I do not think we could carry the matter any further - at least at present. If SCAO says that the present time is inopportune - as he does in his para 5.(a) - we must take his word for it. He is the "man on the spot." 3. I do not think, however, that we can take up the suggestion implicit in his paras 5.(b) (c) and (d) i.e. that the I.G. should be asked not to re-employ a person suspended by the current expatriation machinery of Venezia Giulia. This is entirely their business. 4. I suggest therefore that we let the matter drop for the moment and that one of us may pay a visit to Trieste after the communal elections and see what we can do by conversation. In the meantime we should let the Ministry know - semi-officially by telephone and not by letter - that the present moment is inopportune. 5. The difficulty is really the old one that AMG does not appreciate that Venezia Giulia is part of Italy at present or what this implies - but there it is <i>Elph</i>	18

As instructed by Capt. Vella, I called up Dott. CATENACCI, Director of the Personnel, Ministry of the Interior, and informed him that this S/C is prepared to endeavour to secure the information requested in the attached draft letter, but only concerning the area under AMG jurisdiction. It will therefore be necessary that the Ministry, when writing to us, limit the request to said area. I reminded then Dott. Catenacci that all communications between the Ministry and their dependent organs in AMG territory must be effected through channels, i.e. AC, AMG.

4. A solution would be for the I.G. to supply
~~the~~ blanks of their own forms of Schede, &
Area Primitives to distribute them to officials (&
both those dismissed & those still in service) to
fill up, & return. This puts the clerical work
on the officials concerned & makes the Area

5. There still remains the question of allowing

Nota che, al fine di rendere giustiziata ai colpiti dalla disca-

1. Thank you for your UDI/1/9 of 21 April and the enclosed lists and schedule personnel. I appreciate your sending in such complete information and I shall transmit it to the Ministry of the Interior.
2. I observe that the papers you have sent me relate only to personnel (both permanent and temporary) who are considered not to be subject to evacuation proceedings. It would be appreciated if similar lists and schedule might be supplied about those who are subject to evacuation. If you will please refer to the Ministry's letter of 25 January (a copy of which I sent you with my AC/3/A/LG. of 31 January), you will see that the Ministry of the Interior would be grateful for information about this latter class of personnel also.

1. I am obliged to you for your 130/332/92/60 of 19 March. In view of the considerations set out in that letter I have informed the Italian Government that the time is not opportune to pursue their suggestions of having their own expiration forms filled up by Italian civil servants in Venesia Giulia.
2. I shall be happy to take advantage of the offer made in para 6 of your letter and therefore you would from time to time let me have a list of the names of officials suspended as a result of AG expiration proceedings. I shall pass this on to the Italian Government.
3. I should appreciate it if the lists may also state the posts held by the officials concerned and the offices in which they were formerly employed.
4. It will only be necessary to send up lists of officials who (if the territory were under Italian jurisdiction) would be considered dependent from the Ministry of the Interior. With officials of other branches of the State Administration I am not concerned.
5. I would like to refer to para 5b of your letter. I fully appreciate the point of view there set out and to some extent one can sympathize with it. I am sure you will understand, however, that this HQ has no power to control the actions of the Italian Government in deciding how they will or will not employ their own civil servants in their own territory.

Att'n: Local Govt. Sub-Commission.

1. Thank you for your AC/3/ALG of 7 March 1946.
2. I fully appreciate the position of the Italian Government and their natural desire to re-employ with the minimum delay any suitable civil servants leaving this territory during our occupation.
3. In such cases, and it is unlikely that they would be numerous, it is well understood that the Italian Government would wish to have full particulars beforehand, but apart altogether from other considerations, this fact in itself does not seem to justify the need for every civil servant in this territory completing the form you forwarded.
4. So far as officials who remain in this territory and continue to serve under A.M.G. are concerned, there seems to be no need for such an arrangement, since the original documents would be immediately available if the control of the territory is once more vested in Italy.
5. But there are other, and, from the point of view of the continued admin. under A.M.G. of this territory, more important considerations to be taken into account, and I summarize them hereunder.
 - (a) At this time in particular, when political feeling is high, the completion of the forms in question by civil servants for the Italian Government would inevitably be used as political propaganda by the opposing factions in this territory to the detriment of A.M.G. in particular and of the already difficult situation in general.
 - (b) Already the Presidents of the Expiration Commissions have complained that several instances have been brought to their notice of the

and their natural desire to re-employ with the minimum delay any suitable civil servants leaving this territory during our occupation.

3. In such cases, and it is unlikely that they would be numerous, it is well understood that the Italian Government would wish to have full particulars beforehand, but apart altogether from other considerations, this fact in itself does not seem to justify the need for every civil servant in this territory completing the form you forwarded.

4. So far as officials who remain in this territory and continue to serve under A.M.C. are concerned, there seems to be no need for such an arrangement, since the original documents would be immediately available if the control of the territory is once more vested in Italy.

5. But there are other, and, from the point of view of the continued admin. under A.M.C. of this territory, more important considerations to be taken into account, and I summarize them hereunder.

(a) At this time in particular, when political feeling is high, the completion of the forms in question by civil servants for the Italian Government would inevitably be used as political propaganda by the opposing factions in this territory to the detriment of A.M.C. in particular and of the already difficult situation in general.

(b) Already the Presidents of the Duration Commissions have complained that several instances have been brought to their notice of the re-employment during suspension in Italy of persons suspended by their Commissions and they feel that there is no purpose in continuing expatriation proceedings if persons ⁴⁹¹⁰ with by them have only to go into Italy to obtain re-employment, sometimes in better positions.

(c) There is already almost universal criticism of the Commissions in this Territory of the way in which they discharge their duties and that criticisms will undoubtedly increase if it is known that, in effect, the Italian Government is setting aside their decisions by re-employing or contemplating the re-employment of persons suspended by the Commissions.

(d) It is in the interests of the Italian Government that the population of this territory should feel that the Commissions have the support of the Italian Government in purging the territory of fascists. This can only be achieved if the Italian Government refrain from any action, e.g. re-employing civil servants from this territory during their period of suspension, or taking any other action in connection with such persons likely to create the impression that they may do so, whilst this area is under A.M.C.

6. In order to meet the legitimate desires of the Italian Government in this matter, arrangements could be made to implement the suggestion made in para 5 of my letter, 132/AC/92/51 of 26 February 1946 or to furnish particulars of any exhumed person who applies for re-employment with the Italian Government. This would, of necessity, entail some delay in the re-employment of such persons, but it seems the lesser of two evils in the interests of all concerned.

7. I would very much like to suggest that Major Temple pays this headquarters a visit so that the matter can be more fully discussed.

SUBJECT : Operation of Italian Civil Servants

TO : SAC, Venezia Giulia

1. I refer to your 13 0/30/37/51 of 26 February which has been carefully studied in this HQ. Your observations have given rise to certain further considerations which I should like to put before you.

2. As you know, the Italian Government are solely responsible for the operation of civil servants employed by them. Any such now resident in Venezia Giulia are, of course, not under the jurisdiction of the Italian Government but under that of AMG and the Italian Government can take no operation proceedings in respect of them. Such officials may however become subject to Italian jurisdiction in one or two ways, i.e., either on transfer to Italian control of the area in which they are now working, or upon the official leaving Venezia Giulia, transferring to Italian Government territory and presenting himself there.

3. The Italian Government primarily want to do is to anticipate these possible events. They wish to obtain now the necessary particulars about a civil servant in Venezia Giulia so that when (and only when) a particular official does come under their jurisdiction, they can initiate formal proceedings without delay and decide quickly whether operation sanctions are to be applied to him or not. It is felt here that this is a commendable attitude on the part of the Italian Government because it aims at bringing the long drawn out processes of operation to an end as quickly as possible.

4. I of course agree that the original "Schede Personali" as set for the AMG operation procedure should not leave your control. Moreover I entirely agree with you that the task of compiling copies of these Schede would be very heavy and impracticable. It was not intended to suggest either of these things. The forms I sent you are the Italian Government's own blank forms. The proposal was that each individual official should complete the form. AMG HQs and the offices of Area Presidents are only asked to distribute these forms to the officials, to receive them back completed and send them up. There is however the additional information requested in the last paragraph of the Ministry's letter which, unless you still think the compilation of this information is too heavy a burden to impose on Area Presidents, would be appreciated.

5. It is desired of course that the forms should be completed ⁴⁹⁰⁸ only by those officials still in employment but also by those who had been suspended.

6. Although the main reason for the Government's suggesting this procedure is to hasten eventual Italian operation proceedings, there is a secondary question of the Italian Government taking into their own service some of the officials you may have suspended. While such officials remain in your territory

10/3/16 or 7 March 16 to WAC, Venezia Giulia (Continued)

that question of course does not arise, but they may well desire to cross your rear boundary and seek to earn their living in Italian Government Territory.

7. This question has arisen with great frequency in the past two years and the policy followed by this HQ is well defined. It is that this is entirely a matter for the Italian Government. The Italian Government being responsible for epuration in their own territory, it follows that if they choose to re-employ some one disarmed by AM they are free to do so and they take the sole responsibility for any consequences. As you know, the Italian epuration law permits an official to be taken into or remain in employment while the epuration proceedings relating to him are under way. Accordingly the Italian Government have in many cases taken to their employment officials previously suspended by AM and in due course the Italian epuration judgment has been pronounced, sometimes favourably to the official, sometimes not. This HQ expresses no opinion and does not interfere in any way.

6. In the light of these observations I should be grateful if you will reconsider your objections to the policy described above being applied. The position is well understood by the Italian Government. I do not think there could be any suggestion that the Italian Government have covertly in your territory because the position of their employer officials would not arise until they were out of your jurisdiction. I feel, too, that AM prestige and authority could not be affected by anything that Italian Government may do in their own territory. Rather it is the prestige of the Italian Government that might suffer if they should re-employ to any extent people suspended by AM for action.

FILE REF.: 13C/AMG/92/54.
SUBJECT: Expiration of Italian Civil
Administration Personnel.

Date: 26 Feb 46.

TO: ALLIED COMMISSION (attn Local
Government Sub-Commission)

1. Reference your AC/3/A/LG of 31 Jan and your AC/3/A/LG of 12 Feb.
2. With regard to para 4 of your letter of 12 Feb, the following considerations arise:

(i) There are two classes of persons affected:

- (a) Those persons expropriated in V.G. who, if expropriated in Italy under Italian decrees would not be re-employed.
- (b) Those persons who under the latest Italian decrees may be re-employed after being expropriated.

(ii) With regard to persons under (a) it is felt that it would be wrong in present circumstances for these persons to be employed by the Italian Government, as it would almost inevitably lead to the suggestion that the Italian Government has sovereignty in this Territory, and A.M.G. prestige and authority here would suffer accordingly.

(iii) The same considerations arise regarding the persons referred to at (b) although perhaps not to the same extent.

3. The original Scheda Personali and records prepared for the use of Commissions set up by A.M.G. should not, it is considered, leave V.G., and the last sentence of your letter of 12 Feb indicates your approval. They would in fact be preserved, and handed over to the eventual Sovereign Power when a decision as to the future of the territory is made.

4. From a practical point of view it is impossible to compile copies of the Scheda Personali and records, since the Commissions are fully employed and have not got the staff to do it. From a policy point of view there are obvious objections in present circumstances to supplying such particulars to the Italian Ministry.

5. There could not however, it is felt, be any objection to supplying the Italian Government, for information with a list, each month, of the names of officials suspended or dismissed, and details of the sentences, and this could be arranged if you agree.

SUBJECT: Expiration of Italian Civil
Administrative Personnel Dependent on
Ministry of Interior

12 February 1946

TO : SOAO, AMI, Venezia Giulia

1. Reference our letter of 31 January 1946, file AC/3/A/1G.
2. I have had a conversation with Col BOWMAN in Rome yesterday, and at his request I am sending you a clarification of the aforementioned letter, which, I regret, had broader implication than it was intended to convey.
3. It is clearly understood by this Headquarters that the Italian Government is in no position because of its lack of jurisdiction to carry out the provisions of its expiration laws, so far as personnel employed in the AMG Venezia Giulia areas. These persons are subject to expiration under whatever orders have been issued by AMI. If and when the territory is returned to jurisdiction of the Italian Government, all personnel will be subject to the provisions of the Italian expiration laws. It is naturally assumed that all expiration forms including schede personali will have been compiled for all personnel by AMG and will be available in the future to the Ministry of Interior, in the event of turnover of territory.
4. You are probably aware of the fact that at the present time the Italian Government is handicapped by a great shortage of trained administrative personnel. In order to assist the Government in the possible utilization of personnel that have been suspended from office in Venezia Giulia it would be appreciated if schede personali and other pertinent information concerning their activities be sent to this Headquarters. There is a possibility that some of these persons, after having undergone expiration proceedings pursuant to Italian law, will then be available for service in provinces under the control of the Italian Government.

SUBJECT : Epuration Civil Administration of the Interior

We transmit the usual fortnightly report on the trend of epuration ~~as~~ of permanent personnel in the Civil Administration of the Ministry of the Interior.

It has been thought necessary to make it clear that the data referred in column f) are lower than those indicated in the previous report, since the number of appeals dropped by the High Commissariat Adjust for epuration during the period 15 January -31 January last has been taken into account.

Si trasmettono i consueti prospetti
 quindicinali relativi all'andamento dell'epu-
 razione del personale appartenente ai ruoli
 dell'Amministrazione Civile dell'Interno.

Si ritiene precisare che i dati di
 cui alla colonna f) sono inferiori a quelli
 indicati nel prospetto precedente, in quanto
 si è tenuto conto del numero dei ricorsi cui
 l'Alto Commissariato Aggiunto per l'epurazione
 ha rinunciato durante il periodo 15 gennaio -

SUBJECT : Vice Prefect Inspector BISIA Dott. Edoardo

This Ministry has to examine the position of Vice Prefect Inspector Bisia Dr. Edoardo, who, having already been attached to the Prefecture of Trieste, found himself at the date of 8 September 1943 on a mission to Lubiana, returning subsequently to said Prefecture.

Since we have no elements to ascertain what behaviour said official has had during his stay in the Prefecture of Trieste and Lubiana (which places this Ministry in the impossibility of ascertaining whether the assumptions foreseen in DDL 9.11.1945 n. 702 concerning the epuration of public administrations are applicable in connection with Dr. Bisia) you are kindly requested to please investigate in this matter letting us know the result of your inquiry.

Questo Ministero deve provvedere all'esame della posizione del Viceprefetto Ispettore Bisia Dr. Edoardo, che, già addetto alla Prefettura di Trieste, trovavasi, alla data dell'8 settembre 1943, in missione a Lubiana, rientrando successivamente alla suindicata Prefettura.

Poiché non si hanno elementi per accertare quale comportamento abbia tenuto il predetto funzionario durante la sua permanenza nelle sedi di Trieste e di Lubiana, (il che pone questo Ministero nella impossibilità di stabilire se nei confronti del Dr. Bisia ricorrano le ipotesi previste dal D. L.L. 9.11.1945 n°702, concernente l'epurazione delle pubbliche amministrazioni) si

This Ministry is examining the position of all personnel of the Civil Administration of the Interior, in connection with the appliance of provisions of art.s 1 & 2 of D.L.L. 9.11.1945 n. 702.

This examination cannot however be extended to the personnel serving in the Prefectures of Udine, Gorizia, Trieste and Pola, which are still under the Administration of the Allied Military Government, a fact which deprives this Ministry of the possibility of knowing the position of such personnel from the epuration point of view, and also in connection with a possible use of that staff in the provinces of that have been returned to the Italian Government.

Therefore with the purpose of now obtaining every item of information that might be useful to complete, as soon as possible, our review of the epuration proceedings in regard to all the personnel, we ask your Hon. Commission kindly to consider the possibility of delivering to the Prefects of the a/m provinces the personal schede for epuration, of which a suitable number is hereto attached, which should be compiled by all the staff serving in their respective provinces, be it permanent staff, temporary (avventizio) or suspended or, for some reason or other, absent from office.

We also should be very grateful if the Hon. Allied Commission would invite the Prefects to send to this Ministry, when the schede are returned, a list of those employees who, according to the above mentioned legislative provision, are liable to epuration proceedings and of those who are not, compiling for the former, detailed and separate information reports in which special importance should be given to the conduct and activity of each one of them after the 8th September 1943.
