports, while the other industries are not in a position at the moment to engage workers.

In order to pre-arrange a plan of employment of worker at present unemployed and of those who will be made available on 30th September next, it is my intention that Enterprises of the Province of Savona be entrusted with the execution of public works thus insuring the greatest extent of employment to unemployed people and avoiding the dismissal of skilled labor presently engaged in building.

Whereas, it appears from data supplied by proper category organizations that the Firms and Cooperatives of the Province can be relied upon on account of their number, equipment and capacity to ensure a regular performance of the works to be executed in the province in question;

Whereas, the assignment of the works to Enterprises of other provinces would create a stream of immigration of workers which would further increase unemployment;

Having consulted the Provincial Labor Office in this connection, I order as follows:

- 1) The Public Administrations for the execution of works to be performed in this Province, shall invite exclusively Firms and Building Cooperatives of the Province of Savona to submit their bids for contracts.
- 2) The Public Administrations shall strictly apply the regulations contained in my decree, 11 May 1945, which governs the activities of the Building Enterprises in proportion of their activities during the period of the Nazi Fascist occupation specifying that said decree shall be applied to those Enterprises pertaining to other provinces which eventually have previously been entrusted with the works.

Provincia di Savona lavori pubblici assicurando così il più vasto impiego di disoccupati, ed evitando il licenziamento delle maestranze edili attualmente occupate.

Considerato:

Che da elementi forniti dalle competenti organizzazioni di categoria risulta che le Ditte e le Cooperative della Provincia per il loro numero, per la loro attrezzatura e capacità danno sicuro affidamento di un regolare svolgimento dei lavori in vista della esecuzione nella Provincia stessa;

Che l'assegnazione di lavori ad Imprese provenienti da altre Province creerebbe una corrente di immigrazione di operai aggravando maggiormente la disoccupazione;

Sentito in proposito l'Ufficio Provinciale del Lavoro, dispongo quanto segue:

1) Le Pubbliche Amministrazioni per l'esecuzione di lavori da effettuarsi in questa Provincia dovranno invitare alle gare di appalto esclusivamente Ditte e Cooperative edili della Provincia di Savona;

2) Le Pubbliche Amministrazioni diano rigida applicazione alle norme contenute nel mio decreto 11 maggio 1945 che disciplina la attività delle Imprese Edili in rapporto all'attività delle stesse svolta nel periodo di occupazione nazi-fascista, precisando che lo stesso decreto deve essere applicato nei confronti di Imprese provenienti da altre Province alle quali, eventualmente, in precedenza, siano stati affidati i lavori.

Quanto sopra indipendentemente dagli altri requisiti di legge richiesti normalmente per l'esecuzione di Opere Pubbliche.

Resto in attesa di pronta assicurazione.

TO : Director, Local Government and Commission

FROM : W.I. CUMMINGHAM, Captain.

1. I had a short interview with the Prefect on Tuesday morning 24th July before proceeding to Turin as ordered. The Prefect seems a good official and shows decision and keenness for his work.

2. Vice Prefect Dott. Giacomo ROLLA is a political appointee and is working well. The Prefect has a high opinion of his capabilities. There is a Vice Prefetto Politico Francesco DE S. IVO.

3. Vice Prefect Inspector Dott. Domenico MARI is a 1st Consigliere with the inspective functions. The Prefect thinks a lot of him as he worked with the Partisans for a long time and also because he is a career official.

4. The Prefect said he had sufficient officials and did not require any more. I told him the proper method of application and in case he should require any.

5. The Deputazione Provinciale was working well. It has 6 members and 2 supplenti and given representation to all the parties.

6. The A.P.A. is also formed and is meeting when necessary.

7. Giunta Comunale are working in all Comunes.

8. Sindaci have not been appointed by the Prefect's Decree in about 40 of the 69 Comunes. I pressed for their appointment quickly and said that I doubted the legality of their actions if they were not appointed properly. The Prefect said he was not in favour of appointing them until he had had an opportunity to investigate them properly. Lt. Van Lunde had raised this point with him previously and the Prefect said he had discussed the question with the legal officer and they had decided that the actions of the Sindaco would be legal without the Prefect's Decree. (Lt. Van Lunde confirmed this statement). I again pressed for proper appointments as soon as possible and the Prefect agreed to take as little time as he could in investigating the Sindaco. There are de facto Sindaci in all Comunes.

9. Segretari Comunali were in all except 2 or 3 Comunes. They were all career men and the Comunes without Segretari were being looked after by career Segretari from neighboring Comunes.

The Puerto Rican Reg. Tribune has been the director of the C.I.F. and was requested by the people. The Reg. had a very good opinion of him as he was standing up for the C.I.F. and not being swayed by them. He had no doubt that the Reg. would be able to carry on their work with confidence.

the Department of Education and the U.S. Bureau of Education.

5. Arrested and detained were in all cases. The patient had not considered some of the standard yet as he said they were C.I.N. machines and had been subjected in a hurry and more not with goals. He wanted to change them. PC. had ordered him to confirm them. I argued that all limited he could and in office immediately as they could always be discussed as any time if it was desired but in this situation they could legally not. PC. said that he thought that they would not be considered in the same way as two.

6. Ideas were given to counter suggested Communist for 600 Communists. Letter concerning had also counter suggested.

7. The U.S. had had no trouble with the U.S.S.R. when manufacturing similar missiles and were both war. ended

8. From an administrative point of view the services could be needed over at any time. The public safety problem ran was acute in many Northern provinces and W. did not think it would improve much unless we stayed for a long time with sufficient troops to back them up. He thought that if the Germans were not held for a year or until the spring they were likely to be fair when it held comparatively soon while the Communist Chinese were at the top of their power.
