1. I am sending you herewith copies of the following letters, in order that all relevant documents may be together.

- a) My letter to you of 23 Oct. carrying copy of A.C. letter of 18 Oct.
- b) Your letter of 3 Nov to A.C.
- c) A.C.'s letter to us of 9 Nov.

2. I cannot understand why your letter of 3 Nov. should have gone direct to Rome (without even any copy to this HQ), but assume that it happened in the first days of your take over. The letter from your office appears itself to be a translation from an Italian version. E.g. "uphold" presumably is a confusion with the use of the phrase "hold up" = to suspend.

3. In any case please realise that you are dealing with an important matter which concerns not only Trento, but also to a much greater extent Bolzano, and to a limited extent Belluno.

4. You will please convey to the Prefect the definite instructions contained in the attached letter addressed to you. Similar instructions have already been conveyed to the Prefect of Bolzano.

1. Reference is made to this office letter of 18 Oct and to the PC's reply dated 3 Nov. A copy of the letter is sent to RC herewith, as it does not appear to have passed through Regional HQ.
2. The PC's letter is not entirely understood. In particular, I do not follow the statement in the second paragraph that the instructions issued by the Prefect were based on the instructions given by this Sub Commission with letter of 18 Oct 45. No instructions have been issued by this Sub Commission on that or any other date. The only letter bearing upon the subject from this Sub Commission which can be traced is that referred to in para (1) above, and so far as giving any instructions is concerned, this only initiates the enquiry as to what the Prefect has done.
3. With reference to para 5 of the PC's letter, inquiry has been made of the Ministry of the Interior in case they might have available a copy of the instructions issued by the Prefect. They say the Prefect did not write the Ministry but paid them a visit and the matter was discussed verbally. I have asked the Ministry to supply this office with the telegram of 3 Sep which the PC states was sent to the Prefect.
4. It is most undesirable that the Prefect should receive instructions direct from the Italian Government on this matter. As you know, it is the subject of negotiations between the Chief Commissioner and the Prime Minister and any instructions must come from A.N.G.
5. May this office please be supplied immediately with a copy of all instructions which were issued by the Prefect on this subject. Please treat the matter as urgent.

1. With reference to yours AC/1/12/15/LG dated 18 Oct 45.
- 2K The instructions issued by the Prefect of Trento for the Communes of mixed languages were based on the instructions given by AC. HQ. Local Govt. Sub Commission with letter of Oct 18, 1945
3. These instructions were of Provincial character, but the Prefettura thought it necessary to issue them in order not to let the Communes free to act independently in such a delicate question.
4. The instructions foresaw a distinction between German speaking people, who has chosen in 1939 for German citizenship and then left for Germany, and those who although having choosen for Germany, stood in Italy. Only the first are deprived of the voting rights.
5. However, before distributing these instructions, this Prefettura sent a copy of them to the Ministry of the Interior, who answered with a telegram dated Sept 3 that the same Ministry had forwarded the question to the Presidency of the Council, from which they were expecting an answer.
6. In the meantime, the Ministry of the Interior requested this Prefettura to uphold the whole matter.

Subject: Report on the trend of the electoral Service in the communes of the Provinces.

To : Ministry of Interior  
Dir. Gen. Am. Civile  
Electoral Service

Starting 15 July the work for the compilation of the electoral lists has begun also for this Province.

\*\*\*\*\*

fo. 8 — A special and circumstantial situation has arisen in the communes where there is a majority of alien population who already opted for the German citizenship. We are taking this opportunity to remind that this question does not concern only few cases but populated sections which in some communes constitute the majority of the population. This explains the urgency of a solution as regards the queries already submitted to your Ministry by this Prefecture with letter 25 July last n. 18386, copy of which is enclosed herewith, aimed to establish the position of the optants--whether alien or not--as regards their inscription in the electoral lists.

In order not to delay the trend of the electoral operation in those communes, this Prefecture has deemed necessary for its own sake to forward to the Sindaci concerned precise directives to be followed in this matter pending receipt of instruction by your Ministry.

fo. 9  
For your information we are transmitting copy of said directives, which differ in some point from the idea outlined in the above mentioned letter, and this in connection with an opinion expressed on this matter by the provincial commissioner of AMG.

PREFECTURE OF TRENTO

No. 20791/1

Trento, 20 August 1945

SUBJECT : Electoral Lists - Citizens who opted for Germany

TO : The Sindaco of \_\_\_\_\_

For the purpose of registration or non-registration in the electoral lists now being compiled, this prefecture has been asked how should those persons be considered who at the proper time opted for the German citizenship on the basis of the Law of 21 August 1939, n.1241 and of the relative agreements entered into between the Italian Government and the German Government.

With regard to this matter the following distinction must be made :

- 1) - persons who opted for the German citizenship and who transferred their residence to that State, or who obtained permission to stay in Italy, whether by dispensation from transfer granted by the Ministry of the Interior in consideration of particular circumstances or by decision of the Prefect of Bolzano and the German Consul-General at Milan in cases of old people (65 years of age) or sick people (Arts 12 and 13 of the agreements).

The persons contemplated in this category, regarding whom both conditions for the loss of Italian citizenship have been verified and who therefore no longer belong to the Kingdom, cannot be registered in the electoral lists, as they lack the essential requisite to be qualified as electors in Italy.

It is clear that <sup>or</sup> said condition does not change even if subsequently they re-entered Italy nor even if upon their return they made a declaration renouncing German citizenship, since (as it is known) the provisions of Art.9 of the Law of 13 June 1912 n.555, are not applicable to those who lost Italian citizenship in accordance with the Law of 21 August 1939 n.1241 referred to above.

As regards persons who are Italian by race and language <sup>or</sup> have their origin in communes not contemplated in the 1939 agreements, and with regard to whom the acquisition of the German citizenship must be considered as having taken place in application of the normal Law of 13 June 1912 mentioned above, any declaration renouncing foreign citizenship that may have been made cannot be considered effective, if the Officer of the State who received such declaration did not immediately give notice of it to the Ministry of the Interior for the purpose of any prohibition the re-acquisition of the former citizenship that might be made (Art.7 of RD of 2 August 1912, n.949 approving regulations for carrying the aforesaid law into execution).

- 2) - persons who opted for ~~the~~ German citizenship, but did not emigrate to Germany.

Such persons have not lost Italian citizenship (as is known, in order to lose the quality of Italian citizen a person must acquire a foreign citizenship and transfer his residence abroad - Art. 8 of the Law of 13 June 1912 No.555). They have remained therefore in possession of the civil and political rights of the Kingdom, and are thus to be registered in the electoral lists.

You are kindly requested to adhere to the criteria set forth above.

PREFETTURA DI TRENTO

Trento, il 20 agosto 1945

no 20791/1

Oggetto: Liste elettorali - Cittadini  
optanti per la Germania -

AL SINDACO di

Agli effetti della loro iscrizione e meno nelle liste elettorali in corso di formazione, è stato chiesto a questa Prefettura come debbano essere considerate le persone che optarono a suo tempo per la cittadinanza germanica, in base alla legge 21 agosto 1939 no 1241 e ai relativi accordi intervenuti tra il Governo italiano e quello tedesco.

Al riguardo bisogna distinguere:

1) persone che optarono per la cittadinanza germanica e che trasferirono la loro residenza in quello Stato, oppure che ottennero di poter restare in Italia, sia per dispensa dal trasferimento accordata dal Ministero dell'Interno in considerazione di particolari circostanze, sia per decisione del Prefetto di Bozeno e del Console Generale tedesco di Milano, nei casi di vecchi (35 anni d'età) o di malati (art. 12 e 13 degli accordi).

Le persone contemplate in tale categoria, nei confronti delle quali si sono verificate entrambe le condizioni per la perdita della cittadinanza italiana e che non appartengono quindi più al Regno, non possono essere iscritte nelle liste elettorali, mancando del requisito essenziale per poter avere la qualità di elettori in Italia.

L'obbligo che tale loro condizione non muta anche se successivamente esse sono rientrate in Italia è nemmeno se al loro ritorno avessero fatta dichiarazione di rinuncia alla cittadinanza tedesca, giacchè come è noto le disposizioni dell'art. 9 della legge 13 giugno 1912 no 355, non sono applicabili a coloro che abbiano perduta la cittadinanza italiana a norma della legge 21 agosto 1939 no 1241 sopra richiamata.

Quanto poi alle persone italiane per razza e per lingua oppure ereditarie di comuni non contemplati negli accordi del 1939, e nei confronti delle quali l'acquisto della cittadinanza germanica doveva considerarsi avvenuto come in applicazione della legge normale 13 giugno 1912 sopra citata, l'eventuale dichiarazione di rinuncia alla cittadinanza abbinata non può ritenersi efficace, se l'ufficio dello stato civile che l'ha ricevuta non ne abbia data immediata notizia al Ministero dell'Interno per l'eventuale immissione al riacquisto della prima cittadinanza (art. 7 del R.D. 2 agosto 1912 no 949 che approva le norme d'esecuzione della

Leone Pradatta

Agli effetti della loro ibridazione o meno nelle liste elettorali in corso di formazione, è stato chiesto a queste Prefetture come debbano essere considerate le persone che optarono a suo tempo per la cittadinanza germanica, in base alla legge 21 agosto 1938 n° 1241 e ai relativi accordi intervenuti fra il governo italiano e quello tedesco.

il riguardo bisogna distinguere :

1) persone che optarono per la cittadinanza germanica e che trasferirono la loro residenza in quello Stato, oppure che ottennero di poter restare in Italia, sia per dispensa del trasferimento accordata dal Ministero dell'Interno in considerazione di particolari circostanze, sia per decisione del Prefetto di Bolzano e del Console generale tedesco di Milano, nei casi di vecchi (55 anni d'età) o di miliani (art. 12 e 13 degli accordi).

Le persone contemplate in tale categoria, nei confronti delle quali si sono verificate entrambe le condizioni per la perdita della cittadinanza italiana e che non appartengono quindi più al Regno, non possono essere iscritte nelle liste elettorali, mancando del requisito essenziale per poter avere la qualità di elettori in Italia.

E' chiaro che tale loro condizione non muta anche se successivamente esse sono rientrate in Italia e nemmeno se al loro ritorno avessero fatta dichiarazione di rinuncia alla cittadinanza tedesca, giacchè come è noto le disposizioni dell'art. 9 della legge 13 giugno 1912 n° 535, non sono applicabili a coloro che abbiano perduta la cittadinanza italiana e norma della legge 21 agosto 1938 n° 1241 sopra richiamata.

Quanto poi alle persone italiane per razza e per lingua oppure originarie di comuni non contemplati negli accordi del 1938, e nei confronti delle quali l'acquisto della cittadinanza germanica doveva considerarsi avvenuto come in applicazione della legge normale 13 giugno 1912 sopra citata, l'eventuale dichiarazione di rinuncia alla cittadinanza straniera non può ritenersi efficace, se l'ufficio dello stato civile che l'ha ricevuta non ne abbia data immediata notizia al Ministero dell'Interno. Per l'eventuale inibizione al riacquisto della prima cittadinanza (art. 7 del R.D. 2 agosto 1913 n° 242 che approva le norme d'esecuzione della legge predetta).

2) Persone che optarono per la cittadinanza germanica, ma che non emigrati in Germania.

Tali persone non hanno perduta la cittadinanza italiana (come è noto, essendo necessario per la perdita della qualità di cittadino italiano l'acquisto di una cittadinanza straniera e il trasferimento della

residenza all'estero - art. 8 della legge 13 giugno 1912 (n. 535), sono rimaste quindi in possesso, dei diritti civili e politici del Regno, e pertanto vanno iscritte nelle liste elettorali.

Prego ora la SS. LL. di voler attenersi ai criteri suesposti, fino a tanto almeno che non sarà pervenuta in merito una pronuncia del Governo centrale, al riguardo interpellato da questa prefettura.

THE PREFECTURE OF TRENTO

N. 10586 I

Trento the 25 July 1945

SUBJECT: Electoral Lists: ex-Italian citizens.

TO : The Ministry of the Interior

The formation of the electoral lists in certain communes of this Province inhabited by a majority of "allogeni", i.e. people of German race and language urges the solution of certain questions pertinent to the conditions precedent to the right to vote, such as the possession of Italian citizenship.

The Communes concerned with this problem are: Salorno, Egna, Ora, Bronzolo, Magre', Cortaccia, Termeno, Montagna, Tredana, Valdarno and the mixed language fractions of Lauregno and Proves (Communes of Rumo) Senale and S. Felice (Communes of Fondo) Anterivo (Commune of Capriana).

It is well known that most of the "allogeni" population of Venezia Tridentina, taking advantage of the agreements made in that regard in 1939 between the Italian and German Governments, made use of the right of option declaring themselves in favour of German citizenship and obtaining thereafter, according to the procedure of the said agreements, naturalisation by the German authorities. Transfer to the Territory of the Reich followed for a certain number of the optants.

It has now to be decided and urgently how the following categories of persons should be considered in regard to their registration or not in the electoral lists.

- 1) Ex-Italian citizens of German origin and language, who opted at the proper time for German nationality, obtained naturalisation, emigrated to the Reich and have now returned to Italy.
- 2) Ex-Italian citizens of German origin and language who opted at the proper time for German nationality, obtained naturalisation but who remained in Italy.

It appears to this Prefecture that, with regard to the above two categories of people who no longer belong to the Kingdom having acquired another nationality, the impossibility of inscribing them in the electoral lists is beyond discussion the essential requisite for ability to have the quality of electors in the Kingdom being lacking.

- 3) Ex-Italian citizens - of German race and language - who opted for the German nationality but who did not obtain or do not appear to have obtained naturalisation and who consequently remained in Italy.

This is a case of a class of persons who although they declared

- 3) Ex-Italian citizens - of German race and language - who opted for the German nationality but who did not obtain or do not appear to have obtained naturalisation and who consequently remained in Italy.

This is a case of a class of persons who although they declared they wished to assume Reich nationality, have nevertheless remained Italian nationality because they did not obtain German naturalization. 2813

For this reason, and since they are still in possession of the political and civil rights of the Kingdom it does not appear possible to oppose the propriety of such persons being inscribed in the electoral lists.

- 4) Ex-Italian citizens - of Italian origin and language - who illegally (because of their said nationality) opted for German citizenship, obtained naturalisation, expatriated to Germany and have now returned to Italy.

./.

Even admitting that the position of these people may be, at the proper time revised in order to annul the recognition of the option by the German authorities (a recognition which did take place but which was granted contrary to the spirit of the agreements which had regard exclusively to persons who were German by race and language) ~~recognition should only have been granted to those of German origin and language~~ the fact remains that these people at present are now in possession of a foreign citizenship obtained by rejecting the Italian citizenship of origin whence it appears to be beyond doubt that they should be excluded from the electoral lists.

The above queries being of the greatest importance this Prefecture has deemed necessary to submit them to your Ministry for its urgent ruling on the subject.

OGGETTO: Liste elettorali, cittadini ex italiani

ROMA

La formazione delle liste elettorali in alcuni comuni di questa Provincia abitati in prevalenza da allogeni, da persone cioè di razza e di lingua tedesca, pone la necessità della soluzione urgente di taluni quesiti attinenti alla condizione pregiudiziale per l'esercizio del diritto di voto, come è quella del possesso della cittadinanza italiana.

Il problema riguarda precisamente i comuni di Salorno, Egna, Ora, Bronzolo, Magré, Cortaccia, Termeno, Montagna, Trodena, Valdagno e frazioni alloggiate di Lauregno e Proves (Comune di Rumo) Sanale e S. Felice (comune di Fondo) Anterivo (comune di Capriana).

E' noto che gran parte della popolazione allogena della Venezia Tridentina, giovandosi degli accordi al riguardo intervenuti nel 1939 tra il Governo italiano e quello tedesco, fece uso del diritto di opzione pronunciandosi a favore della cittadinanza germanica, conseguendo successivamente, secondo le modalità degli accordi stessi, la naturalizzazione da parte dell'autorità tedesca, cui fece seguito per una certa aliquota di optanti il trasferimento nel territorio del Reich.

Si tratta ora di decidere, e, con urgenza, come debbano essere considerate, agli effetti della iscrizione o meno nelle liste elettorali, le seguenti categorie di persone:

- 1) ex cittadini italiani, di origine e di lingua tedesca - che optarono a suo tempo per la cittadinanza germanica, ottennero la naturalizzazione, emigrarono nel Reich e sono ora rientrati in Italia;
- 2) ex cittadini italiani, di origine e di lingua tedesca, che ottennero per la cittadinanza germanica, ottennero la naturalizzazione ma che sono rimasti in Italia.

Il problema riguarda precisamente i comuni di Salorno, Egna, Ora, Bronzolo, Magré, Cortaccia, Termeno, Montegna, Prodena, Valdagno e frazioni alloglotte di Lauregno e Proves (Comune di Rumo) Senale e S. Felice (comune di Fozzo) Anterivo (comune di Capriana).

E' noto che gran parte della popolazione allogena della Venezia Tridentina, giovandosi degli accordi al riguardo intervenuti nel 1939 tra il Governo italiano e quello tedesco, fece uso del diritto di opzione pronunciandosi a favore della cittadinanza germanica, conseguendo successivamente, secondo la modalità degli accordi stessi, la naturalizzazione da parte dell'autorità tedesca, cui fece seguito per una certa aliquota di optanti il trasferimento nel territorio del Reich.

- 2) ex cittadini italiani, di origine e di lingua tedesca, che ~~2811~~ sono per la cittadinanza germanica, ottennero la naturalizzazione ma che sono rimasti in Italia.

Sembra a questa Prefettura che nei confronti di tali due categorie di persone, che non appartengono più al Regno avendo conseguita altra cittadinanza, sia fuori discussione la impossibilità della loro iscrizione nelle liste elettorali, mancando del requisito essenziale per poter avere la qualità di elettori nel Regno.

3) ex cittadini filiani - di razza e di lingua tedesca - che optarono per la cittadinanza germanica, ma che non conseguirono o non risulta abbiano conseguita la naturalizzazione e sono rimasti, per conseguenza, in Italia.

Si tratta qui d'una categoria di persone che, pur avendo dichiarato di voler assumere la cittadinanza del Reich, hanno tuttavia conservato la qualità di cittadini italiani, per non aver ottenute la naturalità germanica.

Per ciò stesso, essendo adunque tuttora, in possesso dei diritti civili e politici del Regno a tali persone non sembra possa essere contestata la possibilità della loro iscrizione nelle liste elettorali.

4) ex cittadini italiani - per origine e per lingua italiana - che optarono illegalmente, data tale loro nazionalità, per la cittadinanza germanica ottennero la naturalizzazione, espatriarono nel Reich e sono ora rientrati in Italia.

Anche ammesso che si voglia rivedere a suo tempo la posizione di costoro allo scopo di annullare l'avvenuto riconoscimento della optazione da parte della autorità tedesca, riconoscimento concesso contro lo spirito degli accordi, i quali avevano riguardo esclusivamente a persone che erano per razza e per lingua tedesca, rimane tuttavia, per ora, rispetto a codeste persone, il fatto dell'attuale possesso d'una cittadinanza straniera conseguita con il rigetto di quelle italiane di origine: onde la preclusione del loro accoglimento nelle liste elettorali sembra debba essere fuori dubbio.

Poichè peraltro i quesiti qui esposti investono principi di massima, questa Prefettura ha ritenuto di doverli sottoporre, con la presente, all'esame di codesto Dicastero per la sua urgente pronuncia in merito.

1. Reference is made to this office letter of 18 October and to the PC's reply dated 3 November. A copy of the latter is sent to AG herewith, as it does not appear to have passed through Regional HQ.

2. The PC's letter is not entirely understood. In particular, I do not follow the statement in the second paragraph that the instructions issued by the Prefect were based on the instructions given by this Sub Commission with letter of 18 October 1945. No instructions have been issued by this Sub Commission on that or any other date. The only letter bearing upon the subject from this Sub Commission which can be traced is that referred to in para (1) above, and so far as giving any instructions is concerned, this only initiates the inquiry as to what the Prefect has done.

3. With reference to para 5 of the PC's letter, inquiry has been made of the Ministry of the Interior in case they might have available a copy of the instructions issued by the Prefect. They say the Prefect did not write the Ministry but paid them a visit and the matter was discussed verbally. I have asked the Ministry to supply this office with a telegram of 3 September which the PC states was sent to the Prefect.

4. It is most undesirable that the Prefect should receive instructions direct from the Italian Government on this matter. As you know, it is the subject of negotiations between the Chief Commissioner and the Prime Minister and any instructions must come from Allied Military Government.

5. May this office please be supplied immediately with a copy of all instructions which were issued by the Prefect on this subject. Please treat the matter as urgent.

Electoral Position of German-speaking population in the Province of Trento

Reference letter from AMG Trento dated 5 November 1945.

In connection with the a/m letter from AMG I rang up Dr. Strano of the Ministry of the Interior and asked him if he was aware of the directives which the Prefect of Trento seems to have issued in regard to the electoral position of the German-speaking population. Dr. Strano answered he did not recollect having seen the copy of the directives, which according to AMG's letter para 5, the Prefect sent to the Ministry of the Interior. He then said that a solution to the problem of the electoral position of aliens had been urged by the Prefects of Belluno and Udine; the Prefect of Trento had in the meantime come down to Rome himself to interview the Ministry. At this point Dr. Strano said that the Ministry had agreed with this Headquarters that for the moment electoral operations would be limited to Italians and to those alien citizens who had opted for the Italian citizenship, while for the others no decision had been taken. This is the procedure, Dr. Strano said, that the Prefect of Trento was told to follow.

As regards the telegram of the 3 September Dr. Strano said he did not remember the date but he remembers a telegram was sent to the Prefects of Belluno and Udine outlining the same procedure the Prefect of Trento was told to follow.

Dr. Strano was not aware that a telegram dated 3 September informed the Prefect of Trento that the matter was being submitted to the Presidency of the Council of Ministers.

I pointed out that the a/m correspondence had not passed through this Headquarters and that we should be very interested in having a copy of the directives of which the Prefect of Trento had sent the Ministry a copy, and of all other correspondence there has been on the above subject between the Prefect and the Ministry of the Interior.

Dr. Strano promised he will send a letter explaining all that has been done together with the copies we have requested.

## APPENDIX II - TRENTO PROVINCE

## 1. Persons interviewed:

Major G. G. Davis (A) - RC  
 Major C. P. Gidycz (B) - MIA  
 I was unable to see the Prefect  
 because he was in Rome.

## 2. Date: 3 August 1945.

3. There are about 50 Sindaci remaining to be confirmed. The RC took a note of my advice to confirm these at once by a block decree of the Prefect, "vitated" by him. This decree will date back in each case to the establishment of AMI; and when there have been changes, the decree will cover the original Sindaco down to the date of dismissal and the new one from that date. Giunte Comunali are in even better shape: they have been confirmed in 100 out of the 127 Comunes; the Prefect is pressing on with enquiries as to the suitability of the remainder. Similarly, there are only 6 non-career Segretari Comunali.

4. The Deputazioni Provinciali was constituted in the middle of July; the 4 elective members of the GA have just been appointed.

5. There is not the racial problem here that exists in Bolzano: 10 Comunes at the inter-provincial border--around Ora and Lagna and up the valley traversed by Route 43--are almost entirely Austrian in blood and speech. These were transferred to Bolzano by the Comuna. All their interests lie towards Bolzano town; but the only means of communication from South to Route 43 and beyond is through these comunes. AMG transferred them back to Trento.

6. The rest of the province has a good deal of Austrian blood; but the RC says the people feel themselves part of Italy and only quite a small minority evince a wish for some measure of autonomy. While concealing their Italianity, however, the population shows energy and independence of spirit as if they felt themselves superior to other Italians.

7. The German security control was very strict; and the province being in the main supply route, they kept the population pretty well fed and treated. "Liberation" has therefore meant little; and the partisan movement was slight and there was little clandestine political activity. The CIL therefore count far less than in most provinces in the North. The RC told me he has been patient with them, meeting them once a week and trying to keep them informed which seems to satisfy them and keep them out of mischief. There has been no demand for any wholesale purge of the public offices of the province.

8. The RC handed me forms "A" and "B". The Prefecture is amply staffed, with a full complement of key officials, including no less than 7 Consiglieri! The desirability of transferring some of these to one or two of the many provinces that are in great need of this grade of official arises naturally, seeing that the standard adopted for all but the largest provinces at the present time is 2 Consiglieri; but I did not raise it with the RC. It is a matter that I think can be left to the Ministry of the Interior, if they should think fit to make the suggestion.

9. The material for the preparation of the electoral lists was distributed to all comunes in good time; the second batch arrived on 1 August. There appears to be no special transport difficulties in this connection.

Comunali are in even better shape: they have been confirmed in 100 out of the 127 Comunali; the Prefect is pressing on with enquiries as to the suitability of the remainder. Similarly, there are only 3 non-career Segretari Comunali.

4. The Deputazione Provinciale was constituted in the middle of July: the 4 elective members of the GA have just been appointed.

5. There is not the racial problem here that exists in Bolzano: 10 Comunes at the inter-provincial border--around Ora and Agna and up the valley traversed by Route 43--are almost entirely Austrian in blood and speech. These were transferred to Bolzano by the German. All their interests lie towards Bolzano town: but the only means of communication from South to Route 43 and beyond is through these comunes. AMG transferred them back to Trento.

6. The rest of the province has a good deal of Austrian blood; but the IC says the people feel themselves part of Italy and only quite a small minority evince a wish for some measure of autonomy. While confessing their Italianity, however, the population shows energy and independence of spirit as if they felt themselves superior to other Italians.

10. "Anagrafe" are all in order: the Municipio of Roncofies was burnt out at the beginning of May, but the population registers have been re-constructed. The Cancellari of the 2 Tribunali at Trento and Rovereto are likewise in order; the building at Rovereto was bombed but the records had previously been moved to safety. Pretori are available for all the 13 Municipi. Some of these are small and the desirability of combining them under one Electoral Commission should be examined by the Prefect.

11. The work seems to be going on with all reasonable speed: the Prefect does not think there will be any demand for extensions of time.

1. Herewith copies in duplicate of Major Williams' reports of his recent visit to these provinces: the additional copy is for forwarding to the RC if you think fit.
2. BALSANI. The major point in this province seems to be the organization of the Prefecture. The provincial report form which has now been received indicates the Prefecture is adequately staffed. I have written you separately about the Deputazione Provinciale.
3. Paras 16 to 21 of this report are Major Williams' personal observations as to the reaction of the minority problem on the preparation of the electoral lists which I think you should see, although discussions on the point are still going on between this RC and the Italian Government, and the ultimate decision may differ from the views indicated in those paragraphs. They are not, therefore, to be taken as an indication of AC policy.
4. TRENTO. The province appears to be in good shape.
5. VERONA. No particular point arises in this province either to which attention should be called. The line taken by the RC with respect to his 2 political Vice Prefects has been noted with interest. The treatment of this CLS device is one on which no general rule is laid down, as local circumstances must govern the decision whether it is best to retain it or not.
