MINUTE SHEET NO. 1

| DATE | (Minute No. 1) | PAGE |
|---|---|---|
| 12 Sept.45 | CA Section | |

1. Please see fos. 1 and 2 and the attached papers. These are telegrams sent direct by various Italian Ministries (and in one instance by the Prefect of Siena) to the Prefects of provinces in Venezia-Giulia and particularly Gorizia.

2. This Sub Commission is only concerned with 5 out of the 12 telegrams listed in fos. 1 and 2, i.e. 3 from the Ministry of the Interior and 2 from the Prefect of Siena—all marked "X" in pencil. The observations made below are confined to these telegrams.

3. It is, however, submitted that direct communication of this kind (even mere requests for information as these 5 are) should under no circumstances be countenanced. The next thing would be attempts to apply Italian law of the last 2 years (as some of the other telegrams appear to do) which would lead to inextricable confusion, besides being contrary to the Allies' undertakings.

4. Therefore, although the actual telegrams concerning this S/C are in themselves harmless, the principle involved is serious.

5. As a number of S/Cs are involved, as are also a number of Italian Government departments as well as Prefects, it is submitted that the matter should be taken up at higher than S/C level and with the Presidency of the Council of Ministers, requiring all Italian Government departments and Prefects to be informed:--

(a) that they may not send any communication to any Prefect or other Governmental agency in Venezia-Giulia:

(b) that if they do, no action will be taken on the communication:

(c) that if the Italian Government requires any information about Venezia-Giulia, it should address its inquiry to this HQ.

Raised at Ex. Comm. meeting 14/9.
Agreed that a letter should be sent on the lines of S. Mar. 1. It adds These telegrams are probably due to routine drill in the clerical and postal offices. A communication is marked "All Prefects" and they work on a standard list which has not been amended. If possible enquiry should clear with a lower level than the Prime Minister. MC. V.P.C.A.S.

We beg of this office to transmit the a/m amount, in order to close the accounts which are referred to the whole period of war, and that have not been closed yet in spite of the previous correspondence between this office and the competent office.

To the Prefects of the Kingdom.

45555 N 50599 On being appointed Home Minister, I beg to send my cordial greetings to all Prefects. I rely on their loyal and active collaboration. Given the hard moments our Nation is passing through any effort for rebuilding will be succesfull only if the State, after having restored Democracy, will be able to assure the essential conditions of a sure social and legal life.

I am sure, all Prefects will absolve their task with equity and firmness in order that laws are respected and any violence and arrogant imposition are repressed. Only in this way, trust will be restored and it will be possible for us to reach the free elections and the Prefects will be allowed to carry out by concrete results all their tasks. They shall first of all, try to diminish the discomfort of the population and to help them in their most urgent needs promoting all initiatives that may favour the revival of national life.

The Home Minister, Romita.

1. Reference your letter of 7 December 1945 file 130/AMG/72/1/65, requesting this Headquarters to forward to the Ministry of the Interior a telegram from the President of the Trieste Zone.

2. Inasmuch as the Zone President's letter indicated the receipt of a telegram by him of which we knew nothing and apparently dealt with the subject of some political significance, the Sub Commission decided to obtain some information concerning the matter before complying with your request.

3. It was stated by the Public Safety Department of the Ministry of the Interior that the telegram of the 29th October which the Zone President refers to had been sent to some Prefectures soliciting compliance with certain instructions.

4. The Ministry stated that it had been inadvertently sent to Trieste. There is some reason to doubt the reliability of that statement.

5. A copy of the circular in question with English translation is attached hereto for your information only. It should not be transmitted to the Zone President. The latter should merely be told to forget about the matter, since the telegram requesting compliance was inadvertently sent to him.

6. The telegram and translation which were to be forwarded are returned herewith also.

SUBJECT: Italian Government communications to and from Venezia-Giulia.

24 October 1945

TO : SCAO Venezia-Giulia.

1. Reference is made to your 13C/AMG/33/1 of 16 October 1945, enclosing for onward transmission telegram dated 9 October from Trieste Prefecture to Sig. NENNI, Vice President of the Council of Ministers. We also refer to letter of the same reference and date forwarding telegram from Trieste Prefecture to Caserta Prefecture, which telegram, however, was not in fact enclosed.

2. This office has hitherto taken the view that no communication is permitted between Italian officials in your area and the Italian Government, whether through AMG/AO channels or not, and has refrained from forwarding the various communications sent to it by Departments of the Italian Government for forwarding. The view so taken is based upon the AFHQ directive to Eight Army for Allied Military Government in Venezia-Giulia, reference AG 387/207 G/G-O dated 26 June 1945, which states as follows in para 5:

> "No civilian local governmental official will be permitted to refer to or obtain instruction from authorities outside the area."

3. It is gathered, however, from the 2 communications referred to in para 1 above (and other similar ones that have been received recently) that you do not interpret the above-quoted directive in quite the same way. In this connection, this office also has referred again to your 13C/AMG/33 / of 22 September as to telegrams forwarded by the Italian Government direct to your area. From the last sentence in para 2 of that letter, it does appear that you see no objection to the Italian Government communicating with authorities in Venezia-Giulia provided the papers are passed through this HQ and your HQ.

4. This HQ will have no objection to forwarding communications from Italian Government Departments to local authorities in Trieste provided that this practice is accepted by you; and we should like to be quite clear on this point.

SUBJECT: Italian Government communications to Venezia Giulia

19 September 1945

TO : The Presidency of the Council of Ministers

1. The Allied Military Government of Venezia Giulia has sent to this Headquarters a number of telegrams recently dispatched by various Italian Government Departments to the Prefects of Gorizia, Pola and Trieste. These telegrams also include three sent by the Prefect of Gorizia.

2. The Italian Government is aware of the provision whereby communications between it and the local authorities in Venezia Giulia are suspended. The sending of these telegrams is a source of embarrassment to the Allies. Moreover, the Prefectures in question do not exist and no action can be taken upon the telegrams in question.

3. It is requested that instructions be given to all Italian Government Departments and all Prefects that under no circumstances will they dispatch letters, circulars or any other type of communication to any authority in Venezia Giulia. This Headquarters will provide for the transmission of such instructions to the Prefects of the provinces under Allied Military Government in the North.

4. If the Italian Government or any Prefect desires to obtain information on any matter affecting Venezia Giulia, such information must be requested by letter addressed to this Headquarters which will use its best endeavours to obtain it.

To Provincial Committees of National Liberati and to Prefects of th
Kingdom.

With legislative decree approved by the Counsel of Ministers on 22 Aug
1945 the Provincial delegations of the ~~/~~ High Commissary for the sanctions
against Fascism must be renewed and approved in charge according to the follo
wing criterion: they will be composed of 3 members of which one will function
as President each of the members will be in charge for one of the 3 branches
of the sanctions to proceed with the gathering of necessary elements for the
application of the law. Together they will estimate (value) the elements
notifying the High Commissary in the matter of punishments, crimes and
epuration, they will be able to denounce to authority and to Provincial
Commissions. The 3 members of the delegation must be named by the High Commis-
sary for the sanctions against Fascism on proposal of the local Committee
of National Liberation and owing to approval of the Prefect they must be
recognized as anti-fascists and incorruptible, capable to perform their
work, they will have to consider the criterion of the High Commissary which
is: to be clement towards less favoured classes and severe towards the high
classes, for all those who occupying directive pisitions have ~~elaborated~~
cooperated in elaborating and applicating Fascist laws. Within 3 months
from the beginning of the charge the delegations must assume the task to
finish the denounces, awaiting the publications of decrees. The Provincial
Committees of Liberation and the Prefects must proceed promptly with the as-
signement of the names proposed.

The Vice-president of the Counsel and High Commissary for sanctions
against Fascism.
