LOCAL GOVERNMENT SUB COMMISSION

AG/1/11/4/LC

SUBJECT: Tri-color movement of National solidarity.

30 November 1945

TO : RC Lombardia Region (with copy for RC Brescia)

1. The Ministry of the Interior has sent to this Sub Commission for forwarding to the Prefect in the usual way the annexed letter No. 47034 (Cabinet), dated 19 November. Copies of the letter and of an English translation are enclosed for the use of yourself and the RC.
2. This Sub Commission is not aware of the Prefect's letter of 5 November to which the Ministry are replying. It would appear, however, that some question of freedom of speech in connection with a political movement is involved. On the face of it, this would seem to be a matter primarily for AG and not the Italian Government. It appears, however, that the Prefect has been communicating direct with the Italian Government on the subject, possibly without the knowledge of the RC.
3. No doubt you will consider the desirability of making inquiry into the matter.

TO:
Prefect of

File n. : 47034

BRESCIA

SUBJECT : Three colour movement of National solidarity.

We are taking note of what was communicated with your letter dated 5th inst., n. 013117 and we approve the directive you followed to make sure that, even in the case referred to, the freedom of speech be respected.

It is even suggested that you should convoke the local leaders of the Parties and political movements and confirm to them that such directive fully corresponds to the intentions of the Government, which wishes that the exercise of those fundamental liberties which are the bases of every democratic ordainment, be guaranteed with scrupulous impartiality and fairness.

REPORT NO. 172

AG/27/15/16

SUBJECT: Survey of Brazil Province - 20 July 1945
Persons interviewed:

Major General Gulleton (A) Executive Officer
Mr. BULLOCK, Prefect
Mr. VILLI, Vice Prefect Vitorino
JURANIL, Vice Prefect Inspector
INACIA, Vice Secretary

1. Major Gulleton informed me that he has been put in charge of election matters by the Provincial Government.
2. Concerning a little confusion as to whether the electoral material from Regional II had been received at the Province, but that point was clarified by the Prefect who pointed out that the material had been received and in fact has been distributed to every Comune. The Prefecture seems to be sufficiently staffed. The Prefect showed me a telegram which he had received from the Ministry of the Interior directing that Consigliere Francesco GARNINO, Carlos VILLI, be transferred to Sobrem. The Prefect said he had not communicated with the Ministry on this point and that it was quite possible GARNINO started the correspondence. GARNINO incidentally, he points out, is subject to agitation. I informed the Prefect not to permit the transfer of GARNINO until I had seen the matter up with the Ministry.
3. The Deputations Provinciale has been established. The first meeting will be held, according to the Prefect, next Monday (23 July). It follows, of course, that the 4 members of the CMA have not as yet been appointed, nor have the Electoral Commissions in the 10 "municípios" of the Province been selected.
4. The Cassellard Comissali of the Province are intact. Binsol and Ginto Cassall have been created in the 171 Comune. However, only 125 have been formally approved. The others are being processed. An Electoral Office has been established under the direct charge of Pref. INACIA, Vice Secretary, and supervised by the Vice Prefect Inspector. The Prefect later showed me the office itself, which he has established to handle this work.
5. The Prefect stated that he had called a meeting of Segretario Cassall which was held at the Prefecture. There was general discussion of the problems and some material was given to the Segretario to take back to their Comune. The Prefect then divided the Province into 10 zones with his most experienced Cassall Comissal in charge of each zone. Each of these 10 Secretaries not only has charge of the zone, but acts as adviser of the other Secretaries. They must inform him and give advice to these other Secretaries. Then the Vice Prefect Inspector and Cassallard make important towns, each time in saved by their contacting the any Cassall Comissal of each of the 10 zones who inform him as to the situation. I thought this was an excellent idea and commended the Prefect for using it. I subsequently mentioned it to the other Prefects and the that I visited. I suggest that we pass this idea on to other Regional Commissioners for other possible use. It seems to be a good scheme to take up for the loss of efficiently.

2. There was a little confusion as to whether the electoral material from Regional III had been received at the Prefecture, but that point was clarified by the Prefect who pointed out that the material had been received and in fact has been distributed to every Commune. The Prefecture seems to be sufficiently staffed. The Prefect showed us a telegram which he had received from the Ministry of the Interior directing that Comptroller Francisco GARCIA, Carlos Vill, be transferred to reform. The Prefect said he had not communicated with the Ministry on this point and that it was quite possible GARCIA started the correspondence. Quite incidentally, he pointed out, is subject to question. I informed the Prefect not to permit the transfer of GARCIA until I had taken the matter up with the Ministry.
3. The Department Provincial has been established. The first meeting will be held, according to the Prefect, next Monday (23 July). It follows, of course, that the 4 members of the committee have not yet been appointed, nor have the Electoral Commissions or the 10 "municipios" of the province been selected.
4. The Council of Ministers of the province are intact. Indeed and quite Council have been created in the 171 Communes. However, only 125 have been formally approved. The others are being examined. An Electoral Office has been established under the direct charge of Pref. INGLA, Vice Secretary, and supervised by the Vice Prefect Inspector. The Prefect later showed us the office itself, which he has established to handle this work.
5. The Prefect stated that he had called a meeting of Regional Council which was held at the Prefecture. There was general discussion of the problems and some material was given to the Council to take back to their Communes. The Prefect then divided the province into 10 zones with his most experienced Communal Secretaries in charge of each zone. Each of these 10 Secretaries not only have charge of ~~the~~ ^{new} Communes, but acts as advisers of the other Secretaries. They make inspections and give advice to those other Secretaries. Then the Vice Prefect Inspector and Comptroller make inspectional tours, each time is saved by their contacting the key Communal Secretaries of each of the 10 zones who inform them as to the situation. I thought this was an excellent idea and commended the Prefect for using it. I subsequently mentioned it to the other Prefects and the that I visited. I suggest that we pass this idea on to other Regional Comptrollers for other possible use. It seems to be a good scheme to make up for the lack of efficiently trained Regional Council.
6. The Prefect said he did not expect to receive any requests for extensions of the time-limits. The Prefect seems to be very serious 2400 capable and displayed a keen interest in his job, particularly with to the electoral lists.

7. After we had completed our discussion of electoral lists, I asked the Prefect if there was any information I could give him. He stated that some time ago, the Regional Commissioner had visited the province, at which time the Prefect said to him that the legal basis for the organization of the provinces and communes should be. Col. Puletti stated that generally it was the law of 1915. I said that that was correct, whereupon the Prefect said that he had not yet seen any written document on this point. I asked him if he was familiar with R.L. Ill of 4 April 1914, published in the Gazzetta Ufficiale of 22 April 1914, No. 21. He said he had not seen that and was not familiar with it. He directed that the "raccolta" containing the Gazzetta be brought to his office in order that I could point out the passage to him. The pages of 2 copies of the "raccolta" of the Gazzetta were made. The Prefect muttered that this was making a bad impression on the Allied officers--which, incidentally, it did. I found the correct copy of the Gazzetta containing Decree Ill and showed it to the Prefect. He said this was the first time he had seen it and that neither the Provincial Commissioner nor anyone from his office had pointed it out to him.

8. In conclusion, I would state that the province is being well safeguarded to handle the electoral lists, chiefly through the energy and interest of the Prefect. It was a little amusing to me that R.L. Ill had not been previously brought to the attention of the Prefect by the Provincial Commissioner, inasmuch as it is the basis for the organization of the provinces and communes. I did not have an opportunity to bring this matter to the attention of the Provincial Commissioner, because he did not make himself available for any conference with me. I saw him at his house at 1 o'clock, which he left at about 2. I went to his office at 2:30, waited there until 3 with his Executive Officer, whom I had to keep the appointment with the Prefect. I returned to Provincial Ill at 5 and waited until 5:30 for the P. to turn up. I thereupon had to leave.
